Independent Auditor's Report

To the Plan Administrator
Spelman College Defined Contribution Plan
Atlanta, Georgia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of Spelman College Defined Contribution Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2021 and 2020, and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

Prior to January 1, 2009, records were maintained at a contract, not a plan level; therefore, management has not maintained, and TIAA and CREF did not provide, sufficient accounting records and supporting documentation relating to certain annuity contracts and custodial accounts issued to current and former employees, and supporting documentation is not adequate to assure the completeness and accuracy of the amounts included in the financial statements. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements have been affected by these conditions.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP), and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America (GAAS) and to issue an auditor's report. However, because of the matter described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter — Supplemental Schedule Required by ERISA

The supplemental Schedule of H, Line 4i-Schedule of Assets (Held at End of Year) as of December 31, 2021, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

1. Description of the Plan

The following description of the Spelman College Defined Contribution Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The original effective date of the Plan was January 1, 1943. The Plan has since been amended to comply with regulations and other Employer-Specific requirements.

The Plan is a defined contribution plan under Section 403(b) of the Internal Revenue Code ("IRC") and covers substantially all employees of Spelman College (the "College" or the "Employer"). All employees are eligible to contribute to the Plan, unless they are a student of the College. To be eligible for elective deferral, Employer matching, and nonelective contributions, an employee must be at least 18 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

All non-student employees are also eligible to participate in the Spelman College Tax Deferred Annuity Plan.

Contributions

Each year, participants may contribute up to 100 percent of pre-tax annual compensation, as defined in the Plan, up to the maximum allowable under the IRC. Participants are automatically enrolled at 3 percent of eligible compensation, unless otherwise elected, with no scheduled automatic increases. The College makes a matching contribution of 100 percent of the first two percent deferred upon by eligible participants. For participants contributing at least 5 percent, the College makes a matching contribution of 100 percent of the first 4 percent of elective deferrals. The College also contributes a nonelective contribution of 3 percent of eligible compensation.

Participants may direct the investment in their contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the College's contributions and Plan earnings thereon and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. The College matching and nonelective contributions are 100 percent vested after completion of 3 years of service. Participants fully vest upon reaching retirement age or becoming disabled.

Participant and Plan Loans

The Plan does not allow participant or Plan loans.

Payment of Benefits

On termination of service due to death, disability, retirement or separation from service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or other specified payment options as provided in the Plan. All vested balances less than $1,000 may be automatically distributed after termination of employment.

Forfeited Accounts

Forfeitures of the non-vested account balances of participants are used to reduce Employer contributions. Forfeitures of $88,536 were used to reduce Employer contributions during 2021. At December 31, 2021 and 2020, the balance in the forfeiture account was $17,060 and $11,544, respectively.

2. Summary of Accounting Policies

Annual Reporting Requirements

Prior to January 1, 2009, TIAA and CREF maintained records at a contract, not Plan-level, and administratively decided not to provide accounting records and supporting documentation at the participant or Plan level relating to certain annuity and custodial accounts issued to current and former employees. As such, neither the College nor TIAA and CREF have been able to produce sufficient records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. As a result, the completeness and the accuracy of the annuity and custodial accounts, related investment income, and distributions related to these accounts, if any, could not be determined.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Expenses of maintaining the Plan are paid by the College and excluded from these financial statements. Investment gains and losses are presented net of investment management fees paid by the Plan in the statement of changes in net assets available for benefits.

3. Information Certified by TIAA and CREF

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and CREF, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-Required supplemental schedule is complete and accurate:

- Investments as shown in the statements of net assets available for benefits as of December 31, 2021 and 2020,
- Net investment income, shown in the statement of changes in net assets available for benefits for the year ended December 31, 2021, and
- Investment information included in the schedule H, line 4i-schedule of assets (held at end of year) as of December 31, 2021, as shown on the ERISA-required supplemental schedule.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets,
- quoted prices for identical or similar assets or liabilities in inactive markets,
- inputs other than quoted prices that are observable for the asset or liability, and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been no changes in the valuation methodologies used at December 31, 2021 and 2020. The following is a description of the valuation methodologies used for assets measured at fair value:

Fixed Annuity Contracts: The non-fully benefit responsive ("NFBR") fixed annuity contracts, composed of the TIAA Traditional Annuity Contracts, are reported at fair value, which is approximated by contract value. Fair value is determined using a discounted cash flow model. The contract value equals the accumulated cash contributions and interest credited to the Plan's contracts, less withdrawals. The TIAA Traditional Annuity Contracts are not available for sale or transfer on any securities exchange. The fixed annuity accounts are subject to various restrictions. See Note 5.

