Independent Auditor's Report

To the Plan Administrator of the
Halocarbon 401(k) Plan
Peachtree Corners, Georgia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of the Halocarbon 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule of Assets (Held at End of Year) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Halocarbon 401(k) Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 7, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 1 – Plan Description

The following brief description of the Halocarbon 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the provisions of the Plan.

General

The Plan is a defined contribution employee profit-sharing plan. The Plan was established by the Halocarbon Products Corporation (the “Company”) on April 1, 1982. Effective June 30, 2008, the Plan was amended and restated to conform with the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA), and included a plan amendment which changed the Plan name from Halocarbon Products Corporation Thrift and Profit-Sharing Plan to Halocarbon Thrift Plan. The Plan was subsequently amended to change the Plan name from Halocarbon Thrift Plan to Halocarbon 401(k) Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was amended and restated effective February 1, 2019, to include E3Trigen, d/b/a Halocarbon Electronic Solutions as a participating employer. The Plan was again amended and restated effective January 1, 2020, to include HPC Holdings, Inc. as a participating employer.

The Plan covers all full-time employees of the Company, excluding non-resident aliens, Puerto Rican employees, part-time, seasonal, temporary, and co-op employees, who have completed at least 1000 hours of service, as defined in the Plan.

Contributions

Each year, participants may voluntarily contribute up to 75 percent of annual compensation, as defined in the Plan, on a pre-tax or Roth basis, not to exceed the Internal Revenue Service limit (\$19,500 in 2021 and 2020). Participants may also elect to contribute up to 10 percent of annual compensation on an after-tax basis each year subject to the overall participant contributions limit of 75 percent. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or defined contribution plans. Participants who do not affirmatively elect to contribute to the Plan are automatically enrolled in the Plan with a contribution amount of 3% of compensation. This is subject to an annual 1% increase to a maximum of 10%. The Company contributes 100 percent of the first 1 percent, then 70 percent of the next 5 percent of compensation that a participant contributes to the Plan on a pre-tax or after-tax basis, excluding rollover contributions, calculated on an annual basis. The Plan provides that participants who will be at least age 50 by the end of the tax year and are making salary deferrals to the Plan can make an additional catch-up contribution (up to \$6,500 in 2021 and 2020) on a pre-tax basis, if their pre-tax contributions have otherwise been restricted by Plan or IRS limits.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 1 – Plan Description (continued)

In addition, the Company may make a special discretionary contribution at the option of the Company. This contribution shall be allocated to a participant at a percentage equal to that employee's plan compensation in relationship to the total plan compensation of all eligible employees for the Plan year. There have not been any discretionary contributions for 2021 and 2020. A true-up company match of \$- and \$27,378 was also owed to the plan as of December 31, 2021 and 2020, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's discretionary contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Upon completion of two years of service with Halocarbon, participants become 100 percent vested in all employer contributions.

In-Service Withdrawals and Distributions Upon Termination of Employment

Upon termination of employment for any reason, a participant's vested account balance will be distributed in a lump-sum amount to the participant, or designated beneficiary, at his or her option. Hardship withdrawals of pre-tax contribution accounts by active employees are permitted, subject to review by the Committee, to the maximum amount available for hardship distribution in the account of the participant under Plan provisions. All accounts are also available for in-service withdrawal upon attainment of age 59½. Active employees are also entitled to a variety of non-hardship withdrawal options for their after-tax, rollover, and participant's vested portion of Employer matching contribution accounts.

Notes Receivable From Participants

The Plan provides for loans from Plan accounts to participants from a minimum of one thousand dollars (\$1,000) to a maximum of the lesser of (1) \$50,000, reduced by their maximum outstanding Plan loan balance within the preceding 12 months or (2) 50% of the participant's account balance. The loans are payable over a maximum of five years, unless the loan is used to acquire a principal residence, in which case, the maximum term is fifteen (15) years.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 1 – Plan Description (continued)

A participant can only have one loan outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at a rate of Prime rate on the last day of the month immediately preceding the month in which the application was filed, plus 1%. Principal and interest are paid ratably through payroll deductions.

