INDEPENDENT AUDITORS' REPORT

The Plan Administrator
Foster Wheeler Inc. Salaried Employees Pension Plan

Opinion

We have audited the accompanying financial statements of Foster Wheeler Inc. Salaried Employees Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits and the statements of accumulated plan benefits as of December 31, 2021 and 2020 and the statement of changes in net assets available for benefits and the statement of changes in accumulated plan benefits for the year ended December 31, 2021, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits and the accumulated plan benefits of the Plan as of December 31, 2021 and 2020, and the changes in its net assets available for benefits and the changes in accumulated plan benefits for the year ended December 31, 2021, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020**

1. DESCRIPTION OF THE PLAN

Foster Wheeler Inc. (the Company) Salaried Employees Plan (the Plan) is a noncontributory defined benefit pension plan. The Company was a wholly-owned subsidiary of Foster Wheeler AG until Amec PLC's acquisition of Foster Wheeler AG in November 2014. The combined company was renamed Amec Foster Wheeler PLC (Amec Foster Wheeler). On October 9, 2017, John Wood Group PLC acquired Amec Foster Wheeler. The Company is now a wholly owned subsidiary of John Wood Group PLC.

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

Eligible employees of the Plan consist of surviving salaried employees of many domestic subsidiaries of the Company hired prior to June 2003, except as defined by the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan administrator is the Wood Benefits Committee effective January 1, 2019 (Amec Foster Wheeler Fiduciary Committee in 2018). The Plan administrator determines the appropriateness of the investments including the allocation of Plan funds among various investment institutions and securities. Those investment institutions are responsible for determining the underlying investments.

The Plan provides benefits under a final pay feature (FPF). The FPF benefit is calculated as 1.2% of final average monthly earnings multiplied by service earned subsequent to April 1, 1976 and through May 31, 2003. Final average monthly earnings represent the average of the monthly earnings during the highest 60 consecutive months during the last 120 months prior to retirement or termination of employment.

Effective May 31, 2003, the Plan was frozen and Plan participants do not earn any future benefits under the terms of the Plan after that date. However, service will continue to be credited for purposes of determining eligibility for early retirement and vesting.

Effective January 1, 1999, the Company amended the Plan to provide for a cash balance formula for all employees who became eligible to participate in the Plan by virtue of a hire date after December 31, 1998. Furthermore, all active participants as of January 1, 1999 had a one-time irrevocable election to either participate under the existing FPF benefit formula or be covered under the new cash balance formula for benefit accruals after December 31, 1998. For those employees who elected the cash balance formula, the accrued benefit that they have earned through December 31, 1998, under the Plan, if any, will be preserved and paid from the Plan in accordance with the applicable Plan provisions. The balances of those participants who did not elect the cash balance formula were maintained under the existing FPF benefit formula.

**FOSTER WHEELER INC.
SALARIED EMPLOYEES PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020**

1. DESCRIPTION OF THE PLAN – CONTINUED

The cash balance formula provides a notional cash account which is increased each year by a contribution credit and an interest credit. For participants covered by the cash balance option, the contribution credit was equal to a percentage of the participant's earnings, as defined in the amended Plan, in accordance with stratified schedules based on the participant's age. Participants under the cash balance formula were not credited with contribution credits after May 31, 2003. The interest credit for the Plan year is equal to the 12-month average of the 30 Year Treasury Bond rate as declared by the Federal Reserve Board for the preceding calendar year, but in no event will the interest be credited at a rate less than 4.5%. The cash balance credit rate was 4.5% as of the most recent and prior year's actuarial valuations.

Plan Spin-out

Effective January 1, 2018, the Foster Wheeler Inc. Pension Plan for Certain Employees (Certain Plan) was created by spinning out 1,607 participants, related accumulated Plan benefits, and Plan assets from the Plan, based on actuarial calculations using certain criteria as permitted by the Internal Revenue Code (IRC) and ERISA regulations. Also, effective January 1, 2018, the Foster Wheeler Inc. Master Trust (the Master Trust) was established. See Note 3 for further details.

