Report of Independent Auditors

To the Administrator of The Baltimore Sun Company Employees' Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying 2021 financial statements of The Baltimore Sun Company Employees' Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The 2021 financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, including the related notes (collectively referred to as the "2021 financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 10 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors'

Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Other Matter –2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan, which comprise the statement of net assets available for benefits as of December 31, 2020 and the related statement of changes in net assets available for benefits for the year then ended. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 14, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements, other than that derived from the certified information, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material

if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2021 ("supplemental schedule"), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures,

including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

The following brief description of The Baltimore Sun Company Employees' Retirement Plan (the "Plan") is provided for general information purposes. Participants should refer to the Plan document and related amendments for more complete information. On July 16, 2014, Tribune Company amended and restated its certificate of incorporation and changed its name to Tribune Media Company (the "Company").

General

The Plan is a noncontributory defined benefit pension plan covering all employees of The Baltimore Sun Company (a former subsidiary of the Company) whose positions were covered by collective bargaining agreements that expressly provided for participation in the Plan and who satisfied the eligibility requirements. On August 4, 2014, the Company replaced The Baltimore Sun Company as the Plan sponsor.

On June 12, 2000, The Times Mirror Company, former parent of The Baltimore Sun Company, was merged with and into Tribune Company. As a result of this change in control, participants who were employees of The Times Mirror Company and its subsidiaries as of June 12, 2000, became 100% vested in their accrued benefits as of that date.

Effective on June 26, 2011, December 31, 2011, December 31, 2012 and January 31, 2013, depending on the applicable employee group and, if applicable, the collective bargaining agreement governing the employees' participation in the Plan (each such date, as applicable, the "Effective Date"), the Plan was frozen with respect to future benefit accruals and participation including, but not limited to, future benefit accruals related to service and earnings on or after the Effective Date.

On December 9, 2013, Tribune Company filed a registration statement on Form 10 with the U.S. Securities and Exchange Commission for the purpose of effecting the separation of its principal publishing operations (the "Publishing Spin-Off") into an independent company, Tribune Publishing Company ("Tribune Publishing") (formerly tronc, Inc.). The Publishing Spin-Off was consummated on August 4, 2014 and the Company became the new Plan sponsor. Upon consummation of the Publishing Spin-Off, all Tribune Publishing employees who were participants in the Plan were considered as having separated from service and became fully vested in their accrued benefit under the Plan. As such, although the Plan is frozen, Tribune Publishing participants are eligible to take a distribution, subject to the terms and conditions of the Plan. There are no longer active employees of Tribune Publishing or any of its subsidiaries participating in the Plan.

Effective March 15, 2016, the Company entered into an agreement with Transamerica Retirement Solutions, LLC ("TRS") to provide administrative, retiree payment and custody services for the Plan. On March 24, 2016, the Company entered into a custody agreement with State Street Bank and Trust Company ("State Street") and TRS. This agreement allows State Street to act as custodian for certain plan assets which are invested in the Vanguard Federal Money Market fund, so that TRS can make benefit payments for the Plan.

On November 30, 2018, the Company entered into an Agreement and Plan of Merger (the "Nexstar Merger Agreement") with Nexstar Media Group, Inc. ("Nexstar") and Titan Merger Sub, Inc. (the "Nexstar Merger Sub") providing for the acquisition by Nexstar of all of the outstanding shares of the Company's Class A common stock and Class B common stock by means of a merger of Nexstar Merger Sub with and into the Company, with the Company surviving the merger as a wholly owned subsidiary of Nexstar (the "Nexstar Merger"). The Nexstar Merger was consummated on September 19, 2019.

