Independent Auditor's Report

To the Plan Administrator and Plan Participants of the
RLM Associates Retirement Plan

We have performed an audit of the financial statements of RLM Associates Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements ("2021 Financial Statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of RLM Associates Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from the qualified institutions as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of RLM Associates Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about RLM Associates Retirement Plan’s ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan’s transactions that are presented and disclosed in the financial statements are in conformity with the plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the RLM Associates Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about RLM Associates Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedules Required by ERISA

The supplemental schedules of (1) Form 5500 Schedule H, Line 4a – Schedule of Delinquent Participant Contributions for the year ended December 31, 2021 and (2) Form 5500 Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2021 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial

statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statement

We were engaged to audit the 2020 financial statements of RLM Associates Retirement Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 12, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

RLM Associates Retirement Plan
Notes to Financial Statements
December 31, 2021 and 2020

Note 1. Description of the Plan

The following description of the RLM Associates Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan was adopted on March 1, 1996 to qualify as a defined contribution retirement plan for The Mayer Corporation. The Plan covers The Mayer Corporation and affiliates (collectively the “Company” or “Employer”) eligible employees. The Plan has a pre-tax salary reduction provision as defined under Section 401(k) and an employer matching contribution under 401(m) of the Internal Revenue Code (the “IRC”). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Participant Eligibility

All of the Company’s employees are eligible to participate in the Plan upon attaining the age of 21 and on the first day of the month after the completion of three months of service, except for collectively bargained employees, non-resident aliens, and residents of Puerto Rico.

Contributions

The Company’s eligible employees may contribute up to 100% of their compensation, subject to the limitations as defined by the IRC, each year on a pre-tax basis by salary reduction.

The Company contributes a 401(k) safe harbor matching contribution. The safe harbor matching contribution is based on 100% of the first 3% of the participant’s eligible compensation and 50% of the next 2% of the participant’s eligible compensation.

Participants direct the investment of all contributions to their account into various investment options offered by the Plan.

Vesting

Participants are 100% vested in their contributions, Company safe harbor matching contributions, and earnings on these contributions.

Safe Harbor Election

The Plan has elected to be a Safe Harbor Plan according to IRC regulations. Accordingly, the Plan must meet certain requirements relating to employer contributions and investing schedules and meet the applicable “Safe Harbor” requirements. If the Plan meets the “Safe Harbor” requirements it is not subject to the certain discrimination tests required by the IRC.

Note 1. Description of the Plan (continued)

Unallocated Assets

Unallocated assets represent corrections of employer matching contributions. Unallocated assets may be used to offset Company contributions or to pay Plan expenses. As of December 31, 2021 and 2020, there was approximately \$6,100 and \$8,200, respectively, of unallocated assets available.

Payment of Benefits

Upon termination of service, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the vested interest in his or her account, or substantially equal installments over a certain period, the total of which is equal to the value of his or her account.

Active participants may withdraw any part of their account in a single sum upon attainment of age 59 ½. Upon financial hardship a participant may receive all or a portion of the elective deferral in his or her account, subject to certain restrictions.

Upon termination a participant's total vested benefit of less than \$1,000 is subject to an involuntary cash-out distribution even if the participant does not consent to a distribution. Any distribution greater than \$1,000 but less than \$5,000 that is made without the participant's consent will be rolled over into an individual retirement account.

Participant Directed Investments

A participant may choose among various funds in which his or her respective contribution and employer contribution may be invested subject to the limitations described in the Plan.

Plan Administrative Expenses

The Company provides or pays for certain accounting, legal and management services without charge to the Plan. Fees related to the administration of notes receivable from participants are charged directly to participant accounts and are included in administrative fees. Investment management related expenses are included in net appreciation (depreciation) of fair value of investments.

Notes Receivables from Participants

Participants may borrow from their accounts up to a maximum of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest is paid ratably through payroll deductions. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs.

The Plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measures them at their unpaid principal balance plus any accrued interest.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for benefits and the changes in those net assets. The net assets of the Plan are allocated entirely to individual participants' accounts.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of the contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Valuation and Income Recognition

All investments are carried at fair value or an approximation of fair value except for the Fully benefit responsive investment contract which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is accrued as earned.

Non-distributed benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the year in which such benefits are paid.