Effective November 19, 2021, the accrued benefits of 194 participants in the Certain Plan who had formerly participated in the Plan were transferred from the Certain Plan back to coverage under the Plan and those individuals again participate in the Plan. The total assets and liabilities of \$4,912, 321 were transferred to the Plan and are reflected as a transfer from affiliated plan on the statement of changes in net assets available for benefits and as an other change on the statement of changes in accumulated plan benefits.

Eligibility and Vesting Service

Employees, who were hired prior to December 31, 1998, became participants in the Plan on the first day of the Plan year following their date of employment. Employees, who were hired subsequent to December 31, 1998, became participants in the Plan on the 1st day of the month following their date of hire. Effective May 31, 2003, the Plan was frozen and closed to new entrants. Participants in the Plan without cash balance accounts are vested after completing five years of vesting service. Effective January 1, 2008, participants with cash balance accounts became vested after three years of vesting service. A year of vesting service is defined as a Plan year during which at least 1,000 hours of service are credited. Participants who terminated before becoming fully vested forfeited the right to receive their accumulated benefits.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020**

1. DESCRIPTION OF THE PLAN – CONTINUED

Pension, Disability and Death Benefits

The Plan permits early retirement at ages 55 to 64 with ten years of credited service. The early retirement benefit may begin at the date of early retirement, reduced by 3% for each of the first five years and 5% for each additional year by which the early retirement date precedes the normal retirement date. All participants may elect to receive their pension benefits in the form of a joint and survivor annuity or a life annuity payable monthly from the date of retirement. If any vested participant dies prior to the date their pension payments commence, the surviving spouse of that deceased vested participant receives benefits at least equal to the amount which would have been payable to the participant under a 50% joint and survivor annuity. Under the life annuity, there are no continuing payments after the death of the retiree.

Vested participants, who have completed ten or more years of credited service and whose employment has terminated due to a permanent disability shall be entitled to an immediate retirement benefit commencing as of the first day of the following month in an amount equal to 50% of the normal retirement benefits they have accumulated under the Plan as of the time they became disabled. If these participants are terminated before rendering five years of service, they forfeit the right to receive their accumulated benefits. Disability benefits are paid until normal retirement age, at which time disabled participants begin receiving normal retirement benefits under the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with general accepted accounting principles in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefit Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 4 for discussions of fair value measurements.

**FOSTER WHEELER INC.
SALARIED EMPLOYEES PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Purchases and sales of investments are recorded on the trade dates. Interest and dividend income are recorded as earned with dividend income being recognized at the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

Administrative Expenses

The Plan's expenses are paid either by the Master Trust on behalf of the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from the Plan's financial statements. Certain expenses incurred in connection with the general administration of the Plan such as actuarial, investment management, custodial, auditing, and Pension Benefit Guaranty Corporation (PBGC) fees are paid by the Master Trust on behalf of the Plan and are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in the net gain in Master Trust presented in the accompanying statement of changes in net assets available for benefits. See Note 3 for further details.

Payment of Benefits

Benefit payments are recorded when paid.

3. PLAN INTEREST IN THE MASTER TRUST

The Plan is funded through the Master Trust which was established for both the assets of the Certain Plan and The Plan. Wells Fargo Bank, N.A is the custodian of the Master Trust. The assets of the Master Trust are held within two separate pools, of which one is divided, and one is undivided. The Plan holds a divided interest in pool one (the Equitable contract). The remaining assets of the Master Trust are held within an undivided pool.

**FOSTER WHEELER INC.
SALARIED EMPLOYEES PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020**

3. PLAN INTEREST IN THE MASTER TRUST – CONTINUED

The investment and income therefrom, are allocated to the participating plans based on each plan's divided and undivided interest in the investment options within the Master Trust. Accordingly, the Plan's investment income for the year ended December 31, 2021 includes its allocable share of the Master Trust's interest and dividends and net appreciation in fair value of investments.

