Independent Auditor's Report

To the Plan Administrator and Retirement Committee
Sealed Air Corporation Combined Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of Sealed Air Corporation Combined Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Sealed Air Corporation Combined Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Sealed Air Corporation Combined Pension Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Sealed Air Corporation Combined Pension Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Sealed Air Corporation Combined Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Sealed Air Corporation Combined Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule of Assets (Held at End of Year) and Schedule of Reportable Transactions are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Independent Auditor's Report

To the Plan Administrator of
the Sealed Air Corporation Combined Pension Plan

We were engaged to audit the accompanying financial statements consisting of the statement of net assets available for benefits as of December 31, 2020 and the statement of changes in net assets available for benefits for the year ended December 31, 2020 of Sealed Air Corporation Combined Pension Plan, and the related notes to the financial statement.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of a financial statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the 2020 financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2020, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2020 financial statements. Accordingly, we do not express an opinion on the 2020 financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations for 2020 Financial Statements

The form and content of the information included in the 2020 financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Sealed Air Corporation Combined Pension Plan

Notes to Financial Statements

December 31, 2021 and 2020

1. Plan Description

General

The Sealed Air Corporation Combined Pension Plan (Combined Pension Plan, or the Plan) is a defined benefit pension plan sponsored by Sealed Air Corporation (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Plan Mergers

Effective May 25, 2009, the Sealed Air Corporation Pension Plan for Eligible Union Employees in Cedar Rapids, IA (Cedar Rapids Plan) was merged into the Sealed Air Corporation Restoration Plan for Cryovac Employees (Cryovac Plan). The merged Cedar Rapids Plan participants remain subject post-merger to the Cedar Rapids Plan's benefit accrual, vesting and benefit payment structures.

Effective December 31, 2016, (Sealed Air Merger Date), the assets of the Sealed Air Corporation Retirement Plan for Formpac Non-Union Hourly Employees (Formpac Plan) and the Sealed Air Corporation Pension Plan for Eligible Employees in Exton and Modena, Pennsylvania (Exton Modena Plan) were merged into the Cryovac Plan which was renamed the Sealed Air Corporation Combined Pension Plan. Effective as of the Sealed Air Merger Date of December 31, 2016, the Plan was comprised of the following four component documents: the Sealed Air Corporation Restoration Plan for Cryovac Employees, the Sealed Air Corporation Pension Plan for Eligible Employees in Cedar Rapids, Iowa, the Sealed Air Corporation Retirement Plan for Formpac Non-Union Hourly Employees, and the Sealed Air Corporation Pension Plan for Eligible Employees in Exton and Modena, Pennsylvania.

On October 3, 2011, Diversey, Inc. (Diversey) was acquired by the Company, which succeeded Diversey to become the plan sponsor on March 20, 2017, of the Retirement Plan for Employees of Diversey, Inc. (Diversey Plan).

On March 27, 2017, the Company announced the sale of the Diversey Care division and the food hygiene and cleaning division within its Food Care division to Bain Capital Private Equity, a leading global private investment firm. The sale closed on September 5, 2017, and the Diversey Plan was retained by the Company.

Effective December 31, 2017, (Diversey Plan Merger Date), the Diversey Plan merged with and into the Sealed Air Combined Pension Plan. The assets of the Diversey Plan, which were held by

1. Plan Description (continued)

Northern Trust Company, were legally transferred effective that date to the Sealed Air Combined Pension Plan.

Effective as of the Diversey Plan Merger Date, the Plan is comprised of the following five component documents: the Sealed Air Corporation Restoration Plan for Cryovac Employees, the Sealed Air Corporation Pension Plan for Eligible Employees in Cedar Rapids, Iowa, the Sealed Air Corporation Retirement Plan for Formpac Non-Union Hourly Employees, the Sealed Air Corporation Pension Plan for Eligible Employees in Exton and Modena, Pennsylvania, and the Retirement Plan for Employees of Diversey, Inc.

Pension Benefits for Cryovac Plan

The following is a brief description of the Cyrovac Plan component, which includes the Cedar Rapids participants. Participants should refer to the Plan Document for more complete information on the Plan, including the other component documents.

Effective April 1, 1998, the Company established the Cryovac Plan, which covered only the eligible employees of the Company and the Company's subsidiary, Cryovac, Inc., who were participants in the W.R. Grace & Co. Retirement Plan for Salaried Employees (Prior Grace Plan) immediately prior to March 31, 1998. The credited service of a participant includes, subject to Plan limitations, the participant's credited service under and as defined in the Prior Grace Plan as of March 31, 1998. The Plan was amended effective September 1, 2014, to provide various benefit options for certain participants.

The Cryovac Plan was amended and restated on November 11, 2016, to freeze the Plan for participation and benefit accruals effective December 31, 2016, in addition to the changes discussed further below.

Cryovac Plan participants are eligible for their plan benefit after terminating employment with vested rights. Other than Cedar Rapids participants, a participant's accumulated benefit becomes fully vested upon the earliest of the participant's (i) completion of five years of vesting service, as defined, (ii) attainment of age 55 while in service, or (iii) becoming permanently disabled while in service. Cedar Rapids participants' accumulated benefit becomes fully vested upon the completion of five years of vesting service or attainment of age 55.

The annual pension benefit for a participant, other than Cedar Rapids participants, who separates from service upon attainment of age 65 shall be an annual amount equal to the excess of the participant's accumulated benefits over the sum of the participant's Prior Grace Plan accrued

1. Plan Description (continued)

benefit and the participant's assumed Sealed Air Corporation Profit-Sharing Plan accrued benefit (Assumed Profit-Sharing Plan Accrued Benefit), as defined. The participant's accumulated plan benefit equals the sum of 1% of the participant's final average compensation, as defined; multiplied by the participant's credited service; as defined; and 0.4% of the participant's final average compensation, as defined in excess of the participant's covered compensation, as defined; multiplied by the participant's credited service. A hypothetical benefit related to the Assumed Profit-Sharing Plan Accrued Benefit is determined by crediting 8.5% interest to each year's employer contribution through the date of the determination, then summing all the adjusted contributions, and further converting the result to a monthly benefit payable for the life of the participant.

The annual pension benefit for a Cedar Rapids participant who separates from service upon attainment of age 65 shall be an amount equal to the participant's credited service multiplied by the benefit rate in effect at the time of termination. Effective May 1, 2006, this rate is $34.50. Plan participants are eligible for their plan benefit after termination of employment with vested rights. A participant's credited service shall be the number of full years and completed months of the participant's Continuous Employment, as defined.