Forfeited Accounts

Forfeitures, resulting from application of the vesting provisions, are maintained separately by the Plan, and are used to reduce future Employer matching contributions or to pay administrative expenses. At December 31, 2021 and 2020, forfeited nonvested accounts totaled \$14,040 and \$3,552, respectively.

SECURE Act and CARES Act

On December 20, 2019, the Setting Every Community Up for Retirement Enhancement ("SECURE") Act was passed, and most provisions in the law became effective on January 1, 2020. The SECURE Act implements key retirement legislation reform for plan sponsors and individuals. These provisions did not have a material impact on the financial obligations under the Plan.

In response to the COVID-19 global pandemic, on March 27, 2020, the Coronavirus Aid, Relief, and Economic Security ("CARES") Act was enacted and signed into law. Certain provisions of the CARES Act impact the operation of retirement plans during 2021 and 2020. These provisions did not have a material impact on the financial obligations under the Plan.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 2 – Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment adviser and custodian. See Note 6 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 or 2020. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefit Payments

Benefit payments are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note 3 – Tax Status of Plan

The Plan uses a Prototype Non-standardized Profit Sharing Plan with CODA plan document sponsored by The Prudential Insurance Company of America. Prudential obtained an opinion letter on April 29, 2014, in which the IRS stated that the Prototype Non-standardized Profit Sharing Plan with CODA adopted by the Plan, as then designed, qualifies under Internal Revenue Code ("IRC") Section 401. The Plan has not received a determination letter specific to the Plan itself, however, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 3 – Tax Status of Plan (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 4 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 5 – Investments and Information Certified by the Trustees

The Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, plan management instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Prudential Bank & Trust, FSB Company and Prudential Retirement Insurance and Annuity Company, the trustees of the Plan, as complete and accurate, except for comparing such information certified by the trustees with information included in the Plan's financial statements and supplemental schedule:

Investments held and participant loans receivable certified by the Trustees:

	<i>As of December 31,</i>	
	<i>2021</i>	<i>2020</i>
Investments	\$ 27,232,170	\$ 23,848,143
Participant loans receivable	684,371	523,080

Investment income and interest income on participant loans certified by the Trustees:

	<i>For the Year Ended December 31,</i>	
	<i>2021</i>	<i>2020</i>
Net appreciation in fair value of investments	\$ 2,939,074	\$ 2,886,362
Interest and dividends	380,751	167,019
Interest income on participant loans	30,393	29,895

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 5 – Investments and Information Certified by the Trustees (continued)

The following presents select investments, with approximate percentage of the Plan's net assets, as of December 31, 2021 and 2020.

	<i>December 31,</i>			
	<u>2021</u>		<u>2020</u>	
T. Rowe Price Large-Cap Growth Fund	\$3,512,669	13%	\$ 2,996,697	12%
Guaranteed Income Fund	3,022,310	11%	2,934,511	12%
Wellington Large Cap Value Fund	2,778,886	10%	2,341,476	10%
Vanguard Total Stock Market Index Fund	2,041,486	7%	1,740,683	7%

During the years ended December 31, 2021 and 2020, the Plan's investments (including gains and losses on investments bought, sold, as well as held during the year) appreciated in value by \$2,939,074 and \$2,886,362, respectively.

Note 6 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 6 - Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract: Guaranteed investment contracts ("GIC") are valued at fair value based on underlying investments held by the GIC, which are predominantly observable assets with quoted market prices (see Note 7). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Plan's management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings.

Pooled separate accounts: Valued at the net asset value ("NAV") of shares held by the Plan at year-end. The NAV of a PSA is based on the market value of its underlying investments. The PSA NAV is not a publicly quoted price in an active market.

