Independent Auditor's Report

To the Plan Administrator
Southern Ohio Medical Center Cash Balance
Pension Plan

Opinion

We have audited the financial statements of Southern Ohio Medical Center Cash Balance Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2021 and 2020 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 and 2020 and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

To the Plan Administrator
Southern Ohio Medical Center Cash Balance
Pension Plan

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held at end of year as of December 31, 2021 and reportable transactions for the year ended December 31, 2021 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Southern Ohio Medical Center Cash Balance Pension Plan

Notes to Financial Statements

December 31, 2021 and 2020

Note 1 - Plan Description

The following description of Southern Ohio Medical Center Cash Balance Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan covering all employees of Southern Ohio Medical Center (the "Organization") who meet certain requirements regarding age and length of service, and it provides for retirement, death, and disability benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan has a cash balance aspect that reports accrued benefits to participants in the form of hypothetical individual account balances. Account balances are increased annually by a percentage, based on years of service, of the employee's compensation, plus an interest crediting rate determined annually, based on the average yield of the 10-year Treasury bond as of November of the preceding plan year.

Employees become participants in the Plan following attainment of the age of 21 and completion of one full year of service and at least 1,000 hours and are fully vested for normal retirement benefits after three years of service.

Pension Benefits

Employees with three or more years of service are entitled to normal annual pension benefits beginning at the normal retirement age of 65, as described in the Plan. The individual pension benefit is calculated as a single-life annuity commencing on the first day of the calendar month coincident with or next following the date the participant attains normal retirement age and is equal to the greater of the participant's prior plan benefit or the actuarial equivalent of the participant's cash balance account as of his or her normal retirement age.

Death Benefits

In certain circumstances, if an active or terminated employee who has a vested interest in the Plan dies prior to his or her normal retirement age, the surviving spouse or designated beneficiary shall receive a survivor benefit, as defined in the Plan.

Funding

Contributions are made by the Organization in actuarially determined amounts. The Organization's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA.

Purchase of Annuity Contract

During 2020, the Plan purchased a nonparticipating annuity contract with an insurance company totaling \$7,573,633. Under the agreement, beginning on January 1, 2021, the Plan transferred to the insurance company pension obligations for certain retirees or their beneficiaries receiving pension payments. In total, the Plan irrevocably transferred the obligations for approximately 240 retirees or their beneficiaries to the insurance company in exchange for pension trust assets, eliminating any future investment or mortality risk associated with those participants. The purchase of annuity contracts is reported in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2020. In November 2020, the Plan made an initial payment to the insurance company of \$7,450,178 for the purchase of the annuity contract. In March 2021, the Plan made an additional payment of \$123,455 based on a final reconciliation of the census data for participants included in the annuity contract. The amount paid subsequent to year end is recorded as a liability as of December 31, 2020 in the accompanying statement of net assets available for benefits.

December 31, 2021 and 2020

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value.

The commingled funds are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. All other investments are valued based on quoted market prices reported in active markets. See Note 3 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Plan and the Organization.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2021 are summarized as follows:

Actuarial cost method	Standard unit credit cost method																				
Interest rate	For 2021 - 5.75 percent per annum																				
Mortality basis	For 2021 - Amounts-weighted aggregate rates from the Pri-2012 mortality study, projected generationally from 2012 using Scale MP-2021																				
Crediting rate of interest	4.01 percent																				
Retirement	Below are the retirement assumptions for the Plan:																				
	<table><tr><th>Attained Age</th><th>Rate</th></tr><tr><td>55-59</td><td>6.00 %</td></tr><tr><td>60</td><td>12.00 %</td></tr><tr><td>61</td><td>8.00 %</td></tr><tr><td>62</td><td>15.00 %</td></tr><tr><td>63-64</td><td>12.00 %</td></tr><tr><td>65-67</td><td>30.00 %</td></tr><tr><td>68-69</td><td>25.00 %</td></tr><tr><td>70-71</td><td>40.00 %</td></tr><tr><td>72+</td><td>100.00 %</td></tr></table>	Attained Age	Rate	55-59	6.00 %	60	12.00 %	61	8.00 %	62	15.00 %	63-64	12.00 %	65-67	30.00 %	68-69	25.00 %	70-71	40.00 %	72+	100.00 %
Attained Age	Rate																				
55-59	6.00 %																				
60	12.00 %																				
61	8.00 %																				
62	15.00 %																				
63-64	12.00 %																				
65-67	30.00 %																				
68-69	25.00 %																				
70-71	40.00 %																				
72+	100.00 %																				

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

December 31, 2021 and 2020

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the statement of net assets available for benefits.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 10, 2022, which is the date the financial statements were available to be issued.

