Independent Auditors' Report

To the Plan Administrator of the Wind Turbine & Energy Cables 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of Wind Turbine & Energy Cables 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section

- the amounts and disclosures in the accompanying 2021 Financial Statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2021 Financial Statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of Wind Turbine & Energy Cables 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Wind Turbine & Energy Cables 401(k) Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Wind Turbine & Energy Cables 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Wind Turbine & Energy Cables 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2021 and the supplemental schedule of delinquent participant contributions for the year ended December 31, 2021 are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of Wind Turbine & Energy Cables 401(k) Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 15, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Wind Turbine & Energy Cables 401(k) Plan

Notes to Financial Statements Years Ended December 31, 2021 and 2020

1. Description of Plan

The following description of the Wind Turbine and Energy Cables 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established on September 1, 2005. The Plan is a defined contribution plan covering substantially all employees of Wind Turbine and Energy Cables, Corp. (the "Plan Sponsor" or "Company"), Cable System Installation, Alternative Energy Development Corporation and Gulf Cable LLC (collectively the "Employers"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan was amended and restated effective September 15, 2021 for Cycle 3 Restatement to bring the Plan into compliance with the requirements of the 2017 Cumulative List (Notice 2017-37).

CARES Act

On March 27, 2020, "the "Coronavirus Aid, Relief, and Economic Security ("CARES") Act" was signed into law. The CARES Act includes several relief provisions available to the Plan and its participants. Plan management evaluated the relief provisions available to Plan participants under the CARES Act and amended the plan for the following provisions:

- Special coronavirus distributions up to \$100,000, or 100% of the participant's vested account balance, whichever is less, for the period from January 1, 2020 to December 31, 2020.
- Extended the period for loan repayments up to one year.

Eligibility

An employee is eligible to participate in the Plan on the first day of each calendar month following six consecutive months of service and attaining 21 years of age. Participants become eligible for safe harbor matching contributions, discretionary employer matching, and discretionary non-elective contributions upon meeting the eligibility requirements for participation in the Plan.

Contributions

The Plan provides each participant with an opportunity to make elective deferrals and Roth contributions to the Plan up to 100% of compensation, subject to the limitations of the Internal Revenue Code. Participants who attained age 50 before the end of the plan year are eligible to make additional catch-up contributions.

The Company is required to make a safe harbor matching contribution, calculated on a plan year basis, equal to 100% of a participant's elective deferrals up to 3% of compensation and 50% of participant's elective deferral that exceed 3% of compensation not to exceed 5%. For the year ended December 31, 2021, the Company made safe harbor matching contributions in the amount of \$340,548.

The Company can also make a discretionary matching and non-elective contribution for each eligible participant in accordance with the provisions contained in the Plan document. Discretionary matching contributions will not be made for elective deferrals exceeding 6% of a participant's compensation. There were no discretionary matching or non-elective contributions made for the year ended December 31, 2021.

Wind Turbine & Energy Cables 401(k) Plan

Vesting

Participant contributions, as well as safe harbor matching contributions and earnings thereon are immediately fully vested. Discretionary matching and non-elective contributions are subject to the following vesting schedule:

Years of Service	Percent Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

Forfeitures are retained in the Plan and used to pay administrative expenses and then used to reduce future employer contributions. Forfeitures for the years ended December 31, 2021 and 2020, totaled \$69,775 and \$2,766, respectively, which were the available balances as of December 31, 2021 and 2020, respectively.

Participant Accounts

Each participant's account is credited with their own contributions, employer contributions, and earnings thereon. Contributions to the Plan are invested by the custodian as directed by the participants. Each participant may elect from one or more of the investment vehicles offered pursuant to the provisions of the Plan.

Benefits

On termination of service due to death, disability or retirement, the benefit is paid as a lump sum to either the participant or designated beneficiary. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan also allows for hardship withdrawals in certain circumstances, as defined in the plan document.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their account balance. A participant may have up to two loans outstanding at a time. The loans are secured by the balance in the participant's account and bear interest at the prime interest rate as of the loan origination date. Repayment of the loan, unless for the purchase of a participant's primary residence, is over a five-year period. Notes receivable from participants are valued at their outstanding balances, which approximate fair value. As of December 31, 2021, the interest rates on the outstanding notes receivable from participants ranged from 3.25% to 7.50%.

Administrative Expenses

All transaction fees for loan and distribution requests are paid from participants' accounts. Substantially all other administrative expenses are to be paid by the Company.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at either fair value or contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. See Note 3 for discussion of contract value measurements.

Wind Turbine & Energy Cables 401(k) Plan

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits Paid

Benefit payments to participants are recorded upon distribution.

Subsequent Events

Management evaluated subsequent events for the Plan through October 17, 2022, the date the financial statements were available to be issued. All subsequent events requiring recognition or disclosure have been incorporated in these financial statements.

