Independent Auditor's Report

Plan Administrator
Aegis Technologies Group, Inc. 401(k) Plan
Huntsville, Alabama

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Aegis Technologies Group, Inc. 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of April 30, 2021 and December 31, 2020, and the related statement of changes in net assets available for benefits for the period from January 1, 2021 to April 30, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of April 30, 2021 and December 31, 2020, and for the period from January 1, 2021 to April 30, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Emphasis of a Matter - Plan Merger

As discussed in Note 1, the Plan was merged with and into the (k)Praetorian Retirement Plan on April 30, 2021.

Notes to the Financial Statements

1. Description of the Plan

The following description of the AEgis Technologies Group, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document and any amendments thereto for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution profit sharing plan with 401(k) salary deferral provisions covering all employees of AEgis Technologies Group, Inc. (the Company or Employer), except for residents of Puerto Rico, employees covered by a collective bargaining agreement, leased employees, and hourly employees after they have reached 21 years of age and have completed 1,000 hours of service. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees are eligible to participate on their first day of employment.

Effective April 30, 2021, the Plan merged into the (k)Praetorian Retirement Plan. The net assets of the Plan totaling \$89,570,223 were transferred, which included \$357,739 of outstanding loans.

Trustee (Custodian) and administration of the Plan

The trustee (custodian) and recordkeeper of the Plan was Fidelity Management Trust Company (Fidelity or trustee (custodian)). The administrator of the Plan was the Company. The trustee (custodian) held all assets of the Plan in accordance with the service provider contract with the Company. The Investment Committee determined the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to 60% of pretax eligible compensation, as defined by the Plan, up to the maximum allowed by the Internal Revenue Code (IRC) through pretax contributions and after-tax Roth contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions), as defined in the Plan's provisions. For the period from January 1, 2021 to April 30, 2021, participants contributed rollover contributions totaling \$1,405,240. These contributions are included in participant contributions on the accompanying statement of changes in net assets available for benefits.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan at 6% of eligible compensation unless they elect otherwise. The automatic contributions invested in a designated balanced fund until changed by the participant. Automatic contributions are subject to annual increases until the deferral rate reaches a maximum of 10.00%, unless participants elect to change their elective deferral rate. Participants direct the investment of their contributions into various investment options offered by the Plan. Under Safe Harbor provisions, the Company is required to match 100% of each participant's contribution up to 3% of the participant's pretax annual compensation.

In addition, the Company may make discretionary contributions to the Plan as determined by the Company's Board of Directors. During the period from January 1, 2021 to April 30, 2021, the discretionary contribution was equal to 7% of the participant's regular pretax annual compensation. Contributions were subject to certain Internal Revenue Service (IRS) limitations.

AEgis Technologies Group, Inc. 401(k) Plan

Notes to the Financial Statements

Participant accounts

Each participant's account was credited with the participant's contributions including amounts rolled over from other qualified plans, and allocations of the Company's safe harbor matching and discretionary contribution, if any, and Plan earnings and losses thereon. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account.

Vesting

Participants were immediately vested in their voluntary contributions, rollover contributions, and safe harbor matching employer contributions plus actual earnings thereon. Vesting in the Company's discretionary contributions was based on years of continuous service based on the elapsed time method. A participant was 100% vested after five years of credited service, as defined, or in the event of death or total and permanent disability. Vesting schedule for the Company's discretionary contributions are as follows:

<u>Years of service</u>	<u>Vesting percentage</u>
Less than 2	0%
2 years	50%
3 years	65%
4 years	80%
5 years	100%

As discussed above, the Plan was merged into the (k)Praetorian Retirement Plan effective April 30, 2021, at which time all participants became 100% vested in their participant account balances.

Notes receivable from participants

Participants could borrow from their vested account balances a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 reduced by the highest outstanding balance on any loan to the participant during the one-year period before the date of the new loan or 50% of their vested account balance on the date the loan is requested. Notes were secured by the vested balance in the participant's account, had a one to five year permissible term and bear interest at rates which were commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest were paid ratably through payroll deductions. During 2021, interest rates ranged from 5.25% to 7.50%.

Payment of benefits

Benefits were payable upon early retirement age of 55 and upon completion of 5 years of service or normal retirement age 65, disability, death or termination of employment. In-service withdrawals upon reaching age 59½ were also permitted, subject to provisions stipulated in the Plan document. In-service withdrawals, at any age, from a participant's rollover contributions into the Plan were permitted. Benefits were payable via lump-sum or rollover payments.

