INDEPENDENT AUDITOR'S REPORT

Pension Committee
Major League Baseball Pension Plan
for Non-Uniformed Personnel—Selected Retirement Plans

Opinion

We have audited the financial statements of the Major League Baseball Pension Plan for Non-Uniformed Personnel—Selected Retirement Plans (the Plans), listed in the accompanying table of contents, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plans as of December 31, 2021 and 2020, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plans and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plans, and determining that the Plans' transactions that are presented and disclosed in the financial statements are in conformity with the Plans' provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter—Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) of the Major League Baseball Group Pension Trust (Group Trust) as of December 31, 2021, and the schedule of reportable transactions of the Group Trust for the year then ended are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

MAJOR LEAGUE BASEBALL PENSION PLAN FOR NON-UNIFORMED PERSONNEL—SELECTED RETIREMENT PLANS

Notes to Financial Statements

December 31, 2021 and 2020

NOTE 1 DESCRIPTION OF THE MAJOR LEAGUE BASEBALL PENSION PLAN FOR NON-UNIFORMED PERSONNEL—SELECTED RETIREMENT PLANS

The Major League Baseball Pension Plan for Non-Uniformed Personnel (the NUPP) is a noncontributory defined benefit plan that was established, effective January 1, 1981, to provide retirement and death benefits to eligible employees of the participating Major League Baseball Clubs (Participating Employers or Plan Sponsors). Adoption of the NUPP by a Participating Employer creates a separate single-employer plan covering only eligible employees of the Participating Employer. As of December 31, 2021 and 2020, 24 separate single-employer plans (collectively referred to as the Selected Retirement Plans or Plans and individually as the Plan) had been created:

- Athletics Investment Group, LLC
- AZPB Limited Partnership
- Baltimore Orioles, LP
- The Baseball Club of Seattle, LLLP
- Boston Red Sox Baseball Club Limited Partnership
- Braves Holdings LLC
- Chicago White Sox, Ltd.
- The Cincinnati Reds LLC
- Cleveland Guardians Baseball Company, LLC
- Colorado Rockies Baseball Club, Ltd.
- Detroit Tigers, Inc.
- Kansas City Royals Baseball Corporation
- Los Angeles Dodgers LLC
- Marlins TeamCo LLC
- New York Yankees Partnership
- Padres, LP
- The Phillies
- Pittsburgh Associates
- Rangers Baseball, LLC
- San Francisco Baseball Associates LLC
- QB JV Holdings, LLC
- St. Louis Cardinals, LLC
- Tampa Bay Rays Baseball, Ltd.
- Washington Nationals Baseball Club, LLC

The Internal Revenue Code (the Code) Section 415(b) maximum benefit limit was \$230,000 for both 2021 and 2020.

The NUPP is presently administered by a nine-member Pension Committee consisting of the Vice President/Controller, Executive Vice President/Chief Financial Officer, the senior vice president and Chief Employment Counsel, all of the Office of the Commissioner of Baseball (BOC), and six individuals appointed by a majority vote of the Participating Employers.

NOTE 1 DESCRIPTION OF THE MAJOR LEAGUE BASEBALL PENSION PLAN FOR NON-UNIFORMED PERSONNEL—SELECTED RETIREMENT PLANS *(continued)*

The investments of the Selected Retirement Plans (the Clubs) are held by U.S. Bank (the Trustee) for the various Participating Employer Plans (Participating Plans) in the Major League Baseball Group Pension Trust (the Group Trust) (see Note 3).

The Plan Sponsors of the Clubs have agreed to voluntarily contribute such amounts as are necessary to meet the benefits expected to be paid to participants. The contributions by the Clubs are not to be used to pay benefits to participants employed by any other Participating Employer. Such contributions are made in amounts sufficient to meet the minimum funding requirements set forth in the Employee Retirement Income Security Act of 1974, plus such additional amounts as may be determined to be appropriate from time to time. Such minimum funding requirements have been met for 2021 and 2020.

Eligible employees participate in the Clubs after they have attained age 21 and completed at least 1,000 hours of service. Benefits under the Clubs fully vest upon completion of five years of vesting service, which includes cumulative years of service prior to the establishment of the applicable Plan. If a participating employee earned a benefit, he or she may receive the benefit from that Club in the form of a lump-sum payment if the present value of the benefit is less than \$5,000, provided they are not employed in baseball. If the present value of the benefit exceeds \$5,000, he or she will have to wait until retirement age to collect a monthly benefit. The Clubs do not provide benefits for services rendered by participants prior to the adoption of the NUPP by the Clubs.

Should one or more of the Clubs terminate at some future time, their net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of these benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC's benefit guarantee, while other benefits may not be provided for at all.

Plan Amendments

The Cleveland Indians Baseball Company, LLC, a Plan Sponsor, changed its name to the Cleveland Guardians Baseball Company, LLC, effective November 19, 2021.

The Braves Holdings LLC, Cincinnati Reds LLC and Baltimore Orioles, L.P. executed Plan amendments, approved by the Pension Committee, to freeze benefit accruals and participation in the Plans, effective January 1, 2021.

Plan Amendments *(continued)*

The Los Angeles Dodgers have frozen participation in the Plan for employees hired or rehired on or after February 1, 2021, except for those employees hired or rehired directly from a Club with a then accruing plan and who were actively accruing benefits under the Club's plan immediately before being hired or rehired by the Dodgers, whose termination from the Dodgers was before their benefits fully vested and was rehired by Dodgers within 5 years of their severance date.