3. Information Certified by the Custodians

The following is a summary of the investments and notes receivable from participants regarding the Plan as of December 31, 2021 and 2020, and for the year ended December 31, 2021, included in the Plan's financial statements and supplemental schedule, that was prepared or derived from information provided by Great-West Trust Company, LLC ("GWTC") and Great-West Life & Annuity Insurance Company ("GWLAI"), the custodians of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the custodians that such information is complete and accurate.

Information related to assets held by the custodians at December 31, is as follows:

	2021	2020
Guaranteed interest account, at contract value	\$ 330,793	\$ 207,774
Mutual funds, at fair value	7,441,675	6,379,976
Common collective trust, at fair value	268,655	229,601
Notes receivable from participants	120,751	88,281
	<u>\$ 8,161,874</u>	<u>\$ 6,905,632</u>

The following was also certified by the custodians for the year ended December 31, 2021:

Net appreciation in fair value of investments	\$ 442,046
Interest income	\$ 4,204
Dividend income	\$ 268,262
Interest income from notes receivable from participants	<u>\$ 4,165</u>

Investment Contract with Insurance Company

The Plan is party to an investment contract with Great-West Life & Annuity Insurance Company ("GWLAI"), whereby allocated contributions are maintained in a Guaranteed Income Account ("GIA"). The GIA is credited with earnings on the underlying investments and charged for withdrawals and administrative expenses by GWLAI. The contract was fully benefit-responsive and is reflected in the financial statements at contract value.

Certain events could limit the ability of the Plan to execute transactions at contract value with GWLAI. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsors or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The contract does not permit GWLAI to terminate the agreement prior to the scheduled maturity date.

Wind Turbine & Energy Cables 401(k) Plan

4. Fair Value Measurements

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs. Valuation techniques used to measure fair value are defined as follows:

- Level 1 - Inputs to the valuation methodology are quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the assets or liabilities; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020:

- Mutual funds: Shares held by the Plan at year-end are valued at unadjusted quoted prices in an active market.
- Common collective trust: The fair value of the common collective trust is determined by the trustee of the common collective trust based on the underlying assets, which represent the net asset value of units held by the Plan. Participant-directed redemptions can be made on any business day and do not have a redemption notice period.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments at fair value as of December 31, 2021 are as follows:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 7,441,675	\$ -	\$ -	\$ 7,441,675
Total investments in the fair value hierarchy	7,441,675	-	-	7,441,675
Common collective trust measured at net asset value (a)	-	-	-	268,655
Total investments	\$ 7,441,675	\$ -	\$ -	\$ 7,710,330

Wind Turbine & Energy Cables 401(k) Plan

Investments at fair value as of December 31, 2020 are as follows:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 6,379,976	\$ -	\$ -	\$ 6,379,976
Total investments in the fair value hierarchy	6,379,976	-	-	6,379,976
Common collective trust measured at net asset value (a)	-	-	-	229,601
Total investments	\$ 6,379,976	\$ -	\$ -	\$ 6,609,577

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient to fair value have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

5. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time subject to the provisions of the ERISA. If the Plan is terminated, the amount credited to the account of each participant will be fully vested.

6. Tax Status

On June 30, 2020, the Internal Revenue Service ("IRS") stated that the prototype plan adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code ("IRC"). The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2018.

7. Risks and Uncertainties

The Plan's investments are concentrated in a guaranteed interest account, mutual funds, and a common collective trust that invest in marketable equity, debt, and fixed income securities. Such securities are subject to various risks that determine the value of the funds. Due to the level of risk associated with certain equity, debt, and fixed income securities and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

Wind Turbine & Energy Cables 401(k) Plan

8. Party-in-interest Transactions

Certain Plan investments are managed by Great-West Trust Company, LLC ("GWTC") and Great-West Life & Annuity Insurance Company ("GWLAI") and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to GWTC and GWLAI amounted to \$5,808 for the year ended December 31, 2021. Services rendered by the investment manager and investment advisor also qualify as party-in-interest transactions. Fees paid to the investment manager and investment advisor amounted to \$38,776 for the year ended December 31, 2021.

9. Delinquent Participant Contributions

During 2020, the Company did not remit to the Plan's custodians certain participant contributions totaling \$174,099, within the period prescribed by Department of Labor regulations. Delays in remitting contributions to the custodians were due to administrative errors. The Company has made the contributions to the affected participants' accounts during 2020 and lost earnings are being calculated for contribution into the Plan during 2022.

10. ERISA Fidelity Bond

ERISA requires all persons who handle assets of benefit plans to be bonded. This requirement protects plans against losses sustained due to acts of fraud or dishonesty by those persons whose positions require them to come in direct contact with or exercise discretion over plan assets. Based on the value of the investments, the bond of the Plan Sponsor was insufficient as of December 31, 2021 and 2020, and for the year ended December 31, 2021. As a result, the bonding requirement of the Plan Sponsor was not met.
