Report of Independent Auditors

To the Administrator of the Rolls-Royce
North America 401(k) Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying 2021 financial statements of the Rolls-Royce North America 401(k) Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The 2021 financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, including the related notes (collectively referred to as the "2021 financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Other Matter – 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan, which comprise the statement of net assets available for benefits as of December 31, 2020, and the related statement of changes in net assets available for benefits for the year then ended. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 14, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements, other than that derived from the certified information, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's

ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2021 ("supplemental schedule"), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Report of Independent Auditors

To the Administrator of the Rolls-Royce
North America 401(k) Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying 2021 financial statements of the Rolls-Royce North America 401(k) Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The 2021 financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, including the related notes (collectively referred to as the "2021 financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Other Matter – 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan, which comprise the statement of net assets available for benefits as of December 31, 2020, and the related statement of changes in net assets available for benefits for the year then ended. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 14, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements, other than that derived from the certified information, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's

ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2021 ("supplemental schedule"), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(1) Description of the Plan

The following brief description of the Rolls-Royce North America 401(k) Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions, which are available from the plan administrator.

(a) General

The Plan provides benefits for salaried employees of Rolls-Royce North America (the Company and Plan Sponsor) or certain affiliated companies who are not represented by a labor organization. Employees may participate in and accumulate savings under the Plan immediately upon the employees' employment commencement date. Previous eligible employees who return to employment may participate immediately upon rehire. Participation is voluntary. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA) and is a Section 401(k) plan.

Effective September 30, 2021, the Rolls-Royce North America Money Purchase Pension Plan (the MPP Plan) was merged into the Plan. On October 15, 2021, $30,063,784 was transferred into the Plan from the MPP Plan. Upon merger, the MPP Plan participants became participants under the terms and conditions of the Plan. Generally, all forms of benefit payments available to MPP Plan participants and beneficiaries under the MPP Plan on the date of merger continue to be available under the Plan. Prior service earned while participating in the MPP Plan is counted for purposes of participation and vesting in the Plan.

(b) Plan Administration

The Fiduciary Committee of Rolls-Royce North America, Inc. is the administrator of the Plan.

The Plan participates in the Rolls-Royce North America 401(k) Savings Plan Master Trust (Master Trust) that was created between Fidelity and the Company. Fidelity Management Trust Company serves as the trustee and Fidelity Workplace Services LLC serves as the record-keeper. Prior to May 29, 2020, the Master Trust participated in a master trust investment account (MTIA) in which other plans not participating in the Master Trust also held an interest. On May 29, 2020, the MTIA's underlying investment contract was terminated.

(c) Contributions

Generally, all eligible employees are automatically enrolled in the Plan at a deferred savings contribution percentage of 5% if the eligible employee does not elect to enroll within 30 days from their employment commencement date. Employee contributions to the Plan are made through periodic payroll deductions in amounts up to 75% of each participant's eligible earnings subject to Internal Revenue Service (IRS) limits. Participants may also make after tax contributions, which (when combined with any pretax contributions) do not exceed 75% of eligible earnings. All participants who attain age 50 prior to the end of the taxable year are eligible to make catch-up contributions in accordance with the Internal Revenue Code (IRC) provided such contributions do not exceed 75% in the aggregate when combined with deferred savings contributions or IRS limits. The Company matches up to 100% of each participant's pretax contributions, limited to 5% of the participant's eligible earnings (safe harbor matching contributions). Starting in October 2021, the Plan allowed participants the option to elect to make after-tax Roth contributions to The Plan in the amounts up to 75% of the participants eligible earnings. Roth contributions provide special tax treatment of funds to grow tax-free and then are eligible for withdrawal without penalties after the participant reaches the age of 59½.

The Plan added an annual employer discretionary 3% contribution of eligible compensation to the Plan January 1, 2006. The annual employer discretionary 3% contribution is only provided to eligible new hires and rehires hired after January 1, 2006 and all of the employees of certain designated participating affiliates. For participants who were former participants in the MPP Plan or the Retirement Plan for Rolls-Royce North America prior to July1 ,2021, compensation prior to that date is not included in eligible compensation for purposes of this contribution. This annual contribution has a three year "cliff" vesting schedule. The annual discretionary employer contributions totaled $7,840,958 for 2021 (paid in 2022) and $6,952,926 for 2020 (paid in 2021).

In April 2020, Rolls-Royce made the decision to delay the payment of 401(k) company matching contributions for the remainder of 2020, as allowed by the Plan Document. In the third quarter of 2020, the decision to delay company matching contributions was changed and 401(k) company matching contributions to individual employee accounts began again with the October 16, 2020 payroll. The Company made a cash contribution of $6,059,080 to cover the cost of the estimated delayed matching contributions at the end of 2020 but the amount was not allocated to participant accounts at that time. The delayed portion of 2020 matching contributions was held in the forfeiture account until the contribution was allocated to participant accounts in March 2021.

