The Moody Bible Institute Employee Benefits Administrative Committee
of Moody Bible Institute Retirement Plan
Chicago, Illinois

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of Moody Bible Institute Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

(Continued)

- the information in the accompanying 2021 financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

(Continued)

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4a – Schedule of Delinquent Participant Contributions and Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of and for the year ended December 31, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of Moody Bible Institute Retirement Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by qualified institutions. In our report dated October 14, 2021 we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

MOODY BIBLE INSTITUTE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Moody Bible Institute Retirement Plan is provided for general information purposes only. Participants should refer to the plan agreement for more complete description of the Plan's provisions.

General: The Plan was established January 1, 2006 as a defined contribution plan covering all eligible employees of the Moody Bible Institute of Chicago ("the Institute"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions: All eligible employees are immediately eligible to make voluntary salary deferrals to the Plan, with deferrals at an automatic 3% unless an election to defer at a different rate or to opt-out of the Plan is made at the employee's request. No elective deferrals shall be made that would exceed the limitations of the Internal Revenue Code ("IRC"). Employees who are automatically enrolled will have their deferral rate automatically escalated 1% annually up to a maximum of 8%, unless otherwise directed by the employee. Employer matching contributions related to employee contributions and discretionary profit-sharing contributions are contributed by the Institute into a separate plan, the Moody Bible Institute Match Savings Plan.

Rollover Contributions: A participant may contribute amounts distributed or transferred from another qualified plan, as defined in the Plan.

Investments: The assets of the Plan are held by Teachers Insurance and Annuity Association of America ("TIAA") and College Retirement Equities Fund ("CREF"), The Variable Annuity Life Insurance Company ("VALIC"), and AIG Federal Savings Bank ("AIG"). Participants direct the investment of the contributions into various investment options offered by the Plan. The Plan currently offers fixed and variable annuity accounts, a fixed interest investment contract, and mutual funds as investment options for participants.

Vesting: Participants are immediately 100% vested in their contributions plus any actual earnings thereon.

Participant Accounts: Individual account balances are maintained for each participant. Each participant's account is credited with the participant's contribution and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Participants have a fully vested interest in all contributions made by them and in the Plan's earnings/losses on those contributions at all times.

Notes Receivable from Participants: In general, the amount of the loan may not exceed the lesser of \$50,000 reduced by the highest outstanding loan balance in a participant's vested account during the prior 12-month period. The minimum loan amount is \$1,000. The loans bear a rate of interest as determined in the controlling contract and may be fixed or variable.

Benefits: Upon termination of service or disability, a participant is eligible to receive an amount equal to the value of his or her vested account balance. Participants or their beneficiaries may elect to receive their vested account balances as a lump-sum, installment payments, or various annuity options provided under the plan provisions. Benefit amounts under \$5,000 must be received as a lump-sum distribution. A participant may withdraw all or a portion of the value of his or her vested interest prior to termination of employment upon meeting certain requirements as set forth in the plan agreement.

Administrative and Investment Management Expenses: Investment management fee expenses are charged to the Plan as a reduction of investment return and included in the investment income (loss) recorded by the Plan. All other administrative expenses of the Plan are paid by the Institute and are excluded from these financial statements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Investment Valuation and Income Recognition: The Plan's investments, other than fully benefit-responsive investment contracts, are reported at fair value. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Contract value is the relevant measure for the Plan's fully benefit-responsive investment contracts, because contract value is the amount plan participants generally receive when executing transactions under the terms of the contract and plan provisions.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and the actual results may differ from these estimates.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks such as interest rate, market, liquidity and credit risks as well as the ongoing Coronavirus pandemic. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 3 - CERTIFIED INVESTMENTS

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments and notes receivable from participants held at December 31, 2021 and 2020, and net appreciation in fair value of investments, interest and dividends, and interest income of noted receivable from participants for the year ended December 31, 2021, was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA, CREF, The Variable Annuity Life Insurance Company and AIG Federal Savings Bank.

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following presents the valuation methods and assumptions used by the Plan to estimate the fair values of investments.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Variable annuity accounts: The fair values of the Plan's investments held in variable annuity accounts are determined by obtaining quoted prices on the NASDAQ Stock Market (Level 1 inputs).