Subsequent to year end, the Plan's investment portfolio has incurred a significant decline in fair value, consistent with the general decline in financial markets. However, because the values of individual investments fluctuate with market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined.

Note 3 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Southern Ohio Medical Center Cash Balance Pension Plan

Notes to Financial Statements

December 31, 2021 and 2020

Note 3 - Fair Value Measurements (Continued)

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2021 and 2020:

Assets Measured at Fair Value on a Recurring Basis at December 31, 2021				
	Investments (at Fair Value)	Level 1	Level 2	Level 3
Money market fund	\$ 563,785	\$ 563,785	\$ -	\$ -

Total	6,087,627	\$ 6,087,627	\$ -	\$ -
Commingled funds measured at NAV	71,804,700			
Total investments at fair value	\$ 77,892,327			

Assets Measured at Fair Value on a Recurring Basis at December 31, 2020				
	Investments (at Fair Value)	Level 1	Level 2	Level 3
Money market fund	\$ 405,561	\$ 405,561	\$ -	\$ -
Corporate stock	291	291	-	-
Mutual funds - Fixed income	6,454,039	6,454,039	-	-
Total	6,859,891	\$ 6,859,891	\$ -	\$ -
Commingled funds measured at NAV	69,600,398			
Total investments at fair value	\$ 76,460,289			

The commingled funds invest in diversified portfolios in common stocks of U.S. and multinational companies; equity securities issued by non-U.S. companies of any size located in the world's developed and emerging capital markets; U.S. dollar-denominated investment grade fixed-income securities, including government securities, corporate bonds, and mortgage- and asset-backed securities; non-investment-grade bonds; non-U.S. dollar-denominated bonds; and bonds issued by issuers of emerging capital markets.

There are no investments valued at net asset value held at December 31, 2021 that have restrictions on redemption frequency. Of the total investments valued at net asset value held at December 31, 2020, commingled funds of \$4,731,991 have a monthly redemption frequency, and commingled funds of \$2,481,944 have a weekly redemption frequency. There are no unfunded commitments for investments measured at net asset value.

Notes to Financial Statements

December 31, 2021 and 2020

Note 4 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculations of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which were made as of the most recent actuarial valuation at January 1, 2021, are as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving benefit payments	\$ 39,831
Other vested participants	57,702,064
Total vested benefits	57,741,895
Nonvested benefits	446,819
Total actuarial present value of accumulated plan benefits	<u>\$ 58,188,714</u>

A summary of changes in the actuarial present value of accumulated plan benefits during the year ended January 1, 2021 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 61,360,435
Increase (decrease) during the year attributable to:	
Benefits accumulated	4,000,000
Actuarial gains and losses	2,744,767
Interest accumulation	3,259,176
Benefit payments	(6,716,180)
Purchase of annuity contracts	(7,573,633)
Changes of assumptions	1,114,149
Net decrease	<u>(3,171,721)</u>
Actuarial present value of accumulated plan benefits - End of year	<u>\$ 58,188,714</u>

The increase in the accumulated plan benefits related to assumption change in 2021 of \$1,114,149 was the result of the following assumption changes:

- Change in the mortality assumption from the 2020 static mortality table for annuitants and non-annuitants per 1.430(h)(3)-1(a)(3) and IRS Notice 2019-26 to the 2021 static mortality table for annuitants and non-annuitants per 1.430(h)(3)-1(a)(3) and IRS Notice 2019-67.

Note 5 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Disability Rates	None
Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)
Surviving Spouse Benefit	It is assumed that 100% of males and 100% of females have an eligible spouse, and that males are three years older than their spouses.
Valuation Compensation	2020 pensionable earnings
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$230,000 and the 401(a)(17) compensation limit of \$290,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>

Schedule SB, Part V—Summary of Plan Provisions

History of Plan

The Mercy Hospital Corporation Retirement Plan was amended and restated effective January 1, 1978. Prior to this date, the Hospital participated in a multi-hospital plan sponsored by the Sisters of the Academy of Our Lady of Lourdes. This plan satisfied the criteria of Code Section 501 to qualify as a church plan and therefore was not subject to the funding rules of the Employee Retirement Income Security Act of 1974 (ERISA).

The retirement plan as restated by Mercy Hospital is substantially the same as the prior plan.

The plan was amended effective July 31, 1982, to refund the past member contributions and to eliminate future member contributions.

The plan was amended effective January 1, 1984, to provide a benefit equal to the prior plan accrued benefit as of January 1, 1984, plus a career average benefit for service after January 1, 1984, equal to 1.5% of monthly compensation up to \$1,250 and 2.5% of monthly compensation in excess of \$1,250. There is a minimum benefit equal to the prior plan accrued benefit as of July 1, 1984, for any member in the plan on that date.