Effective January 1, 2021, the following participating employers: Atlanta Braves, Baltimore Orioles, Chicago White Sox, New York Yankees, Oakland Athletics, San Francisco Giants, Tampa Bay Rays, Cincinnati Reds, and The Phillies elected to include an imputed earnings and hours of service for the 2020 championship season to certain participants. In accordance with written procedures to be established by the Plan Administrator, participants who were fully or partially furloughed, placed on a leave of absence without pay, or otherwise had his or her compensation reduced due to changes to the 2020 championship season resulting from the coronavirus pandemic shall be credited with imputed earnings, hours of service and years of eligibility service, to the maximum extent allowed by law.

Effective January 1, 2020, the Pension Committee amended and restated the NUPP Plan document, which includes all previous amendments.

Additional information about the Clubs, including the vesting and benefit provisions and the PBGC's benefit guarantee, is available through the BOC or the Clubs and related Plan documents.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Clubs' financial statements are prepared on the accrual basis of accounting.

Notes to Financial Statements

December 31, 2021 and 2020

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 7) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the respective Clubs' provisions to services rendered by the employees through the valuation date (January 1 of each year). Accumulated plan benefits include benefits expected to be paid to: (a) retired employees or their designated beneficiaries and (b) present employees or their designated beneficiaries. Monthly benefits are determined by a formula provided for in the respective Plan document. Such monthly benefits are limited under Internal Revenue Service (IRS) guidelines in 2021 and 2020 to the lesser of \$19,167, or the employees' highest average monthly compensation for three consecutive years that the participant is employed by the Participating Employers. Benefits currently payable are included in accumulated plan benefits to the extent they are deemed attributable to employee service rendered to the valuation date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the U.S. (U.S. GAAP) requires the Plans' management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Investments and Valuation

The Plans participate in the Group Trust, as further described in Note 3.

Investments held by the Group Trust are stated at fair value. Fair value is defined as the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (*i.e.*, exit date). See Note 4 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned and dividends are recorded on the ex-dividend date. Net investment gains and losses include gains and losses on investments bought and sold as well as held during the year.

The Pension Committee is responsible for determining the Group Trust's valuation policies and analyzing information provided by the investment managers and issuers, which is used to determine the fair value of the Group Trust's investments.

Benefit payments to participants are recorded upon distribution.

Adopted New Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2018-13, *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*, which amends Accounting Standards Codification 820, *Fair Value Measurement*. This ASU modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. The Plan adopted the standard on January 1, 2020. The adoption did not have a material effect on the Plan's disclosures.

NOTE 3 INVESTMENTS

Contributions received from the Participating Employers are deposited with the Trustee. The assets are invested as part of the Group Trust. Each Plan participating in the Group Trust owns a percentage of the underlying assets of the Group Trust and not the individual assets themselves. The assets of the Group Trust are comprised of investments in common stocks, equity mutual funds, U.S. Government obligations, corporate bonds and notes, hedge funds, and cash and cash equivalents.

The assets of the Plan are not guaranteed as to principal or income. Investment income and all gains and losses, whether or not realized, are recognized on the accrual basis.

NOTE 3 INVESTMENTS *(continued)*

With respect to investments in the Group Trust, on a quarterly basis, each Plans' net assets are remeasured. This is done by first adjusting the Plans' beginning balance for employer-specific items, such as contributions, benefit payments, withdrawals, and any specific expenses incurred. Investment income and loss, investment fees and expenses, and realized and unrealized gains or losses on investments are then allocated to each Plan based on the percentage of its fair value to the combined fair value of all Plans participating in the Group Trust. As of December 31, 2021 and 2020, the individual Plans owned the following portions of the total fair value of the underlying investments comprising the Group Trust:

MAJOR LEAGUE BASEBALL PENSION PLAN FOR NON-UNIFORMED PERSONNEL—SELECTED RETIREMENT PLANS

Notes to Financial Statements

December 31, 2021 and 2020

NOTE 3 INVESTMENTS *(continued)*

During the years ended December 31, 2021 and 2020, the investments in the Group Trust, including investments bought, sold, and held during the applicable period, appreciated in fair value by \$48,556,839 and \$242,499,937, respectively. Interest and dividends reported by the Group Trust were \$134,045,962 and \$59,570,920 for the years ended December 31, 2021 and 2020, respectively. The Plans' allocable shares of these amounts are reported in the net investment gain from the Group Trust in the statements of changes in net assets available for benefits.

Investment managers exercise discretionary authority, subject to certain limitations, for the purchase, sale, and management of the investments of the Group Trust that have been allocated to them for such purposes. Provisions relating to this discretionary authority and a representation by each of the investment managers that it is duly registered with the SEC pursuant to the Investment Advisers Act of 1940, as amended, are contained within respective agreements entered into with each investment manager.

Certain investment managers are authorized to use derivative financial instruments, either directly or within a commingled fund structure, within established guidelines. Derivative financial instruments may be used to manage interest rate and foreign exchange risk. The derivative financial instruments are recorded as other investments either as an asset or a liability, depending upon whether the instrument is in a gain or loss position. Changes in the fair value of derivative financial instruments are recorded in the statements of changes in net assets available for benefits; therefore, no gains or losses are deferred. There were no derivative financial instruments as of December 31, 2021 and 2020.

