Hartzell Companies Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of Hartzell Companies Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, the related statement of changes in net assets available for benefits for the year then ended, the statement of accumulated plan benefits as of December 31, 2020, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate to the best of their knowledge and belief.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying 2021 financial statements related to assets held by and certified to by qualified institutions agree to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i—Schedule of assets (held at end of year) and Schedule H, Line 4j—Schedule of reportable transactions as of or for the year ended December 31, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by qualified institutions agree to, or is derived from, in all material respects, the information prepared and certified by institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by qualified institutions. In our report dated October 14, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Hartzell Companies Retirement Plan

Notes to Financial Statements

Note 1. Description of Plan

The Plan is a defined benefit pension plan designed to provide retirement, death and disability benefits to eligible employees of Hartzell Industries, Inc., Hartzell Hardwoods, Inc. and Hartzell Fan, Inc. (Sponsors). It is subject to the provisions of the Employee Retirement Income Security Act of 1974. For more complete information on the Plan, participants should refer to the plan document, which is available from the Plan Sponsors.

A summary of major Plan provisions follows:

Effective date: January 1, 1980

Plan eligibility and vesting: All employees are eligible on the next January 1 or July 1 following the completion of one year of service and attainment of age 21. No employees hired on or after January 1, 2005 shall become a participant in the Plan. Effective September 30, 2016, the Board of Directors of Hartzell Industries, Inc. adopted a resolution to cease benefit accruals for plan participants as of December 31, 2016. All benefits became 100% vested as of that date.

Normal retirement benefit:

Eligibility: Age 65

Amount: A monthly pension, payable for life equal to \$5.00 times the number of years of credited service for hourly employees. Salary employees are entitled to annual pension benefits equal to 0.6% of final average earnings plus 0.3% of final average earnings in excess of Social Security covered compensation, times each year of service with a maximum of 35 years used for the excess portion of the formula. The accrued benefit was frozen effective December 31, 2016.

Early retirement benefit:

Eligibility: Age 55 and at least 10 years of service.

Amount: A monthly pension, payable for life equal to the accrued normal retirement benefit reduced by 1/180 for each of the first 60 months before normal retirement and 1/360 for each additional month.

Termination benefit:

Eligibility: At least five years of credited service at date of termination.

Amount: A deferred monthly pension, payable for life with payments commencing at age 65 equal in amount to the accrued normal retirement benefit at date of termination.

Death benefit:

Eligibility: A participant who has completed five years of service at date of death.

Amount: A monthly benefit payable to the surviving spouse or beneficiary for life, in an amount determined under the assumption that the deceased had retired the day prior to his death, having selected the joint and 100% survivor method of benefit payment. If the participant had completed 10 years of service prior to his death, the benefit will commence on the later of age 55 or his date of death. If he had completed less than 10 years of service, the benefit will commence at age 65.

Note 1. Description of Plan (Continued)

Disability benefit:

Eligibility: Totally and permanently disabled and at least five years of service.

Amount: Same as early retirement, with further actuarial reductions for benefits commencing prior to age 55.

Pension benefits: Effective July 1, 2020, the Plan was amended to allow for lump sum distributions for any eligible participant who terminated his or her employment before July 1, 2020. The election period for the lump sum option commenced July 1, 2020 and expired September 30, 2020. The lump sum payment is a single payment equal to the actuarial equivalent of the participant's vested accrued benefit. There were \$1,137,493 and \$245,847 of lump sum distributions included in benefits paid to participants on the statement of changes in net assets available for benefits for the years ending December 31, 2021 and 2020, respectively.

Note 2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of presentation: The accompanying financial statements are prepared on the accrual basis.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of Plan assets available for benefits and the actuarial present value of accumulated plan benefits as of the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Payment of benefits: Benefit payments to participants or beneficiaries are recorded upon distribution.

Contributions: Contributions are recognized annually upon completion of the actuarial valuation for the plan year.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the trustee. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in interest and dividend income.

Administration: The Plan is administered by the Plan sponsor's Board of Director (the Board). The Board consists of specific management of the Company. The Board has overall responsibility for the operation and administration of the Plan and determines the appropriateness of the Plan's investment offerings as well as monitors investment performance.

Hartzell Companies Retirement Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died and present employees or their beneficiaries. The accumulated plan benefits for active employees are based on credited years of service. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits at December 31, 2020, was determined by SMS Retirement as of January 1, 2021, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money through discounts for interest and the probability of payment by means of decrements such as for death, disability, withdrawal, or retirement between the valuation date and the expected date of payment.

The Plan has elected to present actuarial benefit information as of the beginning of the plan year. These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuarial cost method used in the valuation is the unit credit cost method.

The significant actuarial assumptions used to determine the Plan's actuarial present value of accumulated plan benefits are as follows:

Investment return:	7.00% per annum
Mortality:	RP-2014 Mortality Table with Improvement Scale MP-2021
Assumed retirement age:	All participants are assumed to retire when the participant reaches the plan's normal retirement age of 65 with five years of participation

Changes in actuarial assumptions during the year include the use of the updated improvement scale (MP-2021).

