Independent Auditor's Report

To the Plan Committee and Participants of
Florida Cancer Specialists, P.L. 401(k) Profit Sharing Plan & Trust
Fort Myers, Florida

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of the Florida Cancer Specialists, P.L. 401(k) Profit Sharing Plan & Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) audit. The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at Year-End) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 15, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

December 31, 2021

I. Description of the Plan

The following description of Florida Cancer Specialists, P.L. 401(k) Profit Sharing Plan & Trust (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Florida Cancer Specialists, P.L. (the Plan Sponsor) established the Plan on October 1, 1994. The Plan is a defined contribution Single Employer Safe Harbor 401(k) plan covering all eligible employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was updated and restated effective September 30, 2017.

Eligibility

Employees are eligible to participate in the Plan beginning the first month of the calendar quarter immediately after they attain eighteen years of age and accrue six months of service.

Plan Amendment

Effective January 1, 2021, the Plan was amended to decrease the time in service required for employees to participate in the Plan from one year to six months of service with the Plan Sponsor.

Participant Accounts

Each participant's account is credited with the participant's contributions, an allocation of employer contributions and the Plan's earnings and losses and expenses as defined by the Plan. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Contributions

Each year, participants may contribute up to 100 percent of eligible wages, subject to certain dollar limits established by the current applicable section of the Internal Revenue Code (IRC). The total annual participant deferral contribution for 2021 is limited to \$19,500. Employees who have reached the age of 50 before the end of the Plan year are eligible to make catch-up contributions. For 2021, the annual catch-up contribution limit was \$6,500.

The Plan Sponsor is required to make "Safe Harbor" matching contributions equal to 100% of the first 3% of compensation contributed to the Plan by eligible employees, and 50% of the next 2% of compensation contributed to the Plan by eligible employees each year. Matching contributions shall not exceed 4% of the participant's compensation.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon as well as any qualified non-elective contributions and "Safe Harbor" contributions made by the Plan Sponsor. Upon termination of employment for any reason prior to being fully vested, a participant is entitled to that portion of their account equal to their accumulated salary deferrals and the related investment income. Regardless of other factors, participants are immediately vested in their salary deferrals. Participants vest 100% in any employer contributions in excess of the "Safe Harbor" provision after the completion of three years of credited service. The Plan has adopted a three-year cliff vesting schedule in accordance with the Pension Protection Act of 2006. As such, there is no vesting in additional matching or profit-sharing employer contributions until completion of three years of service and then 100% vesting after completion of three years of service. Participants are 100% vested upon attainment of age 65, normal retirement age, as defined.

I. Description of the Plan (Continued)

Investment Options

Upon enrollment in the Plan, participants may direct the investment of their contributions and the plan sponsor's contributions into various investments offered by the Plan.

Allocation of Investment Income

The allocation of earnings and losses of the funds shall be allocated in the same proportion that each participant's non-segregated accounts bear to the total of all participants' non-segregated accounts as of such date. Participants' accounts shall be credited with any dividends or interest received.

Plan Expenses

Reasonable administrative expenses of the Plan may be paid by the Plan to the extent not paid by the Company. Investment expenses shall be allocated among all participants by charging each particular expense to the account balance of the participant responsible for the expense. Fees paid by the Plan for the year ended December 31, 2021 total \$285,029.

Forfeitures

As of December 31, 2021, there were \$35,359 in forfeited amounts from non-vested amounts in accounts of participants who terminated employment. Forfeitures are allocated in the plan year when the forfeiture occurs. Forfeitures may be used to pay Plan expenses or to reduce amounts otherwise required to be contributed to the Plan. During the year ended December 31, 2021, the Plan recognized \$5,438 in new forfeitures and used \$56,545 in forfeited accounts to reduce the employer contributions.

Benefits Paid to Participants

Upon termination of service, retirement or disability, a participant may, with spousal consent, elect to receive a lump-sum amount equal to the amount of their account with a mandatory distribution threshold of \$1,000. Normal retirement age, as defined by the Plan, is age 65. Upon attainment of age 59½, certain benefits of fully vested employees may be received prior to termination of service. Benefits are also available upon determination of qualified hardship as well as upon death of the participant.

