Independent Auditor's Report

To the Participants and Plan Administrator of the
Sexing Technologies 401(k) Plan
Navasota, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of Sexing Technologies 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements ("2021 financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the 2021 Financial Statements* section of our report:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the 2021 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Management's Responsibilities for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

To the Participants and Plan Administrator of the
Sexing Technologies 401(k) Plan

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Information Required by ERISA

The supplemental information listed in the index as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental information, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental information that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental information, we evaluated whether the supplemental information, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

To the Participants and Plan Administrator of the
Sexing Technologies 401(k) Plan

In our opinion:

- The form and content of the supplemental information, other than the information in the supplemental information that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental information related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 9, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Sexing Technologies 401(k) Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 1 – Plan Description

The following description of the Sexing Technologies 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution 401(k) plan that provides retirement savings benefits to eligible employees of Inguran, LLC dba Sexing Technologies and its participating employers: XY, LLC; Fast Sexing Technologies USA, LLC; Genetic Visions-ST, LLC; and, effective July 1, 2021, Cytonome, LLC (collectively, the “Employer” or “Company”). The Plan commenced effective January 1, 2012 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and the Internal Revenue Code (“IRC”). The Plan was amended and restated effective July 1, 2021 to comply with current rules and regulations.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (“CARES”) Act was signed into law. The CARES Act allows retirement plans, among other things, to provide participants who are impacted by the coronavirus (as defined in the CARES Act) with greater access to their savings. The Plan has adopted certain optional features within the CARES Act. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and Internal Revenue Service (“IRS”) guidance.

Plan Custodians and Trustees

Effective July 1, 2021, Voya Retirement Insurance and Annuity Company (“Voya”) was appointed as the new custodian and record-keeper of the Plan. As a result of the change in custodian, the assets of the Plan transferred from the previous custodians and record-keepers, Great-West Trust Company, LLC and Great-West Life & Annuity Insurance Company (collectively, “Great-West”), to Voya (collectively, the “Custodians”). Due to the change in custodians and transfer of net assets, there was a blackout period from June 29, 2021 until July 23, 2021. During the aforementioned period, participants could not direct or diversify investments, and could not obtain a loan or distribution from the Plan. Among other duties, the Custodians receive contributions, hold and invest the fund assets in accordance with the directions of participants, and make disbursements as directed by the Plan Administrator. Certain appointed officers of the Company serve as Trustees of the Plan.

Plan Merger

Transfers of Assets to this Plan

Effective July 1, 2021, the Cytonome ST, LLC 401(k) Profit Sharing Plan and Trust (the “Cytonome Plan”) merged with and into the Plan. The Cytonome Plan instituted a blackout period for all activity with the new Trustee between June 24, 2021 and July 23, 2021. On June 30, 2021, the transfer of all assets of the Cytonome Plan into the Plan was initiated. The formal transfer of all assets was completed on July 6, 2021, and net assets totaling \$5,919,896 were transferred from the Cytonome Plan onto the Plan. This amount is included as transfers of assets to this Plan on the statement of changes in net assets available for benefits.

Sexing Technologies 401(k) Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 1 – Plan Description (continued)

Eligibility and Plan Entrance Date

Effective July 1, 2021, employees of the Company are eligible to participate in the Plan upon completion of two months of service. Prior to July 1, 2021, employees were eligible to participate in the Plan upon completion of three months of service. Eligible employees are permitted to enter the Plan upon the first day of each month coincident with, or next following, satisfaction of the eligibility requirement.

Participant Contributions

Participants may elect to contribute, on a before-tax basis, and, effective July 1, 2021, on a Roth basis, up to 100% of eligible compensation as defined by the Plan; subject to the maximum amount allowed annually by the IRC, which was \$19,500 for 2021. Participants who have attained age 50 years of age before the end of the Plan year are eligible to make catch-up contributions up to the maximum amount allowed annually by the IRC, which was \$6,500 for 2021.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their salary deferral contribution set at 3% of eligible compensation.

