INDEPENDENT AUDITOR'S REPORT

Retirement Committee
Office of the Commissioner of Baseball

Opinion

We have audited the financial statements of the American and National Leagues of Professional Baseball Clubs Retirement Income Plan for Umpires (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 and 2020, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

MITCHELL TITUS

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter—Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) of the Major League Baseball Group Pension Trust (Group Trust) as of December 31, 2021, and the schedule of reportable transactions of the Group Trust for the year then are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedules are fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 1 PLAN DESCRIPTION

The American and National Leagues of Professional Baseball Clubs Retirement Income Plan for Umpires (the Plan) is a non-contributory defined benefit plan that provides retirement and death benefits for all eligible umpires of the Office of the Commissioner of Baseball (BOC) and the eligible umpires formerly of the American League of Professional Baseball Clubs and the National League of Professional Baseball Clubs (the Leagues or the Participating Employers).

Each of the Leagues originally established its own plan within a single plan document, the American League of Professional Baseball Clubs Retirement Income Plan for Umpires and the National League of Professional Baseball Clubs Retirement Income Plan for Umpires. Effective January 1, 2000, the BOC assumed all obligations and responsibilities relating to the sponsorship of the Leagues' plans and the Plan was amended and restated in its entirety. Effective January 1, 2001, each of the Leagues' plans was merged to form a single plan.

Effective January 1, 2008, the BOC created a new wholly owned subsidiary, Major League Baseball Blue Inc. (MLB Blue). Beginning on that date, all eligible umpires became employed by MLB Blue. There was no transfer of assets or change in the trust or Plan Sponsor as a result of this change. The eligible umpires continue participating in the Plan as employees of MLB Blue, which is in the BOC's controlled group.

The Plan was closed to umpires hired on or after January 1, 2015. The Plan is presently administered by a two-member Retirement Committee consisting of the Vice President/Controller and the Executive Vice President/Chief Financial Officer.

Effective October 20, 2016 through December 15, 2016, certain umpires could have elected to participate in the "2016 Retirement Window." Effective January 1, 2017, any participant who retired as an umpire pursuant to the terms of the "2016 Retirement Window" is entitled to a Social Security supplement of $28,880 per year, ending on the participant's Social Security normal retirement age.

Pursuant to the execution of a new collective bargaining agreement, effective January 1, 2020, certain Plan benefits and provisions were changed. A new monthly benefit schedule was adopted. In addition, an option to receive an unrestricted lump-sum distribution, a Social Security supplement and a voluntary early retirement window that allows for enhanced benefits was offered to eligible participants.

The investments of the Plan are held by U.S. Bank (the Trustee) for the various Participating Employer Plans (Participating Plans) in the Major League Baseball Group Pension Trust (the Group Trust) (see Note 3).

The Internal Revenue Code (the Code) Section 415(b) maximum benefit limit was $230,000 for both 2021 and 2020.

NOTE 1 PLAN DESCRIPTION *(continued)*

The BOC has agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the benefits expected to be paid to participants. The contributions by the Participating Employers are not to be used to pay benefits to participants employed by any other Participating Employer. Such contributions are made in amounts sufficient to meet the minimum funding requirements set forth in the Employee Retirement Income Security Act of 1974, plus such additional amounts as may be determined to be appropriate from time to time. Such minimum funding requirements have been met for 2021 and 2020.

Eligible umpires participate in the Plan after May 1, coincident with or following their date of employment. Benefits under the Plan fully vest upon completing four years of continuous service as an umpire or five years of employment in any capacity with the employer.

Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of these benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC's benefit guarantee, while other benefits may not be provided for at all.

The BOC and the World Umpires Association signed a Basic Agreement (the New Agreement) covering the 2021-2024 baseball seasons.

Additional information about the Plan, including the vesting and benefit provisions and the PBGC's benefit guarantee, is available through the BOC and related Plan documents.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 7) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees through the valuation date (January 1 of each year). Accumulated plan benefits include benefits expected to be paid to: (a) retired employees or their designated beneficiaries and (b) present employees or their designated beneficiaries. Monthly benefits are determined by a formula provided for in the Plan document. Such monthly benefits are limited under Internal Revenue Service (IRS) guidelines in 2021 and 2020 to the lesser of $19,167 for both years, or the employees' highest average monthly compensation for three consecutive years that the participant is employed by the Participating Employers. Benefits currently payable are included in accumulated plan benefits to the extent they are deemed attributable to employee service rendered to the valuation date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States (U.S. GAAP) requires the Plan's management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Investments and Valuation

The Plan participates in the Group Trust, as further described in Note 3.