The Baltimore Sun Company Employees' Retirement Plan

Notes to Financial Statements

December 31, 2021 and 2020

The Plan is subject to the provisions of ERISA and was administered by the Tribune Media Company Employee Benefits Committee (the "Tribune Committee") consisting of Company employees who were appointed by the Board of Directors or by the Chairman of the Tribune Committee. Upon the consummation of the Nexstar Merger, the Tribune Committee was dissolved and, effective September 19, 2019, a committee selected by Nexstar assumed responsibilities for governance of the Plan.

In September 2020, the Company offered certain terminated vested participants a voluntary, limited time offer to receive their pension benefit in a single lump sum payment or to start a monthly payment, payable as of December 1, 2020. To be eligible for this offer, one must have terminated employment prior to July 1, 2020, remain terminated through December 1, 2020 and have a lump sum value of \$50,000 or less. If one commenced benefits, died or was rehired prior to December 1, 2020, the offer was no longer valid. The participants eligible to take this limited time offer submitted their elections on or before October 31, 2020. There were 261 participants that elected the lump sum offer during 2020 and lump sum payments of \$6,565,726 are included in Benefits paid to participants in the accompanying Statements of Changes in Net Assets Available for Benefits.

On March 27, 2020, the Coronavirus Aid Relief, and Economic Security Act ("CARES" Act) was passed by Congress. The CARES Act, among other things, includes several relief provisions available to tax qualified retirement benefit plans and their participants. Portions of the CARES Act make changes to existing law including relating to the amount and circumstances permitting penalty-free distributions. The administrator of the Plan determined no changes to the Plan document were necessary as a result.

Chapter 11 Reorganization

On December 8, 2008, Tribune Company and 110 of its direct and indirect wholly owned subsidiaries (collectively, the "Debtors"), filed voluntary petitions for relief under chapter 11 ("Chapter 11") of title 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware (the "Bankruptcy Court"). On December 31, 2012, a plan of reorganization for the Debtors became effective and the Debtors emerged from Chapter 11. Pursuant to the Debtors plan of reorganization, the Plan has been assumed by the applicable reorganized Debtor.

Pension Benefits

Participants hired after June 12, 2000, who have completed five years of vesting service are generally entitled to receive a pension benefit upon retirement based upon length of employment, the applicable dollar multiplier, and eligible compensation as provided by the Plan.

The Plan's normal retirement date is the first day of the month coinciding with or following the participant's 65th birthday. A vested participant may retire early with a reduced benefit any time after age 55 provided that the participant has completed at least 15 years of credited service.

Participants who terminated employment after achieving vested status are entitled to a deferred benefit beginning at normal retirement date of all benefits accrued prior to termination. A vested terminated participant with 15 years of service may elect to commence benefits on or after attaining age 55. Benefits with a present value of \$10,000 or less may be paid in a lump sum (or normal annuity form of benefit) after termination, at the participant's election, subject to certain requirements.

Subject to certain limitations as more fully described in the Plan document, a participant who had not reached his normal retirement date (as defined in the Plan document), but who had completed 15 years of service could retire from service on a disability retirement allowance (as defined in the Plan document) on the first day of the month coincident with or next following the date employment

by the employer terminated on account of the disability.

If a participant had a vested interest in his or her accrued benefit (as defined in the Plan document) as of the date of his or her death and dies prior to the commencement of benefits, a Pre-Retirement Survivor Annuity may be payable to such participant's surviving spouse (or, in the case of an active participant on the date of his death who has no surviving spouse as of the date of his death, such participant's beneficiary). Eligibility for such benefit is subject to certain limitations as more fully described in the Plan document.

If a participant dies after termination of service and after benefit commencement, the benefits, if any, to which a beneficiary may be entitled shall be paid according to the benefit form already in effect at the date of the participant's death.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated Plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation

The Plan's investments in the Tribune Company Master Trust for Pension Plans (the "Master Trust"), which was established for the investment of assets of the Plan and other Company-sponsored pension plans, are stated at fair value.

The Plan's investment in the registered investment company is stated at fair value which is based on quoted prices of the securities on the last business day of the Plan year.