Employer Contributions

For the period from January 1, 2021 to June 30, 2021, the Company made discretionary matching contributions equal to the lesser of 50% of participant's contributions or 3% of eligible compensation. Effective July 1, 2021, the Plan was amended, and the Company matching contribution amount was changed to 50% of the first 6% of each eligible participant's contributions to the Plan. At this time, the Plan was also amended to provide a year-end true-up matching contribution feature to allow participants to receive the maximum matching contribution available by making up any loss in matching contributions resulting from the participant's individual savings strategies. Employer contributions are subject to the limits established annually per the IRC.

Participant Accounts

Each participant account is credited with the participant's contributions, the Company's matching and profit-sharing contributions, and allocations of Plan earnings, and charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant-Directed Investments

All assets of the Plan are participant-directed investments. Participants have the option of directing their account balances to one or more investment options offered by the Plan. The Plan has selected various investment options, as more fully described in the Plan Document, to which participants may designate the allocation of their account balances. The investment options vary in types of investments, rates of return, and investment risk.

Sexing Technologies 401(k) Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 1 – Plan Description (continued)

Vesting

Participants are immediately vested in their contributions, plus any income or loss thereon. Effective January 15, 2017, vesting in discretionary Employer matching contributions and earnings thereon is based on years of service according to the following schedule:

<u>Years of Service</u>	<u>% Vested Interest</u>
Less than 1	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%
4 but less than 5	80%
5 or more	100%

Excluding employees of Cytonome, any participant whose commencement date is prior to January 15, 2017 is 100% vested in any discretionary Employer matching contributions.

Notes Receivable from Participants

Participants may borrow from their fund account a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined monthly, is set at 2% above Prime rate, as defined. Principal and interest are paid ratably through payroll deductions at least quarterly.

Pursuant to the CARES Act, the available loan amount increased to the lesser of \$100,000 or 100% of the participant's vested account balance. In addition, Plan participants could request a delay of note repayments for repayments that occurred between March 27, 2020 and December 31, 2020. The term of the loan was extended by one year to accommodate the suspension period. Subsequent repayments were adjusted to include accrued interest during the delay period. The ability to request to defer loan repayments under the CARES Act ceased as of December 31, 2020.

Payment of Benefits

Upon separation of service due to death, disability, normal retirement, or termination of employment, a participant may elect to receive a lump sum payment from the vested portion of their account balance. Distributions to a terminated employee with a vested account balance equal to or less than \$5,000 are made as a lump sum distribution as soon as administratively possible following the participant's termination of employment. The participant may elect whether to receive the distribution directly or to rollover the distribution into another retirement plan. If the vested account balance is less than or equal to \$1,000, the Plan permits involuntary lump sum cash distributions. A participant may withdraw all or a portion of their vested account balance in the event of a financial hardship, as defined by the Plan. Additionally, in-service withdrawals are permitted upon attainment of age 59 ½.

For coronavirus-related distributions made before December 31, 2020 to qualified individuals, as defined in the CARES Act, the maximum distribution is the lesser of the vested portion of the participant's account balance in the Plan or \$100,000. In addition, for active employees, a coronavirus-related distribution may be repaid at any time during a three-year period beginning on the day after the date on which the distribution was received.

Notes to the Financial Statements December 31, 2021 and 2020

Note 1 – Plan Description (continued)

Payment of Benefits (continued)

Pursuant to the Setting Every Community Up for Retirement Enhancement (“SECURE”) Act enacted in December 2019, the age at which required minimum distributions must begin was increased from 70½ to 72. In addition, pursuant to the CARES Act, participants who were currently receiving required minimum distributions were offered the option to waive their 2020 distributions, and participants who were due to receive the first required distribution in 2020 had their distribution automatically waived. The ability to request special waivers with respect to required minimum distributions under the CARES Act ceased as of December 31, 2020.