Traditional investment contracts (not fully benefit-responsive): The TIAA Traditional Annuity Contracts are individual guaranteed fixed annuity investment contracts issued by TIAA ("Issuer"). Due to certain liquidity restriction provisions, the individual annuity contracts within the TIAA Traditional Annuity contract held by the Plan are not fully benefit-responsive and, accordingly, are measured at fair value.

TIAA and Plan management have determined contract value to be the most reasonable estimate of fair value for these contracts. Contract value equals the contributions deposited into the contracts, plus interest credited to the contracts, less contract withdrawals, and it reflects the value at which participant transactions are executed under the contracts. The contract value reflects the theoretical transfer (exit) value available to the Plan and Plan participants. The fair values of the Plan's investment contracts have been estimated by TIAA by discounting the projected cash flows using risk-adjusted market discount rates which correlate closely with TIAA Traditional Annuity's historical interest crediting rates (generally 3% for current premiums on accumulating annuities, but in some recent contracts between 1% and 3% and provide the potential for additional interest as declared by TIAA's discretion).

The contract values are guaranteed by TIAA. Based upon recent credit ratings for TIAA, management believes no adjustment to contract value is required related to credit quality. Since investment contracts are not transferable, there is no market from which to obtain observable market prices for the contracts held by the Plan or comparable contracts (Level 3 inputs).

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The plan administrator is responsible for the review of the fair value estimates of plan assets, and regularly reports such estimates to the Moody Bible Institute Employee Benefits Administration Committee ("Administration Committee"), which is the oversight committee of the Plan. The plan administrator and management, or its designee, reviews the fair value pricing methodology employed by TIAA for the Plan's guaranteed investment contracts to ensure a reasonable measure of market valuation has been utilized. The valuation approach is reviewed on an ongoing basis to ensure market values reported represent a reasonable exit price.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table presents quantitative information about recurring Level 3 fair value measurements at December 31, 2021:

	<u>Fair Value</u>	<u>Valuation Technique(s)</u>	<u>Unobservable Input(s)</u>	<u>Range of Input</u>
TIAA Traditional Annuity Contracts	\$ 1,730,231	Discounted Cash Flow	Risk-adjusted discount rates and projected interest crediting rates	GRA – 3.00% - 3.80%

The following table presents quantitative information about recurring Level 3 fair value measurements at December 31, 2020:

	<u>Fair Value</u>	<u>Valuation Technique(s)</u>	<u>Unobservable Input(s)</u>	<u>Range of Input</u>
TIAA Traditional Annuity Contracts	\$ 1,751,283	Discounted Cash Flow	Risk-adjusted discount rates and projected interest crediting rates	GRA – 3.00% - 4.45%

The significant unobservable inputs used in the fair value measurement of the Plan's investment in the TIAA Traditional Annuity are the discount rates and the projected interest crediting rates. Based upon historical TIAA Traditional Annuity's crediting rates, the discounted cash flows analysis assumes that the risk-adjusted market discount rates approximate the future interest crediting rates under the contracts. Accordingly, changes in these rates have directly offsetting impacts upon the fair value estimate of these contracts.

NOTE 5 - TIAA TRADITIONAL INDIVIDUAL FIXED ANNUITY ACCOUNTS

The Plan holds non-fully benefit-responsive investment contracts through its investment holdings in the TIAA Traditional Account. The TIAA Traditional Individual Fixed Annuity Contracts are individual guaranteed fixed annuity investment contracts issued by TIAA. Within the TIAA Traditional Individual Fixed Annuity Contracts are six types of contracts available to participants: the Retirement Annuity (RA), the Group Retirement Annuity (GRA), the Retirement Choice (RC), the Supplemental Retirement Annuity (SRA), the Group Supplement Retirement Annuity (GSRA), and the Retirement Choice Plus (RCP). Each of these contracts have unique provisions and qualities. There are certain liquidity restrictions on the RA, GRA, and RC contracts. Participants with RA, GRA, and RC contracts have certain restrictions over the availability of lump-sum withdrawals from the contracts as well as over the number of installments in which participant-initiated transfers and participant-initiated withdrawals are made. Based on these provisions, the RA, GRA, and RC contracts are considered to be non-fully benefit-responsive. As there are no comparable restrictions over the SRA, GSRA and RCP contracts, those contracts are considered fully benefit-responsive. Participants in the Plan hold investments in non-fully benefit-responsive contracts through the TIAA Traditional Account.

TIAA maintains the contributions in its general account. TIAA's general account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the TIAA or otherwise.

NOTE 5 - TIAA TRADITIONAL INDIVIDUAL FIXED ANNUITY ACCOUNTS (Continued)

All investment contracts through the TIAA Traditional Account are directly between TIAA and the participants. Benefit payments from the contracts are paid as an annuity or a lump-sum, as defined in the contracts and as elected by the participant upon meeting the eligibility requirements. There are conditions specified in certain of the contracts under which participant withdrawals and transfers would be restricted or made at a value other than contract value or the annuity or lump-sum benefit, as defined in the contracts. The contracts do not provide any provisions that would allow TIAA to terminate the contracts between TIAA and the participants.

The crediting interest rates of the contracts may vary from participant to participant. The crediting rates are based on an agreed-upon formula with TIAA, as defined in the contract agreement. The guaranteed annual interest rate is 3% for all premiums remitted since 1979 under the RA, GRA, SRA and GSRA contracts and is between 1% and 3% for the RC and RCP contracts. Such interest rates are reviewed on a periodic basis and may from time to time have a new rate substituted for the one in the current certificate. A new rate will apply only to benefits arising from any premiums, additional amounts, and internal transfers applied to the Traditional Annuity while such rate schedule is in effect and will not affect any benefits purchased prior to the change, as defined in the contracts. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contracts; and the duration of the underlying investments backing the contract.

The Plan's value of assets held in non-fully benefit-responsive contracts are an accumulation of individual contracts between participants and TIAA. These various contracts may have many different effective crediting rates. Based upon this fact and the complexity of the contract provisions of the various TIAA Traditional Annuity contracts, management has determined that it is not practicable to calculate the Plan's average yields from the contracts based on annualized earnings or the average yields based on the interest rate credited to participants.

NOTE 6 - FULLY-BENEFIT RESPONSIVE TRADITIONAL INVESTMENT CONTRACT WITH VALIC

The Plan holds a fully benefit-responsive traditional investment contract with The Variable Annuity Life Insurance Company ("VALIC" or "Issuer") that is reported at contract value. The contract value of the contract as of December 31, 2021 and 2020 was \$3,927,872 and \$3,196,754, respectively. VALIC maintains the contributions in its general account. The account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the Issuer or otherwise.

The Plan's investment contract specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include plan termination, plan merger, premature contract termination initiated by the Institute, and certain other Institute-initiated events that result in distributions exceeding a set amount. The contract limits the circumstances under which the Issuer may terminate the contract. Examples of circumstances which would allow the Issuer to terminate the contract include the Plan's loss of its qualified status, uncured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the Issuer could terminate the contract at an amount less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Institute has the right under the plan agreement to terminate the Plan subject to the provisions of ERISA.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan holds variable annuity contracts and individual fixed annuity insurance contracts issued by TIAA and CREF and a fully benefit-responsive investment contract with VALIC; therefore, these transactions qualify as party-in-interest transactions. Investment management fees paid to these entities are reflected as a reduction in the return of plan investments. Notes receivable from participants amounted to \$219,998 and \$205,916 at December 31, 2021 and 2020, respectively. Notes receivable from participants also qualify as party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Institute. No such officer or employee receives compensation from the Plan. Fees related to the administration of the Plan were paid by the Institute on behalf of the Plan for the year ended December 31, 2021.

NOTE 9 - INCOME TAX STATUS

The Plan has adopted the prototype documents created by VALIC Retirement Services Company. The Internal Revenue Service issued an opinion letter dated April 5, 2018 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has not received a favorable determination letter, plan management believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2018.

NOTE 10 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the net assets available for benefits per the financial statements at December 31, 2021 and 2020, to the Form 5500:
