Independent Auditor's Report

Plan Administrator, Trustees and Plan Participants
Bay State Milling Company Retirement Plan

Opinion

We have audited the financial statements of Bay State Milling Company Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 and 2020, and the changes in its net assets available for benefits for the year ended December 31, 2021, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of schedule H, line 4i—schedule of assets (held at end of year) as of December 31, 2021, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements, or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Bay State Milling Company Retirement Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of Bay State Milling Company Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General and eligibility: The Plan is a defined contribution plan covering all eligible full-time and part-time employees of Bay State Milling Company (the Company). Employees of the Company become eligible to enter the Plan and to make elective deferrals and receive employer matching contributions when they have completed 90 consecutive days of service. Under the terms of the Plan, the following employees are considered excluded and may not participate in the Plan: self-employed individuals, nonresident aliens who do not have United States source income and employees who are residents of Puerto Rico. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was restated on December 20, 2017, effective January 1, 2018, under a volume submitter plan document. The Plan was most recently amended on October 28, 2021, effective October 1, 2021, to modify one employee group to remove certain employees from covered employees for the nonelective contribution.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted. During 2020, the Plan implemented certain CARES Act provisions to allow for special coronavirus-related distributions, an increase in Plan loan amounts, deferral of loan payments, and a waiver of 2020 required minimum distributions.

Contributions: Participants may elect to contribute to the Plan through pretax salary deferrals of 1% to 100% of eligible compensation up to the annual dollar limit as determined by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Employees are automatically enrolled in the Plan on the date that eligibility requirements are met, unless electing to waive participation. Automatic deferral amounts are set at 3%, with an automatic annual increase of 3% up to a maximum of 15%, unless opted out by the participant.

The Company makes matching contributions on a per-pay-period basis. The Company's matching contribution percentage is based upon the participant's employee group, years of contribution service and pretax contribution rate as defined in the Plan document, generally ranging from 1% to 5%. Following the end of each Plan year, the Company will make additional matching contributions based upon a true-up provision in the plan document for certain employee groups.

Certain employee groups are eligible for an annual base contribution, ranging from 1% to 5%, based upon years of contribution service to the Company. Employees must have completed 90 consecutive days of service, be employed on the last day of the Plan year and be a member of an eligible employee group, as defined by the Plan document, to receive the annual base contribution. Eligible employees do not need to be contributing to the Plan in order to receive the annual base contribution.

Participant accounts: Each participant's account is credited with the participant's contribution, Company matching and true-up contributions, the Company's annual base contribution, account earnings, and charged with fees, as applicable. The allocation of earnings is based on account balances and the returns on investments elected by each participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Investment options: Upon enrollment in the Plan, a participant may direct contributions to various investment options. All of the investments are participant directed. Participants may change their allocation on a daily basis.

Vesting: Participants are immediately vested in their contributions and earnings thereon. Effective January 1, 2018, the Plan was amended to modify the vesting schedule applicable to all employee groups for prior annual base contributions, as defined by the Plan document, from three to two years of employment and to modify the vesting schedule applicable to certain employee groups for all regular matching contributions from three to two years of employment. Employee groups excluded from the aforementioned amendment become fully vested in the Company's matching contributions after three years of employment.

Payment of benefits: The Plan permits withdrawals when a participant terminates employment, retires, or becomes disabled or deceased. Payments are made either in lump-sum amounts or in installments over a 10-year period. In-service withdrawals are also permitted from pretax and rollover contributions for certain financial hardships and from pretax, prior nonelective and qualified nonelective contributions when a participant attains age 59½. Rollover contributions may be withdrawn from the Plan at any time. Balances less than \$5,000 will be distributed without consent upon a distribution event.

Forfeitures: Forfeitures will be used to reduce future employer contributions. Forfeited nonvested accounts totaled \$39,639 and \$35,745 at December 31, 2021 and 2020, respectively. In 2021, the Plan generated forfeitures of \$60,510 and used \$56,616 of unallocated forfeitures to reduce employer contributions.

Notes receivable from participants: Participants may borrow from their pretax and rollover contributions a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. A participant may only have one loan outstanding from the Plan at any time. The loans are secured by the vested balance in the participant's account. Loan terms range up to five years or over a reasonable period of time for the purchase of a primary residence, as established by the Plan Administrator at the time of the loan not to exceed 10 years. The loans bear interest at a rate equal to the prime rate charged for a loan made under similar circumstances by persons in the business of lending money. Loans outstanding at December 31, 2021, bear interest at rates ranging from 3.25% to 5.50% and mature through November 2031. Principal and interest are paid ratably through payroll deductions.