Self-directed brokerage account: Valued based on the underlying quoted net asset values of investments.

The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. While Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(A) The PSAs do not have a readily determinable fair value based on a publicly quoted price in an active market. The fair value of a PSA is based on the market value of its underlying investments, the fund's dividends, and the contract's separate account charges, and NAV is used as a practical expedient to estimate the fair value.

NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 7 – Guaranteed Investment Contract with Prudential Retirement Insurance and Annuity Company

In 2021 and 2020, the Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Prudential Retirement Insurance and Annuity Company (Prudential) totaling \$3,022,310 for 2021 and \$2,934,511 for 2020. Prudential maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 2.75%. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by the participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer or all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

Note 8 – Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time. Termination of the Plan shall result in discontinuance of all future Plan contributions and in full and immediate vesting for each participant of the entire amount standing to his or her credit; there shall not be any forfeitures, with respect to any participant, for any reason.

Note 9 – Related-Party Transactions and Party-In-Interest Transactions

Management believes that fees paid during the year for administrative and managerial services rendered by Prudential Bank & Trust, FSB Company and Prudential Retirement Insurance and Annuity Company, the trustees as defined by the Plan, and Prudential Retirement Services, the recordkeeper as defined by the Plan, were based on customary and reasonable rates for such services. These transactions qualify as exempt party-in-interest transactions. Notes receivable from participants are also considered exempt party-in-interest transactions.

Note 10 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits as reported in the Plan's financial statements at December 31, 2021 and 2020 to Form 5500:

	<u>2021</u>	<u>2020</u>

Net assets available for benefits per the Form 5500	<u>\$27,916,541</u>	<u>\$24,371,223</u>

The following is a reconciliation of the net increase in net assets available for benefits as reported in the Plan's financial statements for the year ended December 31, 2021 to Form 5500:

Net increase in net assets available for benefits per the financial statements	\$ 3,517,940
Add: employer contributions receivable at beginning of year	<u>27,378</u>
Net increase in net assets available for benefits per the Form 5500	<u>\$ 3,545,318</u>

Independent Auditor's Report

To the Plan Administrator of the
Halocarbon 401(k) Plan
Peachtree Corners, Georgia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of the Halocarbon 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule of Assets (Held at End of Year) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Halocarbon 401(k) Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 7, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 1 – Plan Description

The following brief description of the Halocarbon 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the provisions of the Plan.

General

The Plan is a defined contribution employee profit-sharing plan. The Plan was established by the Halocarbon Products Corporation (the “Company”) on April 1, 1982. Effective June 30, 2008, the Plan was amended and restated to conform with the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA), and included a plan amendment which changed the Plan name from Halocarbon Products Corporation Thrift and Profit-Sharing Plan to Halocarbon Thrift Plan. The Plan was subsequently amended to change the Plan name from Halocarbon Thrift Plan to Halocarbon 401(k) Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was amended and restated effective February 1, 2019, to include E3Trigen, d/b/a Halocarbon Electronic Solutions as a participating employer. The Plan was again amended and restated effective January 1, 2020, to include HPC Holdings, Inc. as a participating employer.

The Plan covers all full-time employees of the Company, excluding non-resident aliens, Puerto Rican employees, part-time, seasonal, temporary, and co-op employees, who have completed at least 1000 hours of service, as defined in the Plan.

Contributions

Each year, participants may voluntarily contribute up to 75 percent of annual compensation, as defined in the Plan, on a pre-tax or Roth basis, not to exceed the Internal Revenue Service limit (\$19,500 in 2021 and 2020). Participants may also elect to contribute up to 10 percent of annual compensation on an after-tax basis each year subject to the overall participant contributions limit of 75 percent. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or defined contribution plans. Participants who do not affirmatively elect to contribute to the Plan are automatically enrolled in the Plan with a contribution amount of 3% of compensation. This is subject to an annual 1% increase to a maximum of 10%. The Company contributes 100 percent of the first 1 percent, then 70 percent of the next 5 percent of compensation that a participant contributes to the Plan on a pre-tax or after-tax basis, excluding rollover contributions, calculated on an annual basis. The Plan provides that participants who will be at least age 50 by the end of the tax year and are making salary deferrals to the Plan can make an additional catch-up contribution (up to \$6,500 in 2021 and 2020) on a pre-tax basis, if their pre-tax contributions have otherwise been restricted by Plan or IRS limits.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 1 – Plan Description (continued)