Benefit payments are allocated specifically to the participant's applicable plan. Expenses attributed to a specific plan are allocated to that plan whereas general expenses are allocated to the individual plan based upon its interest in the Master Trust.

As of December 31, 2021 and 2020, the Plan's interest in the Master Trust was approximately 33%.

The following table presents the fair value of assets, including investments, of the Master Trust and the applicable interest of the Plan as of December 31, 2021:

	Master Trust	Plan's Interest in Master Trust
Investments, at fair value:

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. FAIR VALUE MEASUREMENTS – CONTINUED

Following is a description of the valuation methodologies used for the Master Trust investment assets measured at fair value at December 31, 2021 and 2020. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual Funds. The Master Trust invests in mutual funds that invest in equity securities. Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Master Trust are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Master Trust are deemed to be actively traded.

Commingled Funds. The Master Trust invests in various commingled investment funds, representing assets in trusts which are exempt from federal income taxation under the IRC, and are primarily designed for pension, profit sharing and other employee benefit plans. Shares or units in these funds are valued at their NAV. The NAV as provided by the investment manager or sponsor of the fund is used as a practical expedient to estimate the fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the Master Trust will sell the investment for an amount different than the reported NAV.

Cash Equivalents: Valued at cost, which approximates fair value.

Hedge Funds. The Master Trust invests in hedge funds of derivative contracts and multi-strategy fund of funds formed to invest predominantly in limited partnerships and similar pooled investment vehicles. Shares or units in these funds are valued at their NAV. The NAV as provided by the investment manager or sponsor of the fund is used as a practical expedient to estimate the fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the Master Trust will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Master Trust and Plan believe their valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The closing prices reported in the active markets in which the securities are traded are used to value the investments in the Master Trust.

4. FAIR VALUE MEASUREMENTS – CONTINUED

The following table sets forth by level, within the fair value hierarchy, the Master Trust's fair value measurements at December 31, 2021 and 2020:

<u>Master Trust Investment Assets at Fair Value as of December 31, 2021</u>		
	<u>Level 1</u>	<u>Total</u>
Mutual funds and money market	\$ 122,851,905	\$ 122,851,905
Cash equivalents	2,870,633	2,870,633
Total investments in fair value hierarchy	<u>\$ 125,722,538</u>	125,722,538

Commingled funds		96,515,905
Hedge funds		23,416,218
Total investments, at fair value		<u>\$ 250,140,158</u>

⁽¹⁾ In accordance with FASB ASC Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

⁽²⁾ If an investment is measured using the NAV per unit (or its equivalent) as the practical expedient in ASC 820 and that investment is in a fund that files a Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

Changes in the Master Trust Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in the economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

5. ACCUMULATED PLAN BENEFITS

Funding Policy

The Company's funding policy is to comply with the minimum funding requirements defined by ERISA. The Plan has satisfied the minimum funding requirements for the year ended December 31, 2021.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service which participants have rendered to date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability or termination of employment – are included to the extent they are deemed attributable to participant service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by the Plan's credentialed independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected dates of payment.

For participants who elected the cash balance formula, the accumulated plan benefit for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date.

The significant actuarial assumptions used in the valuations for the Plan years ended December 31, 2021 and 2020 were as follows:

Mortality Basis	<p>Healthy participants – Pri-2012 sex-distinct, separate employee and retiree tables, with contingent survivor adjustments for participants and beneficiaries and no collar adjustments applied with future improvement using the MP-2021 projection scale for the Plan year ended December 31, 2021 and Pri-2012 sex-distinct, separate employee and retiree tables, projected with contingent survivor adjustments for participants and beneficiaries and no collar adjustments applied with future improvement using the MP-2020 projection scale for the Plan year ended December 31, 2020.</p> <p>Disabled participants – Pri-2012 sex-distinct, disabled table with no collar adjustment applied and future improvement using the MP-2021 projection scale for the Plan year ended December 31, 2021 and Pri-2012 sex-distinct, disabled table with no collar adjustments applied and future improvement using the MP-2020 projection scale for the Plan year ended December 31, 2020.</p>

