Report of Independent Auditors

To the Administrator of The Children's National Medical Center Affiliates' 403(b) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying 2021 financial statements of The Children's National Medical Center Affiliates' 403(b) Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The 2021 financial statements comprise the statement of net assets available for benefits (in liquidation) as of December 31, 2021, the related statement of changes in net assets available for benefits (in liquidation) for the period from February 19, 2021 to December 31, 2021 and the statement of changes in net assets available for benefits (ongoing) for the period from January 1, 2021 to February 18, 2021, including the related notes (collectively referred to as the "2021 financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2021 and for the period from January 1, 2021 to February 18, 2021 (ongoing) and for the period from February 19, 2021 to December 31, 2021 (in liquidation) stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America applied on the basis described in Note 2.

- the information in the accompanying 2021 financial statements related to assets held by and certified to by qualified institutions agree to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Basis of Accounting

As discussed in Note 2 to the financial statements, the Board of Directors of the Children's National Medical Center approved a plan of liquidation on February 19, 2021 and the Company determined liquidation is imminent. As a result, the Plan changed its basis of accounting on February 19, 2021 from the going concern basis to a liquidation basis. Our opinion is not modified with respect to this matter.

Other Matter – 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan, which comprise the statement of net assets available for benefits as of December 31, 2020, and the related statement of changes in net assets available for benefits for the year then ended (not presented herein, other than the statement of net assets available for benefits). As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by qualified institutions. In our report dated June 16, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements, other than that derived from the certified information, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

The Children's National Medical Center Affiliates'

403(b) Retirement Plan

Notes to Financial Statements

December 31, 2021 (in liquidation) and 2020 (ongoing)

1. Description of the Plan

The following brief description of the Children's National Medical Center ("CNMC" or the "Company") Affiliates' 403(b) Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was amended and restated on January 1, 2014 to provide a Plan under which participants could purchase one or more custodial accounts for the benefit of Participants and their beneficiaries. Under the terms of the Plan and related agreements, Fidelity Management Trust Company ("FMTTC"), the Plan's custodian, had the authority to execute investment transactions pursuant to participant's elections. Fidelity Workplace Services LLC ("FWS"), the Plan's recordkeeper, provided administrative services to the Plan and maintained Plan-related records. The Plan also maintained Participant assets in accounts of formerly active insurance companies: Voya Retirement Insurance and Annuity Company ("Voya") (formerly referred to as "ING Life Insurance and Annuity Company"), Teachers Insurance and Annuity Association of America and College Retirement Equities Fund ("TIAA-CREF"), as insurance companies, and the Metropolitan Life Insurance Company ("Met Life"). All inactive insurance companies held participant balances, but no longer received participant or employer contributions.

The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective October 1, 2017, the Plan was further amended whereby the Plan no longer had any active participants and was frozen to contributions and new participants.

Plan Termination

On February 19, 2021, the Board of Directors of the Children's National Medical Center approved the termination of the Plan effective July 1, 2021. All participants continued to be 100% vested in all of their accounts. Subsequent to July 1, 2021, distributions were made to participants in accordance with the applicable distribution provisions of the Plan, which included for current employees a rollover to the Children's National Medical Center and Affiliates' 401(k) Retirement Plan ("CNMC 401(k) Plan"), direct rollover to another employer's eligible plan, direct rollover to an individual retirement account, receipt of a lump sum distribution, assets held at TIAA-CREF and/or VOYA could remain at TIAA-CREF and/or Voya under an individual annuity, or a combination thereof, as applicable. For participants with TIAA-CREF and/or Voya balances that elected to rollover balances to the CNMC 401(k), accounts were liquidated, and investment options were elected by participants in the CNMC 401(k) Plan investment options. Former employees with accounts at Fidelity and MetLife where no action was taken by the inactive participants by October 1, 2021, had their account balances rolled over to an individual retirement account with Millennium Trust. Transfers to the CNMC 401(k) Plan were \$210,080,205 and are reported in Transfer to Another Plan in the Statement of Changes in Net Assets Available for Benefits (in Liquidation). The remaining distributions of \$167,971,264 reported in Benefit Payments in the Statement of Changes in Net Assets Available for Benefits (in Liquidation) were comprised of \$94,278,164 of lump sum distributions, \$22,602,239 in individual retirement accounts set up with Millennium Trust, and \$23,570,969 and \$27,519,893 in individual annuities opened at TIAA-CREF and Voya, respectively.

Eligibility

Prior to October 1, 2017, employees were generally eligible to become participants in the Plan if they were employed by the Company and treated as such for purposes of withholding federal taxes from wages and they were not eligible to make cash or deferral elections under a code section 401(k) plan of the participating employer, were not a nonresident alien as defined in the Plan, normally worked greater than 20 hours per week and were not a leased employee as defined in the Plan. Employees were eligible to participate in the Plan as soon as administratively feasible.

