INDEPENDENT AUDITORS' REPORT

To the Participants and the Retirement Benefit Plan Management Committee of
The Kroger Co. Pension Plan for Employees Represented by Amalgamated Meat Cutters and Butcher
Workmen of North America, AFL-CIO, Local No. 876

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of The Kroger Co. Pension Plan for Employees Represented by Amalgamated Meat Cutters and Butcher Workmen of North America, AFL-CIO, Local No. 876, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, the statement of accumulated plan benefits as of December 31, 2020, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 Financial Statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 Financial Statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2021 Financial Statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of The Kroger Co. Pension Plan for Employees Represented by Amalgamated Meat Cutters and Butcher Workmen of North America, AFL-CIO, Local No. 876 and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Kroger Co. Pension Plan for Employees Represented by Amalgamated Meat Cutters and Butcher Workmen of North America, AFL-CIO, Local No. 876's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Kroger Co. Pension Plan for Employees Represented by Amalgamated Meat Cutters and Butcher Workmen of North America, AFL-CIO, Local No. 876's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Kroger Co. Pension Plan for Employees Represented by Amalgamated Meat Cutters and Butcher Workmen of North America, AFL-CIO, Local No. 876's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of The Kroger Co. Pension Plan for Employees Represented by Amalgamated Meat Cutters and Butcher Workmen of North America, AFL-CIO, Local No. 876. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 12, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. DESCRIPTION OF THE PLAN:

Information about The Kroger Co. Pension Plan for Employees Represented by Amalgamated Meat Cutters and Butcher Workmen of North America, AFL-CIO, Local No. 876 (the Plan) agreement, the vesting and benefit provisions and the Pension Benefit Guaranty Corporation's (PBGC) benefit guarantee is contained in Plan's Summary Plan Description. Copies of this document are available from The Kroger Co.'s (the Company) Total Rewards Department.

Pension Benefits

Benefits are determined based on the original plan in which a participant had participated. Participants should refer to the Plan document for a complete description of the benefit calculation formulas. Plan participants are eligible for their plan benefit after termination of employment with vested rights. Participants become vested in the Plan upon completion of five years of vesting service or attainment of normal retirement age (65). Upon termination of employment, participants have the option of receiving their vested benefit in the form of a lump sum payment or a monthly annuity. Benefits are recorded upon distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following describes the significant accounting policies followed in the preparation of these financial statements. The policies conform to generally accepted accounting principles.

Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions such as interest rates and employee demographics, which are subject to change. Inherent uncertainties in such assumptions in the near term could cause the values of actual accumulated plan benefits to differ materially from the amounts reported herein.

NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020**

Risks and Uncertainties

The Plan invests in various investment securities through a master trust. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that the values of investment securities in the near term could differ from the amounts reported herein.

Organization

The Plan was adopted as of October 1, 1977, to provide pension benefits to participants upon their retirement from the Company. Participants included individuals previously covered under the Amalgamated Meat Cutters and Butcher Workmen's Union and Industry Pension Plan, and employees who became eligible to participate after the adoption date based on completing the required hours of service.

Effective October 1, 1980, members of the Plan rejoined the Amalgamated Meat Cutters and Butcher Workmen's Union and Industry Pension Plan. Benefits under the Plan will be reduced by benefits provided by the Amalgamated Meat Cutters and Butcher Workmen's Union and Industry Plan to employees hired prior to August 10, 1984 for service credited to employees prior to October 1, 1977 and subsequent to October 1, 1980.

Investment Valuation

Plan investments consist of an ownership interest in the securities held in The Kroger Co. Master Retirement Trust (Master Trust) administered by a financial institution. The Plan had a 1.85% ownership interest in the Master Trust at December 31, 2021 and a 1.60% ownership at December 31, 2020. Securities held in the Master Trust (U.S. government securities, corporate bonds and common and preferred stocks) traded on a national securities exchange were valued at the last reported sales price on the last business day of the year; listed securities for which no sale was reported on that date were valued at the last reported bid price. The fair values of alternative investments held in the Master Trust have been determined based on estimates using observable inputs, non-observable inputs, and information provided by the fund managers or general partners of the related investments.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits under the Plan are based on employees' number of pension credit

years earned. The accumulated plan benefits for active employees are based on the number of pension credit years earned on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances -- retirement, death, disability, and termination of employment -- are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial method used in determining normal costs and prior service costs is the Projected Unit Credit Method.

