Independent Auditor's Report

To the Plan Administrator
Colfax Corporation Consolidated Retirement Plan
Wilmington, Delaware

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Colfax Corporation Consolidated Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA ("ERISA Section 103(a)(3)(C) audit"). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency ("qualified institution"), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of December 31, 2021 and 2020, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP"); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedules (Schedule H, line 4i—Schedule of Assets (Held at End of Year) as of December 31, 2021 and Schedule H, line 4j—Schedule of Reportable Transactions for the year ended December 31, 2021) are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedules agrees to, or are derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Colfax Corporation Consolidated Retirement Plan

Notes to Financial Statements

1. Description of Plan

The following description of the Colfax Corporation Consolidated Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan under Internal Revenue Code Section 401(a), which covers certain employees and their beneficiaries of Colfax Corporation and its subsidiaries (collectively, the "Employer", the "Company", or "Colfax"), and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan provides for certain protected rights, benefits and features applicable only to certain identifiable participant groups resulting from past mergers of affiliated plans. Participation and accrual of benefits under the Plan were frozen effective January 31, 1999.

Trustee and Administration of the Plan

The trustees of the Plan are The Northern Trust Company ("Northern Trust" or "Trustee") and Aetna Life Insurance Company ("Aetna"). The administrator of the Plan is the Employer. Northern Trust and Aetna hold all assets of the Plan in accordance with service provider contracts with Colfax Corporation. The Colfax Corporation Retirement Plans Committee determines the appropriateness of the Plan's investments and monitors investment performance. CBIZ Retirement Plan Services is the Plan actuary, and also provides recordkeeping, benefits administration, and other compliance services.

Benefit Payments

The Plan generally provides for normal retirement benefits at age 65, early retirement benefits at age 55 and 10 years of service, disability benefits and survivor benefits. A vested participant who terminates for any reason other than retirement, disability, or death is entitled to the monthly vested termination benefit beginning on his or her normal retirement date in the amount of his or her accrued benefit.

Participants may elect to receive their distributions, subject to certain Plan provisions, in the form of various annuity payment options. If the participant's actuarial equivalent of the accrued benefit payable at their normal retirement date is less than \$1,000, the participant is paid a lump-sum payment as soon as practicable after his or her termination date. If the participant's actuarial equivalent of the accrued benefit payable at their normal retirement date is less than \$5,000 but greater than \$1,000, the lump-sum payment will be made as a direct rollover to an eligible retirement plan specified by the participant or to an individual retirement plan account.

Vesting

Participants become 100 percent vested at the earlier of completion of five years of vesting service, or attainment of normal retirement age of 65.

Colfax Corporation Consolidated Retirement Plan

Notes to Financial Statements

Administrative Expenses

The Plan pays certain administrative expenses including actuary, trustee, record-keeping, audit and consulting fees, and Pension Benefit Guaranty Corporation ("PBGC") premiums. All other administrative expenses of the Plan are paid by the Employer and are excluded from these financial statements. Investment related expenses are included in net appreciation in the fair value of investments on the statements of changes in net assets available for benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the U.S. ("GAAP").

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Employer's Retirement Plans Committee determines the Plan's valuation policies utilizing information provided by investment advisors and the trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Funding Policy

The Employer makes contributions in amounts sufficient to comply with the funding requirements of ERISA. The Employer's policy is to fund the normal cost currently and the amortization of the estimated unfunded past service liabilities generally over the maximum period permitted by ERISA. Although it has not expressed any intention to do so, the Employer has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. For the years ended December 31, 2021 and 2020, no contributions were made as the Employer met the minimum funding requirements of ERISA.

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes herein. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments are recorded when paid.

Colfax Corporation Consolidated Retirement Plan

Notes to Financial Statements

3. Certified Investment Information

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, The Northern Trust Company and Aetna Life Insurance Company, qualified institutions, have certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedules are complete and accurate:

- Investments as shown in the statements of net assets available for benefits as of December 31, 2021 and 2020;
- Net investment income as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2021 and 2020; and
- Investment information included in the schedule H, line 4i-schedule of assets (held at end of year) as of December 31, 2021, and schedule H, line 4j-schedule of reportable transactions for the year ended December 31, 2021; as shown on the ERISA-required supplemental schedules.

At the request of the plan administrator, the Plan's independent auditors did not perform auditing procedures on the above certified information, except for comparing such certified information to the related information included in the accompanying financial statements and ERISA-required supplemental schedules.