NOTE 4 FAIR VALUE MEASUREMENTS

To measure fair value, a hierarchy has been established that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs. As such, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2: Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

MAJOR LEAGUE BASEBALL PENSION PLAN FOR NON-UNIFORMED PERSONNEL—SELECTED RETIREMENT PLANS

Notes to Financial Statements

December 31, 2021 and 2020

NOTE 4 FAIR VALUE MEASUREMENTS *(continued)*

Level 2: *(continued)*

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (*e.g.*, interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3: Unobservable inputs for the asset or liability (*i.e.*, supported by little or no market activity). Level 3 inputs include management's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following is a description of the valuation methodologies used for investments measured at fair value pursuant to the fair value hierarchy.

The following investments are classified as Level 1 investments in the fair value hierarchy.

Cash and cash equivalents include highly liquid investments with original maturities of 90 days or less and money market funds. Treasury bills are measured at institutional bond quotes that are based on various market and industry inputs, which indicate Level 1 securities. Actively traded money market funds are measured at their net asset value (NAV) and may include several different underlying short-term obligations, including U.S. Government-sponsored enterprises, U.S. Treasuries and municipal securities. Certain investments within the fund may be deemed unobservable and not considered to be in an active market. These factors indicate Level 2 securities.

Common stocks are determined by obtaining quoted prices in an active market, which indicate Level 1 securities.

MAJOR LEAGUE BASEBALL PENSION PLAN FOR NON-UNIFORMED PERSONNEL—SELECTED RETIREMENT PLANS

Notes to Financial Statements

December 31, 2021 and 2020

NOTE 4 FAIR VALUE MEASUREMENTS *(continued)*

Mutual funds are valued based on their NAV. A mutual fund may include several different underlying investments, including equities, bonds, real estate, and global securities. The NAV price is derived from the value of these investments, accrued income, anticipated cash flows (maturities), management fees, and other fund expenses. Certain investments within the fund may be deemed unobservable and not considered to be in an active market; therefore, they are considered Level 2 securities.

U.S. Government and corporate obligations are valued using the consensus and a market-based model, which considers yield, price of comparable securities, coupon rate, maturity, credit quality and dealer-provided prices. These factors indicate Level 2 securities.

Hedge funds are valued at the NAV per unit based on the fair value of the underlying investments. The underlying investments are primarily in publicly traded securities, which are valued at the closing price reported on the active market on which the individual securities are traded. In addition, these funds may have underlying investments in non-publicly traded securities for which quoted prices are not readily available. Such securities are valued by the investment management firm at an amount that approximates fair value, which is generally based on the verifiable fair value of similar securities at the valuation date. Plan management uses NAV as a practical expedient for measuring fair value; therefore, these investments do not require classification.

The methods described above may produce a fair value calculation that may not indicate net realizable value or reflect future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The Group Trust did not have any investments measured at fair value on a nonrecurring basis as of December 31, 2021 and 2020.

NOTE 4 FAIR VALUE MEASUREMENTS (continued)

The following table sets forth, by level within the fair value hierarchy, the Group Trust's assets carried at fair value as of December 31, 2021:

	Level 1	Level 2	Level 3	Total Fair Value

NOTE 4 FAIR VALUE MEASUREMENTS *(continued)*

Fair Value of Investments Valued Using an NAV

The following tables summarize investments measured at NAV per share:

December 31, 2021				
Investment Class	Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Hedge funds (a)	\$ 341,104,916	\$ -	Monthly–Annually	30-180 days
December 31, 2020				
Investment Class	Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Hedge funds (a)	\$ 308,735,577	\$ -	Monthly–Annually	30-180 days

- (a) These funds are oriented as a multi-strategy fund of funds, along with another group of investments managed by various different investment managers. These other managers specialize in various markets, the majority of which are either in the distressed asset category or long and short positions in global equities and equity-like securities.

The Plans' right to redeem its hedge fund investments varies according to the contractual agreements with each of the individual hedge fund management firms. Some of the hedge funds do not permit redemption for an initial period of time following an investment in the fund, which, for the Group Trust's hedge fund investments, range between six months and three years. Additionally, the Group Trust's hedge fund investment managers may limit the portion of an investment that can be redeemed at any one time, either by an individual investor or in the aggregate by all of the investors in the hedge fund. These limits vary and limit the portion of an investment that may be redeemed at any one time or restrict both the portion and term of such redemptions.

NOTE 5 DERIVATIVE INSTRUMENTS

In the normal course of operations, the Group Trust's assets and liabilities may include derivative financial instruments (swaps, options and foreign currency contracts). These derivatives involve, in varying degrees, elements of credit and market volatility risks in excess of more traditional investment holdings, such as equity and debt instruments. The contract or notional amounts disclosed in this footnote provide a measure of the Group Trust's involvement in such instruments but do not indicate future potential loss. The intent is to use derivative financial instruments as investments to gain exposure to certain markets and as economic hedges to manage interest rate, equity price, foreign currency exchange rate risk and credit risk associated with the Group Trust's investments and obligations.

There were no derivative instruments as of December 31, 2021 or 2020.

NOTE 6 OFFSETTING ASSETS AND LIABILITIES

The Group Trust is subject to master netting agreements, or netting arrangements, with certain counterparties. The Group Trust is required to disclose the impact of offsetting assets and liabilities represented in the statements of net assets available for benefits to enable users of the financial statements to evaluate the effect or potential effect of netting arrangements on its financial position for recognized assets and liabilities. These recognized assets and liabilities are financial instruments and derivative instruments that are either subject to an enforceable master netting arrangement or similar agreement or meet the following right of set-off criteria: the amounts owed by the Group Trust to another party are determinable, the Group Trust has the right to set off the amounts owed with the amounts owed by the other party, the Group Trust intends to set off, and the Group Trust's right of set off is enforceable by law. The Group Trust's derivative contracts are subject to these master netting agreements; however, these transactions would be included at gross in the Plans' interest in the Major League Pension Group Trust amount on the statement of net assets available for benefits. However, there were no derivatives instruments as of December 31, 2021 and 2020.