In addition, the Company may make a special discretionary contribution at the option of the Company. This contribution shall be allocated to a participant at a percentage equal to that employee's plan compensation in relationship to the total plan compensation of all eligible employees for the Plan year. There have not been any discretionary contributions for 2021 and 2020. A true-up company match of \$- and \$27,378 was also owed to the plan as of December 31, 2021 and 2020, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's discretionary contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Upon completion of two years of service with Halocarbon, participants become 100 percent vested in all employer contributions.

In-Service Withdrawals and Distributions Upon Termination of Employment

Upon termination of employment for any reason, a participant's vested account balance will be distributed in a lump-sum amount to the participant, or designated beneficiary, at his or her option. Hardship withdrawals of pre-tax contribution accounts by active employees are permitted, subject to review by the Committee, to the maximum amount available for hardship distribution in the account of the participant under Plan provisions. All accounts are also available for in-service withdrawal upon attainment of age 59½. Active employees are also entitled to a variety of non-hardship withdrawal options for their after-tax, rollover, and participant's vested portion of Employer matching contribution accounts.

Notes Receivable From Participants

The Plan provides for loans from Plan accounts to participants from a minimum of one thousand dollars (\$1,000) to a maximum of the lesser of (1) \$50,000, reduced by their maximum outstanding Plan loan balance within the preceding 12 months or (2) 50% of the participant's account balance. The loans are payable over a maximum of five years, unless the loan is used to acquire a principal residence, in which case, the maximum term is fifteen (15) years.

NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 1 – Plan Description (continued)

A participant can only have one loan outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at a rate of Prime rate on the last day of the month immediately preceding the month in which the application was filed, plus 1%. Principal and interest are paid ratably through payroll deductions.

Forfeited Accounts

Forfeitures, resulting from application of the vesting provisions, are maintained separately by the Plan, and are used to reduce future Employer matching contributions or to pay administrative expenses. At December 31, 2021 and 2020, forfeited nonvested accounts totaled \$14,040 and \$3,552, respectively.

SECURE Act and CARES Act

On December 20, 2019, the Setting Every Community Up for Retirement Enhancement ("SECURE") Act was passed, and most provisions in the law became effective on January 1, 2020. The SECURE Act implements key retirement legislation reform for plan sponsors and individuals. These provisions did not have a material impact on the financial obligations under the Plan.

In response to the COVID-19 global pandemic, on March 27, 2020, the Coronavirus Aid, Relief, and Economic Security ("CARES") Act was enacted and signed into law. Certain provisions of the CARES Act impact the operation of retirement plans during 2021 and 2020. These provisions did not have a material impact on the financial obligations under the Plan.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 2 – Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment adviser and custodian. See Note 6 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 or 2020. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefit Payments

Benefit payments are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note 3 – Tax Status of Plan

The Plan uses a Prototype Non-standardized Profit Sharing Plan with CODA plan document sponsored by The Prudential Insurance Company of America. Prudential obtained an opinion letter on April 29, 2014, in which the IRS stated that the Prototype Non-standardized Profit Sharing Plan with CODA adopted by the Plan, as then designed, qualifies under Internal Revenue Code ("IRC") Section 401. The Plan has not received a determination letter specific to the Plan itself, however, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Note 3 – Tax Status of Plan (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 4 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 5 – Investments and Information Certified by the Trustees

The Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, plan management instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Prudential Bank & Trust, FSB Company and Prudential Retirement Insurance and Annuity Company, the trustees of the Plan, as complete and accurate, except for comparing such information certified by the trustees with information included in the Plan's financial statements and supplemental schedule:

Investments held and participant loans receivable certified by the Trustees:

Vanguard Total Stock Market Index Fund	2,041,486	7%	1,740,683	7%

During the years ended December 31, 2021 and 2020, the Plan's investments (including gains and losses on investments bought, sold, as well as held during the year) appreciated in value by \$2,939,074 and \$2,886,362, respectively.