Investments held by the Group Trust are stated at fair value. Fair value is defined as the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (*i.e.*, exit date). See Note 4 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned and dividends are recorded on the ex-dividend date. Net investment gains and losses include gains and losses on investments bought and sold as well as held during the year.

The Pension Committee is responsible for determining the Group Trust's valuation policies and analyzing information provided by the investment managers and issuers, which is used to determine the fair value of the Group Trust's investments.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Adopted New Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2018-13, *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*, which amends Accounting Standards Codification 820, *Fair Value Measurement*. This ASU modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. The Plan adopted the standard on January 1, 2020. The adoption did not have a material effect on the Plan's disclosures.

NOTE 3 INVESTMENTS

Contributions received from the Participating Employers are deposited with the Trustee. The assets are invested as part of the Group Trust. Each Plan participating in the Group Trust owns a percentage of the underlying assets of the Group Trust and not the individual assets themselves. The assets of the Group Trust are comprised of investments in common stocks, equity mutual funds, U.S. Government obligations, corporate bonds and notes, hedge funds, and cash and cash equivalents.

The assets of the Plan are not guaranteed as to principal or income. Investment income and all gains and losses, whether or not realized, are recognized on the accrual basis.

With respect to investments in the Group Trust, on a quarterly basis, each plan's net assets are re-measured. This is done by first adjusting the plan's beginning balance for employer-specific items, such as contributions, benefit payments, withdrawals, and any specific expenses incurred. Investment income and loss, investment fees and expenses, and realized and unrealized gains or losses on investments are then allocated to each plan based on the percentage of its fair value to the combined fair value of all plans participating in the Group Trust. As of December 31, 2021 and 2020, the individual plans owned the following portions of the total fair value of the underlying investments comprising the Group Trust:

During the years ended December 31, 2021 and 2020, the investments in the Group Trust, including investments bought, sold, and held during the applicable period, appreciated in fair value by $134,045,962 and $242,499,937, respectively. Interest and dividends reported by the Group Trust were $48,556,839 and $59,570,920 for the years ended December 31, 2021 and 2020, respectively. The Plan's allocable shares of these amounts are reported in in the net investment gain from the Group Trust in the statements of changes in net assets available for benefits.

NOTE 3 INVESTMENTS *(continued)*

Investment managers exercise discretionary authority, subject to certain limitations, for the purchase, sale, and management of the investments of the Group Trust that have been allocated to them for such purposes. Provisions relating to this discretionary authority and a representation by each of the investment managers that it is duly registered with the SEC pursuant to the Investment Advisers Act of 1940, as amended, are contained within respective agreements entered into with each investment manager.

Certain investment managers are authorized to use derivative financial instruments, either directly or within a commingled fund structure, within established guidelines. Derivative financial instruments may be used to manage interest rate and foreign exchange risk. The derivative financial instruments are recorded as other investments either as an asset or a liability, depending upon whether the instrument is in a gain or loss position. Changes in the fair value of derivative financial instruments are recorded in the statements of changes in net assets available for benefits; therefore, no gains or losses are deferred. There were no derivative financial instruments as of December 31, 2021 and 2020.

NOTE 4 FAIR VALUE MEASUREMENTS

To measure fair value, a hierarchy has been established that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs. As such, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2: Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (*e.g.*, interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

NOTE 4 FAIR VALUE MEASUREMENTS *(continued)*

Level 3: Unobservable inputs for the asset or liability (*i.e.*, supported by little or no market activity). Level 3 inputs include management's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

The following is a description of the valuation methodologies used for investments measured at fair value pursuant to the fair value hierarchy.

The following investments are classified as Level 1 investments in the fair value hierarchy.

Cash and cash equivalents include highly liquid investments with original maturities of 90 days or less and money market funds. Treasury bills are measured at institutional bond quotes that are based on various market and industry inputs, which is indicative of Level 1. Actively traded money market funds are measured at their net asset value (NAV) and may include several different underlying short-term obligations, including U.S. government-sponsored enterprises, U.S. Treasuries and municipal securities. Certain investments within the fund may be deemed unobservable and not considered to be in an active market. These factors indicate Level 2 securities.