Participant Accounts

Each participant's account was credited with the participant's and employer contributions and is credited with allocations of the Plan earnings and administrative expenses. Allocations were based on participant earnings or account balances, as defined. Participants were, at all times, 100% vested in their account balances, including Company contributions.

Benefit and Withdrawal Payments

Upon separation, a participant could generally elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or annual installments. Benefit and withdrawal payments related to balances in the TIAA Traditional Retirement Annuity (RA) were to be made in ten installments. Participants could also make in-service withdrawals from their accounts under guidelines set forth in the Plan. Effective April 21, 2020, the Plan adopted certain provisions of the CARES Act, which allowed qualified individuals to take a coronavirus-related distribution up to \$100,000 from all eligible retirement plans through December 31, 2020.

Notes Receivable from Participants

Participant loans receivable were loans that could be borrowed from the participant's Fidelity account balances up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Effective April 21, 2020, the Plan adopted certain provisions of the CARES Act, which increased loan amounts for qualifying participants up to \$100,000 or 100% of vested account balance for loans borrowed during the period March 27, 2020 to September 27, 2020.

Payments were not made less frequently than quarterly, over a specified term not to exceed five years (15 years to purchase a principal residence of the participant). In accordance with provisions of the CARES Act, qualifying participants are permitted to defer loan repayments that would have otherwise been due between March 27, 2020 and December 31, 2020. Loan repayments were reinstated January 1, 2021. Principal and interest were paid ratably through payroll deductions. Notes receivable from participants were measured at unpaid principal balance plus accrued but unpaid interest. The interest rates ranged from 4.25% to 9.25% on these notes. Delinquent participant loans were reclassified as distributions based upon the terms of the Plan document. As a result of the Plan's termination, current employees with loans with Fidelity had their loan balances transferred to the CNMC 401(k) Plan. For participants with loans outstanding with MetLife, the loan balances had to be repaid in full prior to September 7, 2021 or the loan would be deemed to be in default.

2. Significant Accounting Policies

Basis of Presentation

The Plan's financial statements as of December 31, 2020 and for the period January 1, 2021 to February 18, 2021 have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") on an ongoing basis. As discussed in Note 1, on February 19, 2021, the Board of Directors approved the termination of the Plan. As a result, the Plan changed its basis of accounting as of December 31, 2021 and for the period subsequent to February 18, 2021 to liquidation basis in accordance with U.S. GAAP.

Under liquidation basis of accounting, assets are measured to reflect estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process and liabilities are measured using the accrual basis of accounting and would include any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process as of the date liquidation became imminent.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments were reflected at fair value, except for fully benefit-responsive investment contracts, which were reported at contract value (Note 4). Plan management reviewed and evaluated the values provided by the custodian and insurance companies and agreed with the valuation methods and assumptions used by them. See Note 3, Fair Value Measurements, for a summary of the inputs used as of December 31, 2020 in determining the fair value of the Plan's investments.

Purchases and sales of investments were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date.

The Plan presents in the statement of changes in net assets available for benefits (ongoing basis), the net appreciation (depreciation) in fair value of its investments, which consisted of realized gains (losses) and the unrealized appreciation (depreciation) on those investments.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded when earned. If a participant ceased to make loan repayments and the plan administrator deemed the notes receivable from participant to be in default, the loan balance was reduced and a benefit payment was recorded.

Benefit Payments

Benefits are recorded when paid.

Plan Expenses

Certain administrative expenses of the Plan were paid from the accounts of Plan participants for actions initiated by the participants, such as loan and origination fees. These administrative expenses were deducted directly from their account. Other administrative expenses, such as audit and legal fees, were paid by the Employer.

3. Fair Value Measurements

In accordance with *Fair Value Measurements*, fair value is defined as the price that the Plan participant(s) would receive upon selling an investment or pay to transfer a liability in an orderly transaction between market participants at the measurement date to an independent buyer in the principal or most advantageous market of the investment. Fair Value Measurements established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement). The three levels of the fair value hierarchy under Fair Value Measurements are described below:

- | | |
|---------|---|
| Level 1 | Quoted prices in active markets for identical assets or liabilities. |
| Level 2 | Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the same term of the assets or liabilities. |
| Level 3 | Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. |

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model based valuation techniques may require the transfer of financial instruments from one fair value level to another. For the years ended December 31, 2021 and 2020, there were no transfers in or out of Levels 1, 2, or 3.

The following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2020:

Registered Investment Companies, including mutual funds: Valued at the net asset value ('NAV') of shares held by the Plan. Because these funds were traded daily on an active exchange and were valued primarily on the basis of market quotations, official closing prices, or on the basis of information furnished by a pricing service, they were classified as Level 1.