Forfeited Accounts

At December 31, 2021 and 2020, forfeited non-vested accounts totaled \$127,501 and \$50,667, respectively. These accounts will be used to reduce future employer contributions or to pay administrative expenses. Also, in 2021, forfeitures in the amount of \$22,675 were allocated among active participants based on participant contributions.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The Plan’s financial statements are prepared on the accrual basis of accounting in conformity with the accounting principles generally accepted in the United States of America (“GAAP”).

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains and losses on investments purchased and sold, as well as held, during the year.

Sexing Technologies 401(k) Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 2 – Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 and 2020. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan Agreement.

Payments of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1), and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820 are described as follows:

- **Level 1** – Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.
- **Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- **Level 3** – Inputs that are unobservable inputs for the assets or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

- **Pooled Separate Accounts** – Valued using the net asset value ("NAV") of units held by the Plan at year-end as provided by the Custodians. The NAV is based on the fair value of the underlying assets owned by the fund, net of the investment management fee, and is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. If the Plan initiates a full redemption of the pooled separate account, the issuer reserves the right to require 12 months notification in order to ensure that securities liquidations will be carried out in an orderly business manner. Participant transactions (purchases and sales) may occur daily. There are no significant restrictions on participant redemptions or any unfunded commitments.

Sexing Technologies 401(k) Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 3 – Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

Investments at Fair Value as of December 31, 2021				
	Level 1	Level 2	Level 3	Total
Investments measured at NAV (a)	\$ -	\$ -	\$ -	\$ 20,090,170
Investments at fair value	\$ -	\$ -	\$ -	\$ 20,090,170

Investments at Fair Value as of December 31, 2020				
	Level 1	Level 2	Level 3	Total
Investments measured at NAV (a)	\$ -	\$ -	\$ -	\$ 11,098,952
Investments at fair value	\$ -	\$ -	\$ -	\$ 11,098,952

(a) In accordance with ASC 820-10, certain investments (pooled separate accounts) that were measured at NAV per share (or its equivalents) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 4 – Information Prepared and Certified by the Plan's Custodians

The Plan Sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Notes receivable from participants as of December 31, 2021 and the related interest income on notes receivable from participants for the period from July 1, 2021 to December 31, 2021 was not certified by Voya and is not included in the following tables. Except as noted, accordingly, the Custodians have certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate.

December 31,	2021	2020
Investments at fair value	\$ 20,090,170	\$ 11,098,952
Investments at contract value	661,333	298,534
Notes receivable from participants	-	33,657

Year Ended December 31,	2021
Net appreciation in fair value of investments	\$ 1,859,495
Interest	1,700
Interest income on notes receivable from participants	1,637

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedules.

Sexing Technologies 401(k) Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 5 – Guaranteed Investment Contract with Insurance Company

Effective July 1, 2021, the Plan maintains a guaranteed investment contract related investment option, the Voya Fixed Account, issued by Voya Retirement and Insurance and Annuity Company (“VRIAC”). The contract underlying this investment option meets the fully benefit-responsive investment contract criteria, thus, this investment contract is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount that would be received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The fixed account minimum guaranteed interest rate, which is guaranteed for the lifetime of the contract, is 1.0%. The contract cannot be terminated before the scheduled maturity date. The Plan’s ability to receive amounts due in accordance with fully benefit-responsive investment contract is dependent on the third-party issuer’s ability to meet its financial obligations. The issuer’s ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Prior to July 1, 2021, the Plan had a group annuity contract with Great West Life & Annuity Insurance Company that invested contributions in the Key Guaranteed Portfolio Fund. The Key Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium/long-term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. This contract also meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest is based on a formula agreed upon with the issuer but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include, but are not limited to: (i) amendments to the Plan Document (including complete or partial Plan termination or merger with another plan); (ii) changes to the Plan’s prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the Plan Sponsor or other Plan Sponsor events that cause a significant withdrawal from the Plan; or (iv) the failure of the Trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events that might limit the ability of the Plan to transact at contract value with the contract issuers, that would also limit the ability of the Plan to transact at contract value with the participants, are probable of occurring.

Sexing Technologies 401(k) Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 6 – Related Party and Party-in-Interest Transactions

Certain Plan investments are guaranteed investment contracts and pooled separate accounts managed by the Custodians. As such, these transactions qualify as party-in-interest transactions as defined by ERISA. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA. All investment fund earnings or losses posted to each participant's account are net of investment management fees charged by each investment fund under the Plan.

The Plan has notes receivable from participants as of December 31, 2021 and 2020. These receivables and all related transactions qualify as party-in-interest transactions that are exempt from being prohibited by ERISA.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 8 – Tax Status

Effective July 1, 2021, the Plan operates under an adoption agreement in connection with a non-standardized pre-approved profit-sharing plan and custodial document, sponsored by Malcom Thompson & Associates Inc. This pre-approved plan document was filed with the appropriate agency, and the Sponsor has obtained a determination letter from the IRS, dated June 30, 2020, stating that the pre-approved plan constitutes a qualified plan under Section 401 of the IRC, and that the related trust was tax exempt as of the financial statement date. The Plan has not filed individually with the IRS for a letter regarding the Plan's qualified tax status; however, the Plan Administrator believes the Plan is designed and currently being operated in compliance with applicable requirements of the IRC. As such, there has been no provision for income taxes made in the Plan's financial statements.

Prior to July 1, 2021, the Plan adopted a volume submitter type plan (the "Volume Submitter Plan") sponsored by DATAIR Employee Benefit Systems, Inc. The IRS has determined and informed the prototype sponsor by letter, dated March 31, 2014, that the Volume Submitter Plan is designed in accordance with applicable sections of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2018.

Notes to the Financial Statements December 31, 2021 and 2020

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
Net assets available for benefits per the financial statements	\$ 20,980,358	\$ 11,499,566
Less: employer contributions receivable, end of year	(63,362)	(16,938)
Less: participant contributions receivable, end of year	(29,127)	(51,485)
Net assets available for benefits per Form 5500	<u>\$ 20,887,869</u>	<u>\$ 11,431,143</u>

The following is a reconciliation of net increase before transfers of assets per the financial statements to Form 5500 as of December 31, 2021:

Net increase before transfers of assets, per the financial statements	\$ 3,560,896
Add: employer contributions receivable, beginning of year	16,938
Add: participant contributions receivable, beginning of year	51,485
Less: employer contributions receivable, end of year	(63,362)
Less: participant contributions receivable, end of year	(29,127)
Net income per Form 5500	<u>\$ 3,536,830</u>

Note 11 – Prohibited Transactions

In 2021, the Company failed to remit to the Plan's Custodians certain participant contributions and loan repayments totaling \$32,522 within the period prescribed by the Department of Labor's Rules and Regulations. Delays in remitting contributions to the Custodians were due to unintentional administrative errors. The Company is in the process of correcting contributions to the affected participants' accounts to compensate those participants for potential lost earnings due to the delays.

Note 12 – Subsequent Events

The Plan has evaluated subsequent events through October 11, 2022, the date the financial statements were available to be issued.

Effective January 1, 2022, the Plan was amended, and Genetic Visions became a participating employer.

Effective January 25, 2022, the Plan was amended to provide participants with credit for prior service with the predecessor employer, Acuity Genetics.

Sexing Technologies 401(k) Plan

Notes to the Financial Statements December 31, 2021 and 2020

Note 12 – Subsequent Events (continued)

Effective February 1, 2022, the Plan was amended to change the Employer's matching contributions to discretionary. The Employer may make a different discretionary matching contribution for each designated location or entity. The discretionary match will be allocated as a uniform percentage of eligible contributions within each designated group.