NOTE 7 ACCUMULATED PLAN BENEFITS

The Clubs' actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

The Clubs provide for the accumulation of benefits for services rendered by participants from the later of their respective dates of hire or the date their employer adopted the NUPP.

The Houston Astros, LLC adopted a Date of Plan Termination of August 31, 2019 for its plan. As part of the plan termination process, lump-sum distributions were offered to and elected by certain participants during 2020. Additionally, the Plan purchased annuity contracts in 2020 to provide for future benefits for any participants who did not receive a lump-sum distribution. As a result, the Plan's obligations were settled through the lump-sum distributions and annuity contracts purchased, and the Plan's sub-account in the Group Trust was closed in 2021. Consequently, there are no remaining net assets or values of accumulated plan benefits presented.

NOTE 8 ACTUARIAL ASSUMPTIONS

The more significant assumptions used by the actuary of the Clubs to, among other things, calculate accumulated plan benefits and determine funding levels at December 31, 2020, are as follows:

Actuarial method—Plan funding	Present value of accrued benefits
Mortality	Pri-2012, with projection and MP-2021 full generational improvement scale (Pri-2012, with projection and MP-2020 full generational improvement scale in prior year)
Average retirement age	Age 62

The discount rate for accumulated plan benefits for each Plan was as follows:

Plan	Discount Rate
The Baseball Club of Seattle, LLLP	2.7% (3.40% in prior year)
Braves Holdings LLC, Boston Red Sox Baseball Club Limited Partnership, Chicago White Sox, Ltd. Colorado Rockies Baseball Club, Ltd. Detroit Tigers, Inc., Kansas City Royals Baseball Corporation, Marlins TeamCo LLC, Athletics Investment Group, LLC, The Phillies, Pittsburgh Associates, St. Louis Cardinals, LLC, and Padres, LP	2.8% (3.50% in prior year)
Baltimore Orioles LP	2.7% (3.50% in prior year)
AZPB Limited Partnership and Cleveland Guardians	2.9% (3.50% in prior year)
The Cincinnati Reds LLC, San Diego Padres Baseball Associates LLC	2.8% (3.60% in prior year)
QB JV Holdings, LLC, San Francisco Baseball Associates LLC, and Tampa Bay Rays Baseball, Ltd.	2.9% (3.60% in prior year)
Los Angeles Dodgers LLC, New York Yankees Partnership, and Rangers Baseball, LLC	3.0% (3.60% in prior year)
Washington Nationals Baseball Club, LLC	3.1% (3.7% in prior year)

These actuarial assumptions are based on the presumption that the Plans will continue. Were the Plans to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuary estimated the accumulated plan benefits as of December 31, 2020.

Notes to Financial Statements

December 31, 2021 and 2020

NOTE 9 INCOME TAX STATUS

The Clubs have received determination letters from the IRS stating that the Clubs are qualified under Section 401(a) of the Code and, therefore, the related Trusts are exempt from taxation. Once qualified, the Clubs are required to operate in conformity with the Code to maintain their qualification. The Clubs have been amended since issuance of the determination letters. However, the Plan Administrator believes the Clubs are being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Clubs, as amended, are qualified and the related Trusts are exempt from taxation.

U.S. GAAP requires the Plans' management to evaluate uncertain tax positions taken by the Plans. The financial statement effects of a tax position are recognized when the position is more-likely-than-not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plans, and has concluded that as of December 31, 2021, there were no uncertain tax positions taken or expected to be taken. The Clubs have recognized no interest or penalties related to uncertain tax positions. The Clubs are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 10 ADMINISTRATIVE EXPENSES

Certain actuarial, auditing fees, insurance and administrative expenses are paid by the Clubs. Certain other administrative expenses are paid by the BOC directly.

NOTE 11 RISKS AND UNCERTAINTIES

The Clubs invest in various investment securities that are exposed to risks, such as interest rate, market, and credit risks. In addition, the declared global pandemic has caused certain risks in the equity capital markets and on investment returns, which may have a material impact on the Plans' funded status. Due to the level of risk associated with these and other investment securities of the Group Trust, it is at least reasonably possible that changes in the values of investment securities will occur in the near term. The changes could materially affect the amounts reported in the financial statements.

Contributions to the Clubs are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Notes to Financial Statements

December 31, 2021 and 2020

NOTE 11 RISKS AND UNCERTAINTIES *(continued)*

In addition, a global outbreak of the coronavirus disease 2019 (COVID-19) was declared a pandemic by the World Health Organization and a national emergency by the U.S. Government in March 2020. The continued spread of COVID-19 has caused volatility in the equity capital markets and the investment returns on our pension assets, which may have a material impact on the Plans' funded status.

NOTE 12 SUBSEQUENT EVENTS

The San Francisco Baseball Associates LLC executed a Plan amendment, approved by the Pension Committee, to freeze benefit accruals and participation in the Plan, effective January 1, 2022.

Management evaluated subsequent events for the Clubs through October 14, 2022, the date the financial statements were available to be issued. No material other events were identified requiring disclosure.