5. ACCUMULATED PLAN BENEFITS – CONTINUED

Discount Rate	3.40% and 3.85% for the years ended December 31, 2021 and 2020, respectively.
Retirement	Stratified between the ages of 55 and 70.
Interest Rate	Cash balance interest accumulation rate of 4.70% and 5.00% for the Plan years ended December 31, 2021 and 2020, respectively.
Other Changes	In addition, the retirement, withdrawal, form of payment, commencement age, and spousal assumptions were updated based on the recent experience study undertaken in 2021 using data from 2016 through 2020. These demographic assumptions reflect the proposed changes included in the Wood US Pension Plans Experience Analysis January 1, 2016 – December 31, 2020 report dated November 2021.

The foregoing actuarial assumptions are based on the presumption that the Plan will not terminate. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2022 and 2021 for the Plan year ended December 31, 2021. Had the valuation been performed as of December 31, 2021 and 2020, respectively, there would be no material difference.

6. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated February 4, 2016 that the Plan is qualified under the IRC and; therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the tax determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions. The Plan is currently under audit by the IRS. The audit is in process and relates to the 2019 Plan year.

7. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

For the year ended December 31, 2021, total fees of \$601,510 were paid by the Plan to parties-in-interest for trustee, advisory, investment management, actuarial, recordkeeping, and audit services.

8. TERMINATION PRIORITIES

Although it has not expressed any intent to do so, in the event of termination, the Plan provides that the net assets be allocated among the participants and beneficiaries of the Plan in the order provided for in ERISA and its related regulations and, to the extent unfunded vested benefits exist, ERISA provides that such benefits are payable by the PBGC to participants, up to specified limitations, as described in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the PBGC.
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Rationale for Economic Assumptions

- Cash balance interest accumulation rate – The cash balance crediting rate is equal to the 12-month average of 30-Year Treasury Rates, with a minimum annual rate of 4.50%. The assumption is based on a long-term outlook of 30-Year Treasury Rates and meets the minimum annual rate.
- Expected investment return – Expected return is based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Market Outlook for the plan's target asset mix, net of adjustments for additional return expected from active management and for expected investment expenses.
- Expenses – This assumption is based on administrative expenses expected to be paid from the trust based on experience from recent prior years plus the actual PBGC premiums expected to be paid for the year based on current rates.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods for funding****Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date.
- **Participants excluded:** No actuarial liability is included for non-vested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Normal retirement

- **Eligibility** Later of a) age 65 or b) earlier of i) 5th anniversary of participation, ii) 5 years of vesting service, or iii) date otherwise fully vested.
 - **Benefit**

Participants who elected to continue under pre-1999 formula:
Sum of (1) + (2), not less than (3):
(1) Sum of (A) + (B)
(A) .012 x Average Monthly Earnings x (Credited Union Service + Credited Non-Union Service)
(B) For participants with credited service under the Bargaining Plan, \$8.50 x credited service prior to April 1, 1976 under the Bargaining Plan, minus sum of accrued benefits under the Bargaining Plan and the Non-Contributory Plan (Basic Non-Contributory Retirement Plan for the Employees of Foster Wheeler Corporation which was terminated January, 31 1987) (2) Frozen Contributory Monthly Benefit = March 31, 1989 accrued benefit under the contributory portion of the Plan in effect prior to April 1, 1989, but not less than the Employee-Provided Benefit (accrued benefit derived from employee contributions)
(3) Minimum Benefit = \$20.35 x Credited Service, less accrued benefits from any other Employer-sponsored Defined Benefit Plans

Participants who did not elect to continue under pre-1999 formula or who were hired after December 31, 1988:
Sum of (1) + (2):
(1) December 31, 1988 accrued benefit under the Plan
(2) Cash Balance formula. Interest credit equals the 12-month average of 30-Year Treasury Bond rates for the preceding calendar year, with minimum 4.5%, and is determined on the last day of the Plan Year. Contribution credits frozen effective May 31, 2003.