Note 6 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 6 - Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract: Guaranteed investment contracts ("GIC") are valued at fair value based on underlying investments held by the GIC, which are predominantly observable assets with quoted market prices (see Note 7). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Plan's management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings.

Pooled separate accounts: Valued at the net asset value ("NAV") of shares held by the Plan at year-end. The NAV of a PSA is based on the market value of its underlying investments. The PSA NAV is not a publicly quoted price in an active market.

Self-directed brokerage account: Valued based on the underlying quoted net asset values of investments.

The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. While Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(A) The PSAs do not have a readily determinable fair value based on a publicly quoted price in an active market. The fair value of a PSA is based on the market value of its underlying investments, the fund's dividends, and the contract's separate account charges, and NAV is used as a practical expedient to estimate the fair value.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 7 – Guaranteed Investment Contract with Prudential Retirement Insurance and Annuity Company

In 2021 and 2020, the Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Prudential Retirement Insurance and Annuity Company (Prudential) totaling \$3,022,310 for 2021 and \$2,934,511 for 2020. Prudential maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 2.75%. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by the participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer or all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

Note 8 – Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time. Termination of the Plan shall result in discontinuance of all future Plan contributions and in full and immediate vesting for each participant of the entire amount standing to his or her credit; there shall not be any forfeitures, with respect to any participant, for any reason.

Note 9 – Related-Party Transactions and Party-In-Interest Transactions

Management believes that fees paid during the year for administrative and managerial services rendered by Prudential Bank & Trust, FSB Company and Prudential Retirement Insurance and Annuity Company, the trustees as defined by the Plan, and Prudential Retirement Services, the recordkeeper as defined by the Plan, were based on customary and reasonable rates for such services. These transactions qualify as exempt party-in-interest transactions. Notes receivable from participants are also considered exempt party-in-interest transactions.

Note 10 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits as reported in the Plan's financial statements at December 31, 2021 and 2020 to Form 5500:

The following is a reconciliation of the net increase in net assets available for benefits as reported in the Plan's financial statements for the year ended December 31, 2021 to Form 5500:

Net increase in net assets available for benefits per the financial statements	\$ 3,517,940

Independent Auditor's Report

To the Plan Administrator of the
Halocarbon 401(k) Plan
Peachtree Corners, Georgia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of the Halocarbon 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule of Assets (Held at End of Year) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Halocarbon 401(k) Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 7, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 1 – Plan Description

The following brief description of the Halocarbon 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the provisions of the Plan.

General

The Plan is a defined contribution employee profit-sharing plan. The Plan was established by the Halocarbon Products Corporation (the “Company”) on April 1, 1982. Effective June 30, 2008, the Plan was amended and restated to conform with the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA), and included a plan amendment which changed the Plan name from Halocarbon Products Corporation Thrift and Profit-Sharing Plan to Halocarbon Thrift Plan. The Plan was subsequently amended to change the Plan name from Halocarbon Thrift Plan to Halocarbon 401(k) Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was amended and restated effective February 1, 2019, to include E3Trigen, d/b/a Halocarbon Electronic Solutions as a participating employer. The Plan was again amended and restated effective January 1, 2020, to include HPC Holdings, Inc. as a participating employer.

The Plan covers all full-time employees of the Company, excluding non-resident aliens, Puerto Rican employees, part-time, seasonal, temporary, and co-op employees, who have completed at least 1000 hours of service, as defined in the Plan.

