Independent Auditor's Report

The Plan Administrator
Micromeritics Employee Stock Ownership Plan
Norcross, Georgia

Opinion

We have audited the financial statements of Micromeritics Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 (in liquidation) and 2020 (in liquidation), and the related statement of changes in net assets available for benefits for the year ended December 31, 2021 (in liquidation), and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 (in liquidation) and 2020 (in liquidation), and the changes in its net assets available for benefits for the year ended December 31, 2021 (in liquidation), in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Emphasis of Matter - Plan Termination and Use of Liquidation Basis of Accounting

As further described in Note 1 and 2 to the financial statements, those charged with governance made the decision to terminate the Plan, effective December 2019. As a result, in accordance with accounting principles generally accepted in the United States of America, the Plan changed its basis of accounting from the accrual basis of accounting to the liquidation basis of accounting in presenting the 2021 and 2020 financial statements. All distributions were completed by August 20, 2021. Our opinion is not modified with respect to this matter.

Micromeritics Employee Stock Ownership Plan

Notes to Financial Statements

1. Description of Plan

The following brief description of the Micromeritics Employee Stock Ownership Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan was established by Micromeritics Instrument Corporation (the “Company” or “Plan Sponsor”) effective as of October 1, 2017. The Plan was a defined contribution plan covering substantially all employees of the Company, who had completed one consecutive month of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan was administered by the Committee, who were designated by the Plan Sponsor’s Board of Directors and Preston Hendrix, President, the Trustee of the Plan.

Plan Termination

In December 2019, the Company/plan sponsor was sold to Particle Holdings, Inc. In connection with the sale, the Board authorized the termination of the Plan effective December 18, 2019 and all shares of the Company stock held by the plan were sold totaling \$6,818,460 and converted to a money market fund. As a result of this transaction, the plan ceased to be an ESOP plan within the meaning of the Code and was treated as a tax qualified profit-sharing plan within the meaning of Code Section 401(a) as of the termination date. All distributions from and after the consummation of the termination, whether in respect of a distribution event occurring prior to or after the transaction, shall be made in cash, and Participants thereafter shall have no right to demand a distribution from the Plan in Company stock. In addition, any participants with an account in the plan as of the termination date were 100 percent vested. All balances were distributed by August 20, 2021.

Contributions

Prior to Plan termination, the Company’s Board of Directors would determine each year whether the Company should make a contribution to the Plan and the amount of the contribution.

Vesting

Prior to Plan termination, vesting in the Company’s discretionary contributions of their accounts was based on years of continuous service. A participant was 100 percent vested after six years of credited service. As a result of plan termination, all participants became fully vested in all contribution types effective December 18, 2019.

Participant Accounts

Prior to Plan termination, contributions and forfeitures were allocated to each participant’s account in the proportion of the individual participant’s compensation to total participants’ compensation. A participant must have been employed at the end of the year or terminated during the plan year due to death, disability, or retirement to receive the contribution and forfeiture allocation. Interest was allocated in proportion to the participants’ cash balance within their account to the total cash balance. Dividends on the Company’s stock and all other income, losses, and expenses earned or incurred on Plan investments were allocated pro rata among the accounts of the participants in proportion to their account balances.

Micromeritics Employee Stock Ownership Plan

Notes to Financial Statements

Payment of Benefits

In accordance with the approved termination, participants were given the option to take a lump sum cash distribution, roll their balance over into another qualified retirement plan or open a new IRA in the participant's name.

On termination of service due to death, disability, retirement or separation from service, a participant was eligible to receive a benefit equal to the value of the participant's vested interest in their account, as specified in the Plan. Vested balances under \$1,000 could be automatically distributed as a lump sum by the Company. Vested balances exceeding \$1,000 but not exceeding \$5,000 and if the participant did not elect to have the distribution paid then the distribution could be rolled over into qualified individual retirement account at the discretion of the Committee. Vested account balances exceeding \$5,000 would be distributed in equal annual installments over a period of five years or six years if the balance exceeds \$1,080,000.

Voting Rights

Prior to Plan termination, each participant was entitled to exercise voting rights attributable to the shares allocated to his or her account and was notified by the Trustee prior to the time that such rights were to be exercised with respect to any corporate matter which involved the voting of shares of Company stock. The Trustee was not permitted to vote any allocated share for which instructions were not been given by a participant.

Forfeitures

Prior to Plan termination, forfeitures from non-vested participant accounts were first used to restore account balances of any participant who was reemployed before incurring five consecutive one-year breaks-in-service. Any remaining forfeitures were available for allocation among the eligible participants and would be considered an additional Company contribution. Forfeitures of terminated non-vested account balances allocated to remaining participants at December 31, 2021 totaled \$0. There were no forfeitures outstanding as of December 31, 2021 and 2020.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

2. Summary of Accounting Policies

Basis of Accounting

Effective December 18, 2019, the Company approved the termination of the Plan. As a result, the Plan's financial statements as of and for the years ended December 31, 2021 and 2020 have been prepared on a liquidation basis. The basis of accounting is considered appropriate when, among other things, liquidation of an entity is probable and the net realizable value of assets reasonably determinable. Under the liquidation basis of accounting, assets are stated at their estimated net realizable cash value and liabilities are stated at their anticipated settlement amounts. The estimated net realizable cash value for investments at December 31, 2021 and 2020 would be fair value.

Micromeritics Employee Stock Ownership Plan

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at net realizable value, which approximates fair value. Fair value is the price that would be received to sell an asset (an exit price) in the principal or most advantageous market for the asset in an orderly transaction between market participants on the measurement date. Net realizable value is the amount that can be realized by the Plan upon sale of an asset less, where applicable, a reasonable prediction of costs associated with the eventual sale of the asset. Interest income is recorded on the accrual basis.

Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

All information contained in the 2021 Statement of Changes in Net Assets Available for Benefits reflects the significant changes related to the non-participant directed investments, which consists of the money market fund.

3. Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Basis of Fair Value Measurement

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities,

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly, and

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2021 and 2020.

Money Market Funds - The money market fund is a public investment vehicle that is valued using quoted market prices in active markets with \$1 as the net asset value.

Micromeritics Employee Stock Ownership Plan

Notes to Financial Statements

The valuation method described could have produced a fair value calculation that may not have been indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method was appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan investment assets at fair value, as of:

<i>Assets at fair value as of December 31, 2021</i>	Level 1		Total
Money market fund	\$	-	\$ -
Total assets at fair value	\$	-	\$ -

<i>Assets at fair value as of December 31, 2020</i>	Level 1		Total
Money market fund	\$	1,912,823	\$ 1,912,823
Total assets at fair value	\$	1,912,823	\$ 1,912,823

4. Related Party and Party-In-Interest Transactions

The Plan invested in a money market fund issued by BMO Harris Bank ("BMO"). The Company reimbursed the Plan for bank fees relating to the accounts at BMO during the year. The amount was not material to the Plan. Certain administrative functions were performed by officers or employees of the Company. No such officer or employee received compensation from the Plan.

5. Risk and Uncertainties

The Plan invests in a money market fund. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Tax Status

The IRS has determined and informed the Plan, in a letter dated August 8, 2018, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal, state and/or local taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
