Independent Auditor's Report

To the Plan Administrator
Mars Electric Company 401(k) Savings Plan
Mayfield Village, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Mars Electric Company 401(k) Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2021 and 2020, and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2021 and Schedule of Delinquent Participant Contributions for the Year Ended December 31, 2021 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedules agrees to, or are derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Mars Electric Company 401(k) Savings Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Mars Electric Company 401(k) Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is sponsored by Mars Electric Company (the Company or Employer) covering substantially all employees of the Company. The Plan is designed to comply with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA) as amended, and the Internal Revenue Code (IRC).

Eligibility

All employees of the Company who are age 21 or older become eligible to participate in the Plan the first day of the month following their date of employment.

Participant Contributions

Eligible employees are automatically enrolled in the Plan as a pretax deferral of 3%. Participants may also elect to contribute Roth deferrals (post-tax contributions) to the Plan, which are separately accounted for, as are the gains and losses attributed to those deferrals. Contributions are subject to limitations on annual additions and other limitations imposed by the IRC. Eligible participants may make a rollover contribution to the Plan of a distribution from a prior employer's qualified Plan.

Employer Contributions

The Company has elected to make a Safe Harbor matching contribution equal to 3% of each participant's eligible compensation. The Company may also make a discretionary profit-sharing contribution in excess of the match, subject to certain limitations and eligibility requirements. The Company approved a discretionary profit-sharing contribution of \$30,698 during the year ended December 31, 2021.

Participant Accounts

Each participant's account is credited with the participants' contributions, Employer's contributions and earnings or losses, and may be charged with certain administrative expenses. Plan earnings or losses are applied to a participant's account balance based on the investment experience of the funds held and the number of shares owned in each fund by the participant.

Vesting

Participants are immediately vested in both their elective deferral and rollover contributions and the Company's Safe Harbor matching and discretionary profit-sharing contributions, plus actual earnings thereon.

Mars Electric Company 401(k) Savings Plan

Notes to Financial Statements

Payment of Benefits

Distributions from a participant's account are not permitted before age 65 except in the event of death, disability, termination of employment or financial hardship, as defined. A participant may however, receive in-service distributions at the age of 59 ½ from all accounts in which the participant is fully vested.

Benefits are payable upon a participant's death, disability, or termination of employment in a single lump-sum payment, as long as the balance, excluding rollovers, is greater than \$5,000. Participants' balances below this threshold, excluding rollovers are automatically distributed without participant consent. The Plan complies with applicable sections of the IRC regarding mandatory cash-out distributions.

Active participants may make hardship withdrawals from their account balance, subject to Plan provisions.

Notes Receivable from Participants

Participants may borrow from their accounts in amounts ranging from a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. No more than one loan may be outstanding at one time and no more than two loans may be taken during the year. Loan terms are not to exceed five years unless extended for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account. The loans bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Generally, principal and interest are paid ratably through payroll deductions that will be made at least quarterly. The interest rate on all outstanding loans at December 31, 2021 and 2020 ranged from 4.25% to 6.50%.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to distributions and to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates. Significant items subject to such estimates and assumptions include the fair value of investments.

Mars Electric Company 401(k) Savings Plan

Notes to Financial Statements

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. In the case of delinquent loans, the Plan has the authority to take all reasonable actions to collect the balance owed on the loan. This could include filing a lawsuit or foreclosing on the security for the loan. No allowance for credit losses has been recorded as of December 31, 2021 and 2020. Under certain circumstances, a loan that is in default may be considered a distribution from the Plan and could be considered taxable income to the participant.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when received. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits payments are recorded when paid.

Evaluation of Subsequent Events

The Company has evaluated subsequent events through October 17, 2022, which is the date the financial statements were available to be issued, and has determined that there were no subsequent events that have occurred through that date that have not already been reflected in the financial statements and / or disclosed in the notes.

3. Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA required supplemental schedules are complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2021 and 2020.
- Net appreciation in fair value of investments, interest and dividend income, and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2021.

Mars Electric Company 401(k) Savings Plan

Notes to Financial Statements

- Investment information included in the schedule of assets (held at end of year) as of December 31, 2021, as shown on the ERISA required supplemental schedule.

4. Fair Value Measurements

FASB Accounting Standards Codification (ASC) 820, Fair Value Measurement, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 - Quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by unobservable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs that are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methods and assumptions used by the Plan to estimate the fair value of its investments. There have been no changes in the methodologies used as of December 31, 2021 and 2020.

Mutual funds: Investments in registered investment companies are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Common collective trusts: The fair value of participation units held in common collective trusts are based on the NAV as a practical expedient reported by the fund managers as of the financial statement dates and recent transaction prices. The investment objective of the common collective trust is to provide preservation of capital and provide relatively stable returns consistent with a low risk profile. The collective trust provides for daily redemptions by the Plan at reported NAV per share, with no advance notice requirement. There were no unfunded commitments as of December 31, 2021 and 2020.

Mars Electric Company 401(k) Savings Plan

Notes to Financial Statements

The following tables present the Plan's fair value hierarchy by asset class for those assets measured at fair value:

<i>December 31, 2021</i>	Total	Level 1	Level 2	Level 3
Mutual Funds	\$ 18,841,875	\$ 18,841,875	\$ -	\$ -
Assets measured at NAV*	1,524,336			
Total Assets	\$ 20,366,211	\$ 18,841,875	\$ -	\$ -

<i>December 31, 2020</i>	Total	Level 1	Level 2	Level 3
Mutual Funds	\$ 16,022,755	\$ 16,022,755	\$ -	\$ -
Assets measured at NAV*	1,434,066			
Total Assets	\$ 17,456,821	\$ 16,022,755	\$ -	\$ -

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The valuation methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

6. Tax Status of the Plan

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan is required to operate in conformity with the IRC to maintain its qualification. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan sponsor is responsible for reviewing the annual Required Amendments List (RAL) issued by the IRS for individually designed plans to retain qualified tax status. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal, state and/or local taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Mars Electric Company 401(k) Savings Plan

Notes to Financial Statements

7. Related Party and Party-in-Interest Transactions

Certain investments of the Plan are investment funds managed by the trustee. Purchases and sales of investment units of such funds qualify as party-in-interest transactions, as defined by ERISA. Loans to participants are also considered party-in-interest transactions as such participants are employed by the Company. These party-in-interest transactions are exempt from the prohibited rules under ERISA. Fees incurred by the Plan for the contract administrator services provided by the Plan's trustee were \$74,938 for the year ended December 31, 2021.

8. Differences between Financial Statements and Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 for the years ended December 31, 2021 and 2020:

December 31,	2021	2020
Total assets per the financial statements	\$ 20,990,452	\$ 18,036,033
Less: Deemed distributions of participant loans	-	36,877
Add: Reversal of deemed loans recognized in prior years	-	1,277
Total assets per Form 5500	\$ 20,990,452	\$ 18,000,433

The following is a reconciliation of the change in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2021:

December 31, 2021

Net increase per the financial statements	\$ 2,954,419
Add: Deemed loans recognized in prior years per Form 5500	35,600
Net increase per Form 5500	\$ 2,990,019

9. Prohibited Transactions

During the year ended December 31, 2020, the Company failed to segregate and remit, in a timely manner, certain participant loan repayments totaling \$64 from its assets within the required time period, as specified by the DOL. Failure to segregate and remit participant loan repayments within the specified time period is a prohibited transaction according to the provisions of ERISA and the IRC. The Company remitted these participant loan repayments to the Plan shortly after the required time frame and is in the process of calculating the lost earnings associated with the late remittances. The Company will remit the necessary lost earnings to the plan as soon as feasibly possible. Additionally, the Company will file Form 5330 and pay applicable excise taxes. The excise tax payment will be made from the Company's assets and not from the assets of the Plan.
