Independent Auditor's Report

Tekni-Plex, Inc. Administrative Committee
Tekni-Plex, Inc. Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements
We have performed an audit of the financial statements of the Tekni-Plex, Inc. Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021, the related statement of changes in net assets available for benefits for the year then ended, the statement of accumulated plan benefits as of December 31, 2020, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements
In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the accompanying 2021 financial statements related to assets held by a qualified institution and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

RSM US LLP is the U.S. member firm of RSM International, a global network of independent audit, tax, and consulting firms. Visit rsmus.com/aboutus for more information regarding RSM US LLP and RSM International.

Basis for Opinion on the 2021 Financial Statements
We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for 12 months beyond the date of the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedules Required by ERISA
The supplemental schedules of assets (held at end of year) and reportable transactions as of or for the year ended December 31, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 13, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of Plan

The following description of the Tekni-Plex, Inc. Pension Plan (the Plan) is provided for general information only. Participants should refer to the Plan Document and Summary Plan Description for more complete information.

General: The Plan is a non-contributory defined benefit pension plan subject to the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 2007, Tekni-Plex, Inc. (the Company) approved the merger of The Burlington Plan for Hourly Employees of Burlington Resins, Inc. at Burlington, New Jersey, the Plastic Specialties & Technologies and Affiliates Pension Plan and the Dolco Packaging Corporation Retirement Income Plan (collectively, the Predecessor Plans), into one pension plan, the Tekni-Plex, Inc. Pension Plan. This merger did not impact the participant pension benefits as the benefit provisions of these plans are incorporated into the merged pension plan. The Plan is administered by the Tekni-Plex, Inc. Pension Plan Committee (the Plan Administrator).

The Burlington Plan for Hourly Employees of Burlington Resins, Inc. at Burlington, New Jersey

Eligibility: Pursuant to an interim collective bargaining agreement, participants in and benefit accruals were frozen effective December 31, 2008, for all participants of the former Burlington Plan for Hourly Employees of Burlington Resins, Inc. at Burlington, New Jersey.

Any hourly employee employed at the Company's Burlington, New Jersey plant who was in the collective bargaining unit represented by Local Union No. 8-890 of the Oil, Chemical and Atomic Workers International Union, excluding leased employees as defined under Section 414(n) of the Internal Revenue Code of 1986 (the Code), and who had completed one year of service (1,000 hours during a service computation period), as defined in the Plan Document, was eligible to participate in the Plan.

Participants became fully vested in their Plan benefit upon the earlier of (i) attainment of age 65 or (ii) five years of service.

Normal retirement benefit:

Eligibility: The first day of the calendar month coinciding with or following the 65th birthday of a participant.

Monthly benefit: The benefit rate in effect at termination or retirement date, multiplied by years of credited service, as defined in the Plan Document.

Active Participant on or After	Amount
June 22, 2004	$ 28.00
June 22, 2001	27.50
June 19, 2000	27.00
June 22, 1998	26.00
March 24, 1996	25.00
June 26, 1995	24.00
June 21, 1993	23.00

January 1, 1986	17.00
January 1, 1985	16.00
January 1, 1984	15.00

Note 1. Description of Plan (Continued)

Early retirement benefit:

Early retirement date: The first day of the month following a participant's termination, provided that the participant is at least age 55 and completed at least five years of service.

Monthly benefit: The benefit amount shall be equal to the accrued benefit, actuarially reduced for each year actual retirement precedes the participant's normal retirement date.

Disability benefit: A participant who has at least five years of service and who is found to be totally disabled, as defined in the Plan Document, for a period of six months may be entitled to a disability benefit commencing on the first day of the month after he or she is determined to be disabled and payable until the participant reaches his or her normal retirement date.

Deferred vested benefit: A participant who completes at least five years of service shall be entitled to a deferred vested benefit, as defined in the Plan Document.

Plastic Specialties & Technologies and Affiliates Pension Plan

Eligibility: Effective September 30, 1998, participation in and benefit accruals under the Plan were frozen.

Normal retirement benefit:

Eligibility: The first day of the month following a severance from service, provided one has attained the normal retirement age (age 65) while employed with Plastic Specialties & Technologies, Inc. (PS&T).

Monthly benefit: For participants in the PS&T Plan, the monthly amount payable to a participant receiving normal retirement benefits is the greater of:

a. 1/2 of 1% of compensation during any period in which credited service is received through September 30, 1998; or

b. If the number of years of credited service is at least 15 years, $4.00 multiplied by the number of years of credited service through September 30, 1998.