Upon termination of service, if the vested value of a participant's account is less than \$1,000, his or her account was distributed in a single lump-sum payment. If the vested value of a participant's account exceeded \$1,000, he or she may elect to maintain an investment balance within the Plan,

AEgis Technologies Group, Inc. 401(k) Plan

Notes to the Financial Statements

or elect to receive either a lump-sum amount or have the distribution paid in a direct rollover to another qualified plan, or a combination of the above.

Forfeited accounts

At April 30, 2021 and December 31, 2020, forfeited accounts totaled \$0 and \$94,412, respectively. Forfeited accounts were utilized to reduce Plan expenses and employer contributions. During the period from January 1, 2021 to April 30, 2021, \$224,410 of forfeited nonvested accounts were used to reduce employer contributions. As part of the Plan merger on April 30, 2021 into the (k)Praetorian Retirement Plan, forfeitures totaling \$60,296 were transferred out of the Plan.

2. Summary of Significant Accounting Policies

Basis of accounting

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of estimates

The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from estimated amounts.

Investment valuation and income recognition

Investments were reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determined the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for further information related to fair value measurements.

Purchases and sales of securities were recorded principally on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants were measured at the unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses was recorded as of April 30, 2021 and December 31, 2020. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits

Benefits are recorded when paid.

AEgis Technologies Group, Inc. 401(k) Plan

Notes to the Financial Statements

Administrative expenses

Certain expenses of maintaining the Plan were paid directly by the Company and were excluded from these financial statements. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and were included in administrative expenses. Investment related expenses were included in net appreciation of fair value of investments on the statement of changes in net assets available for benefits.

3. Certified Investment Information

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, a qualified institution, has certified that the following investment information included in the accompanying financial statements is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of April 30, 2021 and December 31, 2020.
- Investment income and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the period from January 1, 2021 to April 30, 2021.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements.

4. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

AEgis Technologies Group, Inc. 401(k) Plan

Notes to the Financial Statements

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at April 30, 2021 and December 31, 2020. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trust Fund: The Plan invests in the Fidelity Stable Value Fund, a collective trust fund. The fund is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that the securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments, and the collective trust fund is a direct filing entity.

The preceding methods described may produce a fair value calculation which may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as December 31, 2020:

	Assets at Fair Value as of December 31, 2020			
	Total	Fair Value Hierarchy Level		
		Level 1	Level 2	Level 3
Mutual funds	\$ 83,054,917	\$ 83,054,917	\$ -	\$ -
Total assets at fair value level	83,054,917	\$ 83,054,917	\$ -	\$ -

Total investments measured at net asset value (NAV)*	5,490,123
--	-----------

Total investments at fair value \$ 88,545,040

* In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items present in the statements of net assets available for benefits.

AEgis Technologies Group, Inc. 401(k) Plan

Notes to the Financial Statements

5. Related Party Transactions and Party-in-Interest Transactions

Certain Plan investments were in funds and accounts that were managed by Fidelity or their subsidiaries and affiliates. Participant loan and distribution processing fees were paid to Fidelity by participants. The Plan also issued loans to participants which were secured by the vested balance of the participants' accounts. Certain management fees in the form of an expense ratio charged to each investment option were paid by the Plan and deducted from earnings on investments. These transactions are party-in-interest transactions, which are exempt from prohibited transaction rules.

6. Income Tax Status

The Plan uses a volume submitter plan from Fidelity Management & Research Company, which received an opinion letter from the IRS on March 31, 2014, which states that the volume submitter plan, as then designed, satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since the date of the opinion letter, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS examinations for any tax periods in progress.

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the accompanying statements of net assets available for benefits to the Form 5500 as of December 31, 2020:

<i>December 31,</i>	<i>2020</i>
Net assets available for benefits per the financial statements	\$ 89,899,489
Less: 2020 employer contributions receivable	(1,042,248)
Net Assets per the Form 5500	\$ 88,857,241

The following is a reconciliation of net change in net assets per the financial statements to the net income per the Form 5500 for period from January 1, 2021 to April 30, 2021:

<i>Period from January 1, 2021 to April 30, 2021</i>	
Net decrease in net assets available for benefits per the financial statements	\$ (329,266)
Plus: 2020 employer contributions receivable	1,042,248
Net income per the Form 5500	\$ 712,982

Independent Auditor's Report

Plan Administrator
Aegis Technologies Group, Inc. 401(k) Plan
Huntsville, Alabama

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Aegis Technologies Group, Inc. 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of April 30, 2021 and December 31, 2020, and the related statement of changes in net assets available for benefits for the period from January 1, 2021 to April 30, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of April 30, 2021 and December 31, 2020, and for the period from January 1, 2021 to April 30, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Emphasis of a Matter - Plan Merger

As discussed in Note 1, the Plan was merged with and into the (k)Praetorian Retirement Plan on April 30, 2021.

