Report of Independent Auditors

To the Administrator of TEGNA Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying 2021 financial statements of TEGNA Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The 2021 financial statement comprise the statements of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, including the related notes (collectively referred to as the "2021 financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 1 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Other Matter – 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan, which comprise the statement of net assets available for benefits as of December 31, 2020, and the related statements of changes in net assets available for benefits for the year then ended. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 12, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements, other than that derived from the certified information, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2021, Schedule H, Line 4i - Schedule of Assets (Acquired and Disposed of Within Year) for the year ended December 31, 2021 and Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2021 ("supplemental schedules"), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information

prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

TEGNA Retirement Plan
Notes to the Financial Statements

1. Description of the Plan

General

The TEGNA Retirement Plan (the Plan) is a defined benefit plan that provides benefits to eligible employees of TEGNA Inc. (the Company and Plan Sponsor) and certain of its subsidiaries. On June 29, 2015, Gannett Co., Inc. separated into two publicly traded companies: Gannett Co., Inc. and TEGNA Inc. The Plan was established on June 29, 2015 to assume assets and liabilities relating to current and former employees of the Company who were previously participants of the Gannett Retirement Plan (the Predecessor Plan). Effective June 29, 2015, the Plan was closed to new entrants. On December 31, 2015, The G.B. Dealey Retirement Pension Plan (Belo Plan) was merged into the Plan. The participants of the Belo Plan were current and former employees of Belo Corp., a wholly owned subsidiary acquired by the Company on December 23, 2013. The Belo Plan was frozen on March 31, 2007. On June 1, 2018, The Retirement Plan II for Employees of Midwest Television, Inc. in San Diego, California (Midwest Plan) was merged into the Plan. The participants of the Midwest Plan were current and former employees of Midwest Television, Inc., a wholly owned subsidiary acquired by the Company on February 15, 2018. The Midwest Plan was frozen June 1, 1999.

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more detailed description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Company's Benefit Plans Committee (the Committee) is responsible for the general administration of the Plan.

Financial Information Certified by the Trustee

The Plan assets are held under trust agreement with Northern Trust Company (the Trustee). All investment balances and investment information presented and disclosed in the accompanying financial statements for the Plan, accompanying notes to the financial statements and supplemental schedules required by ERISA, including investments held, accrued income receivable, and due to broker at December 31, 2021 and 2020, and net appreciation in fair value of investments, interest and dividends for the years then ended, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by the Trustee of the Plan.

Plan Benefits

Under the Predecessor Plan, the majority of participants in the Plan had their benefits frozen as of August 1, 2008, meaning that their service and earnings on and after that date will not be considered for purposes of calculating their retirement benefits. As defined by the Plan, these participants whose benefits are frozen have their benefits periodically increased by a cost-of-living adjustment until benefits commence. Participants' final benefits are calculated by applying the total percentage accrued through their termination date to their final average earnings. The calculated benefit may be paid as a lump-sum payment, life annuity, contingent annuity, or other acceptable optional form as specified by the terms of the Plan.

All other participants who accrued a benefit under other provisions of the Predecessor Plan or under other plans that have since merged into the Plan also have their benefits frozen. For these participants, benefits are generally paid as either a life annuity, contingent annuity, or other acceptable optional form as specified by the terms of the applicable plan. The benefits for participants who have merged into the Plan do not have a plan specified cost-of-living adjustment.

Contributions to the Plan

The Company contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the ERISA minimum funding requirements. The Plan has met the ERISA minimum funding requirements for 2021 and 2020.

TEGNA Retirement Plan
Notes to Financial Statements (continued)

Plan Termination

Although the Company and its subsidiaries have not expressed any intent to terminate the Plan, a brief summary description of the termination procedures follows. The net assets of the Plan would be allocated for benefits, as prescribed by ERISA and related regulations, in the following order: (a) annuity benefits payable to participants or their beneficiaries who were receiving benefits for at least three years and benefits could have been payable to non-retired participants three years prior to termination; (b) other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC); (c) all other vested benefits; and (d) non-vested benefits. The financial position of the Plan and the Company and guarantees available from PBGC would determine the extent of benefits provided to participants if the Plan were terminated.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP). Doing so, requires management to make estimates and assumptions that affect the amounts reported in the financial statements including assets, liabilities and changes therein and, accompanying notes including the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein, and supplemental schedules. Actual results could differ from those estimates.

Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, employee compensation and demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements. Investment securities are exposed to various risks, such as interest rate risk, market risk and credit risk. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Income Recognition

Income on investments is accrued when earned and gains or losses on such assets are recorded when realized. Dividends are recorded on the ex-dividend date.

Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Valuation of Investments

Investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 6 for further discussion and disclosures related to fair value measurements.

TEGNA Retirement Plan
Notes to Financial Statements (continued)

Pending purchases and sales of securities as recorded by the Plan relate to security trades executed prior to the statement of net assets available for benefits date, but not yet settled, as the Plan records purchases and sales on a trade-date basis.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan incurs expenses directly related to the Plan, which consist primarily of third party administrator fees, trustee fees for investments, PBGC fees and actuarial fees. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses. The Plan records the administrative expenses on a cash basis. The Plan's management believes that such cash basis amounts would not be materially different on an accrual basis.

3. Actuarial Present Value of Accumulated Plan Benefits and Changes in Accumulated Plan Benefits

Accumulated plan benefits represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for services rendered by the employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Participants' interests in the Plan are actuarially determined for each year.

The present value of obligations for benefits is determined to be the present value of retirement benefits accumulated by participants during the current and prior years to be paid at or during retirement, less benefits forfeited or previously paid.