The Plan's interest in the Master Trust is determined by The Northern Trust Company (the "Trustee") on a monthly basis based on the beginning market value of the Plan's interest plus contributions minus benefit payments which equals the adjusted balance. The Plan's adjusted balance is divided by the total adjusted balance of the Master Trust to determine the Plan's percentage interest in the Master Trust.

The fair values of the underlying investments in the Master Trust, shown in Note 6, are based upon published market quotations or fair value as determined by the Trustee. Fair values of investments in the Master Trust not having an established market are developed by reference to quoted market values and other financial data pertaining to investments of a similar nature, quality, and yield, as determined by the Trustee. Refer to Note 7 for fair value measurements.

Income Recognition

The Plan presents the net appreciation or depreciation in fair value of investments, which includes the realized gains or losses, and the unrealized appreciation or depreciation on those investments, in the Statements of Changes in Net Assets Available for Benefits.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 5) are those future periodic payments, including lump-sum distributions that are attributable, under the Plan's provisions, to the service that employees have rendered as of the benefit information date. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries and (b) beneficiaries of employees who have died.

The actuarial present value of accumulated plan benefits under the Plan was calculated by the Plan's actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in these valuations were:

- Discount rate – 2.39% and 3.19% per annum at December 31, 2020 and December 31, 2019, respectively.
- Mortality - Based on the Pri-2012 Mortality Table with Generational Projections using scale MP-2021 (adjusted through 2023 to reflect anticipated slow recovery from Covid-19) and the Pri-2012 Mortality Table with Generational Projections using scale MP-2020 published by the Society of Actuaries' Retirement Plans Experience Committee for December 31, 2020 and 2019, respectively.
- Retirement age - Age 65

These actuarial assumptions are based on the assumption that the Plan will continue. Should the Plan terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2021 and 2020. Had the valuations been performed as of December 31, there would be no material difference.

Benefit Payments

Benefit payments are recorded when paid. Benefit claims that have been processed and approved for payment prior to December 31 but not yet distributed as of that date are shown as a liability on the Form 5500. At December 31, 2021 and 2020, there were no benefit claims that were processed and approved for payment that had not been distributed.

Administrative Fees and Expenses

Administrative fees are paid by the Plan. Administrative expenses relating to the Master Trust are allocated to the individual plans based upon average balances invested by each plan.

Recent Accounting Pronouncement

In August, 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*, which includes additions, modifications and eliminations to existing disclosure requirements for fair value measurement. The prospective application of this guidance was effective for annual periods beginning in 2020. Plan management determined the adoption of this standard did not have a material effect on the Plan's financial statements.

3. Funding Policy

Company contributions are actuarially determined to provide the necessary assets to pay benefits to Plan participants. Such contributions meet the minimum funding requirements of ERISA. The Company may, at its discretion, contribute amounts to the Plan in excess of the minimum funding requirements. The Company has complied with the minimum funding requirements of ERISA in 2021 and 2020.

On March 11, 2021, the American Rescue Plan Act of 2021 ("ARPA") was signed into law. The ARPA includes changes to the employer funding requirements for single-employer pension plans and is designed to reduce the amounts of required contributions as a relief. The ARPA also includes multi-employer pension plan funding relief but had no significant impact to the Company. The two key aspects of the ARPA funding relief for single-employer plans are (i) the extended amortization and "fresh start" of funding shortfalls and (ii) the extended funding interest rate stabilization. The Plan has no funding shortfalls to amortize but utilized the extended funding interest rate stabilization on its pension benefit plans. This relief increased the Plan's funding target attainment to above 100%. As such, the Company was not required to make contributions to its qualified pension benefit plans in 2021.

4. Plan Termination

In the event the Plan terminates, the funds of the Plan shall be used for the benefit of participants or their contingent annuitants under the Plan as of the date of such termination, except that any funds not required to satisfy all liabilities of the Plan shall be returned to the Company. Each participant, contingent annuitant receiving a retirement allowance, or spouse receiving a spousal allowance, shall be entitled to a share in the assets of the Plan available to provide benefits in the manner and to the extent then provided in Section 4044 of ERISA.