Notes to the Financial Statements

1. Description of the Plan

The following description of the AEgis Technologies Group, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document and any amendments thereto for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution profit sharing plan with 401(k) salary deferral provisions covering all employees of AEgis Technologies Group, Inc. (the Company or Employer), except for residents of Puerto Rico, employees covered by a collective bargaining agreement, leased employees, and hourly employees after they have reached 21 years of age and have completed 1,000 hours of service. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees are eligible to participate on their first day of employment.

Effective April 30, 2021, the Plan merged into the (k)Praetorian Retirement Plan. The net assets of the Plan totaling \$89,570,223 were transferred, which included \$357,739 of outstanding loans.

Trustee (Custodian) and administration of the Plan

The trustee (custodian) and recordkeeper of the Plan was Fidelity Management Trust Company (Fidelity or trustee (custodian)). The administrator of the Plan was the Company. The trustee (custodian) held all assets of the Plan in accordance with the service provider contract with the Company. The Investment Committee determined the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to 60% of pretax eligible compensation, as defined by the Plan, up to the maximum allowed by the Internal Revenue Code (IRC) through pretax contributions and after-tax Roth contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions), as defined in the Plan's provisions. For the period from January 1, 2021 to April 30, 2021, participants contributed rollover contributions totaling \$1,405,240. These contributions are included in participant contributions on the accompanying statement of changes in net assets available for benefits.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan at 6% of eligible compensation unless they elect otherwise. The automatic contributions invested in a designated balanced fund until changed by the participant. Automatic contributions are subject to annual increases until the deferral rate reaches a maximum of 10.00%, unless participants elect to change their elective deferral rate. Participants direct the investment of their contributions into various investment options offered by the Plan. Under Safe Harbor provisions, the Company is required to match 100% of each participant's contribution up to 3% of the participant's pretax annual compensation.

In addition, the Company may make discretionary contributions to the Plan as determined by the Company's Board of Directors. During the period from January 1, 2021 to April 30, 2021, the discretionary contribution was equal to 7% of the participant's regular pretax annual compensation. Contributions were subject to certain Internal Revenue Service (IRS) limitations.

AEgis Technologies Group, Inc. 401(k) Plan

Notes to the Financial Statements

Participant accounts

Each participant's account was credited with the participant's contributions including amounts rolled over from other qualified plans, and allocations of the Company's safe harbor matching and discretionary contribution, if any, and Plan earnings and losses thereon. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account.

Vesting

Participants were immediately vested in their voluntary contributions, rollover contributions, and safe harbor matching employer contributions plus actual earnings thereon. Vesting in the Company's discretionary contributions was based on years of continuous service based on the elapsed time method. A participant was 100% vested after five years of credited service, as defined, or in the event of death or total and permanent disability. Vesting schedule for the Company's discretionary contributions are as follows:

<u>Years of service</u>	<u>Vesting percentage</u>
Less than 2	0%
2 years	50%
3 years	65%
4 years	80%
5 years	100%

As discussed above, the Plan was merged into the (k)Praetorian Retirement Plan effective April 30, 2021, at which time all participants became 100% vested in their participant account balances.

Notes receivable from participants

Participants could borrow from their vested account balances a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 reduced by the highest outstanding balance on any loan to the participant during the one-year period before the date of the new loan or 50% of their vested account balance on the date the loan is requested. Notes were secured by the vested balance in the participant's account, had a one to five year permissible term and bear interest at rates which were commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest were paid ratably through payroll deductions. During 2021, interest rates ranged from 5.25% to 7.50%.

Payment of benefits

Benefits were payable upon early retirement age of 55 and upon completion of 5 years of service or normal retirement age 65, disability, death or termination of employment. In-service withdrawals upon reaching age 59½ were also permitted, subject to provisions stipulated in the Plan document. In-service withdrawals, at any age, from a participant's rollover contributions into the Plan were permitted. Benefits were payable via lump-sum or rollover payments.