Hardship Distributions

Hardship distributions are permitted by the Plan for participants to satisfy certain immediate and heavy financial needs for allowable expenditures.

Notes Receivable from Participants

Participants may borrow from their individual fund accounts at a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account or \$50,000 reduced by any outstanding loan balance. A participant is permitted to have a maximum of one loan outstanding at any one time. The loans are collateralized by 50% of the participant's account balance and bear interest at prime plus 1%. The loans bear interest at rates that range from 4.25% to 6.50%, which are commensurate with local prevailing rates as determined by the plan administrator. As of December 31, 2021 and 2020, the Plan had notes receivable from participants with principal balances totaling \$2,509,387 and \$2,508,112, respectively, which are included with other assets in the accompanying statements of net assets available for benefits.

The Plan uses the direct write-off method and declares a deemed distribution in the year in which the participant is in default. Deemed distributions totaled \$25,012 and \$51,289 for the years ended December 31, 2021 and 2020, respectively and are included in benefits paid to participants on the statement of changes to net assets available for benefits.

1. Description of the Plan (Continued)

Plan Termination

Although it has not expressed any intention to do so, the plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. However, no such action may deprive any participant or beneficiary under the Plan of any vested right.

2. Summary of Accounting Policies

Financial Statements

The Plan's financial statements and notes are representations of the Company's management, who is responsible for their integrity and objectivity. The accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of certain assets, liabilities and disclosures. Accordingly, the actual amounts could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Fair Value Measurement

The Company adopted the Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification for fair value measurements of financial assets and financial liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Fair Value Measurements and Disclosures Topic established a single authoritative definition of fair value, sets a framework for measuring fair value, and requires additional disclosures about fair value measurement. The financial statements reflect the adoption of the Fair Value Measurements and Disclosures Topic.

Investment Valuation and Income Recognition

At December 31, 2021 and 2020, the Plan's investments were held in various registered investment companies, common collective trusts, money market and mutual funds and are stated at fair value. The net appreciation in fair value of investments includes realized and unrealized gains and losses on the fair value of investments held by the Plan. Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded when received.

Net Appreciation in the Fair Value of Investments

The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation in the fair value of its investments. This amount consists of realized gains and losses and unrealized appreciation and depreciation of those investments.

Financial Instruments Not Measured at Fair Value

The Plan's financial instruments that are not measured at fair value on the recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature include cash equivalents held in money market accounts.

2. Summary of Accounting Policies (Continued)

Benefits Paid to Participants

Benefits are recorded when paid.

3. Information Certified and Provided by Vanguard Fiduciary Trust Company

The plan administrator has elected the method of compliance permitted pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employment Retirement Security Act of 1974. Accordingly, Vanguard Fiduciary Trust Company, the Plan trustee, has certified that all of the investments and investment-related activity presented in the statements of net assets available for benefits, statement of changes in net assets available for benefits and supplemental schedule of assets held as of and for the year ended December 31, 2021 is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments as of December 31:

	2021	2020
Investments, at fair value	\$ 225,229,361	\$ 186,687,139
Notes receivable from participants	\$ 2,509,387	\$ 2,508,112

The Trustee also certified to the completeness and accuracy of net appreciation in fair value of investments of \$18,439,107, interest income related to notes receivable from participants of \$115,760 and interest and dividends of \$6,445,991 for the year ended December 31, 2021.

4. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification provides enhanced guidance for using fair value to measure assets and liabilities and clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the assets or liabilities and establishes a hierarchy that prioritizes the information used to develop those assumptions. The hierarchy gives the highest priority to unadjusted quoted prices in active markets (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The three levels for measuring fair value are based on the reliability of inputs and are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quote prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Florida Cancer Specialists, P.L.
401(k) Profit Sharing Plan & Trust
Notes to Financial Statements (Continued)
December 31, 2021

4. Fair Value Measurements (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value for the years ended December 31, 2021 and 2020.

Registered investment companies, common trusts, equities and bonds: Valued at a daily calculated net asset value (NAV) available on an active markets at the Plan year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Party-In-Interest Transactions

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. The cash reserve account and several fund options are managed by the custodian. Transactions related to this investment qualify as party-in-interest transactions. The supplemental Schedule of Assets (Held at End of Year) identifies these investments as of December 31, 2021. Investments held by parties-in-interest are approximately 82.37% and 80.93% of the Plan's net assets as of December 31, 2021 and 2020, respectively. Fees paid to the custodian by the Plan for services amounted to \$285,029 for the year ended December 31, 2021.

Certain administrative functions are performed by shareholders and/or employees of the Plan Sponsor. No such shareholder or employee receives compensation from the Plan. These transactions also qualify as party-in-interest transactions.

6. Income Tax Status

The Plan has adopted a volume submitter 401(k) profit sharing plan. The Plan has received an opinion letter from the Internal Revenue Service letter dated March 31, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2021, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is subject to income tax examinations for the 2018 through 2021 plan years.

7. Risks and Uncertainties

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

8. Subsequent Events

The Plan has evaluated all events subsequent to the statement of net assets available for benefits as of December 31, 2021 through the date that these financial statements were available for issuance, October 17, 2022, and have determined that there are no subsequent events that require disclosure.

Independent Auditor's Report

To the Plan Committee and Participants of
Florida Cancer Specialists, P.L. 401(k) Profit Sharing Plan & Trust
Fort Myers, Florida

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of the Florida Cancer Specialists, P.L. 401(k) Profit Sharing Plan & Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) audit. The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at Year-End) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 15, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

December 31, 2021

I. Description of the Plan

The following description of Florida Cancer Specialists, P.L. 401(k) Profit Sharing Plan & Trust (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Florida Cancer Specialists, P.L. (the Plan Sponsor) established the Plan on October 1, 1994. The Plan is a defined contribution Single Employer Safe Harbor 401(k) plan covering all eligible employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was updated and restated effective September 30, 2017.

Eligibility

Employees are eligible to participate in the Plan beginning the first month of the calendar quarter immediately after they attain eighteen years of age and accrue six months of service.

Plan Amendment

Effective January 1, 2021, the Plan was amended to decrease the time in service required for employees to participate in the Plan from one year to six months of service with the Plan Sponsor.

Participant Accounts

Each participant's account is credited with the participant's contributions, an allocation of employer contributions and the Plan's earnings and losses and expenses as defined by the Plan. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Contributions

Each year, participants may contribute up to 100 percent of eligible wages, subject to certain dollar limits established by the current applicable section of the Internal Revenue Code (IRC). The total annual participant deferral contribution for 2021 is limited to \$19,500. Employees who have reached the age of 50 before the end of the Plan year are eligible to make catch-up contributions. For 2021, the annual catch-up contribution limit was \$6,500.

The Plan Sponsor is required to make "Safe Harbor" matching contributions equal to 100% of the first 3% of compensation contributed to the Plan by eligible employees, and 50% of the next 2% of compensation contributed to the Plan by eligible employees each year. Matching contributions shall not exceed 4% of the participant's compensation.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon as well as any qualified non-elective contributions and "Safe Harbor" contributions made by the Plan Sponsor. Upon termination of employment for any reason prior to being fully vested, a participant is entitled to that portion of their account equal to their accumulated salary deferrals and the related investment income. Regardless of other factors, participants are immediately vested in their salary deferrals. Participants vest 100% in any employer contributions in excess of the "Safe Harbor" provision after the completion of three years of credited service. The Plan has adopted a three-year cliff vesting schedule in accordance with the Pension Protection Act of 2006. As such, there is no vesting in additional matching or profit-sharing employer contributions until completion of three years of service and then 100% vesting after completion of three years of service. Participants are 100% vested upon attainment of age 65, normal retirement age, as defined.

I. Description of the Plan (Continued)

Investment Options

Upon enrollment in the Plan, participants may direct the investment of their contributions and the plan sponsor's contributions into various investments offered by the Plan.

Allocation of Investment Income

The allocation of earnings and losses of the funds shall be allocated in the same proportion that each participant's non-segregated accounts bear to the total of all participants' non-segregated accounts as of such date. Participants' accounts shall be credited with any dividends or interest received.

Plan Expenses

Reasonable administrative expenses of the Plan may be paid by the Plan to the extent not paid by the Company. Investment expenses shall be allocated among all participants by charging each particular expense to the account balance of the participant responsible for the expense. Fees paid by the Plan for the year ended December 31, 2021 total \$285,029.

Forfeitures

As of December 31, 2021, there were \$35,359 in forfeited amounts from non-vested amounts in accounts of participants who terminated employment. Forfeitures are allocated in the plan year when the forfeiture occurs. Forfeitures may be used to pay Plan expenses or to reduce amounts otherwise required to be contributed to the Plan. During the year ended December 31, 2021, the Plan recognized \$5,438 in new forfeitures and used \$56,545 in forfeited accounts to reduce the employer contributions.

Benefits Paid to Participants

Upon termination of service, retirement or disability, a participant may, with spousal consent, elect to receive a lump-sum amount equal to the amount of their account with a mandatory distribution threshold of \$1,000. Normal retirement age, as defined by the Plan, is age 65. Upon attainment of age 59½, certain benefits of fully vested employees may be received prior to termination of service. Benefits are also available upon determination of qualified hardship as well as upon death of the participant.

Hardship Distributions

Hardship distributions are permitted by the Plan for participants to satisfy certain immediate and heavy financial needs for allowable expenditures.

Notes Receivable from Participants

Participants may borrow from their individual fund accounts at a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account or \$50,000 reduced by any outstanding loan balance. A participant is permitted to have a maximum of one loan outstanding at any one time. The loans are collateralized by 50% of the participant's account balance and bear interest at prime plus 1%. The loans bear interest at rates that range from 4.25% to 6.50%, which are commensurate with local prevailing rates as determined by the plan administrator. As of December 31, 2021 and 2020, the Plan had notes receivable from participants with principal balances totaling \$2,509,387 and \$2,508,112, respectively, which are included with other assets in the accompanying statements of net assets available for benefits.

The Plan uses the direct write-off method and declares a deemed distribution in the year in which the participant is in default. Deemed distributions totaled \$25,012 and \$51,289 for the years ended December 31, 2021 and 2020, respectively and are included in benefits paid to participants on the statement of changes to net assets available for benefits.

1. Description of the Plan (Continued)

Plan Termination

Although it has not expressed any intention to do so, the plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. However, no such action may deprive any participant or beneficiary under the Plan of any vested right.

2. Summary of Accounting Policies

Financial Statements

The Plan's financial statements and notes are representations of the Company's management, who is responsible for their integrity and objectivity. The accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of certain assets, liabilities and disclosures. Accordingly, the actual amounts could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Fair Value Measurement

The Company adopted the Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification for fair value measurements of financial assets and financial liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Fair Value Measurements and Disclosures Topic established a single authoritative definition of fair value, sets a framework for measuring fair value, and requires additional disclosures about fair value measurement. The financial statements reflect the adoption of the Fair Value Measurements and Disclosures Topic.

Investment Valuation and Income Recognition

At December 31, 2021 and 2020, the Plan's investments were held in various registered investment companies, common collective trusts, money market and mutual funds and are stated at fair value. The net appreciation in fair value of investments includes realized and unrealized gains and losses on the fair value of investments held by the Plan. Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded when received.

Net Appreciation in the Fair Value of Investments

The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation in the fair value of its investments. This amount consists of realized gains and losses and unrealized appreciation and depreciation of those investments.

Financial Instruments Not Measured at Fair Value

The Plan's financial instruments that are not measured at fair value on the recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature include cash equivalents held in money market accounts.

2. Summary of Accounting Policies (Continued)

Benefits Paid to Participants

Benefits are recorded when paid.

3. Information Certified and Provided by Vanguard Fiduciary Trust Company

The plan administrator has elected the method of compliance permitted pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employment Retirement Security Act of 1974. Accordingly, Vanguard Fiduciary Trust Company, the Plan trustee, has certified that all of the investments and investment-related activity presented in the statements of net assets available for benefits, statement of changes in net assets available for benefits and supplemental schedule of assets held as of and for the year ended December 31, 2021 is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments as of December 31:

	2021	2020
Investments, at fair value	\$ 225,229,361	\$ 186,687,139
Notes receivable from participants	\$ 2,509,387	\$ 2,508,112

The Trustee also certified to the completeness and accuracy of net appreciation in fair value of investments of \$18,439,107, interest income related to notes receivable from participants of \$115,760 and interest and dividends of \$6,445,991 for the year ended December 31, 2021.

4. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification provides enhanced guidance for using fair value to measure assets and liabilities and clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the assets or liabilities and establishes a hierarchy that prioritizes the information used to develop those assumptions. The hierarchy gives the highest priority to unadjusted quoted prices in active markets (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The three levels for measuring fair value are based on the reliability of inputs and are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quote prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Florida Cancer Specialists, P.L.
401(k) Profit Sharing Plan & Trust
Notes to Financial Statements (Continued)
December 31, 2021

4. Fair Value Measurements (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value for the years ended December 31, 2021 and 2020.

Registered investment companies, common trusts, equities and bonds: Valued at a daily calculated net asset value (NAV) available on an active markets at the Plan year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Party-In-Interest Transactions

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. The cash reserve account and several fund options are managed by the custodian. Transactions related to this investment qualify as party-in-interest transactions. The supplemental Schedule of Assets (Held at End of Year) identifies these investments as of December 31, 2021. Investments held by parties-in-interest are approximately 82.37% and 80.93% of the Plan's net assets as of December 31, 2021 and 2020, respectively. Fees paid to the custodian by the Plan for services amounted to \$285,029 for the year ended December 31, 2021.

Certain administrative functions are performed by shareholders and/or employees of the Plan Sponsor. No such shareholder or employee receives compensation from the Plan. These transactions also qualify as party-in-interest transactions.

6. Income Tax Status

The Plan has adopted a volume submitter 401(k) profit sharing plan. The Plan has received an opinion letter from the Internal Revenue Service letter dated March 31, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2021, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is subject to income tax examinations for the 2018 through 2021 plan years.

7. Risks and Uncertainties

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

8. Subsequent Events

The Plan has evaluated all events subsequent to the statement of net assets available for benefits as of December 31, 2021 through the date that these financial statements were available for issuance, October 17, 2022, and have determined that there are no subsequent events that require disclosure.

Independent Auditor's Report

To the Plan Committee and Participants of
Florida Cancer Specialists, P.L. 401(k) Profit Sharing Plan & Trust
Fort Myers, Florida

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of the Florida Cancer Specialists, P.L. 401(k) Profit Sharing Plan & Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) audit. The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at Year-End) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 15, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

December 31, 2021

I. Description of the Plan

The following description of Florida Cancer Specialists, P.L. 401(k) Profit Sharing Plan & Trust (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Florida Cancer Specialists, P.L. (the Plan Sponsor) established the Plan on October 1, 1994. The Plan is a defined contribution Single Employer Safe Harbor 401(k) plan covering all eligible employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was updated and restated effective September 30, 2017.

Eligibility

Employees are eligible to participate in the Plan beginning the first month of the calendar quarter immediately after they attain eighteen years of age and accrue six months of service.

Plan Amendment

Effective January 1, 2021, the Plan was amended to decrease the time in service required for employees to participate in the Plan from one year to six months of service with the Plan Sponsor.

Participant Accounts

Each participant's account is credited with the participant's contributions, an allocation of employer contributions and the Plan's earnings and losses and expenses as defined by the Plan. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Contributions

Each year, participants may contribute up to 100 percent of eligible wages, subject to certain dollar limits established by the current applicable section of the Internal Revenue Code (IRC). The total annual participant deferral contribution for 2021 is limited to \$19,500. Employees who have reached the age of 50 before the end of the Plan year are eligible to make catch-up contributions. For 2021, the annual catch-up contribution limit was \$6,500.

The Plan Sponsor is required to make "Safe Harbor" matching contributions equal to 100% of the first 3% of compensation contributed to the Plan by eligible employees, and 50% of the next 2% of compensation contributed to the Plan by eligible employees each year. Matching contributions shall not exceed 4% of the participant's compensation.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon as well as any qualified non-elective contributions and "Safe Harbor" contributions made by the Plan Sponsor. Upon termination of employment for any reason prior to being fully vested, a participant is entitled to that portion of their account equal to their accumulated salary deferrals and the related investment income. Regardless of other factors, participants are immediately vested in their salary deferrals. Participants vest 100% in any employer contributions in excess of the "Safe Harbor" provision after the completion of three years of credited service. The Plan has adopted a three-year cliff vesting schedule in accordance with the Pension Protection Act of 2006. As such, there is no vesting in additional matching or profit-sharing employer contributions until completion of three years of service and then 100% vesting after completion of three years of service. Participants are 100% vested upon attainment of age 65, normal retirement age, as defined.

I. Description of the Plan (Continued)

Investment Options

Upon enrollment in the Plan, participants may direct the investment of their contributions and the plan sponsor's contributions into various investments offered by the Plan.

Allocation of Investment Income

The allocation of earnings and losses of the funds shall be allocated in the same proportion that each participant's non-segregated accounts bear to the total of all participants' non-segregated accounts as of such date. Participants' accounts shall be credited with any dividends or interest received.

Plan Expenses

Reasonable administrative expenses of the Plan may be paid by the Plan to the extent not paid by the Company. Investment expenses shall be allocated among all participants by charging each particular expense to the account balance of the participant responsible for the expense. Fees paid by the Plan for the year ended December 31, 2021 total \$285,029.

Forfeitures

As of December 31, 2021, there were \$35,359 in forfeited amounts from non-vested amounts in accounts of participants who terminated employment. Forfeitures are allocated in the plan year when the forfeiture occurs. Forfeitures may be used to pay Plan expenses or to reduce amounts otherwise required to be contributed to the Plan. During the year ended December 31, 2021, the Plan recognized \$5,438 in new forfeitures and used \$56,545 in forfeited accounts to reduce the employer contributions.

Benefits Paid to Participants

Upon termination of service, retirement or disability, a participant may, with spousal consent, elect to receive a lump-sum amount equal to the amount of their account with a mandatory distribution threshold of \$1,000. Normal retirement age, as defined by the Plan, is age 65. Upon attainment of age 59½, certain benefits of fully vested employees may be received prior to termination of service. Benefits are also available upon determination of qualified hardship as well as upon death of the participant.

Hardship Distributions

Hardship distributions are permitted by the Plan for participants to satisfy certain immediate and heavy financial needs for allowable expenditures.

Notes Receivable from Participants

Participants may borrow from their individual fund accounts at a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account or \$50,000 reduced by any outstanding loan balance. A participant is permitted to have a maximum of one loan outstanding at any one time. The loans are collateralized by 50% of the participant's account balance and bear interest at prime plus 1%. The loans bear interest at rates that range from 4.25% to 6.50%, which are commensurate with local prevailing rates as determined by the plan administrator. As of December 31, 2021 and 2020, the Plan had notes receivable from participants with principal balances totaling \$2,509,387 and \$2,508,112, respectively, which are included with other assets in the accompanying statements of net assets available for benefits.

The Plan uses the direct write-off method and declares a deemed distribution in the year in which the participant is in default. Deemed distributions totaled \$25,012 and \$51,289 for the years ended December 31, 2021 and 2020, respectively and are included in benefits paid to participants on the statement of changes to net assets available for benefits.

Notes to Financial Statements (Continued)
December 31, 2021

1. Description of the Plan (Continued)

Plan Termination

Although it has not expressed any intention to do so, the plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. However, no such action may deprive any participant or beneficiary under the Plan of any vested right.

2. Summary of Accounting Policies

Financial Statements

The Plan's financial statements and notes are representations of the Company's management, who is responsible for their integrity and objectivity. The accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of certain assets, liabilities and disclosures. Accordingly, the actual amounts could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Fair Value Measurement

The Company adopted the Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification for fair value measurements of financial assets and financial liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Fair Value Measurements and Disclosures Topic established a single authoritative definition of fair value, sets a framework for measuring fair value, and requires additional disclosures about fair value measurement. The financial statements reflect the adoption of the Fair Value Measurements and Disclosures Topic.

Investment Valuation and Income Recognition

At December 31, 2021 and 2020, the Plan's investments were held in various registered investment companies, common collective trusts, money market and mutual funds and are stated at fair value. The net appreciation in fair value of investments includes realized and unrealized gains and losses on the fair value of investments held by the Plan. Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded when received.

Net Appreciation in the Fair Value of Investments

The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation in the fair value of its investments. This amount consists of realized gains and losses and unrealized appreciation and depreciation of those investments.

Financial Instruments Not Measured at Fair Value

The Plan's financial instruments that are not measured at fair value on the recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature include cash equivalents held in money market accounts.

3. Information Certified and Provided by Vanguard Fiduciary Trust Company

The plan administrator has elected the method of compliance permitted pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employment Retirement Security Act of 1974. Accordingly, Vanguard Fiduciary Trust Company, the Plan trustee, has certified that all of the investments and investment-related activity presented in the statements of net assets available for benefits, statement of changes in net assets available for benefits and supplemental schedule of assets held as of and for the year ended December 31, 2021 is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments as of December 31:

	2021	2020
Investments, at fair value	\$ 225,229,361	\$ 186,687,139
Notes receivable from participants	\$ 2,509,387	\$ 2,508,112

The Trustee also certified to the completeness and accuracy of net appreciation in fair value of investments of \$18,439,107, interest income related to notes receivable from participants of \$115,760 and interest and dividends of \$6,445,991 for the year ended December 31, 2021.

4. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification provides enhanced guidance for using fair value to measure assets and liabilities and clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the assets or liabilities and establishes a hierarchy that prioritizes the information used to develop those assumptions. The hierarchy gives the highest priority to unadjusted quoted prices in active markets (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The three levels for measuring fair value are based on the reliability of inputs and are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quote prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

4. Fair Value Measurements (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value for the years ended December 31, 2021 and 2020.

Registered investment companies, common trusts, equities and bonds: Valued at a daily calculated net asset value (NAV) available on an active markets at the Plan year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Party-In-Interest Transactions

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. The cash reserve account and several fund options are managed by the custodian. Transactions related to this investment qualify as party-in-interest transactions. The supplemental Schedule of Assets (Held at End of Year) identifies these investments as of December 31, 2021. Investments held by parties-in-interest are approximately 82.37% and 80.93% of the Plan's net assets as of December 31, 2021 and 2020, respectively. Fees paid to the custodian by the Plan for services amounted to \$285,029 for the year ended December 31, 2021.

Certain administrative functions are performed by shareholders and/or employees of the Plan Sponsor. No such shareholder or employee receives compensation from the Plan. These transactions also qualify as party-in-interest transactions.

6. Income Tax Status

The Plan has adopted a volume submitter 401(k) profit sharing plan. The Plan has received an opinion letter from the Internal Revenue Service letter dated March 31, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2021, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is subject to income tax examinations for the 2018 through 2021 plan years.

7. Risks and Uncertainties

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

8. Subsequent Events

The Plan has evaluated all events subsequent to the statement of net assets available for benefits as of December 31, 2021 through the date that these financial statements were available for issuance, October 17, 2022, and have determined that there are no subsequent events that require disclosure.