Normal retirement date is the first day of the month coinciding with or next following attainment of age 65. A participant may elect early retirement at age 55. Other than Cedar Rapids participants, the benefits payable to a participant on an early retirement date are actuarially reduced. Cedar Rapids participants' early retirement benefits are reduced by 1/3 of 1% for each month by which the annuity starting date precedes the first day of the month in which the participant attains age 62. The normal method of payment for unmarried participants is a life annuity and for married participants is a joint and 50% survivor annuity. Participants may elect optional methods, as defined, of payments if a qualified waiver, as defined, is in effect.

Death Benefits for Cryovac Plan

In the event of a vested participant's death prior to attaining the normal retirement date, the participant's surviving spouse shall generally be paid an amount equal to the benefit that would have been received if the participant had terminated service on the date of death and commenced receiving an immediate retirement benefit under the Plan in the form of a joint and 75% survivor annuity (or a joint and 50% survivor annuity in the case of Cedar Rapids participants). Unless the surviving spouse consents, distribution of the spouse's death benefit shall not commence prior to the date the participant would have attained age 65. If a participant dies following the commencement of benefit payments, the benefits payable following such participant's death shall be as provided by the method payment selected by the participant.

1. Plan Description (continued)

Pension Benefits for Formpac Plan

The following is a brief description of the Formpac Plan component. Participants should refer to the Plan Document for more complete information on the Plan, including the other component documents.

Effective April 1, 1998, the Company established the Formpac Plan, which covered only the eligible hourly paid employees of the rigid foam packaging business of the Company's subsidiary, Cryovac, Inc., who were participants in the Prior Grace Plan immediately prior to March 31, 1998. The credited service of a participant includes, subject to Plan limitations, the participant's credited service under and as defined in the Prior Grace Plan as of March 31, 1998. All other hourly paid employees of Cryovac, Inc. at the Reading, PA, and the Indianapolis, IN, rigid packaging plants, with certain exceptions, became participants upon the completion of one year of service, as defined, and the attainment of age 21. Participant contributions were not permitted by the Formpac Plan.

On April 1, 2015, there was a divestiture of the locations which employed the Formpac Plan participants and, as a result, following the divestiture, participants have terminated employment with the Company and earn no additional service under the Formpac Plan.

Formpac Plan participants are eligible for their plan benefit after terminating employment with vested rights. A participant's accumulated benefit becomes fully vested upon the earliest of the participant's (i) completion of five years of vesting service, as defined, or (ii) attainment of age 55 while in service. All benefits that do not become vested are forfeited and applied to reduce the contributions required to be made by the Company as determined by the Formpac Plan's consulting actuary. The pension benefit for a participant who separates from service on or after January 1, 2003 upon attainment of age 65 is a monthly amount equal to the participant's credited service, as defined, multiplied by the dollar amount of either $24, $29 or $32 for pension grades I, II or III, respectively, as of July 1st of the year immediately preceding the year in which the participant separates from service.

Normal retirement date is the first day of the month coinciding with or next following attainment of age 65. A participant may elect early retirement at age 55. The normal method of payment for unmarried participants is a life annuity and for married participants is a joint and 50% survivor annuity. Participants may elect optional methods, as defined, of payments if a qualified waiver is in effect.

1. Plan Description (continued)

Death Benefits for Formpac Plan

In the event of a vested participant's death prior to attaining the normal retirement date, the participant's surviving spouse shall generally be paid an amount equal to the benefit that would have been received if the participant had terminated service on the date of death and commenced receiving an immediate retirement benefit under the Formpac Plan in the form of a joint and 75% survivor annuity. Unless the surviving spouse consents, distribution of the spouse's death benefit shall not commence prior to the date the participant would have attained age 65. If a participant dies following the commencement of benefit payments, the benefits payable following such participant's death shall be as provided by the method payment selected by the participant.

Pension Benefits for Exton Modena Plan

The following is a brief description of the Exton and Modena Plan component. Participants should refer to the Plan Document for more complete information on the Plan, including the other component documents.

The Exton Modena Plan covers eligible production employees in Exton and Modena, Pennsylvania. The Exton Modena Plan became effective February 15, 1982 and was most recently amended in 2016. All production workers employed as hourly wage rate employees of the Exton and Modena, Pennsylvania, location entered the Exton Modena Plan following the completion of one year of service and minimum 880 hours.

Participants are credited with a year of service for each year in which 1,760 hours or more are worked. Partial credit is given for less hours according to the terms of the Exton Modena Plan. Credited service is not to exceed 38 years of service. One year of vesting service is earned for each plan year in which the participant earns 880 hours of service.

Normal retirement is at age 65 with 5 years of participation. The monthly benefit is the effective rate multiplied by credit service. The effective rate as of March 2016 was $40. Early retirement is available at age 55 and 10 years of service. The benefit is reduced by one half of one percent for each month the early retirement precedes the participant's 65th birthday. Certain disability benefits are provided in accordance with the terms of the Exton Modena Plan.

Vesting occurs after 5 years of service. The normal form of payment for married participants is a joint and survivor annuity. If not married, benefits are payable for the life of the participant with 10 years certain. Optional forms of payment are available.

1. Plan Description (continued)

Death Benefits for Exton Modena Plan

In the event of a vested participant's death prior to attaining the normal retirement date, the participant's surviving spouse shall generally be paid an amount equal to the one-half of the benefit that would have been paid if the participant had retired the day before he died under the joint and survivor option. Benefits are paid immediately or at the participant's early retirement age, if later.

Pension Benefits for Diversey Plan

The following is a brief description of the Diversey Plan component. Participants should refer to the Plan Document for more complete information on the Plan, including the other component documents.

Effective January 1, 1999, the assets, liabilities, and benefit obligations for employees of JohnsonDiversey, Inc. were spun off from the pension plan of S. C. Johnson & Sons, Inc. to create the Diversey Plan. It is a cash balance plan, which is a type of defined-benefit plan that expresses participants' accrued benefits in terms of hypothetical cash balance accounts. Effective December 31, 2008, the Diversey Plan was amended to freeze participation and benefit accruals.

Former Johnson Wax Professional or Johnson Polymer employees who were employed by Diversey and individuals who were active participants of the pension plan of S. C. Johnson & Sons, Inc. at any time between January 1, 1998 and June 1, 1998, were credited with an initial cash balance based on a formula incorporating the present value of an early retirement benefit and factors for years of service and age.

Prior to January 1, 2009, a participant's cash balance account was credited annually with a percentage of pay which is equal to 5% of pay, up to the social security wage base, plus 10% of pay in excess of that amount. Effective January 1, 2009, no further compensation credits were granted.

