INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and Plan Participants
Novelis Warren Hourly Pension Plan
Atlanta, Georgia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of the Novelis Warren Hourly Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 Financial Statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) Audit). As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2021 and for the year then ended, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the 2021 Financial Statements* section:

- The amounts and disclosures in the accompanying 2021 Financial Statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the accompanying 2021 Financial Statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the 2021 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) Audit opinion on the 2021 Financial Statements.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) Audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 Financial Statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) Audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Auditor's Report on the 2020 Financial Statement

We were engaged to audit the 2020 financial statements of the Plan as of December 31, 2020 (2020 Financial Statements). As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 13, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate

audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 Financial Statements, and (b) the form and content of the information included in the 2020 Financial Statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of plan:

The following description of the Novelis Warren Hourly Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory, defined benefit plan. The Plan includes all full-time hourly-paid employees and part-time hourly-paid employees who have completed 1,000 hours of service employed by Novelis Corporation (the Company) at its Warren, Ohio plant who are governed by the provisions of a collective bargaining agreement with Local 716, International Union of Electrical, Radio, and Machine Workers, AFL-CIO, who are not accruing benefits under another plan maintained jointly or individually by the Company and/or a collective bargaining unit. Effective February 17, 2017 the Plan was amended so that no employee hired after February 16, 2017 could enter the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Company's Pension and Investment Committee (PIC or Plan Administrator). The PIC determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Funding policy

Contributions are based on the recommendations of the actuary. The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2022, the Company made contributions of $59,000 related to 2021. During 2021, the Company made contributions of $59,000 related to 2021 and $180,000 related to 2020. The Plan met the minimum funding requirements for the Plan years ended December 31, 2021 and 2020.

Pension benefits

Participants are entitled to a normal retirement benefit on attaining the age of 65. The normal monthly retirement benefits are calculated based on a participant's years of credited service multiplied by a monthly benefit level as provided in the Plan. The monthly benefit level was $43 effective March 1, 2011 and $44 effective March 1, 2012. In March 2012, a new collective bargaining agreement was entered into which provides for a $1 increase in the monthly benefit level effective March 1, 2012 with additional $1 increases on each successive March 1 through and including March 1, 2014. The new collective bargaining agreement also provides for $0.50 increases on March 1, 2015 and March 1, 2016. In February 2017, a new collective bargaining agreement was entered into which provides for a $1 increase in the monthly benefit level effective March 1, 2017 with additional $1 increases on each successive

Pension benefits - continued

March 1 through and including March 1, 2020. The incrementally increasing benefit level in effect March 26, 2021 and thereafter is $54.

The Plan also provides for early retirement benefits, disability benefits, termination benefits, and pre-retirement spouse benefits for participants meeting certain age and length of service requirements. There is also a provision for a post-retirement spouse benefit that generally does not require a reduction in the participant's benefit.

Effective December 31, 2021, the benefits of all members will be permanently frozen and all members will cease accruing benefit service and accruals at this date.

Death and disability benefit

If a participant dies on or after the participant's normal or elected early retirement date but before any benefit has been paid to the participant, then the participant's qualified spouse, contingent annuitant or other beneficiary will receive any benefits payable in case of death as if the participant had started to receive the participant's benefit on the first day of the month next following the participant's date of death or such later first day of the month on or before the participant's normal retirement date as may be chosen by the participant's qualified spouse or contingent annuitant. For a disabled participant, once the long-term disability payments cease and if the participant's retirement benefit is not payable in the form of lump sum, the participant's retirement benefit shall commence as soon as administratively feasible.

Vesting

Participants become fully vested after five years of service. Participants terminating prior to achieving five years of service forfeit the right to receive benefits.

Termination provision

The Company anticipates that the Plan will continue without interruption, but reserves the right to terminate the Plan or to discontinue contributions to the Plan. In the event the Plan is terminated, the Plan provides for the allocation of net assets up to the present value of accumulated plan benefits among the participants and pensioners. To the extent unfunded vested benefits exist, such benefits would be payable by the Pension Benefit Guaranty Corporation (PBGC), up to specified limitations, as described in ERISA. To the extent that

Note 1 - Description of plan - continued:

Termination provision - continued

Plan net assets exceed benefits due to participants and pensioners and the Plan has met all legal requirements, remaining assets, net of applicable taxes, will revert back to the Company. (See Note 7.)

Note 2 - Summary of significant accounting policies:

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment valuation and income recognition

Investments in the Novelis Master Retirement Trust (Master Trust) are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. (See Note 4 for discussion of fair value measurements.)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in its statement of changes in net assets available for benefits an allocation of the Master Trust's net income which consists of realized gains or losses, unrealized appreciation (depreciation) on investments and interest and dividend income. (See Note 3.)