Derivative Financial Instruments

The Master Trust enters into swap contracts to manage market exposure and risk to achieve the investment objectives. These contracts involve elements of market risk in excess of amounts recognized in the statements of net assets available for benefits. The credit risk associated with these contracts is minimal because collateral is exchanged daily and the Master Trust deals only with high caliber counterparties.

During 2021 and 2020, the Master Trust had equity contracts and fixed income contracts. Payments are made or received by the Master Trust monthly, depending on the daily fluctuation in the value of the underlying contracts.

At December 31, 2021 and 2020, the Master Trust had equity futures contracts with notional amounts of approximately (\$111) million and \$35 million, respectively. At December 31, 2021 and 2020, the Master Trust had fixed income futures contracts with notional amounts of approximately (\$128) million and (\$85) million, respectively. Notional amounts do not quantify risk or represent assets or liabilities of the Master Trust, but are used in the calculation of cash settlements under the contracts.

The fair value of futures contracts in the Master Trust is not material at December 31, 2021 and 2020 because settlements are made by cash monthly or quarterly. Collateral is exchanged daily. Collateral held is not reflected in the financials whereas collateral provided is reflected. Changes in fair value are accounted for as net appreciation (depreciation) in fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by

the Plan document. Expenses paid by the Company are excluded from these financial statements.

Other

Purchases and sales of securities are reflected on a trade date basis. Gain or loss on sales of securities is based on average cost. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis.

In accordance with the policy of stating investments at fair value, net unrealized appreciation (depreciation) for the year is reflected in the statement of changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2022, the date the financial statements were available to be issued.

3. FUNDING POLICY:

Funding for the Plan is based upon a review of specific requirements and upon evaluation of the assets and liabilities of the Plan.

The contributions have been designed to fund the Plan's current service costs on a current basis and to fund over forty years the estimated accrued benefit cost arising from qualifying service before the establishment of the Plan. The yield (interest, dividends, and net realized and unrealized gains and losses) on investments of the Plan serves to reduce future contributions that would otherwise be required to provide for the defined level of benefits under the Plan. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements. No contributions were made for the 2021 or 2020 Plan years.

4. TERMINATION PRIORITIES:

While the Company has not expressed any intent to discontinue its contributions, it is free to do so at any time, subject to penalties set forth by ERISA. In the event such discontinuance results in the termination of the Plan, the Plan provides that the net assets of the Plan shall be allocated among the participants and beneficiaries of the Plan in the order provided for in ERISA, and any amounts remaining after said allocation will be returned to the Company. To the extent unfunded vested benefits exist, ERISA provides that such benefits are payable by the PBGC to participants, up to specified limitations, as described in ERISA.

5. ACCUMULATED PLAN BENEFITS:

Consulting actuaries from Mercer estimate the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The more significant assumptions underlying the actuarial computations are:

Interest rate.....5.5%.

Mortality basisPri-2012 mortality table with blue collar adjustment for non-annuitants and the Mercer Industry Specific Consumer Goods & Food and Drink mortality table with blue collar adjustment for annuitants, with generational projection using the Mercer Modified Improvement Scale (MMP-2019).

Retirement:

Normal retirement..... The later of the participant's 65th birthday or the earlier of the fifth anniversary of plan participation or the date the participant earns five years of vesting service.

Early retirement.....Age 55 with five years of vesting service.

Asset valuation method.....Market value of assets.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue.

Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2021. Had the valuation been performed as of December 31, 2021, there would be no material variances.

6. UNAUDITED INFORMATION:

The Plan administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for the Reporting and Disclosure under ERISA. Accordingly, the information with respect to investments and investment transactions at December 31, 2021 and 2020, and for the years then ended, has not been audited by the independent auditors.