Late retirement benefit:

Eligibility: The first day of the month following a severance from service after one has attained the normal retirement age (age 65) while employed with PS&T.

Monthly benefit: The amount determined for normal retirement, calculated as of the actual retirement date.

Early retirement benefit:

Eligibility: The first day of the month coincident with or next following a severance from service, provided that one has attained age 55 while employed with PS&T.

Monthly benefit: The participant's vested amount at the time of termination of employment, reduced by 2/10 of 1% for each month over 36 months and 4/10 of 1% for each additional month, up to 84 months by which the benefit commencement date precedes age 65.

Note 1. Description of Plan (Continued)

Disability benefit:

Disability retirement date: The first day of the month following the date a participant incurs a total and permanent disability before normal retirement age.

Monthly benefit: The participant's vested amount as of termination, reduced by 2/10 of 1% for each of the first 36 months, 4/10 of 1% for each additional month up to 84 months by which his or her benefit commencement date precedes age 65.

Deferred vested benefit: If a participant terminates from service, and is vested, he or she will be entitled to a deferred retirement benefit. If the benefit commences prior to age 65, it shall be reduced by 4/10 of 1% for each month, up to 120 months by which the benefit date precedes age 65.

Dolco Packaging Corporation Retirement Income Plan

Eligibility: Participation in the Plan was frozen effective July 1, 1987. Employees of Dolco Packaging Corporation who were not participants in the Plan as of June 30, 1987, shall not become participants in the Plan.

Vesting and benefits: All participants in the Plan are vested. The Normal Retirement Date is the first day of the month coinciding with or next following a participant's 65th birthday. However, for purposes of benefit eligibility, Normal Retirement Date means the participant's 65th birthday. The basic monthly pension payable for life (based on an annual computation) is as follows:

Benefit formula: A participant's normal retirement benefit is equal to the sum of (a), (b), (c) and (d).

a. For 1987, 1.25% of earnings through June 30, 1986, up to 1/4 of 1987 Taxable Wage Base, plus 2% of earnings through June 30, 1986, in excess of 1/4 of the 1987 Taxable Wage Base.

b. For the period January 1, 1974, through December 31, 1982, 1% of earnings up to $13,200, plus 2% of earnings in excess of $13,200.

c. For the period of January 1, 1983, through December 31, 1986, 1.25% of earnings up to 1/2 of the Taxable Wage Base, plus 2% of earnings in excess of the Taxable Wage Base.

d. For participants covered under the Plan as of January 1, 1974, 1% of Past Service Earnings.

The participant's normal retirement benefit as of December 31, 1983, shall not be less than the minimum benefit – 1% of earnings for the calendar year ended December 31, 1983, times years of credited service.

A participant who attains age 60 and completes at least 10 years of credited service is eligible for an early retirement benefit. The participant's benefits will be actuarially reduced for early payment.

The monthly amount payable is the greater of:

1. The participant's accrued benefit as the date of his or her benefit is being determined; or

2. The participant's accrued benefit as of his or her normal retirement date determined using the formula used for normal retirement but based on the participant's earnings and years of credited services as of the earlier of the participant's normal retirement date or July 1, 1987, multiplied by deferred retirement adjustment factor as determined in the Plan Document.

Note 1. Description of Plan (Continued)

Tekni-Plex, Inc. Pension Plan

Eligibility: Any individual who was a participant in a Predecessor Plan on December 31, 2006, became a participant in the Plan on January 1, 2007. The Plan was amended on January 1, 2011 to cease all accruals for pension benefits retroactive to January 1, 2009. Service earned after December 31, 2008, shall not be taken into account in the calculation of pension benefits under the provisions of the Plan.

Normal retirement benefit:

Eligibility: Except to the extent of the Predecessor Plans, the first day of the month coincident with or next following a severance from service, provided that one has attained age 55.

Monthly benefit: The monthly amount shall be a percentage, as indicated in the table below, of the participant's normal retirement benefit based on years of credited service up to his or her retirement date.

Attained Age at Time Payments Commence	Percentage
55	54%
56	58%

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and the actuarial present value of accumulated plan benefits as disclosed in these financial statements. Actual results may differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by its investment advisors and trustees. See Note 6 for a discussion of fair value measurements.

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of the investment securities will occur in the near-term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits payable under all circumstances, retirement, death and termination of employment, are included to the extent they are deemed attributable to employee service rendered as of the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2021. Had the valuations been performed as of December, there would be no material differences.