Significant assumptions underlying accumulated plan benefit information include: (a) interest discount rate of 3.75% at December 31, 2021 and 6.50% at December 31, 2020, (b) retirement rates ranging from 4% at age 55 to 100% at age 70, and (c) the Pri-2012 White Collar tables with separate retiree and contingent survivor mortality, projected after 2012 using the modified version of the fully-generational MP-2021 projection scale with long-term improvement from the Social Security Administration projections, was used as of December 31, 2021. Pri-2012 White Collar tables with separate retiree and contingent survivor mortality, projected after 2012 using the modified version of the fully-generational MP-2020 projection scale with long-term improvement from the Social Security Administration's projections, was used as of December 31, 2020. The contingent survivor mortality rates are applied only after the primary participant's death.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

TEGNA Retirement Plan
Notes to Financial Statements (continued)

At December 31, 2021 and 2020 the actuarial present value of accumulated plan benefits is summarized as follows:

	Dec. 31, 2021	Dec. 31, 2020
Vested benefits:		
Active employees	\$ 58,441,543	\$ 53,655,200
Participants entitled to deferred benefits	117,168,204	88,864,380
Participants receiving benefits	327,001,796	260,105,127
Total vested accumulated benefits	502,611,543	402,624,707
Non-vested benefits	389,556	456,165
Total	<u>\$ 503,001,099</u>	<u>\$ 403,080,872</u>

The significant factors affecting the change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2021 and 2020 were as follows:

	Dec. 31, 2021	Dec. 31, 2020
Actuarial present value of accumulated plan benefits as of beginning of the year	\$ 403,080,872	\$ 399,589,855
Increase (decrease) attributable to:		
Actuarial (gains)/losses and benefits accumulated	(598,530)	(526,784)
Benefits paid	(32,135,407)	(29,884,457)
Increase due to decrease in the discount period	25,155,979	25,964,040
Assumption changes	107,498,185	7,938,218
Actuarial present value of accumulated plan benefits as of the end of the year	<u>\$ 503,001,099</u>	<u>\$ 403,080,872</u>

4. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated September 23, 2021, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and is being operated in compliance with the applicable requirements of the Code, therefore, the related trust is exempt from taxation.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would result in a tax liability or tax asset at December 31, 2021 and 2020. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is not subject to income tax examinations for years prior to 2018.

5. Party-In-Interest and Related-Party Transactions

Certain of the Plan's assets are invested in funds managed by the Trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA. No material direct fees were paid by the Plan to the Trustee for investment management services related to these investments for the years ended December 31, 2021 and 2020.

6. Fair Value Measurement

The accounting standard for fair value measurement defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). To measure fair value, a hierarchy has been established that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs. As such, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described below:

- Level 1 - Quoted market prices in active markets for identical assets or liabilities that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the assets or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means; and
 - If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability
- Level 3 - Unobservable inputs developed using our own estimates and assumptions, which reflect those that a market participant would use.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Below is a description of the valuation techniques and inputs used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021, compared to December 31, 2020.

Cash and cash equivalents: Cash and cash equivalents are classified as Level 1 and their fair value is approximated based on their carrying value.

Corporate stock: Corporate stock classified as Level 1 is valued primarily at the closing price reported on the active market on which the individual securities are traded.

Interest in registered investment companies: Classified as Level 1 based on publicly available pricing sources. The investment strategy is to generate returns from government issued debt securities. These investments are redeemable on request.

Interest in common/collective trusts: Valued using the net asset value as a practical expedient as provided monthly by the investment manager or fund company. Shares in this category are generally redeemable upon request.

Five of the investments in collective trusts are invested in fixed income funds, whose strategy is to use individual subfunds to efficiently add a representative sample of securities in individual market sectors to the portfolio. The remaining three investments in collective trusts held by the Plan are invested in equity funds. The strategy of these funds is to generate returns predominantly from developed equity markets. These funds are generally redeemable shortly after a written or verbal notice. There are no unfunded commitments related to these types of funds.

Investments in hedge funds: The hedge fund which is a fund of hedge funds whose objective is to produce a return that is uncorrelated with market movements. Investments in hedge funds are valued at the net asset

TEGNA Retirement Plan
Notes to Financial Statements (continued)

value as a practical expedient, as reported by the fund managers. Shares in the hedge fund are generally redeemable twice a year or on the last business day of each quarter with at least 95 days written notice subject to potential 5% holdback. There are no unfunded commitments related to the hedge funds.

Partnership interests: Investments in partnerships are valued at the net asset value as a practical expedient as reported by the fund managers. The Plan holds investments in two partnerships. One partnership's strategy is to generate returns through real estate related investments. Certain distributions are received from this fund as the underlying assets are liquidated. The other partnership's strategy is to generate returns through investment in developing equity markets. This fund is redeemable with a 30 day notice, subject to a withdrawal charge equal to 0.45% of the amount redeemed. Future funding commitments to the Plan's partnership investments totaled \$0.7 million as of December 31, 2021 and 2020.

The Net Asset Value (NAV) is used as a practical expedient to estimate fair value and is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets and liabilities at fair value as of December 31, 2021 and 2020:

Fair value measurement as of December 31, 2021

■ First segment rate	4.75%	2.22%
■ Second segment rate	5.36%	3.38%
■ Third segment rate	6.11%	3.92%
■ Effective interest rate	5.48%	3.46%

Compensation Increase

Future compensation increases are assumed to be 3.00% per year.

Future Increases in Social Security

Social security benefits are assumed to increase in the future due to increases in the national average wage index of 4.00% per year, and compensation and benefit limits are assumed to increase 3.00% per year.

Assumed Cost-of-Living Adjustments

For any active participant as of 7/31/2008 who was frozen as of 8/1/2008, a 2.2% COLA (prorated for partial years) is applied to the frozen benefit until assumed retirement date. The 2.2% is a long-term assumption consistent with historical 10-year and 30-year averages of the relevant index.

Lump Sum Conversion Rate

For the PPA funding valuation, lump sums are converted using the 3-segment rates.

Inclusion Date

The valuation date coincident with or next following the date on which the employee becomes a participant.

Form of Payment and Benefit Commencement Age

Legacy TRP: Participants retiring under the pension equity formula are assumed to take their benefit as a lump sum. Participants retiring from active status at ages over 55 and terminated vested participants who are greater than age 64 are assumed to elect an immediate lump sum. For participants withdrawing from active status at ages less than 55, it is assumed that 60% elect to receive a lump sum immediately and 40% at the age of 64. For terminated vested participants who withdrew from active status less than one year before the valuation date, it is assumed that 60% elect to receive a lump sum immediately and 40% at the age of 64. For terminated vested participants who withdrew from active status at least one year prior to the census date, it is assumed that 10% elect to receive a lump sum immediately and 90% at the age of 64.

