Hyundai Power Transformers USA 401(k) Plan
Montgomery, Alabama
December 31, 2021 and 2020

Note 1 – Description of Plan

The following description of the Hyundai Power Transformers USA (Company) 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions

The Company's Plan was originally established July 4, 2011. Various revisions were made to the Plan via revision, effective January 25, 2017.

General – The Plan is a defined contribution plan, covering all full-time employees of the Company who have at least three consecutive months of service and are age twenty-one or older. The Plan operates on a calendar year basis, beginning each January 1st (Plan Year). Eligible employees may participate in the Plan at entry dates of January 1st and July 1st or each year. The Plan is subject to the provisions of Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). Massachusetts Mutual Life Insurance Company (Custodian) serves as the Plan's custodian.

Contributions – Participants may contribute their pre-tax compensation, as defined in the Plan, up to statutory limitations. Participants who have attained age fifty before the end of the Plan Year are eligible to make additional catch-up contributions. Participants may also contribute amounts representing roll-over distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company provides a matching contribution of 50% percent of the first 5% percent of base compensation contributed by Participants. Contributions are subject to certain limitations as outlined in the Plan.

Participant Accounts – Participant's accounts are credited with their contributions, Company matching contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan.

Vesting – Participants are vested immediately in their contributions. Company matching contributions and earnings thereon become 100% vested upon reaching three years of service. Eligible participants hired prior to January 1, 2016 are 100% vested in all sources from day one.

Forfeitures – Any amounts forfeited from Participant accounts shall be used to restore forfeitures, reduce Company contributions or to pay reasonable plan expenses.

Payment of Benefits – Upon termination of service due to death, disability, or retirement, a Participant (or beneficiary upon death) may elect to receive either a lump-sum distribution or a series of annual payments, as defined by the Plan. For termination of service for any other reason, a participant may elect to receive a lump-sum distribution or remain in the Plan.

Notes Receivable from Participants – Participants could borrow up to 50% of their account balance subject to certain limitations. The Plan allowed loans between \$1,000 and \$50,000. Participant loans are secured by the Participant's account balance. Interest accrues at a rate

of prime plus 1%. Principal and interest are paid ratably over a fixed term via payroll deductions. The Plan, as amended January 25, 2017, no longer allows for Participant loans. Participant loans in place at date of amendment will remain in place under original terms. As of December 31, 2020, all participant loans have been fully repaid.

Termination – Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan have been prepared on the accrual basis of accounting. Benefit payments are recorded as paid.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation & Investment Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's custodian determines the Plan's valuation policies. See Note 4 for discussion of fair value measurements.

Income Taxes - The Plan adopted a Non-Standardized 401(k) Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008 (Determination Letter), that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the Determination Letter, the Plan administrator believes that the Plan is in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified. The Plan is subject to routine audits by tax authorities; however there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2017.

Date of Management's Review – Subsequent events were evaluated through October 11, 2021, which is the date the financial statements were available to be issued.

Reclassification – Management has made certain reclassifications to prior year balances to conform to the presentation of the current period financial statements.

Note 3 – Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation of investments includes the Plan's gains and losses on investments sold during the year or held at year end. Investment related expenses are included as a reduction of the net appreciation of investments.

Note 5 – Fair Value Instruments

The fair value accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1 – Quoted market prices in active markets for identical assets or liabilities.

Level 2 – Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3 – Unobservable inputs that are not corroborated by market data.

The Plan uses appropriate valuation techniques based on the observable inputs to measure the fair value of its investments.

The fair value of mutual funds are Level 1. is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-ended mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded.

The fair value of the Plan's notes receivable from participants approximate their carrying values because of the short maturity of the instruments.

Note 6 – Related Party Transactions

All Plan investments are managed by the Custodian. Any purchases and sales of investments are performed on the open market at fair value and qualify as party-in-interest transactions. Such transactions are permitted under the provisions of the Plan and as specifically exempt from the prohibition of party-in-interest transactions under ERISA. In addition, notes receivable from participants also qualify as a permitted party-in-interest transactions.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