Contributions

Each year, participants may voluntarily contribute up to 75 percent of annual compensation, as defined in the Plan, on a pre-tax or Roth basis, not to exceed the Internal Revenue Service limit (\$19,500 in 2021 and 2020). Participants may also elect to contribute up to 10 percent of annual compensation on an after-tax basis each year subject to the overall participant contributions limit of 75 percent. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or defined contribution plans. Participants who do not affirmatively elect to contribute to the Plan are automatically enrolled in the Plan with a contribution amount of 3% of compensation. This is subject to an annual 1% increase to a maximum of 10%. The Company contributes 100 percent of the first 1 percent, then 70 percent of the next 5 percent of compensation that a participant contributes to the Plan on a pre-tax or after-tax basis, excluding rollover contributions, calculated on an annual basis. The Plan provides that participants who will be at least age 50 by the end of the tax year and are making salary deferrals to the Plan can make an additional catch-up contribution (up to \$6,500 in 2021 and 2020) on a pre-tax basis, if their pre-tax contributions have otherwise been restricted by Plan or IRS limits.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 1 – Plan Description (continued)

In addition, the Company may make a special discretionary contribution at the option of the Company. This contribution shall be allocated to a participant at a percentage equal to that employee's plan compensation in relationship to the total plan compensation of all eligible employees for the Plan year. There have not been any discretionary contributions for 2021 and 2020. A true-up company match of \$- and \$27,378 was also owed to the plan as of December 31, 2021 and 2020, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's discretionary contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Upon completion of two years of service with Halocarbon, participants become 100 percent vested in all employer contributions.

In-Service Withdrawals and Distributions Upon Termination of Employment

Upon termination of employment for any reason, a participant's vested account balance will be distributed in a lump-sum amount to the participant, or designated beneficiary, at his or her option. Hardship withdrawals of pre-tax contribution accounts by active employees are permitted, subject to review by the Committee, to the maximum amount available for hardship distribution in the account of the participant under Plan provisions. All accounts are also available for in-service withdrawal upon attainment of age 59½. Active employees are also entitled to a variety of non-hardship withdrawal options for their after-tax, rollover, and participant's vested portion of Employer matching contribution accounts.

Notes Receivable From Participants

The Plan provides for loans from Plan accounts to participants from a minimum of one thousand dollars (\$1,000) to a maximum of the lesser of (1) \$50,000, reduced by their maximum outstanding Plan loan balance within the preceding 12 months or (2) 50% of the participant's account balance. The loans are payable over a maximum of five years, unless the loan is used to acquire a principal residence, in which case, the maximum term is fifteen (15) years.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 1 – Plan Description (continued)

A participant can only have one loan outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at a rate of Prime rate on the last day of the month immediately preceding the month in which the application was filed, plus 1%. Principal and interest are paid ratably through payroll deductions.

Forfeited Accounts

Forfeitures, resulting from application of the vesting provisions, are maintained separately by the Plan, and are used to reduce future Employer matching contributions or to pay administrative expenses. At December 31, 2021 and 2020, forfeited nonvested accounts totaled \$14,040 and \$3,552, respectively.

SECURE Act and CARES Act

On December 20, 2019, the Setting Every Community Up for Retirement Enhancement ("SECURE") Act was passed, and most provisions in the law became effective on January 1, 2020. The SECURE Act implements key retirement legislation reform for plan sponsors and individuals. These provisions did not have a material impact on the financial obligations under the Plan.