Schedule SB – Statement by Enrolled Actuary

Plan Sponsor	St. Louis Cardinals, L.L.C.
EIN/PN	43-1732671/001
Plan Name	Major League Baseball Pension Plan for Non-Uniformed Personnel
Valuation Date	January 1, 2021
Enrolled Actuary	Mark Gengenbach, FSA, EA
Enrollment Number	20-07102

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Economic Assumptions

Interest rate basis:

- Applicable month September, 2020
- Interest rate basis 3-Segment Rates from Fourth Month Preceding Valuation Date

Interest rates:

	Reflecting Stabilization	Not Reflecting Stabilization
■ First segment rate	4.75%	2.22%
■ Second segment rate	5.36%	3.38%
■ Third segment rate	6.11%	3.92%
■ Effective interest rate	5.74%	3.69%

Annual rates of increase

- Compensation 4.00%
- Statutory limits on compensation 2.50%

Plan-related expenses Expense load of \$423,000 is equal to \$100,000 for non-PBGC related administrative expenses plus estimated PBGC premiums for the current plan year.

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used and are used to determine the PBGC FTAP and the PBGC 4010 FS.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	<p>All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Major League Baseball and, based on that review, is not aware of any significant benefits required to be valued that were not.</p> <p>The plan pays small benefits (with a present value up to \$5,000) in a single lump sum payment. Such lump sums are not explicitly valued;</p>

Sources of Data and Other Information

The plan sponsor, through both its third party administrator and its trustee, furnished participant data as of 1/1/2021. Information on assets and contributions was supplied by the trustee. Information on plan provisions was provided by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. In consultation with Major League Baseball, the following assumptions were made:

- Estimated accrued benefits were used for certain terminated vested participants or active participants in frozen plans for whom final accrued benefits had not been completed.
- 2020 plan compensation was set equal to estimated 2021 plan compensation for any active participants who were missing 2020 plan compensation.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).
Rates of increase in:	
■ Compensation	Assumed compensation increases are based on Major League Baseball's expectations for near-term years and the effect that the assumed long-term CPI will have on compensation increases over the longer term.
■ Increases in statutory limits (CPI)	The assumed CPI is based on a combination of historical average CPI and future forecasts by economists.
■ Assumed return for asset smoothing	The assumed return of 6.11% used for asset smoothing for the 2021 plan year is the third segment rate. Although we have not explicitly determined an expected return on assets under U.S. GAAP, based on an analysis of the plan sponsor's investment policy we believe the rate to be above the third segment rate for the 2021 plan year.

Assumptions Rationale - Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	<p>Termination rates were based on an experience study conducted in 2016, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed termination rates differ by service because of observed and expected differences in termination rates by service.</p>
Retirement	<p>Retirement rates were based on an experience study conducted in 2016, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed retirement rates differ by age because of observed and expected differences in retirement rates by age.</p>
Benefit commencement date for deferred benefits:	
■ Preretirement death benefit	Beneficiaries are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the beneficiary elects to defer. If the beneficiary elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value.
■ Deferred vested benefit	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Changes in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The American Rescue Plan Act (ARPA) of 2021 was enacted in March, 2021. ARPA revises PPA's interest rate stabilization provisions. The plan sponsor elected to adopt ARPA's interest rate stabilization provisions effective with the 2021 plan year and that election is reflected in this report.

ARPA also revises PPA's interest rate stabilization provisions for IRC §436 (benefit restriction) purposes. The plan sponsor elected to adopt ARPA's interest rate stabilization provisions for §436 purposes effective with the 2021 plan year and that election is reflected in this report.

The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality improvement scale, as required by guidance issued by IRS under IRC §430.

Changes in methods since prior valuation

The American Rescue Plan Act (ARPA) of 2021 was enacted in March, 2021. ARPA replaces PPA's 7-year shortfall amortization installments (SAIs) with a "fresh start" 15-year amortization. (Note that waiver amortization bases, if any, are not affected). The plan sponsor elected to adopt ARPA's 15-year amortization provisions effective with the 2021 plan year and that election is reflected in this report.

Model Descriptions and Disclosures (in accordance with ASOP No. 56)

Quantify

Quantify is the Willis Towers Watson centrally developed, tested and maintained Global actuarial valuation system. It is used to perform valuations of clients' benefit plans.

Quantify provides the ability to process data, calculate benefits and value benefit liabilities, develop results using applicable standards, and generate client reports.

Quantify parameters provide significant flexibility to model populations and plan designs. Various demographic, economic and benefit related assumptions exist for users to model multiple demographic and economic situations.

Plan liabilities are calculated based on standard actuarial techniques, developing actuarially reasonable results using the population and parameters entered. The calculation and presentation of liabilities in Quantify relies on the assumptions used and the reasonability of the assumptions selected.

Quantify incorporates standard liability methodologies that are intended to reasonably reflect a variety of economic or demographic conditions. The model itself does not evaluate any assumptions entered for reasonableness, consistency or probability of occurrence.

Quantify is designed specifically for these purposes, and we know of no material limitations that would prevent the system from being suitable for these intended purposes. The actuaries signing this report have relied on the actuaries who develop, test and maintain this system, and have also performed a limited review of results to ensure that system parameters have been set appropriately and plan provisions coded correctly.

Quantify FR

Quantify Financial Reporting (FR) is intended to calculate funding results, accounting results and produce the associated client reports under selected accounting standards. The calculations and reports are based on various user specified inputs including liability results and asset values.

Quantify FR develops valuation results for various accounting and funding purposes using standard actuarial techniques.

Published Demographic Tables

Certain demographic tables described above are standard published tables or are based on standard published tables

SWIFT

(for multi-year projections only)

Swift is intended to develop projections of plan liability (pension and OPRB plans) and/or asset values based on various user specified inputs. These amounts are then used to develop contribution and cost results under selected accounting standards and funding regulations. The time horizon for the analysis is 10 full future years.