Common stocks are determined by obtaining quoted prices in an active market, which indicate Level 1 securities.

Mutual funds are valued based on their NAV. A mutual fund may include several different underlying investments, including equities, bonds, real estate, and global securities. The NAV price is derived from the value of these investments, accrued income, anticipated cash flows (maturities), management fees, and other fund expenses. Certain investments within the fund may be deemed unobservable and not considered to be in an active market; therefore, they are considered Level 2 securities.

U.S. Government and corporate obligations are valued using the consensus and a market-based model, which considers yield, price of comparable securities, coupon rate, maturity, credit quality and dealer-provided prices. These factors indicate Level 2 securities.

NOTE 4 FAIR VALUE MEASUREMENTS *(continued)*

Hedge funds are valued at the NAV per unit based on the fair value of the underlying investments. The underlying investments are primarily in publicly traded securities, which are valued at the closing price reported on the active market on which the individual securities are traded. In addition, these funds may have underlying investments in non-publicly traded securities for which quoted prices are not readily available. Such securities are valued by the investment management firm at an amount that approximates fair value, which is generally based on the verifiable fair value of similar securities at the valuation date. Plan management uses NAV as a practical expedient for measuring fair value; therefore, these investments do not require classification.

The methods described above may produce a fair value calculation that may not indicate net realizable value or reflect future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The Group Trust did not have any investments measured at fair value on a nonrecurring basis as of December 31, 2021 and 2020.

The following table sets forth, by level within the fair value hierarchy, the Group Trust's assets carried at fair value as of December 31, 2021:

	Level 1	Level 2	Level 3	Total Fair Value

Value of Investments Valued Using NAV

The following tables summarize investments measured at NAV per share:

December 31, 2021				
Investment Class	**Value**	**Unfunded Commitments**	**Redemption Frequency (if Currently Eligible)**	**Redemption Notice Period**
Hedge funds (a)	$ 341,104,916	$	Monthly–Annually	30-180 days

December 31, 2020				
Investment Class	**Value**	**Unfunded Commitments**	**Redemption Frequency (if Currently Eligible)**	**Redemption Notice Period**
Hedge funds (a)	$ 308,735,577	$ -	Monthly–Annually	30-180 days

(a) These funds are oriented as a multi-strategy fund of funds, along with another group of investments managed by various different investment managers. These other managers specialize in various markets, the majority of which are either in the distressed asset category or long and short positions in global equities and equity-like securities.

The Plan's right to redeem its hedge fund investments varies according to the contractual agreements with each of the individual hedge fund management firms. Some of the hedge funds do not permit redemption for an initial period of time following an investment in the fund, which, for the Group Trust's hedge fund investments, range between six months and three years. Additionally, the Group Trust's hedge fund investment managers may limit the portion of an investment that can be redeemed at any one time, either by an individual investor or in the aggregate by all of the investors in the hedge fund. These limits vary and limit the portion of an investment that may be redeemed at any one time or restrict both the portion and term of such redemptions.

NOTE 5 DERIVATIVE INSTRUMENTS

In the normal course of operations, the Group Trust's assets and liabilities may include derivative financial instruments (swaps, options and foreign currency contracts). These derivatives involve, in varying degrees, elements of credit and market volatility risks in excess of more traditional investment holdings, such as equity and debt instruments. The contract or notional amounts disclosed in this footnote provide a measure of the Group Trust's involvement in such instruments but do not indicate potential loss. The intent is to use derivative financial instruments as investments to gain exposure to certain markets and as economic hedges to manage interest rate, equity price, foreign currency exchange rate risk and credit risk associated with the Group Trust's investments and obligations.

There were no derivative instruments as of December 31, 2021 or 2020.