(d) Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his/her contributions into any of the separate investment accounts and may change the allocation daily.

(e) Participant Account

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and Plan earnings less any applicable expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(f) Vesting

Each Participant is fully vested at all times in any pre-tax, after-tax and Company matching contributions, any rollovers and transfers, and earnings thereon credited to the participant's account. No portion of such account is subject to forfeiture, except for Company annual discretionary 3% contributions. Each participant is fully vested in Company annual discretionary 3% contributions upon completing three years of service (cliff vesting) or upon the employee's death, disability, or attaining age 55 while an employee; or upon termination of the Plan.

(g) Notes Receivable from Participants

Participants may borrow from their accounts in the Plan one time each calendar year. The aggregate amount of the participant's outstanding loans may not exceed the lesser of (1) 50% of the current market value of vested assets in the participant's account or (2) $50,000, less the participant's highest outstanding loan balance in the 12-month period preceding the loan application.

Participants are permitted to elect terms ranging from six months to five years for repayment of their loans. With respect to a loan for the purchase or construction of the principal residence of the participant, a maximum term of 10 years is permitted, provided that a participant may not elect a term which will result in monthly repayments of less than $50. Interest on the loan shall be equal to the prevailing prime rate as published in the issue of *The Wall Street Journal* on the first day of the month of the submission of the participant's loan application. Interest rates on such loans range from 3.25% to 5.50% as of December 31, 2021 and 2020. Participant loans are reported at unpaid balance plus accrued, but unpaid, interest. Related fees are recorded as administrative expenses and are expensed when they are

incurred. Delinquent participant loans are not recorded as distributions until deemed distributed based on the terms of the Plan document.

(h) Forfeitures

Participants who terminate employment prior to being fully vested in the annual discretionary 3% contributions, forfeit this portion of their account. Forfeitures are used to reduce future company contributions or to pay Plan expenses. As of December 31, 2021 and 2020, the Plan had an available forfeiture balance totaling $811,525 and $1,037,480 respectively. Total plan forfeitures and earnings thereon during 2021 and 2020 amounted to $367,188 and $289,489, respectively. During 2021 and 2020, the Company used $222,323 and $240,618, respectively, to offset administrative expenses. For 2021, the Plan used $575,881 of the forfeitures balance as Company Match Contributions.

(i) Participant Withdrawals and Payment of Benefits

A participant in the Plan may make a complete or partial withdrawal, without penalty, of the amounts held in the participant's account at any time after attaining age 59½. Prior to turning age 59½, participants may withdraw, without limitation subject (in some circumstances) to a six-month suspension period, any after tax savings, rollovers, and vested Company contributions from their accounts. Benefits may also be paid prior to age 59½ due to termination of employment, death, total and permanent disability, or financial hardship. Withdrawals may be paid as a lump sum based on the current value of the account at the date of withdrawal, paid out in installments over a period of not more than ten years, or be transferred into another tax deferred plan or individual retirement account.

Participants that are under the age of 59½ may withdraw pre-tax savings only for financial hardships, as defined in the Plan. Prior to receiving a withdrawal for financial hardship, a participant previously must have taken all available asset distributions, withdrawals, and loans under all applicable plans maintained by the Company. The amount that may be withdrawn for financial hardship shall be limited to the lesser of (1) the total amount of savings in the participant's account as of the date of withdrawal or (2) the amount required to meet the need created by the financial hardship and anticipated income taxes and penalties resulting from the early withdrawal.

Prior to a participant attaining the age of 65 years and for accounts with balances between $1,000 and $5,000, (including amounts attributable to any rollover contributions), if the participant does not elect to have such distribution transferred directly to an eligible retirement plan in a direct rollover, or to receive the distribution directly, the plan administrator will make a direct rollover of the distribution to an individual retirement account (as designated by the plan administrator).

For the 2020 Plan year, two permitted changes to the Plan under the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act) were implemented. The first change was a temporary suspension of required minimum distributions for 2020 Plan Year was implemented. The second change implemented was that effective January 1, 2020, the starting age for beginning required minimum distributions was raised to 72 years old from the previous starting age of 70.5 years old. Also, effective April 1, 2020, participants or beneficiaries were allowed to take a Coronavirus-related withdrawal from the vested portion of their accounts from April 1, 2020 through December 31, 2020 under specific conditions.

(j) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth under ERISA. In the event of Plan termination, participants would become 100% vested in their employer discretionary contributions, plus earnings thereon.