The significant actuarial assumptions used in the valuation as of January 1, 2021, were:

a. Life expectancy of participants using the Principal Mortality Improvement Scale which is based upon the Society of Actuaries Pri-2012 Blue Collar Mortality Tables with Mortality Improvement Scale MP-2020;

b. Participants are assumed to retire between the ages of 55-70;

c. Assumed rate of return on investments: 5.50%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. For the valuation as of January 1, 2021, changes in actuarial assumptions related to long-term capital markets resulted in an decrease in the actuarial present value of accumulated plan benefits of $403,308.

Payments of benefits: Benefit are recorded when paid.

Note 2. Summary of Significant Accounting Policies (Continued)

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent events: The Plan has evaluated subsequent events (events occurring after December 31, 2021) through October 14, 2022, the date the financial statements were available to be issued.

Note 3. Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The Company did not make a contribution for the years ended December 31, 2021 and 2020.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA.

Note 4. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding the Plan termination.

b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.

c. All other vested benefits (that is, vested benefits not insured by the PBGC).

d. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 5. Information Certified and Provided by Principal Trust Company (Trustee)

The following is a summary of the investment information as of December 31, 2021 and 2020, and for the years then ended, included throughout the Plan's financial statements and ERISA-required supplemental schedules, obtained by management and agreed to or derived from information certified by Principal Trust Company, the trustee of the Plan. The Plan Administrator has obtained certifications from the Trustee that the information provided to the Plan Administrator related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and ERISA-required supplemental schedules related to the following investments:

	2021	2020
Investments at fair value:		
Mutual funds	$ 18,274,819	$ 18,332,670
Pooled separate accounts	7,823,000	7,856,858
	$ 26,097,819	$ 26,189,528
Accrued interest receivable	$ -	$ 21,976

Principal Trust Company also certified to the completeness and accuracy of $2,371,170 and $3,230,215 of net appreciation in fair value of investments and $394,976 and $370,333 of interest and dividends related to the aforementioned investments for the years ended December 31, 2021 and 2020, respectively.

Note 6. Fair Value Measurements

The framework for measuring fair value provided a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under the guidance are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 6. Fair Value Measurements (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Valued on a net unit value basis based on the net assets of the underlying pool of securities. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020:

	Assets at Fair Value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 18,274,819	$ -	$ -	$18,274,819
Investments measured at NAV (a)				7,823,000
				$ 26,097,819

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 18,332,670	$ -	$ -	$18,332,670
Investments measured at NAV (a)				7,856,858
				$ 26,189,528

(a) In accordance with Subtopic 820-10 as amended by ASU 2015-07, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 6. Fair Value Measurements (Continued)

The following table sets forth by additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2021 and 2020:

	Fair Value Estimated Using NAV Per Share				
	Fair Value December 31,		Unfunded	Redemption	Redemption
Investment	2021	2020	Commitment	Frequency	Notice Period
Pooled separate accounts:					
Principal LargeCap Growth I Sep Account-I2	$ 2,346,900	$ 2,357,058	None	Immediate	None
Principal LargeCap S&P 500 Index SA-I4	2,868,434	2,880,848	None	Immediate	None
Principal MidCap S&P 400 Index SA-I4	1,303,833	1,309,476	None	Immediate	None
Liquid Assets Separate Account-R6	1,303,833	1,309,476	None	Immediate	None
Total	$ 7,823,000	$ 7,856,858			

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to the total net assets available for benefits.

Note 7. Related Party and Parties-in-Interest Transactions

Principal Trust Company is the trustee of the Plan; therefore, transactions with the trustee qualify as party-in-interest transactions. For the year ended December 31, 2021, the administrative expenses were paid by the Plan.

Note 8. Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated February 3, 2014, stating that the Plan is qualified under Section 401(k) of the Internal Revenue Code (the Code), and therefore, the related trust is exempt from taxation. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed, and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any significant uncertain tax positions that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to net assets per the Form 5500:

	2021	2020
Net assets available for benefits per the financial statements	$ 26,097,819	$ 26,211,504
Differences in:		
Investments—registered investment companies	-	21,976
Receivables—interest income	-	(21,976)
Net assets per the Form 5500	$ 26,097,819	$ 26,211,504

Note 10. Subsequent Events

Effective January 21, 2022, the Plan Sponsor initiated a transfer of funds of $10,500,000 into a separate trust account in order to execute a liability-driven investment (LDI) strategy. The LDI strategy focuses on matching the current and future liabilities of the Plan in order to help effectively manage portfolio risk and minimize the impact of the Plan to the Plan Sponsor's financial health. The monies are invested in a series of long duration bonds and other lower risk investments that help meet the LDI strategy. The funds are still for the benefit of plan participant's but held with a separate trustee, Banker's Trust.

