REPORT OF INDEPENDENT AUDITORS

PLAN ADMINISTRATOR

Thomas Steel Strip Corporation Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the accompanying financial statements of Thomas Steel Strip Corporation Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Thomas Steel Strip Corporation Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Thomas Steel Strip Corporation Pension Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Thomas Steel Strip Corporation Pension Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Thomas Steel Strip Corporation Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Thomas Steel Strip Corporation Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) and reportable transactions as of December 31, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of Thomas Steel Strip Corporation Pension Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 14, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Thomas Steel Strip Corporation Pension Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2021 and 2020

NOTE A – DESCRIPTION OF PLAN

The following description of Thomas Steel Strip Corporation Pension Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions. Effective January 1, 2019, the Plan was amended to enable participants to freeze their vested benefit in the Plan in order to (1) receive a lump sum payment via payroll or (2) receive employer contributions in the Thomas Steel Strip Corporation 401(k) Plan. Open enrollment for this election occurred between August and September 2019, therefore this amendment has no effect on the actuarial present value of accumulated plan earnings as of January 1, 2019.

General

The Plan is a defined benefit pension plan covering substantially all hourly employees of Thomas Steel Strip Corporation (the “Company”). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

An employee becomes eligible on the first day of the month coincident with or next following the date on which the employee attains age 21 and completes one year of service. There are specifications for participation after re-employment as documented in the Plan document.

A participant who has at least five un-cancellable years of service shall have a non-forfeitable right to receive retirement income. Upon attaining the normal retirement date, a participant is eligible to retire and receive payment of retirement income. There are also situations where employees are eligible for partial retirement. A retired employee is entitled to regular retirement income and a special payment as described and as calculated in accordance with the Plan document. After December 22, 2008, no new participants may enter the Plan.

Contributions

Costs of benefits are determined annually by an actuarial consultant and related contributions are funded currently by the Company utilizing the unit credit actuarial cost method. The funding target is the present value of accrued benefits and based on compensation and service to date. The target normal cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected expenses to be paid from plan assets during the year.

The Plan met the minimum funding requirements of ERISA for the 2021 plan year.

Plan Termination

The Plan can be terminated by the Company in certain limited situations. If the Plan is terminated, the net assets of the Plan will be distributed to the participants in an order of priority determined in accordance with ERISA and its applicable regulations, and with the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested, normal-age retirement benefits, early retirement benefits and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination, subject to a statutory ceiling on the amount of the individual’s monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide these benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and accumulated plan benefits at the date of the financial statements and the reported amounts of changes in net assets and accumulated plan benefits during the reporting period. Actual results could differ from these estimates.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and (losses) on investments bought and sold as well as held during the year.

Benefits

Benefits are recorded when paid.

Actuarial Present Value of Accumulated Plan Benefits

The significant actuarial assumptions used in the January 1, 2021 valuations were as follows: (a) the life expectancy of participants was determined using mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1 as amended in IRS Notice 2019-67, applied on a static basis. For ASC 960, the Pri-2012 Blue Collar Employee and Retiree Mortality Tables (base year 2012) projected with Mortality Improvement Scale MP-2020 was used; (b) the retirement age used for the valuations was age 65 and completion of 5 years of service, or the employee's present age; (c) the interest basis for computing funding liabilities was the segment rates with a four month lookback: 3.32% for the first segment rate, 4.79% for the second segment rate, 5.47% for the third segment rate, and an effective interest rate of 4.86%; (d) the ASC 960 interest rate was 6.50% per annum.

The significant actuarial assumptions used in the January 1, 2020 valuations were as follows: (a) the life expectancy of participants was determined using mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1 as amended in IRS Notice 2019-26, applied on a static basis. For ASC 960, the Pri-2012 Blue Collar Employee and Retiree Mortality Tables (base year 2012) projected with Mortality Improvement Scale MP-2019 was used; (b) the retirement age used for the valuations was age 65 and completion of 5 years of service, or the employee's present age; (c) the interest basis for computing funding liabilities was the segment rates with a four month lookback: 3.64% for the first segment rate, 5.21% for the second segment rate, 5.94% for the third segment rate, and an effective interest rate of 5.29%; (d) the ASC 960 interest rate was 6.50% per annum.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Administrative Expenses

Expenses incurred in connection with investment transactions are paid for by the Plan. Professional and administrative fees and other expenses of the Plan are paid by the Plan. Personnel and facilities of the Company are used by the Plan for its accounting and other activities at no charge to the Plan. The audit fee is paid by the Company. The Company, at any time, may elect to have all such expenses paid by the Plan. Expenses paid by the Plan amounted to \$179,687 and \$108,086 for the years ended December 31, 2021 and 2020, respectively.