Effective January 1, 2010, annual interest credits are based on the yield of 10-year Treasury Constant Maturities.

Former Johnson Wax Professional or Johnson Polymer employees who were employed between January 1, 1998 through June 1, 1998, are entitled to benefits equal to the greater of the amount calculated under the cash balance benefit or a formula based on base pay and years of service through December 31, 2008.

1. Plan Description (continued)

Participants in the Diversey Plan were subject to a three-year vesting schedule. Normal retirement age is 65, but early retirement benefits are available upon reaching an age and number of years of service. Participants may elect to receive their pension benefits in the form of a joint and survivor annuity or, with spousal consent, in the form of a lump-sum payment or other form of annuity payment.

Effective January 1, 2008, the Diversey Plan was amended to fully vest all participants who were determined by Diversey to have incurred an employer-initiated involuntary termination of employment in 2008.

Death Benefits for Diversey Plan

If a participant with a vested interest in benefits under the Diversey Plan dies prior to the receipt of any benefits under the Diversey Plan, their beneficiary shall be entitled to a lump sum cash payment equal to the participant's cash balance account.

Plan Termination for the Combined Pension Plan

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event of the termination of the Plan, after any expenses have been paid, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations generally to provide the following benefits in the order indicated.

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. Government agency, up to the applicable limitations as prescribed in ERISA.
- All other vested benefits (i.e., vested benefits not insured by the PBGC).
- All nonvested benefits.

1. Plan Description (continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

2. Summary of Significant Accounting Policies

Basis of Financial Statements

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (Note 5) are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' compensation during each year of credited service. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the freeze dates.

The actuarial present value of accumulated plan benefits is determined by an actuary from Willis Towers Watson and is the amount that results from applying actuarial assumptions to adjust the

2. Summary of Significant Accounting Policies (continued)

accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of December 31, 2020, are further described in Note 5.

Investment Valuation and Income Recognition

Investments held by the Plan as of December 31, 2021 and 2020 are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee determines the valuation policies utilizing information provided by the investment advisers, trustees, and insurance companies. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The average cost basis is used in determining gain or loss on investments sold.

Payment of Benefits

Benefits are recorded when paid.

Plan Administrative Expenses

Administrative expenses, to the extent not paid by the Plan, are paid by the Company.

Funding Policy

Employer contributions are computed under the unit credit method, which recognizes the cost of benefits over the period in which the employee's service has been rendered. The unit credit method includes the annual normal cost plus an amount to amortize the unfunded actuarial liability, if any.

The Company contributes such amounts as are necessary to a trust to provide assets sufficient to meet the current and future benefits to be paid to participants and satisfy the ERISA minimum funding requirements. The Company has met the minimum funding requirements of ERISA during 2021 and 2020.

3. Investment Information Certified by the Trustee

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2021 and 2020, and net appreciation in fair value of investments, interest from investments, dividends, and investment expenses for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee.

4. Fair Value Measurements

The Plan follows accounting standards which establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under accounting standards are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Fair Value Measurements (continued)

The following is a description of the valuation methodologies used at December 31, 2021 and 2020, for assets measured at fair value.

The Plan holds units of various Aon Group Trust (AGT) Funds and (formerly known as Aon Hewitt Group Trust, or AHGT) offered through a private placement to qualified defined benefit pension plans and governmental plans meeting certain qualifications. The units are valued daily using the net asset value (NAV) as provided by the trustee as a practical expedient to estimate fair value. The NAVs are based on the fair value of each fund's underlying investments. The AGT Funds may be traded at their NAVs. There are no restrictions on the redemption of these funds, except for the CF Multi-Asset Credit Class-I, which is available for redemption on a monthly basis and the MFO AGT Global Real Estate which is available for redemption on a quarterly basis.

The Plan holds units of 103-12 investment entities which are valued at the NAV as a practical expedient using information provided by the investment manager based upon the audited financial statements of the fund's underlying investments. The funds are available for redemption on a semi-annual basis.

Joint venture interests and real estate limited partnerships are valued at the NAV as a practical expedient using information from investment managers and based upon audited financial statements and other information obtained by the investment managers. The investment objective is total return through capital appreciation. There are restrictions on the redemption of these investments and they generally cannot be liquidated until the partnerships are terminated.

Real estate commingled funds are valued at the NAV as a practical expedient reported by the issuer of the funds. There are no restrictions on the redemption of this fund.

Short term investment funds consist of a collective fund that is valued at NAV as a practical expedient based on value of the underlying assets. The NAV is maintained at $1.00 per share. The underlying investments have established market values. There are no restriction on redemption of this fund.

As all of the Plan's investments are valued at NAV as a practical expedient, no fair value hierarchy table is presented.

At December 31, 2021, the Plan's remaining commitment to make additional investments in venture capital limited partnerships is immaterial.

5. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' compensation during each year of credited service.

Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Willis Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of December 31, 2020 were as follows:

Discount rate	2.83% (2.45% in prior year)
Mortality	Pri-2012 (no adjustments) using contingent survivor mortality after the annuitant's death and scale MP-2021 projection; (Pri-2012 with no adjustments and with scale MP-2020 projection in prior year)
Average retirement age	Rates of probability from ages 55 to 70, retirement benefits commence at age 65
Cash balance crediting rate	1.58% (applicable only to Diversey)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits were made as of January 1, 2021. Had the valuation been performed as of December 31, 2020 there would be no material differences.

5. Accumulated Plan Benefits (continued)

A summary of accumulated plan benefits as of December 31, 2020 is as follows:

	December 31, 2020
Vested benefits:	
Participants currently receiving benefits	$ 146,889,621
Other participants	46,855,970
	193,745,591
Non-vested benefits	-
Total actuarial present value of accumulated plan benefits	$ 193,745,951

The change in accumulated plan benefits for the year ended December 31, 2020 is as follows:

	Year Ended December 31, 2020
Actuarial present value of accumulated plan benefits at December 31, 2019	$ 212,446,918
Changes attributable to:	
Benefits accumulated, net experience gain or loss or changes in data	127,654
Actuarial (gains)	(945,930)
Interest	5,018,034
Benefits paid	(15,513,754)
Assumption changes	(7,387,331)
Net (decrease)	(18,701,327)
Actuarial present value of accumulated plan benefits at December 31, 2020	$ 193,745,591

On March 11, 2021 the American Rescue Plan Act of 2021 (ARPA) was signed into law to provide funding relief for single employer pension plans in the form of interest rate stabilization and lengthen the period for amortizing funding shortfalls. The Plan has elected to adopt the provisions of ARPA. The contributions recorded for the year ended December 31, 2021 and 2020 have been calculated in accordance with the provisions contained in ARPA.

