BYNUM TRANSPORT, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Bynum Transport, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a participant-directed defined contribution plan covering all full-time employees of the Company who have six months of service and are age 18 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company oversees governance of the Plan and determines the appropriateness of the Plan's investment offerings, and monitors investment performance.

Contributions - Each year, participants may contribute up to 15% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants. The Company contributes 25% of the first 6% of base compensation that a participant contributes to the Plan. The matching Company contribution is directed by the participants. Contributions are subject to certain statutory limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's matching contribution, Plan earnings or losses, and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period no longer than life expectancy. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

As permitted under the CARES Act, for 2020, a participant who was actively employed by the Company could apply to the Plan to withdraw up to $100,000 from their account if the participant or a member of the participant's household was adversely impacted by the coronavirus. The $100,000 withdrawal limit was an aggregate amount that applied to coronavirus-related distributions taken from all of the participant's retirement plan accounts.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Forfeitures - Forfeitures of unvested Company matching contributions plus earnings thereon from terminated participant accounts can be used to offset future Company matching contributions or to pay Plan administration expenses. At December 31, 2021 and 2020, forfeited nonvested accounts totaled $696 and $0, respectively. During the year ended December 31, 2021, employer contributions were offset by forfeitures of $0.

Vesting - Participants are immediately vested in their elective deferral contributions, qualified matching contributions, and qualified nonelective contributions as defined in the Plan. Vesting in the Company contribution portion of their accounts plus earnings thereon is based on years of vesting service. A year of vesting service is a vesting service period in which the employee has at least 1,000 hours of service. A participant is 100% vested after five years of vesting service.

The vesting percentage for participants who are employees when they reach normal retirement age or early retirement age or death or total disability is 100%.

Hardship Withdrawals - Withdrawal of a portion of a participant's account will be permitted due to an immediate and heavy financial need, if it meets IRS requirements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the plan are prepared on the accrual basis of accounting.

Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

Payment of Benefits - Benefits are recorded when paid.

Operating Expenses - Expenses of maintaining the plan are paid partially by the Company and partially by the participants.

Subsequent Events - The Plan evaluated subsequent events through October 7, 2022, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTE 3 - FAIR VALUE MEASUREMENT

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology are observable market-based inputs or unobservable inputs corroborated by market data.
- Level 3 - Inputs to the valuation methodology are unobservable inputs reflecting the reporting entity's own assumptions.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques followed need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2021 and 2020.

- **Investment contracts** are valued at discontinuance value which is the amount the plan participant will receive if they transfer or surrender their funds out of the investment contract.

- **Separate accounts** are valued at net asset value (NAV) which is not publicly quoted provided the Plan has the ability to redeem the investment for the NAV at the measurement date.

NOTE 3 - FAIR VALUE MEASUREMENT (CONTINUED)

The following table sets forth, by level within the fair value hierarchy, a summary of the Plan's investments that were measured at fair value on a recurring basis as of December 31, 2021:

Expenses	(517)
Purchases	5,832

Ending Balance	$ 79,256
Unrealized Gains or Losses	$ (339)

NOTE 4 - CERTIFICATION OF INVESTMENT INFORMATION

The December 31, 2021 and 2020, Statements of Net Assets Available for Benefits, the investment activities included on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2021, and the accompanying notes to the financial statements were prepared in part or entirety from information certified by the Trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The information certified includes total investments of $3,067,475 and $2,610,969 at December 31, 2021 and 2020, respectively.

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 1996, the Plan entered into an investment contract with Principal Life Insurance Company (Principal). Principal maintains the contributions in general accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the statement of net assets available for benefits at fair value as determined using the market approach based on market prices of similar contracts. The adjustment from fair value to contract value for the investment contract is based on the contract value as reported by the Plan by Principal. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

The fair value of the investment contract at December 31, 2021 and 2020 was $78,917 and $73,987, respectively.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Principal. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

NOTE 6 - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Principal Financial Group. Principal Financial Group is the insurance carrier as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $20,864 for the year ended December 31, 2021.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 8 - TAX STATUS

The Internal Revenue Service has determined and informed the Plan sponsor by a letter dated June 30, 2020 that the Prototype Non-standardized Profit-Sharing Plan with CODA is designed in accordance with applicable sections of the Internal Revenue Code. The Plan administrator and the Plan's sponsor believe that the Plan is designed and has been and is currently being operated in compliance with applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

In March 2020, the World Health Organization declared the outbreak of COVID-19 as a pandemic, which continues to spread throughout the United States and the world. The pandemic, along with the measures implemented by governmental authorities and other third-parties in response, has negatively impacted the world economy, as well as investment fund prices and common stock share prices for most companies. The impact of COVID-19 on companies continues to evolve and its future effects on the Plan's net assets available for benefits and changes in net assets available for benefits are uncertain.
