Independent Auditor's Report

To the Trustees of Hy-Tek Material Handling, Inc.
Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of Hy-Tek Material Handling, Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Hy-Tek Material Handling, Inc. Employee Stock Ownership Plan as of December 31, 2021 and 2020, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Hy-Tek Material Handling, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Hy-Tek Material Handling, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Hy-Tek Material Handling, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Hy-Tek Material Handling, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary schedule of assets held for investment purposes at end of year is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Hy-Tek Material Handling, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2021 and 2020

1. Description of the Plan

The following description of the Hy-Tek Material Handling, Inc. Employee Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

Hy-Tek Material Handling, Inc. (the “Company”) established the Hy-Tek Material Handling, Inc. Employee Stock Ownership Plan effective January 1, 2007. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by an ESOP Committee. The Trustee for the Plan is an independent third-party institutional Trustee.

In March 2021, the Company was sold. The Plan's share of the proceeds from the sale were deposited into the trust. Each participant's interest was transferred from the trust fund in accordance with Plan provisions.

Eligibility

Through March 2021, employees of the Company were eligible to participate in the Plan after three months of service and upon reaching 18 years of age. Participants who did not have at least 1,000 hours of service during a Plan year were generally not eligible for an allocation of Company contributions for such year.

Contributions

The Plan provides for employer contributions. The amount of employer contributions for each year is determined by the Board of Directors of the Company. Employer contributions were \$0 and \$716,097 for the years ended December 31, 2021 and 2020, respectively.

Other receivable and income at December 31, 2021 and for the year then ended represents amount due from a participant that was overpaid.

Payment of Benefits

No distributions from the Plan will be made except those required by law until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company. Distributions are made in the form of cash.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2021 and 2020, shares of stock totaling 0 and 4.7720, respectively, were recycled within the ESOP to generate funds for cash distributions.

If the participant's vested accrued benefit is less than \$5,000, the Trustee may distribute the accrued benefit in any plan year following the plan year in which the participant separated from service.

Administrative costs

Substantially all expenses of maintaining the Plan are paid by the Company.

Notes to Financial Statements

December 31, 2021 and 2020

1. Description of the Plan (Continued)

Voting Rights

Through the date of transfer, the Trustee was entitled to vote any stock held in the trust. Notwithstanding the foregoing, participants (or their beneficiary) were entitled to direct the voting of any voting shares of stock allocated to their stock account with respect to any vote required for the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all of the assets of the Company. The Trustee could vote any unallocated shares held by the trust as well as any allocated shares for which a participant has failed to give timely voting direction.

Plan Termination

The Company was sold in March 2021. The interest of each participant in the trust fund was distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon final termination of the Plan, the ESOP Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund.

Participant Accounts and Forfeitures

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. For the plan years ended December 31, 2021 and 2020, a total of 0 and 0.3556 shares of stock, respectively, were forfeited from participant accounts and then reallocated to remaining participants. Plan earnings (losses) are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participant's beginning of the year account balances.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on years of continuous service with the Company. A participant is 100% vested after 6 years of credited service.

Diversification

Prior to 2021, diversification was offered to participants close to retirement so that they may have the opportunity to move a portion of their investment in Company stock into investments which are more diversified. Participants who were at least age 55 with at least 10 years of participation in the Plan could elect to diversify a portion of their account. Diversification was offered to each eligible participant over a six-year period. In each of the first five years, a participant could diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changed to 50%.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

3. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated June 16, 2016, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

4. Administration of Plan Assets

The Plan's assets, which consist principally of the Company's common stock and mutual funds prior to March 2021, are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Substantially all administrative expenses of the Plan are paid directly by the Company.

5. Investments

The Plan's investments, at December 31, are presented in the following table.

Number of shares	<u>0</u>	<u>234,279</u>

Market value of registered investment companies	<u>\$ 0</u>	<u>\$ 6,518,414</u>
Market value of money market	<u>\$ 43,521</u>	<u>\$ 17,140</u>

6. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurements accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of inputs used to measure fair value under this accounting standard are described as follows:

- Level 1 - Quoted prices in active markets that are accessible at the measurement date for identical or similar assets or liabilities.
- Level 2 - Observable inputs other than quoted prices included within Level 1. Inputs that are principally derived from or corroborated by observable market data by correlation or other mean. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value measurement of the assets or liabilities. These include certain pricing models, discounted cash flow methodologies, and similar techniques that use significant unobservable inputs.

Hy-Tek Material Handling, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2021 and 2020

6. Fair Value Measurements (Continued)

The ESOP Committee, under the supervision of the Company's Board of Directors and Stockholders, determines the fair value measurement policies and procedures in consultation with the Trustee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value of measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies the Plan used for assets measured at fair value:

Registered investment companies (mutual funds): Valued at the daily closing prices as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market: Valued at the daily closing price as reported by the fund. The money market fund is an open-end mutual fund that is registered with the SEC. This fund is required to publish its daily net asset value (NAV) and to transact at that price. The money market fund is deemed to be actively traded.

Common stock: Valued by an annual independent appraisal. This appraisal is based on a combination of a proposed transaction, market and income valuation methods. The appraiser took into account historical and projected cash flow and net income, weighted average cost of capital, market comparables, and applicable discounts and premiums.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021:

	Level 1	Level 2	Level 3	Total
Money market fund	\$ 43,521	\$ 0	\$ 0	\$ 43,521

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020:

	Level 1	Level 2	Level 3	Total
Sponsor company common stock	\$ 0	\$ 0	\$ 53,415,612	\$ 53,415,612
Registered investment companies	6,518,414	0	0	6,518,414
Money market fund	17,140	0	0	17,140
	\$ 6,535,554	\$ 0	\$ 53,415,612	\$ 59,951,166

Hy-Tek Material Handling, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2021 and 2020

6. Fair Value Measurements (Continued)

The following table provides further details of this Level 3 fair value measurement for the Company's common stock.

<u>Valuation Techniques</u>	<u>Unobservable Input</u>
Discounted cash flow (Income)	Weighted-average cost of capital Long-term revenue growth Long-term operating profit margin Discount for lack of marketability
Market comparables (Market)	EBITDA multiple Revenue multiple Discount for lack of marketability
Proposed Transaction	Letter of Intent Draft Share Purchase Agreement

The valuation process involves the selection of an appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. Plan management reviews and approves the report based on the relevant information used in the appraisal.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets.

	For the Years Ending December 31,	
	2021	2020
Balance - beginning of year	\$ 53,415,612	\$ 32,032,968
Unrealized gains relating to instruments still held at the reporting date	0	21,382,644
Realized gain from sale of common stock	3,528,598	0
Transfers and distributions out of plan	(56,944,210)	0
Balance - end of year	<u>\$ 0</u>	<u>\$ 53,415,612</u>

Unrealized gains and losses included in changes in net assets available for benefits for the years ended December 31, 2021 and 2020, are reported in net unrealized appreciation in market value of sponsor company common stock.

Notes to Financial Statements

December 31, 2021 and 2020

7. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock and registered investment company funds, which is exposed to various risks, including interest rate, market, and credit risks, as well as valuation assumptions based on earnings and cash flows. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

8. Related Party Transactions

The Plan invests in Company common stock. These are related party and party-in-interest transactions. The Plan has a number of service providers. Such parties are parties-in-interest under ERISA.

9. Subsequent Events

As part of the Company sale transaction, additional escrow funds were deposited into the Plan in 2022 and allocated to all participants in accordance with Plan provisions.

Management evaluated the activity of the Organization through October 12, 2022 (the date the financial statements were available to be issued) and concluded that no other subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to the financial statements.