4. Fair Value Measurements

Accounting Standards Codification ("ASC") 820, *Fair Value Measurements*, provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Colfax Corporation Consolidated Retirement Plan

Notes to Financial Statements

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been no changes in the valuation methodologies used at December 31, 2021 and 2020. Following is a description of the valuation methodologies used for assets measured at fair value:

Common/Collective Trusts: Common/ collective trusts ("CCTs") represent investments with various investment managers. Units held in CCTs are valued at the net asset value ("NAV"). The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund, that are traded in an active market, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The CCTs held by the Plan are direct filing entities.

Guaranteed Investment Contract: The Plan holds one annuity contract, the Fixed Income Regular Account Fund with Aetna. Aetna maintains the assets of this investment in both allocated and unallocated funds with crediting rates averaging 4.78 percent and 5.03 percent for 2021 and 2020, respectively. The total yield for the Aetna contract was 4.69 percent and 4.89 percent for 2021 and 2020, respectively. Fair value of the guaranteed investment contract is determined by discounting the related cash flows based on observable, current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

Employer Common Stock: The common stock of the Employer is traded on the New York Stock Exchange and is valued at the closing price on the last day of the Plan year. See Note 12 for discussion of subsequent events impacting Employer common stock holdings of the Plan.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair Value of Investments that Calculate Net Asset Value

The following table presents the unfunded commitments, redemption frequencies, and redemption notice periods as of December 31, 2021 and 2020 for those assets, summarized by category, whose fair value is estimated using the NAV per share or its equivalent:

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

6. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Plan administrator by a letter dated March 20, 2018, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan, as currently designed, is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Colfax Corporation Consolidated Retirement Plan

Notes to Financial Statements

In accordance with ASC 740, *Income Taxes*, GAAP requires plan management to evaluate tax positions taken by a plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress.

7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had returned with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vested benefits insured by the PBGC (a U.S. government agency) up to the applicable limitations (discussed subsequently).
4. All other vested benefits (not insured by the PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

8. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' highest average compensation during any consecutive 60-months period of credited service or based on years of service, as defined by the Plan. The accumulated plan benefits for active employees are based on their average compensation and years of service as of the date the Plan was frozen. Benefits payable under all circumstances, (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the freeze date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits as determined by the actuary is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants before the Plan was frozen to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for events such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made using the beginning of year method. The significant actuarial assumptions used in the valuation as of December 31, 2020 were (a) life expectancy of participants (the Pri-2012 Amount-Weighted Total Dataset Mortality Tables with generational projection using Scale MP-2021), (b) retirement age assumptions (the assumed average retirement age for the Plan ranged from age 55 to 65, as defined by the Plan for specific employees), (c) long-term expected rate of return on investments (5.75 percent), and (d) expenses (which were assumed to be \$1,100,000 per year).

A summary of the most recent actuarial present value of accumulated plan benefits is shown below:

<i>December 31,</i>	<i>2020</i>
Vested benefits:	
Participants currently receiving benefits	\$ 135,731,279
Other participants	22,503,588
Total vested benefits	158,234,867
Nonvested benefits	154,020
Total actuarial present value of accumulated plan benefits	\$ 158,388,887

Colfax Corporation Consolidated Retirement Plan

Notes to Financial Statements

The change in the actuarial present value of accumulated plan benefits is as follows:

Actuarial present value of accumulated plan benefits, December 31, 2019	\$ 158,750,128
Net decrease in actuarial present value of accumulated plan benefits attributed to:	
Increase for interest due to reduction in discount period	9,449,813
Benefits paid to participants	(15,105,783)
Actuarial gains and benefits accumulated	(966,553)
Change of assumptions ⁽¹⁾	6,261,282
Net decrease	(361,241)
Total actuarial present value of accumulated plan benefits, December 31, 2020	\$ 158,388,887

⁽¹⁾ The changes in assumptions since the prior valuation include an update from the mortality improvement scale MP-2020 to the mortality improvement scale MP-2021, decrease of plan expenses from \$1,600,000 to \$1,100,000, and change in long-term expected rate of return on investments from 6.25 percent to 5.75 percent.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2021 and January 1, 2020. Had the valuations been performed as of December 31, there would be no material differences.

