Janus Research Group 401(k) Plan

Notes to the Financial Statements

1. Description of the Plan

The following description of the Janus Research Group 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document and any amendments thereto for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Janus Research Group, LLC (the Company or Plan Sponsor) except for employees covered by a collective bargaining agreement and nonresident aliens not receiving any earned income from the employer constituting United States source income. There is no age or eligibility service requirement, employees are eligible upon employment with the Company. Plan entry dates for eligible employees are the first day of each month. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective September 30, 2021, the Plan adopted the restated pre-approved plan from Fidelity Management & Research Company to reflect remedial amendments associated with its restatement of its prototype plan (Note 8).

Trustee, Custodian and Administration of the Plan

The trustee, custodian and recordkeeper of the Plan is Fidelity Management Trust Company (Fidelity). The administrator of the Plan is the Company. Fidelity holds all assets of the Plan in accordance with the service provider contract with the Company. The Company's management determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may defer a portion of their pretax pay to the Plan subject to an annual limit of the lesser of 90% of eligible compensation or Internal Revenue Code (IRC) limitations. Participants who have attained age fifty (50) before the end of the Plan year are eligible to make catch-up contributions in accordance with IRC limitations. The Plan is intended to qualify as a participant-directed plan under Section 404(c) of ERISA, which means participants direct the investment of their contributions into various investment options offered by the Plan.

Effective August 12, 2015, the Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a default deferral rate set at six percent (6%) of eligible compensation. Employees who are automatically enrolled are enrolled on the first entry date that falls thirty (30) days after their date of hire. The automatic enrollment provision excludes all employees hired or rehired prior to August 12, 2015. Contributions are automatically invested in designated funds based on the participant's date of birth until changed by the participant.

The Company contributes 50% of the first 6% of base compensation that a participant contributes to the Plan. The Company may also make discretionary non-elective contributions. These amounts may be contributed at the option of the Company's Board of Directors and will be allocated to the participant accounts on the last day of the Plan year for eligible employees. Rollovers from other qualified retirement plans or conduit Individual Retirement Accounts or Annuities (IRA) are accepted

Janus Research Group 401(k) Plan

Notes to the Financial Statements

by the Plan as long as the employee meets the eligibility requirements of the Plan. All investments in the Plan are directed by the participants including employer contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions, including amounts rolled over from other qualified plans, the Company's contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and rollover contributions, plus actual earnings thereon. Vesting in the Company's contributions, plus earnings thereon, is based on years of continuous service. A participant is vested according to the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 1 year	0%
1	30%
2	60%
3	100%

Payment of Benefits

Upon termination of service due to death, disability, retirement or any other reason, a participant or beneficiary may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account. Participants may elect to receive a distribution of their vested account balance in a single lump sum as early as possible following the day of termination. If the account balance is \$5,000 or greater, election to defer payment can be made. For balances under \$5,000, the Plan Administrator will direct Fidelity, that any amount exceeding \$1,000 be distributed to an IRA for the participant's benefit. If the vested account balance is \$1,000 or less, the Plan administrator will direct the Trustee to distribute it to the participant as a lump-sum distribution without consent. Participants may also receive a distribution of their elective deferral contributions in the event of proven financial hardship.

Forfeited Accounts

Forfeitures result from nonvested Company contributions remaining in the Plan for all terminated employees. Upon reaching the break-in-service requirement, as defined in the Plan Agreement, forfeitures generated are retained in the Plan and may be used to pay administrative expenses or to reduce future employer contributions payable under the Plan. At December 31, 2021 and 2020, forfeited nonvested accounts totaled \$15,628 and \$17,446, respectively. During 2021, administrative expenses and employer contributions were reduced by \$100,895 from forfeited nonvested accounts.

Janus Research Group 401(k) Plan

Notes to the Financial Statements

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 and a maximum of the lesser of 50% of their vested account balance or \$50,000 reduced by the highest outstanding loan balance in their account during the prior 12-month period, except for loans provided for under the CARES Act. The loans are secured by the balance in the participant's account and bear interest which are commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest are paid ratably through monthly payroll deductions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from estimated amounts.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisors. See Note 4 for further information on fair value measurements.

The Plan's shares of mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds or a money market fund that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The Plan's investment in the money market fund is generally short-term money market funds valued using \$1 per unit for the unit value. Fidelity reports the market and quotes the prices, on a daily basis, that are available to market participants. The investments are valued at amortized cost, which approximates fair value. These are considered Level 2 investments because the inputs used to determine fair value are not quoted prices in an active market.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Janus Research Group 401(k) Plan

Notes to the Financial Statements

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at the unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Plan Sponsor as provided by the Plan Agreement. Certain expenses of maintaining the Plan are paid by the Plan Sponsor and are, therefore, excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments. Fees for the administration of notes receivable from participants are included in administrative expenses and charged directly to the participant's account.

3. Certified Investment Information

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule of assets held (at end of year) is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2021 and 2020.
- Investment income and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2021.
- Investment information included in the schedule of assets (held at end of year) as of December 31, 2021, as shown on the ERISA-required supplemental schedule of assets (held at end of year).

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule of assets held (at end of year).

Janus Research Group 401(k) Plan

Notes to the Financial Statements

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020:

Assets at Fair Value as of December 31, 2021

5. Related Party Transactions and Party-in-Interest Transactions

Certain Plan investments are in funds and accounts that are managed by Fidelity or their subsidiaries and affiliates. Participant loan and distribution processing fees are paid to Fidelity by participants. The Plan paid for third party administrator fees, investment advisory, and plan audit fees which qualify as party-in-interest transactions. The Plan also issues loans to participants which are secured by the vested balance of the participants' accounts. Certain management fees in the form of an expense ratio charged to each investment option are paid by the Plan and deducted from earnings on investments. These transactions are party-in-interest transactions, which are exempt from prohibited transaction rules.

6. Risks and Uncertainties

The Plan holds various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements and participant account balances.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to reduce or discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100% vested in their entire account balances.

8. Income Tax Status

The Plan adopted a prototype plan sponsored by Fidelity. The IRS ruled on March 31, 2014, that the Pre-Approved Plan, including related amendments, as designed, was in compliance with the applicable requirements of the IRC. The prototype plan opinion letter has been relied upon by this Plan.

Pursuant to a requirement to restate pre-approved plan documents every six years in order to maintain the Plan's tax-qualified status, Fidelity obtained an opinion letter from the IRS on June 30, 2020, which stated the Pre-Approved Defined Contribution Plan, ("Pre-approved Plan"), including related amendments, as designed was in compliance with the applicable requirements of the IRC. As a result, effective September 30, 2021, the Plan adopted the restated pre-approved plan to reflect remedial amendments associated with Fidelity's restatement of its prototype plan. There

Notes to the Financial Statements

were no other significant changes to the restated plan document beyond the required regulatory updates that had a material impact to the Plan. The Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

GAAP requires the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