Payment of benefits

Benefits are recorded when paid.

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates

Note 2 - Summary of significant accounting policies - continued:

Risks and uncertainties

The Master Trust invests in collective trust funds and interest-bearing cash. The collective trust funds invest in various types of investment securities and in various companies within various markets. The underlying investment securities are exposed to various risks, such as interest rate, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in these financial statements.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Recent accounting pronouncements

Effective January 1, 2020, the Plan adopted Financial Accounting Standards Board Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820) Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement* (ASU 2018-13). ASU 2018-13 changes the fair value measurement disclosure requirements of Accounting Standards Codification 820, *Fair Value Measurement* (ASC 820). Eliminated and modified disclosure requirements under ASU 2018-13 impact the reporting of transfers between Level 1 and Level 2 assets (defined in Note 4), Level 3 asset disclosures, and disclosures about investments in certain entities valued at net asset value. ASU 2018-13 was effective for all entities with fiscal years beginning after December 15, 2019. Management adopted ASU 2018-13 effective January 1, 2020. The adoption of ASU 2018-13 did not have a material impact on the Plan's financial statements.

Recent legislative developments

In December 2019, Congress passed the SECURE Act which included numerous reforms to existing retirement law and allows plan sponsors to make certain immediate plan operational changes without formal amendment of the plan document.

In March 2020, Congress passed the CARES Act which included optional immediate changes to distribution provisions without formal amendment of the plan document.

The Plan Sponsor implemented various changes and will timely amend for those changes.

Note 2 - Summary of significant accounting policies - continued:

Effects of COVID-19

In March 2020, the World Health Organization declared the novel coronavirus (COVID-19) outbreak a pandemic and the President of the United States declared it a national emergency. The COVID-19 pandemic remains subject to the development and severity of new variants. The extent of the impact of COVID-19 on the Plan and financial results will depend on future developments, including the duration and spread of the outbreak within the markets in which the Plan Sponsor operates, government actions and programs, and the related impact on consumer confidence and spending, all of which are highly uncertain.

Administrative expenses

Trustee fees, investment management fees, and PBGC premiums are generally paid by the Plan. All other administrative expenses are paid by the Company.

Subsequent events

The Plan has evaluated subsequent events through October 14, 2022, which is the date these financial statements were available to be issued. All subsequent events, if any, requiring recognition as of December 31, 2021, have been incorporated into these financial statements.

Note 3 - Investment in master trust:

All of the Plan's investments are units of participation in the Master Trust held by Principal Trust Company (Principal, the trustee of the Master Trust) (previously, Wells Fargo Bank, N.A. (Wells Fargo)). Effective July 1, 2019, Principal acquired the trustee services of Wells Fargo. The Plan's investments are commingled with the assets of four other retirement plans of participating employers. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income or loss based on specific asset holdings less actual distributions and administrative expenses. The Master Trust holds investments in interest-bearing cash managed by Mercer Global Investments, Inc. and 10 collective trust funds managed by Mercer Global Investments, Inc. Each plan in the Master Trust can elect to invest in any or all of the available collective trust funds in any allocation appropriate for that plan's objectives.

The Plan's interest in the Master Trust net assets was 1% for both the years ended December 31, 2021 and 2020.

Note 3 - Investment in master trust - continued:

The following table presents the net assets held by the Master Trust at December 31, 2021 and 2020:

	December 31, 2021	December 31, 2020	December 31, 2021 Plan's Share	December 31, 2020 Plan's Share
Investments, at fair value:				
Interest-bearing cash	$ 3,604,388	$ 3,367,103	$ 74,943	$ 74,047
Collective trust funds	974,296,958	920,964,846	13,541,155	13,397,789
Net assets held by the Master Trust	$ 977,901,346	$ 924,331,949	$ 13,616,098	$ 13,471,836

The following presents investment income from the Master Trust for the year ended December 31, 2021, as certified by Principal:

Net appreciation in fair value of investments	$ 74,848,821
Interest income	69
Investment income	$ 74,848,890

There were no Other Asset or Other Liability balances in the Master Trust at December 31, 2021 or 2020.

Note 4 - Fair value measurements:

The FASB, Accounting Standards Codification 820, *Fair Value Measurements* (ASC 820), defines fair value, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices available in active markets for identical investments that the Master Trust has the ability to access.

Note 4 - Fair value measurements - continued:

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no significant changes in the methodologies used at December 31, 2021 and 2020.

