INDEPENDENT AUDITORS' REPORT

To the Investment and Benefits Committee and Participants
of the GCP Applied Technologies Inc. Retirement Plan for Salaried Employees:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the accompanying financial statements of the GCP Applied Technologies Inc. Retirement Plan for Salaried Employees (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 9 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section—

- the amounts and disclosures in the 2021 financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the 2021 financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the GCP Applied Technologies Inc. Retirement Plan for Salaried Employees and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the GCP Applied Technologies Inc. Retirement Plan for Salaried Employees' ability to continue as a going concern for one year after the date of the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the GCP Applied Technologies Inc. Retirement Plan for Salaried Employees' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the GCP Applied Technologies Inc. Retirement Plan for Salaried Employees' ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2021 Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the 2021 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter - Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the GCP Applied Technologies Inc. Retirement Plan for Salaried Employees. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 12, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements For the Years Ended December 31, 2021 and 2020

1. DESCRIPTION OF THE PLAN

The following description of the GCP Applied Technologies Inc. Retirement Plan for Salaried Employees (the Plan) provides only general information. Participants should refer to the Plan document for the Plan for a complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit retirement plan effective January 1, 2016 ("Effective Date"). GCP Applied Technologies Inc. (GCP or the Company) established the Plan in connection with the separation agreement entered into on January 27, 2016 between GCP and W. R. Grace & Co. ("Grace"), the former parent company of GCP. The Plan is a successor plan to the W. R. Grace & Co. Retirement Plan for Salaried Employees (the Prior Plan) with respect to former Grace employees. The effective date of the Prior Plan as originally adopted by Grace is January 1, 1973 for all participants in predecessor plans on December 31, 1972. The Plan was most recently amended September 1, 2017 to close the Plan to new hires effective January 1, 2018 and freeze the accrual of Plan benefits for all participants as of December 31, 2022. The amendment also added special rules applicable in the event of a change in control whereby an affected participant may be entitled to additional benefits, as stated in the amendment.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). As of December 31, 2021 and 2020, certain administrative decisions regarding the Plan were made by the Investment and Benefits Committee (the Committee) appointed by the GCP Board of Directors. For investment purposes, the assets of the Plan were commingled with the assets of certain other retirement plans of GCP in the Trust Fund of the GCP Applied Technologies Inc. Retirement Plans (the Fund), a master trust, which was maintained by The Northern Trust Company, the former Trustee of the Plan, as of December 31, 2019 and for the period of January 1, 2020 through April 30, 2020, and Wells Fargo Bank, N.A., the current Trustee of the Plan, for the period May 1, 2020 through December 31, 2021.

Eligibility

Within those units designated by the Board of Directors of the Company as participating units in the Plan, any salaried employee or any salesperson paid on a commission basis who has completed one year of service and has attained the age of 21 is eligible to participate in the Plan. Participants enter the Plan on the first day of the month following the date on which the eligibility requirements are met.

Each former Grace Employee, who on the day preceding the Effective Date, was a participant in the Prior Plan, became a participant in the Plan as of the Effective Date provided they satisfied the aforementioned eligibility requirements on the Effective Date.

Notes to Financial Statements For the Years Ended December 31, 2021 and 2020

1. DESCRIPTION OF THE PLAN - cont'd.

Contributions

The Company has agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants. The Plan is subject to, and has met, the ERISA minimum funding requirements.

Vesting

Employees are fully vested in benefits accrued after 5 years of vesting service, as defined by the Plan, or at age 55 regardless of years of service.

Payment of Benefits

Participants are eligible for a distribution upon retirement at 65 and are eligible for reduced early retirement benefits at age 55. Benefits may also be paid out to a beneficiary upon the death of the participant. The normal retirement benefit is equal to 1.5% of final average compensation, as defined by the Plan, less 1.25% of the primary Social Security benefit, multiplied by the participant's years and months of credited service. A participant with greater than a \$5,000 vested benefit may elect to have their benefit paid in the following forms:

- Monthly single life annuity
- Reduced monthly single life annuity with 10 year payment guaranteed
- Reduced monthly joint and 50%, 66^{2/3}%, 75%, or 100% survivor annuity
- Single equivalent lump sum payment
- Rollover of the single equivalent lump sum amount to an IRA or qualified retirement plan
- Single level income for participants who retire prior to age 62

If a participant terminates for any reason other than retirement at or after the normal retirement date, early retirement date, disability retirement or death, he or she shall be a terminated participant and shall be entitled to his or her accrued benefit beginning on his or her normal retirement date if the participant completed 5 years of credited service for vesting purposes.