9. Related Party and Party-In-Interest Transactions

Certain plan investments are managed by affiliates of The Northern Trust Company and Aetna. The Plan pays fees to these service providers for administrative, trustee, and custodial services which are recorded within administrative expenses on the accompanying statements of changes in net assets available for benefits. The Plan also invests in Employer common stock. See Note 12 for discussion of subsequent events impacting Employer common stock holdings of the Plan. During 2021 and 2020, there were no purchases or sales of the Employer common stock. During 2021 and 2020, the Plan paid for actuarial and audit services. These transactions qualify as exempt party-in-interest transactions.

Notes to Financial Statements

10. Subsequent Events

The Plan has evaluated subsequent events from the date of the statement of net assets available for benefits through October 14, 2022, the date the financial statements were available to be issued. Except as described below, no material subsequent events were identified.

On April 4, 2022 (the "Distribution Date"), the Company completed the separation of its fabrication technology business (the "Separation"), which became an independent publicly traded company, ESAB Corporation ("ESAB"), and began trading under the stock symbol "ESAB" on the New York Stock Exchange. In preparation for the Separation, effective on March 31, 2022, the Plan was amended to transfer sponsorship to the ESAB Group, Inc., a subsidiary of ESAB Corporation, and to change the plan name to The ESAB Group, Inc. Consolidated Retirement Plan. To affect the Separation, Colfax distributed to its stockholders one share of ESAB common stock for every three shares of Colfax common stock held at the close of business on March 22, 2022, with the Company retaining 10% of the shares of ESAB common stock immediately following the Separation. The Company intends to divest its retained stake in ESAB, in a tax-efficient exchange for its outstanding debt no later than 12 months after the Distribution Date. Upon completion of the Separation, Colfax, which retained the Company's specialty medical technology business, changed its name to Enovis Corporation. On April 5, 2022, the Company began trading under the stock symbol "ENOV" on the New York Stock Exchange. Immediately following the Separation, the Company effected a one-for-three reverse stock split of all issued and outstanding shares of Enovis common stock. As a result of these transactions, the Employer stock included in the plan is now the stock of the parent company of the new plan sponsor, ESAB Corporation, and shares of the former plan sponsor, now named Enovis Corporation, continue to be held as investments in the Plan.

Schedule SB Part V - ACTUARIAL ASSUMPTIONS AND METHODS

Funding Discount Rates IRS-Prescribed Three-Segment Rates, for the fourth month prior to the valuation date (September).

	Non-Stabilized	Limited to 25-Year Corridor
Segment 1:	2.22%	4.75%
Segment 2:	3.38%	5.36%
Segment 3:	3.92%	6.11%

The "Limited to 25 Year Corridor" rates are adjusted by the applicable maximum and applicable minimum percentages of the 25-year average segment rates, as set forth in the American Rescue Plan Act of 2021 ('ARPA') for use in Minimum Required Contribution calculations. The IRS Maximum Deductible Limit Calculations use the rates from the "Non-Stabilized" column above.

Effective Interest Rate The Effective Interest Rate (EIR) for the current Plan Year is 5.44%. For the prior Plan Year, the EIR was 5.19%.

The EIR is the single rate of interest which, if used to determine the Funding Target, would result in the same Funding Target determined using the Plan Sponsor's above-elected discount rates. The EIR is used to discount contributions for minimum funding requirements and to accumulate excess contributions to the end of the year.

Funding Expected Return on Assets The Expected Return on Assets (EROA) used in the calculation of the Actuarial Value of Assets is the lesser of (a) or (b), below:

(a) The expected long-term rate of return on assets based on policy trust allocations; or

(b) The third segment rate in the IRS-prescribed three-segment rate assumption, based on the elections made by the Plan Sponsor for minimum funding purposes.

The results are as follows:

Plan Year	Assumption (a)	Seg. III (b)	EROA (smaller of (a) or (b))
2020	6.25%	5.94%	5.94%
2019	6.25%	6.11%	6.11%

Funding Administrative Expenses Administrative expenses of \$1,100,000 were estimated to be paid from the trust in the current Plan Year and were included in the Normal Cost.

**Changes in funding
assumptions since the
prior valuation**

In accordance with federal law, the discount rates for funding and PBGC purposes were updated from the discount rates disclosed in the 2020 Actuarial Valuation Report to the discount rates shown above.