The parameters provide a great deal of flexibility to model populations and plan designs. The parameters provide a great deal of flexibility to model populations and plan designs.

Various demographic and economic assumptions exist for users to model multiple demographic and economic scenarios. The Swift model for liabilities is a simplified alternative to using a full valuation system to develop projections of plan liabilities. The assumptions used to control the projected asset values are intended to be flexible enough to model a variety of scenarios reflecting the investment mix of the plan modeled.

Plan liabilities are initially projected based on standard actuarial techniques for a roll-forward based on the population/design parameters entered. The liabilities are then adjusted with inputs providing their sensitivity to various economic experience and valuation assumptions.

Assets are projected on a monthly basis reflecting the data, calculated cash flows, and input assumptions.

The model itself does not evaluate any assumptions entered for reasonableness, consistency or probability of occurrence.

Funding and accounting calculations assume that applicable rules will not change during the forecast horizon.

Certain details are not reflected in the model. For example, special events (curtailments, settlements, termination benefits) are not included in the standard accounting calculations. Additionally, the model does not support interim re-measurements of benefit cost. Actuaries make adjustments to the data, plan provisions and assumptions reflected in the calculation of the liabilities that are projected forward so that the results reflect conditions at the measurement date, and/or make similar adjustments to the results of the projection, including reflecting any changes in applicable accounting standards.

Plan Provisions

Effective date	January 1, 1992. The plan was restated effective January 1, 2020.
Covered employees	<p>Any person employed by a participating Major League Baseball Club (excluding any person who is an active participant in the Major League Baseball Players Benefit Plan, a member of a collective bargaining unit not participating, a person compensated on a per-day or per-game basis, employed full-time in Canada, a self-employed partner, proprietor or shareholder-employee, or a member of a group designated not eligible for participation), and who has attained age 21 and completed one year of eligibility service. Civic Center employees meeting the age and service requirements will be considered covered employees.</p> <p>Effective January 1, 2008, all active minor league employees are covered under the Minor League Players Pension Plan. Effective December 1, 2010, all inactive minor league participants are covered under the Minor League Players Pension Plan.</p>
Participation date	<p>Date of becoming a covered employee.</p> <p>Participation was frozen effective November 1, 2017.</p>

Definitions

Eligibility service	The 12-consecutive month period, starting at date of employment, in which an employee completes 1,000 hours of service.
Baseball service	Employment in baseball with any Major League Baseball Club, as designated by the Pension Committee.
Vesting service	Completed years from a participant's employment date to the termination of baseball service.

Pension service

Years and months of service as a covered employee (not before January 1, 1992 for Minor League Players; for office and civic center employees, pension service begins on the earlier of (i) March 22, 1996 and (ii) the date participation began under either the St. Louis National Baseball Club, Inc., Office Pension Plan or the Anheuser Busch Companies Pension Plan as an employee of St. Louis National Baseball Club, Inc. but not earlier than January 1, 1981).

Pension service was frozen for participants who elected to participate in the enhanced Defined Contribution Plan effective December 31, 2017.

Pensionable pay

W-2 earnings, including any cafeteria plan deferrals, dependent care assistance deferrals, and any other employee deferrals to a qualified retirement plan, but excluding any reimbursements, fringe benefits, moving expenses, deferred compensation, welfare benefits, signing bonuses, severance, IRC Section 132 deductions taken pursuant to the Transportation Equity Act, and any earnings earned as a non-resident alien (assuming the employee earned no income in the US). Playoff and World Series shares are included in pensionable pay, up to the greater of \$10,000 or 15% of base salary (as determined by the Saint Louis Cardinals). Clubhouse tips are excluded from pensionable pay.

No earnings after December 31, 2017 shall be considered for participants who elected to participate in the enhanced Defined Contribution Plan as of this date.

Average earnings

The greater of 1) or 2):

- 1) The average of an employee's highest five consecutive plan years of annual earnings, during the ten-year period which ends on the earlier of the participant's termination date or retirement date.

If the employee does not have five consecutive plan years of annual earnings, the average earnings will be determined by using the greatest number of consecutive plan years in which the employee accrued pension service.

- 2) The average of an employee's last five plan years of annual earnings (which would not necessarily be the highest 5 plan years), whether or not consecutive, during the ten-year period which ends on the earlier of the participant's termination date or retirement date.

In plan years where a participant completed a partial year of pension service, the annual earnings will be prorated by the number of completed months of pension service. This is applicable for both 1) and 2) above.

Normal retirement date (NRD)

First of month coinciding with or next following the attainment of age 65.

Pension benefit

2% of average earnings for each year of pension service up to 30 years. (Not less than the minimum pension benefit.) For Front Office and Civic Center employees, the pension benefit is offset by a "hypothetical benefit" equal to 2% of average earnings as of March 21, 1996 times years of pension service as of March 21, 1996.

Preretirement death benefit

If not eligible for early or normal retirement, 50% of the pension benefit as of the date of death, reduced for the 50% joint and survivor election and reduced for payment as early as the participant's 55th birthday. If eligible for early or normal retirement, 100% of the pension benefit as of the date of death, reduced for the 100% joint and survivor election and reduced for early commencement of payment.

Minimum pension benefit

The benefit accrued through December 31, 1993, in accordance with prior plan provisions.

Deferred vested	Termination for reasons other than death or retirement after completing five years of vesting service.
Preretirement death benefit	Death while eligible for normal, early, postponed or deferred vested retirement benefits, with a surviving spouse or designated beneficiary.