6. Annuity contract reimbursements

The Plan receives certain payments under annuity contracts between the Plan and certain insurance companies. The payments received under such annuity contracts are used by the Plan to offset benefit payments and have been reflected in the accompanying statements of changes in net assets available for benefits as annuity contract reimbursements.

7. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated March 8, 2018, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and therefore the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. Related Party Transactions

Certain of the Plan's assets are invested in a short-term investment fund managed by the trustee of the Plan. The Plan sponsor provides certain administrative functions to the plan for which it is not reimbursed. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

10. Subsequent Events

Management has evaluated all subsequent events through October 10, 2022**,** which represents the date the financial statements were available to be issued.

SCHEDULE SB ATTACHMENTS

Plan-related expenses	The amount included this year for plan-related expenses is $2,500,000.

As permitted by law, rates reflecting stabilization are used to determine the funding target, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Demographic Assumptions

Inclusion Date	The valuation date coincident with or next following the date on which the employee becomes a participant.
New or rehired employees	It was assumed there will be no new or rehired employees.
Mortality	Separate rates for non-annuitants (based on RP-2014 “Employees” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2019) and annuitants (based on RP-2014 “Healthy Annuitants” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2019).
Disabled mortality	Separate rates for non-annuitants (based on RP-2014 “Employees” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2019) and annuitants (based on RP-2014 “Healthy Annuitants” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2019).
Actuarial increases	For terminated vested participants older than the normal retirement age at the valuation date, an age 65 accrued benefit with no actuarial increases is used. Many of these participants are unable to be located or are likely deceased offsetting any required actuarial increases.

SCHEDULE SB ATTACHMENTS

Methods

All Plans

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets for the three former plans on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2021 plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Sealed Air Corporation and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The Willis Towers Watson pension administration group furnished participant data as of 1/1/2021. Information on assets, contributions and plan provisions was supplied by the plan sponsor or trustee. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Expected return on plan assets

The assumption reflects the plan sponsor's estimate of future experience for trust asset returns, reflecting the plan's current asset allocation and any expected changes during the current plan year, current market conditions and the plan sponsor's expectations for future market conditions.

Plan-related expenses

As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Lump sum conversion rate

Lump sum benefits are valued using the plan's discount rate at measurement date as the assumption for the plan's lump sum conversion rate. We believe the assumption is reasonable and consistent with other economic assumptions used.

SCHEDULE SB ATTACHMENTS

Interest Crediting Rate	The plan credits interest to cash balance accounts as of the last day preceding the Annuity Starting Date at the annual interest rate equal to the annual yield on 10 Year Treasury Constant Maturities determined for the month of October immediately preceding the year payment begins. After examining historical variability in this rate, as well as expectations on the plan's long term interest credit rate we believe that the selected assumption does not significantly conflict with what would be reasonable based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used, other than the discount rate.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Assumed termination rates are based on plan sponsor expectation for the future with periodic monitoring of patterns different than assumed. Experience study performed in 2006 confirmed reasonability of current assumption.
Retirement	Assumed retirement rates are based on plan sponsor expectation for the future with periodic monitoring of patterns different than assumed. Experience study performed in 2006 confirmed reasonability of current assumption.
Benefit Commencement Age	Based on plan experience and expectation for the future. Experience study performed in 2006 confirmed reasonability of current assumption.
Form of payment	Former IUE participants are assumed to take a life annuity with 60 monthly payments guaranteed. All other participants are assumed to elect a lump sum form of payment under the plan. This is based on actual experience as well as gains/losses observed.

SCHEDULE SB ATTACHMENTS

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

The following changes in assumptions were made as part of this valuation:

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2019 to September 2020 and the ARPA interest rate corridors were applied.
- The mortality projection scale used to calculate the funding target and target normal cost was updated from Scale MP-2018 to Scale MP-2019, as required by IRC §430.
- The assumed plan-related expenses added to the target normal cost were changed from $2,850,000 for 2020 to 2,500,000 for 2021. The method to determine the assumed plan-related expenses is unchanged.
- The mortality assumption for lump sums based on annuity benefits was updated from the PPA 2020 optional combined unisex mortality table to the PPA 2021 optional combined unisex mortality table.
- The segment interest rates used to calculate lump sum conversions for the funding target and target normal cost were updated from an applicable month of September 2019 to September 2020.
- The interest crediting rate was changed from graduated interest crediting rates with a rate for 2020 of 1.71% and grading from 0.60% in 2021 to 1.60% in 2020 to graduated interest crediting rates with a rate for 2021 of 0.79% and grading from 0.88% in 2022 to 1.60% in 2030.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB – Statement by Enrolled Actuary

Plan Sponsor	Sealed Air Corporation
EIN/PN	65-0654331/007
Plan Name	Sealed Air Corporation Combined Pension Plan
Valuation Date	January 1, 2021
Enrolled Actuary	Megan Yee, FSA, EA
Enrollment Number	20-07691

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 22
Description of Weighted Average Retirement Age
as of January 1, 2021

The Sealed Air Corporation Combined Pension Plan contains multiple employee groups. The final weighted-average retirement age reported on Line 22 for the plan was calculated by weighting the calculated retirement age determined for each group with different retirement rates by the number of active participants in those groups as shown in “Schedule SB, Part V – Statement of Actuarial Assumptions and Methods”.

The detailed description of the exact rates that apply at each age for each group for the various categories is contained in the attachment “Schedule SB, Part V – Statement of Actuarial Assumptions and Methods”

The following page shows a sample calculation of the weighted-average retirement age for the largest group, the “Legacy Restoration” group. In computing the weighted-average retirement age, the weight applied to each age is (a)/(b), where (a) and (b) are defined as follows:

(a) The number of participants expected to retire at the retirement age to which the weight is being applied.
The number of participants expected to retire is estimated by applying the assumed rates of decrement to the current active population.

(b) The total number of participants expected to retire. The number of participants expected to retire is estimated by applying the assumed rates of decrement to the current active population.

Plan-related expenses	The amount included this year for plan-related expenses is $2,500,000.