Should termination occur, to the extent unfunded vested benefits exist and the Company is unable to fund these liabilities, ERISA provides that such benefits are payable by the Pension Benefit Guaranty Corporation (the "PBGC") to participants up to specified limitations, as described in ERISA. Whether a participant's accumulated plan benefit will be paid depends on both the priority of those benefits and the level of the benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

5. Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits and the changes in the actuarial present value of accumulated plan benefits are as follows:

6. Interest in Tribune Company Master Trust for Pension Plans (Prepared from Information Certified by the Trustee)

The Master Trust was established for the investment of assets of the Plan and several other Company-sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. At December 31, 2021 and 2020, the Plan's interest in the net assets of the Master Trust was approximately 4%. The assets of the Master Trust are held by the Trustee. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average balances invested by each plan.

The following is a summary of the fair values of nonspecifically identified investments held by the Master Trust at December 31, 2021 and 2020:

7. Fair Value Measurements

Accounting Standards Codification ("ASC") Topic 820 "Fair Value Measurements and Disclosures" ("ASC Topic 820") establishes a framework for measuring fair value and expands disclosures about fair value measurements. ASC Topic 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC Topic 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs that are supported by little or no market activity that are significant to the fair value of the assets or liabilities.

The asset's or liability's fair value measurement Level within the fair value hierarchy is based on the lowest Level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value.

Registered Investment Companies

Registered investment companies consist of investments in mutual funds. Mutual funds are valued based on exchange listed prices, for exchange traded registered investment companies, or the Net Asset Value ("NAV") for open-ended and continuously offered closed-end registered investment companies.

Common/Collective Commingled Trusts

Investments in common/collective commingled trusts are valued at NAV of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets of each of the respective common/collective trusts. The underlying assets are valued based on the NAV as provided by the investment account manager or based on pricing from observable market information in a nonactive market.

Investments in cash commingled pools invest in short-term securities that are valued at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and thereafter amortizing any discount or premium from its face value at a constant rate until maturity. Securities held by a money market portfolio are generally high quality and liquid; however, they are reflected as Level 2 because the inputs used to determine fair value are not quoted prices in an active market.

International Equity Limited Liability Company

The International Equity Limited Liability Company is valued at NAV of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The International Equity Limited Liability Company seeks to provide long-term capital growth primarily by investing, under normal circumstances, in equity securities of issuers tied to emerging market countries that have the potential to provide long-term capital growth. Securities are valued based on exchange listed prices. The values of investments for which quotations are not readily available are valued using estimated fair values as determined under policies adopted by the investment fund manager.

Fixed Income

Corporate bonds, commercial mortgage-backed and asset-backed securities are generally valued using evaluated prices that reflect observable market information, such as actual trade information of similar securities, adjusted for observable differences and are classified in Level 2 of the fair value hierarchy. Government securities consist of investments in treasury securities, municipal bonds, debt securities issued by the government, index-linked government bonds and government mortgage-backed securities. Government bonds not traded on an active market are valued at a price which is based on a compilation of primarily observable market information or a broker quote in a nonactive market, and are classified in Level 2 of the fair value hierarchy.

Real Estate Investment Funds

The fair value of our real estate investment funds is based on the NAV of our ownership interest in the funds. The NAV is used as a practical expedient to estimate fair value. The NAV is based on information received from the investment managers and is primarily determined by using the methods most appropriate for the type of investment, including, but not limited to, the following: forecasts of net cash flows based on analyses of revenue and expenses and anticipated net proceeds from the liquidation of the underlying investments, discounted at prevailing risk-adjusted market rates of interest; comparisons of key performance indicators of relevant industry indices; recent negotiations of comparable investments; and/or independent appraisals by lenders or other third parties, when available. Real estate includes investments in three different real estate funds.

