Gulf Interstate Engineering Company Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Gulf Interstate Engineering Company Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2021 and 2020, and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2021 and schedule H, line 4a - schedule of delinquent participant contributions for the year ended December 31, 2021 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

GULF INTERSTATE ENGINEERING COMPANY SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Gulf Interstate Engineering Company Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

Plan Restatement

Effective February 1, 2021, the Plan’s recordkeeper changed from Transamerica Financial Life Insurance Company (“TFLIC”) to Prudential Retirement Insurance and Annuity Company (“PRIAC”) and Prudential Bank & Trust, F.S.B. became the Plan’s trustee. The Plan was amended and restated effective February 1, 2021 to adopt a non-standardized pre-approved plan sponsored by PRIAC. Any changes to Plan provisions as a result of the amendment and restatement are described below.

All Plan assets were transferred from TFLIC on February 1, 2021 into new funds offered by PRIAC. The conversion initiated a blackout period beginning January 22, 2021 and continuing through February 9, 2021. During this period, participants could not direct or diversify investments in their account, obtain a loan, or obtain a distribution from the Plan.

General

The Plan is a defined contribution plan covering all eligible employees of Gulf Interstate Engineering Company and Gulf Interstate Field Services (the “Companies”), except nonresident aliens, leased employees, employees of a controlled group or affiliated service group employer not adopting the Plan, reclassified employees, and employees of entities during an acquisition transaction period. Employees are eligible to participate on the first day of the month following the beginning of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan is administered and managed by the Administrative and Investment Committee (the “Committee”).

Contributions

Participants may elect to make pre-tax or Roth salary deferral contributions to the Plan from 2% to 90% of eligible compensation, subject to limits provided under the Internal Revenue Code (“IRC”). Roth contributions are after-tax contributions recorded to a separate Roth account in the participant’s account. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Plan allows rollover contributions from eligible retirement plans qualified under the appropriate sections of the IRC.

GULF INTERSTATE ENGINEERING COMPANY SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

The Companies make safe harbor matching contributions to match 100% of deferrals on up to 6% of eligible compensation per pay period. The Companies may also make an annual discretionary matching contribution, limited to 4% of each participant's eligible compensation. Participants must be employed on the last day of the plan year to receive the discretionary matching contribution. For 2021, the Companies did not make a discretionary matching contribution. The Plan is participant directed. Participants may change their contribution rates on the first day of each payroll period and investment options at any time.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Companies' contributions and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are at all times fully vested in their deferral and rollover contributions, employer contributions, and the appreciation or depreciation thereon.

Payment of Benefits

Normal retirement age under the Plan is 65. Upon a participant's termination, death, disability, or retirement, the participant's account may be distributed in a lump-sum payment or installment payments. If a participant's account is less than \$1,000 or rollover account is between \$1,000 and \$5,000, a lump-sum distribution will automatically be made. Participants who have attained age 59½ or are experiencing a financial hardship may receive in-service distributions. The Plan also allows in-service distributions up to 100% of a participant's rollover account.

Notes Receivable from Participants

Plan participants may borrow a minimum of \$1,000 up to a maximum of the lesser of \$50,000, reduced by the highest balance of notes of the participant during the one-year period ending on the day before the note is made, or 50% of their vested account balance in the Plan. Notes are repaid in level installments through payroll deductions for periods ranging up to five years, except for the purchase of a primary residence which is capped at 20 years. The notes bear interest at prime plus 1% at the time of the note and are secured by the participant's vested account balance to the extent of the principal amount of the note plus accrued interest.

Plan Termination

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan, subject to the provisions of ERISA. Upon termination, participants would receive benefits based on their account balances accumulated to the date of termination of the Plan.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investments

Investments are reported at fair value, except the fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on the trade date. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 4 for discussion of fully benefit-responsive investment contracts.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document. At December 31, 2021 and 2020, no allowance was considered necessary by management.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain administrative expenses of maintaining the Plan are paid directly by the Companies and are excluded from these financial statements. Fees related to withdrawals and investment advisory services are charged directly to the participant's account and are included in administrative expenses. Other investment-related expenses are included in net appreciation in fair value of investments.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 3 - FAIR VALUE MEASUREMENTS

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of Plan investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts: Valued at fair value based on account unit value (AUV) pricing as calculated by the annuity provider according to formulas described in the annuity contract. The pooled separate accounts own and hold the underlying mutual fund or collective trust shares, which are reported at their net asset value. The pooled separate accounts held by the Plan provide for daily redemptions by the Plan at reported AUV with no advance notice requirement. The Plan has no unfunded commitments and no contractual obligations to further invest in the accounts.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e., projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in the methodologies used for valuing securities at December 31, 2021 or 2020.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2021 and 2020:

<u>Description</u>	<u>2021</u>			<u>Total</u>

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	
Mutual Funds	<u>\$69,381,014</u>			<u>\$69,381,014</u>

NOTE 4 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

New York Life Insurance Company Guaranteed Interest Account and Transamerica Financial Life Insurance Company Stable Value Option

Prior to February 1, 2021, the Plan maintained a stable value fund, the TFLIC Stable Value Option, and a guaranteed interest account, the NYLIC GIA. The stable value option and GIA meet the fully benefit-responsive contract criteria and, therefore, are reported at contract value. Contract value, as reported by TFLIC, represents the Plan's deposits and credited interest, less withdrawals, charges, and expenses. Contract value, as reported by NYLIC, represents contributions made, plus earnings, less participant withdrawals and administrative expenses.