Assumptions prescribed by law

Mortality

During benefit payment period

IRS Prescribed Mortality - Generational Annuitant, male and female.

Before benefit payment period

IRS Prescribed Mortality - Generational Non-annuitant, male and female.

Assumptions selected by actuary

Inflation

2.25% increase per year.

See Long-Term Capital Market Assumptions link.

Asset return

5.75% for the current plan year.

The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

Expected expense

The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

Disability

1987 Commissioner's Group Disability Table, six-month elimination period, male and female.

We rely on a publicly published table due to the limited size of the plan. The 1987 CGDT was recommended by the Society of Actuaries for pension valuation purposes.

Marriage

80% married; husbands are 3 years older than wives.

This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

25	19.50%	45	7.30%
30	15.50%	50	5.60%
35	12.10%	55	4.20%

We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries, a leading actuarial organization. A multiplier for each group is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.

Wage base increase

3.25% per year.

Real wage growth combined with inflation assumption indicates an economic assumption of social security national wage growth in pension plan valuations. Based on historic real growth in National Average Wages (from 1951) and Social Security estimate of around 1%, our best estimate places this assumption in the range of 0.75% to 1.25% above inflation.

Form of benefit

100% of active participants who are former Dolco participants are assumed to receive benefits as a single lump sum payable immediately for retirement benefits and as a single sum payable at retirement for death, disability, and withdrawal benefits.

The remaining active participants and all inactive participants are assumed to receive a stream of payments at retirement.

This assumption is based on the results of recent experience analysis and anticipated future experience.

Methods prescribed by law

Liability measure

Funding target is the present value of the benefits accrued on the valuation date. Included in Funding Target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)), equal to back payments with interest at 7.00%.

Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

Lump sum payments	Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions. Therefore, plan liabilities do not currently recognize this additional cost and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions.
HCE benefit payment restrictions	A ratio of the plan assets and accrued liability is used to determine if restrictions apply. Assets and accrued liability are as of the valuation date and are reduced by: any retiree benefit index or floor amounts for HCEs who were previously restricted an amount for the retiring HCE The estimated HCE ratio illustrated in this report is based on the market value of plan assets (excluding late deposits) and funding target as of the valuation date. The funding target uses the non-stabilized interest rates as defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods could be used.

Methods selected by plan sponsor

Asset method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.
Segment rates	24-month average with no weighting to prior law basis. Use rates where December is the last month included in the average.
PBGC premium basis	Variable Rate Premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2010 plan year and this method must be used for five years before a change can be made.

Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)
With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality

Based on Pri-2012 Blue collar base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2016-10).

Base rates
Before benefit payment period
Employee amount-weighted, male and female

During benefit payment period
Retiree amount-weighted, male and female

The Society of Actuaries is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Blue collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan and has been selected due to data limitations in identifying contingent survivors. In addition, we believe beneficiary mortality isn't materially different while both participants are alive.

Mortality improvement (MI)
Principal 2016-10 MI scale: this scale is based on MP-2020 study and model issued by SOA with the exception of the following user-selected assumptions:

- 10-year convergence period on age and cohort
- Long-term rates (LTR) assumptions using sex-distinct and age-based rates developed from Social Security Trustees Reports.

See Mortality Documentation for rationale and additional information.

Interest rate used to value liabilities

5.50%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses	No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses. Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer. Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.
Basis for lump sums	Interest rate Based on the three segment yield curve: 3.05%/3.45%/4.35% The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.05%/3.45%/4.35%. For details, see Corporate AA yield in Figure 2 of Long-Term Capital Market Assumptions link. Mortality We have selected the same mortality assumption for lump sum payments, but with a 50/50 blend of male and female total dataset base rates and mortality improvement scales. This reflects the IRS practice of defining lump sum mortality on a unisex basis.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
Tekni-Plex, Inc. Pension Plan
EIN 22-3286312 Plan No. 006

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

(1) Age	(2) Expected Active Headcount	(3) Retirement Rate	(4) Expected Retirements (2)*(3)	(5) Weighted Age (1)*(4)

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan, including the DOL Disability Amendment signed on 03/19/2018.

Burlington hourly plan participants

Plan eligibility

Class	Hourly employees of Burlington Resins, Inc. who are employed in the Burlington, NJ plant and who are included in the collective bargaining unit represented by Local 4-00890 of the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International.

Normal retirement benefit

Age	Attained age 65.
Form	Monthly annuity payable for life for unmarried participants, 50% joint and survivor annuity for married participants (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	For participants terminating employment on or after June 22, 2004, $28.00 multiplied by the number of years of credited service. Benefit accruals were frozen as of 12/31/2008.

Early retirement benefit

Age	Attained age 55.
Service	Five years of credited service.
Form	Same as normal retirement benefit.
Amount	The accrued benefit reduced by 1/2% for each month up to 36 months, and 1/3% for each additional month by which commencement precedes age 65.

Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on normal retirement date actuarially increased to late retirement date or accrued benefit on late retirement date.

Termination benefit

Vesting percentage 100% after five years of vesting service.

Form Same as normal retirement benefit with income deferred until normal retirement date.

Amount Accrued benefit on date of termination multiplied by the vesting percentage.

Disability benefit

Eligibility Total and permanent disability and five years of credited service.

Form Same as normal retirement benefit.

Amount The amount computed as for normal retirement payable immediately.

Death benefit

Eligibility Qualified married participant fully or partially vested in an accrued benefit.

Form Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.

Amount If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Definitions

Optional forms of benefit payments The optional forms of benefit payments are:

- Monthly annuity payable for life, 5 or 10 years certain and life
- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75, or 100
- Single sum payment equal to the present value of the retirement benefit

The optional form conversion basis is 7.5% interest and the UP-1984 Mortality Table for payments other than lump sums.

Former Dolco plan participants

Plan eligibility

Class	A participant who was a participant in the Dolco Plan prior to January 1, 2007 and whose frozen accrued benefit under such plan transferred from the Dolco Plan upon the merger of such plan with this plan.

Normal retirement benefit

Age	Attained age 65.
Form	Monthly annuity payable for life for unmarried participants, 50% joint and survivor annuity for married participants (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	The frozen accrued benefit determined as of December 31, 1987, according to the provisions of the Dolco Packaging Corporation Retirement Income Plan in effect on such date prior to its merger with this plan.

Early retirement benefit

Age	Attained age 60.
Service	10 years of credited service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date actuarially reduced for early payment.

Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on normal retirement date actuarially increased to late retirement date or accrued benefit on late retirement date.

Termination benefit

Vesting percentage	25% after four years of vesting service, 100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date. A participant with 10 years of service may begin payments as of the first day of any month following age 60.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Death benefit

Eligibility Qualified married participant fully or partially vested in an accrued benefit.

Form Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.

Amount If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Definitions

Optional forms of benefit payments The optional forms of benefit payments are:

- Monthly annuity payable for life, or 5 years certain and life
- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75, or 100
- Level income option
- Single sum payment equal to the present value of the retirement benefit

The optional form conversion basis is listed in Appendix A of the plan document.

Former PS&T plan participants

Plan eligibility

Class	Each employee who was a participant in the plan as of September 30, 1998.

Normal retirement benefit

Age	Attained age 65.
Form	Monthly annuity payable for life for unmarried participants, 50% joint and survivor annuity for married participants (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	The frozen accrued benefit determined as of September 30, 1998, according to the provisions of the Plastics Specialties & Technologies and Affiliates Pension Plan in effect on such date, prior to its merger with this plan.

Early retirement benefit

Age	Attained age 55.
Form	Same as normal retirement benefit.
Amount	The participant's vested amount at the time of termination of employment, reduced by 2/10% for each month up to 36 months, plus 4/10% for each month over 36 months by which the benefit commencement date precedes age 65.

Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on normal retirement date actuarially increased to late retirement date or accrued benefit on late retirement date.

Termination benefit

Vesting percentage

Period of service	Vesting percentage
1-1.9999	10%
2-2.9999	20%
3-3.9999	30%
4-4.9999	40%
5-5.9999	60%
6-6.9999	80%
7 or more	100%

If a participant has attained age 60, he or she shall be 100% vested upon completion of a one full year of service.

Form Same as normal retirement benefit with income deferred until normal retirement date.

Amount Accrued benefit on date of termination multiplied by the vesting percentage.

Death benefit

Eligibility Qualified married participant fully or partially vested in an accrued benefit.

Form Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.

Amount If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Definitions

Optional forms of benefit payments The optional forms of benefit payments are:

- Monthly annuity payable for life, 10 years certain and life
- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75, or 100

The optional form conversion basis is 7.0% interest and 1971 Group Annuity Mortality Table 50/50 weighted for payments other than lump sums.

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.