Benefits Paid Upon the Following Events

Normal retirement	Pension benefit determined as of NRD.
Early retirement	Pension benefit determined as of early retirement date, reduced 7/12% for each of the first 60 months and 1/3% for each of the next 60 months by which payment precedes NRD.
Postponed retirement	Pension benefit determined as of actual retirement date.
Termination with deferred vested benefit	Pension benefit determined as of termination date, payable at NRD. A participant who terminates with 10 or more years of vesting service, may elect to retire as early as age 55 (reduction is 7/12% for each of the first 60 months and 1/3% for each of the next 60 months by which payment precedes NRD).

Other Plan Provisions

Forms of payment

Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan.

Optional forms are a 50%, 75% or 100% joint and survivor annuity, a ten-year certain and life annuity, or (for married participants) a life annuity. The normal form of payment is converted to an optional form using an interest rate of 6% and GAR-94 Mortality (unisex).

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes

No future plan changes were recognized in determining minimum and maximum contributions.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Name	Major League Baseball Pension Plan for Non-Uniformed Personnel
Valuation Date	January 1, 2021
Enrolled Actuary	Mark Gengenbach, FSA, EA
Enrollment Number	20-07102

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Schedule SB, Part V Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis:

- Applicable month September, 2020
- Interest rate basis 3-Segment Rates from Fourth Month Preceding Valuation Date

Interest rates:

	Reflecting Stabilization	Not Reflecting Stabilization
■ First segment rate	4.75%	2.22%
■ Second segment rate	5.36%	3.38%
■ Third segment rate	6.11%	3.92%
■ Effective interest rate	5.74%	3.69%

Annual rates of increase

- Compensation 4.00%
- Statutory limits on compensation 2.50%

Plan-related expenses Expense load of \$423,000 is equal to \$100,000 for non-PBGC related administrative expenses plus estimated PBGC premiums for the current plan year.

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used and are used to determine the PBGC FTAP and the PBGC 4010 FS.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	<p>All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Major League Baseball and, based on that review, is not aware of any significant benefits required to be valued that were not.</p> <p>The plan pays small benefits (with a present value up to \$5,000) in a single lump sum payment. Such lump sums are not explicitly valued;</p>

Sources of Data and Other Information

The plan sponsor, through both its third party administrator and its trustee, furnished participant data as of 1/1/2021. Information on assets and contributions was supplied by the trustee. Information on plan provisions was provided by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. In consultation with Major League Baseball, the following assumptions were made:

- Estimated accrued benefits were used for certain terminated vested participants or active participants in frozen plans for whom final accrued benefits had not been completed.
- 2020 plan compensation was set equal to estimated 2021 plan compensation for any active participants who were missing 2020 plan compensation.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).
Rates of increase in:	
■ Compensation	Assumed compensation increases are based on Major League Baseball's expectations for near-term years and the effect that the assumed long-term CPI will have on compensation increases over the longer term.
■ Increases in statutory limits (CPI)	The assumed CPI is based on a combination of historical average CPI and future forecasts by economists.
■ Assumed return for asset smoothing	The assumed return of 6.11% used for asset smoothing for the 2021 plan year is the third segment rate. Although we have not explicitly determined an expected return on assets under U.S. GAAP, based on an analysis of the plan sponsor's investment policy we believe the rate to be above the third segment rate for the 2021 plan year.

Assumptions Rationale - Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	<p>Termination rates were based on an experience study conducted in 2016, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed termination rates differ by service because of observed and expected differences in termination rates by service.</p>
Retirement	<p>Retirement rates were based on an experience study conducted in 2016, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed retirement rates differ by age because of observed and expected differences in retirement rates by age.</p>
Benefit commencement date for deferred benefits:	
■ Preretirement death benefit	Beneficiaries are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the beneficiary elects to defer. If the beneficiary elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value.
■ Deferred vested benefit	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Changes in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The American Rescue Plan Act (ARPA) of 2021 was enacted in March, 2021. ARPA revises PPA's interest rate stabilization provisions. The plan sponsor elected to adopt ARPA's interest rate stabilization provisions effective with the 2021 plan year and that election is reflected in this report.

ARPA also revises PPA's interest rate stabilization provisions for IRC §436 (benefit restriction) purposes. The plan sponsor elected to adopt ARPA's interest rate stabilization provisions for §436 purposes effective with the 2021 plan year and that election is reflected in this report.

The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality improvement scale, as required by guidance issued by IRS under IRC §430.

Changes in methods since prior valuation

The American Rescue Plan Act (ARPA) of 2021 was enacted in March, 2021. ARPA replaces PPA's 7-year shortfall amortization installments (SAIs) with a "fresh start" 15-year amortization. (Note that waiver amortization bases, if any, are not affected). The plan sponsor elected to adopt ARPA's 15-year amortization provisions effective with the 2021 plan year and that election is reflected in this report.

Model Descriptions and Disclosures (in accordance with ASOP No. 56)

Quantify

Quantify is the Willis Towers Watson centrally developed, tested and maintained Global actuarial valuation system. It is used to perform valuations of clients' benefit plans.

Quantify provides the ability to process data, calculate benefits and value benefit liabilities, develop results using applicable standards, and generate client reports.

Quantify parameters provide significant flexibility to model populations and plan designs. Various demographic, economic and benefit related assumptions exist for users to model multiple demographic and economic situations.

Plan liabilities are calculated based on standard actuarial techniques, developing actuarially reasonable results using the population and parameters entered. The calculation and presentation of liabilities in Quantify relies on the assumptions used and the reasonability of the assumptions selected.

