INDEPENDENT AUDITORS' REPORT

To the Participants and Plan Administrator of
EthosEnergy Pension Plan for Union Employees

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statement

We have performed an audit of the accompanying financial statements of EthosEnergy Pension Plan for Union Employees (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits and accumulated plan benefits as of December 31, 2021, and the related statements of changes in net assets available for benefits and changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements ("2021 financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 9 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section —

- the amounts and disclosures in the accompanying 2021 financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2021 financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the 2021 financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the 2021 financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date the 2021 financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan’s transactions that are presented and disclosed in the 2021 financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors’ Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the 2021 financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the 2021 financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the 2021 financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the 2021 financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2021 financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2021 and schedule of reportable transactions for the year ended December 31, 2021 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion —

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 14, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

THE ETHOSENERGY PENSION PLAN FOR UNION EMPLOYEES

Notes to Financial Statements

December 31, 2021 and 2020

NOTE 1 – DESCRIPTION OF THE PLAN

General

EthosEnergy Pension Plan for Union Employees (the “Plan”) was established May 6, 2014. The Plan is a defined benefit plan, which provides for retirement and death benefits to employees of EthosEnergy GTS Holdings (US), LLC. (the “Plan Sponsor” or “Employer”) which is a member of the United Brotherhood of Carpenters and Joiners of America Local Union Number 724, as described in the Plan document. The Plan is a continuation of the participation and benefits provided for the benefit of participants under a predecessor pension plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. Participants should refer to the Plan document and related amendments for a more complete description of the Plan’s provisions.

The Employer is the Administrator of the Plan. The primary responsibility of the Administrator is to administer the Plan for the exclusive benefit of the participants and their beneficiaries, subject to the specific terms of the Plan.

Eligibility

Any employee who 1) is a member of the United Brotherhood of Carpenters and Joiners of America Local Union Number 724; 2) is working for EthosEnergy GTS Holdings (US), LLC; 3) has completed 1,000 hours of service within 12 consecutive months of service; and 4) has attained age 21 is eligible to participate in the Plan. The service requirement is waived for former participants of the Siemens Pension Plan for Union Employees whose liability and assets were merged into this Plan, and who were employed on May 6, 2014. Such eligible employees entered the Plan on May 6, 2014.

Vesting

The Plan generally provides 100% vesting to participants after 5 years of credited service, as defined. The Plan also allows for a Top-Heavy vesting schedule if the Plan ever becomes a Top-Heavy Plan. Participants should refer to the Plan document for a more complete description of the Plan’s vesting provisions under top heavy Plan years.

Funding Policy

The Plan’s funding policy is for the Employer to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During the years ended December 31, 2021 and 2020, Employer contributions were \$62,500 and \$125,200, respectively.

Although it has not expressed any intention to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

Retirement Benefits

Normal Retirement Benefit

The amount of monthly retirement benefit to be provided for each participant who retires on the participant's normal retirement date (attained the age of 65 or the 5th anniversary of joining the Plan, if later) shall be equal to the participant's accrued benefit. An active participant's accrued benefit is based on a retirement benefit formula equal to \$42.00 per month for each Plan year of service, up to a maximum of 35 years, with the Employer. As provided per the Plan document, in no event shall a participant's accrued benefit as of May 6, 2014 for former participants of the Siemens Pension Plan be less than the participant's accrued benefit as of May 6, 2014, as determined under the Siemens Pension Plan for Union Employees.

Early Retirement

A participant may elect to retire on an early retirement date (attained the age of 55 and completed at least 15 years of Plan years of service). In the event that a participant makes such an election, such participant shall be entitled to receive an early retirement benefit equal to the participant's accrued benefit payable at the participant's normal retirement date. However, if a participant so elects, such Participant may receive payment of an early retirement benefit commencing on the first day of the month coinciding with or next following the participant's early retirement date, which early retirement benefit shall equal the actuarial equivalent of the participant's accrued benefit.

Death and Disability Benefits

The death benefit provided under this Plan shall be the minimum spouse's death benefit provided per the Plan document. The beneficiary of the death benefit shall be the participant's spouse, who shall receive such benefit in the form of a pre-retirement survivor annuity, as defined in the Plan document. For purposes of this benefit, the spouse must have been legally married to the Participant for at least one year prior to the participant's death. No disability benefits, other than those payable upon termination of employment, are provided by the Plan.

Payment of Benefits

Unless otherwise elected as provided, a participant who is married on the date monthly benefit payments commence, and who does not die before the date monthly benefit payments commence shall receive monthly retirement benefits in the form of a joint and survivor annuity. The joint and survivor annuity is an annuity that commences immediately and shall be the actuarial equivalent of the participant's accrued benefit. Such joint and survivor benefits following the participant's death shall continue to the spouse during the spouse's lifetime at a rate equal to 50% of the rate at which such benefits were payable to the participant.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension Committee determines the Plan's valuation policies utilizing information provided by its investment advisers and Charles Schwab Bank ("Charles Schwab"), the trustee. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants or beneficiaries are recorded upon distribution.

