Plan Administrator
WCI Steel/Pyro/Baron Retirement Plan
New York, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of WCI Steel/Pyro/Baron Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended and the statement of accumulated plan benefits as of December 31, 2020, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

(Continued)

- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

(Continued)

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4j – Schedule of Reportable Transactions as of and for the year ended December 31, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of WCI Steel/Pyro/Baron Retirement Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 12, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

WCI STEEL/PYRO/BARON RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the WCI Steel/Pyro/Baron Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is sponsored by The Renco Group, Inc. ("Renco") and is a defined benefit pension plan subject to provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") (as amended).

The Plan was originally established effective September 1, 1995 and restated September 1, 1999, May 1, 2006, and December 31, 2011. The Plan is a defined benefit pension plan covering substantially all former employees of WCI Steel, Inc. ("WCI", "Company" and "Old WCI") who were covered by a collective bargaining agreement who became eligible after attainment of age 21 and completion of one year of service, whichever is later. It is subject to the provisions of ERISA, as amended. On May 1, 2006, The Renco Group, Inc. ("Renco") assumed the Plan in conjunction with WCI emerging from Chapter 11 under a consensual plan of reorganization that resulted in the transfer of all assets and liabilities, except the pension to a newly formed company owned by the creditors of Old WCI. The Plan was amended effective May 1, 2006, to reflect the change of sponsor, freeze credited service, eligibility and benefits, and change its name to the "WCI Steel Frozen Defined Benefit Plan." Effective November 9, 2007, the Plan year-end was changed from October 31 to December 31.

Effective December 31, 2011, the Pyro/Baron Retirement Plan ("Pyro/Baron Plan") merged into the Plan, and the Plan was restated and renamed the WCI Steel/Pyro/Baron Retirement Plan. Effective August 19, 2003 and September 30, 2003 the former Pyro Mining Company Employees' Pension Plan ("Pyro Plan") and the former Baron Drawn Steel Retirement Plan ("Baron"), which merged on December 31, 2009 to become the Pyro/Baron Plan, were amended to eliminate entry into the Pyro Plan and Baron Plan by non-participating employees and allowed for no additional accrual of benefits as of this date, respectfully.

Effective December 31, 2020, The Renco Group, Inc. – USW Defined Benefit Plan (the "USW Plan") and The Renco Group, Inc. Wheeling Salaried Employees Pension Plan (the "Wheeling Plan") (collectively, the "Merged Plans") merged into the Plan and all of the net assets and accumulated plan benefits of the Merged Plans in the amounts of \$72,449,667 and \$69,666,989, respectively, were transferred into the Plan.

Plan Administration: A portion of the investments of the Plan, along with certain other defined benefit plans sponsored by Renco and its subsidiaries, are invested under the directed trusteeship of Wells Fargo Bank, N.A. ("Wells Fargo") in the Renco Master Trust ("Master Trust"). The Master Trust was established effective July 14, 2006.

Contributions: The funding policy is for cash contributions to be made to the Plan in amounts not less than the amount necessary to prevent an accumulated funding deficiency, as defined in Section 412 of the Internal Revenue Code ("IRC"). The Plan met the minimum funding requirements of ERISA for the year ended December 31, 2021.

NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Pension Benefits – Former WCI Steel, Inc. Employees: Eligible former employees with 30 or more years of continuous service or who attained normal retirement age while employed by the Company are entitled to a minimum monthly pension benefit equal to:

Effective September 1, 2002: \$56.25 for each year of continuous service up to 30 years, plus \$75 for each year of continuous service in excess of 30 years. Employees retiring with at least 30 years of continuous service receive the following minimum monthly benefits, based upon the employee's age at retirement:

<u>Attained age</u>	<u>Minimum Monthly Benefit</u>
Less than 55	\$ 1,050
55 – 60	1,250
61 – 62	1,350
63	1,450
64	1,550
65 and over	1,660

In addition, a monthly supplement ranging from \$150 - \$400 is payable to all former employees retiring with 30 years of continuous service until the later of age 62 or one year from date of retirement. If employees were terminated before rendering five years of credited service, they forfeited the right to receive a retirement benefit. The Plan also provides for early retirement benefits.

Employees retiring with less than 30 years of continuous service receive \$1,660 multiplied by the years of continuous services divided by 30.

As a result of the December 1999 collective bargaining agreement with the USWA, the assets related to the non-participant-directed Defined Contribution Plan ("DCP") were merged into the Plan. On termination of service a DCP participant may elect to receive a lump-sum distribution for the greater of 10% of the value of the participant's vested interest or \$10,000 or receive pension benefits as described above. Any remaining portion of the participant's vested interest, not received in a lump sum distribution, is transferred and then used in the calculation of the Plan's actuarial present value of accumulated plan benefits as described in Note 2. Effective May 1, 2006, all participants were terminated, and the remaining defined contribution benefits under the DCP were eliminated and the remaining DCP benefits became defined benefit obligations under the Plan.

Pension Benefits – Former Pyro Mining Employees: All participants are entitled to annual pension benefits beginning at normal retirement age (62) or attainment of age (70) in accordance with the schedule set forth in Section 4.01 of the Plan document. The Plan permits early retirement at ages 55-61 and completion of 5 years of vesting service. If participants retire before age 62, their accrued benefit is reduced by 3% for each year by which the early retirement date precedes the normal retirement date. Participants may elect to receive their pension benefits in the form of a joint and survivor annuity. Participants may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement, or they may elect to receive their benefits as a life annuity payable monthly from retirement. The normal form of benefit is payable as a straight life annuity or, if married, the actuarial equivalent of such benefit payable as a qualified joint and survivor annuity.

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Pension Benefits – Former Baron Employees: All participants are entitled to annual pension benefits beginning at normal retirement age (65) in accordance with the schedule set forth in Section 4.01 of the Plan document. The Plan permits early retirement at ages 55 – 64 and completion of 10 years of vesting service. If participants retire before age 65, their accrued benefit is reduced by 0.5% for each month by which the early retirement date precedes the normal retirement date. Participants may elect to receive their pension benefits in the form of a joint and survivor annuity. Participants may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement, or they may elect to receive their benefits as a life annuity payable monthly from retirement. The normal form of benefit is payable as a 10-year certain annuity or, if married, the actuarial equivalent of such benefit payable as a qualified joint and survivor annuity.

Pension Benefits – Former RG Steel Warren, LLC Hourly Employees: The USW Plan pays the excess of a target benefit over benefits payable from a plan under the predecessor to WCI Steel, Inc., Old WCI, and from any plan previously maintained by LTV Steel and now paid by the Pension Benefit Guaranty Corporation ("PBGC") (the "LTV Plan"). The monthly target benefit is equal to \$56.25 for each year of benefit service up to 30 years, plus \$75 for each year of benefit service in excess of 30 years.

The USW Plan provides for a special payment to eligible employees for an amount representing the actuarial equivalent value of a lump sum equal to nine weeks of vacation pay, which is reduced by three times the participant's regular pension amount per the calculation noted above. The USW Plan also provides for early retirement, disability, and pre-retirement death benefits. Benefits ceased to accrue, and all participants became fully vested in their benefits under the USW Plan upon termination of the USW Plan by the PBGC effective August 31, 2012.

Pension Benefits – Former RG Steel Wheeling, LLC Salaried Employees: For the Wheeling Plan, employees with five or more years of continuous service are entitled to pension benefits beginning at normal retirement age (62) equal to 1.3% of average earnings times the number of years of continuous service. Average earnings are defined as the average earnings of the highest consecutive 36 months of the last 120 months of earnings prior to retirement. This pension benefit is reduced by any benefits payable from other sources earned while an employee, including the Salaried Employee Pension Plan of Severstal Wheeling, Inc., PBGC and the WHX Pension Plan. The Wheeling Plan permits early retirement at ages 55-61. If retirement occurs during this early retirement period, the pension benefit is actuarially reduced in accordance with the Wheeling Plan agreement. Employees may elect to receive the value of their accumulated plan benefits as a lump-sum distribution, a life annuity payable monthly from retirement, an actuarially reduced qualified 50% joint and survivor annuity, or qualified 75% optional survivor annuity with spouse as beneficiary.

Under the Bargaining Program, any bargaining employee who participated in Group I of the SIP and accepted the Corporation's offer to an early retirement prior to December 31, 2003, is eligible for the supplemental pension benefit. The benefit under the Bargaining Program is equal to the single life annuity commencing at an employee's normal retirement date that is the actuarial equivalent of \$40,000 spread ratably over the greater of 25 months from the date of retirement or the period until age 62. Participants may receive their supplemental pension benefit as a single life annuity, as an actuarially reduced qualified 50% joint survivor annuity or in installment payments over the period described above. The final annuity payments under the Bargaining Program were made during the 2010 Wheeling Plan year and no future payments will be required.

NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Death and Disability Benefits – Former WCI Steel, Inc. Employees: If a fully vested active participant dies, a death benefit equal to the amount that would have been paid had the participant terminated employment on the date of death, survived to his/her early retirement age, retired with a 50% joint and survivor annuity in effect, then died the next day. Payments begin at the later of date of death or when the participant would have attained age 60.

Disability benefits are paid if the participant has 15 years of continuous service and is totally and permanently disabled. The participant is paid his/her accrued benefit without reduction until age 62. If the participant is not entitled to Social Security Disability Benefit, an additional \$400 may be paid.

Death and Disability Benefits – Former Pyro Mining Employees: If an active participant dies at age 55 or older, a death benefit equal to the value of the participant's accumulated pension benefits is paid to the participant's spouse. Active participants who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled reduced by 3% for each year his disability precedes his normal retirement date.

Annual disability benefits are further reduced by payment of any benefit by reason of the same disability to which the Employer has contributed all or part of the cost. This offset shall include, but not be limited to: workers compensation, traumatic, State O.D., and Federal O.D., and benefits awarded under Title II of the Federal Social Security Act. Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits computed under the provisions of Article IV of the Plan document as if they were an active participant.

Death and Disability Benefits – Former Baron Employees: If an active participant dies at age 55 or older, a death benefit equal to the value of the participant's accumulated pension benefits is paid to the participant's spouse. Active participants who become totally disabled will continue to accrue benefits under the Plan if they become totally and permanently disabled before their normal retirement date if they have completed 5 years of vested service.

Disability benefits are paid until the earlier of the date the participant begins to receive an early retirement benefit or the date the participant reaches normal retirement age at which time disabled participants begin receiving retirement benefits computed under the provisions of Article IV of the Plan document as if they were an active participant.

Death Benefits – Former RG Steel Wheeling, LLC Salaried Employees: If an employee dies after becoming eligible to receive pension benefits under the Wheeling Plan, but prior to commencement of payments, the employee's pension will be converted to the qualified 50% joint and survivor annuity in order to determine the 50% survivor annuity to be paid to the employee's spouse.

Death Benefits – Former RG Steel Warren, LLC Hourly Employees: If an employee dies after becoming eligible to receive pension benefits under the USW Plan, , but prior to commencement of payments, the employee's pension will be converted to the qualified 50% joint and survivor annuity in order to determine the 50% survivor annuity to be paid to the employee's spouse.

Vesting – Former WCI Steel, Inc. Employees: Employees are 100 percent vested once they have accumulated five years of credited service with the Company. Effective May 1, 2006, participants ceased to accrue vesting service.

(Continued)

WCI STEEL/PYRO/BARON RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Vesting – Former Pyro Mining Employees: Employees are 100 percent vested once they have accumulated five years of credited service with the Company. Effective August 19, 2003, participants ceased to accrue vesting service.

Vesting – Former Baron Employees: Employees are 100 percent vested once they have accumulated five years of credited service with the Company. Effective September 30, 2003, participants ceased to accrue vesting service.

Vesting – Former RG Steel Warren, LLC Hourly Employees: Upon the termination date, all participants became 100% vested.

Vesting – Former RG Steel Wheeling, LLC Salaried Employees: Upon the freeze date, all participants became 100% vested.

Termination: The Plan can be terminated by Renco in certain limited situations. If the Plan is terminated, the net assets of the Plan will be distributed to the participants in an order of priority determined in accordance with ERISA and its applicable regulations, and with the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested, normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Administrative and Investment Management Expenses: The Plan's trustee, custodian, investment management and actuarial fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are paid by the Plan and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by Renco.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements have been prepared on the accrual basis and in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are reflected on a trade-date basis. Gain or loss on sales of securities is based on either the average cost or identified certificate method. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

(Continued)

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (Continued)

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan and those held as underlying investments of the Master Trust. There has been no change in the methodologies used at December 31, 2021 and 2020.

Plan interest in Master Trust: The fair value of the Plan's interest in the Master Trust reflects the Plan's interest in the fair value of the underlying net assets of the Master Trust. The methodologies for determining the fair values of the underlying investments are described below.

Pooled Separate Account: The fair values of participation units held in the pooled separate account are based on its net asset value, as reported by the manager of the pooled separate account, and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The pooled separate account provides for daily redemptions by the Plan with no advance notice requirements and has redemption prices that are determined by the fund's net asset value per unit.

Mutual Fund and Money Market Fund: The fair values of mutual fund investments and money market funds are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective Trusts: The fair values of participant units held in collective trusts are based on the net asset values per unit as a practical expedient as reported by the fund managers. The collective trusts provide for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

(Continued)

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (Continued)

Hedge Funds: The hedge funds are measured at fair value using the net asset value per share (or its equivalent) practical expedient provided by the funds and their administrators.

Relative value: These funds attempt to capture pricing inefficiencies/differentials between related securities while trying to minimize the impact of general market movements. Different relative value strategies include convertible bond arbitrage, statistical arbitrage, pairs trading, yield curve arbitrage, volatility arbitrage, commodity relative value, and basis trading. These investments are exempt from redemption until the funds are liquidated. The Master Trust's interest in these locked funds was \$436,536 and \$801,853 as of December 31, 2021 and 2020.

Opportunistic/Macro: These funds invest in a wide variety of instruments using a broad range of primarily directional strategies. It is common for Portfolio Managers in this strategy to assume an aggressive risk posture relying on a combination of macroeconomic models, fundamental research, and quantitative algorithms. Portfolio Managers invest across countries, markets, sectors and companies, and have the flexibility to invest in numerous financial instruments. Futures and options are often used for hedging and speculation in order to quickly position a portfolio to profit from changing markets. The use of leverage varies considerably. Generally, these investments are redeemable on an annual basis, with a 65-day redemption notification requirement.

Credit: Funds utilizing this strategy may take long or short positions in corporate bonds, loans, credit derivatives, convertible bonds, asset-backed securities, equities and equity derivatives. In most cases Portfolio Managers will take long or short positions in instruments that reflect credit exposure to the same entity. Credit Portfolio Managers may invest in both investment grade and non-investment grade credit issuers, while also very often holding positions where the underlying exposures are to debt and equity securities of companies in financial difficulty, reorganization or bankruptcy. With the exception of one fund which provided for quarterly distributions, these investments are exempt from redemption until the fund is liquidated. The Master Trust's interest in these locked funds was \$3,070,348 and \$3,587,735 as of December 31, 2021 and 2020.

Merger Arbitrage/Event driven: These funds invest in a variety of strategies, including investments in secured and senior secured debt, distressed securities and other credit -related strategies including credit markets across the globe, preferred and hybrid securities, high yield bonds, corporate loans, and convertible bond arbitrage. The fund in this category is exempt from redemption until the fund is liquidated. The Master Trust's interest in this locked fund was \$108,252 and \$160,413 as of December 31, 2021 and 2020.

Long/short equity: These funds invest in long and short equities with focuses on the financial sector, energy and materials, bad balance sheet companies, large and small cap, catalyst driven investments, technology, and undervalued securities. The fund in this category is exempt from redemption until the fund is liquidated. The Master Trust's interest in this locked fund was \$223,332 and \$307,896 as of December 31, 2021 and 2020.

Multi-strategy: This fund invests in multiple strategies, including equities, derivative investments, distressed securities, fixed income, long/short equity, direct capital activities, various arbitrage strategies, credit event driven, real estate, and global securities. The fund in this category is exempt from redemption until the fund is liquidated. The Master Trust's interest in this locked fund was \$427,386 and \$424,634 as of December 31, 2021 and 2020.

(1) In accordance with Subtopic 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

Actuarial Present Value of Accumulated Plan Benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) beneficiaries of employees who have died. Benefits under the Plan are based on years of credited service. Accumulated plan benefits for participants are based on their service earned ending on the date as of which the benefit information is presented. Benefits payable under all circumstances, retirement, death, disability and termination of employment are included, to the extent they are deemed attributable to participant service rendered to the valuation date.