Variable Annuities – CREF: Valued at NAV of accumulation units held by the Plan at year end. NAV, calculated daily, was applied to daily purchase and sale transactions in addition to being used to value ending market values. Accumulation units were valued using market quotations to value securities and other instruments. If these were not readily available, securities would be valued using fair value, as determined in accordance with procedures adopted by CREF. These assets were classified as Level 2 because the funds had a quoted price; however, they were not publicly traded and had certain restrictions impacting participants' ability to transact. Participants were able to be locked out of variable annuities for 90 days if a purchase, sale and repurchase within that variable annuity was made within a 60 day period.

The Children's National Medical Center Affiliates'
403(b) Retirement Plan
Notes to Financial Statements
December 31, 2021 (in liquidation) and 2020 (ongoing)

Insurance company pooled separate accounts – Real Estate: Valued at NAV of accumulation units held by the Plan at year end. NAV, calculated daily, was applied to daily purchase and sale transactions in addition to being used to value ending market values. Transfers out of this account were limited to once per quarter. These assets were classified as Level 2 because the funds had a quoted price, however, they were not publicly traded and had certain restrictions impacting participants' ability to transact.

Effective March 31, 2011, internal transfers into the TIAA Real Estate Account were prohibited if the transfer causes the value of the Participant's total accumulation in the account to exceed \$150,000. The purpose of this limitation was to ensure more predictable account inflows and outflows, which was expected to facilitate efficient portfolio management over the long term.

Unallocated Insurance Contracts – TIAA Traditional Annuity –RA: Valued at the contract value, which approximated fair value and was the amount that would be received at the reporting date if amounts were withdrawn or funds transferred within the Plan prior to their maturity. A participant could withdraw from a TIAA Traditional annuity according to the predetermined installment plan. These assets were classified as Level 3 because the valuation methodology was not observable.

The RA annuities had liquidity restrictions and distributions, withdrawals, and transfers out of these contracts could only be made in 10 annual installments through Transfer Payout Annuities (TPAs). They were therefore considered "nonbenefit responsive" as contemplated by FASB ASC 962-325-35-5.

The RA contracts were a guaranteed (by TIAA's claim paying ability) annuity which guaranteed principal and paid a guaranteed minimum interest, which was 3% during the accumulation phase and 2% during the payout phase. Additional amounts above the guaranteed minimum interest rate could be declared at the discretion of the TIAA Board of Trustees on a year-by-year basis. When declared, the additional amounts remained in effect for the declaration year that began each March 1, and were not guaranteed for future years. Together the guaranteed minimum and additional amounts made up the crediting rate in the accumulation phase. TIAA grouped premium dollars received over defined periods into vintages for the purposes of determining the crediting rate for the applicable declaration year during the accumulation period. During 2021, the average crediting rate for regular annuities was 3.58% (range of 3.00%-3.80%) for RA Annuity. Plan participants used their accumulation balance to purchase a lifetime annuity contract outside of the plan with TIAA-CREF to receive monthly income.

The methods described above could produce a fair value calculation that was not indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believed its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain instruments could have resulted in a different fair value measurement at the reporting date.

TIAA non benefit-responsive amounts represented RA contracts issued by TIAA. The TIAA RA annuities were not available for sale or transfer in any securities exchange. Accordingly, transactions in similar investment instruments were not observable, and the investment was valued using unobservable inputs (Level 3). While transactions involving the purchases/sales of individual TIAA annuity contracts were not observable in a public marketplace, contract value was an approximation of fair value.

The following table presents information about the valuation techniques used and approved by management to measure fair value, significant observable inputs and the range of values for those inputs related to the plans investments and assets categorized as Level 3 in the ASC 820 fair value hierarchy at December 31, 2020 (ongoing):

The TIAA Traditional RA contract was reported at contract value, which approximated fair value. Contract value approximates a discounted cash flow value calculation using an appropriate risk-adjusted maker discount rate which correlates closely with TIAA Traditional Annuities' historical credit rates.

Type	Fair Value	Range of Significant Input Value	Principal Valuation Technique	Significant Unobservable Inputs
TIAA Traditional Annuities				
2020				
Non-benefit responsive RA	\$ 11,000,064	RA - 3.00% to 4.45%	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied*

**Unobservable inputs include discount rate applied.*

4. Investments at Contract Value

The Plan held fully benefit-responsive investments totaling \$0 and \$14,732,670 as of December 31, 2021 and 2020, respectively. These investments met the fully benefit-responsive investment contract criteria and therefore were reported at contract value. Contract value was the relevant measure for fully benefit-responsive investment contracts because that was the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represented contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due was dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations could have been affected by future economic and regulatory developments.

Certain events, as defined by contract, allowed the issuer to terminate the contract with the Plan and settle the amount different from contract value including contract termination and material misrepresentation.

