INDEPENDENT AUDITORS' REPORT

To the Retirement Committee and Management
Powin Energy Operating LLC 401(k) Profit Sharing Plan and Trust

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the Financial Statements

We have performed an audit of the accompanying financial statements of Powin Energy Operating LLC 401(k) Profit Sharing Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements ("Financial Statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of Powin Energy Operating LLC 401(k) Profit Sharing Plan and Trust 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2021 and 2020, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Powin Energy Operating LLC 401(k) Profit Sharing Plan and Trust and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Powin Energy Operating LLC 401(k) Profit Sharing Plan and Trust's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Powin Energy Operating LLC 401(k) Profit Sharing Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Powin Energy Operating LLC 401(k) Profit Sharing Plan and Trust's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, line 4i – Schedule of Assets (Held at End of Year), is presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to the Financial Statements
December 31, 2021

1. Description of the Plan

The following descriptions of the Powin Energy Operating LLC and Powin Energy Corporation, (“Powin” or “the Company”) 401(K) Plan and Trust (“the Plan”) provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan’s provisions.

General

The Plan was established in 2014 to comply with the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan is a defined contribution plan covering all eligible employees of Powin. Plan participants’ accounts are administered and managed by Reliance Trust Company, (“Reliance”). As the trustee, Reliance receives contributions and executes transactions under the direction of Powin. The Board of Trustees is responsible for the oversight of the Plan. This Retirement Committee determines the appropriateness of the Plan’s investments offerings, monitors investment performance and reports to the Plan’s Board of Trustees. The Plan is a single employer plan.

Eligibility

Employees are eligible to participate in salary deferral contributions and the safe harbor match upon hiring. The employee must have attained the age of 21 and entry into the Plan is on a monthly basis. The Plan’s trustees are responsible for oversight of the Plan.

Contributions

Each year, participants in the Plan are allowed to contribute a specific percentage or dollar amount of pretax annual compensation. Participants who are 50 years of age or older at the end of the plan year are eligible to make catch-up contributions. Participants may also contribute distributions from other qualified defined benefit or defined contribution plans rollover. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may elect Roth 401(k) deferrals. These deferrals are subject to federal income taxes in the year of deferral.

Participant contributions qualify for Company safe harbor matching contributions equal to a specified percentage of the amount of the salary reduction participants have deferred. The Company matches the employee contribution 100% up to 3% of compensation and 50% for amounts over 3% but not exceeding 5% of compensation. For the year ended December 31, 2021, the Company made safe harbor matching contributions of \$517,722 to the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

The Company may also elect to make a discretionary contribution to the Plan. The participant must be actively employed on the last day of the Plan year. The Company can make a discretionary contribution even if the employee does not participate in the plan that year. The Company did not make any discretionary contributions for the year ended December 31, 2021.

Notes to the Financial Statements

1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of (a) the Company's contributions, (b) account earnings or losses, and charged with an allocation of certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the participant's vested account balance.

Investment Options

Participants may direct contributions, including Company matching and retirement account contributions, in whole percentage increments to any of the investment options offered by the Plan.

Vesting

Participants are immediately 100% vested in their contributions and employer contributions, plus all earnings thereon, in their account.

Payment of Benefits

The Plan is designed to provide benefits at the time of retirement. However, if employment is terminated because of death, disability or retirement, the participant may request distribution of his or her vested account balance. The distribution may be made in a lump-sum amount or equal installments not to be below \$500 per installment. The Plan also allows for in-service distributions upon reaching age 59 ½.

Notes Receivable from Participants

Participants may borrow from their vested accounts a minimum of \$500 up to the maximum amount of the lesser of 50 percent of the participant's vested account balance or \$50,000, reduced by the highest outstanding loan balance in his or her account balance during the prior 12-month period. Loan terms range from 1 to 5 years or up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate equal to current month prime rate, published on the 14th of each month, plus two percentage points. Principal and interest are paid ratably through payroll deductions.

Benefit Obligations

As of December 31, 2021 and 2020, no benefit obligations existed for individuals who withdrew from the Plan.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding decrease to employee contributions. Excess contributions payable amounts as of December 31, 2021 and 2020 were \$91,580 and \$0, respectively.

Powin Energy Operating LLC 401(k) Profit Sharing Plan and Trust
Notes to the Financial Statements
December 31, 2021

2. Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America. Investment contracts held by the Plan are required to be reported at fair value. Participant loans are valued at amortized cost, which represents fair value.