As permitted by law, rates reflecting stabilization are used to determine the funding target, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Demographic Assumptions

Inclusion Date	The valuation date coincident with or next following the date on which the employee becomes a participant.
New or rehired employees	It was assumed there will be no new or rehired employees.
Mortality	Separate rates for non-annuitants (based on RP-2014 “Employees” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2019) and annuitants (based on RP-2014 “Healthy Annuitants” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2019).
Disabled mortality	Separate rates for non-annuitants (based on RP-2014 “Employees” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2019) and annuitants (based on RP-2014 “Healthy Annuitants” table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2019).
Actuarial increases	For terminated vested participants older than the normal retirement age at the valuation date, an age 65 accrued benefit with no actuarial increases is used. Many of these participants are unable to be located or are likely deceased offsetting any required actuarial increases.

SCHEDULE SB ATTACHMENTS

Methods

All Plans

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets for the three former plans on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2021 plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Sealed Air Corporation and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The Willis Towers Watson pension administration group furnished participant data as of 1/1/2021. Information on assets, contributions and plan provisions was supplied by the plan sponsor or trustee. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Expected return on plan assets

The assumption reflects the plan sponsor's estimate of future experience for trust asset returns, reflecting the plan's current asset allocation and any expected changes during the current plan year, current market conditions and the plan sponsor's expectations for future market conditions.

Plan-related expenses

As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Lump sum conversion rate

Lump sum benefits are valued using the plan's discount rate at measurement date as the assumption for the plan's lump sum conversion rate. We believe the assumption is reasonable and consistent with other economic assumptions used.

SCHEDULE SB ATTACHMENTS

Interest Crediting Rate	The plan credits interest to cash balance accounts as of the last day preceding the Annuity Starting Date at the annual interest rate equal to the annual yield on 10 Year Treasury Constant Maturities determined for the month of October immediately preceding the year payment begins. After examining historical variability in this rate, as well as expectations on the plan's long term interest credit rate we believe that the selected assumption does not significantly conflict with what would be reasonable based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used, other than the discount rate.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Assumed termination rates are based on plan sponsor expectation for the future with periodic monitoring of patterns different than assumed. Experience study performed in 2006 confirmed reasonability of current assumption.
Retirement	Assumed retirement rates are based on plan sponsor expectation for the future with periodic monitoring of patterns different than assumed. Experience study performed in 2006 confirmed reasonability of current assumption.
Benefit Commencement Age	Based on plan experience and expectation for the future. Experience study performed in 2006 confirmed reasonability of current assumption.
Form of payment	Former IUE participants are assumed to take a life annuity with 60 monthly payments guaranteed. All other participants are assumed to elect a lump sum form of payment under the plan. This is based on actual experience as well as gains/losses observed.

SCHEDULE SB ATTACHMENTS

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

The following changes in assumptions were made as part of this valuation:

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2019 to September 2020 and the ARPA interest rate corridors were applied.
- The mortality projection scale used to calculate the funding target and target normal cost was updated from Scale MP-2018 to Scale MP-2019, as required by IRC §430.
- The assumed plan-related expenses added to the target normal cost were changed from $2,850,000 for 2020 to 2,500,000 for 2021. The method to determine the assumed plan-related expenses is unchanged.
- The mortality assumption for lump sums based on annuity benefits was updated from the PPA 2020 optional combined unisex mortality table to the PPA 2021 optional combined unisex mortality table.
- The segment interest rates used to calculate lump sum conversions for the funding target and target normal cost were updated from an applicable month of September 2019 to September 2020.
- The interest crediting rate was changed from graduated interest crediting rates with a rate for 2020 of 1.71% and grading from 0.60% in 2021 to 1.60% in 2020 to graduated interest crediting rates with a rate for 2021 of 0.79% and grading from 0.88% in 2022 to 1.60% in 2030.

Description of Benefits

Normal retirement benefit

Credited Service multiplied by the dollar amount corresponding to the Participant's Pension Grade as of July 1, in the year preceding termination.

Pension Grade	Benefit Amount
I	$24.00
II	$29.00
III	$32.00

Early Retirement Benefit

Normal Retirement Benefit calculated with Credited Service and Pension Grade as of Early Retirement Date but reduced by ¼ of 1% for each month or 3% per year by which benefit commencement precedes Normal Retirement Date.

Late Retirement Benefit

Plan provides a suspension of benefits notice for active participants who are employed past Normal Retirement Age.

Vested Benefits Upon Termination of Service

Normal Retirement Benefit calculated with Credited Service and Pension Grade as of date of separation from service and payable at Normal Retirement Date.

Death Benefits for Participants in Active Service

75% of the Normal Retirement Benefit the participant would have received under the 75% joint and survivor option payable to the participant's eligible spouse.

Other Plan Provisions

Forms of payment

Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms include life annuity, 50%, 66⅔%, 75% and 100% joint and survivor annuities, a 10-year certain and life annuity, and a Level Income Annuity. Lump sums are automatically paid by the plan if under $5,000. Actuarial equivalence is based on factors specified in the plan document. Lump sum distributions are calculated as specified under Section 417(e) of the Internal Revenue Code.

SCHEDULE SB ATTACHMENTS

Maximum on Benefits and Pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. Coverage and Participation	As of December 31, 2008, the plan was frozen to new entrants. An employee becomes a participant upon completion of a year of eligibility service (retroactive to the first day of such year of eligibility service). An employee is credited with a year of eligibility service if he completes 1,000 hours of service in a 12 consecutive month period. The following individuals who are active Employees of the Company on January 1, 2004 shall be eligible to participate in the Plan as of the later of January 1, 2004 or the completion of one year of eligibility service (includes former DiverseyLever service): (a) Former employees of DiverseyLever Inc. who are employees of Diversey Subsidiary #1 LLC and active participants in the DiverseyLever Retirement Plan as of December 31, 2003 and are "Employees" for purposes of this Plan as of January 1, 2004; (b) Former employees of Prism Sanitation Management, LLC; and (c) Former employees of The Butcher Company.
Participation Date	Date of becoming a covered employee

Definitions

Service	Last continuous period of employment with the company, subsidiary or affiliate (includes Johnson Wax Associates, Inc. (JWA) and any JWA affiliate or subsidiary).
Points	Points shall mean the points credited to each employee who retires based on service prior to January 1, 1975. Each employee shall be credited with points at the time of his retirement, up to a maximum of 100 points, as follows:

SCHEDULE SB ATTACHMENTS

(1) One point for each year of his attained age up to a maximum of 65.

(2) One-twelfth of a point for each month of service.

Base Pay

Employee's basic rate of compensation excluding overtime and other forms of premium payment, profit sharing payments, and any other forms of additional compensation. Sales bonuses will be included in base pay after July 1, 1984.

Final Average Pay

Average monthly base pay of any five consecutive years in which the largest amount of base pay was received during the last 12 years prior to employee's normal retirement date or termination of employment, if earlier.