The stable value option seeks to provide maximum return consistent with a guarantee of principal. The fund has a portfolio investment rate design in which all deposits are credited with the same interest rate, daily, and with no set maturity. With at least 45 days advance notice, the effective credited interest rate is set semi-annually and effective on the first day of the semi-annual period. Contract charges may reduce this return. Deposits and withdrawals may be made at contract value, daily. Plan participants may make withdrawals without restrictions, but a hold may be applied.

The GIA is a guaranteed interest contract that guarantees the return of principal and accumulated interest and seeks to provide participants with competitive crediting rates and limited volatility consistent with preservation of capital. The crediting rate is based on the formula in the contract. The minimum guaranteed rate of interest for the contract is subject to change every six months, but will always fall within a range between 1.00% and 3.00%. Plan sponsor and participants may deposit and withdraw from the GIA at contract value, daily. Neither the plan sponsor nor participants may transfer funds from the

NOTE 4 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS (CONTINUED)

GIA to a competing fixed income fund. Additionally, if a transfer is made to a non-competing fund, no further transfers may occur for ninety days from the non-competing fund to a competing fund. Annual withdrawal requests, resulting from a plan sponsor initiated event, are subject to annual limits, based on the Plan's contract beginning of the year balance. If withdrawals are in excess of the annual limit, those withdrawals may be subject to a market value adjustment and result in a charge on the remaining balance. The plan sponsor may terminate the GIA contract with a thirty to sixty days' notice, and elect to receive the funds in a lump-sum payment, subject to a market value adjustment, or in annual installments, at contract value, over a five-year term with a fixed crediting rate.

The contract was terminated when the plan assets were transferred in February 2021. There was no fair value adjustment required as a part of the transfer.

Prudential Retirement Insurance and Annuity Company Guaranteed Income Fund

The Plan maintains a Guaranteed Income Fund which is an evergreen group annuity contract issued by PRIAC. This fund is designed to provide liquidity and safety of principal with a competitive rate of return. The fund invests in a broadly diversified, fixed-income portfolio within PRIAC's general account. The portfolio is primarily invested in public bonds, commercial mortgages, and private placement bonds. Through this investment, the Plan owns a promise to pay interest at crediting rates, which are announced in advance and guaranteed for the indicated period of time as outlined in the group annuity contract, generally semi-annually. Investments in the Guaranteed Income Fund are recorded at contract value as the contract is fully benefit-responsive. As such, participants may direct the withdrawal or transfer of all or a portion of their investments at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and fees.

Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions. When establishing interest crediting rates for this product, PRIAC considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account. These rates are established without the use of a specific formula. The minimum crediting interest rate under the contract is 1.5%. Generally, there are not any events that could limit the ability of the Plan to transact at contract value paid within 90 days or contract value paid over time. In addition, there are not any events that allow the issuer to terminate the contract and which require the Plan sponsor, Gulf Interstate Engineering Company, to settle at an amount different than contract value paid either within 90 days or over time.

GULF INTERSTATE ENGINEERING COMPANY SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2021 and 2020

NOTE 5 - INFORMATION CERTIFIED

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company, a trustee of the Plan and Prudential Bank & Trust, F.S.B., a trustee of the Plan, TFLIC, an insurance company, and PRIAC, an insurance company, have certified to the completeness and accuracy of all investments and notes receivable from participants reflected in the accompanying statements of net assets available for benefits as of December 31, 2021 and 2020, and the schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2021, and the related investment activity and interest income on notes receivable from participants reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2021.

NOTE 6 - TAX STATUS

The Plan has adopted a volume submitter profit sharing plan, which obtained its latest opinion letter dated December 4, 2020 in which the Internal Revenue Service ("IRS") stated that the prototype document satisfies the applicable provisions of the IRC. Therefore, contributions to the Plan and earnings from its assets are not currently taxable to the Plan or its participants.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan to determine if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021 and 2020, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

At December 31, 2021, Plan investments are in a contract account managed by PRIAC, the Plan's recordkeeper and, therefore, qualifies as a party in interest. During 2021, the Plan paid administrative expenses to Alliant Retirement Consulting, an investment advisor. These transactions qualify as party-in-interest transactions. At December 31, 2020, Plan investments were in a contract account managed by TFLIC, an affiliate of Transamerica Retirement Services ("TRS"), the Plan's recordkeeper until January 31, 2021 and, therefore, qualifies as a party in interest. Notes receivable from participants are also party-in-interest transactions. These party-in-interest transactions are covered by an exemption from the prohibited transaction provisions.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan provides for various investments. In general, such investments are exposed to various risks such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 - LATE REMITTANCES

During 2021, there were unintentional delays by the Companies in submitting participant contributions and loan repayments in the aggregate amount of \$66,738. The Companies plan to compensate the affected participants in 2022 for all lost earnings resulting from the delay in remitting these contributions and loan repayments.