Investments reported at contract value included the following:

TIAA Supplemental Retirement Annuity (SRA) and Group Supplemental Retirement Annuity (GSRA) contracts: The TIAA Traditional Annuity holdings within SRA and GSRA contracts contained no liquidity restrictions and were considered "fully benefit-responsive". The annuities were a guaranteed annuity which guaranteed principal and paid a guaranteed interest rate. The guaranteed minimum interest was 3%. Additional amounts above the guaranteed minimum interest rate may be declared at the discretion of the TIAA Board of Trustees on a year-by-year basis. During 2021, the average crediting rate for regular annuities was 3.02% for SRA/ GSRA for annuities in the accumulation and payout phase, depending on the contract.

ING Fixed Interest and Fixed Plus Accounts (Fixed Accounts) were available through annuity contracts issued by ING Life Insurance and Annuity Company (ILIAC) (now referred to as Voya). The Fixed Accounts were an obligation of ILIAC's general account which supported all of the company's insurance and annuity commitments. The interest rate guaranteed under the contract were subject to ILIAC's claims-paying ability. The crediting rate was communicated to the Plan and credited daily. The Fixed Accounts guaranteed principal and a minimum interest rate for the life of the contracts, as well as featuring two declared interest rates: a current rate, determined at least monthly, and a guaranteed minimum floor rate declared for a defined period - currently one calendar year. The guaranteed minimum floor rate could change after the defined period, but it would never be lower than the minimum guaranteed interest rate. The guaranteed minimum interest rate was 3.00%. Withdrawals to pay participant benefits (as defined in the contract) from the accounts were made at contract value.

5. Investments and Information Certified by the Plan's Custodian and Insurance Companies

The plan administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian (Fidelity) and insurance companies (TIAA-CREF, Voya, and MetLife) have certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2021 (in liquidation) and 2020 (ongoing) and the related investment activity and interest on notes receivable from participants reflected in the statements of changes in net assets available for benefits for the period January 1, 2021 to February 18, 2021 (ongoing) and presented as components of Remeasurement of Assets and Liabilities for the period February 19, 2021 to December 31, 2021 (in liquidation), as well as investment and investment related information in the accompanying notes to the financial statements, except for the leveling required under accounting guidance on fair value measurements included in Note 3.

The following information was certified complete and accurate by the custodian and insurance companies as of December 31, 2021 (in liquidation) and December 31, 2020 (ongoing):

The following information was certified complete and accurate by the custodians and insurance companies as components of Remeasurement of Asset and Liabilities for the period February 19, 2021 to December 31, 2021 (in liquidation):

	Interest and Dividends	Net Appreciation	Net Investment Income
Investment Income	<u>\$ 1,781,197</u>	<u>\$ 25,586,425</u>	<u>\$ 27,367,622</u>

6. Reconciliation of Statement of Changes in Net Assets Available for Benefits

Upon adoption of liquidation basis of accounting, the Plan recorded the following cumulative effect adjustments to net assets available for benefits as of the date of adoption:

Accrued expenses expected to be incurred in liquidation	<u>\$ (40,261)</u>
Cumulative effective adjustments for changes in basis of accounting	<u>\$ (40,261)</u>

Accrued expenses expected to be incurred in liquidation mainly consist of fees related to participant loan service fees and other administration fees.

The components of Remeasurement of Assets and Liabilities for the period February 19, 2021 through December 31, 2021 consist of the following:

Net appreciation in fair value of investments	\$ 25,586,425
Interest and dividend income	1,781,187
Interest on notes receivable from participants	<u>109,870</u>
Total Remeasurement of assets and liabilities	<u>\$ 27,477,482</u>

7. Party-in-Interest and Related Party Transactions

The Plan held investments managed by Fidelity, custodian of the Plan, and TIAA-CREF, Voya, and MetLife as insurance companies. Therefore, these transactions qualify as party-in-interest transactions.

A majority of the Plan's administrative expenses are paid by the Plan sponsor, which also qualifies as a party-in-interest transaction.

8. Tax Status

The Plan was designed to qualify for tax-exempt status under Section 403(b) of the Internal Revenue Code (the "Code"). The terms of the Plan were prepared to conform to the sample language provided by the Internal Revenue Service (IRS) in Revenue Procedure 2007-71. The Plan was required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b). The plan administrator believes that the Plan was designed and operating in accordance with the applicable requirements of Section 403(b) of the Code and, therefore, believes the Plan was qualified and the related custodial accounts and tax-deferred annuities were tax exempt. Therefore, no provision for income taxes was included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has concluded that there are no tax positions of the Plan. Therefore, as of December 31, 2021 (in liquidation) and 2020 (ongoing), there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2018.

9. Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. Subsequent Event

The Plan's management evaluated subsequent events through October 14, 2022, the date that the financial statements were available to be issued, noting no other matters requiring disclosure in the financial statements as of December 31, 2021.