(k) Plan Transfers

The amount reported as plan transfers in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2021 and 2020 represents the net transfers to (from) the Plan to other retirement plans sponsored by the Company as a result of Plan participants transferring between businesses controlled by the Company or participants merged into the Plan from another plan, as disclosed in Note 1.

(l) Subsequent Events

The MTU America 401(k) Plan and the MTU Onsite Energy Corporation 401(k) Profit Sharing Plan will merge with the Plan, effective December 31, 2022. Approximately 1,100 participant accounts will transfer into the plan totaling $138 million (based on combined plan value as of September 30, 2022) as a result of the merger. All merging plan participants will maintain current plan vesting, while new plan entrants will be subject to vesting requirements under the Plan.

No other material subsequent events have occurred since October 19, 2022 which is the date the financial statements were available to be issued.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contract held through May 29, 2020 when the contract was terminated (See Note 5). Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The MTIA in which the Plan held an interest prior to May 29, 2020 was composed of a fully benefit-responsive investment contract.

(b) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Fiduciary Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

Investment transactions are recorded on the trade date basis. Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date.

The Plan's share of net investment income (loss) in the Master Trust is reported in the Plan's financial statements. The net investment gain or loss of each Master Trust investment account, including interest, dividends, realized gains or losses, and unrealized appreciation or depreciation from investments, is allocated to the Plan on a daily basis based on the ratio of the current value of the Plan's interest in each Master Trust investment account to total net assets in each Master Trust investment account.

For investments held in the MTIA for the period January 1, 2020 to May 29, 2020, the Plan's share of net investment income in the MTIA is reported in the Plan's financial statements. The net investment gain or loss of the MTIA, including interest, dividends, realized gains or losses, and unrealized appreciation or depreciation from investments, was allocated to each plan participating in the MTIA on a daily basis based on the ratio of the current value of the Plan's interest in the MTIA to total net assets of the MTIA. See Note 5 for discussion of MTIA.

(d) Payment of Benefits

Benefits are recorded when distributed to participants.

(e) Administrative Expenses

Administrative expense may be paid by the Company or the Plan, at the Company's discretion. The type of administrative expenses paid by the Plan (and the Master Trust) includes recordkeeping, advisory, audit and other consulting type fees.

The Plan participates in a revenue credit program with the record keeper. In situations where record keeper revenue received in connection with the Plan's services exceeds agreed upon compensation, the record keeper will allocate amounts equal to the excess revenue back to the Plan, which is used to offset plan expenses. During 2021 and 2020, the Plan had expense offsets that amounted to $41,564 and $216,234, respectively. Any unused revenue credit will be utilized against future plan expenses.

(3) Tax Status

The IRS has determined and informed the Company by a letter dated August 15, 2013 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2021 and 2020 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is, in general, no longer subject to income tax examinations for years prior to 2018.

(4) Investments Held in the Master Trust and Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) Topic 820, *Fair Value Measurements*, establishes the framework for measuring fair value by providing a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 – Inputs to the valuation methodology are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trusts – Common collective trusts are private investment securities valued using the Net Asset Value (NAV) provided by the trustee. The NAV is calculated for a private market and is based on the fair value of the underlying assets owned by the fund, which are predominately traded on an active market, less its liabilities.

The Plan's investment assets were held in a Master Trust held by Fidelity. The Master Trust also includes all of the investment assets of the Rolls Royce Engine Services Retirement Savings Plan for Union Hourly Employees (Oakland Plan II) (see Note 5).

The Master Trust comprised the following total assets as of December 31, 2021 and 2020:

	Assets at Fair Value as of December 31, 2021	
	Master Trust Balance	**Plan's Interest In Master Trust Balances**
Investments, at fair value:

Net assets available for benefits at end of year	$ 1,685,014,548	$ 1,527,715,301

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value, as certified by the trustee, as of December 31, 2021, and 2020. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at fair value as of December 31, 2021

(5) Investments Held in Master Trust Investment Account (MTIA)

Three plans which are not included in the Master Trust owned an interest in one investment within the Master Trust through May 29, 2020, the date the underlying investment contract of the RR Stable Value Fund, the MTIA, was terminated. The Plan's interest in the MTIA was held by Fidelity. The Plan and the Rolls-Royce Engine Services Retirement Savings Plan for Union Hourly Employees each have specific interest in all Master Trust assets. Prior to May 29, 2020, the Rolls-Royce Fuel Cell Systems 401(k) Savings Plan, the Rolls-Royce Corporation Personal Savings Plan for Hourly-Rate Employees and the Rolls-Royce North America Money Purchase Pension Plan each owned a specific interest in only the MTIA within the Master Trust. On May 29, 2020, the MTIA was terminated and each plan received the contract value of their interest in the investment. At December 31, 2020, the Plan and the Rolls-Royce Engine Services Retirement Savings Plan for Union Hourly Employees were the only plans that owned an interest in the Master Trust assets.