NOTE 6 OFFSETTING ASSETS AND LIABILITIES

The Group Trust is subject to master netting agreements, or netting arrangements, with certain counterparties. The Group Trust is required to disclose the impact of offsetting assets and liabilities represented in the statement of net assets available for benefits to enable users of the financial statements to evaluate the effect or potential effect of netting arrangements on its financial position for recognized assets and liabilities. These recognized assets and liabilities are financial instruments and derivative instruments that are either subject to an enforceable master netting arrangement or similar agreement or meet the following right of set off criteria: the amounts owed by the Group Trust to another party are determinable, the Group Trust has the right to set off the amounts owed with the amounts owed by the other party, the Group Trust intends to set off, and the Group Trust's right of set off is enforceable at law. The Group Trust's derivative contracts are subject to these master netting agreements; however, these transactions would be included at gross in the Plan's interest in the Major League Pension Group Trust amount on the statement of net assets available for benefits. However, there were no derivative instruments as of December 31, 2021 and 2020.

NOTE 7 ACCUMULATED PLAN BENEFITS

The Plan's actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

The Plan provides for the accumulation of benefits for services rendered by participants from the later of their respective dates of participation or January 1, 1976.

NOTE 7 ACCUMULATED PLAN BENEFITS *(continued)*

The accumulated plan benefit information as of December 31, 2020 is as follows:

Actuarial present value of accumulated plan benefits	
Vested benefits	
Participants receiving benefits	$ 105,389,856
Other participants	123,884,073
	229,273,929
Non-vested benefits	15,547,433
	$ 244,821,362

The changes in the actuarial present value of the accumulated plan benefits are due to the following:

Actuarial present value of accumulated plan benefits, as of December 31, 2019	$ 214,871,649
Additional benefits accumulated	2,113,745
Interest due to decrease in the discount period	7,226,939
Benefits paid	(9,339,560)
Assumption changes	28,688,589
Plan amendments	1,260,000
Change in accumulated plan benefit	29,949,713
Actuarial present value of accumulated plan benefits, as of December 31, 2020	$ 244,821,362

NOTE 8 ACTUARIAL ASSUMPTIONS

The more significant assumptions used by the Plan's actuary to, among other things, calculate accumulated plan benefits and determine funding levels at December 31, 2020 are as follows:

Actuarial method—Plan funding	Present value of accrued benefits
Discount rate for accumulated plan benefits	2.60% (3.40% in prior year)
Mortality	Pri-2012, with projection and MP-2021 full generational improvement scale (Pri-2012, with projection and MP-2020 full generational improvement scale in prior year)
Average retirement age	Age 59

NOTE 8 ACTUARIAL ASSUMPTIONS *(continued)*

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuary estimated the accumulated plan benefits as of December 31, 2020.

NOTE 9 INCOME TAX STATUS

The Plan has received a determination letter from the IRS dated June 18, 2014, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since issuance of the determination letter. However, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is exempt from taxation.

U.S. GAAP requires the Plan's management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more-likely-than-not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021, there were no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 10 ADMINISTRATIVE EXPENSES

Certain actuarial, professional, insurance and administrative expenses are paid by the Plan. Certain other administrative expenses are paid by the BOC directly.

NOTE 11 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term. The changes could materially affect the amounts reported in the financial statements.

NOTE 11 RISKS AND UNCERTAINTIES *(continued)*

Contributions to the Plan are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

In addition, with the global outbreak of the coronavirus disease 2019 (COVID-19) that was declared a pandemic by the World Health Organization and a national emergency by the U.S. Government in March 2020. The continued spread of COVID-19 has caused volatility in the equity capital markets and the investment returns on our pension assets, which may have a material impact on the Plan's funded status.

NOTE 12 SUBSEQUENT EVENTS

Management evaluated subsequent events for the Plan through October 14, 2022, the date the financial statements were available to be issued. No material other events were identified requiring disclosure.

Schedule SB – Statement by Enrolled Actuary

Plan Sponsor	Office Of The Commissioner Of Major League Baseball
EIN/PN	13-1665347/008
Plan Name	The AL NL Prof Baseball Clubs Ret Plan for Umps
Valuation Date	January 1, 2021
Enrolled Actuary	Mark Gengenbach, FSA, EA
Enrollment Number	20-07102

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Schedule SB, Part V
Summary of Plan Provisions

Plan Provisions

Effective Date	Prior Plan: January 1, 1956. Current Plan: January 1, 1970. Amended and restated effective January 1, 2013. Most recent amendment effective January 1, 2020.
Covered Employees	Full-time Umpire in the service of the Employer who is covered by the collective bargaining agreement.
Participation	Participation starts on the May 1 coincident with or next following employment as an Umpire. Participation terminates when employment as an Umpire terminates. Participation was frozen effective January 1, 2015 and no new Umpires will be allowed to participate in the plan as of January 1, 2015.

