Independent Auditor's Report

The Plan Administrator of
Evergreen Natural Resources 401(k) and Profit Sharing Plan
Denver, Colorado

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Evergreen Natural Resources 401(k) and Profit Sharing Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2021 and 2020, and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and

- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- the certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Plan Description

The following brief description of the Evergreen Natural Resources 401(k) and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan adopted effective August 1, 2018, covering substantially all employees of Evergreen Natural Resources LLC (the "Company") that have reached the age of 21. Participants can enter the Plan on the first day of each month after meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Administration of the Plan

The recordkeeper of the Plan is Securian, and the issuer of the insurance contracts held by the Plan is Minnesota Life Insurance Company ("issuer"). The trustees of the Plan are two officers of the Company. The administrator of the Plan is the Company. Minnesota Life Insurance Company holds all assets of the Plan in accordance with the provisions of the agreement with the Company. The Company determines the appropriateness of the Plan's investment offerings and monitors performance.

Participant Contributions

Eligible participants may contribute on a pre-tax or after-tax Roth basis up to 100 percent of their qualifying annual compensation, as elected in their salary deferral agreements. Newly eligible employees are automatically enrolled to defer into the Plan at an initial 2 percent deferral rate of compensation, unless they make an affirmative election to defer at a different rate. Salary deferral agreements shall be made, terminated, or changed according to procedures and limitations set up by the Plan administrator and the Plan Document. Participants may change their contribution percentages at any time. A participant may cease making pre-tax and after-tax Roth contributions at any time.

Deferral contributions (pre-tax and after-tax Roth) shall not exceed certain limits as set forth by the Internal Revenue Code ("IRC"). In addition, those participants age 50 or older are allowed additional catch-up contributions, as allowed by the IRC.

Rollover Contributions

Rollover contributions transferred from other qualified retirement plans or from Individual Retirement Accounts ("IRA") are accepted as permitted by the Plan Document.

Employer Contributions

The Company may make discretionary matching contributions or discretionary profit sharing contributions in an amount determined by the Company. All employer contributions are invested in the same manner as the participants' contributions. For the year ended December 31, 2021, the Company did not make any discretionary matching or profit sharing contributions.

Participant Accounts and Investment Options

Each participant's account is credited with the participant's deferral (pre-tax and Roth), catch-up, rollover, discretionary matching, and discretionary profit sharing contributions; an allocation of net plan earnings or losses; and charged with an allocation of expenses paid by the Plan. The investment earnings or losses are allocated to each participant's account in the proportion that the balance of each participant's account bears to the total balance of all participants in each investment option.

Participants may direct the investment of their account balances into various investment options offered by the Plan. The Plan offers a menu of pooled separate accounts and a fixed rate group annuity contract. Participants may make investment option changes at any time. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Participant Notes Receivable

Participants are permitted to borrow from their accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50 percent of their vested interest in the Plan. Participants may have only one outstanding general note and one outstanding principal residence note at any given time. Notes bear a reasonable rate of interest, which is fixed through the term of the note. The notes are subject to certain restrictions, as defined by the Plan Document, and applicable restrictions under the IRC.

Vesting

Participants are immediately 100 percent vested in their deferral (pre-tax and after-tax Roth), catch-up and rollover contributions, and allocated earnings thereon. Participants vest in their employer contributions 33 percent after one year of service, 66 percent after 2 years of service, and are fully vested after 3 years of service. Participants are fully vested upon death, disability, as defined in the plan document, and early retirement.

Forfeitures

Forfeitures arising from employer discretionary contributions may be used to offset future discretionary employer contributions or to pay plan expenses. As of December 31, 2021 and 2020 and for the year ended December 31, 2021, forfeitures were de minimis.

Payment of Benefits

A participant's vested interest in the Plan is payable upon death, attainment of normal retirement age (65), becoming disabled, as defined, or termination of service. Upon termination of service, a participant may elect to receive either a lump-sum amount, installments, or leave the account in the Plan to the age of 72, or rollover the vested balance to another qualified plan or IRA. For terminated participants whose account balance is less than $1,000, a lump-sum cash distribution will be made if the participant does not elect to rollover the balance to another qualified plan or IRA. For terminated participants whose account balance is greater than $1,000 but less than $5,000, the account balance will be rolled over into an IRA in the name of the participant if the participant does not elect another form of distribution. In-service distributions at age 59 ½ and hardship withdrawals, are also allowed by the Plan if certain criteria are met.

Plan Termination

In the event of termination of the Plan, participants become fully vested in all accounts and the assets of the Plan and shall be distributed to the participants in proportion to their respective account balances. Although the Company has not expressed any intent to discontinue the Plan, it may do so at any time, subject to the provisions of ERISA.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value as further described in Note 4, *Fair Value Measurements and Disclosures*, except for the fully benefit-responsive insurance contract. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisor.

Interest income is recorded as earned on the accrual basis. Dividend income and capital gains are recorded on the ex-dividend date. Purchases and sales are recorded on a trade-date basis. The net appreciation (depreciation) in the fair value of investments represents the realized and unrealized gains and losses on the investments as well as the reinvested capital gains received.

Management fees and operating expenses (in the form of an expense ratio) charged to the Plan for the investments are deducted from income earned on a daily basis and reflected as a reduction of investment return for such investments.