Participants with Bargaining Plan benefits only (as determined under provisions of Bargaining Plan):

Pre-retirement death

• Benefit attributable to Cash Balance formula	If married, Cash Balance annuity benefit paid immediately to spouse, or any other designated beneficiary with spousal consent. If single, Cash Balance account paid immediately to beneficiary.
• Benefit prior to early retirement attributable to pre-1999 formula / Bargaining Plan	If married, 50% of pre-1999 formula / Bargaining Plan accrued benefits payable at participant's earliest retirement date and reduced for early commencement. If single, single sum payment to beneficiary equal to participant's accumulated employee contributions with interest.
• Benefit after early retirement attributable to pre-1999 formula / Bargaining Plan	If married, 50% of pre-1999 formula / Bargaining Plan accrued benefits payable immediately and reduced for early commencement. If single, benefit otherwise payable to spouse will be divided equally among all eligible children. Payments to each eligible child cease at age 19, or age 23 if a full-time student, unless child becomes totally and permanently disabled from performing any gainful occupations, and remains so disabled.

Form of benefits

• Automatic form for unmarried participants	Modified Cash Refund Annuity for Frozen Contributory Monthly Benefit; otherwise, Single Life Annuity
• Automatic form for married participants	Joint and 50% Survivor Annuity
• Optional forms of payment	Single Life Annuity, Modified Cash Refund Annuity (Frozen Contributory Monthly Benefit), Joint and 50% Survivor Annuity, Joint and 100% Survivor Annuity, 10-Year Certain and Life Annuity, Lump Sum (Cash Balance Account only unless less than \$5,000)

Schedule SB, Part V — Summary of Plan Provisions

• Optional form conversion factors	10-Year Certain and Life Annuity: 6.00% interest rate and 1971 GAM mortality table Lump Sum: 417(e) interest rates for month of December prior to plan year and 417(e) mortality for the plan year All other forms: 7.00% interest rate and UP84 mortality table with a one-year age set-forward for the participant and a 4-year age set-back for the beneficiary.
Miscellaneous	
• Maximum compensation	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended, are included in this valuation.

- **Most recent plan amendments included:** All amendments included in the restatement effective as of January 1, 2018 are included.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* The plan provides suspension notices to participants who were younger than age 65 as of September 2006 and work beyond normal retirement. There are no active participants in the plan who were age 65 or older as of September 2006, so the valuation does not include late retirement actuarial increases.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are

Schedule SB, Part V — Summary of Plan Provisions

expected to occur on or after the valuation date regardless of anticipated funding-based limitations.

- *Plan amendments:* See above
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

Maximum benefit amounts under IRS rules were updated from 2020 to 2021.

Schedule SB, line 32 — Schedule of Amortization Bases

The total shortfall amortization charge is the sum of the individual shortfall amortization installment for each plan year covered under PPA. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than \$0.

Shortfall bases				
Year established		Outstanding balance	Years remaining	2021 Installment
2019	\$	17,163,684	13	\$ 1,762,882
2020		(9,850,177)	14	(961,613)
2021		(3,011,141)	15	(280,764)
Total	\$	4,302,366		\$ 520,505

Schedule SB, line 24 — Change in Actuarial Assumptions

- The administrative expense component of normal cost changed from \$1,350,000 to \$860,000 to reflect expectations for the current plan year.
- The expected investment return assumption decreased from 5.10% for the 2020 plan year to 4.85% for the 2021 plan year
