Responsibilities

Our responsibilities

As your independent auditor, our responsibilities include:

- Planning and performing the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. Reasonable assurance is a high level of assurance.
- Assessing the risks of material misstatement of the financial statements, whether due to fraud or error. Included in that assessment is a consideration of the Plan's internal control over financial reporting.
- Performing appropriate procedures based upon our risk assessment.
- Evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management.
- Perform an audit in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act (ERISA) of SSI Sintered Specialties, LLC Savings and Retirement Plan.
- Our audit does not relieve those charged with governance of their responsibilities.

We are also required to communicate significant matters related to our audit that are relevant to the responsibilities of those charged with governance, including:

- Internal control matters
- Qualitative aspects of SSI Sintered Specialties, LLC Savings and Retirement Plan (the Plan) accounting practice including policies, accounting estimates and financial statement disclosures
- Significant unusual transactions
- Significant difficulties encountered
- Disagreements with management
- Circumstances that affect the form and content of the auditors' report
- Audit consultations outside the engagement team
- Corrected and uncorrected misstatements
- Other audit findings or issues

Audit status

Significant changes to the audit plan

There were no significant changes made to either our planned audit strategy or to the significant risks and other areas of emphasis identified during the performance of our risk assessment procedures.

THIS COMMUNICATION IS INTENDED SOLELY FOR THE INFORMATION AND USE OF THOSE CHARGED WITH GOVERNANCE, AND, IF APPROPRIATE, MANAGEMENT, AND IS NOT INTENDED TO BE AND SHOULD NOT BE USED BY ANYONE OTHER THAN THESE SPECIFIED PARTIES.

Audit approach and results

Planned scope and timing

Audit focus

Based on our understanding of the Plan and environment in which you operate, we focused our audit on the following key areas:

- Internal control over financial reporting and related tests of controls, including the risk of management override of controls.
- Payroll and participant data processing
- Fair value measurements and disclosures
- Revenue recognition related to contributions and investment income at the plan and participant level, where applicable
- Notes receivable from participants, including testing of appropriate documentation and compliance under the statutory exemption
- Benefit payment testing, including the appropriateness of the payment to eligible participants and compliance with plan documents.
- Changes to plan provisions, acquisitions and/or plan mergers, and changes to service providers, if any.
- Other areas/risks based on discussion with management

Our areas of audit focus were informed by, among other things, our assessment of materiality. Materiality in the context of our audit was determined based on specific qualitative and quantitative factors combined with our expectations about the Plan's current year results.

In respect to compliance testing, the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act (ERISA) do not permit for a materiality threshold.

Key areas of focus and significant findings

Significant risks of material misstatement

A significant risk is an identified and assessed risk of material misstatement that, in the auditor's professional judgment, requires special audit consideration. Within our audit, we focused on the following areas below.

Significant risk areas	Testing approach	Conclusion
Management override of controls	Internal control walkthroughs and inquiry, and review of historical and current circumstances surrounding the Plan	No material issues noted
Improper revenue recognition due to fraud	Obtained certification for investment income, performed analytics on investment returns, tested allocation of investment income as allocated to participants, and tested participant and Company contributions at the participant level for accuracy	No material issues noted
Not operating the plan in accordance with plan provisions	Tested key areas of plan compliance (as noted below)	See findings below

Other areas of emphasis

We also focused on other areas that did not meet the definition of a significant risk, but were determined to require specific awareness and a unique audit response.

Other areas of emphasis	Testing approach	Conclusion
Internal controls over financial reporting and related test of controls	Internal control walkthroughs and inquiries with management and plan personnel. Test of controls include payroll review and reconciliation and wage rate approval.	No material issues noted
Payroll and participant data processing	Selected a sample from the Plan to ensure participants are properly enrolled in the Plan and contributions are properly allocated.	No material issues noted
Fair value measurements and disclosures	Obtained reports from the custodian on fair value measurements.	No material issues noted
Benefit payment testing, including the appropriateness of the payment to eligible participants and compliance with plan documents	Selected a sample from the Plan to ensure benefit payments were appropriate.	No material issues noted

Changes to Plan provisions	Reviewed Plan amendments and disclosed any significant changes.	No material issues noted
Contribution timeliness	Obtained a list of contributions by payroll and compared the date payroll was paid to the date received by the custodian.	No material issues noted
Notes receivable from participants, including testing of appropriate documentation and compliance under the statutory exemption.	Selected a sample from the Plan to ensure notes receivable are properly stated.	No material issues noted

Internal control matters

In planning and performing our audit of the financial statements, we considered the Plan's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing an opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified.

A material weakness is a deficiency or combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

We identified the following deficiency as a significant deficiency:

- The Internal control system, as defined by U.S. GAAS, includes the system in place to prepare the financial statements, including applicable disclosures, in accordance with accounting principles generally accepted in the United States of America. The plan sponsor relies on us to prepare the financial statements for the plan

Required communications

Qualitative aspect of accounting practices

- Accounting policies: Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we have advised management about the appropriateness of accounting policies and their application. The significant accounting policies used by the Plan are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing accounting policies was not changed during 2021. We noted no transactions entered into by the Plan during the year for which accounting policies are controversial or for which there is a lack of authoritative guidance or consensus or diversity in practice.
- Accounting estimates: Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements, the degree of subjectivity involved in their development and because of the possibility that future events affecting them may differ significantly from those expected. The following estimates are of most significance to the financial statements:

Estimate	Management's process to determine	Baker Tilly's conclusions regarding reasonableness
Fair Value of Investments	Management relies on the custodian to appropriately value the investments.	Baker Tilly obtained a certification from the trustee regarding the completeness and accuracy of the reported investments.

There have been no significant changes made by management to either the processes used to develop the particularly sensitive accounting estimates, or to the significant assumptions used to develop the estimates, noted above.

- Financial statement disclosures: The disclosures in the financial statements are neutral, consistent and clear.

Significant unusual transactions

There have been no significant transactions that are outside the normal course of business for the Plan or that otherwise appear to be unusual due to their timing, size or nature.

Significant difficulties encountered during the audit

We encountered no significant difficulties in dealing with management and completing our audit.

Disagreements with management

Professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Audit report

There have been no departures from the auditors' standard report.

Audit consultations outside the engagement team

We encountered no difficult or contentious matters for which we consulted outside of the engagement team.

Uncorrected misstatements and corrected misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. There were no misstatements identified.

Other audit findings or issues

We encountered no other audit findings or issues that require communication at this time. We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Management's consultations with other accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing or accounting matters.

Written communications between management and Baker Tilly

The Appendix includes a copy of the signed management representation letter obtained from management.

Compliance with laws and regulations

We did not identify any non-compliance with laws and regulations during our audit.

Fraud

We did not identify any known or suspected fraud during our audit.

Going concern

Pursuant to professional standards, we are required to communicate to you, when applicable, certain matters relating to our evaluation of the Plan's ability to continue as a going concern for a reasonable period of time but no less than 12 months from the date the financial statements are issued or available to be issued, including the effects on the financial statements and the adequacy of the related disclosures, and the effects on the auditor's report. No such matters or conditions have come to our attention during our engagement.

Independence

We are not aware of any relationships between Baker Tilly and the Plan that, in our professional judgment, may reasonably be thought to bear on our independence.

Related parties

We did not have any significant findings or issues arise during the audit in connection with the Plan's related parties.

Form 5500

We obtained and read the draft Form 5500 prior dating our report. We noted no material inconsistencies with the audited plan financial statements.

Other matters

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or the financial statements themselves.

During our audit, we noted certain matters that are presented for your consideration. Our comments and recommendations are intended to improve the internal control or result in other operating efficiencies. We will be pleased to discuss these comments in further detail at your convenience. Our comments are summarized as follows:

Payroll Approvals

It was noted during testing that there was limited documentation on file for the approval of payrolls paid in 2021. We recommend that once the payroll ledgers are reviewed, the reviewer signs them and keeps them on file.

Wage Rate Approvals

It was noted during testing that documentation of wage rate approvals was not maintained for a number of employees. Without evidence of an employees approved rate, confusion could arise in the event of a wage dispute. We recommend attaining wage rate approvals for all employees and keeping them in their personnel file.

Auto Escalation

It was noted during testing that the Plan has been auto-escalating participants as of May 1st. The plan document states that participants are to be auto escalated as of April 1st. We recommend contacting Fidelity and clarifying the proper date employees should be auto escalated.

Review of SOC Reports

Service Organization Control (SOC) Reports are not reviewed by Plan management. With a significant portion of the plan activity being outsourced to service providers, management places a heavy amount of reliance on controls of service providers in performing operations of the plan. We recommend that management review SOC reports on an annual basis for service providers of the Plan to identify controls that could be lacking at the service provider, and to stay current with controls the service provider recommends the client to have in place.

Census reconciliation to ADP

In the reconciliation process as a part of our audit, we noted variances between ADP and Fidelity related to employer matching contributions. A large majority of these were due to a duplicate payroll from April 2021 that was remitted to the plan in April as a part of the first quarter match and then again in July as a part of the second quarter match. We recommend working with Fidelity to determine whether a correction _needs to be made in addition to putting into place a control to perform a tie-out between ADP and Fidelity records at least annually.

Nonattest services

The following nonattest services were provided by Baker Tilly:

- Preparation of the Plan's financial statements
- Preparation of journal entries to convert financial information from modified cash basis to GAAP
- Preparation of trial balance from trust statements

SSI Sintered Specialties, LLC Savings and Retirement Plan

Notes to Financial Statements
December 31, 2021 and 2020

1. Description of the Plan

The following description of the SSI Sintered Specialties, LLC Savings and Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of SSI Sintered Specialties, LLC (the Company), and SSI Technologies Holdings Inc., a related employer, who have completed at least two months of services with the Company, as defined in the Plan, and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's administrators are responsible for the oversight of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to 60% of annual compensation, as defined in the plan document, up to the maximum limits of the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation, with automatic increases of 1% annually thereafter for those employees who do not otherwise opt out, up to a maximum of 10% deferrals. Automatically enrolled participants' contributions are invested in a designated balanced fund until changed by the participant.

The Company match is discretionary and was 50% of the employee's deferral, up to a maximum of 5% of eligible compensation for the year ended December 31, 2021, which totaled \$384,760.

Additional amounts may be contributed at the option of the Company's Board of Directors for eligible employees employed on the last day of the plan year, as defined in the plan document. No discretionary profit sharing contribution was made for the year ended December 31, 2021.

Participants direct the investment of all contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollover contributions, and Company matching contributions, as well as an allocation of the Company's discretionary profit sharing contribution and Plan's earnings (net of expenses). Allocations are based on the participant's eligible compensation or account balances, or specific participant transactions, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

SSI Sintered Specialties, LLC Savings and Retirement Plan

Notes to Financial Statements
December 31, 2021 and 2020

Vesting

Participants are immediately vested in their salary reduction and rollover contributions, plus actual earnings thereon. Participants who leave the Plan because of death, retirement, or disability, as defined in the plan document, are considered 100% vested in their total account balances. Company matching contributions and Company discretionary profit sharing contributions and earnings thereon vest in accordance with provisions of the Plan as follows:

<u>Years of Service</u>	<u>Percentage</u>
Less than 1	0 %
1, but less than 2	25 %
2, but less than 3	50 %
3 or more	100 %

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 6.50% at December 31, 2021, which are commensurate with local prevailing rates at inception of the loan as determined by the plan administrator. Principal and interest is paid through regular payroll deductions. Terms range from one to five years or greater for the purchase of a primary residence.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement, or termination of employment, as defined in the plan document. The Plan provides for normal retirement at age 62. The total vested portion of a participant's account balance is distributed in the form of a lump sum payment or installments.

In-service distributions are available from the vested portion of participant accounts, subject to certain requirements and limitations, to participants attaining the age of 59 1/2. Participants experiencing a financial hardship may withdraw a portion of their account balance from participant contributions if certain criteria are met, as defined in the plan document.

Forfeited Accounts

At December 31, 2021 and 2020, forfeited nonvested accounts totaled \$3,730 and \$142, respectively. These accounts will be used to reduce future Company contributions or to pay plan expenses, as defined in the plan document. Contributions from the Company were reduced by \$4,218 during the year ended December 31, 2021.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation of investments includes the gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2021 and 2020. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan; unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through REPORT DATE, the date that the financial statements were available to be issued.

The Plan was amended effective February 1, 2022 to change the eligibility service requirement from two months to one month and add catch-up contributions to be included in the employer match calculation.

The Plan was amended again effective June 20, 2022 to update the name of the Plan to DSB Technologies, LLC Savings and Retirement Plan as well as the Employer's name to DSB Technologies, LLC.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily quoted net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The common collective trust fund is valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Notes to Financial Statements

December 31, 2021 and 2020

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021 and 2020:

Assets at Fair Value as of December 31, 2021				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 19,613,820	\$ -	\$ -	\$ 19,613,820
Investment measured at NAV (a)				497,567
Investments at fair value				<u>\$ 20,111,387</u>

Assets at Fair Value as of December 31, 2020				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 16,996,159	\$ -	\$ -	\$ 16,996,159
Investment measured at NAV (a)				882,108
Investments at fair value				<u>\$ 17,878,267</u>

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

Investments Measured Using NAV per Share Practical Expedient

The following tables summarize investments measured at fair value based on NAV per share as of December 31, 2021 and 2020. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2021				
	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Wells Fargo Stable Value Fund	\$ 497,567	\$ -	Daily	(b)

SSI Sintered Specialties, LLC Savings and Retirement Plan

Notes to Financial Statements

December 31, 2021 and 2020

December 31, 2020				
	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently eligible)</u>	<u>Redemption Notice Period</u>
Wells Fargo Stable Value Fund	\$ 882,108	\$ -	Daily	(b)

- (b) A participating trust is required to give the collective fund trustee 12 months' irrevocable written notice of intent to redeem all or a portion of its participation in the collective trust fund. A participating trust may redeem units at any time upon 10 business days' notice at the lesser of the market value or the contract value of the redeemed units.

4. Administration of Plan Assets

The Plan's assets are administered under a contract with Fidelity Management Trust Company, the trustee of the Plan. The trustee invests funds received from contributions, investment sales, interest and dividend income and makes distribution payments to participants.

5. Related Party and Party In Interest Transactions

Certain of the Plan's investments are managed by the trustee, and therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in the fair value of the investment, as they are paid through revenue sharing, rather than direct payment. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party in interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their Company contributions.

7. Tax Status

The Plan adopted a pre-approved defined contribution plan offered by FMR LLC. The pre-approved defined contribution plan received an advisory letter dated June 30, 2020, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

SSI Sintered Specialties, LLC Savings and Retirement Plan

Notes to Financial Statements
December 31, 2021 and 2020

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

The Plan had investments that were concentrated in three funds totaling \$9,069,455 and \$8,091,437, respectively as of December 31, 2021 and 2020.

9. Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2021 and 2020. Accordingly, the trustee of the Plan has certified to the completeness and accuracy of all investments and notes receivable from participants reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2021 and 2020 and the supplemental Schedule H, Line 4(i), Schedule of Assets (Held at End of Year) as of December 31, 2021, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2021.