Plan administration: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. Certain administrative expenses were paid by the Company at management's discretion.

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Note 2. Summary of Significant Accounting Policies

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustees determine the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 or 2020. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded based on the terms of the Plan document.

Payment of benefits: Benefit payments are recorded when paid.

Administrative expenses: Expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

On a quarterly basis, the Plan receives revenue credits from T. Rowe Price (TRP), the Plan's third-party administrator, which represent revenue generated by the Plan that is returned to the Plan by TRP. These funds may be used only for payment of reasonable and necessary expenses for the Plan or allocation to participants. The balance in the Plan's administrative budget account was \$50,111 and \$52,986 at December 31, 2021 and 2020, respectively. During the year ended December 31, 2021, the Plan received \$58,399 in revenue credits, which are included in other income on the statement of changes in net assets available for benefits, and used revenue credits of \$61,274 to pay Plan expenses during the year ended December 31, 2021. The remaining balance at December 31, 2021, will be used to pay future administrative expenses.

Income taxes: U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for fiscal years before 2018.

Notes to Financial Statements

Note 3. Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual funds: Mutual funds are valued at quoted market prices of shares held by the Plan.

Common collective trust funds: Common collective trust funds are valued at net asset value (NAV) per unit based on the underlying investment comprising the trust and based on audited financial statements. The NAV is used as a practical expedient to estimate fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2021 and 2020, there were no transfers in or out of Level 3.

Note 3. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020:

	December 31, 2021			
	Total	Level 1	Level 2	Level 3
Investments:				
Mutual funds	\$ 79,334,292	\$ 79,334,292	\$ -	\$ -
Common collective trust funds measured at NAV (a)	8,840,102	-	-	-
Total investments	<u>\$ 88,174,394</u>	<u>\$ 79,334,292</u>	<u>\$ -</u>	<u>\$ -</u>
	December 31, 2020			
	Total	Level 1	Level 2	Level 3
Investments:				
Mutual funds	\$ 72,666,814	\$ 72,666,814	\$ -	\$ -
Common collective trust funds measured at NAV (a)	12,275,764	-	-	-
Total investments	<u>\$ 84,942,578</u>	<u>\$ 72,666,814</u>	<u>\$ -</u>	<u>\$ -</u>

- (a) In accordance with Subtopic 820-10, certain investments that are measured at fair value using NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

The following tables summarize investments measured at fair value based on NAV per share (or its equivalent) as of December 31, 2021 and 2020:

Investment	Fair Value Estimated Using NAV Per Share			
	December 31, 2021			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common collective trust fund:				
T. Rowe Price Stable Value Fund Sch N (b)	<u>\$ 8,840,102</u>	<u>\$ -</u>	Daily	None
Investment	Fair Value Estimated Using NAV Per Share			
	December 31, 2020			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common collective trust fund:				
T. Rowe Price Stable Value Fund Sch N (b)	<u>\$ 12,275,764</u>	<u>\$ -</u>	Daily	None

The objectives of the stable value fund are to maximize current income consistent with the maintenance of principal and to provide for benefit-responsive participant withdrawals at contract value for certain events without penalty or adjustment. The trust will attempt to achieve these objectives by investing and reinvesting amounts transferred to the trust in investment contracts selected by the trustee.

Bay State Milling Company Retirement Plan

Notes to Financial Statements

Note 4. Party-in-Interest Transactions

Certain Plan investments are shares of common collective trusts and mutual funds managed by T. Rowe Price. T. Rowe Price is the custodian of the Plan's investments; therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions. The Company paid most administrative expenses of the Plan.

Note 5. Income Tax Status

The Plan has adopted a volume submitter plan sponsored by PDS Premier. The volume submitter plan provider has received an advisory letter from the Internal Revenue Service dated August 19, 2020, as to the volume submitter plan's qualified status. The volume submitter plan advisory letter has been relied upon by the Plan. Although the Plan has been amended since receiving this advisory letter, the Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan as amended is qualified and is tax-exempt.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of a Plan termination, participants will become 100% vested in their accounts.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note 8. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 14, 2022, the date the financial statements were available to be issued.