(Continued)

WCI STEEL/PYRO/BARON RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (Continued)

The actuarial present value of accumulated plan benefits, which was calculated by consulting actuary Principal Financial Group, is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) and the time value of money (through discounts for interest) between the valuation date and the expected date of payment.

The more significant assumptions underlying the actuarial computations are as follows:

Assumed rate of return on investments	7.5% - compounded annually
Mortality basis	Pri-2012 Mortality Table projected using Principal 2016-10 improvement scale
Retirement – former WCI, Baron, and RG Steel Warren employees	At normal retirement age (65)
Retirement – former Pyro Mining and RG Steel Wheeling employees	At normal retirement age (62)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The Pension Protection Act of 2006 (“PPA”) requires annual certifications by plan actuaries of a plan’s adjusted funding target attainment percentage (“AFTAP”). The AFTAP, which is a formula for measuring a plan’s compliance with statutory funding levels, determines the restrictions, if any, that are to be placed on a plan’s operations, pursuant to Section 436 of the Internal Revenue Code (“IRC”). As of January 1, 2021 and 2020, the Plan’s AFTAP was 90.73% and 95.39%, respectively.

Use of Estimates in the Preparation of Financial Statements: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period.

Actual results could differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimate of the actuarial present value of accumulated plan benefits.

Risks and Uncertainties: The Plan invests in a variety of investments either directly or through the Master Trust. The underlying investments are exposed to various risks, such as interest rates, market, liquidity, credit risks, as well as risks related to global events. Due to the level of risk associated with certain investments, and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, mortality rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the Plan’s financial statements.

WCI STEEL/PYRO/BARON RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (Continued)

Hedge Funds: The Plan invests in a variety of hedge funds through its interest in the Master Trust. The investment managers of these hedge funds might utilize derivatives, including calls and puts, currency hedges, options, and foreign exchange hedges. The use of derivative instruments could materially increase the credit or market risk of the Plan's assets and increase the level of the volatility of the market value of the Plan's assets. The use of such instruments also introduces a risk of potential loss relating to the ability of the counterparty to perform as of the derivative termination date since the realization of unrealized gains on derivative instruments is wholly dependent upon the ability of the counterparty to honor the derivative arrangement.

Payment of Benefits: Benefit payments to participants are recorded upon distribution.

NOTE 3 - CERTIFIED INVESTMENTS

Certain information related to investments included in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at December 31, 2021 and 2020, and net appreciation in fair value of investments, interest and dividends for the years then ended, with the exception of \$113,726,640 and \$98,495,925 as of December 31, 2021 and 2020, respectively, in the Plan's interest in the hedge funds held in the Master Trust and \$21,320,381 and \$14,308,743 of related income during 2021 and 2020, respectively; was obtained by management and agreed to or derived from information certified as complete and accurate by Principal Life Insurance Company ("Principal") and Wells Fargo Bank, N.A., the custodians of the Plan.

NOTE 4 - MASTER TRUST

The majority of the Plan's assets, along with other defined benefit plans sponsored by Renco and its subsidiaries are invested in the Master Trust. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses. Each participating plan in the Master Trust has an undivided interest in the assets of the Master Trust. The Plan had approximately 65% interest in the net assets of the Master Trust as of December 31, 2021 and 2020. Investment income and losses and administrative expenses relating to the Master Trust are allocated to the individual plans monthly based on each plan's percentage interest in the net assets of the Master Trust.

NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 4 - MASTER TRUST (Continued)

- (1) In accordance with Subtopic 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the net assets of the Master Trust.

NOTE 5 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated September 22, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, Plan management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2018.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others.

Renco provides certain administrative services to the Plan for which it receives no compensation.

Certain Plan investments and Master Trust investments at December 31, 2021 and 2020, were in funds managed by Wells Fargo Advantage Funds, a division of Wells Fargo & Co., and Wells Fargo Bank, N.A. Wells Fargo Bank, N.A. is also a division of Wells Fargo & Co. and is the trustee of the Plan. Therefore, Plan assets invested in funds managed by Wells Fargo Advantage Funds and Wells Fargo Bank, N.A., as of December 31, 2021 and 2020, were party-in-interest investments.

