Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of the Hackley School 403(b) Defined Contribution and Tax Deferred Annuity Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

"EisnerAmper" is the brand name under which EisnerAmper LLP and Eisner Advisory Group LLC provide professional services. EisnerAmper LLP and Eisner Advisory Group LLC are independently owned firms that practice in an alternative practice structure in accordance with the AICPA Code of Professional Conduct and applicable law, regulations and professional standards. EisnerAmper LLP is a licensed CPA firm that provides attest services, and Eisner Advisory Group LLC and its subsidiary entities provide tax and business consulting services. Eisner Advisory Group LLC and its subsidiary entities are not licensed CPA firms.

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by a qualified institution. In our report dated September 27, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements, other than that derived from the certified information, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

403(b) DEFINED CONTRIBUTION AND TAX DEFERRED ANNUITY PLAN

Notes to Financial Statements **December 31, 2021 and 2020**

NOTE A - DESCRIPTION OF PLAN

The financial statements and supplemental schedule are those of Hackley School 403(b) Defined Contribution and Tax Deferred Annuity Plan (the "Plan"), and users of these financial statements and supplemental schedule are directed to the independent auditors' report on pages 1 through 4. Likewise, the brief description of the Plan contained herein is provided solely for the purposes of general information, and interested persons should refer to the Plan agreement for a more complete description of the Plan's provisions. A copy of the Plan agreement can be obtained from the Hackley School (the "School"), which is the administrator of the Plan. The Plan was last amended effective January 1, 2021.

[1] General:

The Plan is a defined-contribution plan designed to meet the requirements of Section 403(b) of the Internal Revenue Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan covers all eligible employees of the School. TIAA and CREF are the insurance companies for the Plan's non-mutual fund investments and TIAA, FSB is the custodian for the remaining portion of the Plan's investments (mutual funds). TIAA is the Plan's recordkeeper.

[2] Eligibility for participation:

Elective deferrals: Employees are eligible immediately following their employment. Certain employees may be excluded from participation if they fall within the specific categories listed in the Plan agreement.

Contributions other than elective deferrals: An employee who is at least 21 years of age, has attained one year of service at an education institution, and worked 1,000 hours is eligible to receive matching contributions from the School and, accordingly, is eligible to participate in the Plan. Certain employees may be excluded from participation, however, if they fall within the specific categories for exclusion listed in the Plan agreement.

[3] Contributions:

Elective deferrals: Participants may elect to contribute a certain percentage of their annual gross compensation, subject to limitations as provided in the Code. Catch-up contributions are permitted under the Plan for those participants who have attained the age of 50 before the end of the Plan year and who are therefore eligible to make additional contributions of up to \$6,500. In addition, the Plan also provides for a Roth deferral option to the participants. In no event, may a participant's pre-tax contributions exceed any statutory limitation. Participants may also rollover contribution amounts representing distributions from other qualified defined benefit or defined contribution plans.

Contributions other than elective deferrals: The School will make contributions based upon participants' years of service with the School. Effective September 1, 2017, with ten years of service or less, the School will contribute a matching contribution of 150% on the employee's first 5% of compensation contributed to the Plan. Once ten years of service is reached or surpassed, the match increases to 200% on the employee's first 5% of compensation contributed to the Plan.

The School's matching contributions for each participant are invested proportionately in the same investments as the participant's contributions.

Participants direct the investment of participant and employer contributions into various investment options offered by the Plan.

[4] Participant accounts:

The activity in each participant's account includes the participant's contribution, the School's matching contribution, benefit payments or withdrawals, and allocations of the earnings or losses on Plan assets, and may be charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, loans or eligible compensation, as defined in the Plan agreement.

HACKLEY SCHOOL
403(b) DEFINED CONTRIBUTION AND TAX DEFERRED ANNUITY PLAN

Notes to Financial Statements
December 31, 2021 and 2020

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

[5] Vesting:

Participants in the Plan are vested in all contributions to the Plan immediately when made, and net earnings thereon.