SCHEDULE SB ATTACHMENTS

Participants frozen under a grandfathered benefit and participants still accruing under a formula other than the pension equity formula are assumed to take their benefit as a Single Life Annuity upon retirement. Participants retiring from active status at ages greater than 55 are assumed to elect an immediate annuity at retirement. Participants withdrawing from active status at ages less than 55 are assumed to elect an age 65 annuity.

Legacy Belo: Participants retiring from active status are assumed to commence payments immediately and those retiring from terminated vested status are assumed to commence payments at age 62 (or current age if they are older than 62). As applicable by marital status, 25% of participants are assumed to elect a 10-Year Certain and Continuous Annuity, 25% of participants are assumed to elect

a 50% Joint and Survivor Annuity, 25% of participants are assumed to elect a 100% Joint and Survivor Annuity, and 25% of participants are assumed to elect a Single Life Annuity. Future disabilities are assumed to retire with the 10-Year Certain and Continuous Annuity.

Legacy Midwest: Participants are assumed to take their benefit as a Single Life Annuity upon retirement. Terminated vested participants are assumed to commence payment at age 65, or immediately if older.

Proportion Married

For Legacy TRP, the valuation assumes that 80% of males and 50% of females are married, where more detailed data is not available. For the Legacy Belo, the valuation assumes that 85% of males and 55% of females are married, where more detailed data is not available. For the Legacy Midwest, the valuation assumed that 80% of participants are married for purpose of valuing the pre-retirement death benefit.

The assumed percentage married is based on general population statistics on the marital status of individuals of retirement age.

Spouse Age Difference

For Legacy TRP and Legacy Belo, females are assumed to be three years younger than male spouses. For Legacy Midwest, females are assumed to be two years younger than male spouses.

The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

Asset Method

The market value of assets, including discounted receivables, on the valuation date, adjusted for 2/3 of the prior year's investment gains (losses) and 1/3 of the second prior year's investment gains (losses). Investment gains and losses are defined as the excess or deficiency of the expected return on the market value (at an assumed rate of 6.75% in 2019 and 2020, not to exceed the third segment rate for that year) over the actual return on the market value of assets, including discounted receivables, for any given year. The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2020 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Administrative Expenses

The estimated administrative expenses, excluding PBGC variable premiums, included in the plan's target normal cost is estimated as 0.5% of the plan's fair value of assets, excluding receivable contributions, as of the valuation date. The PBGC variable premium for the plan year is then added to this amount to estimate the total administrative expense for the year. The estimated administrative expenses for 2021 is \$2,764,983.

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Employees

It was assumed there will be no new or rehired employees.

Benefits not Included in Valuation

All benefits described in Appendix B of this report were valued based on discussions with TEGNA regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with TEGNA and, based on that review, is not aware of any significant benefits required to be valued that were not.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	For plan funding purposes, the basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Rates of COLA increase	The assumption reflects both current conditions and forecasts by economists.
Administrative expenses	Administrative expenses expected to be paid from the trust during the plan year are estimated based on historical plan experience and consideration of any changes that would be expected to produce different results for the current year (e.g. PBGC variable premiums)

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality (Plan Funding)	Assumptions used for funding purposes were selected by the plan sponsor from among choices prescribed by IRC §430(h).
Disabled Mortality (Plan Funding)	Assumptions used for funding purposes were selected by the plan sponsor from among choices prescribed by IRC §430(h).
Termination	Termination rates represent a best estimate of future experience. Termination rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed. The current Legacy TRP assumptions are based on a study conducted in 2008. The current Legacy Belo assumptions were developed by the plan's prior actuary.
Retirement	Retirement rates represent a best estimate of future experience. Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed. The current Legacy TRP assumptions are based on a study conducted in 2008. The current Legacy Belo and the current Legacy Midwest assumptions were developed by the plan's prior actuary.
Form of Payment and Benefit Commencement Age	<p>The percentages of retiring participants assumed to elect the varying forms of payment available under the plan are based on recent observed experience.</p> <p>Among those who are eligible to receive their benefit as a lump sum, the valuation generally assumes that 60% will elect to receive a lump sum immediately upon termination, and that 40% will defer a lump sum payment until age 64 (the average retirement age under current assumptions). The assumed lump sum election rate is based on an expectation of future experience. The current assumption was determined as the result of a study of immediate lump sum elections vs. deferrals for eligible participants during 2008-2010.</p> <p>There is an exception to this assumption for terminated vested participants who terminated at least one year prior to the valuation census date (in this case, who terminated in 2015 or earlier) and are eligible to receive their benefit as a lump sum. The assumption for such participants is that 10% elect to receive a lump sum immediately, and that 90% will defer a lump sum payment until age 64. This assumption was studied</p>

in 2011 based on observed lump sum election rates by the similar population during 2009-2010.

The current Legacy Belo and the current Legacy Midwest assumptions were developed by the plan's prior actuary.

Marital Assumptions

- Percent married
The assumed percentage married is based on the general population statistics on the marital status of individuals of retirement age. The current Legacy Midwest assumption was developed by the plan's prior actuary.
- Spouse age
The assumed age difference for spouses is based on general population statistics on the age difference for married individuals of retirement age. The current Legacy Midwest assumption was developed by the plan's prior actuary.

Source of Prescribed Methods

Funding methods
The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation
The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. Provisions of ARPA were first reflected for the 2021 plan year.

The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality improvement scale tables as required by the IRS under IRC §430.

Plan Name	TEGNA Retirement Plan
Valuation Date	January 1, 2021
Enrolled Actuary	Jason S Wilhite
Enrollment Number	20-07116

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Compensation Increase

Future compensation increases are assumed to be 3.00% per year.