The Bank of New York Mellon, the trustee for the Plan as of December 31, 2021 and 2020, holds the Plan's investment assets and executes transactions therein. The financial information relating to the assets is included in the accompanying financial statements and is based on information certified by the trustee. The information certified by the trustee, which has not been audited by independent public auditors, is summarized as follows (in thousands):

	December 31, 2021	December 31, 2020
Investment in Master Trust	<u>\$ 59,571</u>	<u>\$ 58,500</u>

7. INVESTMENTS (Unaudited):

Investments held by the Plan at December 31, 2021 and 2020 and the related income or loss for the years then ended are (in thousands):

	<u>December 31, 2021</u>		<u>December 31, 2020</u>

Interest in the Kroger Co. Master Retirement Trust	\$ 59,571	\$ 3,538	\$ 58,500	\$ 8,801

The income or loss on the investment in the Master Trust is comprised mainly of changes in the fair value of the investments held in the Master Trust. The changes in the net unrealized appreciation (depreciation) represent changes in the difference between cost and fair market value of investments held during 2021 and 2020.

The Master Trust holds assets for trading purposes relating to this plan and four other employee defined benefit plans administered by the Company. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. The investment income and expenses of the Master Trust are allocated to each plan based on the relationship of the Plan's investment balances to the total Master Trust investment balances. At December 31, 2021 and 2020, the Plan's ownership interest in the Master Trust was 1.85% and 1.60%, respectively. 8. FAIR VALUE MEASUREMENTS:

Generally accepted accounting principles provide the framework for measuring fair value, and expand disclosures about fair value measurements. Fair value is the price that would be received to sell an asset or paid to transfer a liability (exit price) regardless of whether an observable liquid market price exists.

Professional standards establish a fair value hierarchy that categorizes the inputs to valuation techniques that are used to measure fair value into three levels:

- Level 1 includes observable inputs which reflect quoted prices for identical assets or liabilities in active markets at the measurement date.
- Level 2 includes observable inputs for assets or liabilities other than quoted prices included in Level 1 and it includes valuation techniques which use prices for similar assets and liabilities.
- Level 3 includes unobservable inputs which reflect the reporting entity's estimates of the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methods used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2021 and 2020.

- Cash and Cash Equivalents: The carrying value approximates fair value.
- Corporate Stocks: The fair values of these securities are based on observable market quotations for identical assets and are valued at the closing price reported on the active market on which the individual securities are traded.
- Corporate Bonds: The fair values of these securities are primarily based on observable market quotations for identical or similar bonds, valued at the closing price reported on the active market on which the individual securities are traded. When such quoted prices are not available, the bonds are valued using a discounted cash flows approach using current yields on similar instruments of issuers with similar credit ratings, including adjustments for certain risks that may not be observable, such as credit and liquidity risks.

NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020**

- U.S. Government Securities: Certain U.S. government securities are valued at the closing price reported in the active market in which the security is traded. Other U.S. government securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar securities, the security is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.
- Mutual Funds/Collective Trusts/Comingled Funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held are deemed to be actively traded. The collective trust/comingled funds are public investment vehicles valued using a NAV as a practical expedient provided by the manager of each fund. The NAV is based on the underlying net assets owned by the fund, divided by the number of shares outstanding. The NAV's unit price is quoted on a private market that is not active. However, the NAV is based on the fair value of the underlying securities within the fund, which are traded on an active market, and valued at the closing price reported on the active market on which those individual securities are traded. The significant investment strategies of the funds are described in the financial statements provided by each fund. There are no restrictions on redemptions from these funds.
- Hedge Funds: Hedge funds are private investment vehicles valued using a NAV provided by the manager of each fund. The NAV is based on the underlying net assets owned by the fund, divided by the number of shares outstanding. The NAV's unit price is quoted on a private market that is not active. The NAV is based on the fair value of the underlying securities within the fund, which are typically traded on an active market, and valued at the closing price reported on the active market on which those individual securities are traded. For investments not traded on an active market, or for which a quoted price is not publicly available, a variety of unobservable valuation methodologies, including discounted cash flow, market multiple and cost valuation approaches, are employed by the fund manager to value investments. Fair values of all investments are adjusted annually, if necessary, based on audits of the hedge fund financial statements; such adjustments are reflected in the financial statements.
- Private Equity: Private equity investments are valued based on the fair value of the underlying securities within the fund, which include investments both traded on an active market and not traded on an active market. For those investments that are traded on an active market, the values are based on the closing price reported on the active market on which those individual securities are traded. For investments not traded on an active market, or for which a quoted price is not publicly available, a variety of unobservable

valuation methodologies, including discounted cash flow, market multiple and cost valuation approaches, are employed by the fund manager to value investments. Fair values of all investments are adjusted annually, if necessary, based on audits of the private equity fund financial statements; such adjustments are reflected in the financial statements.