Administrative Expenses

Expenses incurred in the administration of the Plan are required to be paid by the Fund unless paid directly by the Company, at its discretion. Administrative expenses incurred by the Fund are allocated to the Plan as described in Note 5. The Fund paid administrative expenses totaling \$660,152 and \$699,286 for the years ended December 31, 2021 and 2020, respectively.

Notes to Financial Statements For the Years Ended December 31, 2021 and 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements and supplemental schedule have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Such estimates include those regarding the fair value of investments and accumulated benefit obligations. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid. There were no benefits requested during the Plan years ended December 31, 2021 and 2020 that were not paid as of the end of the Plan year.

Risks and Uncertainties

Investment securities are exposed to risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Notes to Financial Statements For the Years Ended December 31, 2021 and 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – cont’d.

Investment Valuation and Income Recognition

All investments in the Fund are stated at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 6 for a description of significant accounting policies employed in determining the fair value of investments held by the Fund. Purchases and sales of securities are recorded on a trade-date basis. Securities denominated in foreign currencies are translated at the exchange rate prevailing at the date of the statement of net assets available for benefits. Investment income (loss) from securities denominated in foreign currencies is translated at average exchange rates during the reporting period. The average cost method is used to determine the cost of securities sold, and dividends are recorded on the ex-dividend date. Funds under the investment contract that have been allocated and applied to purchase annuities through insurance companies with those companies obligated to pay the related pension benefit are excluded from the Plan’s assets.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits represent those future periodic payments, including lump sum distributions, based on the Plan provisions earned by all active, retired and vested terminated participants up to the date of the valuation. Accumulated plan benefits include benefits expected to be paid to retired or vested terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries. Benefits payable under all of these circumstances are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Subsequent Events

The Plan evaluated for disclosure any subsequent events through October 13, 2022, the date the financial statements were available to be issued, and determined there were no material subsequent events that required disclosure, except as disclosed in Note 1.

3. OBLIGATION FOR PENSION BENEFITS

In the event the Plan terminates, the assets of the Plan, after withdrawal for expenses, will be allocated as prescribed by ERISA and its related regulations generally to provide benefits in the following order: (1) benefits called for under the Plan for those retired participants who have been receiving benefit payments for three years or who have been eligible to receive such payments for three years; (2) other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC); (3) all other vested benefits not insured by the PBGC; and (4) all nonvested benefits under the Plan. Benefits to be provided via investment contracts under which a third party is obligated to pay would be excluded for allocation purposes. Any remaining assets, after making the allocations described above, are to be returned to the Company.

RETIREMENT PLAN FOR SALARIED EMPLOYEES

Notes to Financial Statements

For the Years Ended December 31, 2021 and 2020

3. OBLIGATION FOR PENSION BENEFITS – cont’d.

Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether a particular participant's accumulated plan benefit will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at the time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

For Plan terminations occurring during 2021 and 2020 the ceiling was \$6,034 and \$5,813, respectively. The ceiling applies to pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. For all benefits greater than the PBGC ceiling, the benefits will not be guaranteed for the difference.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time of termination, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

An actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The accumulated plan benefits are as follows as of December 31,:

	2021	2020
Actuarial Present Value of Accumulated Plan Benefits		
Vested Benefits		
Participants currently receiving payments	\$ 22,051,033	\$ 18,611,483
Other participants	80,725,251	95,430,990
Total Vested Benefits	102,776,284	114,042,473
Nonvested Benefits	372,627	793,514
Actuarial Present Value of Accumulated Plan Benefits	\$ 103,148,911	\$ 114,835,987

GCP APPLIED TECHNOLOGIES INC. RETIREMENT PLAN FOR SALARIED EMPLOYEES

Notes to Financial Statements For the Years Ended December 31, 2021 and 2020

4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS – cont'd.