[6] Payment of benefits:

Upon termination of service, disability or death, a participant or a beneficiary is entitled to receive either (i) a lump-sum payment, or (ii) a partial payment, or (iii) a series of installment payments, or (iv) an annuity contract in an amount equal to the total value of his or her account as of the most recent valuation date. For termination of service where the value of the participant's account is \$5,000 or less, a participant receives the value of his or her account as a lump-sum distribution, as of the most recent valuation date.

Effective September 1, 2017, the Plan was amended to allow participants who are over age 59½, or on account of disability, to make in-service withdrawals from their accounts of their own previously made pre-tax, elective deferrals. Such participants will continue to participate in the Plan and to receive any School contributions under the Plan, regardless of the in-service distribution.

The Coronavirus Aid, Relief, and Economic Security ("CARES") Act was signed into law on March 27, 2020 and provided optional distribution as well as suspension of required minimum distributions ("RMDs") for anyone required to receive an RMD in 2020. The Plan Sponsor has implemented the following provisions of the CARES Act and the Plan will be formally amended prior to December 31, 2022 as required by the Act.

Participants, who met specific conditions, were eligible to take a COVID-19 related distribution up to \$100,000 without a 10% early withdrawal penalty. Eligible distributions were taken from January 1, 2020 through December 31, 2020, and may be repaid within three years. The repayments will be treated as tax-free rollovers into the participant's account.

The Plan Sponsor elected to suspend paying RMDs to participants and beneficiaries that would otherwise be required to receive an RMD in 2020. However, participants and beneficiaries had a choice between receiving and not receiving the RMD for 2020. In addition, individuals that received an RMD prior to the enactment of the Act had until August 31, 2020 to rollover the RMD to an eligible retirement plan.

[7] Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. A participant is permitted to borrow from his or her Plan fund account an amount ranging from a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of his or her vested account balance. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate of prime plus 1%, as defined in the Plan's loan policy. Interest rates on outstanding loan balances range from 4.25% to 6.50%. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document. As of December 31, 2021 and 2020, respectively, there were outstanding loans receivable of approximately \$184,000 and \$225,000, respectively.

The CARES Act also provided certain loan provisions. Participants, who met specific conditions, were eligible to take a COVID-19 related loan up to \$100,000 (an increase from \$50,000 previously allowed) for the period March 27, 2020 to September 22, 2020. Loan repayments due between March 27, 2020 and December 31, 2020 could have been suspended until January 1, 2021 for eligible participants, with the repayment amount re-amortized and the due date of the loan extended for up to one year.

HACKLEY SCHOOL
403(b) DEFINED CONTRIBUTION AND TAX DEFERRED ANNUITY PLAN

Notes to Financial Statements
December 31, 2021 and 2020

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

[8] Plan loans:

As an alternative to borrowing directly from his or her Plan account (see Note A[7]), a participant was able to borrow from TIAA, the insurance company, and use a portion of his or her Plan account balance (invested in the TIAA Traditional Annuity) as collateral for the loan. The collateral must be 110% of the loan, and payments on the loan are made outside of the Plan. Participants were able to borrow up to a maximum equal to the lesser of \$50,000 or 45% of his or her TIAA Traditional Annuity account balance, subject to annuity contract and Plan provisions. Loan terms range from one to five years in one-year increments, or longer for the purchase of the participant's primary residence, as defined.

Principal and interest is paid ratably by the participant directly to TIAA, and each payment reduces the amount collateralized. Plan loan balances outstanding from participants to TIAA were approximately \$58,000 and \$116,000 as of December 31, 2021 and 2020, respectively. As of December 31, 2021 and 2020, approximately \$64,000 and \$128,000, respectively, of the participants' TIAA Traditional Annuity account balances were pledged as collateral.

In the event of default by a Plan participant, TIAA will collect any unpaid loan balance directly from Plan assets, and this collection is treated as a distribution of assets to the participant. During 2021 and 2020, there were no defaulted loans of this type distributed from the Plan.