Venture Capital Limited Partnerships

Venture capital investments are valued at NAV of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is determined by the investment managers on a periodic basis using models that use market, income, and cost valuation methods. The valuation inputs are not highly observable, and these interests are not actively traded on an open market. These investments cannot be redeemed during the contractual life of the funds. Instead, distributions are received through the liquidation of the underlying assets of the funds.

8. Income Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated March 27, 2017, which considered amendments executed through December 23, 2015 and was conditioned on the adoption of an amendment which was timely executed on April 4, 2017, that the Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan's ERISA counsel believes that the Plan is designed to comply with, and the Company believes that the Plan is currently being operated in material compliance with, the applicable requirements of the IRC and is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's tax exempt status.

U.S. GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a tax liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2018.

The Baltimore Sun Company Employees' Retirement Plan

Notes to Financial Statements

December 31, 2021 and 2020

9. Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated Plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions will occur in the near term and that the effect of such changes would be material to the financial statements and the actuarial present value of accumulated plan benefits.

The Plan holds investment securities and instruments in the Master Trust. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks will occur in the near term and that the effect of such changes would materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

The Master Trust invests in securities with contractual cash flows such as asset-backed securities and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities is sensitive to changes in economic conditions, including real estate value, delinquencies and/or defaults and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

The continued global economic uncertainty associated with the coronavirus (COVID-19) pandemic has resulted in significant volatility in global financial markets. This volatility has affected, and may continue to affect, the value of the Plan's investments. The effects of economic and market conditions subsequent to December 31, 2021 are not reflected in these financial statements and future effects on the Plan's investments cannot be predicted due to uncertainty regarding the duration and scope of the pandemic and other changing market conditions.

10. Information Certified by the Trustee/Custodian

As of December 31, 2021 and 2020 and for the years then ended, the Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The Trustee has certified that the following data included in the financial statements and notes to the financial statements is complete and accurate:

- Plan interest in Tribune Company Master Trust for Pension Plans as shown in the Statements of Net Assets Available for Benefits as of December 31, 2021 and 2020;
- Investment income (loss) from Plan interest in Tribune Company Master Trust for Pension Plans, as shown in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2021 and 2020.

State Street Bank and Trust Company (the "Custodian") has certified that the following data included in the financial statements and notes to the financial statements is complete and accurate:

- Vanguard Federal Money Market fund, presented as Registered investment company in the Statements of Net Assets Available for Benefits as of December 31, 2021 and 2020.

The Trustee and the Custodian have certified that the investments detailed on Schedule H, Line 4i: Schedule of Assets (Held at End of Year), as of December 31, 2021 is complete and accurate.

The Baltimore Sun Company Employees' Retirement Plan

Notes to Financial Statements

December 31, 2021 and 2020

The investment and related investment activity information included in Notes 6 and 7 have been derived from information certified by the Trustee and the Custodian.

11. Party-in-Interest Transactions

Certain Plan investments are shares of funds managed by the Trustee, and therefore transactions between these entities qualify as party-in-interest transactions. Fees paid by the Plan for investment management and custodial services amounted to approximately \$1,948 and \$4,803 for the years ended December 31, 2021 and 2020, respectively.

TRS is considered a party-in-interest to the Plan. Fees paid by the Plan for recordkeeping services amounted to \$78,427 and \$93,583 for the years ended December 31, 2021 and 2020, respectively.

Fidelity Institutional Asset Management Trust Company is an investment manager and an investment adviser to the Plan and is considered a party-in-interest to the Plan. Fees paid by the Plan for investment advising services amount to \$161,982 and \$97,102 for the years ended December 31, 2021 and 2020, respectively.