Primary Social Security Benefit

The benefit to which the employee is entitled under the terms of the Social Security Act as in effect at the time of his separation from service, whether or not the employee actually applies for and receives such benefit at the time it first becomes payable.

Early Retirement Income Supplement

An employee who retires after attaining age 60 and completing 30 years of service shall be entitled to a retirement income supplement. The monthly amount of the supplement on a life annuity basis shall be equal to the difference, if any, between 70% of the employee's final average pay, such 70% not to exceed $900, and the sum of the following amounts:

(a) The monthly amount of retirement income payable from this Plan under the normal form, regardless of whether benefits are actually paid in that form;

(b) The monthly amount of retirement income from the retirement account in the Sealed Air Corporation Employees Deferred Profit Sharing and Savings Plan payable in the form of a cash refund life annuity, regardless of whether benefits are actually paid to the employee in that form; and

(c) The monthly amount of the Primary Social Security Benefit, if any, to which the employee is entitled at the date of his retirement.

The supplement, except as provided below, shall cease upon the employee's death. In the case of an employee not Eligible to receive Social Security benefits at retirement, the supplement shall cease when he becomes eligible to receive a Primary Social Security Benefit; provided, however, that if the supplement is in excess of the

	Primary Social Security Benefit (determined as of the employee's retirement date), the excess shall continue to be paid to the retired employee.

Description of Benefits

Amount of Benefits – Cash Balance Formula

The cash balance accounts equal to the sum of (a), (b), and (c) below:

(a) Initial Balance – The initial balance was determined for each participant as of January 1, 1998 as the sum of two items. First, the present value of the participant's single life annuity determined under the Grandfather Benefit (final average pay) formula, commencing at age 62. Second, an additional amount equal to the participant's years of service as of December 31, 1997 (maximum of 20 years) multiplied by the participant's December 31, 1997 annualized rate of base pay multiplied by a percentage based on the participant's age as of December 31, 1997. The percentages range from 1.0% for ages 25 and less, to 3.5% for ages 50 and older.

(b) Annual Service Credits – As of December 31, 2008, future benefit accruals under the Retirement Plan for Employees of Sealed Air Corporation ceased. Before this date, annual service credits were calculated as follows:

At each December 31, a participant's cash balance account will be credited with an amount equal to 5% of the participant's pay up to the Social Security Wage Base for that year, plus 10% of the participant's pay in excess of the Social Security Wage Base.

Phased-In Contribution Credit for 2004 and 2005. Former employees of DiverseyLever Inc. who are employed by Diversey Subsidiary #1 LLC and became eligible to participate in the Plan as of January 1, 2004, former employees of The Butcher Company and Prism Sanitation Management LLC who became eligible to participate in the Plan as of January 1, 2004, and employees of the Company, Johnson Polymer, Inc. and U.S. Chemical Corporation hired after September 1, 2003 and prior to January 1, 2006, shall be eligible for an annual service credit phased-in for 2004 and 2005 in an amount determined as follows:

(i) As of December 31, 2004, an amount equal to 3% of such Participant’s Pay up to the Social Security Wage Base for 2004, plus 6% of the Participant’s Pay in excess of that amount; and

(ii) As of December 31, 2005, an amount equal to 4% of the Participant’s Pay up to the Social Security Wage Base for that year, plus 8% of the Participant’s Pay in excess of that amount.

SCHEDULE SB ATTACHMENTS

Amount of Benefits – Cash Balance Formula (continued)	**(c) Annual Earnings Credit** – At each December 31, a participant's cash balance account will be credited with earnings equal to the annual yield on 10-year U.S. Treasury Constant Maturities determined for the month of October immediately preceding the plan year. Prior to December 31, 2008 a participant's Pre-2004 cash balance account was credited with earnings equal to the greater of (a) 75% of the return on plan assets or (b) 4.00% and a participants Post-2003 cash balance account was credited with earnings equal to the annual yield on 10 year U.S. Treasury Constant Maturities as reported in the Federal Reserve Bulletin as the average annual yield as of that December 31.
Covered Pay	As of December 31, 2008, benefit accruals under the plan ceased, before that date pay used in determining the annual service credits was defined to be the sum of the following amounts: basic compensation, commissions, shift differential, overtime, and non-deferred bonuses under the Performance Bonus Opportunity Plan.
Lump Sum Conversion	Actuarial equivalent basis will be used for purposes of determining the lump sum cash equivalent of an annuity and for purposes of determining the monthly amount of an immediate single life annuity equivalent of a participant's Cash Balance Account.
Amount of Benefits - Old Plan Grandfather Formula	The plan provisions described below are only applicable to employees who were actively employed on any date between January 1, 1998 and June 1, 1998. These employees will receive the greater of the cash balance benefit or the old plan benefit described below for terminations or retirements until December 31, 2008. The old plan benefit was frozen as of December 31, 2008 but will continue to serve as a minimum benefit for eligible participants.

SCHEDULE SB ATTACHMENTS

Normal Retirement

(1) For service prior to January 1, 1975, the amount of monthly retirement income shall be the greater of:

(a) 0.8% of final average pay for each such year of service; or

(b) 25% of final average pay reduced by 2% for each point that total points are less than 100, multiplied by the ratio of service prior to January 1, 1975 to total years of service.

(2) For service after December 31, 1974, the monthly benefit shall be 1-3/4% of final average pay for each such year of service reduced by 1-2/3 % of the employee's Primary Social Security Benefit for each such year of service up to 30 years. Social Security is the amount commencing at age 62, or if retirement occurs after age 62, the Social Security benefit is the amount commencing at the later age.

Early Retirement

Normal retirement benefit computed above based on years of service and final average pay to early retirement date; reduced by 4% per year for each year and fractional year that early retirement date precedes age 62. The amount under (2) above shall not be less than the benefit would be if it were determined based on potential service at 65, level pay to age 65, and the Social Security benefit at age 65, multiplied by the ratio of actual service at retirement since December 31, 1974 to potential service at age 65 since December 31, 1974.

Late retirement

Plan provides a suspension of benefits notice for active participants who are employed past Normal Retirement Age.

Cost-of-living Adjustment

The monthly retirement benefit will be adjusted annually beginning January 15, 1971, based on the latest Consumer Price Index subject to the following limitations:

The adjustment will apply only to the first $500 of the monthly retirement benefit.

The increase or decrease will be limited to a maximum of 3% per year. If the Consumer Price Index changes more than 3% in one year, however, the excess can be carried forward and applied in succeeding years.

The benefit will never be reduced below the original amount which is paid at the time of retirement.

