Emery Oleochemicals Retirement Plan

**Financial Statements
Years Ended December 31, 2021 and 2020
With Independent Auditors' Report**

Independent Auditors' Report

To the Plan Administrator of the
Emery Oleochemicals Retirement Plan
Cincinnati, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the accompanying financial statements of Emery Oleochemicals Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 9 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**Independent Auditors' Report
(Continued)**

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of Emery Oleochemicals Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Emery Oleochemicals Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material, if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

**Independent Auditors' Report
(Continued)**

Auditors' Responsibilities for the Audit of the 2021 Financial Statements (Continued)

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Emery Oleochemicals Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Emery Oleochemicals Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of Emery Oleochemicals Retirement Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 15, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

EMERY OLEOCHEMICALS RETIREMENT PLAN

Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements of the Emery Oleochemicals Retirement Plan (the "Plan") have been prepared on the accrual basis.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment transactions are accounted for on the trade date (the date the order to buy or sell is executed). The cost of investments sold is computed on an average cost basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation include the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

In 2021 and 2020, certain expenses and costs of administering the Plan were paid by Emery Oleochemicals, LLC (the "Plan Sponsor") and, accordingly, are not reflected in the Plan's financial statements.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) requires the Plan administrator and actuary to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Related Party Transactions

Certain Plan investments are invested in accounts managed by Principal Trust Company (the "Trustee"). Principal Trust Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as parties-in-interest.

EMERY OLEOCHEMICALS RETIREMENT PLAN

Notes to Financial Statements (Continued)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Several employees of the Plan Sponsor provide administrative services to the Plan. These services include Plan oversight and day-to-day Plan administration. The Plan is not charged by the Plan Sponsor for the services of the employees of the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 17, 2022, which is the date the financial statements were available to be issued and have determined that there are no subsequent events that require disclosure under applicable GAAP for subsequent events.

NOTE 2 DESCRIPTION OF THE PLAN

The following description of the Emery Oleochemicals Retirement Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering certain represented and non-represented employees of the Plan sponsor. The Plan sponsor contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan members. The contributions are designed to fund the Plan's normal service costs on a current basis. The Principal Trust Company is the Plan's asset trustee and the Plan's actuary. The Plan is administered by the Plan Sponsor. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code.

Benefits under the Plan are funded by the Plan Sponsor. Contributions are made based on recommendations by the actuary, who performs annual valuations of the Plan. The funds are held, invested, and disbursed by the asset custodian.

Employees with five or more years of service are fully vested and entitled to pension benefits beginning at normal retirement age, which is 65.

For former Hourly Plan participants, pension benefits are calculated as the accrued benefit as of December 31, 2006 under the Hourly plan, plus, an additional future service benefit amount for service after December 31, 2006. The future service benefit is equal to the sum of 1% of compensation for each Plan year beginning on and after January 1, 2006, divided by 12. Reduced early retirement benefits may be elected by a participant who reaches age 55 and has at least five years of credited service.

EMERY OLEOCHEMICALS RETIREMENT PLAN

Notes to Financial Statements (Continued)

NOTE 2 DESCRIPTION OF THE PLAN (CONTINUED)

For a participant who became a participant in this Plan between January 1, 2006 and 2009, who was a participant in the Cognis Corporation Plan immediately prior to becoming a participant in this plan, and whose age plus service under the Cognis Corporation Plan as of January 1, 2004 equaled or exceeded 80, shall be the sum, divided by 12, of the sum of 1.5% of such participant's compensation for each of the first eight plan years beginning on and after January 1, 2006, and the sum of 1% of such participant's compensation for each plan year thereafter. The future service benefit of a participant who became a participant in this plan between January 1, 2006 and January 1, 2009, who was a participant in the Cognis Corporation Plan immediately prior to becoming a participant in this Plan, and whose age plus service under the Cognis Corporation Plan as of January 1, 2004 equaled or exceeded 75 but was less than 80, shall be the sum, divided by 12, of the sum of 1.25% of such participant's compensation for each of the first 10 plan years beginning on and after January 1, 2006, and the sum of 1% of such participant's compensation for each plan year thereafter.

If an employee transfers employment, the terms and conditions of which were subject to a collective bargaining agreement, and becomes a participant in this Plan, any benefit accrued with respect to the prior employment of such employee under another defined benefit plan of the employer shall be transferred to this Plan. In such event, the accrued benefit of such participant shall be the sum of the transferred accrued benefit and the benefit accrued under this Plan.