- Real Estate: Real estate investments include investments in real estate funds managed by a fund manager. These investments are valued using a variety of unobservable valuation methodologies, including discounted cash flow, market multiple and cost valuation approaches, by the fund manager to value investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

The following table sets forth by level, within the fair value hierarchy, the Master Trust assets at fair value as of December 31, 2021:

Changes in Fair Value of Level Three Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and the size of the transfer relative to the total net assets available for benefits. There were no transfers during the years ended December 31, 2021 or 2020.

The following table sets forth a summary of certain changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2021 (in thousands):

9. TAX STATUS:

The Plan obtained its latest determination letter dated March 7, 2017, in which the Internal Revenue Service stated that the Plan, as amended and restated, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. Plan management and Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

10. RELATED PARTY TRANSACTIONS:

The Bank of New York Mellon is the trustee of the Plan as well as the Master Trust. The Plan pays trustee fees through the Master Trust to the Bank of New York Mellon. As described in Note 2, the Plan paid certain expenses related to operations and investment activity to various service providers. These transactions are party-in-interest transactions under ERISA.

For the years presented, the Plan sponsor provided administrative services to the Plan without charge.

11. PLAN OPERATIONS IMPACTED BY COVID-19:

On March 11, 2020, the World Health Organization declared the novel coronavirus (COVID-19) outbreak a pandemic which has impacted the financial markets and global economy. The COVID-19 pandemic is on-going and the duration and extent of the related financial impact on the Plan's net assets available for benefits and changes in net assets available is uncertain and cannot be reasonably estimated at this time.

Rationale for significant economic assumptions

- **Funding segment rates** – These are IRS prescribed rates. The plan sponsor elected this methodology (segment rates with no look-back months) from alternative IRS prescribed options.
- **Expected investment return** – The expected rate of return on plan assets is based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Market Outlook for the Plan's target asset mix, net of an adjustment of 20 basis points for expenses assumed to be paid from plan assets.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- **Funding expense load** – Expected 2021 expenses based on prior year expenses adjusted for expected change in PBGC premium, rounded to the nearest thousand.

Rationale for significant demographic assumptions

- **Funding mortality** – Prescribed by the IRS and based on The Kroger Co.'s election.
- **Withdrawal incidence** – The withdrawal rates are based on an experience analysis covering the period January 1, 2014 to December 31, 2018. Based on input from management, the expectation is that the future withdrawal patterns and circumstances of the employer will not differ significantly from the period studied.
- **Retirement incidence** – The retirement rates are based on an experience analysis covering the period January 1, 2014 to December 31, 2018. Based on input from management, the expectation is that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- **Retirement age** – The assumed commencement age for deferred vested participants is based on an experience analysis covering the period January 1, 2014 to December 31, 2018. Based on input from management, the expectation is that the future commencement age and circumstances of the employer will not differ significantly from the period studied.

Actuarial methods**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.
- **Transferred participants:** The liabilities for employees who have transferred into another plan of the plan sponsor have been included with the liabilities for active participants.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, line 24 — Change in Actuarial Assumptions

The following changes were made since the January 1, 2020 valuation:

- The expense component of normal cost increased from \$190,000 to \$360,000 to reflect our expectations for the current plan year.
- Expected investment return was updated from 4.67% for 2020 to 4.22% for 2021.

Schedule SB, line 24 — Change in Actuarial Assumptions

The following changes were made since the January 1, 2020 valuation:

- The expense component of normal cost increased from \$190,000 to \$360,000 to reflect our expectations for the current plan year.
- Expected investment return was updated from 4.67% for 2020 to 4.22% for 2021.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated effective January 1, 2016 and amended through Amendment Number Three, are included in this valuation.

- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants: The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases are not reflected in this valuation.*
 - *Deferred vested participants: Current deferred vested participants over age 65 are valued including the late retirement actuarial increase. This increase is limited to the amount that would have been payable at age 71 for those currently over age 71 due to the belief that many such records are deceased.*
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations..
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event benefits for events that are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