Administrative Expenses

Certain expenses incurred by the Plan, not including those expenses covered by the participants, are paid by the Plan Sponsor. For the year ending December 31, 2021, \$9,526 was paid by the Plan sponsor.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If available, quoted market prices are used to value investments. Shares of mutual funds are valued daily at the net asset value of shares held by the plan. The Retirement committee determines the Plan's valuation policies. See Note 4 for discussion on fair value measurements. See Note 5 for discussion on fully benefit responsive fund.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and expensed when they are incurred. No allowance for credit losses had been recorded as of December 31, 2021 or 2020. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Coronavirus Pandemic

The Plan has been impacted by the effects of the world-wide coronavirus pandemic. As of the date of issuance of these financial statements, the full impact to the Plan is not known.

Powin Energy Operating LLC 401(k) Profit Sharing Plan and Trust
Notes to the Financial Statements
December 31, 2021

2. Significant Accounting Policies (continued)

Subsequent Events

The plan has evaluated subsequent events through October 13, 2022, the date the financial statements were available to be issued. Effective June 1, 2022, the Plan changed recordkeepers from ADP to Empower Retirement.

3. Tax Status

The IRS has determined and informed the company by a letter dated October 6, 2020, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the letter, the Plan administrator and legal counsel are of the opinion that the Plan continues to fulfill the requirements of a qualified plan under Section 401(a) of the Internal Revenue Code and that the Plan is not subject to tax. Accordingly, no provision for federal or state income taxes has been provided.

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

4. Fair Value Measurements (continued)

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Target date funds: Valued at the NAV of units of a collective trust. NAV is a readily determinable fair value and is the basis for current transactions. Participant transactions (purchases and sales) may occur daily.

Common Collective Trusts: Valued and reported at fair value using the NAV of units of bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases as sales) may occur daily. Were the plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2021 and 2020. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

5. Investment in Stable Asset Fund

The Invesco Stable Asset Fund (the “Fund”) invests primarily in investment contracts such as traditional Guaranteed Interest Contracts (“GICs”) and synthetic GICs. These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. In a traditional GIC, the issuer takes a deposit from the Fund and purchases investments that are held in the issuer’s general account. The issuer is contractually obligated to repay the principal and a specified rate of interest guaranteed to the Fund. The interest crediting rate is based on a formula established by the contract issuer. With traditional GICs, the Fund owns only the contract itself.

A synthetic GIC includes a wrapper contract, which is an agreement for the wrap issuer, such as a bank or insurance company, to make payments to the Fund in certain circumstances. With synthetic GICs, the underlying investments are owned by the Fund and held in trust for Plan participants. The wrapper contract amortizes the realized and unrealized gains and losses on the underlying fixed income investments, typically over the duration of the investment, through adjustments to the future interest crediting rate. The issuer of the wrapper contract provides assurance that the adjustments to the interest crediting rate do not result in a future interest crediting rate that is less than zero. An interest crediting rate of less than zero would result in a loss of principal or accrued interest.

The key factors that influence future interest crediting rates for a wrapper contract include the level of market interest rates, the amount and timing of participant contributions, transfers and withdrawals into and out of the wrapper contract, the investment returns generated by the fixed income investments that back the wrapper contract and the duration of the underlying investments backing the wrapper contract. As of December 31, 2021 and 2020, all of the investment contracts in the Fund were synthetic GICs.

5. Investment in Stable Asset Fund (continued)

Certain circumstances may limit the Plan's ability to execute transactions of the Fund at contract value with the contract issuer. These circumstances include termination of the Plan, a material adverse change to the provisions of the Plan, the Company making an election to withdraw from a wrapper contract in order to switch to a different investment provider, or the terms of a successor Plan (in the event of spin-off or sale of a division) do not meet the wrapper contract issuer's underwriting criteria for the issuance of a clone wrapper contract. Examples of events that would permit a wrapper contract issuer to terminate a wrapper contract upon short notice include the Plan's loss of its qualified status, uncured material breaches of responsibilities or material and adverse changes to the provisions of the Plan. If one of these events occurred, the wrapper contract issuer could terminate the wrapper contract at the market value of the underlying investments (or in the case of a traditional GIC, at the hypothetical market value based upon a contractual formula).

The Plan administrator believes that the events noted above that limit the Plan's ability to execute transactions at contract value are unlikely to occur.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan provisions to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974.

7. Information Prepared and Certified by Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following information included in the accompanying financial statements and supplementary schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee, Reliance, which holds the assets of the Plan.

8. Related-Party Transactions

Reliance Trust Company is the plan's custodian. Reliance Trust Company's investment management service fees incurred by the Plan are included in net appreciation in the fair value of the investment. Fees incurred and paid by the Plan for the investment management services were \$9,526 for the year ended December 31, 2021.

9. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.

10. Reconciliation of Financial Statements to Form 5500
