Independent Auditors' Report

The Plan Administrator
Colby College Retirement Plan
Waterville, Maine

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We were engaged to perform the audit of the financial statements of the Colby College Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion on the 2021 Financial Statements

We do not express an opinion on the accompanying 2021 financial statements of the Plan. Because of the significance of the matter described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion on the 2021 Financial Statements

As described in Note 2, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity and custodial accounts to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficiently to determine the extent to which the financial statements may have been affected by these conditions.

Further, as described in Note 11, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the accompanying statement of changes in net assets available for benefits. Under accounting principles generally accepted in the United States of America, these accounts and the related income and distributions should have been included in the accompanying financial statements. The effects of these excluded annuity and custodial accounts and the related income and distributions are not determinable.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the 2021 financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditors' report. However, because of the matters described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules, (1) Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2021 and (2) Schedule H, Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion on the 2021 Financial Statements section, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Other Matter - Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by the qualified institution. In our report dated October 15, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) since the Plan has not maintained accounting records and supporting documents related to certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, we were unable to apply auditing procedures sufficiently to determine the extent to which the financial statements may have been affected by these conditions.

COLBY COLLEGE RETIREMENT PLAN

Notes to Financial Statements

Note 1 - Description of Plan

The following description of the Colby College Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a 403(b) Plan that's intended to comply with the requirements of Treasury Regulations under Internal Revenue Service Code (the "Code") Section 403(b) effective January 1, 2009. The Plan covers all eligible employees, as defined, of Colby College (the "College" or "Employer"), except (1) an employee hired for a special project or special position requiring less than 1,000 hours of service during the year, (2) individuals required to be considered employees solely by reason of Section 414(n) or (o) of the Code, and (3) employees who are students performing certain services ("Participants"). Eligible employees can participate in the Plan and choose to have elective deferrals immediately upon completion of a salary reduction agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All investments are participant-directed.

Participant Contributions

Mandatory Contributions

Mandatory contributions are required as a condition of employment for employees that meet the definition of "Covered Participant" (completion of two years of service), as defined. At such time, the Covered Participant is required to contribute 2% of his or her annual compensation to the Plan.

Elective Participant Contributions

Participants may elect to defer up to 100% of their annual compensation to the Plan, subject to certain limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans ("Participant Rollovers").

Employer Contributions

Each Plan year, the Employer will contribute for each Covered Participant who is an eligible employee during the Plan year an amount equal to the sum of (i) 8% of a participant's compensation earned below the social security wage base in effect on January 1, 2002 (\$84,900) and (ii) 10% for compensation above wage base, as defined by the Plan. In addition, on behalf of each Covered Participant who is a member of the support staff whose initial date of employment is on or before June 30, 1993, the College will make supplemental contributions in amounts such that the Covered Participant's total College-provided retirement benefit will, in the College's determination, be no less than the projected benefits the Covered Participant would have received had the Retirement Plan for Non-Academic Employees of Colby College not been terminated. Supplemental College contributions shall be made annually in whole percentages of salary.

COLBY COLLEGE RETIREMENT PLAN

Notes to Financial Statements

Note 1 - Description of Plan (Continued)

Employer Contributions (Continued)

The amounts of any such supplemental College contributions were determined by the College in 1993 in its sole discretion with the assistance of an actuary, and shall not be revalued in view of subsequent changes in College contribution rates unless the College decides otherwise in its sole discretion or as required by law. During 2021, the Employer made contributions totaling \$4,235,749. Included in the Employer contribution were contributions paid by a third-party insurance company of \$17,738 for the Plan year ended December 31, 2021.

Participant Accounts

Each Participant's account is credited with the Participant's contributions, Employer contributions and a pro rata allocation of (a) the Plan's investment earnings and (b) charged with an allocation of administration expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the Participant's vested account balance.

Vesting

Participants are immediately vested in all mandatory contributions, deferral contributions, rollovers and all Employer contributions plus actual earnings thereon.

Payment of Benefits

Upon termination of service, a participant may elect to receive the vested balance of his or her mandatory contribution account. A participant may receive the balance from his or her employee elective contributions account upon the earliest of the following events: termination of service, death, disability, attainment of age 59½, becoming eligible for a Qualified Reservist Distribution, or termination of the Plan. Participants may withdraw from their rollover accounts at any time. Participants may elect to receive their benefit payments in a qualified joint and survivor annuity, a single life annuity, a fixed period annuity or a lump sum. Hardship withdrawals are available from the Participant's elective deferral account and allowed to meet a Participant's immediate and heavy financial need. In addition, if a participant's account is less than \$5,000 and a distribution election has not been made, the Plan's administrator will distribute the benefit to the Participant.

The Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was passed by the U.S. Senate on March 26, 2020. Section 2202 of the CARES Act permits eligible Plan participants to request special penalty-free distributions of up to \$100,000 for qualifying coronavirus-related reasons. These reasons include the participant, spouse or dependent diagnosed with COVID-19, adverse financial consequences due to being quarantined, furloughed, laid off, having work hours reduced or being unable to work due to a lack of childcare during the COVID-19 pandemic. The special coronavirus-related distributions waive the 10% early withdrawal penalty and were allowed to be made between January 1, 2020 and December 31, 2020.

Notes to Financial Statements

Note 1 - Description of Plan (Continued)

Plan Loans

Participants are allowed to take loans directly from TIAA and CREF secured by the Participant's balance in the TIAA Traditional Fund. Participants may borrow a maximum amount equal to the lesser of \$50,000 or 50% of the balance of their employee elective and rollover contribution accounts. Loan terms are for up to five years (or longer for the purchase of a primary residence). Participants must transfer an amount equal to 110% of their outstanding loan balances from their fund accounts to the TIAA Traditional Fund to be held as collateral for the loans. This collateral remains invested in the Plan and the participants continue to earn contractual interest and additional amounts as declared by TIAA's Board of Trustees. Should participants default on their loans, TIAA and CREF removes the portion of the collateral held in the TIAA Traditional Fund equal to the participants' outstanding loan balances plus any unpaid accrued interest to pay off the defaulted loan. These loans bear interest at a rate determined by TIAA and CREF. These loans are not plan assets and totaled \$314,934 and \$348,924 at December 31, 2021 and 2020, respectively. Interest rates on the plan loans ranged from 4.00% - 5.92% at December 31, 2021 and 2020. Principal and interest are paid directly to TIAA and CREF by the participant.

Under the CARES Act, the available loan limit was increased to \$100,000 or 100% of the participant's vested account balance. The CARES Act also delayed loan payments for a COVID-19 qualified individual for any loan outstanding on or after March 27, 2020 through December 31, 2020 and, if applicable, extends the loan for up to one year. This increased loan limit was allowed to be taken from March 27, 2020 through September 22, 2020.

Notes Receivable from Participants

Effective October 1, 2021, Participants may borrow up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loan terms range from one to five years (or longer for the purchase of a primary residence). Participants are limited to a maximum of three outstanding loans at a time. The loans are secured by the balance in the Participant's account and bear interest at a reasonable rate of prime plus 1%. Principal and interest are paid ratably through direct payments to TIAA and CREF.

Plan Administration

The Employer is the Plan administrator and has the authority to appoint person(s) or entities to carry out the operation of the Plan. Investment management and recordkeeping expenses are netted against investment earnings. Certain Plan administrative expenses are charged to and paid by the Plan and others are paid by the Employer.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

COLBY COLLEGE RETIREMENT PLAN

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies (Continued)

Basis of Accounting (Continued)

In November 2007, the Department of Labor ("DOL") issued amended regulations eliminating an exemption granted to 403(b) plans from the annual Form 5500 reporting, disclosure, and audit requirements under Part 1 of Subtitle B of Title I of ERISA. The Plan, however, was established in 1935, and historically the Plan was viewed as a collection of individual contracts with which participants could engage in a range of actions with limited involvement, if any, by the Plan sponsor. Accordingly, various accounting and payroll records related to the Plan's 403(b) annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009 were not maintained by the Plan. Consequently, the financial statements have been prepared based on available records analyzed by Plan management. As certain records were not available from the inception of the Plan, there can be no assurance as to the completeness or accuracy of the Plan's reported financial information.

Investments, Investment Valuation and Income Recognition

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded when earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan has fully benefit-responsive and non benefit-responsive investment contracts with TIAA and CREF. TIAA and CREF maintain the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Unit Values

Individual participant accounts for the pooled separate investment and variable rate annuity accounts are maintained on a unit value basis. Participants do not have beneficial ownership in their specific underlying securities or other assets in the funds, but do have an interest therein represented by units which are valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

COLBY COLLEGE RETIREMENT PLAN

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies (Continued)

Benefits Paid

Benefits are recorded when paid.

Administrative Expenses

Individual participant accounts are charged directly for investment management, loan recordkeeping and benefit disbursement processing fees, if applicable. These fees are netted against earnings or the disbursement amount. The Plan's administrative expenses are paid either by the Plan or the Employer, as provided by the Plan document.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could vary from the estimates that were used.

Subsequent Events

The Plan administrator has evaluated subsequent events through October 17, 2022, the date that the financial statements were available to be issued. No matters of significance were identified for disclosure during this evaluation.

Note 3 - Information Certified by the Custodians

Plan investments are held in mutual funds, fixed rate and variable annuities, and a pooled separate investment account by the Plan's custodian and insurance companies, TIAA and CREF and TIAA as agent for TIAA, FSB. The fair and contract values of investments as of December 31, 2021 and 2020 and all investment transactions for the year ended December 31, 2021, including interest and dividends and net appreciation in fair value are reported to the Plan and certified as complete and accurate by the custodian and insurance companies. Information included in the supplemental Schedule of Assets (Held at End of Year) has also been derived from information certified by the custodian and insurance companies.

COLBY COLLEGE RETIREMENT PLAN

Notes to Financial Statements

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I measurements) and the lowest priority to unobservable inputs (Level III measurements). The three levels of the fair value hierarchy are described below:

Level I – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level II – Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.

Level III – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

TIAA Real Estate Account

The account generally invests in real estate properties and real estate-related investments. The account's value is principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally utilizing external appraisals, which are estimates of property values based on a professional's opinion. The account sometimes holds securities as well, and these securities are generally priced using values obtained from independent pricing sources.

COLBY COLLEGE RETIREMENT PLAN

Notes to Financial Statements

Note 4 - Fair Value Measurements (Continued)

TIAA Real Estate Account (Continued)

The fair value of the Plan's interest in the TIAA Real Estate Account is based on the fund's daily NAV, which is considered by Plan management to be the best approximation of fair value. The NAV is based on the fair values of the underlying investments held by the fund less its liabilities. The unit value of the fund is calculated daily and available to Plan administrators and client investors on TIAA and CREF's website. There are no unfunded commitments from participants in the Plan who invest in this account. The pooled separate account may be redeemed quarterly with one day's notice.

TIAA Traditional Annuity

The TIAA Traditional Annuity is a fixed rate annuity contract fully and unconditionally guaranteed by TIAA. The Traditional Annuity is offered through a variety of contract types. The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

Retirement Annuities (RA) contracts are non benefit-responsive and accordingly are reported at fair value. The value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claim-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years.

The RA contract does not allow lump-sum cash withdrawals, and transfers must be spread over 10 annual installments (five annual installments for withdrawals after termination of employment). When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the Statement of Changes in Net Assets Available for Benefits.

COLBY COLLEGE RETIREMENT PLAN

Notes to Financial Statements

Note 4 - Fair Value Measurements (Continued)

TIAA Traditional Annuity (Continued)

Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract. The redemption provisions of the fixed rate annuities vary depending on the nature of the contract option chosen by the participant.

CREF Variable Annuities

The accounts invest principally in equity securities, fixed income instruments and short-term investments in accordance with each portfolio's investment objectives. Account investments are primarily valued using market quotations or prices obtained from independent pricing sources who may employ various pricing methods to value the investments including matrix pricing.

The fair values of accumulation units held by the Plan in CREF Variable Annuity accounts are based on each account's daily NAV, which is considered by Plan management to be the best approximation of the fair value. Data for NAVs are available daily to Plan administrators and client investors on TIAA and CREF's website and provides sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. There are no unfunded commitments from participants in the Plan who invest in these accounts. The variable annuities may be redeemed daily with one day's notice.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2021 and 2020:

(a) In accordance with ASC Subtopic 820-10, "Fair Value Measurements," certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified within the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy amounts to amounts presented in the Statements of Net Assets Available for Benefits.

During 2021 and 2020, purchases of investments for which significant unobservable inputs (Level III) were used totaled \$5,633,636 and \$4,423,961, respectively. There were no transfers into or out of Level III during 2021 or 2020.

Quantitative Information about Significant Unobservable Inputs Used in Level III Fair Value Measurements

The following table as of December 31, 2021 and 2020 represents the Plan's Level III financial instruments, the valuation techniques used to measure the fair value of those financial instruments, the significant unobservable inputs and the range of values for those inputs.

Note 6 - Fully Benefit-Responsive Investment Contracts

Following is a description of the investments and valuation methodologies for fully benefit-responsive investment contracts:

TIAA Traditional Annuity

Supplemental Retirement Annuities (SRA), Retirement Choice Plus (RCP) and Group Supplemental Retirement Annuities (GSRA) contracts are also traditional annuity contracts as discussed in Note 4. SRA, RCP and GSRA contracts have no liquidity restrictions and are therefore fully benefit-responsive contracts reported at contract value. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the Statement of Changes in Net Assets Available for Benefits.

The total contract value of the TIAA Traditional (SRA, RCP and GSRA fixed rate annuities) fully benefit-responsive investment contracts was \$18,540,576 and \$18,299,669 at December 31, 2021 and 2020, respectively. For accumulating SRA and GSRA contracts, the crediting interest rate was 3.00% as of December 31, 2021 and 2020. For accumulating RCP contracts, the crediting interest rate was 3.20% and 2.00% as of December 31, 2021 and 2020, respectively.

There are no reserves against contract value for credit risk of the fully benefit-responsive contract issuer or otherwise. The crediting interest rate (disclosed in Note 4) is based on a formula agreed upon with the issuer. Such interest rates are periodically reviewed for resetting.

Notes to Financial Statements

Note 6 - Fully Benefit-Responsive Investment Contracts (Continued)

TIAA Traditional Annuity (Continued)

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with Participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Employer may determine.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Market risks include global events such as a pandemic or international conflict which could impact the value of investment securities. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 9 - Related-Party Transactions and Party-In-Interest Transactions

Plan investments are managed by TIAA and CREF, the custodian of the Plan. Accordingly, these transactions qualify as exempt party-in-interest transactions.

COLBY COLLEGE RETIREMENT PLAN

Notes to Financial Statements

Note 9 - Related-Party Transactions and Party-In-Interest Transactions (Continued)

During the Plan year ended December 31, 2021, the Plan received revenue credits of \$163,549 from TIAA and CREF and used \$31,050 to pay Plan expenses. The remaining credit balance at December 31, 2021 was \$133,768, which will be allocated to participants and used to pay future expenses of the Plan. The revenue credits are reported as other income on the Statement of Changes in Net Assets Available for Benefits.

Note 10 - Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (the "IRC"). The terms of the Plan have been prepared to conform to the sample language provided by the Internal Revenue Service ("IRS") in Revenue Procedure 2007-71. The Plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for Plan participants under Section 403(b).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 11 - Orphan Contracts

The Plan has excluded from investments in the accompanying Statements of Net Assets Available for Benefits certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. Management has made a good faith effort to obtain this information but has been unsuccessful. The investment income and distributions related to such accounts have also been excluded in the accompanying Statement of Changes in Net Assets Available for Benefits. The amount of these excluded annuity and custodial accounts and the related income and distributions are not determinable.

Note 12 - Delinquent Contributions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the Employer's general assets. During the year ended December 31, 2021, \$33,802 in participant contributions were remitted late to the Plan, and \$2,583 in participant contributions were not remitted to the Plan resulting in a total of \$36,385 in delinquent contributions. The delinquent contributions and earnings on such contributions will be calculated and funded in 2022.

During the year ended December 31, 2020, all participant contributions were remitted to the Plan, but \$28,900 of participant contributions were not remitted timely. Earnings on the delinquent contributions were calculated and funded into the Plan in 2021.
