Independent Auditor's Report

To the Participants and the Plan Administrator of the
Microwave Transmission Systems, Inc. Profit Sharing Plan
Richardson, Texas

Opinion

We have audited the financial statements of the Microwave Transmission Systems, Inc. Profit Sharing Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021, and the changes in its net assets available for benefits for the year ended December 31, 2021, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Management's Responsibilities for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – 2020 Financial Statements

The financial statements of the Plan as of and for the year ended December 31, 2020 were audited by predecessor auditors whose report dated October 20, 2021 expressed an unmodified opinion on those financial statements.

To the Participants and the Plan Administrator of the
Microwave Transmission Systems, Inc. Profit Sharing Plan

2021 Supplemental Information Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information listed in the index as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including the form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Microwave Transmission Systems, Inc. Profit Sharing Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 1 – Plan Description

The following description of the Microwave Transmission Systems, Inc. Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan Document or Summary Plan Description for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution profit sharing plan that provides retirement savings benefits to eligible employees of Microwave Transmission Systems, Inc. and participating employers (collectively, the “Company” or “Employer”). The Plan, which commenced effective January 1, 1995, was amended and restated effective January 1, 2016 to comply with the latest rules and regulations. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and the Internal Revenue Code (“IRC”).

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (“CARES”) Act was signed into law. The CARES Act allows retirement plans, among other things, to provide participants who are impacted by the coronavirus (as defined in the CARES Act) with greater access to their savings. The Plan has adopted certain optional features within the CARES Act. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and Internal Revenue Service (“IRS”) guidance.

Plan Custodians and Trustees

Comerica Financial Services Company (“Comerica”), Fidelity Management Trust Company (“Fidelity”), Massachusetts Mutual Life Insurance Company and Annuity Company (“Mass Mutual”), Invesco Capital Management Company (“Invesco”), and Columbia Management Investment Services Corporation (“Columbia”) (collectively, the “Custodians”) are the Custodians maintaining custody of all investments held by the Plan. Among other duties, the Custodians receive contributions, make distributions, and provide loans as directed by the Plan Administrator. Certain officers of the Company serve as Trustees of the Plan.

Eligibility and Plan Entrance Date

Except for union employees and nonresident aliens, all employees are eligible to participate in the Plan after attaining age 18 and completing one year of service. The Plan entry date is the first day of the Plan year or first day of the seventh month of the Plan year coincident with, or next following, completion of eligibility requirements.

Contributions

The Company may make discretionary profit-sharing contributions to the Plan as determined annually by the Company. Participants must be employed on the last day of the plan year in order to receive a profit-sharing contribution. Under the Plan, these profit-sharing contributions are allocated among eligible participants, based on their annual compensation. Contributions are subject to certain Internal Revenue Service limits. During the year ended December 31, 2021, the Employer made a discretionary profit-sharing contribution to all participants in an amount equal to 5% of eligible compensation.

Microwave Transmission Systems, Inc. Profit Sharing Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 1 – Plan Description (continued)

Participant Accounts

Each participant account is credited with the Company's discretionary contributions, plus allocations of Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants accounts are vested based on years of continuous service. Employer discretionary contributions to the Plan, plus any income or loss thereon, are vested according to the following schedule:

<u>Years of Service</u>	<u>Vesting %</u>
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 % of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate is set at 1% above the Prime rate, as defined. Principal and interest are paid ratably through payroll deductions and are due in equal installments not less frequently than quarterly.

Life Insurance

The Company may elect to direct employer contributions to purchase life insurance coverage for certain officers of the Company. Cash values of policies are included in Plan assets as of December 31, 2021 and 2020.

Payment of Benefits

The payment of benefits from each account may occur upon the participant attaining age 59 ½, retirement, disability, death, termination of employment, or if the participant reaches the age 70 ½ while still employed. Upon normal retirement, disability, or death, the participant or beneficiary is automatically entitled to receive 100% of the participant's account balance. Under the Plan, normal retirement is defined as age 65. Upon termination for any other reason, a participant or beneficiary is entitled to receive the vested portion of the participant's account balance. Benefits are paid in a lump-sum amount or annuity, as defined by the Plan. Terminated participants whose account balances are less than \$5,000 receive automatic distributions in the form of a lump-sum payment or a direct rollover to an individual retirement plan as designated by the Plan Administrator. In addition, financial hardship withdrawals are permitted by the Plan for those participants who have incurred a substantial financial hardship.

Notes to the Financial Statements December 31, 2021 and 2020

Note 1 – Plan Description (continued)

Forfeited Accounts

At December 31, 2021 and 2020, forfeited nonvested accounts totaled \$17,062 and \$16,974, respectively. These accounts will be reallocated to participants in the same manner as employer contributions.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of Plan additions and deductions during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Life insurance policies are valued at estimated fair value, which is cash surrender value as determined by Massachusetts Mutual Life Insurance. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Reclassifications

Certain reclassifications have been made to the 2020 financial statement to conform to the 2021 financial statement presentation. These reclassifications had no effect on changes in net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2021 and 2020. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan Agreement.

Microwave Transmission Systems, Inc. Profit Sharing Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 2 – Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Investment-related expenses are included in net appreciation of fair value of investments. Certain expenses specifically incurred by, or attributable to a participant, are paid from that participant's account. Plan expenses could include, but are not limited to, costs to process loans and Plan distributions.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820 are described as follows:

- **Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.
- **Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- **Level 3** – Inputs in the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

- **Mutual Funds** – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- **Money Market Funds** – Valued at cost, which approximates fair value.
- **Common Stocks** – Valued on the basis of readily determinable market prices, at the closing price reported on the active market on which the individual securities are traded.
- **Life Insurance** – Valued using mortality rates which are considered to be unobservable and are substantive to the valuation of the related policies. As such, these are classified as Level 3.

Microwave Transmission Systems, Inc. Profit Sharing Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 3 – Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2021				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 235,960	\$ -	\$ -	\$ 235,960

Total investments at fair value	<u>\$ 19,950,264</u>	<u>\$ -</u>	<u>\$ 478,425</u>	<u>\$ 20,428,689</u>

For the years ended December 31, 2021 and 2020, there were no transfers between levels 1 and 2, and no transfers in or out of level 3.

Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets as of and for the years ended December 31, 2021 and 2020.

	Life Insurance

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs.

Microwave Transmission Systems, Inc. Profit Sharing Plan

	<u>Fair Value</u>	<u>Principal Valuation Technique</u>	<u>Unobservable Inputs</u>	<u>Range (Weighted Average)</u>
December 31, 2021:				
Life Insurance	\$ 509,552	Cash surrender value	Mortality rate	Not available
December 31, 2020:				
Life Insurance	\$ 478,425	Cash surrender value	Mortality rate	Not available

Note 4 – Group Annuity Contracts With Insurance Company

The Plan holds traditional investment contracts in the form of a group annuity contracts with Massachusetts Mutual Life Insurance Company (the “Issuer”) that invests contributions in a general account product. The underlying investment in the group annuity contracts is the Invesco V.I. Main Street Mid Cap Fund. The fund seeks long-term capital growth by investing in midsize U.S. companies. The contract meets the fully benefit-responsive investment contract criteria and is therefore reported at contract value. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the Issuer. Such events include: (a) amendments to the Plan Document (including complete or partial Plan termination or merger with another plan), (b) changes to the Plan’s prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan Sponsor or other Plan Sponsor events that cause a significant withdrawal from the Plan, or (d) the failure of the Trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan’s ability to transact at contract value with participants are probable of occurring.

Note 5 – Related Party Transactions and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds, money market funds, and common stocks, as well as group annuity contracts and life insurance policies managed the Custodians of the Plan. As such, these transactions qualify as party-in-interest transactions as defined by ERISA. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA. There have been no known prohibited transactions with parties-in-interest. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to service providers.

Microwave Transmission Systems, Inc. Profit Sharing Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 5 – Related Party Transactions and Party-in-Interest Transactions (continued)

The Plan has notes receivable from participants as of December 31, 2021 and 2020. As a result, these receivables and all transactions relating to these receivables qualify as party-in-interest transactions. These transactions are exempt from being prohibited transactions by ERISA.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 7 – Tax Status

The Plan operates under an adoption agreement in connection with a prototype non-standardized profit-sharing plan and custodial document sponsored by 401 Plans (the “Sponsor”). This prototype plan document was filed with the appropriate agency, and the Sponsor has obtained a determination letter from the IRS dated March 31, 2014 stating that the prototype plan constitutes a qualified plan under Section 401 of the IRC, and that the related trust was a tax exempt as of the financial statement date. Although the Plan has not filed individually with the IRS for a letter regarding the Plan’s qualified tax status, the Plan Administrator believes the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC. As such, there has been no provision for income taxes made in the Plan’s financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2018.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 – Subsequent Events

The Plan has evaluated all events and transactions that occurred through October 16, 2022, the date these financial statements were available to be issued.

Effective January 1, 2022, the Plan adopted an amended and restated pre-approved defined contribution profit-sharing plan within IRC Section 401(k), which received a favorable determination letter from the IRS, dated June 30, 2020. Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.