These Plan loans are no longer offered by TIAA and the existing collateralized loans will remain in effect until they are paid off.

[9] Plan termination:

Although it has not expressed any intent to do so, the School has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements and supplemental schedule have been prepared using the accrual basis of accounting.

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

[2] Investment valuation and income recognition:

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair market measurements.

HACKLEY SCHOOL

403(b) DEFINED CONTRIBUTION AND TAX DEFERRED ANNUITY PLAN

Notes to Financial Statements **December 31, 2021 and 2020**

NOTE B - SUMMARY OF ACCOUNTING POLICIES

[2] Investment valuation and income recognition: (continued)

Participants direct their contributions, as well as the School's matching contributions, into any of four investment alternatives offered: (i) fixed annuity and fully allocated insurance contracts, (ii) investments in real estate properties in a pooled separate account, (iii) variable annuity accounts, and (iv) mutual funds. (See Notes D and E for discussions concerning each of these investment alternatives.)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

[3] Payment of benefits:

Benefits are recorded when paid to participants.

[4] Operating expenses:

The Plan pays administrative expenses to the extent that they are not paid by the School. Expenses paid by the School are excluded from these financial statements.

[5] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan administrator to make estimates and assumptions that affect (i) the reported amounts of net assets available for benefits at the date of the financial statements, (ii) the changes in net assets available for benefits during the reporting period, and (iii) when applicable, the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

[6] Tax status:

The Plan adopted an ERISA specimen 403(b) Plan designed for Section 501(c)(3) tax-exempt organizations sponsored by TIAA. Accordingly, the Plan has been crafted in compliance with Section 403(b) of the Internal Revenue Code and its terms have been prepared to conform with the sample language provided by the Internal Revenue Service. The Plan is required to operate in conformity with the Internal Revenue Code and to maintain the tax-exempt status for Plan participants under Section 403(b) of the Code. The School, as Plan administrator, believes that the Plan is currently designed and operating in accordance with the applicable requirements of Section 403(b) and, accordingly, believes the Plan to be qualified and the related accounts to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP require Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by a government authority.

The School, as Plan administrator, has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2021 and 2020, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

NOTE B - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

[7] Subsequent events:

The Plan has evaluated subsequent events through October 14, 2022, the date on which the financial statements were available to be issued.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, TIAA and CREF and TIAA and CREF on behalf of TIAA, FSB with respect only to the Plan's investments held by TIAA, FSB as directed trustee or custodian and record-keeper by TIAA for TIAA, FSB have certified the completeness and accuracy of all investments and related investment activity and notes receivable from participants and related activity in the accompanying statements of net assets available for benefits as of December 31, 2021 and 2020, the statements of changes in net assets available for benefits for the year ended December 31, 2021 and 2020 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2021.

NOTE D - FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair value Measurements*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used during Plan years 2021 and 2020.

HACKLEY SCHOOL
403(b) DEFINED CONTRIBUTION AND TAX DEFERRED ANNUITY PLAN

Notes to Financial Statements
December 31, 2021 and 2020

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

TIAA Real Estate Account - This is a pooled separate account/insurance company account and is a variable annuity product valued at net asset value ("NAV") per accumulation unit, as a practical expedient to measure fair value, based on the market value of the underlying real-estate holdings, or other real estate-related investments. Real estate holdings are valued principally utilizing external appraisals, which are estimates of property values based on the assessment of specialists and reported by TIAA. The TIAA Real Estate Account sometimes holds securities as well, and these are generally priced using values obtained from independent pricing sources. Transactions out are limited to one per calendar quarter. The TIAA General Account provides the Real Estate Account with a liquidity guarantee.

CREF Variable Annuity Accounts - These are variable annuity accounts that invest principally in equity securities, fixed income instruments and short-term investments in accordance with each portfolio's investment objectives. Each CREF Account is a separate portfolio with its own investment objective and strategies. Investments in a CREF Account enable a unit-holder to acquire units whose accumulation unit value, or NAV used as a practical expedient to measure fair value, is calculated each business day. The value of a unit-holder's investment rises and falls with the returns on the underlying assets.