Subsequent Events

The Company has evaluated all events subsequent to December 31, 2021, the date of the statement of net assets available for benefits, through the date of the Independent Auditor's Report, the date which the financial statements were available to be issued.

Note 3. Guaranteed Interest Account

The Plan participated in a group funding agreement with Voya Retirement Insurance and Annuity Company which maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fund was considered to be a fully benefit-responsive investment contract. Contract value was the relevant measure for the fully benefit-responsive investment contract because this was the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The crediting interest rate was 1.0% for the year ended December 31, 2021 and 2020.

Note 4. Information Certified by the Investment Custodian and Investment Contract Issuer

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2021 and 2020, and net appreciation in fair value of investments, interest and dividends and interest income on notes receivable from participants for the year ended December 31, 2021, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company (the investment custodian) as of December 31, 2021 and for the period January 21, 2021 through December 31, 2021 and by Voya Retirement Insurance and Annuity Company (the investment contract issuer), as of December 31 2020 and for the period January 1, 2021 through January 21, 2021. This information has not been audited by the Plan's independent auditors.

Note 5. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 5. Fair Value Measurements (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2021 and 2020:

Pooled separate accounts: The Plan participated in contracts with Voya Retirement Insurance and Annuity Company ("Voya") whereby the assets of the Plan were pooled with those of other unrelated plans. The Plan owned units of participation in the fair value of the account's underlying assets. Voya holds these assets in trust for the participating plans. These investments are investment securities valued using the Net Asset Value ("NAV") as the practical expedient as provided by the investment custodian. The NAV is quoted on a private market that is not active, however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

Mutual funds and money market funds: These investments are valued at the closing quoted market price reported on the active market on which the public investment securities are traded.

Common/collective trust fund (Stable Value Fund): The investment is valued using Net Asset Value ("NAV") as a practical expedient based on contract value, which represents invested principal plus accrued interest less expenses thereon. In determining contract value, the fund manager considers such factors as the benefit responsiveness of the contracts, the ability of the parties to the contracts to perform in accordance with the terms of the contracts and the likelihood of default by the issuer of an investment security. While the fair value of the investments in the common/collective trust are determined by the investee's trustee based on the fair value of the underlying securities within the investment, at the fund level, the fair value of the investment as reported by the investment custodian at the Plan level is based on NAV as the practical expedient which is contract value. Contract value is the relevant fair value for such an investment as it is the value that participant's transactions are reported.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following are the Plan's financial instruments carried at fair value categorized by the fair value hierarchy as of December 31, 2021:

	Fair Value Measurements Using Input Type			
	Level 1	Level 2	Level 3	Total
<u>December 31, 2021</u>				
Money market fund	\$ 1	\$ ---	\$ ---	\$ 1
Mutual funds	<u>10,046,690</u>	---	---	<u>10,046,690</u>
Total investments categorized in the fair value hierarchy	<u>\$ 10,046,691</u>	<u>\$ ---</u>	<u>\$ ---</u>	10,046,691
Common/collective trust fund valued at NAV*				<u>887,487</u>
Total investments, at fair value				<u>\$ 10,943,178</u>

Note 5. Fair Value Measurements (continued)

As of December 31, 2020, the Plan did not hold any investments requiring fair value measurement leveling within the fair value hierarchy. Pooled separate accounts measured at NAV as a practical expedient totaled \$9,280,915 as of December 31, 2020.

**Certain investments that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented on the Statements of Net Assets Available for Benefits.*

The Stable Value Fund has a 12-month notice period for redemptions by participating plans. There are no other redemption restrictions or redemption notice requirements and no unfunded commitments as of December 31, 2021 and 2020.

Note 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8. Tax Status

The Plan has a pre-approved plan document which received a favorable opinion letter on June 30, 2020 from the Internal Revenue Service stating that the non-standardized prototype plan document as then designed was in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's tax returns generally remain open for Federal tax audits for three years from the filing date.

Note 9. Related Party and Party-In-Interest Transactions

Certain Plan investments were in pooled separate accounts which are managed by Voya Retirement Insurance and Annuity Company. Voya was the investment contract issuer and Plan record-keeper.

Certain Plan assets are invested in products sold by and managed by Fidelity Investments. Fidelity Management Trust Company, the trustee of the Plan, is a wholly owned subsidiary of Fidelity Investments.

Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of investments. These fees are paid to the investment fund manager and may include certain revenue sharing fees that are paid to the investment custodian of investment contract issuer, other investment custodians and investment advisors.