- Interest-bearing cash is primarily valued at cost based on the short-term nature of the investment.
- Units of participation in the collective trust funds are valued at the net asset value (NAV) provided by the fund's Trustee as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value daily without any redemption notice or restrictions. Plan level initiated transactions require a 12-month redemption notice in order to withdraw at full book value.

Note 4 - Fair value measurements - continued:

The methodologies described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2021 and 2020:

	Assets at Fair Value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Interest-bearing cash	$ 3,604,388	$ -	$ -	$ 3,604,388
Total investments in the fair value hierarchy	$ 3,604,388	$ -	$ -	3,604,388
Investments measured at net asset value:*				
Collective trust funds				974,296,958
Investments at fair value				$ 977,901,346

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Interest-bearing cash	$ 3,367,103	$ -	$ -	$ 3,367,103
Total investments in the fair value hierarchy	$ 3,367,103	$ -	$ -	3,367,103
Investments measured at net asset value:*				
Collective trust funds				920,964,846
Investments at fair value				$ 924,331,949

*In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 4 - Fair value measurements - continued:

The following tables summarize the Master Trust's investments measured at fair value based on NAV per share as of December 31, 2021 and 2020.

December 31, 2021	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Collective trust funds	$ 974,296,958	None	Daily	12 - month

December 31, 2020	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Collective trust funds	$ 920,964,846	None	Daily	12 - month

Note 5 - Actuarial present value of accumulated plan benefits:

Accumulated Plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances such as retirement, death, disability, and termination of employment are included, to the extent they are considered attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by the Plan's consulting actuary. The present value of accumulated Plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. It is at least reasonably possible that the actuarial assumptions used to calculate accumulated Plan benefits will change in the near term and that the effect of such change could be significant.

Note 5 - Actuarial present value of accumulated plan benefits - continued:

The significant actuarial assumptions used in the valuation dated December 31, 2021 and 2020 were:

1.	Mortality basis	In 2021, the Pri-2012 tables with no collar adjustments (reflecting separate contingent survivor mortality after the retiree's death), projected with MP-2021 generational projection was used. In 2020, the Pri-2012 tables with no collar adjustments (reflecting separate contingent survivor mortality after the retiree's death), projected with MP-2020 generational projection was used.
2.	Discount rates	5.40% in 2021; 5.60% in 2020.
3.	Normal retirement age	For both 2020 and 2021, the ages vary from age 55 to 65+; average of 62.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2022 and 2021. Had a valuation been performed as of December 31, there would be no material differences.

	December 31,	
	2021	*2020*
Actuarial present value of accumulated Plan benefits		
Vested benefits:		
Participants currently receiving payments	$ 8,063,275	$ 7,775,080
Other participants	2,950,753	3,033,438
Total vested benefits	11,014,028	10,808,518
Nonvested benefits	131,260	189,476
Total actuarial present value of accumulated Plan benefits	$ 11,145,288	$ 10,997,994

Note 5 - Actuarial present value of accumulated plan benefits - continued:

Under the above assumptions, the change in the actuarial present value of accumulated Plan benefits for the year ended December 31, 2021 is as follows:

Actuarial present value of accumulated Plan benefits, beginning of year	$ 10,997,994
Increase (decrease) during the year attributable to:	
Changes in actuarial assumptions	234,515
Benefits accumulated	137,094
Actuarial (gains)	(1,367)
Increase for interest due to decrease in discount period	600,814
Benefits paid	(823,762)
Net increase	147,294
Actuarial present value of accumulated Plan benefits, end of year	$ 11,145,288

Note 6 - Information certified by the trustee:

Principal (Wells Fargo through December 31, 2020) holds the Master Trust's investment assets and executes investment transactions. Management has determined that Principal and Wells Fargo were qualified institutions and the information prepared and certified by Principal and Wells Fargo meets the requirements of ERISA Section 103(a)(3)(C). Certain information disclosed in the accompanying financial statements, including investments in Master Trust held at December 31, 2021 and 2020, and net investment income from Master Trust for the year ended December 31, 2021, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Principal and Wells Fargo.

Note 7 - Priorities upon termination:

Although the Company has not expressed any intent to terminate the Plan, it may do so at any time. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that

Note 7 - Priorities upon termination - continued:

was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

- Other vested benefits insured by the PBGC up to the applicable limitations.
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefits protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and on the level of benefits guaranteed by the PBGC.

Note 8 - Related-party transactions:

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Plan investments include shares of collective trust funds and interest-bearing cash managed by Principal (Wells Fargo at December 31, 2020). These transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules.

