Independent Auditor's Report

To the Retirement Committee
Century Aluminum Sebree Hourly Pension Plan

Opinion on the 2021 Financial Statements

We have audited the financial statements of Century Aluminum Sebree Hourly Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2021 and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 and the changes in net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the 2021 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As explained in Note 4, the financial statements include investments valued at approximately \$95,300,000 (100 percent of net assets) at December 31, 2021, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by the fund managers. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that the audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2021 Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of reportable transactions for the year ended December 31, 2021 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

To the Retirement Committee
Century Aluminum Sebree Hourly Pension Plan

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 1, 2021, we indicated that, (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion, and, accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements, other than that derived from the certified information, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Plan Description

The following description of Century Aluminum Sebree Hourly Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

General

The Plan is a noncontributory defined benefit pension plan covering all hourly employees of Century Aluminum Sebree, LLC (the "Company") who are governed by a collective bargaining agreement containing provisions that allow for participation in the Plan. Full-time hourly employees are eligible to participate in the Plan upon their date of hire. Part-time hourly employees who complete at least 1,000 hours of service in a 12-consecutive-month period are also eligible to participate in the Plan.

Effective July 20, 2021, the Plan entered into a master trust agreement with the Bank of New York Mellon Corporation (BNY Mellon) and formed the Century Aluminum Company DB Master Trust (the "Master Trust"). All investments were transferred to the Master Trust during August 2021.

Contributions

Contributions are made by the Company in order to provide the Plan with assets sufficient to meet the projected benefits to be paid to plan participants. No participant contributions are permitted.

Funding

Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. There were no required annual funding requirements in 2021 and 2020 based on ERISA funding standards.

Pension Benefits

Participants are entitled to a pension benefit after completing five years of eligible service. Participants are entitled to normal monthly retirement benefits at the normal retirement age of 65. The normal retirement benefits are calculated based on a participant's years of continuous service multiplied by a monthly benefit level provided in the Plan. Effective January 1, 2019, the monthly benefit level increased to \$45 for retirement dates during 2019 and increases incrementally by \$1 every year afterward through 2021. The monthly benefit level was \$47 for retirement dates during 2021. Part-time employees shall receive a percentage of the normal monthly benefit based upon hours worked, as described in the Plan's provisions.

The Plan permits early retirement at age 60 provided the participant has completed at least 10 years of service. The early retirement benefit will equal the normal retirement benefit if (a) the retiree elects to defer benefits until normal retirement age or (b) the retiree retires on or after November 1, 2004 and has reached age 60 with 30 years of service. Otherwise, early retirement benefits will be reduced by 0.25 percent (0.50 percent for retirements prior to January 1, 2000) for each month the commencement of benefits precedes the normal retirement date.

The Plan also provides for disability retirement and preretirement spouse benefits for participants meeting certain age and length of service requirements.

Payment of Benefits

Pension benefits are paid in the form of various life annuities, as described by the Plan. For participants with a lump-sum actuarial equivalent of their pension benefits of \$1,000 or less, their pension benefits will be automatically payable in the form of a lump sum.

December 31, 2021 and 2020

Note 1 - Plan Description (Continued)

Party-in-interest Transactions

Certain Plan and Master Trust assets are in investment funds managed by SEI Private Trust Company (SEI) and Bank of New York Mellon Corporation or their affiliates. SEI and BNY Mellon are the custodians of the Plan and Master Trust; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments held by the Plan and Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in the orderly transaction between market participants at the measurement date.

The fair value of the plan interest in the Master Trust is based on the value at the beginning of the period, plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

See Note 4 for further discussion of fair value measurements.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to:

- (a) Retired or terminated employees or their beneficiaries
- (b) Beneficiaries of employees who have died
- (c) Present employees or their beneficiaries

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The actuarial valuation was completed using the beginning of the year method. Therefore, the accumulated plan benefits as of December 31, 2020 are presented from information provided by the actuary as of January 1, 2021. There has been no significant change in the Plan's provisions or coverage from December 31, 2020 to January 1, 2021.

The significant actuarial assumptions used in the valuation of the Plan at December 31, 2020 are summarized as follows:

Actuarial cost method	Unit credit actuarial cost method
Assumed rate of return	7.25 percent per annum
Mortality basis	Pri-2012 Mortality Table, with a blue collar adjustment, projected on a fully generational basis using the Social Security Administration (SSA) Improvement Scale for 2021
Incident of retirement	Rates increasing from 5 to 100 percent between ages 60 and 67 for active participants

December 31, 2021 and 2020

Note 2 - Summary of Significant Accounting Policies (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Plan, including custodial, retirement services, and Pension Benefit Guaranty Corporation (PBGC) fees and expenses. All other administrative costs are paid by the Company.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 12, 2022, which is the date the financial statements were available to be issued.

Subsequent to year end, the Master Trust's investment portfolio has incurred a significant decline in fair value, consistent with the general decline in financial markets. However, because the values of individual investments fluctuate with market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined.

Note 3 - Unaudited Information

SEI Private Trust Company (the "Custodian") held the Plan's investments and executed all investment transactions during 2020. The investment balances and related investment income and losses included in the accompanying 2020 financial statements for this period are based solely on information certified by the Custodian.

December 31, 2021 and 2020

Note 4 - Investments and Interest in Master Trust

During August 2021, all plan investments were transferred to the Master Trust. The Master Trust was established for the investment of assets of the Plan and the Century Aluminum Consolidated Retirement Plan. Each participating benefit plan has an undivided interest in the Master Trust. Prior to the formation of the Master Trust, the Plan held all investments directly. The assets of the Master Trust are held by BNY Mellon (as custodian). Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan. As of December 31, 2021, the Plan's approximate ownership interest in the Master Trust is 29 percent.

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds

Mutual funds are valued at closing quoted prices reported in active markets.

U.S. Government Securities

The U.S. government securities are valued using closing quoted market prices.

The following valuation methodologies have been used to value the Master Trust's investments:

Common/Collective Trust Funds

The common/collective trust funds are valued at net asset value (NAV) per share or its equivalent of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments.

Private Equity Funds

Investments in private equity funds are valued at NAV per share or its equivalent of the funds based on the audited financial statements of the funds, where available. There are no unfunded commitments on these investments.

Note 4 - Investments and Interest in Master Trust (Continued)

The following table presents information about the net assets of the Master Trust and the Plan's interest in Master Trust balances at December 31, 2021:

	Plan's Interest in Master Trust Balances	Master Trust Net Assets at December 31, 2021 Master Trust Balances
Investments measured at NAV:		
Private equity funds (1)	\$ 22,417,397	\$ 77,559,769
Common/collective trust funds	72,886,967	252,174,525
Total net assets of the Master Trust	<u>\$ 95,304,364</u>	<u>\$ 329,734,294</u>

The following table presents information about the Plan's assets measured at fair value on a recurring basis at December 31, 2020:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2020	
	Investments (at Fair Value)	Level 1
Mutual funds	\$ 87,658,821	\$ 87,658,821
U.S. government securities	3,582,523	3,582,523
Total	91,241,344	<u>\$ 91,241,344</u>
Investments measured at NAV	-	
Total	<u>\$ 91,241,344</u>	

- (1) This class represents funds that invest in other investment vehicles that primarily invest in below-investment-grade rated bonds and loans, securitized credit, and emerging market debt. This class also includes funds that invest in other investment vehicles that primarily invest in public and private debt and equity investments in a range of real asset strategies, including, but not limited to, real estate, infrastructure, timberland, and agriculture/farmland. Redemption frequency for these funds is monthly and quarterly, with redemption notice periods of 30 business days and 180 calendar days, respectively.

The investment income for the Master Trust for the year ended December 31, 2021 is as follows:

Net realized and unrealized gains on investments	\$ 7,257,423
Other investment income - Interest	725
Total investment income	7,258,148
Investment fees	<u>375,175</u>
Net investment income of the Master Trust	<u>\$ 6,882,973</u>

December 31, 2021 and 2020

Note 5 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries from PricewaterhouseCoopers, LLP. The calculation of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which was made as of and for the year ended December 31, 2020, the most recent actuarial valuation, is as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving benefit payments	\$ 50,382,882
Participants entitled to deferred benefits	1,703,793
Other vested participants	<u>10,507,111</u>
Total vested benefits	62,593,786
Nonvested benefits	<u>1,017,521</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 63,611,307</u></u>

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended December 31, 2020 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 63,965,818
Increase (decrease) during the year attributable to:	
Net benefits accumulated, including actuarial gains and losses	816,965
Interest due to the decrease in the discount period	4,444,328
Benefits paid	(5,424,404)
Changes in actuarial assumptions	<u>(191,400)</u>
Net decrease	<u>(354,511)</u>
Actuarial present value of accumulated plan benefits - End of year	<u><u>\$ 63,611,307</u></u>

The change in actuarial assumptions line item above is the result of a change in the mortality tables to better reflect anticipated plan experiences. The mortality assumption was changed from the Pri-2012 Mortality Table, with a blue collar adjustment, projected on a fully generational basis using the Social Security Administration Improvement Scale for 2020 to the Pri-2012 Mortality Table, with a blue collar adjustment, projected on a fully generational basis using the Social Security Administration Improvement Scale for 2021.

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 7 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Annual Compensation Limit \$290,000 in 2021. For funding purposes, this limit is assumed to remain constant in the future.

IRC Section 415 Maximum
Benefit Limit \$230,000 in 2021. For funding purposes, this limit is assumed to remain constant in the future.

Assumption Changes For minimum funding (Internal Revenue Code ["IRC"] Section 430) and benefit restriction (IRC Section 436) purposes:

The valuation interest rate for minimum funding purposes was changed from the September 2019 Segment Rates set in IRS Notice 2019-51 according to MAP-21 and amended by Section 2003 of HATFA to the September 2020 Segment Rates set in IRS Notice 2021-27 according to MAP-21 and amended by Section 2003 of HATFA and Section 9607 of ARPA.

The valuation interest rate was changed from the September 2019 Segment Rates to the September 2020 Segment Rates for maximum deductible contribution (IRC Section 404) purposes.

The mortality assumption was updated from the 2020 IRS Static Mortality Table to the 2021 IRS Static Mortality Table.

All other actuarial assumptions were the same as those used in the January 1, 2020 actuarial valuation.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Actuarial Methods for Funding Purposes

1. Actuarial Cost Method

The actuarial cost method is the Unit Credit Actuarial Cost Method.

Under this cost method, the target liability is defined as the present value of the accrued benefits on the valuation date. The funding shortfall is the excess, if any, of the amount by which the target liability exceeds the actuarial value of Plan Assets.

The target normal cost, determined on the valuation date, is the amount required to fund the benefit expected to be earned in the current year plus expected expenses.

2. Asset Valuation Method

Smoothed Method:

Smoothed value method. Under this method the Plan Assets is equal to the average of the fair market value on the valuation date and the adjusted fair market value on each of the preceding two valuation dates, but not less than 90% nor more than 110% of the Fair Value of Assets. The adjusted fair market value as of any preceding valuation date is equal to the fair market value as of such date increased for contributions reflected in the fair market value of assets on the current valuation that were not reflected in the fair market value of assets as of such preceding valuation date, decreased for benefits payments and expenses reflected in the fair market value of assets on the current valuation that were not reflected in the fair market value of assets as of such preceding valuation date, and adjusted for expected earnings (not in excess of the third segment rate, with no phase-in, applicable to the corresponding valuation date).

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Assumptions Rationale

Valuation Interest rate	The interest rate assumption used is prescribed by IRC section 430(h), reflecting a 4 month look back period as elected by the plan sponsor.
Mortality	The mortality assumption used is prescribed by IRC section 430(h).
Disability Rates	The disability rate assumption was selected by management based on historical experience and future expectations for disablements.
Retirement Rates	The retirement rate assumption was selected by management based on historical experience and future expectations for retirements.
Withdrawal Rates	The turnover assumption was selected by management based on historical experience and future expectations for terminations.
Expected Return on Plan Assets	The Expected Return on Assets was selected by Century based on the Plan's asset mix and information from the Plan's asset advisors. We did not assess the reasonableness of this assumption as such an evaluation was not in scope.

Actuarial gains and losses resulting from plan experience differing from the assumptions above are monitored each year.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