NOTE C – INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2021 and 2020 and net change in investment income and expenses for the years ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Plan's trustee, Comerica Bank.

NOTE D – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits of the Plan consists of the following:

	January 1,	
	2021	2020
Vested benefits:		
Participants currently receiving benefits	\$53,474,459	\$56,081,626
Other vested benefits	15,745,374	15,026,078
Nonvested benefits	605,884	609,333
Total actuarial present value of accumulated plan benefits	<u>\$69,825,717</u>	<u>\$71,717,037</u>

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the services employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on their average monthly earnings during the 60 consecutive highest earning months out of the last 120 months before retirement ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of the accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

NOTE D – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS
(continued)

The change in the actuarial present value of the accumulated plan benefits consisted of the following:

	January 1,	
	2021	2020
Actuarial present value of accumulated plan benefits at beginning of year	\$71,717,037	\$72,413,745
Change in actuarial assumptions	(356,695)	(391,196)
Benefits accumulated and other plan experience	10,551	2,058,947
Increase for interest due to the decrease in the discount period	4,469,217	4,500,864
Benefits paid	(6,014,393)	(6,440,752)
Actuarial present value of accumulated plan benefits at end of year	\$69,825,717	\$71,717,037

NOTE E – FAIR VALUE MEASUREMENTS

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 fair value inputs are based on inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly. Observable inputs include quoted market prices in active markets for similar assets, quoted prices in markets that are not active for identical or similar assets and other market observable inputs such as interest rate, credit spread and foreign currency exchange rates observable in the marketplace or derived from market transactions.

Level 3 fair values are based on at least one significant unobservable input for the asset. Level 3 securities contain unobservable market inputs and as a result considerable judgment may be used in determining the fair values.

Certain investments are measured at fair value using the net asset value (NAV) per share, or its equivalent, as a practical expedient. These investments include commingled funds which may include money market funds, common collective trusts and pooled separate accounts which are typically valued using the NAV provided by the administrator of the fund. The Plan assets include an investment contract, money market funds, and limited liability companies. In accordance with accounting guidance, these investments have not been classified in the fair value hierarchy.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Money market funds: As a practical expedient, valued at the NAV of shares held by the Plan at year end.

Mutual fund: Valued at quoted market prices on the last business day of the Plan year.

Thomas Steel Strip Corporation Pension Plan
NOTES TO FINANCIAL STATEMENTS

December 31, 2021 and 2020

NOTE E – FAIR VALUE MEASUREMENTS (continued)

Investment contract: As a practical expedient, the guaranteed interest accounts are reported at NAV as determined by Principal Life. The accounts' fair value is the amount that would be received currently if funds were withdrawn from the Plan prior to their maturity for an event other than death, disability, termination, or retirement. This fair value presents guaranteed interest account valued adjusted to reflect current market interest rates only to the extent such market rates exceed contract crediting rates. This value represents contributions allocated to the guaranteed interest accounts, plus interest at the contractually guaranteed rate, less funds used to pay plan benefits and the insurance company's administrative fees.

Investment contracts issued by Principal are backed by a general account. Due to the nature of these contracts, they do not have specific underlying assets assigned. The guaranteed interest accounts cannot be sold to a third party, thus, the only option to exit the guaranteed interest accounts is to withdraw the funds prior to maturity. The fair value of the account is the value paid when funds are withdrawn prior to their maturity.

If the applicable interest rate is greater than the interest rate on the account, the fair value is the contract value reduced by a percentage. This percentage is equal to the difference between the applicable interest rate and the interest rate on the account, multiplied by the number of years (including fractional parts of a year) until the maturity date.

Limited liability companies: Units held in limited liability companies ("LLCs") are valued using the NAV of the shares held at year end, as a practical expedient. The NAV is based on the fair value of the underlying assets owned by the LLC, minus its liabilities, and then divided by the number of units outstanding.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020.

Assets Measured at Fair Value at December 31, 2021 on a Recurring Basis

Fair Value of Investments in Entities that Use Net Asset Value (NAV)

The estimated fair value of the investment contract, LLCs and money market funds is net asset value. The use of net asset value as fair value is deemed appropriate as these investments do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions.

Limited Liability Companies

Summit Domestic Equity Series, Summit Global Equities Series, and Summit Fixed Income Series: Securities in the Domestic Equities Series are equity positions in domestic corporations traded on any national exchange or NASDAQ. Investments in common stock, listed limited partnerships, preferred stock, ETFs, ETNs, securities convertible into common or preferred stock, bonds, American Depositary Receipts (ADR's), debentures and warrants are allowed. This series is also permitted to invest in mutual funds and other commingled investment vehicles that invest in the types of domestic securities identified above.

Securities in the Global Equities Series are equity positions in both US and non-U.S.-based corporations traded on any global exchange. Investments in common stock, listed limited partnerships, preferred stock, ETFs, ETNs, securities convertible into common or preferred stock, bonds, ADR's, debentures and warrants are allowed. Additionally, investment in Global Depositary Receipts (GDR's) and European Depositary Receipts (EDR's) are allowed. This series is also permitted to invest in mutual funds and other commingled investment vehicles that invest in the types of global securities identified above. The decision to hedge the currency exposure (inherent in international investments) is at the discretion of the underlying investment managers.

The principal purpose of the Fixed Income Series is to provide relative protection of principal and a predictable source of income. Additionally, this series may invest in "extended" sectors of the fixed income market (high yield, non-dollar, and convertible securities). Each underlying manager will be responsible for investing in securities specific to the manager's mandate. This series is also permitted to invest in commingled investment vehicles that invest in types of fixed income securities identified above.

Securities owned which are listed on a national securities exchange or quoted in the over-the-counter market, are valued at their last sales price on the day of determination. In the absence of readily determinable fair values, fair values of commingled funds have been estimated by management based on information provided by the portfolio managers or general partner which includes audited financial statements.

A member may withdraw all or part of such member's interest in any series effective as of the fifteenth or the last day of each month by giving irrevocable written notice to the manager (i) at least five business days prior to the effective date of the withdrawal in the case of a withdrawal of not more than ten percent of the capital account of such member with respect of such series, and (ii) at least thirty-five days prior to the effective date of the withdrawal in the case of a withdrawal of more than ten percent of the capital account of such member with respect to such series.

NOTE F – TAX STATUS

The Plan obtained its latest determination letter dated August 1, 2017, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan is subject to routine audits by taxing jurisdictions. The Plan administrator believes that the Plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code.

NOTE G – RELATED PARTY & PARTY-IN-INTEREST TRANSACTIONS

Certain parties provide services or have fiduciary responsibilities to the Plan, including the Plan Sponsor. These services are parties-in-interest transactions. The Plan also invested in certain limited liability companies and mutual funds which are owned and managed by the third party administrator. These transactions also qualify as party-in-interest transactions.

NOTE H – RISKS AND UNCERTAINTIES

The Plan provides various investment options which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I – SUBSEQUENT EVENTS

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 14, 2022, which is the date the financial statements were available to be issued.

Thomas Steel Strip Corporation Pension Plan

EIN/PN: 13-2799255 / 001

Schedule SB, Part V – Summary of Plan Provisions

Effective Date

July 31, 1980.

Eligibility

Any individual who is covered by the Basic Agreement and has attained age 21 and completed one year of service. New employees are not eligible for participation.

Years of Service (Vesting Service)

A period of 12 consecutive months during which an employee completes not less than 1,000 hours of service. In general, an employee's years of service shall be determined with respect to the 12 consecutive month period beginning on the employee's employment commencement date and each anniversary thereof.

Credited Service

All years of service (calculated to the nearest month) in which an employee completed 1,000 hours of service. Service during a period of layoff is included if the participant returns to service within two years of the initial layoff date.

Final Average Monthly Earnings

The monthly average of earnings paid during highest 5 years of service out of the last 10 years of service. Under the terms of the contract, participants who retire by July 31, 2007 use the highest 5 years of earnings out of all years back to 1993.

Accrued Benefit

The monthly accrued benefit is equal to the greatest of:

- 1) 1.175% of Final Average Monthly Earnings for each year of service up to 30 years plus 1.25% of Final Average Monthly Earnings for years and months of service in excess of 30 years.
- 2) For participants with 10 or more Years of Service:
\$50.00 times Credited Service
- 3) The Lifetime Minimum Benefit for employees retiring with at least 30 Years of Service is \$1,600.

Effective July 31, 1977, the accrued normal retirement benefit under 1) above is increased by 5% for those active participants who retire on or after July 31, 1977. The 5% increase does not apply to any benefits payable under the Surviving Spouse Benefit provision described below.

Benefits were frozen effective 9/30/2019 for participants who elected to freeze benefits in exchange for increased 401(k) benefits.

Special Payment

A lump sum payment in an amount equal to 13 weeks of vacation pay including cost-of-living adjustment reduced by the amount of vacation pay received for the year, payable the first full month after retirement or application for retirement and representing the first 3 months of pension payments. In the case of an employee who has over 25 years of service, an amount equal to 14 weeks of vacation pay reduced by vacation taken would be calculated.

EIN/PN: 13-2799255 / 001

Schedule SB, Part V – Summary of Plan Provisions (continued)

30-Year Retirement

Eligibility is 30 Years of Service. Monthly benefit is equal to the Special Payment followed by the Accrued Benefit payable immediately.

62-15 Retirement

Eligibility is age 62 and 15 Years of Service. Monthly benefit is equal to the Special Payment followed by the Accrued Benefit payable immediately.

60-15 Retirement

Eligibility is age 60 and 15 Years of Service. Monthly benefit is equal to Special Payment followed by the Accrued Benefit deferred to age 62 or payable immediately and multiplied by the following factors:

Age at Start of Pension	Percentage
60	83.82%
61	91.45%

Permanent incapacity retirement

Eligibility is permanent incapacity after 15 Years of Service. Monthly benefit is payable upon proof of continuous disability and is equal to Accrued Benefit. A \$400 monthly supplement is payable until age 62, provided the participant is not entitled to a Public Pension.

70/80 Retirement

Eligibility is termination due to layoff, permanent shutdown, or physical disability for participants with 15 Years of Service (i) having attained age 55 or (ii) whose combined age and Years of Service equal 80 or more. Monthly benefit is equal to the Special Payment followed by the Accrued Benefit. A \$400 monthly supplement is payable until age 62, provided participant is not entitled to a Public Pension.

Rule-of-65 Retirement

Eligibility is termination due to layoff or physical disability prior to age 55 with 20 Years of Service and the sum of age and service is greater than 65, but less than 80. Monthly benefit is equal to the Special Payment plus the Accrued Benefit payable immediately. A \$400 monthly supplement is payable until age 62, provided the participant is not entitled to a Public Pension.

Thomas Steel Strip Corporation Pension Plan

EIN/PN: 13-2799255 / 001

Schedule SB, Part V – Summary of Plan Provisions (continued)

Deferred Vested Benefit

Eligibility is 5 Years of Service. Monthly benefit is a deferred pension equal to the Accrued Benefit payable at age 65. If an employee has attained age 40 and 15 Years of Service at termination, benefit is payable unreduced at age 62. Employee may elect to receive a benefit commencing at age 60 equal to the normal retirement benefit reduced by the following factors:

Age at Start of Pension	Not Age 40 and 15 Years of Service at Termination	Age 40 and 15 Years of Service at Termination
	Percentage	Percentage
60	63.10%	83.82%
61	68.85%	91.45%
62	75.28%	100.00%
63	82.53%	100.00%
64	90.72%	100.00%

Surviving Spouse's Benefit

Death in active service after completing 15 Years of Service or death after retirement on other than a deferred vested pension entitles the surviving spouse to a benefit. The monthly benefit is equal to the greater of \$140 per month or 50% of the Accrued Benefit (without reduction for early retirement) payable until the spouse becomes eligible for a Social Security Benefit. After the spouse becomes eligible for a Social Security Benefit, the greater of \$90 or 50% of the Accrued Benefit (without reduction for early retirement) less 50% of the surviving spouse's Social Security Benefit based on the law in effect at date of death.

Pre-Pension Spouse Coverage

Eligibility is for participants who attained (i) age 55 with 15 Years of Service, or (ii) age 60 with 10 Years of Service, while accruing service. Monthly benefit is 50% of the Accrued Benefit, reduced by the applicable 50% joint and survivor annuity factor, and further reduced by .7% for each year coverage is in effect.

Pre-Retirement Surviving Annuity Coverage

Eligibility is (i) death in active service after 5 Years of Service, or (ii) death of a terminated vested participant before benefit payments begin. Monthly benefit is 50% of the Accrued Benefit, reduced by the applicable 50% joint and survivor factor and reduced for early retirement, if applicable. Payments commence at the earliest date the participant would have been eligible to retire.