Generally, payment of benefits will be in the form of a single life annuity for unmarried participants and a joint and survivor annuity for married participants, unless the employee, with spousal consent, elects another form of benefit permitted by the Plan. Other optional forms of pension benefit are available at the participant's option.

Death and Disability Benefits

A participant who becomes disabled while an employee of the Plan sponsor is eligible to receive a benefit commencing at normal retirement based on continuous service, determined as though the participant had continued in active employment to age 65.

If an active employee or a vested participant dies, then the employee's pension is payable to the surviving spouse.

Vesting Provisions

An employee is not vested in the Plan until completion of five years of service with the Plan sponsor or attainment of age 65 while still employed by Emery Oleochemicals LLC. After five years of service, a participant is fully vested in the Plan.

NOTE 3 INVESTMENT IN MASTER TRUST (CONTINUED)

Investment income of the Master Trust for the years ended December 31, 2021 and 2020 was as follows:

	2021	2020
Interest, dividends, and other income	\$ -	\$ 15,919
Net appreciation in fair value of investment in master trust:		
Pooled separate accounts	5,860,059	5,419,341
Common collective trusts	-	578,063
Mutual funds	-	42,160
Total appreciation	5,860,059	6,039,564
Total investment income	\$ 5,860,059	\$ 6,055,483

Contributions to the Plan, payments of retirement benefits, and certain administrative expenses paid by the Plan are accounted for specifically by the Plan. Net income (investment income, realized gains and losses, unrealized increases and decreases in the fair value of investments, and investment advisory services) of the Master Trust is completely allocated to the Plan. Certain investments within the Master Trust participate in securities lending.

NOTE 4 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

The hierarchy is broken down into three levels based on the ability to observe inputs as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

EMERY OLEOCHEMICALS RETIREMENT PLAN

Notes to Financial Statements (Continued)

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2021 and 2020.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Security and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: The NAV of the pooled separate account is based on the market value of its underlying investments. The pooled separate account is not a publicly-quoted price in an active market. The pooled separate accounts invest in various equity and debt securities to generate their investment return.

Common collective trusts: Valued at fair value of the collective trust's underlying investments based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end. The collective trust's fair value for U.S. and foreign securities listed or traded on any generally recognized securities exchange or quoted in the NASDAQ National Market System are valued at the regular trading session closing price on the exchange or system in which such securities are principally traded. Securities traded in the over-the-counter market that are not reported in the NASDAQ National Market System or on any generally recognized securities exchange are valued at the closing representative bid price. Other investments are valued on quotations from independent brokers. Shares of open-end investment companies are valued at net asset value. Fixed income securities may be valued on the basis of evaluated prices provided by independent pricing services when such prices are believed to reflect the fair value of such securities. Any securities for which no current quotations are readily available are valued at fair value as determined in good faith by the trustee.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$ 52,159,889	\$ -	\$ 52,159,889
Total assets at fair value	\$ -	\$ 52,159,889	\$ -	\$ 52,159,889

NOTE 5 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments including lump-sum distributions that are attributable under the Plan's provisions to the service that employees have rendered to date and that are expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) present employees or their beneficiaries, and (c) beneficiaries of employees who have died. Benefits for retired or terminated employees or their beneficiaries are based on actual benefits earned during their term of employment. The accumulated plan benefits for active employees are based on their actual compensation over their respective years of service, utilizing various benefit formulas as specified by the Plan. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payments (by means of decrements such as for death, disability, withdrawal, retirement, or termination of employment) between the valuation date and the expected dates of payment. The actuarial assumptions below are based on the assumption the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The components of the actuarial present value of accumulated plan benefits as of January 1, 2021 and 2020 are:

	<u>2021</u>	<u>2020</u>
Vested benefits		
Participants currently receiving payments	\$ 18,323,845	\$ 17,772,853
Other participants	<u>22,561,685</u>	<u>19,974,284</u>
Total vested benefits	40,885,530	37,747,137
Nonvested benefits	<u>1,533,720</u>	<u>1,478,042</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 42,419,250</u>	<u>\$ 39,225,179</u>

Notes to Financial Statements (Continued)

NOTE 5 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The components of the changes in accumulated plan benefits for the years ended January 1, 2021 and 2020 are:

	<u>2021</u>	<u>2020</u>
Actuarial present value of accumulated plan benefits as of January 1, 2020 and 2019, respectively	<u>\$ 39,225,179</u>	<u>\$ 33,054,986</u>
Increase (decrease) during the year attributable to:		
Additional benefits accumulated	918,624	1,575,745
Interest due to decrease in the discount period	2,213,707	2,103,166
Benefits paid	(1,472,433)	(1,419,510)
Assumption changes	<u>1,534,173</u>	<u>3,910,792</u>
Net increase	<u>3,194,071</u>	<u>6,170,193</u>
Actuarial present value of accumulated plan benefits as of January 1, 2021 and 2020, respectively	<u><u>\$ 42,419,250</u></u>	<u><u>\$ 39,225,179</u></u>

Assumption changes in 2021 primarily represent updated interest discounts and mortality rates, as well as a decrease in expected investment return and increase in expected expenses. Assumption changes in 2020 primarily represent updated interest discounts and mortality rates, as well as a decrease in expected investment return and increase in expected expenses. Due to inherent uncertainties in actuarial estimates, it is reasonably possible that actuarial estimates could change in the near term.

NOTE 6 GENERAL ACTUARIAL DATA

The more significant assumptions underlying the actuarial computations for the 2021 and 2020 valuations were as follows:

Plan's Actuary	Principal for 2021 and 2020
Assumed Rate of Return on Investments	6.25% and 6.50% per annum for 2021 and 2020, respectively annually
Salary Increases	4.5% per year
Mortality	Modified MP2020 mortality tables Healthy participants: Non-annuitant: IRS Prescribed Mortality - Static Non-Annuitant, male and female. Annuitant: IRS Prescribed Mortality - Static Annuitant, male and female. Projection scale: Pri-2012 Mortality Tables. The Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. was published by the Society of Actuaries (SOA). The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The blue and white collar base rate tables were selected based on information provided by the plan sponsor. Disabled participants: Revenue Ruling 96-7 table for participants who became disabled before 1995.

NOTE 6 GENERAL ACTUARIAL DATA (CONTINUED)

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Interest discounts and mortality rates have been updated to better reflect expected Plan experience.

NOTE 7 FUNDING POLICY

For the years ended December 31, 2021 and 2020, the funding policy was to contribute at least the minimum amount required under ERISA, as calculated by the Plan's actuary. During December 31, 2021 and 2020, contributions were made to meet the minimum funding requirements of ERISA.

NOTE 8 TAX STATUS

The Plan obtained its latest determination letter on May 20, 2014, in which the Internal Revenue Service stated that the Plan is in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since applying for the determination letter. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 9 INFORMATION CERTIFIED BY THE QUALIFIED INSTIUTION (UNAUDITED)

The following information provided by Principal Trust Company and The Northern Trust Company, the trustees of the Plan, was certified to be accurate and complete with respect to the following:

- (a) The assets held by Principal Trust Company at December 31, 2021 and 2020, as well as the transactions involving these assets for the year ended December 31, 2021 and for the period from May 12, 2020 to December 31, 2020 (with the period from January 1, 2020 to May 11, 2020 by The Northern Trust Company).
- (b) The amount of investment income for the year ended December 31, 2021 by Principal Trust Company. The amount of investment income for the period from January 1, 2020 to May 11, 2020 by The Northern Trust Company and for the period from May 12, 2020 to December 31, 2020 by Principal Trust Company.

EMERY OLEOCHEMICALS RETIREMENT PLAN

Notes to Financial Statements (Continued)

NOTE 10 PLAN TERMINATION

The Company expects the Plan to be continued indefinitely, but reserves the right to terminate the Plan and contributions thereunder, in whole or in part, at any time by action of its Trustees. If the Plan is terminated or partially terminated, benefits will be distributed pursuant to the terms of the Plan. Its net assets generally will not be available on a pro-rata basis to provide participants' benefits. Generally, the Plan provides the following priorities:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired when benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Vested benefits insured by the Pension Benefit Guarantee Corporation.
3. Other noninsured vested benefits.
4. All other nonvested benefits.

Certain benefits under the Plan are insured by the Pension Benefit Guarantee Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during December 31, 2021 and 2020, that ceiling is \$6,034 and \$5,813 per month, respectively. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial conditions of the Plan sponsor and the level of benefits guaranteed by the PBGC. PBGC insurance guarantees are backed by the solvency of the PBGC – a U.S. Government agency. Should the PBGC become insolvent, additional appropriations to the agency would need to be authorized by the U.S. Government in order to pay guaranteed benefits.

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year. The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed 12/28/2020.

Plan eligibility

Entry date First day of employment.

Class Any employee of the employer excluding the following:

- Bargaining employee unless agreement provides for coverage
- Nonresident alien with no U.S. source income
- Leased employee
- Employed as a casual or temporary employee

Normal retirement benefit

Age Attained age 65.

Form Monthly annuity payable for life (optional forms may be elected in advance of retirement).

Amount (accrued benefit) **For former hourly plan participants**
The sum of (a) and (b) below:

- (a) The benefit accrued under the hourly plan as of December 31, 2006 ("Steelworkers" benefit)
- (b) 1.00% of compensation for each plan year after December 31, 2006

For all other participants:

The sum of (a), (b) and (c) below:

- (a) The benefit accrued under the prior plan as of December 31, 2003
- (b) 1.00% of compensation for each plan year after December 31, 2003
- (c) Transition future service benefit:

Age plus service	Transition future service benefit
Greater than or equal to 80 on December 31, 2003	0.50% of compensation for each plan year after December 31, 2003 maximum ten years
Less than 80 but greater than or equal to 75 on December 31, 2003	0.25% of compensation for each plan year after December 31, 2003 maximum ten years

Transition future service benefit is applicable to Cognis Corporation transfers between January 1, 2006 and January 1, 2009.

Early retirement benefit

Age	Attained age 55.
Service	Completed five years of vesting service.
Form	Same as normal retirement benefit.
Amount	<p>Accrued benefit on early retirement date is reduced as follows:</p> <p>The accrued benefit as of December 31, 2003 (as of December 31, 2006 for former hourly plan participants) is reduced 2% for each year up to three and 4% for each year between three and seven that the early retirement date precedes age 62.</p> <p>For all former hourly plan participants and for salaried participants whose age plus service as of December 31, 2003 is less than 70, the accrued benefit after December 31, 2003 (after December 31, 2006 for former hourly plan participants) is reduced by 6% for each year that the early retirement date precedes age 65.</p> <p>For salaried participants whose age plus service as of December 31, 2003 is greater than or equal to 70, the accrued benefit after December 31, 2003 is reduced by 2% for each year up to three and 4% for each year between three and seven that the early retirement date precedes age 62.</p> <p>Accrued benefit on early retirement date is reduced as follows for participants who terminated before age 55:</p> <p>The accrued benefit as of December 31, 2003 is reduced 6% for each year up to five and 4% for each year between five and ten that the early retirement date precedes age 65.</p> <ul style="list-style-type: none">• All other reductions are same as active participants above.

Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on late retirement date or accrued benefit on normal retirement date actuarially increased to late retirement date for participants that have not received a suspension of benefits notice.

Schedule SB, Part V - Summary of Plan Provisions
Emery Oleochemicals Retirement Plan
EIN 32-0131687 Plan No. 003

Termination benefit

Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Disability benefit

Eligibility	Total and permanent disability.
Amount	Participant continues to accrue benefit service. Compensation is deemed to be the amount in effect at time of disability.

Survivor annuity death benefit (a vested benefit)

Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Definitions

Career average compensation	Average of all years of compensation after December 31, 2003 (after December 31, 2006 for former hourly plan participants).
Accrual service	Period of service from date of hire expressed as whole years and fractional parts of a year where one hour of service in a month equals a full month.
Vesting service	Period of service from date of hire expressed as whole years and fractional parts of a year where 365 days equal one year.

Optional forms of benefit payments

The optional forms of benefit payments are:

- Monthly annuity payable for life.
- Monthly annuity payable for 10 years certain and life.
- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 75 or 100.
- Single sum payment equal to the accrued benefit as of December 31, 1988 for former Quantum participants.

The optional form conversion basis is 6.00% interest and the RP-2000 mortality table for Healthy Annuitants projected to 2012 (assuming the male table for pensioners and the female table for beneficiaries) for payments other than lump sums.

The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the third calendar month preceding the first day of the stability period which is the plan year.

Changes in principal eligibility or benefit provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Significant event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Disability Salaried participants: 1985 Pension Disability Table Class 1

Hourly participants: 1985 Pension Disability Table Class 2

We don't have the plan experience necessary to directly set this assumption; therefore, we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design.

Marriage 80% married; husbands are 3 years older than wives.

This assumption does not have material impact on the results of this report and is based on the assumption set by the prior actuary.

Withdrawal Selected rates of withdrawal are shown below:

Age	Rate of withdrawal	Age	Rate of withdrawal
20	15.80%	45	4.75%
25	12.68%	50	3.64%
30	10.08%	55	2.73%
35	7.87%	60	1.95%
40	6.11%	65	0.00%

We don't have the plan experience necessary to directly set this assumption; therefore, we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design. As we gain plan experience, we will monitor and make appropriate adjustments in the future.

Compensation limit increase 2.25% increase per year used in the calculation of the IRC 404 maximum deduction cushion. See Calculated deduction in Rules and regulations.

Compensation limit increase is consistent with the inflation assumption.

Form of benefit and basis	<p>45% of participants are assumed to receive a life annuity and 55% of participants are assumed to receive a 50% joint and life annuity at the assumed retirement ages.</p> <p>Active participants who terminate or retire are assumed to receive their quantum portion of their accrued benefit at the assumed retirement ages as a lump sum.</p> <p>The lump sum benefit is based on the Applicable Mortality and the plan's funding target interest rates, as prescribed.</p> <p>We don't have the plan experience necessary to directly set this assumption; therefore, we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design.</p>
Methods prescribed by law	
Liability measure	<p>Funding target is the present value of the benefits accrued on the valuation date.</p> <p>Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.</p>
Benefit accrual	<p>All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target.</p> <p>The portion based on the plan's definition of accrued benefit.</p> <p>The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement.</p> <p>The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in funding target and an amount calculated assuming the participant accrues service through the end of the plan year.</p>
Lump sum payments	<p>Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions; therefore, plan liabilities do not currently recognize this additional cost, and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions.</p>

HCE benefit payment restrictions	<p>A ratio of the plan assets and accrued liability is used to determine if restrictions apply. Assets and accrued liability are as of the valuation date and are reduced by:</p> <ul style="list-style-type: none">any retiree benefit index or flooramounts for HCEs who were previously restrictedan amount for the retiring HCE <p>The estimated HCE ratio illustrated in this report is based on the market value of plan assets (excluding late deposits) and funding target as of the valuation date. The funding target uses the non-stabilized interest rates as defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods could be used.</p>
Methods selected by plan sponsor	
Asset method	<p>The asset valuation method is prescribed by law for plans that elect to use a value other than market value.</p> <p>For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.</p> <p>The expected value includes contributions, distributions, any deducted administrative expenses and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.</p> <p>When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.</p>
Segment rates	<p>24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.</p>
PBGC premium basis	<p>Variable Rate Premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2020 plan year and this method must be used for five years before a change can be made.</p>

Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on Pri-2012 base rate mortality table projected generationally using MP-2020.
------------------	---

Base rates

Before benefit payment period

Blue-collar for hourly participants and white-collar for salaried participants employee amount-weighted, male and female

During benefit payment period

Retirees – Blue-collar for hourly participants and white-collar for salaried participants retiree amount-weighted, male and female

Contingent survivors – Blue-collar for hourly participants and white-collar for salaried participants contingent survivor amount-weighted, male and female after the original participant's death. Participants in pay status who cannot be identified as survivors use the same table as retirees.

Disabled retiree – Total dataset disabled retiree amount-weighted, male and female. Participants in pay status who cannot be identified as disabled use the same table as retirees.

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The blue and white-collar base rate tables were selected based on information provided by the plan sponsor. Pri-2012 section 12.4, provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 2" is reasonable for this plan.

Mortality improvement (MI)

MP-2020 is the improvement scale published by the SOA in October 2020.

Interest rate used to value liabilities 5.50%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation and then converted to the geometric under lognormal distribution assumption. See Long-Term Capital Markets Assumptions May 2021.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan would usually be reimbursed annually through required funding except when contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Basis for lump sums

Interest rate

Based on the three-segment yield curve: 3.05%, 3.45% and 4.35%.

The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high-quality corporate bond yields. According to our most recent study, the long-term expected yields for short, intermediate and long corporate bonds are 3.05%, 3.45% and 4.35%. For details, see Corporate AA yield in Figure 2 of Long-Term Capital Markets Assumptions May 2021.

Mortality

We have selected the same mortality assumption for lump sum payments but with a 50/50 blend of male and female total dataset base rates and mortality improvement scales. This reflects the IRS practice of defining lump sum mortality on a unisex basis.

Schedule SB, Line 24 – Change in Actuarial Assumptions
Emery Oleochemicals Retirement Plan
EIN 32-0131687 Plan No. 003

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has decreased from 6.50% to 6.25%. This rate is used in the calculation of the actuarial value of plan assets.

Schedule SB, Line 22 - Description of Weighted Average Retirement Age
Emery Oleochemicals Retirement Plan
EIN 32-0131687 Plan No. 003

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.
