INDEPENDENT AUDITOR'S REPORT

The Plan Administrator
Rusk Industries, Inc. Retirement Plan
Toledo, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of the Rusk Industries, Inc. Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 Financial Statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- the amounts and disclosures in the accompanying 2021 Financial Statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2021 Financial Statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 Financial Statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year), as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Rusk Industries, Inc. Retirement Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 14, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 – Description of Plan

The following description of the Rusk Industries, Inc. Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Rusk Industries, Inc. (the Company) who have completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Accounts

Each participant's account is credited with the participant's contributions, Company contributions, and an allocation of Plan earnings (losses) and certain expenses. Allocations are based on participant account balances or annual compensation as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Participants are responsible for directing 100% of their investments into the investment options provided by the Plan.

Contributions

Participants may elect to defer as contributions, on a tax deferred basis, an amount up to the maximum percentage allowable by law. Participants over age 50 may also defer catch-up. Participants may also contribute amounts representing distributions from other qualified plans.

The Company's discretionary matching contribution is 1% of a participant’s eligible compensation if the participant defers 3% or more, and 25% of the participant’s eligible deferral if the participant defers less than 3%. The employer matching contribution is determined each pay period, and all contributing participants are eligible regardless of hours worked.

During 2021 and 2020, the Company did not make a discretionary non-elective contribution. Other than retirement, disability, or death, participants must have 1,000 hours of eligible service and be employed on the last day of the Plan year to receive the discretionary non-elective contribution.

Notes Receivable from Participants

John Hancock Life Insurance Company (U.S.A.) (John Hancock, the Plan Custodian) may extend loans to participants with the approval of the Plan Administrator. Participant loans shall not be made for less than $1,000 or exceed the lesser of $50,000 or 50% of the participant’s vested account balance in the Plan. The loan term shall not be longer than five years, or up to ten years for the purchase of a primary residence. The loans are secured by the balance in the participant’s account and bear a reasonable rate of interest. As participant loans are repaid, the amounts are allocated to the investment funds according to the participant’s most recent election with respect to current contributions.

Note 1 – Description of Plan (continued)

Vesting

Participants are immediately vested in their voluntary contributions and actual earnings (losses) thereon.

A participant vests in employer contributions plus actual earnings (losses) thereon based on years of credited service, as defined by the Plan:

Years of Service	% Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Payment of Benefits

Upon termination of service, retirement, disability, or as otherwise permitted by the Plan, a participant may elect to receive a lump-sum amount equal to the vested value of his or her account. Upon death, the value of a participant's account is paid to the designated beneficiary. The Plan provides for mandatory lump-sum distributions to participants who terminate with a vested balance of $5,000 or less.

Forfeitures

Non-vested account balances of terminated participants are used by the Company to reduce administrative expenses or to fund future employer contributions. Forfeitures held in a separate cash account were $2,930 and $4,243 at December 31, 2021 and 2020, respectively.

Administrative Expenses

Administrative expenses may be paid by the Plan or by the Company, as described in the Plan document. Services are provided by parties-in-interest to the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan, subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event of Plan termination, all participants become 100% vested in their account balances.

Note 2 – Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Benefit payments to participants are recorded upon distribution.

Investment Valuation and Income Recognition

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive insurance contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In contrast, contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive insurance contracts. Contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. There have been no changes in the valuation methods used. The Plan's investments are held by John Hancock.

Units held in pooled separate accounts are valued at net asset value (NAV). The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less any liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The John Hancock Stable Value Fund is an insurance contract valued at contract value, which represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2 – Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2021 and 2020, no allowance for credit losses has been recorded. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through October 17, 2022, the date the financial statements were available to be issued.

Note 3 – Investments

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2021 and 2020, net appreciation (depreciation) of investments, and interest and dividends for the years then ended, were obtained from information supplied to the Plan administrator and certified as complete and accurate by the Custodian.

Note 4 – Contract with Insurance Company

The Plan has a synthetic fully benefit-responsive investment contract with John Hancock totaling $3,782 and $269,495 as of December 31, 2021 and 2020, respectively. The investment contract is invested primarily in benefit-responsive contracts issued by insurance companies and banks. Each insurance company guarantees against the loss of principal deposited into the fund and provides assurances that individual participant withdrawals will be paid promptly at contract value even if the fund's total contract value exceeds the market value of its underlying securities. The crediting rate is set based upon a formula but may be adjusted monthly. The actual market value of the underlying assets may, at times, be greater than or less than the contract value. Any differences between the market value and the contract value will be taken into consideration when setting future crediting rates.

Note 4 – Contract with Insurance Company (continued)

The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value, which approximates fair value. Contract value is the relevant measurement for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan.

If the contact value of the fund exceeds the market value of underlying securities, the stabilizing agreements provide that the payment of certain withdrawals may be delayed for up to 12 months unless the Plan or the participant requesting the withdrawal elects to accept such payment subject to a market value adjustment. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable.

Note 5 – Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820*, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;

Level 2: Inputs to valuation methodology include:

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability; and

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 5 – Fair Value Measurements (continued)

The Plan's investments valued at fair value in the statements of net assets available for benefits are all pooled separate accounts, which are valued using NAV as described previously, and therefore not required to be categorized within the fair value hierarchy.

Note 6 – Income Tax Status

The Internal Revenue Service ruled on March 31, 2014, that the Prototype Non-standardized Profit Sharing Plan with CODA (the underlying document upon which the Plan is based) qualifies under Section 401 of the Internal Revenue Code (IRC) and the related trust is, therefore, not subject to tax under present income tax law. Subsequent to this ruling, the Plan was amended. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is currently designed in compliance with the applicable requirements of the IRC and has indicated that it is taking the necessary steps, if any, to bring the Plan's operations into compliance.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 – Party-In-Interest Transactions

John Hancock is the custodian of the Plan and is a considered a party-in-interest to the Plan.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.