Normal Form of Benefit

For a single participant, the normal form of benefit is a life annuity. For married participants, the normal form of benefit is a 50% joint and survivorship annuity.

Optional Forms of Benefit

1. 50% Co-Pensioner Option
2. 100% Co-Pensioner Option

Contributions

All contributions to support the Plan are made by the Company.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Prescribed Funding/PBGC Assumptions and Methods

The following assumptions and methods are prescribed by ERISA, as currently amended.

Funding and PBGC premium interest rates

For 2021 Plan Year: Segment Rates with four-month lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	2.22%	3.32%
Second Segment Rate	3.38%	4.79%
Third Segment Rate	3.92%	5.47%
Effective Interest Rate	3.48%	4.86%

For 2020 Plan Year: Segment Rates with four-month lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	2.79%	3.64%
Second Segment Rate	3.92%	5.21%
Third Segment Rate	4.38%	5.94%
Effective Interest Rate	3.99%	5.29%

* Used for maximum tax-deduction, ERISA Section 4010 reporting, and PBGC premium purposes.

** Used for minimum funding and benefit restriction purposes. The plan sponsor elected to adopt the new stabilized segment rates in ARP for plan year 2022.

Mortality

Mortality tables mandated by current legislation as specified in IRS Regulation 1.430(h)(3)-1, as amended in IRS Notice 2019-67, applied on a static basis.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan administrative expenses to be paid from plan assets during the year.

Thomas Steel Strip Corporation Pension Plan

EIN/PN: 13-2799255 / 001

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor and is an acceptable method under the applicable provisions of the Internal Revenue Code and associated regulations. The plan's experience is too small to form the basis of reliable assumptions for retirement rates, disability rates, and withdrawal rates; however, these assumptions remain appropriate given historic gain and loss experience of the plan.

Salary increase assumption

Salaries are assumed to increase at the rate of 2.0% per year based on prior and anticipated compensation practice of the plan sponsor.

Expenses

Expected plan related expenses of \$108,000 were included in the 2021 Target Normal Cost. Expected plan related expenses of \$152,000 were included in the 2020 Target Normal Cost. Expected plan related expenses are equal to prior year actual plan related expenses, rounded to the nearest \$1,000.

Frequency of optional payment forms

In accordance with actual experience, all participants are assumed to elect a single life annuity.

Marital percentage

70% of participants are assumed to be married. Husbands are assumed to be 4 years older than their wives.

Loading or Contingency Reserves

None.

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the gain/(loss) in the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

The actuary's expected rate of return is based on the plan's asset allocation and forward-looking expected rates of return by asset category provided by the plan's investment consultant.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2021 Expected Return	6.50%	5.47%	5.47%
2020 Expected Return	6.50%	5.94%	5.94%
2019 Expected Return	6.50%	6.11%	6.11%

Future Actuarial Measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the actuarial assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Non-Prescribed Funding Assumptions and Methods (continued)

Use of Models

Actuarial Standard of Practice No. 56 ("ASOP 56") provides guidance to actuaries when performing actuarial services with respect to designing, developing, selecting, modifying, using, reviewing, or evaluating models. Buck uses third-party software in the performance of annual actuarial valuations and projections. The model is intended to calculate the liabilities associated with the provisions of the plan using data and assumptions as of the measurement date under the funding rules specified in this report. Further, the model applies those funding rules to the liabilities derived and other inputs, such as plan assets and contributions, to generate this report. Buck has an extensive review process whereby the results of the liability calculations are checked using detailed sample output, changes from year to year are summarized by source, and significant deviations from expectations are investigated. Other funding outputs are similarly reviewed in detail and at a high level for accuracy, reasonability and consistency with prior results. Buck also reviews the model when significant changes are made to the software. The review is performed by experts within the company who are familiar with applicable funding rules as well as the manner in which the model generates its output.

Summary of Changes from the January 1, 2020 Valuation

- The funding interest rates were updated for the current year as required by PPA and HATFA. This change increased the Funding Target by approximately \$4,617,000. The plan sponsor elected to adopt the new stabilized segment rates in ARP for plan year 2022.
- The funding mortality tables were updated for the current year in accordance with the requirements of the Internal Revenue Code and associated regulations. This change decreased the Funding Target by approximately \$131,000.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