SCHEDULE SB ATTACHMENTS

Vested Termination	An employee with three or more years of covered service who terminated prior to his early retirement date shall be entitled to receive a vested retirement benefit. The monthly amount shall be determined in the same manner as the early retirement benefit for anyone terminating with ten or more years of service. Anyone with less than 10 years of service at termination will have actuarial equivalence reductions applied for early commencement.
Surviving Spouse	Surviving Spouse Benefit payable for life to surviving spouse equal to benefit spouse would have been entitled to receive if the deceased employee had retired on the day preceding the date of death, and had elected a joint and survivor annuity option under which 2/3 of the monthly benefit payable to the employee would be payable to the joint annuitant. Benefit will not be payable before employee would have attained age 50. Such benefit may also be paid under the Social Security Adjustment Option.
Surviving Covered Dependent	Surviving Covered Dependent Benefit payable for life to surviving covered dependent equal to 40% of the benefit the employee would have been entitled to receive on the day preceding the date of death. Payments shall be divided equally among each covered dependent until such person ceases to qualify as a covered dependent.

Other Plan Provisions

Normal Form of Annuity	**No spouse** – Life annuity. **With spouse** – Joint and survivor annuity actuarially equivalent to the five-year certain and life benefit payable to participant. In event of participant's death, 50% of reduced benefit is payable to surviving spouse.
Optional Forms of Payment	66.67%, 75% and 100% joint and survivor options, 5-year, 10-year, 15-year, and 20-year certain and life options, lump sum and Social Security adjustment option.

SCHEDULE SB ATTACHMENTS

Employee's Voluntary Contributions	Employees could have made voluntary contributions up to January 1, 1985, of 1 % to 10% of base pay to provide an additional benefit at retirement. SCHEDULE SB ATTACHMENTS

Schedule SB, Line 22
Description of Weighted Average Retirement Age
as of January 1, 2021

The Sealed Air Corporation Combined Pension Plan contains multiple employee groups. The final weighted-average retirement age reported on Line 22 for the plan was calculated by weighting the calculated retirement age determined for each group with different retirement rates by the number of active participants in those groups as shown in “Schedule SB, Part V – Statement of Actuarial Assumptions and Methods”.

The detailed description of the exact rates that apply at each age for each group for the various categories is contained in the attachment “Schedule SB, Part V – Statement of Actuarial Assumptions and Methods”

The following page shows a sample calculation of the weighted-average retirement age for the largest group, the “Legacy Restoration” group. In computing the weighted-average retirement age, the weight applied to each age is (a)/(b), where (a) and (b) are defined as follows:

(a) The number of participants expected to retire at the retirement age to which the weight is being applied.
The number of participants expected to retire is estimated by applying the assumed rates of decrement to the current active population.

(b) The total number of participants expected to retire. The number of participants expected to retire is estimated by applying the assumed rates of decrement to the current active population.

Coverage and Participation	As of December 31, 2008, the plan was frozen to new entrants. An employee becomes a participant upon completion of a year of eligibility service (retroactive to the first day of such year of eligibility service). An employee is credited with a year of eligibility service if he completes 1,000 hours of service in a 12 consecutive month period. The following individuals who are active Employees of the Company on January 1, 2004 shall be eligible to participate in the Plan as of the later of January 1, 2004 or the completion of one year of eligibility service (includes former DiverseyLever service): (a) Former employees of DiverseyLever Inc. who are employees of Diversey Subsidiary #1 LLC and active participants in the DiverseyLever Retirement Plan as of December 31, 2003 and are "Employees" for purposes of this Plan as of January 1, 2004; (b) Former employees of Prism Sanitation Management, LLC; and (c) Former employees of The Butcher Company.
Participation Date	Date of becoming a covered employee

Definitions

Service	Last continuous period of employment with the company, subsidiary or affiliate (includes Johnson Wax Associates, Inc. (JWA) and any JWA affiliate or subsidiary).
Points	Points shall mean the points credited to each employee who retires based on service prior to January 1, 1975. Each employee shall be credited with points at the time of his retirement, up to a maximum of 100 points, as follows:

SCHEDULE SB ATTACHMENTS

(1) One point for each year of his attained age up to a maximum of 65.

(2) One-twelfth of a point for each month of service.

Base Pay

Employee's basic rate of compensation excluding overtime and other forms of premium payment, profit sharing payments, and any other forms of additional compensation. Sales bonuses will be included in base pay after July 1, 1984.

Final Average Pay

Average monthly base pay of any five consecutive years in which the largest amount of base pay was received during the last 12 years prior to employee's normal retirement date or termination of employment, if earlier.

Primary Social Security Benefit

The benefit to which the employee is entitled under the terms of the Social Security Act as in effect at the time of his separation from service, whether or not the employee actually applies for and receives such benefit at the time it first becomes payable.

Early Retirement Income Supplement

An employee who retires after attaining age 60 and completing 30 years of service shall be entitled to a retirement income supplement. The monthly amount of the supplement on a life annuity basis shall be equal to the difference, if any, between 70% of the employee's final average pay, such 70% not to exceed $900, and the sum of the following amounts:

(a) The monthly amount of retirement income payable from this Plan under the normal form, regardless of whether benefits are actually paid in that form;

(b) The monthly amount of retirement income from the retirement account in the Sealed Air Corporation Employees Deferred Profit Sharing and Savings Plan payable in the form of a cash refund life annuity, regardless of whether benefits are actually paid to the employee in that form; and

(c) The monthly amount of the Primary Social Security Benefit, if any, to which the employee is entitled at the date of his retirement.

The supplement, except as provided below, shall cease upon the employee's death. In the case of an employee not Eligible to receive Social Security benefits at retirement, the supplement shall cease when he becomes eligible to receive a Primary Social Security Benefit; provided, however, that if the supplement is in excess of the

	Primary Social Security Benefit (determined as of the employee's retirement date), the excess shall continue to be paid to the retired employee.
Minimums Under Prior Plan	There are certain minimum benefits in the plan that are related to the prior plan that was in existence before April 1, 1963. These minimums have not been outlined in the above summary.

Description of Benefits

Amount of Benefits – Cash Balance Formula

The cash balance accounts equal to the sum of (a), (b), and (c) below:

(a) Initial Balance – The initial balance was determined for each participant as of January 1, 1998 as the sum of two items. First, the present value of the participant's single life annuity determined under the Grandfather Benefit (final average pay) formula, commencing at age 62. Second, an additional amount equal to the participant's years of service as of December 31, 1997 (maximum of 20 years) multiplied by the participant's December 31, 1997 annualized rate of base pay multiplied by a percentage based on the participant's age as of December 31, 1997. The percentages range from 1.0% for ages 25 and less, to 3.5% for ages 50 and older.