Additionally, certain administrative expenses are paid directly to Fidelity and Voya and other service providers that are considered parties-in-interest under ERISA and these fees are included in administration fees.

The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations.

These transactions qualify as party-in-interest transactions for which there are statutory exemptions.

Note 10. Reconciliation of Financial Statements to the Form 5500

The differences between the Form 5500 reporting and the financial statement reporting is primarily due to the Form 5500 being prepared on a modified cash basis of accounting while the financial statements are prepared on the accrual basis accounting.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2021 and 2020:

	December 31,	
	2021	2020
Net assets available for benefits per the financial statements	\$ 11,161,962	\$ 10,564,830
Less: Employer contributions receivable	---	(5,317)
Less: Participant contributions receivable	---	(8,167)
Net assets available for benefits per the Form 5500	<u>\$ 10,161,962</u>	<u>\$ 10,515,346</u>

Note 10. Reconciliation of Financial Statements to the Form 5500 (continued)

The following is a reconciliation of the net increase in net assets available for benefits per the financial statement to the Form 5500 for the year ended December 31, 2021:

	Year Ended December 31, 2021
Net increase in net assets available for benefits per the financial statements	\$ 597,132
Add: Employer contributions receivable at December 31, 2020	5,317
Participant contributions receivable at December 31, 2020	<u>8,167</u>
Net increase in net assets available for benefits per the Form 5500	<u>\$ 610,616</u>

Note 11. Pooled Separate Account Presentation

Certain Plan assets are invested in pooled separate accounts. Pooled separate accounts invest in various investment instruments including equity instruments (common stocks), mutual funds, debt instruments and other investment funds. The pooled separate accounts held by the Plan do not file an Annual Report (Form 5500) on their own and therefore they are not considered Direct Filing Entities (“DFE’s”) as defined by the U.S. Department of Labor. Pooled separate accounts that are not DFE’s are reported on the Form 5500 Schedule H based on the underlying investment types held by each fund and not as pooled separate accounts per the instructions of the Form 5500, whereas the financial statements for the Plan reflect the investments in these funds as pooled separate accounts.

Independent Auditor's Report

To the Plan Administrator and Plan Participants of the
RLM Associates Retirement Plan

We have performed an audit of the financial statements of RLM Associates Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements ("2021 Financial Statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of RLM Associates Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from the qualified institutions as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of RLM Associates Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about RLM Associates Retirement Plan’s ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan’s transactions that are presented and disclosed in the financial statements are in conformity with the plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the RLM Associates Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about RLM Associates Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedules Required by ERISA

The supplemental schedules of (1) Form 5500 Schedule H, Line 4a – Schedule of Delinquent Participant Contributions for the year ended December 31, 2021 and (2) Form 5500 Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2021 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial

statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statement

We were engaged to audit the 2020 financial statements of RLM Associates Retirement Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 12, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

RLM Associates Retirement Plan
Notes to Financial Statements
December 31, 2021 and 2020

Note 1. Description of the Plan

The following description of the RLM Associates Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan was adopted on March 1, 1996 to qualify as a defined contribution retirement plan for The Mayer Corporation. The Plan covers The Mayer Corporation and affiliates (collectively the “Company” or “Employer”) eligible employees. The Plan has a pre-tax salary reduction provision as defined under Section 401(k) and an employer matching contribution under 401(m) of the Internal Revenue Code (the “IRC”). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Participant Eligibility

All of the Company’s employees are eligible to participate in the Plan upon attaining the age of 21 and on the first day of the month after the completion of three months of service, except for collectively bargained employees, non-resident aliens, and residents of Puerto Rico.

Contributions

The Company’s eligible employees may contribute up to 100% of their compensation, subject to the limitations as defined by the IRC, each year on a pre-tax basis by salary reduction.

The Company contributes a 401(k) safe harbor matching contribution. The safe harbor matching contribution is based on 100% of the first 3% of the participant’s eligible compensation and 50% of the next 2% of the participant’s eligible compensation.

Participants direct the investment of all contributions to their account into various investment options offered by the Plan.

Vesting

Participants are 100% vested in their contributions, Company safe harbor matching contributions, and earnings on these contributions.