Pooled Separate Account: The pooled separate account ("PSA") consists of units held in the TIAA Real Estate Account, which are valued at the net asset value ("NAV") based on the fair market value of the underlying investments of the account less its liabilities. The NAV, as provided by TIAA and CREF, is used as a practical expedient to estimate fair value. The NAV is published on NASDAQ; however, the PSA is not publicly traded. The PSA holds between 15 percent and 25 percent of its net assets in investments other than real estate and real estate related investments, comprised of publicly traded, liquid investments. Determination of fair value of the real estate assets involves significant judgment. Valuation of the PSA's real estate properties are based on real estate appraisals, which are estimates of property values based on a professional's opinion and may not be accurate predictors of the amount the PSA would actually receive if it sold a property. Appraisals can be subjective in certain respects as they rely on a variety of assumptions (including comparable property sales and historic pricing) and conditions at that property or in the market in which the property is located, which may change materially after the appraisal is conducted. Among other things, market price for comparable real estate may be volatile, particularly if there has been a lack of recent transaction activity in such market.

Further, as the PSA generally obtains appraisals on a quarterly basis, there may be circumstances in the period between appraisals or interim valuation adjustments in which the true realizable value of a property is not reflected in the PSA's daily net asset value calculation or in the PSA's periodic financial statements. This disparity may be more apparent when the commercial and/or residential real estate markets experience an overall and possibly dramatic decline (or increase) in property values in a relatively short period of time between appraisals.

The PSA provides participants with a liquidity guarantee enabling the account to have funds available to meet participant redemptions, transfers, or cash withdrawals. TIAA guarantees that the participants can redeem their accumulated unit value determined after their transfer or cash withdrawal request is received in good order.

TIAA and CREF limits the ability of participants to transfer funds into the TIAA Real Estate Account. Specifically, individual participants are limited from making internal transfers into their account if, after giving effect to such transfer, the total value of such participant's account (under all contracts issued to such participant) would exceed $150,000. A participant is not required to reduce his or her contract balance to a level at or below $150,000 if the participant's account totals more than $150,000.

Registered Investments:

Mutual Funds: Mutual funds represent investments with various investment managers. The mutual funds are valued at the daily closing net asset value as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Other registered investments: These investments are registered investments that invest principally in equity securities, fixed-income instruments and short-term investments in accordance with each portfolio's investment objectives. Units held in the registered investments are valued at NAV. The NAV, as provided by TIAA and CREF, is used as a practical expedient to estimate fair value. The NAV is measured based on the fair value of the underlying investments held by the fund less its liabilities. The NAV is published on NASDAQ; however, the registered investment is not publicly traded. The fair value of the underlying investments is determined using market quotations or prices obtained from independent pricing sources that employ various pricing methods to value the investments including matrix pricing. Money market account holdings are generally valued at amortized cost. On a daily basis, units in these investments are revalued to reflect performance of the underlying investments minus any fees and charges.

Investments measured at NAV as a practical expedient are summarized as follows:

Fair Value at December 31,	2021	2020	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
[a] Multi-Asset	**$ 3,444,283**	$ 2,929,656	$ -	Daily	None
[b] Equities	**19,273,171**	17,925,213	-	Daily	None
[c] Fixed Income	**428,195**	492,316	-	Daily	None
[d] Money Market	**294,299**	790,524	-	Daily	None
[e] Real Estate	**3,312,340**	2,789,049	-	Quarterly	10-60 Days
Total investments measured at the NAV as practical expedient	**$ 26,752,288**	$ 24,926,758	$ -		

The investment objectives for the other registered investments measured using the net asset value are as follows:

[a] *Multi-asset:* This fund primarily invests in domestic common stocks, mortgage-backed securities and municipal bonds that meet certain social criteria including specified environmental, social, and governance criteria.