(b) Annual Service Credits – As of December 31, 2008, future benefit accruals under the Retirement Plan for Employees of Sealed Air Corporation ceased. Before this date, annual service credits were calculated as follows:

At each December 31, a participant's cash balance account will be credited with an amount equal to 5% of the participant's pay up to the Social Security Wage Base for that year, plus 10% of the participant's pay in excess of the Social Security Wage Base.

Phased-In Contribution Credit for 2004 and 2005. Former employees of DiverseyLever Inc. who are employed by Diversey Subsidiary #1 LLC and became eligible to participate in the Plan as of January 1, 2004, former employees of The Butcher Company and Prism Sanitation Management LLC who became eligible to participate in the Plan as of January 1, 2004, and employees of the Company, Johnson Polymer, Inc. and U.S. Chemical Corporation hired after September 1, 2003 and prior to January 1, 2006, shall be eligible for an annual service credit phased-in for 2004 and 2005 in an amount determined as follows:

(i) As of December 31, 2004, an amount equal to 3% of such Participant’s Pay up to the Social Security Wage Base for 2004, plus 6% of the Participant’s Pay in excess of that amount; and

(ii) As of December 31, 2005, an amount equal to 4% of the Participant’s Pay up to the Social Security Wage Base for that year, plus 8% of the Participant’s Pay in excess of that amount.

SCHEDULE SB ATTACHMENTS

Amount of Benefits – Cash Balance Formula (continued)	**(c) Annual Earnings Credit** – At each December 31, a participant's cash balance account will be credited with earnings equal to the annual yield on 10-year U.S. Treasury Constant Maturities determined for the month of October immediately preceding the plan year. Prior to December 31, 2008 a participant's Pre-2004 cash balance account was credited with earnings equal to the greater of (a) 75% of the return on plan assets or (b) 4.00% and a participants Post-2003 cash balance account was credited with earnings equal to the annual yield on 10 year U.S. Treasury Constant Maturities as reported in the Federal Reserve Bulletin as the average annual yield as of that December 31.
Covered Pay	As of December 31, 2008, benefit accruals under the plan ceased, before that date pay used in determining the annual service credits was defined to be the sum of the following amounts: basic compensation, commissions, shift differential, overtime, and non-deferred bonuses under the Performance Bonus Opportunity Plan.
Lump Sum Conversion	Actuarial equivalent basis will be used for purposes of determining the lump sum cash equivalent of an annuity and for purposes of determining the monthly amount of an immediate single life annuity equivalent of a participant's Cash Balance Account.
Amount of Benefits - Old Plan Grandfather Formula	The plan provisions described below are only applicable to employees who were actively employed on any date between January 1, 1998 and June 1, 1998. These employees will receive the greater of the cash balance benefit or the old plan benefit described below for terminations or retirements until December 31, 2008. The old plan benefit was frozen as of December 31, 2008 but will continue to serve as a minimum benefit for eligible participants.

SCHEDULE SB ATTACHMENTS

Normal Retirement

(1) For service prior to January 1, 1975, the amount of monthly retirement income shall be the greater of:

(a) 0.8% of final average pay for each such year of service; or

(b) 25% of final average pay reduced by 2% for each point that total points are less than 100, multiplied by the ratio of service prior to January 1, 1975 to total years of service.

(2) For service after December 31, 1974, the monthly benefit shall be 1-3/4% of final average pay for each such year of service reduced by 1-2/3 % of the employee's Primary Social Security Benefit for each such year of service up to 30 years. Social Security is the amount commencing at age 62, or if retirement occurs after age 62, the Social Security benefit is the amount commencing at the later age.

Early Retirement

Normal retirement benefit computed above based on years of service and final average pay to early retirement date; reduced by 4% per year for each year and fractional year that early retirement date precedes age 62. The amount under (2) above shall not be less than the benefit would be if it were determined based on potential service at 65, level pay to age 65, and the Social Security benefit at age 65, multiplied by the ratio of actual service at retirement since December 31, 1974 to potential service at age 65 since December 31, 1974.

Late retirement

Plan provides a suspension of benefits notice for active participants who are employed past Normal Retirement Age.

Cost-of-living Adjustment

The monthly retirement benefit will be adjusted annually beginning January 15, 1971, based on the latest Consumer Price Index subject to the following limitations:

The adjustment will apply only to the first $500 of the monthly retirement benefit.

The increase or decrease will be limited to a maximum of 3% per year. If the Consumer Price Index changes more than 3% in one year, however, the excess can be carried forward and applied in succeeding years.

The benefit will never be reduced below the original amount which is paid at the time of retirement.

SCHEDULE SB ATTACHMENTS

Vested Termination	An employee with three or more years of covered service who terminated prior to his early retirement date shall be entitled to receive a vested retirement benefit. The monthly amount shall be determined in the same manner as the early retirement benefit for anyone terminating with ten or more years of service. Anyone with less than 10 years of service at termination will have actuarial equivalence reductions applied for early commencement.
Surviving Spouse	Surviving Spouse Benefit payable for life to surviving spouse equal to benefit spouse would have been entitled to receive if the deceased employee had retired on the day preceding the date of death, and had elected a joint and survivor annuity option under which 2/3 of the monthly benefit payable to the employee would be payable to the joint annuitant. Benefit will not be payable before employee would have attained age 50. Such benefit may also be paid under the Social Security Adjustment Option.
Surviving Covered Dependent	Surviving Covered Dependent Benefit payable for life to surviving covered dependent equal to 40% of the benefit the employee would have been entitled to receive on the day preceding the date of death. Payments shall be divided equally among each covered dependent until such person ceases to qualify as a covered dependent.

Other Plan Provisions

Normal Form of Annuity	**No spouse** – Life annuity. **With spouse** – Joint and survivor annuity actuarially equivalent to the five-year certain and life benefit payable to participant. In event of participant's death, 50% of reduced benefit is payable to surviving spouse.
Optional Forms of Payment	66.67%, 75% and 100% joint and survivor options, 5-year, 10-year, 15-year, and 20-year certain and life options, lump sum and Social Security adjustment option.

SCHEDULE SB ATTACHMENTS

Employee's Voluntary Contributions	Employees could have made voluntary contributions up to January 1, 1985, of 1 % to 10% of base pay to provide an additional benefit at retirement. The value of these contributions as of January 1, 1985 was transferred to the Sealed Air Corporation Employees' Deferred Profit Sharing and Savings Plan.