Definitions

Continuous or credited service	Period during which an umpire is employed by the Employer, including certain employer-sponsored leaves of absence due to disability or military service (to the extent permitted under federal pension law). In general, an Umpire is credited with a full year of Continuous Service and Credited Service for each calendar year in which he is credited with at least one hour-of-service in at least three months during such year. Special rules apply to individuals who perform, or have in the past performed, “part-time service” (as that term is defined in the Plan) as an umpire for the Employer. In no event will credit for part-time service as an umpire be granted to any individual until he has been permanently appointed as a full-time Umpire for the Employer.
Normal retirement date (NRD)	January 1 coincident with or next following attainment of age 55.

SCHEDULE SB ATTACHMENTS

Pension benefit

For participants hired prior to January 1, 2015 and actively employed as an Umpire on or after January 1, 2020:

* If a participant has less than 20 years of credited service, the participant's basic benefit shall equal the amount determined under the schedule above multiplied by a fraction (not to exceed one), the numerator of which is the participant's total years of credited service on this benefit commencement date and the denominator of which is 20.

** An appropriate actuarial equivalent adjustment shall be made for other benefit commencement dates and optional forms of benefit payments as set forth in the plan.

SCHEDULE SB ATTACHMENTS

Certain participants, as designated by the League, who have already left active service are entitled to the greater of the accrued benefit listed in the schedule above or their current benefit.

Social Security supplement Effective January 1, 2020, Umpires who are actively employed at age 55 and participate in the plan will be eligible for a $34,400 per year Social Security supplement, from the later of retirement age and age 58, through Social Security normal retirement age.

Enhanced pension benefit Umpires who elected to retire in one of two early retirement windows in 2010, the early retirement window in 2012, or in the early retirement window in 2016 received enhanced benefits. In addition to an increased basic benefit, an umpire also received a Social Security supplement commencing on the later of the umpires early retirement date or age 55, and ending on the umpire's Social Security normal retirement age.

Umpires who elected to retire in the 2020 early retirement window received enhanced benefits. In addition to an increased basic pension benefit based on $185,000, an umpire also received a Social Security supplement commencing on the later of the umpire's early retirement date or age 55 and ending at age 66, in lieu of the permanent Social Security supplement feature of the plan introduced in 2020.

Preretirement spouse benefit A spouse's life annuity for 100% of the amount the umpire would have received had he retired on his date of death or earliest retirement date, if earlier. If the actuarial present value of the spouse's annuity is less than the lump sum death benefit amount, the excess will be paid as a lump sum.

Preretirement death benefit A single sum, equal to the product of (i) and (ii) below not to exceed $250,000 with a minimum of $50,000, minus (iii).

(i) the accrued monthly normal retirement benefit (vested benefit for terminated employees)

(ii) the factor below, dependent upon age at death:

(iii) the actuarial present value of the preretirement spouse's benefit (if any).

Eligibility for Benefits

Normal retirement	Retire on NRD.
Early retirement	Attainment of age 45 and attainment of vested participant status.
Postponed retirement	Retire after satisfying normal retirement conditions.
Disability retirement	Date of total and permanent disability.
Deferred vested	Terminate for reasons other than death, retirement or disability after completing four years of continuous service.
Preretirement spouse benefits	Die while a member of the pension plan, married, and vested, or after vested termination date, but before benefit commencement.
Preretirement death benefits	Die while a member of the pension plan, or after vested termination date, prior to retirement.

Benefits Paid Upon the Following Events

Normal retirement	Pension benefit determined as of NRD.
Early retirement	For participants who retire over age 50 with 20 or more years of continuous service, the pension benefit is reduced 5% for each year that retirement precedes age 55. For others, the pension benefit is actuarially reduced for early commencement.
Postponed retirement	The greater of the pension benefit as of the date of retirement or the pension benefit based on credited service and benefit levels in effect at NRD, actuarially increased for postponed commencement.