Accounting for Fully Benefit-Responsive Investments Contracts with Insurance Companies

The Plan entered into the Guaranteed Return Account with Minnesota Life Insurance Company, which is a fixed-rate group annuity contract. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive contracts because it is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus interest earned, less participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to pay the principal and specified interest rates guaranteed. The effective annual interest rate can never be less than 1 percent and interest earned is compounded daily to the effective annual interest rate. The interest crediting rate is reset quarterly. The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations which may be affected by future economic and regulatory developments.

Certain events could limit the ability of the Plan to transact at contract value, including but not limited to, premature termination of the contract by the Plan, layoffs, plan termination, bankruptcy, mergers, and early retirement incentives. This would cause a one-time adjustment to the aggregate contract value, resulting in a fair value different from the contract value. Liquidation or transfer of the contract could result in a redemption period of up to 12 months. There were no events in 2021 that resulted in a market value adjustment.

Contributions

Employee contributions and related Company contributions, if any, are recorded in the period payroll deductions are made.

Participant Notes Receivable

Participant notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan balance to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Additional recordkeeper and investor advisor fees may be allocated to participant's accounts in the proportion that the balance of each participant's account bears to the total balance of all Participant accounts. Certain additional fees may also be net with investment earnings or losses.

3. Certified Investment Information

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C), pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under ERISA. Accordingly, Minnesota Life Insurance Company, a qualified institution, has certified the following information included in the accompanying financial statements and supplemental Schedule of Assets (Held at End of Year) as complete and accurate:

- Investments as reported in the Statements of Net Assets Available for Benefits as of December 31, 2021 and 2020;

- Investment income as reported in the Statement of Changes in Net Assets Available for Benefits for the Year Ended December 31, 2021;

- Investment information included in the Notes to Financial Statements;

- Investment Information included in the Supplemental Schedule - Schedule H, Line 4i – Schedule of Assets (Held at End of Year) – As of December 31, 2021, except for notes receivable from participants.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing the certified investment information with the related information presented and disclosed in the financial statements and supplemental schedule, reading the disclosures relating to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP and whether the supplemental schedule is in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

4. Fair Value Measurements and Disclosures

Accounting Standards Codification ("ASC") 820, provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2021 and 2020:

Insurance Company Pooled Separate Accounts (PSAs): Valued based on publicly quoted pricing input which is used in determining the net asset value ("NAV") of the pooled separate account, which is not publicly quoted. The value of each pooled separate account is determined at the close of each business day based on the fair value of the underlying assets, which can consist of

a single mutual fund or multiple securities. The NAV, as provided by Minnesota Life Insurance Company, is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the PSA will sell the investment for an amount different from the reported net asset value. These PSAs are direct filing entities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments Measured Using the Net Asset Value per Share Practical Expedient

In accordance with Subtopic 820-10, all investments were measured at NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2021 and 2020. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment Type	*Fair Value - December 31, 2021*	*Fair Value - December 31, 2020*	*Unfunded Commitments*	*Redemption Frequency*	*Redemption Notice Period*
Pooled Separate Accounts	**$ 1,216,504**	$ 732,713	None	Daily	60 days

5. Income Tax Status

The Plan adopted a volume submitter plan document effective August 1, 2018. The sponsor of the volume submitter plan received an advisory letter from the IRS dated March 31, 2014, stating that the plan is qualified under the applicable sections of the IRC. The Plan administrator believes that the Plan, as amended, is designed and currently being operated in compliance with the applicable sections of the IRC. Accordingly, no income taxes have been accrued in the accompanying financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Related Party and Party-In-Interest Transactions

Certain Plan investments are units of pooled separate accounts and guaranteed insurance contract issued by Minnesota Life Insurance Company, an affiliated company of Securian. Administrative fees of $3,328 were paid from the Plan to Minnesota Life Insurance Company during the year ended December 31, 2021. Minnesota Life Insurance Company may also receive other indirect fees net with the earnings of the pooled separate accounts. The Plan also issues loans to participants which are secured by the vested balance of the participants' accounts. The above transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

7. Concentrations, Risks and Uncertainties

The Plan provides for various investments in various investment securities. Investments, in general, are exposed to various risks such as interest rate, credit and overall market volatility risk. Additionally, the value, liquidity and related income of the investment securities are sensitive to changes in economic conditions in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

The macroeconomic impacts stemming from the conflict in Ukraine, and the potential impact and duration of the COVID-19 pandemic, continuing supply chain issues and rising inflation has continued to cause volatility in the markets. Any future impact on investments or the Plan remains uncertain.

At December 31, 2021 and 2020, there were three investments which individually represented more than 10 percent of investments held. Refer to the Supplemental Schedule of Assets (Held at End of Year) for a complete listing of investments held at December 31, 2021.

8. Subsequent Events

The Company has evaluated subsequent events through October 5, 2022, which is the date the financial statements were available to be issued. There were no events or transactions discovered during the evaluation that require recognition or disclosure in the financial statements.

The Plan was amended and restated to a pre-approved defined contribution plan effective April 1, 2022. There were no significant changes to Plan provisions as a result of the restatement. The pre-approved plan has received an opinion letter from the IRS on June 30, 2020 stating that the prototype plan is designed in accordance with the applicable sections of the IRC.