Safe Harbor Election

The Plan has elected to be a Safe Harbor Plan according to IRC regulations. Accordingly, the Plan must meet certain requirements relating to employer contributions and investing schedules and meet the applicable “Safe Harbor” requirements. If the Plan meets the “Safe Harbor” requirements it is not subject to the certain discrimination tests required by the IRC.

Note 1. Description of the Plan (continued)

Unallocated Assets

Unallocated assets represent corrections of employer matching contributions. Unallocated assets may be used to offset Company contributions or to pay Plan expenses. As of December 31, 2021 and 2020, there was approximately \$6,100 and \$8,200, respectively, of unallocated assets available.

Payment of Benefits

Upon termination of service, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the vested interest in his or her account, or substantially equal installments over a certain period, the total of which is equal to the value of his or her account.

Active participants may withdraw any part of their account in a single sum upon attainment of age 59 ½. Upon financial hardship a participant may receive all or a portion of the elective deferral in his or her account, subject to certain restrictions.

Upon termination a participant's total vested benefit of less than \$1,000 is subject to an involuntary cash-out distribution even if the participant does not consent to a distribution. Any distribution greater than \$1,000 but less than \$5,000 that is made without the participant's consent will be rolled over into an individual retirement account.

Participant Directed Investments

A participant may choose among various funds in which his or her respective contribution and employer contribution may be invested subject to the limitations described in the Plan.

Plan Administrative Expenses

The Company provides or pays for certain accounting, legal and management services without charge to the Plan. Fees related to the administration of notes receivable from participants are charged directly to participant accounts and are included in administrative fees. Investment management related expenses are included in net appreciation (depreciation) of fair value of investments.

Notes Receivables from Participants

Participants may borrow from their accounts up to a maximum of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest is paid ratably through payroll deductions. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs.

The Plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measures them at their unpaid principal balance plus any accrued interest.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for benefits and the changes in those net assets. The net assets of the Plan are allocated entirely to individual participants' accounts.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of the contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Valuation and Income Recognition

All investments are carried at fair value or an approximation of fair value except for the Fully benefit responsive investment contract which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is accrued as earned.

Non-distributed benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the year in which such benefits are paid.

Subsequent Events

The Company has evaluated all events subsequent to December 31, 2021, the date of the statement of net assets available for benefits, through the date of the Independent Auditor's Report, the date which the financial statements were available to be issued.

Note 3. Guaranteed Interest Account

The Plan participated in a group funding agreement with Voya Retirement Insurance and Annuity Company which maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fund was considered to be a fully benefit-responsive investment contract. Contract value was the relevant measure for the fully benefit-responsive investment contract because this was the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The crediting interest rate was 1.0% for the year ended December 31, 2021 and 2020.

Note 4. Information Certified by the Investment Custodian and Investment Contract Issuer

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2021 and 2020, and net appreciation in fair value of investments, interest and dividends and interest income on notes receivable from participants for the year ended December 31, 2021, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company (the investment custodian) as of December 31, 2021 and for the period January 21, 2021 through December 31, 2021 and by Voya Retirement Insurance and Annuity Company (the investment contract issuer), as of December 31 2020 and for the period January 1, 2021 through January 21, 2021. This information has not been audited by the Plan's independent auditors.

Note 5. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 5. Fair Value Measurements (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2021 and 2020:

Pooled separate accounts: The Plan participated in contracts with Voya Retirement Insurance and Annuity Company ("Voya") whereby the assets of the Plan were pooled with those of other unrelated plans. The Plan owned units of participation in the fair value of the account's underlying assets. Voya holds these assets in trust for the participating plans. These investments are investment securities valued using the Net Asset Value ("NAV") as the practical expedient as provided by the investment custodian. The NAV is quoted on a private market that is not active, however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

Mutual funds and money market funds: These investments are valued at the closing quoted market price reported on the active market on which the public investment securities are traded.