Quantify incorporates standard liability methodologies that are intended to reasonably reflect a variety of economic or demographic conditions. The model itself does not evaluate any assumptions entered for reasonableness, consistency or probability of occurrence.

Quantify is designed specifically for these purposes, and we know of no material limitations that would prevent the system from being suitable for these intended purposes. The actuaries signing this report have relied on the actuaries who develop, test and maintain this system, and have also performed a limited review of results to ensure that system parameters have been set appropriately and plan provisions coded correctly.

Quantify FR

Quantify Financial Reporting (FR) is intended to calculate funding results, accounting results and produce the associated client reports under selected accounting standards. The calculations and reports are based on various user specified inputs including liability results and asset values.

Quantify FR develops valuation results for various accounting and funding purposes using standard actuarial techniques.

SWIFT

(for multi-year projections only)

Swift is intended to develop projections of plan liability (pension and OPRB plans) and/or asset values based on various user specified inputs. These amounts are then used to develop contribution and cost results under selected accounting standards and funding regulations. The time horizon for the analysis is 10 full future years.

The parameters provide a great deal of flexibility to model populations and plan designs. The parameters provide a great deal of flexibility to model populations and plan designs. Various demographic and economic assumptions exist for users to model multiple demographic and economic scenarios. The Swift model for liabilities is a simplified alternative to using a full valuation system to develop projections of plan liabilities. The assumptions used to control the projected asset values are intended to be flexible enough to model a variety of scenarios reflecting the investment mix of the plan modeled.

Plan liabilities are initially projected based on standard actuarial techniques for a roll-forward based on the population/design parameters entered. The liabilities are then adjusted with inputs providing their sensitivity to various economic experience and valuation assumptions.

Assets are projected on a monthly basis reflecting the data, calculated cash flows, and input assumptions.

The model itself does not evaluate any assumptions entered for reasonableness, consistency or probability of occurrence.

Funding and accounting calculations assume that applicable rules will not change during the forecast horizon.

Certain details are not reflected in the model. For example, special events (curtailments, settlements, termination benefits) are not included in the standard accounting calculations. Additionally, the model does not support interim re-measurements of benefit cost. Actuaries make adjustments to the data, plan provisions and assumptions reflected in the calculation of the liabilities that are projected forward so that the results reflect conditions at the measurement date, and/or make similar adjustments to the results of the projection, including reflecting any changes in applicable accounting standards.

Pension service

Years and months of service as a covered employee (not before January 1, 1992 for Minor League Players; for office and civic center employees, pension service begins on the earlier of (i) March 22, 1996 and (ii) the date participation began under either the St. Louis National Baseball Club, Inc., Office Pension Plan or the Anheuser Busch Companies Pension Plan as an employee of St. Louis National Baseball Club, Inc. but not earlier than January 1, 1981).

Pension service was frozen for participants who elected to participate in the enhanced Defined Contribution Plan effective December 31, 2017.

Pensionable pay

W-2 earnings, including any cafeteria plan deferrals, dependent care assistance deferrals, and any other employee deferrals to a qualified retirement plan, but excluding any reimbursements, fringe benefits, moving expenses, deferred compensation, welfare benefits, signing bonuses, severance, IRC Section 132 deductions taken pursuant to the Transportation Equity Act, and any earnings earned as a non-resident alien (assuming the employee earned no income in the US). Playoff and World Series shares are included in pensionable pay, up to the greater of \$10,000 or 15% of base salary (as determined by the Saint Louis Cardinals). Clubhouse tips are excluded from pensionable pay.

No earnings after December 31, 2017 shall be considered for participants who elected to participate in the enhanced Defined Contribution Plan as of this date.

Average earnings

The greater of 1) or 2):

- 1) The average of an employee's highest five consecutive plan years of annual earnings, during the ten-year period which ends on the earlier of the participant's termination date or retirement date.

If the employee does not have five consecutive plan years of annual earnings, the average earnings will be determined by using the greatest number of consecutive plan years in which the employee accrued pension service.

- 2) The average of an employee's last five plan years of annual earnings (which would not necessarily be the highest 5 plan years), whether or not consecutive, during the ten-year period which ends on the earlier of the participant's termination date or retirement date.

In plan years where a participant completed a partial year of pension service, the annual earnings will be prorated by the number of completed months of pension service. This is applicable for both 1) and 2) above.

Normal retirement date (NRD)

First of month coinciding with or next following the attainment of age 65.

Pension benefit

2% of average earnings for each year of pension service up to 30 years. (Not less than the minimum pension benefit.) For Front Office and Civic Center employees, the pension benefit is offset by a "hypothetical benefit" equal to 2% of average earnings as of March 21, 1996 times years of pension service as of March 21, 1996.

Preretirement death benefit

If not eligible for early or normal retirement, 50% of the pension benefit as of the date of death, reduced for the 50% joint and survivor election and reduced for payment as early as the participant's 55th birthday. If eligible for early or normal retirement, 100% of the pension benefit as of the date of death, reduced for the 100% joint and survivor election and reduced for early commencement of payment.

Minimum pension benefit

The benefit accrued through December 31, 1993, in accordance with prior plan provisions.

Other Plan Provisions

Forms of payment

Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan.

Optional forms are a 50%, 75% or 100% joint and survivor annuity, a ten-year certain and life annuity, or (for married participants) a life annuity. The normal form of payment is converted to an optional form using an interest rate of 6% and GAR-94 Mortality (unisex).

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes

No future plan changes were recognized in determining minimum and maximum contributions.

Changes in Benefits Valued Since Prior Year

There have been no changes in benefits valued since the prior year.