Note 9 - Tax status:

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated February 13, 2018, that the Plan is designed in accordance with the applicable provisions of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe

Note 9 - Tax status - continued:

that the Plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan, as amended, is qualified, and the related trust is tax-exempt and no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

60	2.76%	5.52%

Retirement

Rates varying by age, average age 62.

For purposes of determining the funding target and target normal cost (both disregarding at-risk assumptions), sample rates at which participants retire by age are shown below:

Sample rates:

Percentage retiring during the year	
Age	Rate
55	2%
62	50%
65	100%

Benefit commencement date:

- Preretirement death benefit — The later of the death of the active participant or the date the participant would have been eligible for early retirement.
- Deferred vested benefit — The later of normal retirement date or termination of employment; immediate commencement is assumed for any current deferred vested participants who are beyond normal retirement age.
- Disability benefit — Upon disablement
- Retirement benefit — Immediate upon termination of employment after reaching early retirement eligibility.

Form of payment — 100% of single participants are assumed to elect a life annuity; 100% of married participants are assumed to elect a 50% surviving spouse option.

Percent married — 90% of males; 70% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.

Spouse age — Wife three years younger than husband

Administrative expenses — $30,000

Cash flow:

- Timing of benefit payments — Annuity payments are payable monthly at the beginning of the month.

SCHEDULE SB ATTACHMENTS

Methods	
Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2020 plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Novelis and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

In preparing the valuation contained in this report, Willis Towers Watson has relied upon data and information regarding plan provisions, participants, assets, contributions, and sponsor funding elections and accounting policies and methods provided to us by Novelis and other persons or organizations designated by Novelis. We have relied on all the data and information provided as complete and accurate. We have reviewed this data and information for overall reasonableness and consistency, but have neither audited nor independently verified this information. Based on discussions with and concurrence by the plan sponsor, assumptions or estimates may have been made if data were not available. The data was not adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date since the data collection date and the measurement date are the same. We are not aware of any material errors, omissions or inconsistencies in the data, that would have a significant effect on the results of our calculations.

A summary of participant data reflected can be found in Section 3 of this report.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	The plan pays PBGC Premiums out of plan assets. Thus, the expected administrative expense is equal to the expected PBGC Premium for the fiscal year.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Assumed termination rates differ by age because of expected differences in termination rates by age. This assumption was analyzed and updated as part of the 2015 assumptions experience study with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Assumed retirement rates differ by age because of expected differences in retirement rates by age. This assumption was analyzed and updated as part of the 2015 assumptions experience study with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

SCHEDULE SB ATTACHMENTS

Source of Prescribed Methods	
Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods	
Change in assumptions since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2019 to September 2020. The mortality improvement tables were updated from MP-2018 to MP-2019, as prescribed by the IRS. The assumed plan-related expenses added to the target normal cost were changed from $60,000 for 2020 to $30,000 for 2021 to account for lower expenses paid from the trust.
Change in methods since prior valuation	None

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Definitions	
Eligibility service	All aggregated periods of service considered as service with the Company (including service with Alcan) and not forfeited through break-in-service rules and maternity leaves of absence as required by law. Employees who have completed 1,000 Hours of Service within one calendar year will receive one year of eligibility service credit. Partial years of service shall be computed to the nearest multiple of 180 hours of service equal to 1/10th of a year whenever the hours for which an employee receives compensation are less than 1,000.
Benefit service	Full years and completed months of service accrued and included in eligibility service. Employees who have completed 1,800 hours of service within one calendar year will receive one year of benefit service. Partial years of service shall be computed to the nearest 1/10th of a year whenever the hours for which an employee receives compensation are less than 1,800. As ratified in the March 26, 2021 contract, no additional benefit service will accrue as of December 31, 2021.
Normal retirement date (NRD)	Age 65.

Other Plan Provisions

Forms of payment	For single employees, benefits will be paid in the form of a single life annuity. For married employees, benefits will be paid in the form of the 50% joint and survivor annuity. Optional forms are up to a 75% joint and survivor annuity.
Conversion factors for optional forms of payment	6.00% interest and the "Applicable Mortality Table" as in effect for 2012 pursuant to Section 417(e)(3) of the Code.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in dollar limits are assumed for pension cost, but not for determining contributions.

Plan Status for PBGC Reporting Purposes

Ongoing, but eligibility frozen.

Future Plan Changes

No future plan changes were recognized in determining minimum and maximum contributions.

Changes in Benefits Valued Since Prior Year

- The ultimate benefit multiplier increased from $51.00 to $54.00 per month.
- No additional benefit service will accrue as of December 31, 2021.