Certain Plan investments at December 31, 2021 and 2020, were in funds managed by Principal Life Insurance Company which is a member of the Principal Financial Group. Principal Financial Group is a third-party administrator and actuary for the Plan; therefore, these investments constitute party-in-interest investments.

NOTE 7 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 14 2022, which is the date the financial statements were available to be issued.

NOTE 8 - DECEMBER 31, 2021 ACTUARIAL VALUATION (UNAUDITED)

The December 31, 2021 actuarial valuation was completed prior to the release of the financial statements. A summary of the actuarial valuation information provided by the plan's actuary, which has not been audited by independent accountants, is provided below for informational purposes.

The actuarial present value of accumulated plan benefits as of December 31, 2021 is as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 235,229,258
Other participants	<u>37,784,234</u>
 Total actuarial present value of accumulated plan benefits	 <u>\$ 273,013,492</u>

The change in actuarial present value of accumulated plan benefits for the year ended December 31, 2021 consists of the following:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 224,433,299
 Interest due to decrease in the discount period	 15,972,726
Benefits paid	(23,349,378)
Benefits accumulated and plan experience	(706,400)
Change in assumptions	<u>56,663,245</u>
 Actuarial present value of accumulated plan benefits at end of the year	 <u>\$ 273,013,492</u>

The more significant assumptions underlying the actuarial computations are as follows:

Assumed rate of return on investments	4.5% - compounded annually
Mortality basis	Pri-2012 Mortality Table projecting using Principal 2017-10 improvement scale
Retirement – former WCI, Baron, and RG Steel Warren employees	At normal retirement age (65)
Retirement – former Pyro Mining and RG Steel Wheeling employees	At normal retirement age (62)

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
WCI Steel/Pyro/Baron Retirement Plan
EIN 13-3370264 Plan No. 003

Assumptions prescribed by law

Mortality	<u>During benefit payment period</u>
	IRS Prescribed Mortality - Static Annuitant, male and female.
	<u>Before benefit payment period</u>
	IRS Prescribed Mortality - Static Non-annuitant, male and female.

Assumptions selected by actuary

Inflation	2.25% increase per year. See Long-Term Capital Market Assumptions link.
Asset return	7.50% for the current plan year. The asset return was chosen by the client.
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.
Retirement	Active and inactive participants are assumed to retire at normal retirement age as defined in <u>Plan provisions</u> . This assumption is based on the results of recent experience analysis and anticipated future experience.
Disability	None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.
Marriage	75% married; husbands are 3 years older than wives. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.
Withdrawal	None. No actives covered under plan.

Form of benefit and basis	WCI: 75% of participants are assumed to receive their benefits as a Life
----------------------------------	--

Annuity and 25% of participants are assumed to receive their benefits as a 50% Joint & Survivor Annuity at the assumed retirement age.

This assumption is based on the results of recent experience analysis and anticipated future experience.

PYRO/Baron: 100% of all non-retired participants will elect a benefit paid in a lump sum at the assumed retirement age based on the applicable mortality and the plan's funding target interest rates used in the Annual Cost calculation.

USW: 50% of participants are assumed to receive their benefits as a 5cc and 50% of participants are assumed to receive their benefits as a 50% Joint & Survivor Annuity at the assumed retirement age.

Wheeling: 1/3 of participants are assumed to receive their benefits as a Life Annuity and 2/3 of participants are assumed to receive their benefits as a 50% Joint & Survivor Annuity at the assumed retirement age.

Methods prescribed by law

Liability measure

Funding target is the present value of the benefits accrued on the valuation date. Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

Lump sum payments

Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions. Therefore, plan liabilities do not currently recognize this additional cost and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions.

HCE benefit payment restrictions

A ratio of the plan assets and accrued liability is used to determine if restrictions apply. Assets and accrued liability are as of the valuation date and are reduced by:

- any retiree benefit index or floor
- amounts for HCEs who were previously restricted
- an amount for the retiring HCE

The estimated HCE ratio illustrated in this report is based on the market value of plan assets (excluding late deposits) and funding target as of the valuation date. The funding target uses the non-stabilized interest rates as defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods could be used.