The plan was amended effective January 1, 1985, to comply with the Retirement Equity Act. Specifically, the eligibility requirements for plan participation were lowered to age 21 with one year of service. The plan's death benefit coverage was expanded to cover all vested participants. Employees are required to share in the cost of the protection provided.

Effective January 1, 1989, employees with five years of vesting service were fully vested in their accrued benefit. Also, both the compensation considered in the benefit calculation and the overall maximum benefit were reduced.

The Southern Hills Restated Retirement Plan was merged into the Scioto Memorial Hospital Restated Retirement Plan effective September 30, 1989. That plan was subsequently merged into the Mercy Hospital Corporation Retirement Plan effective December 31, 1989. The plan was then renamed the Southern Ohio Medical Center Retirement Plan.

Effective January 1, 1990, the plan was amended to provide a benefit of 0.75% of pay (as defined under the plan) with certain minimum benefits for plan participants age 60 and over on that date. In addition, the plan's early retirement reduction factors were modified.

Effective January 1, 1999, the plan was amended to stop benefit accruals under the old formula and convert the plan to a cash balance plan. The plan was renamed as the Southern Ohio Medical Center Cash Balance Pension Plan.

Definitions

Cash Balance Account

The notional account equal to the sum of:

- (a) The initial account balance;
- (b) Contribution credits;
- (c) Interest credits; and
- (d) Transition credits, if applicable.

Initial Account Balance

The actuarial equivalent lump sum amount of the prior plan benefit in the form of a single life annuity commencing at normal retirement age.

Contribution Credits

A percent of compensation credited to the cash balance account on the last day of each plan year, provided the participant earns a year of service. The percent is based on years of service as of the beginning of the plan year according to the following table:

Years of Service	Percent of Compensation
0–4	2.0%
5–9	2.5%
10–14	3.0%
15–19	4.0%
20–24	5.0%
25–29	6.0%
30+	7.0%

Interest Credits

An amount credited to the cash balance account on the last day of each plan year determined by multiplying the value of the cash balance account at the beginning of the plan year by the interest credit rate. Interest credits will be given for each year the participant has an account up until the participant commences benefits. Certain transition credits were provided for the five years following January 1, 1999 for participants meeting designated age and service conditions.

Prior Plan Benefit

The benefit as determined on December 31, 1998 under the provisions of the plan in effect on that date.

Actuarial Equivalent

The cash balance account is converted to the form of payment using the following basis:

Southern Ohio Medical Center Cash Balance Pension Plan
EIN: 31-0678022 PN: 003

(a) Annuities—The cash balance account will be converted to an annuity based on the November 10-year Treasury rate for the prior plan year with a minimum rate of 4.01% and the current 417(e) mortality table for lump sums.

(b) Lump sum—The lump sum amount is equal to the cash balance account.

Interest Credit Rate

November 10-year Treasury rate for the prior plan year with a minimum rate of 4.01%.

Compensation

Total remuneration paid to a member of the plan. For 2020 recognizable compensation is limited to \$285,000.

Service

One year of service shall be credited for each year an employee completes at least 1,000 hours.

Plan Changes Since the Prior Year

The funding valuation does not reflect any plan changes.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Under the American Rescue Plan Act of 2021 (ARPA), the stabilized interest rates for certain purposes will be adjusted once the ARPA stabilization is applied. By default, this stabilization would have applied starting with the 2020 plan year.

This Schedule SB reflects stabilized 2021 minimum funding interest rates that are adjusted for ARPA. Via this filing, Southern Ohio Medical Center will irrevocably commit the Southern Ohio Medical Center Cash Balance Pension Plan to use of those rates for the 2021 plan year.

Schedule SB, line 32—Schedule of Amortization Bases

Type of Base	Present Value of Installment	Date Established	Years Remaining	Amortization Installment
Shortfall	\$ 4,557,259	January 1, 2021	15	\$ 424,926

Under the American Rescue Plan Act of 2021 (ARPA), the shortfall relief wipes out existing shortfall amortization bases and changes the amortization period. By default, this relief would have applied starting with the 2022 plan year. This Schedule SB reflects the ARPA shortfall relief effective with the 2021 plan year. Via this filing, Southern Ohio Medical Center will make that deemed election for the Southern Ohio Medical Center Cash Balance Pension Plan.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the unlimited expected return on assets from 6.00% to 5.75%.

The non-prescribed changes were made to better reflect the anticipated plan experience. These changes did not reduce the funding shortfall more than the thresholds stated in Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.