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2021. Had the valuations been performed as of December 31, 2020 there would be no material difference.

Subsequent event: The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 17, 2022, the date the financial statements were available to be issued.

Note 3. Information Certified by the Plan's Trustees

The following is a summary of the Plan's asset information as of December 31, 2021 and 2020, and income information for the year ended December 31, 2021, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Matrix Trust Company, the current trustee, and Ban of America, the former trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certification from the current trustee that information provided to the Plan Administrator by the trustee related to the following investments is complete and accurate to the best of their knowledge and belief. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets and investment income.

	<u>2021</u>
Interest bearing cash	\$ 76,013
Corporate bonds	1,496,734
Collective trust	3,052,383

The current trustee also certified to the completeness and accuracy of \$104,397 of net appreciation in fair value of investments and \$93,593 of dividend and interest income related to the aforementioned Plan assets for the year ended December 31, 2021.

The Plan Administrator has obtained a certification from the former trustee that information provided to the Plan Administrator by the former trustee related to the following assets and investment income is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets and investment income.

	<u>2020</u>
Interest bearing cash	\$ 135,725
Mutual funds	894,623
United States Government securities	287,035
Corporate bonds	163,735
Common stocks	2,859,199

The former trustee also certified to the completeness and accuracy of \$288,712 and \$530,265 of net appreciation in fair value of investments and \$12,529 and \$81,784 of dividend and interest income related to the aforementioned Plan assets for the year ended December 31, 2021 and 2020, respectively.

Note 4. Fair Value Measurements

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under this standard are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Interest bearing cash, money markets, common stocks, mutual funds and United States

Government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using quoted prices for identical or similar assets in both active and inactive markets.

Collective trust funds: Valued based on the net asset value (NAV) of units of the collective trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Hartzell Companies Retirement Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables summarize assets measured at fair value on a recurring basis as of December 31, 2021 and 2020, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value:

	Level 1	Level 2	Level 3	Total
At December 31, 2021:				
Interest bearing cash	\$ 76,013	\$ -	\$ -	\$ 76,013
Corporate bonds	-	1,496,734	-	1,496,734
Total investments, at fair value	\$ 76,013	\$ 1,496,734	\$ -	\$ 1,572,747
Investments measured at NAV ^(a)				3,052,383
				<u>\$ 4,625,130</u>
At December 31, 2020:				
Interest bearing cash	\$ 135,725	\$ -	\$ -	\$ 135,725
Common stocks	2,859,199	-	-	2,859,199
United States Government securities	287,035	-	-	287,035
Corporate bonds	-	163,735	-	163,735
Mutual funds	894,623	-	-	894,623
Total investments, at fair value	\$ 4,176,582	\$ 163,735	\$ -	\$ 4,340,317

(a) Certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Investments measured using the NAV per share practical expedient: The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2021.

	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Collective trust fund:				
DB Growth Portfolio Institutional Class	\$ 3,052,383	\$ -	Daily	5 days*

*For transactions over \$1,000,000 or 10% of assets invested in the fund.

Change in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2021, there were no transfers in or out of Level 3.

Hartzell Companies Retirement Plan

Notes to Financial Statements

Note 5. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vest benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may depend on the financial condition of the plan sponsor and the level and type of benefits guaranteed by the PBGC.

Note 6. Funding Policy

The Sponsors' funding policy is to make annual contributions to the Plan in amounts that are equal to the actuarially determined normal service cost plus a portion of the past service cost liability, so that all employees' benefits should be fully provided for by the time of retirement. The Sponsors' contributions for the years ended December 31, 2021 and 2020, meets with the minimum funding requirements of ERISA. Although it has not expressed any intention to do so, the Company can discontinue contributions at any time and terminate the Plan subject to the provisions set forth in ERISA.

Note 7. Pension Protection Act

The Pension Protection Act of 2006 (PPA) as amended by the Worker, Retiree and Employer Recovery Act of 2008 (WRERA) imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. The "At-Risk" status is referred to as the Funding Target Attainment Percentage (FTAP). A plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage (AFTAP). The 2020 AFTAP for the Plan is 101.67%. Because the Plan's AFTAP equals or exceeds 80%, the Plan is not subject to any benefit restrictions.

Note 8. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 17, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination. The Plan is subject to routine audit by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2018.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Note 10. Related-Party Transactions

Fees reported for actuarial, trustee, audit and other administrative services rendered by parties in interest totaled \$56,633 and \$84,696 for the years ended December 31, 2021 and 2020, respectively.

Certain Plan investments held in 2021 are managed by Matrix Trust Company. Matrix Trust Company is the current trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Certain Plan investments held during 2021 and 2020 are shares of mutual funds managed by Bank of America N.A. Bank of America N.A. was the prior trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 11. Coronavirus Pandemic

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. The pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted to, amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic. The CARES Act contains specific provisions impacting participant loans and distributions, which did not have a material effect to the Plan.