Account investments are primarily valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing.

CREF Money Market Account - These are portfolio securities that are valued at their respective amortized cost basis. This valuation method does not factor in unrealized gains or losses on the account's portfolio securities. Amortized cost valuation involves first valuing a security at its cost, and thereafter assuming a constant amortization to maturity of any discount or premium, regardless of the impact of fluctuating interest rates on the security's market value. Accumulation units in CREF accounts are transacted at the accumulated unit value. Participants will be locked out of a CREF account for 90 days if a purchase-sale-repurchase within that account is made within a 60-day period, other than for the CREF Money Market account.

Mutual Funds - These are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission ("SEC"). These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although the Plan believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth, by level, within the fair value hierarchy, the Plan's investment assets at fair value at each plan year-end:

	December 31, 2021			
	Level 1	Level 2	Level 3	Total
Pooled separate account measured at NAV (A)	\$ -	\$ -	\$ -	\$ 3,750,979
Variable annuity accounts measured at NAV (A)(B)	-	-	-	45,604,838
Mutual funds	<u>28,823,271</u>	-	-	<u>28,823,271</u>
	<u>\$ 28,823,271</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 78,179,088</u>

	December 31, 2020			
	Level 1	Level 2	Level 3	Total
Pooled separate account measured at NAV (A)	\$ -	\$ -	\$ -	\$ 3,323,896
Variable annuity accounts measured at NAV (A)(B)	-	-	-	42,177,835
Mutual funds	<u>22,105,396</u>	-	-	<u>22,105,396</u>
	<u>\$ 22,105,396</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 67,607,127</u>

(A) Certain investments that are measured at fair value using the NAV per share (or its equivalent unit) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

(B) The strategy for each of these investments is generally embedded in the name of the particular account as shown on the supplemental schedule of assets (held at end of year).

The CREF Stock Account seeks a favorable long-term rate of return through capital appreciation and investment income by investing primarily in a broad diversified portfolio of common stocks. Under normal circumstances, the account invests at least 80% of its assets in equity securities of foreign and domestic companies.

The CREF Bond Market Account seeks a favorable long-term rate of return, primarily through high current income consistent with preserving capital. Under normal circumstances, the account invests at least 80% of its assets in a broad range of fixed-income securities. The majority of the accounts assets are invested in U.S. Treasury and other governmental agency securities, corporate bonds and mortgage-backed or other asset-backed securities.

The CREF Global Equities Account seeks a favorable long-term rate of return through capital appreciation and income from a broadly diversified portfolio that consists primarily of foreign and domestic common stocks. Under normal circumstances, the account invests at least 80% of its assets in equity securities of foreign and domestic companies.

The CREF Growth Account seeks a favorable long-term rate of return, mainly through capital appreciation, primarily from a diversified portfolio of common stocks that present the opportunity for exceptional growth. Under normal circumstances, the account invests at least 80% of its assets in common stocks and other equity securities. The account invests primarily in large, well-known, established companies, particularly those with new or innovative products, services or processes that may enhance future earnings prospects.

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

The CREF Equity Index Account seeks a favorable long-term rate of return from a diversified portfolio selected to track the overall market for common stocks publicly traded in the United States, as represented by a broad stock market index. The account buys most, but not necessarily all, of the securities in its benchmark, the Russell 3000® Index, and will attempt to create a portfolio that closely matches the overall investment characteristics of this index.

