Report of Independent Auditors

The Participants and Administrator
PBI-Gordon Companies, Inc. 401(k) Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of PBI-Gordon Companies, Inc. 401(k) Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2021, and for the year then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matters

Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at year end) as of December 31, 2021 and delinquent participant contributions for the year then ended (referred to as the “supplemental schedules”), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the financial statements of the Plan as of and for the year ended December 31, 2020. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the investment information certified by a qualified institution. In our report dated October 15, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on those financial statements, and (b) the form and content of the information included in those financial statements other than that derived from the certified investment information, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

December 31, 2021 and 2020

1. Description of the Plan

The following description of the PBI-Gordon Companies, Inc. 401(k) Retirement Savings Plan (the Plan) provides only general information. Effective November 1, 2020, the Plan was amended to change the name of the Plan from PBI/Gordon Corporation 401(k) Retirement Savings Plan to PBI-Gordon Companies, Inc. 401(k) Retirement Savings Plan. PBI-Gordon Companies, Inc. is the plan sponsor. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the PBI-Gordon Companies, Inc. (the Company) who have reached the age of 18. Eligible participants are automatically enrolled in the Plan once they have attained 18 years of age, unless they affirmatively decline to participate. Employees are eligible to participate in the Plan on the first day of the month following thirty days of employment and, once eligible, an employee may enroll at the beginning of each month thereafter. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Participants may elect to contribute up to 75% of their annual compensation in pretax dollars, subject to a maximum limitation, which is adjusted annually for cost-of-living increases or decreases. The Company may make a discretionary matching contribution. During 2021 and 2020, the discretionary contribution matched 100% of the participant's contribution up to a maximum of the first 3% of the participant's annual compensation.

The Plan has an automatic enrollment feature, so that every new employee is deemed to have elected to contribute a percentage of compensation. The employee's initial automatic enrollment is 2%. Additionally, each January 1 of the employee's participation, the contribution percentage will increase by 1%, up to a maximum of 4%. This deemed election will remain in effect until such time as the participant elects to change the percent of compensation deferred to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions, the appropriate matching contribution by the Company, and an allocation of the Plan's earnings or losses, if any. Earnings and losses related to specific investment securities are allocated daily based on participant account balances.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1 year to 5 years or up to 15 years for the purchase of a primary residence or other reasons specified by the Plan. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through payroll deductions. The interest rate on loans to participants was the prime rate plus 2% during 2021 and 2020 (5.25% at December 31, 2021 and December 31, 2020, respectively).

Vesting

Participants are immediately vested in their contributions and earnings. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is based on years of service, with a participant becoming 33% vested after one year of service, increasing 33% for each additional year through the third year, at which time the participant is fully vested.

Vesting under the Plan is based on the graded method. Hours under this method are not counted, but rather, periods of service are computed. A period of service starts with the employment date and generally ends with termination. Only whole years of service will be counted to compute years of service for vesting purposes. Non-vested balances at termination are retained by the Plan and used to pay administrative expenses or reduce future employer contributions. At December 31, 2021 and 2020, there were no remaining unallocated forfeitures available for future use. Forfeitures used to reduce Company contributions for 2021 and 2020 were \$17,818 and \$16,852, respectively.

Payment of Benefits

On termination of service, the participant will receive a lump-sum amount equal to the vested value of the account if his or her account balance is less than \$1,000. For accounts valued at or greater than \$1,000, the participant has several options for distribution of benefits. If a participant receives a distribution before attaining age 59-1/2, the participant may be subject to a federal tax penalty.

(formerly PBI/Gordon Corporation 401(k) Retirement Savings Plan)

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance, plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 or 2020. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management of the Plan to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

(formerly PBI/Gordon Corporation 401(k) Retirement Savings Plan)

Notes to Financial Statements (continued)

2. Summary of Accounting Policies (continued)

Expenses of the Plan

Expenses that may arise in connection with the administration of the Plan are paid by the Plan or the Company, as provided by the Plan's provisions. Forfeitures may be used to pay administrative expenses, and those not used to pay expenses may be used to reduce future employer contributions.

Investment Valuation

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). In accordance with Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, assets and liabilities measured at fair value are categorized into a fair value hierarchy, as described in Note 5.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Risks and Uncertainties

The Plan allows participants to invest in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

PBI-Gordon Companies, Inc. 401(k) Retirement Savings Plan
(formerly PBI/Gordon Corporation 401(k) Retirement Savings Plan)

Notes to Financial Statements (continued)

2. Summary of Accounting Policies (continued)

New Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2018-13, *Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement*, which eliminates, adds and modifies certain disclosure requirements for fair value measurements. Adoption of the amended guidance, which is to be applied prospectively, affects the fair value disclosures, but does not change the fair value measurement of the investments. The Plan adopted ASU 2018-13 for the year ended December 31, 2020. In connection with the adoption, the Plan has prospectively eliminated or modified certain disclosures that were previously required.