12. Subsequent Events

The Plan has evaluated subsequent events through October 14, 2022, the date the financial statements were available to be issued.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

EIN: 36-1880355 PN: 018

Early Retirement
Eligibility

Age 55 and 15 years of benefit service.

Benefit

Benefits commencing prior to age 65 will be reduced by 6⅔% for each of the first five years and 3⅓% for each additional year that benefit commencement precedes age 65.

Disability Retirement
Eligibility

Fifteen years of benefit service.

Benefit

Unreduced part (c) accrued benefit plus a supplement to normal retirement equal to \$42 multiplied by years of benefit service (maximum 35 years).

Vested Termination Benefits
Eligibility

Five years of vesting service.

Benefit

An amount equal to the normal retirement benefit, based on benefit service and compensation as of the date of termination. The participant may elect to begin receiving benefits at age 55. This benefit will be reduced for early retirement.

Preretirement Survivor Benefit
Eligibility

Five years of vesting service.

Benefit

If a participant is not eligible for early retirement at the time of death, the surviving beneficiary is entitled to an annuity equal to one-half of the annuity the participant would have received if the participant had incurred a break in service on the day before death, survived to earliest retirement date, and elected a pension payable in the form of a qualified 50% joint and survivor annuity.

If a participant is eligible for early retirement at the time of death, the surviving beneficiary is entitled to an immediate life annuity equal to the amount which would have been paid to the spouse if the participant had retired the day preceding death and had elected a pension payable in the form of a qualified 50% joint and survivor annuity.

Form of Benefit
Normal Form

Single life annuity, if single; 50% joint and survivor annuity, if married.

Schedule SB Attachment (Form 5500)—2021 Plan Year
The Baltimore Sun Company Employees' Retirement Plan
EIN: 36-1880355 PN: 018

Optional Forms	Single life annuity, joint and survivor annuity (50%, 75%, or 100%), and lump sum payment (less than \$10,000).
2020 Special Distribution Window	Effective August 31, 2020 an amendment was made to allow terminated vested participants who terminated on or before June 30, 2020 with an actuarially equivalent present value of their accrued benefit that is not more than \$50,000 to elect a lump-sum during the window election period from September 14, 2020 through October 31, 2020.
Definitions	
Vesting Service	One year of vesting service is credited for each plan year an employee completes 1,000 or more hours of service. No credit is granted for years in which the employee completes less than 1,000 hours.
Benefit Service	All service while employed in which an employee works at least 1,000 hours.
Compensation	Compensation including elective deferrals and excluding overtime and bonuses.
Actuarial Equivalent	For other than lump sum calculations: UP-1984 mortality table and 8% interest. For lump sum calculations: Higher benefit amount produced using GATT assumptions or PBGC assumptions. GATT assumptions include the IRC section 417(e) mortality table for the applicable year and interest based on three-segment yield curve. PBGC assumptions include UP-1984 mortality table and PBGC rate in effect on the January 1 of the plan year in which the payment is made.

Plan Changes Since the Prior Year

The funding, financial, and plan reporting valuations reflect the following plan change:

- An amendment was made effective August 31, 2020 to allow terminated vested participants who terminated on or before June 30, 2020 with an actuarially equivalent present value of their accrued benefit that is not more than \$50,000 to elect a lump-sum during the window election period from September 14, 2020 through October 31, 2020.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Under the American Rescue Plan Act of 2021 (ARPA), the stabilized interest rates for certain purposes will be adjusted once the ARPA stabilization is applied. By default, this stabilization would have applied starting with the 2020 plan year.

This Schedule SB reflects stabilized 2021 minimum funding interest rates that are adjusted for ARPA. Via this filing, Tribune Media Company will irrevocably commit the Baltimore Sun Company Employee's Retirement Plan to use of those rates for the 2021 plan year.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the 2021 unlimited expected rate of return on plan assets from 6.25% to 6.27% to better reflect future expectations.

This assumption change did not reduce the funding shortfall; as such, approval of the Commissioner is not required.