Future Increases in Social Security

Social security benefits are assumed to increase in the future due to increases in the national average wage index of 4.00% per year, and compensation and benefit limits are assumed to increase 3.00% per year.

Assumed Cost-of-Living Adjustments

For any active participant as of 7/31/2008 who was frozen as of 8/1/2008, a 2.2% COLA (prorated for partial years) is applied to the frozen benefit until assumed retirement date. The 2.2% is a long-term assumption consistent with historical 10-year and 30-year averages of the relevant index.

Lump Sum Conversion Rate

For the PPA funding valuation, lump sums are converted using the 3-segment rates.

Inclusion Date

The valuation date coincident with or next following the date on which the employee becomes a participant.

Form of Payment and Benefit Commencement Age

Legacy TRP: Participants retiring under the pension equity formula are assumed to take their benefit as a lump sum. Participants retiring from active status at ages over 55 and terminated vested participants who are greater than age 64 are assumed to elect an immediate lump sum. For participants withdrawing from active status at ages less than 55, it is assumed that 60% elect to receive a lump sum immediately and 40% at the age of 64. For terminated vested participants who withdrew from active status less than one year before the valuation date, it is assumed that 60% elect to receive a lump sum immediately and 40% at the age of 64. For terminated vested participants who withdrew from active status at least one year prior to the census date, it is assumed that 10% elect to receive a lump sum immediately and 90% at the age of 64.

SCHEDULE SB ATTACHMENTS

Participants frozen under a grandfathered benefit and participants still accruing under a formula other than the pension equity formula are assumed to take their benefit as a Single Life Annuity upon retirement. Participants retiring from active status at ages greater than 55 are assumed to elect an immediate annuity at retirement. Participants withdrawing from active status at ages less than 55 are assumed to elect an age 65 annuity.

Legacy Belo: Participants retiring from active status are assumed to commence payments immediately and those retiring from terminated vested status are assumed to commence payments at age 62 (or current age if they are older than 62). As applicable by marital status, 25% of participants are assumed to elect a 10-Year Certain and Continuous Annuity, 25% of participants are assumed to elect a 50% Joint and Survivor Annuity, 25% of participants are assumed to elect a 100% Joint and Survivor Annuity, and 25% of participants are assumed to elect a Single Life Annuity. Future disabilities are assumed to retire with the 10-Year Certain and Continuous Annuity.

Legacy Midwest: Participants are assumed to take their benefit as a Single Life Annuity upon retirement. Terminated vested participants are assumed to commence payment at age 65, or immediately if older.

Proportion Married

For Legacy TRP, the valuation assumes that 80% of males and 50% of females are married, where more detailed data is not available. For the Legacy Belo, the valuation assumes that 85% of males and 55% of females are married, where more detailed data is not available. For the Legacy Midwest, the valuation assumed that 80% of participants are married for purpose of valuing the pre-retirement death benefit.

The assumed percentage married is based on general population statistics on the marital status of individuals of retirement age.

Spouse Age Difference

For Legacy TRP and Legacy Belo, females are assumed to be three years younger than male spouses. For Legacy Midwest, females are assumed to be two years younger than male spouses.

The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

Asset Method

The market value of assets, including discounted receivables, on the valuation date, adjusted for 2/3 of the prior year's investment gains (losses) and 1/3 of the second prior year's investment gains (losses). Investment gains and losses are defined as the excess or deficiency of the expected return on the market value (at an assumed rate of 6.75% in 2019 and 2020, not to exceed the third segment rate for that year) over the actual return on the market value of assets, including discounted receivables, for any given year. The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2020 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Administrative Expenses

The estimated administrative expenses, excluding PBGC variable premiums, included in the plan's target normal cost is estimated as 0.5% of the plan's fair value of assets, excluding receivable contributions, as of the valuation date. The PBGC variable premium for the plan year is then added to this amount to estimate the total administrative expense for the year. The estimated administrative expenses for 2021 is \$2,764,983.

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Employees

It was assumed there will be no new or rehired employees.

Benefits not Included in Valuation

All benefits described in Appendix B of this report were valued based on discussions with TEGNA regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with TEGNA and, based on that review, is not aware of any significant benefits required to be valued that were not.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	For plan funding purposes, the basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Rates of COLA increase	The assumption reflects both current conditions and forecasts by economists.
Administrative expenses	Administrative expenses expected to be paid from the trust during the plan year are estimated based on historical plan experience and consideration of any changes that would be expected to produce different results for the current year (e.g. PBGC variable premiums)

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality (Plan Funding)	Assumptions used for funding purposes were selected by the plan sponsor from among choices prescribed by IRC §430(h).
Disabled Mortality (Plan Funding)	Assumptions used for funding purposes were selected by the plan sponsor from among choices prescribed by IRC §430(h).
Termination	Termination rates represent a best estimate of future experience. Termination rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed. The current Legacy TRP assumptions are based on a study conducted in 2008. The current Legacy Belo assumptions were developed by the plan's prior actuary.
Retirement	Retirement rates represent a best estimate of future experience. Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed. The current Legacy TRP assumptions are based on a study conducted in 2008. The current Legacy Belo and the current Legacy Midwest assumptions were developed by the plan's prior actuary.
Form of Payment and Benefit Commencement Age	<p>The percentages of retiring participants assumed to elect the varying forms of payment available under the plan are based on recent observed experience.</p> <p>Among those who are eligible to receive their benefit as a lump sum, the valuation generally assumes that 60% will elect to receive a lump sum immediately upon termination, and that 40% will defer a lump sum payment until age 64 (the average retirement age under current assumptions). The assumed lump sum election rate is based on an expectation of future experience. The current assumption was determined as the result of a study of immediate lump sum elections vs. deferrals for eligible participants during 2008-2010.</p> <p>There is an exception to this assumption for terminated vested participants who terminated at least one year prior to the valuation census date (in this case, who terminated in 2015 or earlier) and are eligible to receive their benefit as a lump sum. The assumption for such participants is that 10% elect to receive a lump sum immediately, and that 90% will defer a lump sum payment until age 64. This assumption was studied</p>

in 2011 based on observed lump sum election rates by the similar population during 2009-2010.