The CREF Inflation-Linked Bond Account seeks a favorable long-term rate of return that outpaces inflation, primarily through investment in inflation-indexed bonds. Under normal circumstances, the account invests at least 80% of its assets in U.S. treasury inflation-indexed securities. It may also invest in inflation-indexed bonds issued or guaranteed by the U.S. government or its agencies, corporations and other issuers domiciled in the U.S. as well as foreign governments. The account can also invest in inflation-indexed bonds that are issued or guaranteed by foreign governments and their agencies and other foreign issuers

The CREF Social Choice Account seeks a favorable long-term rate of return that reflects the investment performance of the financial markets while giving special consideration to certain social criteria. It divides its assets between foreign and domestic equity investments and bonds and other fixed-income investments, including money market securities. The account limits its investments to companies that its advisor considers suitable from a financial perspective and whose activities are consistent with certain environmental, social and governance ("ESG") or impact criteria. The account is balanced, with assets divided between foreign and domestic stocks and other equity securities (about 60%) and bonds and other fixed-income securities, including money market instruments (about 40%).

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

NOTE E - INVESTMENTS AT CONTRACT VALUE

TIAA Traditional Annuity - The TIAA Traditional Annuity is a fixed-rate annuity contract that is fully and unconditionally guaranteed by TIAA. The guarantees and returns of the TIAA Traditional Annuity are backed by TIAA's claims-paying ability. Liquidity restrictions apply to the TIAA Traditional Annuity under certain types of annuity contracts. The TIAA Traditional Annuity provides a guarantee of principal, a guaranteed minimum rate of interest (generally 3%, or for Retirement Choice ("RC") and Retirement Choice Plus ("RCP"), between 1% and 3%) and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the "declaration year," which begins each March 1st. Additional interest is not guaranteed for future years. Contributions to a participant's account purchase a guaranteed amount of lifetime annuity income.

When a participant's account in the TIAA Traditional Annuity is annuitized based on available options, the present value of the stream of payments is equal to the account balance. The subsequent stream of annuity payments occurs outside of the Plan and does not represent an obligation of the Plan. The TIAA Traditional Annuity is fully benefit responsive and is reported at contract value. The contract value equals the accumulated cash contributions, interest credited to the contracts, and transfers, if any, less any withdrawals and transfers. The TIAA Traditional Annuity is not available for sale or transfer on any securities exchange.

The TIAA Traditional Annuity within the Supplemental Retirement Annuity ("SRA"), Group Supplemental Retirement Annuity ("GSRA"), and RCP contracts have no liquidity restrictions. The TIAA Traditional Annuity holdings within the Retirement Annuity ("RA"), Group Retirement Annuity ("GRA"), Transfer Payout Annuity ("TPA") and RC contracts have liquidity restrictions.

NOTE E - INVESTMENTS AT CONTRACT VALUE (CONTINUED)

The RA contract does not allow lump-sum cash withdrawals and transfers must be spread over a period of ten annual installments.

With the GRA contract, lump-sum withdrawals are available only within 120 days after termination of employment and are subject to a 2.5% surrender charge. All other withdrawals and transfers from the GRA must be spread over a period of ten annual installments (or five annual installments for withdrawals after termination).

For the RC contracts, transfers and withdrawals from the TIAA Traditional Annuity are limited. Withdrawals must be taken in 84 monthly installments made in 120 days following termination of employment (transfer payout annuity), except that a lump-sum distribution is available if permitted under the plan in the-120-day period following termination of employment, with a 2.5% surrender charge. The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. The transfer payout annuity allows participants to transfer or withdraw their TIAA Traditional Annuity in ten annual installments.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory development.