Expenses

The Plan's expenses are paid either by the Plan or the Employer, as provided by the Plan document. Expenses that are paid directly by the Employer are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in appreciation/depreciation of fair value investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Plan monitored and evaluated subsequent events from December 31, 2021 through October 13, 2022, the date on which financial statements were available to be issued.

NOTE 3 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' vested months of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

NOTE 3 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2020 were (a) life expectancy of participants using the Pri-2012 base mortality with MP-2020 projection scale, (b) retirement age assumptions (the assumed average retirement age was 65), and (c) investment return. The interest rate used to discount the obligation for 2020 was 6.00% percent, which included anticipated administrative expenses associated with providing benefits. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 4 – PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- 1) to provide pensions to retired participants who have retired under the Plan prior to its termination without reference to the order of retirement;
- 2) to provide normal retirement benefits to participants who have reached their normal retirement dates but have not retired on the date of termination, without reference to the order in which they shall have reached their normal retirement date;
- 3) to provide normal retirement benefits to participants who have not yet reached their normal retirement date on the date of termination, without reference to the order in which they will reach their normal retirement date. Such benefits will be based upon accrued benefits as of the date of termination. The balance, if any, of the assets due to erroneous actuarial computation held by the trust fund after such allocation shall be returned to the Employer, but only after the satisfaction of all liabilities with respect to Participants and pensions under the Plan.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 5 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (“FASB”) *Accounting Standards Codification* (“ASC”) 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access;
- Level 2 Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability;
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 or 2020.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (“NAV”) and transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund: Valued at the daily closing price as reported by the money market fund. The money market fund held by the Plan is an open-end fund that is registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and transact at that price, which approximates \$1. The money market fund held by the Plan is deemed to be actively traded.

Exchange traded fund: Valued at fair value using quoted market prices on an exchange. Exchange traded fund (“ETF”) market prices may be higher or lower than the NAV at any given point in time. NAV is calculated once per day. Market returns are based upon the closing price of the primary listing exchange and may not represent the returns if shares were traded at other times.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Government securities and municipal bonds: Valued using pricing models maximizing the use of observable inputs for similar securities.

NOTE 5 – FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31,:

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated Plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

In March 2020, the World Health Organization categorized Coronavirus Disease 2019 (“COVID-19”) as a pandemic, and the President of the United States declared COVID-19 outbreak a national emergency. The COVID-19 pandemic has led to volatility in financial markets and has affected, and may continue to affect, the market price of Plan assets. The potential economic impact brought by, and the duration of COVID-19 is difficult to assess or predict and will depend on future developments that are highly uncertain and cannot be predicted.

NOTE 7 – TAX STATUS

The Internal Revenue Service has determined and informed the Employer by a letter dated November 2, 2016, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan’s tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 – RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

Certain assets are managed by Charles Schwab. Charles Schwab is the trustee of the Plan, and therefore, transactions processed qualify as party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are party in interest transactions under ERISA. Certain investment related expenses are credited directly against the return on those investments.

NOTE 9 – CERTIFIED INFORMATION

Certain information related to investments disclosed in the accompanying Financial statements and ERISA-required supplemental schedules, including total investments, at fair value held at December 31, 2021 and 2020, and net appreciation in fair value of investments, dividends and interest for the year ended December 31, 2021, was obtained by management and agreed to or derived from information certified as complete and accurate by Charles Schwab, the trustee of the Plan.

NOTE 10 – ADJUSTED FUNDING TARGET ATTAINMENT PERCENTAGE

The Pension Protection Act of 2006 as amended by the Worker, Retiree and Employer Recovery Act of 2008 imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. The “At-Risk” status is referred to as the Funding Target Attainment Percentage. A plan’s funded percentage is referred to as the Adjusted Funding Target Attainment Percentage (“AFTAP”). The December 31, 2021 AFTAP for the Plan is 118.70%. Because the Plan’s AFTAP exceeds 80%, the Plan is not subject to any benefit restrictions.

SCHEDULE SB, PART V - STATEMENT OF ACTUARIAL ASSUMPTIONS/METHODS

Other Assumptions

Form of Payment	100% of cash balance participants are assumed to elect a lump sum payment. 100% of all other future retirees are assumed to elect a single life annuity.
Administrative Expenses	\$82,200 expected for the 2021 plan year.
Maximum Benefit (Limited under IRC Sec. 415)	\$230,000 for 2021.
Change in Funding Assumptions	The Cash Balance Interest Crediting Rate was updated from 2.12% to 1.36%. The Administrative Expenses assumption was increased from \$79,300 to \$82,200. The segment rates and mortality assumption have been updated as prescribed in IRS regulations.

Methods

Asset Valuation Method	The value of plan assets is equal to the fair value. For the ERISA funding valuation, discounted receivable contributions are added to the fair value of assets.
Unit Credit Actuarial Cost Method	The <u>Unit Credit Actuarial Cost Method</u> is used to determine the Funding Target (FT) for PPA funding purpose. The normal cost for each employee is the present value of the benefit which accrues during that current year. The total normal cost is the sum of the normal costs for all active participants plus expected administrative expenses.
Change in Methods	No changes from the prior year.