The current Legacy Belo and the current Legacy Midwest assumptions were developed by the plan's prior actuary.

Marital Assumptions

- Percent married
The assumed percentage married is based on the general population statistics on the marital status of individuals of retirement age. The current Legacy Midwest assumption was developed by the plan's prior actuary.
- Spouse age
The assumed age difference for spouses is based on general population statistics on the age difference for married individuals of retirement age. The current Legacy Midwest assumption was developed by the plan's prior actuary.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. Provisions of ARPA were first reflected for the 2021 plan year.

The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality improvement scale tables as required by the IRS under IRC §430.

Latest Amendment

The Plan was established on June 29, 2015 and last amended effective April 26, 2018. The Midwest Pension Plan merged with the TEGNA Retirement Plan on 6/1/2018.

Plan Year

The twelve-month period ending December 31.

Summary of principal plan provisions – Legacy TRP

Note: This Appendix summarizes the provisions under Part I of the Summary of Plan Provisions (“SPP”), pertaining to the pension equity (“PEP”) formula of the plan. This formula applies to almost all current Legacy TRP employees covered by the TEGNA Retirement Plan. Other detail for smaller Legacy TRP groups of participants may be found in the plan document and Summary Plan Descriptions.

Eligibility

Participants hired before July 28, 1999 became participants in the plan on the first day of the month coincident with or next following employment. Employees under certain union plans have different dates of participation (see SPP).

Generally, employees hired after July 27, 1999 and before August 1, 2008 became participants in the plan the January 1st or July 1st following the later of the date the employee attained age 21 or completed one year of service. Employees in certain locations have different dates of participation (see SPP).

Effective August 1, 2008, no new participants were eligible except for certain publishing employees

Credited Service

Frozen Plan Participants: No credited service is earned effective August 1, 2008.

Participants Still Accruing under the PEP Part (I): One year of service is credited if 1,820 hours is worked in a year. Partial service is awarded if the participant worked more than 1,000 hours.

Vesting Service

Elapsed time method except for final year of employment where a year of vesting service is earned if participant works at least 1,000 hours.

Compensation

Basic compensation, including commissions, overtime pay, and performance-related bonuses, but excluding deferred compensation and profit sharing distributions and/or contributions. Bonuses are included for the year in which earned, even if paid the following year. For the TRP, compensation is subject to IRC 401(a)(17) compensation limits.

For Frozen Participants, earnings after July 31, 2008 shall not count for the purposes of calculating the benefit under the plan.

Final Average Compensation

The average of the participant's compensation during the 60 consecutive months of Credited Service out of the last 120 months of Credited Service prior to retirement or termination resulting in the highest average.

For Frozen Participants, the final average earnings shall be calculated as of July 31, 2008 and not recalculated after.

Normal Retirement Benefit

Normal Retirement Date: Later of age 65 or 5th anniversary of commencement of participation in plan. For those hired before 6/1/1991, age 65.

Annual Benefit: A Participant's Basic Retirement Amount under this Plan as stated as a single lump sum benefit is equal to the sum of Paragraphs (a) and (b) below:

- (a) The product of Paragraphs (i) and (ii):
 - (i) The sum of the Participant's Total Basic Percentage, Starting Percentage, and Transition Percentage.
 - (ii) The Participant's Final Average Earnings.
- (b) The product of Paragraphs (i) and (ii):
 - (i) The Participant's Total Supplemental Percentage.
 - (ii) The Participant's Final Average Earnings in excess of the Social Security Wage Base.

Basic Percentage: A participant's Total Basic Percentage is calculated differently based on the date the participant was hired as follows:

- (a) For a participant who is hired before January 1, 2003, the Total Basic Percentage means the sum of the Basic Percentages a Participant earns for a year or partial year of credited service after December 31, 1997. The Percentage that a participant earns for any one year of Credited Service after December 31, 1997 is based on total years of Credited Service earned pursuant to the following table:

Based on a Participant's Total Years of Credited Service	Basic Percentage Earned for a Year of Credited Service after December 31, 1997
For the Participant's first ten years of Credited Service	5%
For the Participant's next ten years of Credited Service	7%
For the Participant's years of Credited Service over 20	9%

- (b) For a participant who is hired on or after January 1, 2003, the Total Basic Percentage means the sum of the Basic Percentages a Participant earns for a year or partial year of credited service. The Percentage that a participant earns for any one year of Credited Service is based on the participant's age and total years of Credited Service pursuant to the following table.

If the sum of the Participant's Age and Credited Service is	Basic Percentage Earned for a Year of Credited Service after January 1, 2003
Less than 45	1%
Greater than or equal to 45 and less than 55	2%
Greater than or equal to 55 and less than 65	5%
Greater than or equal to 65 and less than 75	6%
Greater than or equal to 75 and less than 85	8%
Greater than or equal to 85	10%

If the Participant has attained age 50 with 20 years of credited service, the following table shall apply in lieu of the table above:

If the sum of the Participant's Age and Credited Service is	Basic Percentage Earned for a Year of Credited Service after January 1, 2003
Greater than or equal to 70 and less than 75	9%
Greater than or equal to 75 and less than 85	11%
Greater than or equal to 85	13%

Starting Percentage: For active participants as of December 31, 1997, the starting percentage is the transitional present value as of December 31, 1997 of the Participant's Accrued Benefit under the Plan divided by the participant's Final Average Earnings as of December 31, 1997.

Transitional Percentage: 0.8% times credited service at 12/31/1997 times credited service from 1998-2002 (maximum of 5 years). This percentage is only applied to participants who had either attained age 50 as of June 30, 1998 or had attained age 45 and completed 10 years of service as of June 30, 1998.

Supplemental Percentage: Only for those with a hire date before 1/1/2003. Like Basic Percentage, participants are only given credits for years after 1997, but in determining the level of credit, total credited service is used. Participants receive 2% for each of the first ten years of credited service and 3% for any years of credited service over 10.