[b] *Equities:* These investments are primarily invested in domestic and foreign common stocks to meet a specified favorable long-term rate of return.

[c] *Fixed income:* These investments are primarily invested in U.S. Treasury securities and mortgage-backed securities with high income yields, returns that outpace inflation or returns that are designed to track a specified inflation index.

[d] *Money market:* These investments are primarily invested in commercial paper, foreign government bonds, U.S. Government fixed income securities, U.S. Treasury debt, and variable rate securities.

[e] *Real Estate:* The investment objective of the TIAA Real Estate Account, the PSA offered by the Plan, is to seek long-term returns primarily through rental income and appreciation of real estate owned by the account.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements:

December 31, 2021	Level 1	Level 2	Level 3	Total
Fixed annuity contracts (NFBR)	**$ -**	**$ -**	**$ 24,219,502**	**$ 24,219,502**

Total purchases and sales of the fixed annuity contracts (NFBR) for the year ended December 31, 2021, were $370,311 and $998,129, respectively.

5. Fixed Annuity Contracts

As discussed above, fixed annuity contracts consist of investment options available to participants known as the TIAA Traditional Annuity Contracts ("Annuity"). Annuity contracts are established between the participants and TIAA, an insurance company registered in the state of New York. This investment option is only offered as the Retirement Annuities ("RA") or Guaranteed Retirement Annuities ("GRA"). The return of annuity contributions plus interest to participants is subject to TIAA's claims-paying ability.

Annuity accounts are credited with a guaranteed minimum rate of interest that is determined annually. Participants may also earn interest in addition to the guaranteed rate at the discretion of TIAA. Such discretionary interest, if any, is declared by TIAA on a year-by-year basis and remains in effect for the subsequent twelve-month "declaration year".

Contributions to the annuity accounts are grouped by TIAA into "vintages" comprised of premiums received over defined time periods of one or more contiguous calendar months. The interest crediting rate for each vintage is determined, in part, by the net investment earnings rate of the TIAA assets supporting that vintage, minus a charge for administrative expenses and an amount set aside for contingency reserves. Crediting rates are also determined by the performance of investments contained in TIAA's general account.

Lump-sum withdrawals of GRA account balances are permitted within 120 days following termination of employment and are subject to a 2.5 percent surrender charge. Other participant-initiated transfers or withdrawals of the GRA account may only be made in 10 annual installments over a period of approximately nine years. RA account balances may only be withdrawn over 10 annual payments. Because this provision is considered to restrict participants' "reasonable access" to their contract balances, Ras and GRA's are not considered to be fully benefit-responsive investment contracts as defined by ASC 962, P*lan Accounting-Defined Contribution Pension Plans*.

6. Related Party and Party-in-Interest Transactions

Certain Plan investments are managed by TIAA and CREF. TIAA and CREF are the Plan's insurance providers, record-keeper, and custodian. These transactions qualify as party-in-interest which are exempt from the prohibited transaction rules. The administrative fees are paid to TIAA.

7. Plan Termination

Although it has not expressed any intent to do so, the College has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Employer contributions.

8. Tax Status

The plan sponsor adopted the pre-approved ERISA 403(b) Volume Submitter Plan document on September 26, 2018 with an effective date of March 1, 2018. The standardized plan received a favorable opinion letter from the Internal Revenue Service (IRS) on August 7, 2017, stating that the written form of the underlying standardized plan document is qualified under Section 403(b) of the IRC and that any employer adopting the standardized plan is considered to have a qualified plan under IRC and qualify as exempt from taxation. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. At December 31, 2021 and 2020, two investments comprised 42 percent and 46 percent of total net assets available for benefits, respectively.

10. Subsequent Events

The Plan has evaluated subsequent events from the date of the statement of net assets available for benefits through October 17, 2022, the date the financial statements were available to be issued. During this period, no material recognizable subsequent events identified.