The changes in accumulated plan benefits are as follows for the years ended December 31,:

	2021	2020
Actuarial Present Value of Accumulated Plan Benefits		
at Beginning of Year	\$ 114,835,987	\$ 117,653,693
Increase (Decrease) During the Year Attributed to:		
Benefits accumulated	10,345,905	7,205,798
Interest	4,840,862	5,218,913
Benefits paid	(26,154,771)	(15,746,338)
Changes in actuarial assumptions	(719,072)	503,921
Net Decrease	(11,687,076)	(2,817,706)
Actuarial Present Value of Accumulated Plan Benefits		
at End of Year	\$ 103,148,911	\$ 114,835,987

The method and significant assumptions underlying the actuarial computations are as follows for the years ended December 31, 2021 and 2020:

Method:	Projected Unit Credit Cost Method
Interest Rate:	
2021	4.50%
2020	4.75%
Discount Rate:	
2021 and 2020	3.05% for years 1-5, 3.45% for years 6-20, 4.35% over 20 years
Mortality:	
2021	Pri-2012 white collar table projected with MP-2021
2020	Pri-2012 white collar table projected with MP-2020
Disability:	None

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Notes to Financial Statements For the Years Ended December 31, 2021 and 2020

5. INVESTMENT IN THE FUND

The Plan has an undivided interest in the Fund, which comprises all of the Plan's investments. The assets of the Fund are comprised entirely of the Plan's assets and the assets of certain other retirement plans of the Company, each of which has an undivided interest in the Fund and is a related party to the Plan. At December 31, 2021 and 2020, the Plan's percentage interest in the Fund was approximately 88.28% and 90.07% respectively.

GCP established the Plan effective January 1, 2016, in connection with the separation agreement entered into on January 27, 2016 between GCP and Grace. The Plan is a successor plan to the Grace Prior Plan with respect to former Grace employees. Assets and liabilities with respect to former Grace employees were transferred from the Prior Plan to the Plan in 2017 (Note 1).

The following table presents the fair value of the assets, liabilities, and investments of the entire Fund held by the Trustees and the Plan's interest in the Fund as of December 31, 2021:

Equity group trust funds	3,215,661	1,711,326
Net Appreciation in Fair Value of Investments	11,007,045	17,284,458
Total Investment Income	\$ 11,007,045	\$ 17,284,458

Net appreciation in the fair value of Fund investments consists of the realized gains (losses) and the unrealized appreciation (depreciation) on those investments.

Fund Investments

Investments in publicly traded securities are valued at the closing sales price on the last day of the year, which is the fair value. Investments, such as corporate bonds traded on over-the-counter markets and listed securities, for which no sale was reported on that date, are valued at the average of the last reported bid and ask prices, which approximates fair value. Group trust funds and common/collective trust funds are valued at fair value, as they are principally made up of marketable securities valued based on quoted market prices, with the fair value of the remaining investments in the Fund determined by the investment advisor. The redemption frequency and redemption notice period for the Plan's Level 2 investments are daily.

The Plan is pursuing a well-defined risk management strategy designed to reduce investment risk as the funded status improves. The Plan has adopted a diversified set of portfolio management strategies to optimize the risk-reward profile of the Plan.

The assets of the Plan held by the Fund are commingled. The Company, its independent actuary, and the Trustees have maintained a record of the assets of each separate defined benefit plan in the Fund by crediting contributions and charging disbursements to the balance of each Plan's assets at the start of each year. Returns on investments and administrative expenses are allocated to the participating plans on a monthly basis based on the proportion of each plan's beginning net asset balance to the total beginning net asset balance of the Fund for such period.

6. FAIR VALUE MEASUREMENT

The Fund's assets and liabilities are reported at fair value. Refer to Note 5 for methods of valuation for the various investments. Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement* defines fair value as the value that would be received at the measurement date in the principal or most advantageous market. The Plan uses principal market data whenever available to value assets and liabilities at fair value.

ASC Topic 820 prescribes three valuation techniques that shall be used to measure fair value as follows:

1. Market Approach - uses prices or other relevant information generated by market transactions involving identical or comparable assets or liabilities;
2. Income Approach - uses valuation techniques to convert future amounts to a single present amount (discounted); and
3. Cost Approach - the amount that currently would be required to replace the service capacity of an asset (i.e., current replacement cost).

One or a combination of the approaches above can be utilized to calculate fair value, with the goal of presenting the best representation of fair value.

In addition to the three valuation techniques, ASC Topic 820 prescribes a fair value hierarchy in order to increase consistency and comparability in fair value measurements and related disclosures. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 Inputs - Quoted prices in active markets for identical assets or liabilities. A quoted price in an active market provides the most reliable evidence of fair value.

Level 2 Inputs - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs - Unobservable inputs for the asset or liability, which should reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

Notes to Financial Statements For the Years Ended December 31, 2021 and 2020

6. FAIR VALUE MEASUREMENT – cont’d.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The methods of investment valuation discussed in Note 5 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Fund’s investments at fair value as of December 31, 2021:

	Level 1	Level 2	Level 3	Total
Cash	\$ 9,941,617	\$ -	\$ -	\$ 9,941,617

7. PARTY-IN-INTEREST TRANSACTIONS

The Company provides certain accounting and administrative services to the Plan for which no fees are charged. Certain Fund investments are common/collective trust funds held by the Trustees, and certain fees are paid to the Trustees at the Fund level and are allocated to the Plan. These transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules.

GCP APPLIED TECHNOLOGIES INC. RETIREMENT PLAN FOR SALARIED EMPLOYEES

Notes to Financial Statements For the Years Ended December 31, 2021 and 2020

8. INCOME TAX STATUS

The Plan received a favorable determination letter from the Internal Revenue Service (IRS) dated June 28, 2018. The Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code (IRC). Therefore, no provision for income taxes has been included in the Plan's financial statements.

ASC 740, *Income Taxes* (ASC 740), prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return as well as guidance on de-recognition, classification, interest and penalties and financial statement reporting disclosures. For these benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. As the Plan is tax exempt and has no unrelated business income, the provisions of ASC 740 do not have a material impact on the Plan's financial statements. The Plan recognizes interest and penalties accrued on any unrecognized tax exposures as a component of income tax expense. The Plan does not have any amounts accrued relating to interest and penalties as of December 31, 2021 and 2020.

The Plan is subject to routine audits by the IRS and Department of Labor; however, there are currently no audits for any tax periods in progress.

9. INFORMATION CERTIFIED BY THE TRUSTEES

As permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the following information was derived from the information certified as to completeness and accuracy by the Trustees, and was not subject to audit.

As of December 31,:

	2021	2020
Plan Interest in the Trust Fund of the GCP Applied Technologies, Inc. Retirement Plans	\$ 107,617,724	\$ 129,746,147

For the year ended December 31,:

	2021	2020
Plan Interest in the Trust Fund of the GCP Applied Technologies, Inc. Retirement Plans		
Net Investment Income	\$ 4,026,348	\$ 20,300,095

10. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accumulated retirement benefits.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
GCP Applied Technologies Inc. Retirement Plan for Salaried Employees
EIN 47-3936076 Plan No. 001

Assumptions prescribed by law

Mortality	<u>During benefit payment period</u> IRS Prescribed Mortality - Static Annuitant, male and female.
	<u>Before benefit payment period</u> IRS Prescribed Mortality - Static Non-annuitant, male and female.

Assumptions selected by actuary

Inflation	2.25% increase per year.
	See Long-Term Capital Market Assumptions link.
Asset return	4.90% for the current plan year.
	The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.
Upcoming year salary increase	The preceding year's salary is increase based 3.50% per year.
	This assumption is based on the results of recent experience analysis and anticipated future experience. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

Retirement

57	25%	63	40%
58	30%	64	45%
59	25%	65	Remaining participants
60	25%		

Due to our short tenure as actuaries on this plan, we don't have the plan experience necessary to set this assumption and we are relying on the assumptions set by the prior actuary. This assumption is reasonable with the plan's design.

Disability

Aon table.

Selected rates of disability are shown below:

Age	Rate of withdrawal
25	0.04%
40	0.08%
55	0.55%

Due to our short tenure as actuaries on this plan, we don't have the plan experience necessary to set this assumption and we are relying on the assumptions set by the prior actuary. This assumption is reasonable with the plan's design.

Marriage

80% married; husbands are 3 years older than wives.

Due to our short tenure as actuaries on this plan, we don't have the plan experience necessary to set this assumption and we are relying on the assumptions set by the prior actuary. This assumption is reasonable with the plan's design.

Withdrawal

Aon table

Selected rates of withdrawal are shown below:

Age	Years of service			
	0-1	2-4	5-9	10+
25	25.0%	21.0%	13.0%	11.0%
30	25.0%	24.0%	20.0%	11.0%
35	14.0%	14.0%	14.0%	8.0%
40	30.0%	15.0%	14.0%	10.0%
45	19.0%	12.0%	12.0%	6.0%
50	28.0%	14.0%	12.0%	12.0%
55+	0.00%	0.00%	0.00%	0.00%

Due to our short tenure as actuaries on this plan, we don't have the plan experience necessary to set this assumption and we are relying on the assumptions set by the prior actuary. This assumption is reasonable with the plan's design.