The basic retirement amount shall not be less than the Actuarial Equivalent of the participant's Accrued Benefit. The Accrued Benefit is calculated as:

- a) the PEP lump sum calculated as above but based on the participant's potential credited service at normal retirement age and final average earnings as of the determination date
- b) Divided by the participant's single life annuity factor at normal retirement age
- c) Multiplied by the ratio of actual credited service to potential credited service (maximum of 1).

For Frozen Participants: Effective July 31, 2008, the PEP lump sum and Accrued Benefit shall be calculated as of July 31, 2008 and not increased past this date (except with regard to COLA provisions described below).

Early Retirement Benefit

Eligibility: Age 55 and five years of vesting service.

Early Retirement Benefit: Benefit based on Credited Service at retirement, payable immediately in the form of a lump sum or actuarial equivalent annuity. No additional interest or accruals are credited after retirement.

Actuarial Equivalence

The Plan uses the Applicable Interest Rate and Applicable Mortality Table under 417(e)(3) to convert from a lump sum to an annuity.

Disability Benefit

The Disability Benefit is paid from a separate Long Term Disability Plan. Benefits from this plan are payable at age 65 or when LTD coverage ceases. Participants on LTD as of July 31, 2008 are still accruing benefits in the TRP and are not considered Frozen Participants.

Vested Benefits upon Termination of Service

Vesting: 3 year cliff vesting

Vested Termination Benefit: The Normal Retirement Benefit based on Credited Service at termination, payable immediately in the form of a lump sum or actuarial equivalent single life annuity.

Death Benefits for Vested Participants in Active Service or Terminated Vested Participants

Eligibility: Vested at date of death and at least one year of marriage.

Benefit: Spouses receive the benefit that would have been payable had the participant terminated on the 1st of the month following the date of death. Benefit is available as lump sum or actuarially equivalent single life annuity.

Death Benefits for Retired Participants

Any death benefits payable to a beneficiary will be paid in accordance with the optional form of benefit chosen at retirement.

Cost of Living Adjustment

All Frozen Participants as of 8/1/2008 have a COLA factor applied to their accrued benefit. The COLA Factor equals the percentage change in the CPI for all Urban Consumers for All Items Less Food and Energy published by the U.S. Bureau of Labor and Statistics for the 12-month period ending on October 31st prior to the Plan Year in which the index will be applied. The COLA Factor is prorated for any partial year that it applies. The COLA Factor is applied after all applicable Prior Plan Offsets. The frozen benefit as of 7/31/2008 will be increased annually by the COLA Factor for the period commencing 8/1/2008, until the participant's Annuity Starting Date.

Normal Form of Payment

For single participants, a single life annuity and for married participants, a 100% joint and survivor annuity.

Optional Forms of Payment

Actuarially Equivalent optional forms of payment include:

- a) Single Life Annuity
- b) 50%, 66.67%, 75%, or 100% contingent annuitant options
- c) 10 Year Certain and Continuous Annuity

Summary of principal plan provisions – Legacy Belo

Eligibility

In general, before the plan was closed to new participants (non-Guild employees hired by July 1, 2000 and Guild employees hired by August 1, 2004), employees became plan participants on the January 1 or July 1 coinciding with or next following age 21 with one year of pension service. Certain Legacy populations were subject to different participation rules.

Definitions

Vesting service Same as pension service (below) except that vesting service is calculated from date of hire for KIRO, Owensboro, KMOV-TV, KENS-TV, and Providence Journal Guild. Non-Guild employees were granted full vesting on July 1, 2000 and Guild employees were granted full vesting on August 1, 2004.

Pension service In general, pension service consists of any service credited through December 31, 1975, plus service for each of the 1976-1977 plan years where the employee completed 1,000 hours of service, plus elapsed-time service beginning January 1, 1978 through the date that accruals were frozen. Accruals were frozen for all participants by March 31, 2007, with accruals for certain participants frozen earlier. Pension service includes the first 12 months of authorized absence before the freeze date.

For certain acquired business units, pension service began accruing on a particular date or may include service credited under a prior plan, as described in the plan document.

Certain participants were granted five additional years of pension service in calculating their accrued benefits. In order to receive these additional years of credit, the participant must have been accruing a retirement or disability benefit under the plan on March 31, 2007; terminated prior to that date as part of the information technology outsourcing; terminated between September 29, 2006 and March 31, 2007 due to death, retirement at age 55 or later, or an involuntary reduction in force; terminated by September 16, 2006 as part of the Dallas Morning News voluntary severance program for newsroom employees; or in qualifying military service on March 31, 2007.

Pensionable pay Base, overtime, shift differential, premium pay, bonuses (including lump sum termination bonuses), and commissions. Compensation includes any deferrals under a section 401(k) or section 125 plan.

Average earnings Average of the highest five consecutive years of pensionable pay within the ten years preceding termination, or average over the entire period of employment if that period is less than five

years. Earnings during and after the freeze year are not part of the average.

Social Security benefit The projected primary Social Security benefit under the law in effect at termination of employment assuming continuation of then-current earnings to the participant's Social Security Normal Retirement Age.

Normal retirement date (NRD) First of month coinciding with or next following the attainment of age 65.

Monthly pension benefit 1.1% of average earnings multiplied by years of pension service at NRD, plus .35% of average earnings in excess of Covered Compensation multiplied by years of pension service at NRD up to 35 such years, multiplied by the fraction of actual pension service over pension service at NRD not to exceed 1.

For prior Guild Non-Union Providence Journal participants, the benefit cannot be less than the accrued benefit under the Providence Journal Plan plus the benefit under this plan earned since December 31, 1997. For prior Guild Union Employees, the benefit cannot be less than the accrued benefit under Appendix D of the plan document as of July 31, 2004.

Monthly preretirement death benefit Death of active employee or terminated vested participant: 50% of the benefit that would have been payable if the participant had terminated employment on the date of death (if active), survived until age 55, and then commenced a 50% joint and survivor annuity. For the spouse of a participant who was eligible for early retirement on December 31, 1994, the death benefit cannot be less than the monthly preretirement spouse benefit earned as of December 31, 1994.