Methods selected by plan sponsor

Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain

or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates

24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis

Variable Rate Premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2009 plan year and this method must be used for five years before a change can be made.

Methods elected by actuary

Retirees

Assets and liabilities for current and future retirees are included.

Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality

Based on Pri-2012 Blue collar base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2016-10). Total dataset for Wheeling members.

Base rates

Before benefit payment period
Employee amount-weighted, male and female

During benefit payment period
Retiree amount-weighted, male and female

The Society of Actuaries is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Blue collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan and has been selected due to data limitations in identifying contingent survivors. In addition, we believe beneficiary mortality isn't materially different while both participants are alive.

Mortality improvement (MI)

Principal 2016-10 MI scale: this scale is based on MP-2020 study and model issued by SOA with the exception of the following user-selected assumptions:

- 10-year convergence period on age and cohort
- Long-term rates (LTR) assumptions using sex-distinct and age-based rates developed from Social Security Trustees Reports.

See Mortality Documentation for rationale and additional information.

Interest rate used to value liabilities

7.50%

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Basis for lump sums

Interest rate

Based on the three segment yield curve: 3.05%/3.45%/4.35%

The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.05%/3.45%/4.35%. For details, see Corporate AA yield in Figure 4 of Long-Term Capital Market Assumptions link.

Mortality

We have selected the same mortality assumption for lump sum payments, but with a 50/50 blend of male and female total dataset base rates and mortality improvement scales. This reflects the IRS practice of defining lump sum mortality on a unisex basis.

Definitions

Integration level

The monthly average of the Social Security taxable wage bases (in effect under Section 230 of the Social Security Act) for each year in the 35-year period ending with the year the employee attains Social Security retirement age.

Optional forms of benefit payments

WCI

The optional forms of benefit payments with actuarial equivalent basis in brackets:

- Monthly annuity payable for life.
- Automatic 50% spouse option without pop-up [87% + .4% multiplied by (beneficiary's age – participants age, up to 20)]
- Automatic 50% spouse option with pop-up [88% + .4% multiplied by (beneficiary's age – participants age, up to 20)]
- 75% spouse option [5% interest and UP-94 mortality table blended 50% for male and 50% for female, projected to 2002 using scale AA.]
- 50% beneficiary option [87% + .4% multiplied by (beneficiary's age – participants age, up to 20)]
- 100% beneficiary option [81% + .6% multiplied by (beneficiary's age – participants age, up to 20)]

USW

The optional forms of benefit payments are:

Life annuity; 50% spouse option with pop-up, 50% spouse option, 75% spouse option, 100% spouse option, 50% beneficiary option, 100% beneficiary option and Life Annuity or 50% Spouse Option with level payments. For the optional forms of payment except the level payments, if the participant is not eligible to receive the Old WCI Benefit or the LTV Benefit at retirement, the benefits decrease when the Old WCI Benefit and/or the LTV Benefit are first payable on an unreduced basis. If the participant elects an optional form of payment other than level payments, the SRP will be paid as a lump sum, and payments for the five-year period beginning on the participant's retirement date will be increased to the monthly pension benefit.

Lump Sums: The lump sum form conversion basis uses the applicable interest rate and applicable mortality as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the calendar month of the first day of the stability period which is the plan year.

Equivalent actuarial value: 417(e) mortality and interest rates.

PYRO

The optional forms of benefit payments are:

- Monthly annuity payable for life, or 5, 10, or 15 years certain and life
- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75, or 100
- Single sum payment equal to the present value of the retirement benefit

The optional form conversion basis is 7.5% interest and the mortality described in Revenue Ruling 95-6 for payments other than lump sums. The optional form conversion basis uses the applicable interest rate and applicable mortality as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the second calendar month preceding the payment month.

Baron

The optional forms of benefit payments are:

- Monthly annuity payable for 10 years certain and life.
- Monthly annuity payable for 10 years certain and then either a 50%, 75%, or 100% survivorship annuity payable afterwards.
- Single sum payment equal to the present value of the retirement benefit and post-retirement death benefit.

The optional form conversion basis is 5.0% interest and UP 1984 Mortality Table for payments other than lump sums. The optional form conversion basis uses the applicable interest rate and applicable mortality as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the plan year.