3. Investments

Other than notes receivable from participants and interest income on notes receivable from participants, certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2021 and 2020, and the net appreciation in fair value of investments, interest, and dividends for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Principal Life Insurance Company, Principal Global Investors Trust Company and Principal Trust Company (collectively, Principal), the trustee.

Guaranteed Interest Accounts

The unallocated investment options consist of guaranteed interest accounts under a guaranteed benefit policy. These unallocated investment options are non-benefit-responsive and are valued at fair value. The guaranteed interest accounts' fair value is the amount plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination, or retirement. This fair value represents guaranteed interest account values adjusted to reflect current market interest rates only to the extent such market rates exceed contract crediting rates. This value represents contributions allocated to the guaranteed interest accounts, plus interest at the contractually guaranteed rate, less funds used to pay plan benefits and the insurance company's administrative expenses.

PBI-Gordon Companies, Inc. 401(k) Retirement Savings Plan
(formerly PBI/Gordon Corporation 401(k) Retirement Savings Plan)

Notes to Financial Statements (continued)

3. Investments (continued)

The interest rates on the guaranteed interest accounts, which mature through 2022, were established for each participant based on when the participant's specific investments were made and ranged from 1.09% to 1.38% during 2021 and 1.06% to 1.58% during 2020. The provisions of the guaranteed interest accounts provide for penalties upon early termination or withdrawal of funds prior to maturity. Accordingly, these accounts are not considered fully benefit-responsive.

4. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS), dated September 8, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

5. Fair Value Measurements

ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three levels, as described below:

- Level 1 – Quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.
- Level 2 – Quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly.

PBI-Gordon Companies, Inc. 401(k) Retirement Savings Plan
(formerly PBI/Gordon Corporation 401(k) Retirement Savings Plan)

Notes to Financial Statements (continued)

5. Fair Value Measurements (continued)

- Level 3 – Unobservable inputs that reflect management’s judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

Transfers between fair value hierarchy levels are recognized at the beginning of the reporting period.

The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level of input that is significant to the fair value measurement in its entirety. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation techniques and inputs used for each general type of investment measured at fair value.

Pooled separate accounts and collective investment trusts: Valued at the net asset value (NAV) provided by the issuer on the last business day of the plan year.

Guaranteed interest accounts: The guaranteed interest accounts cannot be sold to a third party; thus, the only option to exit the guaranteed interest account is to withdraw the funds prior to maturity. The fair value of the account is the value paid when funds are withdrawn prior to their maturity. The fair value of the guaranteed interest accounts is reflected in Level 3, and the valuation is based on the applicable interest rate. If the applicable interest rate is greater than the interest rate on the account, the fair value is the contract value reduced by a percentage. This percentage is equal to the difference between the applicable interest rate and the interest rate on the account, multiplied by the number of years (including fractional parts of a year) until the maturity date. If the applicable interest rate is equal to or less than the interest rate on the account, the fair value is equal to the contract value.

Mutual funds: Valued at quoted market prices, which represent the NAV of shares held by the Plan at year-end.

Cash surrender value of life insurance: Valued at amortized cost, which approximates fair value.

(formerly PBI/Gordon Corporation 401(k) Retirement Savings Plan)

Notes to Financial Statements (continued)

5. Fair Value Measurements (continued)

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present assets that are measured at fair value on a recurring basis (including assets that are required to be measured at fair value and assets for which the fair value option has been elected) at December 31, 2021 and 2020:

5. Fair Value Measurements (continued)

The following tables provide quantitative information about the significant unobservable inputs used for recurring fair value measurements categorized within Level 3:

December 31, 2021

7. Related-Party and Party-In-Interest Transactions

Certain Plan investments are managed by Principal. Principal is the trustee, as defined by the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

8. Subsequent Events

Management evaluated subsequent events for the Plan through October 14, 2022, the date these financial statements were available for issuance.

The Plan was restated effective September 1, 2022. The changes include allowing participants who reach the age of 59.5 to take an in-service withdrawals, the low force-out threshold will be increased from \$1,000 to \$5,000, changes to certain contribution provisions, as well as other administrative changes.