Report of Independent Auditors

To the Administrator of TEGNA Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying 2021 financial statements of TEGNA Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The 2021 financial statement comprise the statements of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, including the related notes (collectively referred to as the "2021 financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 1 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Other Matter – 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan, which comprise the statement of net assets available for benefits as of December 31, 2020, and the related statements of changes in net assets available for benefits for the year then ended. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 12, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements, other than that derived from the certified information, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2021, Schedule H, Line 4j – Schedule of Assets (Acquired and Disposed of Within Year) for the year ended December 31, 2021 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2021 (“supplemental schedules”), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information

prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Latest Amendment

The Plan was established on June 29, 2015 and last amended effective April 26, 2018. The Midwest Pension Plan merged with the TEGNA Retirement Plan on 6/1/2018.

Plan Year

The twelve-month period ending December 31.

Summary of principal plan provisions – Legacy TRP

Note: This Appendix summarizes the provisions under Part I of the Summary of Plan Provisions (“SPP”), pertaining to the pension equity (“PEP”) formula of the plan. This formula applies to almost all current Legacy TRP employees covered by the TEGNA Retirement Plan. Other detail for smaller Legacy TRP groups of participants may be found in the plan document and Summary Plan Descriptions.

Eligibility

Participants hired before July 28, 1999 became participants in the plan on the first day of the month coincident with or next following employment. Employees under certain union plans have different dates of participation (see SPP).

Generally, employees hired after July 27, 1999 and before August 1, 2008 became participants in the plan the January 1st or July 1st following the later of the date the employee attained age 21 or completed one year of service. Employees in certain locations have different dates of participation (see SPP).

Effective August 1, 2008, no new participants were eligible except for certain publishing employees

Credited Service

Frozen Plan Participants: No credited service is earned effective August 1, 2008.

Participants Still Accruing under the PEP Part (I): One year of service is credited if 1,820 hours is worked in a year. Partial service is awarded if the participant worked more than 1,000 hours.

Vesting Service

Elapsed time method except for final year of employment where a year of vesting service is earned if participant works at least 1,000 hours.

Compensation

Basic compensation, including commissions, overtime pay, and performance-related bonuses, but excluding deferred compensation and profit sharing distributions and/or contributions. Bonuses are included for the year in which earned, even if paid the following year. For the TRP, compensation is subject to IRC 401(a)(17) compensation limits.

For Frozen Participants, earnings after July 31, 2008 shall not count for the purposes of calculating the benefit under the plan.

Final Average Compensation

The average of the participant's compensation during the 60 consecutive months of Credited Service out of the last 120 months of Credited Service prior to retirement or termination resulting in the highest average.

For Frozen Participants, the final average earnings shall be calculated as of July 31, 2008 and not recalculated after.

Normal Retirement Benefit

Normal Retirement Date: Later of age 65 or 5th anniversary of commencement of participation in plan. For those hired before 6/1/1991, age 65.

Annual Benefit: A Participant's Basic Retirement Amount under this Plan as stated as a single lump sum benefit is equal to the sum of Paragraphs (a) and (b) below:

- (a) The product of Paragraphs (i) and (ii):
 - (i) The sum of the Participant's Total Basic Percentage, Starting Percentage, and Transition Percentage.
 - (ii) The Participant's Final Average Earnings.
- (b) The product of Paragraphs (i) and (ii):
 - (i) The Participant's Total Supplemental Percentage.
 - (ii) The Participant's Final Average Earnings in excess of the Social Security Wage Base.

Basic Percentage: A participant's Total Basic Percentage is calculated differently based on the date the participant was hired as follows:

- (a) For a participant who is hired before January 1, 2003, the Total Basic Percentage means the sum of the Basic Percentages a Participant earns for a year or partial year of credited service after December 31, 1997. The Percentage that a participant earns for any one year of Credited Service after December 31, 1997 is based on total years of Credited Service earned pursuant to the following table:

Based on a Participant's Total Years of Credited Service	Basic Percentage Earned for a Year of Credited Service after December 31, 1997
For the Participant's first ten years of Credited Service	5%
For the Participant's next ten years of Credited Service	7%
For the Participant's years of Credited Service over 20	9%

- (b) For a participant who is hired on or after January 1, 2003, the Total Basic Percentage means the sum of the Basic Percentages a Participant earns for a year or partial year of credited service. The Percentage that a participant earns for any one year of Credited Service is based on the participant's age and total years of Credited Service pursuant to the following table.

If the sum of the Participant's Age and Credited Service is	Basic Percentage Earned for a Year of Credited Service after January 1, 2003
Less than 45	1%
Greater than or equal to 45 and less than 55	2%
Greater than or equal to 55 and less than 65	5%
Greater than or equal to 65 and less than 75	6%
Greater than or equal to 75 and less than 85	8%
Greater than or equal to 85	10%

If the Participant has attained age 50 with 20 years of credited service, the following table shall apply in lieu of the table above:

If the sum of the Participant's Age and Credited Service is	Basic Percentage Earned for a Year of Credited Service after January 1, 2003
Greater than or equal to 70 and less than 75	9%
Greater than or equal to 75 and less than 85	11%
Greater than or equal to 85	13%

Starting Percentage: For active participants as of December 31, 1997, the starting percentage is the transitional present value as of December 31, 1997 of the Participant's Accrued Benefit under the Plan divided by the participant's Final Average Earnings as of December 31, 1997.

Transitional Percentage: 0.8% times credited service at 12/31/1997 times credited service from 1998-2002 (maximum of 5 years). This percentage is only applied to participants who had either attained age 50 as of June 30, 1998 or had attained age 45 and completed 10 years of service as of June 30, 1998.

Supplemental Percentage: Only for those with a hire date before 1/1/2003. Like Basic Percentage, participants are only given credits for years after 1997, but in determining the level of credit, total credited service is used. Participants receive 2% for each of the first ten years of credited service and 3% for any years of credited service over 10.