TIAA Stable Value - This fixed-rate annuity contract provides a guaranteed minimum rate of interest of between 1% and 3% (before deductions for contract fees), with the potential for crediting of additional interest above the guaranteed minimum if approved by the TIAA Board of Trustees. Contributions are deposited into a non-unitized separate account. The TIAA Stable Value is immediately liquid to a participant for withdrawals and transfers and does not have withdrawal restrictions (except that immediate transfers cannot be made to competing investment options pursuant to the contract's equity wash provisions, as defined). Transfers may be made to a competing fund following a 90-day waiting period after being transferred to a non-competing fund. In addition, transfers into TIAA Stable Value may not be made for 30 days following a transfer out. A plan's investment in TIAA Stable Value is reported at contract value in all plan and participant reporting. Contract value equals the accumulated cash contributions, interest credited, and transfers, if any, less any withdrawals and transfers. Plan sponsors choosing to terminate a plan's investment in the TIAA Stable Value contract will receive contract value in, at most, two years. If the two-year payout applies, a discontinuance fee will be assessed, which has the effect of reducing the interest credited during the two-year period by, at most, 75 basis points.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's Failure to qualify under Section 401(a) of the Code or the failure of the trust to be tax-exempt under Section 501(a) of the Code;
2. Premature termination of the contracts;
3. Plan termination or merger;
4. Changes to the Plan's prohibition on competing investment options; or
5. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

Notes to Financial Statements **December 31, 2021 and 2020**

NOTE E - INVESTMENTS AT CONTRACT VALUE (CONTINUED)

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines;
2. A breach of material obligation under the contract;
3. A material misrepresentation; or
4. A material amendment to the agreements without the consent of the issuer.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

NOTE F - RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Substantial portions of the investments are fixed and variable annuities and a pooled separate account, which are sponsored by TIAA and CREF. TIAA is the Plan's recordkeeper and TIAA and CREF are the Plan's insurance companies. Therefore, transactions related to these investments qualify as party-in-interest transactions. However, these transactions are not considered to be prohibited party-in-interest transactions, because they are covered by statutory or administrative exemptions set forth in the Code and in ERISA. For 2021, the Plan paid \$54,106 for administrative fees.

The custodian provides certain administrative services to the Plan and receives revenue from mutual fund providers for services the custodian provides to the funds. This revenue is used to offset certain amounts owed to the custodian for its administrative services to the Plan. If the revenue received by the custodian from such mutual fund service providers exceeds the amounts owed the custodian remits the excess to the Plan pursuant to the service agreement. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants, depending on the Plan's provisions. During 2021, approximately \$59,000 was received and is included in the net realized and unrealized appreciation in the statement of changes in net assets available for benefits. In addition, approximately \$48,000 was used to pay plan expenses and approximately \$24,000 was allocated to participant accounts. There was a remaining balance of approximately \$3,000 and \$16,000 at December 31, 2021 and 2020, respectively.

NOTE G - RISKS AND UNCERTAINTIES

The Plan's investments are included in various investment alternatives made available by TIAA, CREF, and TIAA, FSB. The investments are exposed to various risks, such as interest-rate, market, credit, liquidity, and market-perception risks as well as risks related to the financial strength of the insurance company. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Volatility in the financial markets may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of the investments at December 31, 2021 may not necessarily be indicative of amounts that could be realized in a current market exchange.

403(b) DEFINED CONTRIBUTION AND TAX DEFERRED ANNUITY PLAN

Notes to Financial Statements
December 31, 2021 and 2020

NOTE G - RISKS AND UNCERTAINTIES (CONTINUED)

The extent of the impact of the coronavirus ("COVID-19") outbreak on the financial performance of the Plan's investments will depend on future developments, including the duration and spread of the outbreak and related advisories and restrictions and the impact of COVID-19 on the financial markets and the overall economy, all of which are highly uncertain and cannot be predicted. If the financial markets and/or the overall economy are impacted for an extended period, the Plan's investment results may be materially adversely affected.

COVID-19 poses risks to the School as well, given that such public health epidemics, if sustained, could impact the School's employees and students. Additionally, a prolonged widespread epidemic could adversely impact global economies and financial markets resulting in an economic downturn that may impact demand for the Schools services. Such impacts could adversely affect the School's profitability, cash flows, financial results, and the ability to make required Plan contributions. At this point, the extent to which the coronavirus may impact the School's financial results is uncertain

NOTE H - MUTUAL FUND FEES

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or Section 12b-1 fees, which are ongoing fees allowable under the Investment Company Act of 1940, and are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and they are therefore not separately identifiable as expenses.