Common/collective trust fund (Stable Value Fund): The investment is valued using Net Asset Value ("NAV") as a practical expedient based on contract value, which represents invested principal plus accrued interest less expenses thereon. In determining contract value, the fund manager considers such factors as the benefit responsiveness of the contracts, the ability of the parties to the contracts to perform in accordance with the terms of the contracts and the likelihood of default by the issuer of an investment security. While the fair value of the investments in the common/collective trust are determined by the investee's trustee based on the fair value of the underlying securities within the investment, at the fund level, the fair value of the investment as reported by the investment custodian at the Plan level is based on NAV as the practical expedient which is contract value. Contract value is the relevant fair value for such an investment as it is the value that participant's transactions are reported.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following are the Plan's financial instruments carried at fair value categorized by the fair value hierarchy as of December 31, 2021:

	Fair Value Measurements Using Input Type			
	Level 1	Level 2	Level 3	Total
<u>December 31, 2021</u>				
Money market fund	\$ 1	\$ ---	\$ ---	\$ 1
Mutual funds	<u>10,046,690</u>	---	---	<u>10,046,690</u>
Total investments categorized in the fair value hierarchy	<u>\$ 10,046,691</u>	<u>\$ ---</u>	<u>\$ ---</u>	10,046,691
Common/collective trust fund valued at NAV*				<u>887,487</u>
Total investments, at fair value				<u>\$ 10,943,178</u>

Note 5. Fair Value Measurements (continued)

As of December 31, 2020, the Plan did not hold any investments requiring fair value measurement leveling within the fair value hierarchy. Pooled separate accounts measured at NAV as a practical expedient totaled \$9,280,915 as of December 31, 2020.

**Certain investments that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented on the Statements of Net Assets Available for Benefits.*

The Stable Value Fund has a 12-month notice period for redemptions by participating plans. There are no other redemption restrictions or redemption notice requirements and no unfunded commitments as of December 31, 2021 and 2020.

Note 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8. Tax Status

The Plan has a pre-approved plan document which received a favorable opinion letter on June 30, 2020 from the Internal Revenue Service stating that the non-standardized prototype plan document as then designed was in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's tax returns generally remain open for Federal tax audits for three years from the filing date.

Note 9. Related Party and Party-In-Interest Transactions

Certain Plan investments were in pooled separate accounts which are managed by Voya Retirement Insurance and Annuity Company. Voya was the investment contract issuer and Plan record-keeper.

Certain Plan assets are invested in products sold by and managed by Fidelity Investments. Fidelity Management Trust Company, the trustee of the Plan, is a wholly owned subsidiary of Fidelity Investments.

Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of investments. These fees are paid to the investment fund manager and may include certain revenue sharing fees that are paid to the investment custodian of investment contract issuer, other investment custodians and investment advisors.

Additionally, certain administrative expenses are paid directly to Fidelity and Voya and other service providers that are considered parties-in-interest under ERISA and these fees are included in administration fees.

The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations.

These transactions qualify as party-in-interest transactions for which there are statutory exemptions.

Note 10. Reconciliation of Financial Statements to the Form 5500

The differences between the Form 5500 reporting and the financial statement reporting is primarily due to the Form 5500 being prepared on a modified cash basis of accounting while the financial statements are prepared on the accrual basis accounting.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2021 and 2020:

	<u>December 31,</u>	
	<u>2021</u>	<u>2020</u>
Net assets available for benefits per the financial statements	\$ 11,161,962	\$ 10,564,830
Less: Employer contributions receivable	---	(5,317)
Less: Participant contributions receivable	---	(8,167)
Net assets available for benefits per the Form 5500	<u>\$ 10,161,962</u>	<u>\$ 10,515,346</u>

Note 10. Reconciliation of Financial Statements to the Form 5500 (continued)

The following is a reconciliation of the net increase in net assets available for benefits per the financial statement to the Form 5500 for the year ended December 31, 2021:

	Year Ended December 31, 2021
Net increase in net assets available for benefits per the financial statements	\$ 597,132
Add: Employer contributions receivable at December 31, 2020	5,317
Participant contributions receivable at December 31, 2020	<u>8,167</u>
Net increase in net assets available for benefits per the Form 5500	<u>\$ 610,616</u>

Note 11. Pooled Separate Account Presentation

Certain Plan assets are invested in pooled separate accounts. Pooled separate accounts invest in various investment instruments including equity instruments (common stocks), mutual funds, debt instruments and other investment funds. The pooled separate accounts held by the Plan do not file an Annual Report (Form 5500) on their own and therefore they are not considered Direct Filing Entities (“DFE’s”) as defined by the U.S. Department of Labor. Pooled separate accounts that are not DFE’s are reported on the Form 5500 Schedule H based on the underlying investment types held by each fund and not as pooled separate accounts per the instructions of the Form 5500, whereas the financial statements for the Plan reflect the investments in these funds as pooled separate accounts.