The basic retirement amount shall not be less than the Actuarial Equivalent of the participant's Accrued Benefit. The Accrued Benefit is calculated as:

- a) the PEP lump sum calculated as above but based on the participant's potential credited service at normal retirement age and final average earnings as of the determination date
- b) Divided by the participant's single life annuity factor at normal retirement age
- c) Multiplied by the ratio of actual credited service to potential credited service (maximum of 1).

For Frozen Participants: Effective July 31, 2008, the PEP lump sum and Accrued Benefit shall be calculated as of July 31, 2008 and not increased past this date (except with regard to COLA provisions described below).

Early Retirement Benefit

Eligibility: Age 55 and five years of vesting service.

Early Retirement Benefit: Benefit based on Credited Service at retirement, payable immediately in the form of a lump sum or actuarial equivalent annuity. No additional interest or accruals are credited after retirement.

Actuarial Equivalence

The Plan uses the Applicable Interest Rate and Applicable Mortality Table under 417(e)(3) to convert from a lump sum to an annuity.

Disability Benefit

The Disability Benefit is paid from a separate Long Term Disability Plan. Benefits from this plan are payable at age 65 or when LTD coverage ceases. Participants on LTD as of July 31, 2008 are still accruing benefits in the TRP and are not considered Frozen Participants.

Vested Benefits upon Termination of Service

Vesting: 3 year cliff vesting

Vested Termination Benefit: The Normal Retirement Benefit based on Credited Service at termination, payable immediately in the form of a lump sum or actuarial equivalent single life annuity.

Death Benefits for Vested Participants in Active Service or Terminated Vested Participants

Eligibility: Vested at date of death and at least one year of marriage.

Benefit: Spouses receive the benefit that would have been payable had the participant terminated on the 1st of the month following the date of death. Benefit is available as lump sum or actuarially equivalent single life annuity.

Death Benefits for Retired Participants

Any death benefits payable to a beneficiary will be paid in accordance with the optional form of benefit chosen at retirement.

Cost of Living Adjustment

All Frozen Participants as of 8/1/2008 have a COLA factor applied to their accrued benefit. The COLA Factor equals the percentage change in the CPI for all Urban Consumers for All Items Less Food and Energy published by the U.S. Bureau of Labor and Statistics for the 12-month period ending on October 31st prior to the Plan Year in which the index will be applied. The COLA Factor is prorated for any partial year that it applies. The COLA Factor is applied after all applicable Prior Plan Offsets. The frozen benefit as of 7/31/2008 will be increased annually by the COLA Factor for the period commencing 8/1/2008, until the participant's Annuity Starting Date.

Normal Form of Payment

For single participants, a single life annuity and for married participants, a 100% joint and survivor annuity.

Optional Forms of Payment

Actuarially Equivalent optional forms of payment include:

- a) Single Life Annuity
- b) 50%, 66.67%, 75%, or 100% contingent annuitant options
- c) 10 Year Certain and Continuous Annuity

Summary of principal plan provisions – Legacy Belo

Eligibility

In general, before the plan was closed to new participants (non-Guild employees hired by July 1, 2000 and Guild employees hired by August 1, 2004), employees became plan participants on the January 1 or July 1 coinciding with or next following age 21 with one year of pension service. Certain Legacy populations were subject to different participation rules.

Definitions

Vesting service	Same as pension service (below) except that vesting service is calculated from date of hire for KIRO, Owensboro, KMOV-TV, KENS-TV, and Providence Journal Guild. Non-Guild employees were granted full vesting on July 1, 2000 and Guild employees were granted full vesting on August 1, 2004.
Pension service	<p>In general, pension service consists of any service credited through December 31, 1975, plus service for each of the 1976-1977 plan years where the employee completed 1,000 hours of service, plus elapsed-time service beginning January 1, 1978 through the date that accruals were frozen. Accruals were frozen for all participants by March 31, 2007, with accruals for certain participants frozen earlier. Pension service includes the first 12 months of authorized absence before the freeze date.</p> <p>For certain acquired business units, pension service began accruing on a particular date or may include service credited under a prior plan, as described in the plan document.</p> <p>Certain participants were granted five additional years of pension service in calculating their accrued benefits. In order to receive these additional years of credit, the participant must have been accruing a retirement or disability benefit under the plan on March 31, 2007; terminated prior to that date as part of the information technology outsourcing; terminated between September 29, 2006 and March 31, 2007 due to death, retirement at age 55 or later, or an involuntary reduction in force; terminated by September 16, 2006 as part of the Dallas Morning News voluntary severance program for newsroom employees; or in qualifying military service on March 31, 2007.</p>
Pensionable pay	Base, overtime, shift differential, premium pay, bonuses (including lump sum termination bonuses), and commissions. Compensation includes any deferrals under a section 401(k) or section 125 plan.
Average earnings	Average of the highest five consecutive years of pensionable pay within the ten years preceding termination, or average over the entire period of employment if that period is less than five

years. Earnings during and after the freeze year are not part of the average.

Social Security benefit

The projected primary Social Security benefit under the law in effect at termination of employment assuming continuation of then-current earnings to the participant's Social Security Normal Retirement Age.

Normal retirement date (NRD)

First of month coinciding with or next following the attainment of age 65.

Monthly pension benefit

1.1% of average earnings multiplied by years of pension service at NRD, plus .35% of average earnings in excess of Covered Compensation multiplied by years of pension service at NRD up to 35 such years, multiplied by the fraction of actual pension service over pension service at NRD not to exceed 1.

For prior Guild Non-Union Providence Journal participants, the benefit cannot be less than the accrued benefit under the Providence Journal Plan plus the benefit under this plan earned since December 31, 1997. For prior Guild Union Employees, the benefit cannot be less than the accrued benefit under Appendix D of the plan document as of July 31, 2004.

Monthly preretirement death benefit

Death of active employee or terminated vested participant: 50% of the benefit that would have been payable if the participant had terminated employment on the date of death (if active), survived until age 55, and then commenced a 50% joint and survivor annuity. For the spouse of a participant who was eligible for early retirement on December 31, 1994, the death benefit cannot be less than the monthly preretirement spouse benefit earned as of December 31, 1994.