Form of benefit

40% of participants are assumed to receive benefits as a single lump sum payable immediately for retirement benefits.

The remaining participants are assumed to elect annuities according to the following percentages:

Life annuity – 20.00%
100% Joint and Survivor annuity – 18.00%
75% Joint and Survivor annuity – 3.00%
66% Joint and Survivor annuity – 3.00%
50% Joint and Survivor annuity – 13.00%
10 Year Certain and Life - 3.00%

Due to our short tenure as actuaries on this plan, we don't have the plan experience necessary to set this assumption and we are relying on the assumptions set by the prior actuary. This assumption is reasonable with the plan's design.

Wage base increase

3.25% per year.

Real wage growth combined with inflation assumption indicates an economic assumption of social security national wage growth in pension plan valuations. Based on historic real growth in National Average Wages (from 1951) and Social Security estimate of around 1%, our best estimate places this assumption in the range of 0.75% to 1.25% above inflation.

Compensation limit increase

2.25% increase per year used in the calculation of the IRC 404 maximum deduction cushion. See Calculated deduction in Rules and regulations.

Compensation limit increase is consistent with the inflation assumption.

Methods prescribed by law

Liability measure

Funding target is the present value of the benefits accrued on the valuation date.

Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

Lump sum payments

Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions. Therefore, plan liabilities do not currently recognize this additional cost and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions.

HCE benefit payment restrictions

A ratio of the plan assets and accrued liability is used to determine if restrictions apply. Assets and accrued liability are as of the valuation date and are reduced by:

- any retiree benefit index or floor
- amounts for HCEs who were previously restricted
- an amount for the retiring HCE

The estimated HCE ratio illustrated in this report is based on the market value of plan assets (excluding late deposits) and funding target as of the valuation date. The funding target uses the stabilized interest rates as defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods could be used.

Methods selected by plan sponsor

Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates

24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis

Variable Rate Premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2020 plan year and this method must be used for five years before a change can be made.

Methods elected by actuary

Retirees

Assets and liabilities for current and future retirees are included.

Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)
With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	<p><u>Based on Pri-2012 White collar base rate mortality table projected generationally using MP-2020.</u></p> <p><u>Base rates</u></p> <p>Before benefit payment period Employee amount-weighted, male and female</p> <p>During benefit payment period Retiree amount-weighted, male and female</p> <p>The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The White collar base rate table was selected based on information provided by the plan sponsor.</p> <p>Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan and has been selected due to data limitations in identifying contingent survivors. In addition, we believe beneficiary mortality isn't materially different while both participants are alive.</p> <p><u>Mortality improvement (MI)</u></p> <p>MP-2020 is the most recent improvement scale published by the SOA in October 2020.</p>
Interest rate used to value liabilities	<p>4.75%</p> <p>The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.</p>

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Basis for lump sums

Interest rate

Based on the three segment yield curve: 3.05%/3.45%/4.35%

The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.05%/3.45%/4.35%. For details, see Corporate AA yield in Figure 2 of Long-Term Capital Market Assumptions link.

Mortality

We have selected the same mortality assumption for lump sum payments, but with a 50/50 blend of male and female total dataset base rates and mortality improvement scales. This reflects the IRS practice of defining lump sum mortality on a unisex basis.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
GCP Applied Technologies Inc. Retirement Plan for Salaried Employees
EIN 47-3936076 Plan No. 001

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

Schedule SB, Line 32 - Schedule of Amortization Bases
GCP Applied Technologies Inc. Retirement Plan for Salaried Employees
EIN 47-3936076 Plan No. 001

Shortfall

Date created	Present value	Remaining years	Annual charge
01/01/2021	\$714,120	15	\$66,586

Total	\$714,120		\$66,586
--------------	------------------	--	-----------------

Last year's total shortfall annual charge was \$2,645,381. ARPA extends the shortfall amortization period from 7 to 15 years. Any existing shortfall bases have been eliminated and replaced with a new base amortized over 15 years.

The total annual charge used in calculating your annual cost can't be less than zero.

Waiver charges represent your repayment to the plan for an annual charge that was not funded. A waiver only exists once the Internal Revenue Service has granted approval. See Waivers in Rules and regulations.

Waiver

Date created	Present value	Remaining years	Annual charge
N/A	N/A	N/A	N/A

There are no waiver bases for the current year.

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.