The following is the change in net assets at contract value for the MTIA for the year ended December 31, 2020:

	2020
Additions(reductions) to net assets attributed to:	
Investment income	
Interest and dividend income	$ 3,442,826
Total investment income	3,442,826
Interest on notes receivable from participants	30,053
Contributions	2,597,655
Transfers and other, net	(132,269,875)
Loan activity, net	(103,070)
Total reductions	(126,302,411)
Deductions from net assets attributed to:	
Benefits paid to participants	10,862,445
Loan activity, net	-
Administrative expenses	38,381
Total deductions	10,900,826
Net decrease	(137,203,237)
Net assets available for benefits at beginning of year	137,203,237
Net assets available for benefits at end of December 31, 2020.	$ -

On May 29, 2020, upon the termination of the MTIA's investment contract, the $132,269,875 of proceeds received were fully utilized to purchase an investment in the Goldman Sachs Stable Value Institutional Series Class 1 for the same amount. This transaction is reported as "Transfers and other, net" in the above change in net assets. The following information relates to the MTIA for the period January 1, 2020 through May 29, 2020.

In 2011, the Master Trust entered into a fully benefit-responsive separate account guaranteed investment contract with Mass Mutual Retirement Services (MMRS), which was setup as a MTIA by the Company. MMRS maintained the separate account and had exclusive and absolute ownership and controls of the assets of the separate account. The account was credited with interest based on the interest rate per the contract and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan.

Because the guaranteed investment contract was fully benefit-responsive, the MTIA was measured at contract value through May 29, 2020. Contract value, as certified by the trustee, represented contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity

wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants during the period January 1, 2020 to May 29, 2020 were not probable of occurring.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1) the Company provides effective communication to MMRS the contract will be fully or partially terminated;

2) the contract has a market value account balance of less than the minimum market value account balance or a contract value account balance of zero;

3) the IRS determines that the Plan no longer meets the requirements of IRC section 401(a), the Plan's trust is no longer exempt from income tax under IRC section 501(a) or the Plan is terminated;

4) the stable value fund ceases to maintain book value accounting in accordance with generally accepted accounting practices, including FSP AAG INV-1 (as amended or codified), or Financial Accounting Standards Board Staff Position applicable to certain investment entities subject to Americas Institute of Certified Public Accountants Audit and Accounting Guide, Investment Companies;

5) any representation made by or on behalf of the Company in relation to the contract is, or becomes, untrue and, if capable of being remedied, all material adverse effects of such untrue representation have not been remedied to MMRS's reasonable satisfaction on or before the 30th business day after the receipt of effective communication from MMRS;

6) there is any act of fraud, misrepresentation of material facts, or deceit on the part of the Company which materially affects the intent, structure, or risk profile of the contract;

7) the Company breaches any of its obligations under the contract and all material adverse effects of such breach, if capable of being remedied, have not been remedied to MMRS's reasonable satisfaction on or before the 30th business day after receipt of effective communication from MMRS; or

8) MMRS provides effective communication to the Company that the contract will be terminated.

(6) Trustee Certified Information

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from Fidelity, that the investment and investment related information provided by, or derived from information provided by, them is complete and accurate. The investment information in Notes 4 and 5, excluding leveling, and the amounts included in the financial statements for interest in Master Trust at fair value, notes receivable from participants, plan interest in net investment income(loss) of Master Trust, interest on notes receivable from participants, the components of investment income(loss) of the Master Trust and the MTIA, interest on notes receivable from participants in the Master Trust and the MTIA and all amounts in the supplemental schedule were provided, or derived from information provided, and certified as complete and accurate by Fidelity as of and for the years ended December 31, 2021 and 2020.

(7) Related Party Transactions

As of December 31, 2021 and 2020, $1,237,877,125 and $1,090,648,572 respectively, of the Master Trust's investments included shares of mutual funds and units of common collective trusts managed by Fidelity. Fidelity is the trustee as defined by the Plan for 2021 and 2020, and therefore, transactions in these funds represent party-in-interest transactions. Additionally, notes receivable from participants represent party-in-interest transactions. Fees paid by the Plan to Fidelity for various administrative services are shown as administrative fees in the statement of changes in net assets available for benefits and totaled $329,679 and $388,118 for the years ended December 31, 2021 and 2020, respectively. As described in Note 2(e), during 2021 and 2020, these amounts were offset by $41,564 and $216,234 respectively, due to the Plan's participation in a revenue credit program with the record keeper.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