Upon termination of service, if the vested value of a participant's account is less than \$1,000, his or her account was distributed in a single lump-sum payment. If the vested value of a participant's account exceeded \$1,000, he or she may elect to maintain an investment balance within the Plan,

AEgis Technologies Group, Inc. 401(k) Plan

Notes to the Financial Statements

or elect to receive either a lump-sum amount or have the distribution paid in a direct rollover to another qualified plan, or a combination of the above.

Forfeited accounts

At April 30, 2021 and December 31, 2020, forfeited accounts totaled \$0 and \$94,412, respectively. Forfeited accounts were utilized to reduce Plan expenses and employer contributions. During the period from January 1, 2021 to April 30, 2021, \$224,410 of forfeited nonvested accounts were used to reduce employer contributions. As part of the Plan merger on April 30, 2021 into the (k)Praetorian Retirement Plan, forfeitures totaling \$60,296 were transferred out of the Plan.

2. Summary of Significant Accounting Policies

Basis of accounting

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of estimates

The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from estimated amounts.

Investment valuation and income recognition

Investments were reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determined the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for further information related to fair value measurements.

Purchases and sales of securities were recorded principally on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants were measured at the unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses was recorded as of April 30, 2021 and December 31, 2020. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits

Benefits are recorded when paid.

AEgis Technologies Group, Inc. 401(k) Plan

Notes to the Financial Statements

Administrative expenses

Certain expenses of maintaining the Plan were paid directly by the Company and were excluded from these financial statements. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and were included in administrative expenses. Investment related expenses were included in net appreciation of fair value of investments on the statement of changes in net assets available for benefits.

3. Certified Investment Information

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, a qualified institution, has certified that the following investment information included in the accompanying financial statements is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of April 30, 2021 and December 31, 2020.
- Investment income and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the period from January 1, 2021 to April 30, 2021.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements.

4. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

AEgis Technologies Group, Inc. 401(k) Plan

Notes to the Financial Statements

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at April 30, 2021 and December 31, 2020. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trust Fund: The Plan invests in the Fidelity Stable Value Fund, a collective trust fund. The fund is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that the securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments, and the collective trust fund is a direct filing entity.

The preceding methods described may produce a fair value calculation which may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as December 31, 2020:

	Assets at Fair Value as of December 31, 2020			
	Total	Fair Value Hierarchy Level		
		Level 1	Level 2	Level 3
Mutual funds	\$ 83,054,917	\$ 83,054,917	\$ -	\$ -
Total assets at fair value level	83,054,917	\$ 83,054,917	\$ -	\$ -

Total investments measured at net asset value (NAV)*	5,490,123
--	-----------

Total investments at fair value \$ 88,545,040

* In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items present in the statements of net assets available for benefits.

AEgis Technologies Group, Inc. 401(k) Plan

Notes to the Financial Statements

5. Related Party Transactions and Party-in-Interest Transactions

Certain Plan investments were in funds and accounts that were managed by Fidelity or their subsidiaries and affiliates. Participant loan and distribution processing fees were paid to Fidelity by participants. The Plan also issued loans to participants which were secured by the vested balance of the participants' accounts. Certain management fees in the form of an expense ratio charged to each investment option were paid by the Plan and deducted from earnings on investments. These transactions are party-in-interest transactions, which are exempt from prohibited transaction rules.

6. Income Tax Status

The Plan uses a volume submitter plan from Fidelity Management & Research Company, which received an opinion letter from the IRS on March 31, 2014, which states that the volume submitter plan, as then designed, satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since the date of the opinion letter, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS examinations for any tax periods in progress.

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the accompanying statements of net assets available for benefits to the Form 5500 as of December 31, 2020:

<i>December 31,</i>	<i>2020</i>
Net assets available for benefits per the financial statements	\$ 89,899,489
Less: 2020 employer contributions receivable	(1,042,248)
Net Assets per the Form 5500	\$ 88,857,241

The following is a reconciliation of net change in net assets per the financial statements to the net income per the Form 5500 for period from January 1, 2021 to April 30, 2021:

<i>Period from January 1, 2021 to April 30, 2021</i>	
Net decrease in net assets available for benefits per the financial statements	\$ (329,266)
Plus: 2020 employer contributions receivable	1,042,248
Net income per the Form 5500	\$ 712,982

8. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 14, 2022, the date the financial statements were available to be issued. The Plan Administrator is not aware of any subsequent events which would require recognition or disclosure in the financial statements.