The funding mortality table was changed from the IRS 2020 Static Mortality Table to the IRS 2021 Static Mortality Table.

The administrative expense assumption was changed from \$1,600,000 to \$1,100,000 to reflect expected expenses paid from the trust during the current Plan Year.

Actuarial Cost Method

The Pension Protection Act (PPA) requires the calculation of the Target Liability and Target Normal Cost. The Target Liability represents the present value of benefits accumulated as of the valuation date. The present value is calculated by projecting future payments of the accrued benefit, adjusting for probability of receipt according to demographic assumptions, and discounting the payments back to the valuation date using the segment interest rates. Payments expected within five years of the valuation date are discounted using the first segment rate, payments expected at least five but within 20 years of the valuation date are discounted using the second segment rate, and payments expected at least 20 years from the valuation date are discounted using the third segment rate. The calculation of the Target Normal Cost is identical, except that the future payment stream is based on the benefit expected to accrue during the plan year.

Funding Actuarial Value of Assets Method

The Actuarial Value of Assets is determined by averaging three market values: the market values as of the current year valuation date, and the two market values at each of the prior two years' valuation dates. The two prior year market values are adjusted for any benefit payments, expenses, contributions, and expected returns that occurred between their respective valuation dates and the current year valuation date. The Actuarial Value of Assets is adjusted to be no greater than 110% and no less than 90% of the market value of assets as of the current year valuation date.

Accrued contributions are discounted back to the valuation date at the prior year's effective interest rate.

Changes in methods since the prior valuation

None.

Participation	Immediate on date of hire. New employees are not eligible to participate.
Credited Service	Elapsed time between hire date at The ESAB Group, Inc. (or at Union Carbide, if appropriate) and date of severance.
Retirement Dates	Unreduced pension for participants hired before September 1, 1987: Age 65; Age 62 with ten years of Credited Service; Age 60 with 30 years of Credited Service; Age plus Credited Service equals 85 or more. Unreduced pension for participants hired on or after September 1, 1987: Age 65. Reduced pension: Age 50 with ten years of Credited Service. Reduction based on factor in plan document.
Average Monthly Earnings	Average of straight-time monthly earnings (including shift differential) over the five calendar years out of the last ten that produce the highest average.
Benefit Formulas	Benefit equals greater amount produced by following two formulas, offset by any benefits payable from the Union Carbide Retirement Plan.

Minimum Formula:

\$5 times first ten years of Credited Service

plus

\$7 times next ten years of Credited Service

plus

\$9 times Credited Service greater than 20

plus

10% of Average Monthly Earnings (reduced if Credited Service less than 8)

plus

\$12

Regular Formula:

1.5% of Average Monthly Earnings for each year of Credited Service

minus

1.5% of Primary Social Security for each year of Credited Service (not to exceed 33-1/3 years)

In no event will the benefit be less than that accrued under the prior plan provisions as of December 31, 1985.

Disability**Eligibility**

Active hourly participants who become disabled after ten years of Credited Service receive benefits after a 26-week waiting period.

Benefit

The benefit is the higher of the amount determined under the regular formula and the minimum formula (the former being used only if a Social Security disability benefit is awarded). Minimum benefit payable is \$2.50 per month for each year of Credited Service, plus \$50 a month until social security benefits are payable.

At age 65, the disability benefit ceases and a Normal Retirement Benefit is calculated under the plan using the Credited Service and average monthly earnings used to calculate above Disability Benefit.

Death**Benefit**

The spouse of a participant who dies after five years of Credited Service will receive 50% of the benefit the participant would have received at the date of death. If there is no spouse, dependent children then dependent parents share equally.

If a terminated vested or disabled participant dies, the spouse receives a reduced benefit commencing when the participant would have been age 50. If there is no spouse, then no benefit is payable.

Vested Retirement Pension**Eligibility**

Participants who terminate employment after completing five years of Credited Service are vested and therefore eligible for benefits commencing, on a reduced basis, as early as age 50.

Benefit

The benefit is determined under the formulas assuming continued employment until age 65 at the same earnings rate, the result multiplied by a fraction: years of Credited Service at termination divided by years of Credited Service at age 65. The benefit is determined under the minimum formula assuming service and earnings credited to date. The percentage of average monthly earnings is reduced by one percent for each year that Credited Service is less than ten years.

Optional Forms of Payment

Life annuity; Qualified Joint & Survivor; Level income.