In response to the COVID-19 global pandemic, on March 27, 2020, the Coronavirus Aid, Relief, and Economic Security ("CARES") Act was enacted and signed into law. Certain provisions of the CARES Act impact the operation of retirement plans during 2021 and 2020. These provisions did not have a material impact on the financial obligations under the Plan.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 2 – Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment adviser and custodian. See Note 6 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 or 2020. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefit Payments

Benefit payments are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note 3 – Tax Status of Plan

The Plan uses a Prototype Non-standardized Profit Sharing Plan with CODA plan document sponsored by The Prudential Insurance Company of America. Prudential obtained an opinion letter on April 29, 2014, in which the IRS stated that the Prototype Non-standardized Profit Sharing Plan with CODA adopted by the Plan, as then designed, qualifies under Internal Revenue Code ("IRC") Section 401. The Plan has not received a determination letter specific to the Plan itself, however, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 3 – Tax Status of Plan (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 4 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 5 – Investments and Information Certified by the Trustees

The Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, plan management instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Prudential Bank & Trust, FSB Company and Prudential Retirement Insurance and Annuity Company, the trustees of the Plan, as complete and accurate, except for comparing such information certified by the trustees with information included in the Plan's financial statements and supplemental schedule:

Investments held and participant loans receivable certified by the Trustees:

Note 5 – Investments and Information Certified by the Trustees (continued)

The following presents select investments, with approximate percentage of the Plan's net assets, as of December 31, 2021 and 2020.

	<i>December 31,</i>			
	<u>2021</u>		<u>2020</u>

Guaranteed Income Fund	3,022,310	11%	2,934,511	12%
Wellington Large Cap Value Fund	2,778,886	10%	2,341,476	10%
Vanguard Total Stock Market Index Fund	2,041,486	7%	1,740,683	7%

During the years ended December 31, 2021 and 2020, the Plan's investments (including gains and losses on investments bought, sold, as well as held during the year) appreciated in value by \$2,939,074 and \$2,886,362, respectively.

Note 6 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 6 - Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract: Guaranteed investment contracts ("GIC") are valued at fair value based on underlying investments held by the GIC, which are predominantly observable assets with quoted market prices (see Note 7). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Plan's management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings.

Pooled separate accounts: Valued at the net asset value ("NAV") of shares held by the Plan at year-end. The NAV of a PSA is based on the market value of its underlying investments. The PSA NAV is not a publicly quoted price in an active market.

Self-directed brokerage account: Valued based on the underlying quoted net asset values of investments.

The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. While Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Total	<u>\$ 15,980,941</u>	<u>\$ 13,741,672</u>			

(A) The PSAs do not have a readily determinable fair value based on a publicly quoted price in an active market. The fair value of a PSA is based on the market value of its underlying investments, the fund's dividends, and the contract's separate account charges, and NAV is used as a practical expedient to estimate the fair value.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 7 – Guaranteed Investment Contract with Prudential Retirement Insurance and Annuity Company

In 2021 and 2020, the Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Prudential Retirement Insurance and Annuity Company (Prudential) totaling \$3,022,310 for 2021 and \$2,934,511 for 2020. Prudential maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 2.75%. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by the participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer or all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

Halocarbon 401(k) Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

Note 8 – Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time. Termination of the Plan shall result in discontinuance of all future Plan contributions and in full and immediate vesting for each participant of the entire amount standing to his or her credit; there shall not be any forfeitures, with respect to any participant, for any reason.

Note 9 – Related-Party Transactions and Party-In-Interest Transactions

Management believes that fees paid during the year for administrative and managerial services rendered by Prudential Bank & Trust, FSB Company and Prudential Retirement Insurance and Annuity Company, the trustees as defined by the Plan, and Prudential Retirement Services, the recordkeeper as defined by the Plan, were based on customary and reasonable rates for such services. These transactions qualify as exempt party-in-interest transactions. Notes receivable from participants are also considered exempt party-in-interest transactions.

Note 10 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits as reported in the Plan's financial statements at December 31, 2021 and 2020 to Form 5500:

	<u>2021</u>	<u>2020</u>

The following is a reconciliation of the net increase in net assets available for benefits as reported in the Plan's financial statements for the year ended December 31, 2021 to Form 5500:
