REPORT OF INDEPENDENT AUDITORS

To the Participants, Trustees and Audit Committee
Texas Oil & Chemical Co. II, Inc. 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the accompanying financial statements of Texas Oil & Chemical Co. II, Inc. 401(k) Plan (the “Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (“ERISA”), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (collectively, the “2021 Financial Statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan’s 2021 Financial Statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from Principal Insurance Company as of December 31, 2021 and for the year then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the 2021 Financial Statements section—

- The amounts and disclosures in the 2021 Financial Statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the 2021 Financial Statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the 2021 Financial Statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the 2021 Financial Statements.

In preparing the 2021 Financial Statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the 2021 Financial Statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the 2021 Financial Statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of

assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the 2021 Financial Statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the 2021 Financial Statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the 2021 Financial Statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the 2021 Financial Statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2021 Supplemental Schedule Required by ERISA

The supplemental schedule of Form 5500 - Schedule H, Line 4i Schedule of Assets (Held at End of Year) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 Financial Statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 12, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 Financial Statements, and (b) the form and content of the information included in the 2020 Financial Statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

TEXAS OIL AND CHEMICAL CO. II, INC. 401(k) PLAN

Notes to Financial Statements

Note I - Description of Plan

The Plan is a defined contribution plan sponsored by Texas Oil & Chemical Co. II, Inc. (the “Company” or “Plan Sponsor”). The Company is a wholly owned subsidiary of Trecora Resources (“Trecora”), which traded on the New York Stock Exchange (“NYSE”) under ticker symbol TREC. On June 27, 2022, Balmoral Funds, LLC acquired TREC. With the completion of the acquisition, TREC ceased trading on the NYSE and is no longer listed on any public market. The following provides only general information and participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which became effective on September 1, 1978, as amended and restated effective January 1, 2018, is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and the Internal Revenue Code (“IRC”). The plan has been amended to conform with updated ERISA and IRC regulations. The Plan is sponsored and administered by the Plan Sponsor. At December 31, 2021 and 2020, the Plan assets were held by Principal Insurance Company, (“Principal”). The Retirement Plan Administration Committee is responsible for oversight of the Plan.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”) was signed into law. The CARES Act contained several provisions that temporarily impacted 401(k) plans, such as the waiver of required minimum distributions, a new hardship withdrawal option, and increased loan limits. The Company has incorporated these provisions into the Plan.

Eligibility

Employees are eligible to participate in the Plan and receive matching and profit-sharing contributions after completion of six months of service, as defined by the Plan. The employee enters the Plan on January 1, April 1, July 1 and October 1, following the completion of the eligibility requirement.

Employee Contributions

Participants may contribute up to 100% of their compensation, as defined by the Plan. The Plan provides for the automatic enrollment of newly eligible participants at a deferral rate of 6% of eligible pay, unless the participant affirmatively elects otherwise. Eligible participants may also elect to automatically increase their deferral rate, unless the participant affirmatively elects otherwise. The Plan also provides participants the opportunity to contribute amounts representing rollover distributions from other qualified defined benefit or defined contribution plans. Participants’ salary deferral

contributions are subject to IRC limitations, which was \$19,500 in 2021. The Plan allows catch-up contributions (within the meaning of Section 414(v) of the IRC) for participants who have reached age 50 by the end of the plan year. Participants are only permitted to make catch-up contributions if they have made their maximum salary deferral contribution for the year.

Employer Contributions

The Company makes matching contributions equal to 100% of the participant's deferral up to the first 6% of the participant's eligible compensation. In addition, each year the Company may, at its discretion, make a profit-sharing contribution for the plan year not to exceed certain limitations prescribed by the IRC. The Company did not make a profit-sharing contribution for the year ended December 31, 2021.

Participant Accounts

Each participant's account reflects the participant's contribution, rollover contributions, the Company's matching and profit-sharing contributions, Plan earnings or losses on the account, an allocation of the Company's discretionary contribution, if any, based on participant compensation and a charge for any distributions and direct expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and rollover accounts, plus actual earnings thereon. Vesting in the Company's matching contributions is based on years of service according to the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0 %
2 or more	100 %

Notes to Financial Statements

Note I - Description of Plan – (Continued)

Vesting – continued

Vesting in the Company's profit-sharing contributions, if any, is based on years of service according to the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0 %
2	20 %
3	40 %
4	60 %
5	80 %
6 or more	100 %

Administrative Expenses

In accordance with the Plan, administrative expenses may be paid out of the Plan unless paid by the Company.

Participant Investment Options

Upon enrollment in the Plan, a participant may direct employee and employer contributions in 1% increments in various investment options offered by the Plan. The Plan currently offers shares of pooled separate accounts, guaranteed interest accounts and mutual funds as investment options for participants. Participants can change their investment options daily.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account balance or \$50,000, minus the highest outstanding note receivable balance during the immediately preceding twelve months. The notes receivable are secured by the balance in the participant's account. All notes are considered a directed investment from the participant's Plan account with all principal and interest credited to the participant's account. A maximum of one loan outstanding is allowed per participant at a time. Each loan shall bear a reasonable fixed rate of interest to be determined by the Administrator. Interest rates ranged from 5.25% to 7.50% as of December 31, 2021 and 2020. Notes receivable are to be repaid within five years. Principal and interest are paid ratably through periodic payroll deductions.

TEXAS OIL AND CHEMICAL CO. II, INC. 401(k) PLAN

Notes to Financial Statements

Note 1 - Description of Plan – (Continued)

Notes Receivable from Participants – continued

Notes receivable are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document. Participant loans are considered delinquent if any payment or principal and interest, or any portion thereof, remains unpaid for more than 90 days after due.

In accordance with the CARES Act, the Plan permitted qualifying participants to delay loan repayments that were due between March 27, 2020 and December 31, 2020.

Payment of Benefits

Upon termination of service, the participant or their beneficiary has the option to choose a lump sum payment, installment payment, or to purchase an annuity equal to the value of the participant's vested interest in his or her account. A participant may elect to withdraw all or a portion of their vested account balance while employed after reaching age 59 1/2.

The Plan allowed eligible participants who were impacted by the COVID-19 pandemic to request a penalty-free distribution of up to \$100,000 during 2020. The distributions are repayable to the Plan within three years. In addition, the required minimum distributions were waived for the 2020 calendar year and resumed for the 2021 calendar year.

On December 20, 2019, the Setting Every Community Up for Retirement Enhancement Act was signed into law. The age requirement for minimum distributions was raised to 72 from 70-1/2, for any participant who turned 70-1/2 on or after January 1, 2020.

Forfeitures

Forfeitures can be used to reduce future employer contributions or to pay administrative expenses. See Note 3.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying Financial Statements were prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and are presented on the accrual basis of accounting.

TEXAS OIL AND CHEMICAL CO. II, INC. 401(k) PLAN

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies – (Continued)

Use of Estimates

The preparation of Financial Statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the Financial Statements and the reported amounts of additions and deductions to net assets available for benefits during the reporting period. Actual results could differ from those estimates. See Note 4 for discussion of significant estimates used to measure fair value of investments.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Benefits Paid to Participants

Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid.

Risks and Uncertainties

The Plan and its participants invest in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities will occur at any given time, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Asset Management Fees

Plan participants are charged for asset management fees based on fund balances. Asset management fees are accrued daily by the Trustee based on participant balances in each fund and are included in net appreciation.

TEXAS OIL AND CHEMICAL CO. II, INC. 401(k) PLAN

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies – (Continued)

Subsequent Events

Management of the Plan evaluates events and transactions occurring subsequent to the date of the Financial Statements for matters requiring recognition or disclosure in the Financial Statements. The accompanying Financial Statements consider events through October 14, 2022, the date which the Financial Statements were issued. See Note 1.

Note 3 - Nonparticipant-Directed Investments

Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows:

	December 31,	
	2021	2020
Net assets:		
Forfeiture account	\$ 147,875	\$ 80,871
		Year Ended December 31, 2021
Changes in net assets:		
Forfeitures relating to current year activities		\$ 51,980
Earnings		15,024
		\$ 67,004

Note 4 - Fair Value Measurements

GAAP establishes a framework for measuring fair value. This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

TEXAS OIL AND CHEMICAL CO. II, INC. 401(k) PLAN

Notes to Financial Statements

Note 4 - Fair Value Measurements – (Continued)

The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; or
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

TREC common stock: Valued at the closing price reported on the NYSE. See Note 1 and 7.

Guaranteed interest contracts: Fair value is the amount plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other death, disability, termination or retirement. This fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates.

TEXAS OIL AND CHEMICAL CO. II, INC. 401(k) PLAN

Notes to Financial Statements

Note 4 - Fair Value Measurements – (Continued)

Mutual funds: Valued at the closing price reported on the active market on which the Fund is traded.

Separate accounts: Valued at the net asset value (“NAV”) of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of:

	December 31, 2021			
	Level 1	Level 2	Level 3	Total

Notes to Financial Statements

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan document to terminate the Plan at any time subject to the provisions of ERISA, as amended. In the event of plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 7 - Related-Party Transactions

The Plan previously offered participants the option to invest in TREC common stock. Effective on January 1, 2019, this option was discontinued for new contributions. As of December 31, 2021 and 2020, the Plan held 311,003 and 414,398 shares of TREC common stock valued at \$2,512,901 and \$2,896,640, respectively. Each participant is entitled to exercise voting rights attributable to any TREC common stock shares allocated to their account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is permitted to vote in the best interest of plan participants' shares for which instructions have not been given by a participant. As discussed in Note 1, as of June 27, 2022, all of the shares were repurchased, and the Plan no longer held shares of TREC.

Certain plan investments in shares of pooled separate accounts and guaranteed interest contracts are managed by Principal Insurance Company and qualifying employer securities are held by Principal Trust Company. Principal Insurance Company and Principal Trust Company are also the trustees, custodians and record keepers as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Purchases and sales of these accounts and the underlying investments comprising these accounts are open market transactions at fair market value. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA and applicable exemptions promulgated thereunder.

Note 8 - Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated October 13, 2015, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 8 - Tax Status – (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not, would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

*The fair values of the investments have been estimated using the net asset value of the investment.

Note 9 - Net Asset Value (NAV) Per Share – (Continued)

- (a) The investment seeks to provide a high level of current income consistent with safety and liquidity. The fund invests primarily in securities issued by the U.S. government, its agencies or instrumentalities or securities that are rated AAA by S&P, AAA by Fitch, or Aaa by Moody's.
- (b) The investment seeks a total return consisting of long-term growth of capital and current income. The fund invests in underlying Principal domestic and foreign equity, real estate investments, and fixed-income funds according to an asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund. It allocates the assets more conservatively over time.
- (c) The investment seeks current income and, as a secondary objective, capital appreciation. The fund invests in underlying Principal domestic and foreign equity, real estate investments, and fixed-income funds according to an asset allocation strategy designed for investors primarily seeking current income and secondarily capital appreciation. Its asset allocation is designed for investors who are approximately 15 years beyond the normal retirement age of 65.
- (d) The investment seeks long-term growth of capital. The fund normally invests at least 80% of net assets in equity securities of companies with market capitalizations within the range of companies in the Russell 1000 Growth Index at the time of purchase. It may also invest in initial public offerings and foreign securities. It invests in growth equity securities; growth orientation emphasizes buying equity securities of companies whose potential for growth of capital and earnings is expected to be above average.
- (e) The investment seeks long-term growth of capital. The fund invests at least 80% of net assets in common stocks of companies that compose the S&P 500 Index. It uses an indexing strategy, or a passive investment approach designed to track the performance of the S&P 500.
- (f) The investment seeks long-term growth of capital. The fund invests at least 80% of net assets in equity securities of companies with medium market capitalizations (those with market capitalizations similar to companies in the Russell Midcap Value Index) at the time of purchase. It invests in value equity securities; the value orientation selection emphasizes buying securities that appear to be undervalued.
- (g) The investment normally invests the majority of assets in common stocks of companies that compose the S&P MidCap 400 Index. Management attempts to mirror the investment performance of the index by allocating assets in approximately the same weightings as the S&P MidCap 400 Index. Over the long-term, management seeks a very close correlation between the performance of the Separate Account before expenses and that of the S&P MidCap 400 Index.

Note 9 - Net Asset Value (NAV) Per Share – (Continued)

- (h) The investment seeks long-term growth of capital. The fund normally invests at least 80% of net assets in equity securities of companies with small market capitalizations (those with market capitalizations similar to companies in the Russell 2000 Index) at the time of purchase. It invests in equity securities with value and /or growth characteristics and constructs an investment portfolio that has a “blend” of equity securities with these characteristics.
- (i) The investment seeks long-term growth of capital. The fund invests primarily in equity securities of companies domiciled in any of the nations of the world including those in countries with emerging markets. It has no limitation on the percentage of assets that are invested in any one country or denominated in any one currency, but the fund typically invests in at least 30 countries.
- (j) Principal Life implemented a pre-existing contractual limitation to delay withdrawal requests for this separate account. Certain high need payments, such as death, disability, certain eligible retirements, and hardship withdrawals were not subject to the withdrawal limitation. Other withdrawal requests were subject to the limitation until certain liquidity levels were achieved.
- (k) The investment seeks to provide long-term capital growth by investing primarily in the shares of companies domiciled in developed (ex-U.S.) and emerging market countries.
- (l) The investment seeks long-term growth of capital. The fund normally invests at least 80% of net assets, plus any borrowings for investment purposes, in companies with large market capitalizations at the time of each purchase. The pooled separate account invests in value equity securities, an investment strategy that emphasizes buying equity securities that appear to be undervalued.
- (m) The investment seeks to provide a high level of current income consistent with preservation of capital. The fund invests primarily in a diversified pool of fixed-income securities including corporate securities, U.S. government securities, and mortgage-backed securities, up to 35% of which may be in below investment grade bonds which are rated at the time of purchase Ba1 or lower by Moody's and BB+ or lower by S&P. It maintains an average portfolio duration that is within 25% of the duration of the Barclays U.S. Aggregate Bond Index.
- (n) The investment seeks to provide long-term growth of capital. The fund invests primarily in equity securities of companies with any market capitalization but has a greater exposure to large market capitalization companies than small or medium market capitalization companies. It invests in equity securities with value and/or growth characteristics and constructs an investment portfolio that has a "blend" of equity securities with these characteristics. Investing in value equity securities is an investment strategy that emphasizes buying equity securities that appear to be undervalued.

Note 9 - Net Asset Value (NAV) Per Share – (Continued)

- (o) The investment seeks a relatively high level of current income and long term growth of income and capital by investing primarily in the common stocks of U.S. large cap companies. The benchmark is the Russell 1000 Value Index. The strategy typically invests in 80-100 companies.
- (p) The investment seeks as high a level of current income as is considered consistent with preservation of principal and maintenance of liquidity. It invests in a portfolio of high quality, short-term money market instruments. The investments are U.S. dollar denominated securities which the sub-advisor believes present minimal credit risks. The sub-advisor maintains a dollar weighted average portfolio maturity of 60 days or less.
- (q) The investment option invests primarily in intermediate-term, fixed-income investments such as public and private corporate bonds, commercial and residential mortgages, asset-backed securities, and US government and agency-backed securities. Value is added primarily through sector allocation and security selection. The Separate Account may enter into reverse repurchase agreements to attempt to enhance portfolio return and income.
