NOTE A – DESCRIPTION OF THE PLAN

The following description of the Thermal Solutions Manufacturing 401k Profit Sharing Plan (the “Plan”) provides only general information. Participants may review the Plan’s “Adoption Agreement” for a more complete presentation of the Plan’s provisions. Copies of this document are available from the Plan administrator.

General: The Plan is a defined contribution plan covering substantially all employees of Thermal Solutions Manufacturing, Inc. (the “Company”) who are age nineteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions: Participants in the Plan can elect to contribute through salary deferrals (i.e. payroll deductions) up to the maximum amount allowed by law (i.e. Internal Revenue Code Sections 402(g) and 415). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. In order to participate, employees must make a minimum contribution of 1% of compensation. Participant contributions are permitted up to 90% of compensation. Eligible participants may make “catch-up” contributions to the Plan.

The Plan also provides that the Company may make nonelective contributions for an amount authorized by the Company’s Board of Directors. The Company did not make any nonelective contributions in 2021 and 2020.

Participants actively employed on the last day of the Plan year are eligible to share in nonelective contributions as soon as eligibility requirements are met. Participants that terminated prior to the last day of the Plan year due to death, disability, or attainment of age 65, the Plan’s Normal Retirement Age, are eligible to receive any nonelective contribution that the Company makes for the year in which employment terminated.

Participant Accounts: Each participant’s account is credited (charged) with the participant’s contributions, Company contributions, investment earnings (losses), and administrative expenses. Allocations are based on participant compensation or account balances, as defined in the Plan’s “Adoption Agreement”. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account balance.

Vesting: Participants are immediately vested in their salary deferral contributions plus actual earnings thereon. Vesting in the Company’s non-elective contributions plus related earnings is based upon the participant’s length of service with the Company. Vesting is based on a graded schedule as follows:

<u>Years of Service</u>	<u>Vesting</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

NOTE A – DESCRIPTION OF THE PLAN (Continued)

Participant Loans: A participant may borrow from the participant's account a minimum of \$500 up to a maximum equal to the lesser of \$50,000 reduced by the excess of the highest outstanding balance of plan loans during the one-year period ending on the day before the loan is made, over the outstanding plan loan balance on the date the loan is made, or 50 percent of the participant's vested account balance. The loan is secured by the vested balance in the participant's account and generally cannot exceed a 5-year maturity schedule. The loan interest rate, determined monthly, is two percent above prime rate, as defined in the Plan agreement. Principal and interest is paid ratably through bi-weekly payroll deductions. As a result of the CARES act, the \$50,000 limit has been temporarily increased to \$100,000. This was the limit in effect at December 31, 2021.

Payments of Benefits: Upon termination of service, death, permanent disability or retirement, a participant may elect to receive distributions equal to the vested balance of the participant's account pursuant to the participant's election and as otherwise permitted by the Plan. Withdrawal of part or all of the participant's account may be authorized by the Plan's administrator prior to termination of employment if the participant experiences a financial hardship, as defined by the Plan's "Adoption Agreement".

Forfeitures: Forfeitures are created when participants terminate employment prior to becoming fully vested in the Company's non-elective contribution portion of their accounts. Forfeiture amounts may be used to pay Plan administrative expenses and to reduce future employer discretionary profit-sharing contributions. Employer contributions have been reduced by \$0 from forfeited uninvested accounts in 2021 and 2020, respectively.

As of December 31, 2021, and 2020, there were no forfeited uninvested accounts. Any such accounts would be used to reduce future employer contributions.

Hardship Withdrawals: The Plan permits distributions in the event of a hardship, as defined in the Plan agreement. These distributions are taxable and subject to a tax penalty equal to 10% of the hardship distribution amount if the participant is younger than age 59½. Participants are required to withdraw at least \$500 and are limited to the participant's elective account balance.

Administrative Expenses: Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Other expenses of maintaining the Plan are paid from Plan assets and are included in administrative expenses.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Basis of Presentation: The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Valuation of Investments: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisers. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE A – DESCRIPTION OF THE PLAN (Continued)

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 or 2020. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of Benefits: Benefits are recorded when paid.

Income Tax Status: The Company received an opinion letter from the IRS dated April 10, 2014 that states that the Plan is acceptable under Section 401 of the Internal Revenue Code (“IRC”). The Plan administrator has not requested a determination letter from the IRS on the Plan. The Plan has been amended since the date of the IRS opinion letter on the Plan. While the Plan cannot rely on the IRS opinion letter, the Company and the Plan administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2014.

Administrative Expenses: There were direct administrative expenses of the Plan paid by the Plan in 2021 and 2020 of \$1,795 and \$1,255, respectively.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events: In preparing the accompanying financial statements, management has evaluated subsequent events through October 11, 2022, which represents the date the financial statements were available to be issued.

	2021	2020
Investments	\$ 1,649,969	\$ 1,895,457

NOTE C – FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification (“ASC”) 820, Fair Value Measurement, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liabilities
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

- Mutual funds: Valued at the net asset value of shares held by the Plan at year end based on a quoted price in an active market.

NOTE C – FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis:

Fair Value Measurement as of December 31, 2021 using the following inputs

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 1,513,597			\$ 1,513,597
Total assets in fair value hierarchy	\$ 1,513,597	-	-	1,513,597
Investments measured at NAV (a)				136,372
Investments at fair value				\$ 1,649,969

Fair Value Measurement as of December 31, 2020 using the following inputs

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 1,573,058			\$ 1,573,058
Total assets in fair value hierarchy	\$ 1,573,058	-	-	1,573,058
Investments measured at NAV (a)				322,399
Investments at fair value				\$ 1,895,457

- (a) Certain investments are measured at NAV as a practical expedient to estimate fair value and, therefore, have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

NOTE C – FAIR VALUE MEASUREMENTS (Continued)

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2021 and 2020.

Description	Fair Value 12/31/2021	Fair Value 12/31/2020	Unfunded Commitments	Frequency (if currently eligible)	Redemption Notice Period
Collective Trust Funds	\$ 136,372	\$ 322,399	n/a	Daily	n/a

NOTE D – TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments were managed by Reliance Trust Company, the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees of \$1,795 in 2021 and \$1,255 in 2020, respectively, were paid by the Plan to the trustee and other third-party service providers.

NOTE E – RISKS AND UNCERTAINTIES

The Plan's investments include various types of investment securities, which are exposed to several risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements and supplemental schedule.