SCHEDULE SB ATTACHMENTS

Disability benefit	For participants eligible for early retirement, the early retirement benefit is payable. For participants eligible for a vested benefit, the deferred vested benefit is payable.
Termination with deferred vested benefit	Pension benefit based on credited service and benefit levels in effect at termination, and payable at NRD.
Death with preretirement spouse benefits	Preretirement spouse benefit is payable.

SCHEDULE SB ATTACHMENTS

Other Plan Provisions

Forms of payment

Monthly pension benefits are paid as described above, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the 100% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan.

Optional forms include a joint and survivor annuity (between 50% and 100%, as designated by the member), a certain and life annuity (for a certain period of up to 10 years, as designated by the member), a level income annuity, or (for married participants) a life annuity. The normal form of payment is converted to an annuity form using an interest rate of 5% and the Applicable Mortality Table (i.e., the IRS 417(e) Unisex Mortality Table). The level income annuity is determined by using the largest annuity factor calculated under the following bases:

- Average of yields on 30-year Treasury securities for the month of November of the Plan Year immediately preceding the Plan Year in which the payment is made, and the applicable IRS 417(e) Unisex Mortality Table
- Applicable 24-month average segment rates for the month of November of the Plan Year immediately preceding the Plan Year in which the payment is made and applicable Unisex Mortality Table, both as defined in IRS 417(e)

Effective January 1, 2020, the plan was expanded to include a lump sum form of payment in addition to the optional forms described above. The lump sum benefit is determined using the applicable 24-month average segment rates for the month of November of the Plan Year immediately preceding the Plan Year in which the payment is made and the applicable Unisex Mortality Table, both as defined in IRS 417(e).

Maximum on benefits

All benefits for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes

No future plan changes were recognized in determining minimum and maximum contributions.

Changes in Benefits Valued Since Prior Year

Plan Name:	The AL NL Prof Baseball Clubs Ret Plan for Umps
EIN / PN:	13-1665347/008
Plan Sponsor:	Office Of The Commissioner Of Major League Baseball
Valuation Date:	January 1, 2021

SCHEDULE SB ATTACHMENTS

Major League Baseball implemented an early retirement window for eligible umpires in Q1 2020, and umpires who made an election in March 2020 and elected to retire in the early retirement window received enhanced benefits from the plan. In addition to an increased Basic Pension Benefit based on a full benefit of $185,000, an umpire also received a Social Security supplement commencing on the later of the umpire's early retirement date or age 55 and ending at age 66, in lieu of the permanent Social Security supplement feature of the plan that was introduced effective in 2020.

There have been no other changes in benefits valued since the prior year.

Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis:

- Applicable month: September, 2020
- Interest rate basis: 3-Segment Rates from Fourth Month Preceding Valuation Date

Interest rates:

	Reflecting Stabilization	Not Reflecting Stabilization
First segment rate	4.75%	2.22%
Second segment rate	5.36%	3.38%
Third segment rate	6.11%	3.92%
Effective interest rate	5.66%	3.63%

Annual rates of increase

- Compensation: N/A
- Statutory limits on compensation: N/A

Plan-related expenses: Expense load of $137,000 is equal to $125,000 for non-PBGC related administrative expenses plus estimated PBGC premiums for the current plan year.

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used and are used to determine the PBGC FTAP and the PBGC 4010 FS.

Demographic and Other Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees

It was assumed there will be no new or rehired employees.

Mortality

Separate rates for non-annuitants (based on RP-2014 "Employees" table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2019) and annuitants (based on RP-2014 "Healthy Annuitants" table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2019).

Benefit commencement date:

- Preretirement death benefit: The later of the death of the active participant or the date the participant would have attained age 55
- Deferred vested benefit: Age 55
- Retirement benefit: Upon termination of employment

SCHEDULE SB ATTACHMENTS

Form of payment	100% of active single participants are assumed to elect a life annuity and 100% of active married participants are assumed to elect a 100% joint and survivor annuity
Percent married	80%
Spouse age	Females three years younger than males
At-risk assumptions	Not applicable for current plan year.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month.

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Major League Baseball and, based on that review, is not aware of any significant benefits required to be valued that were not. The plan pays small benefits (with a present value up to $1,000) in a single lump sum payment. In addition, individuals with retirement dates

on or after January 1, 2020 may elect to receive their benefit in the form of a single lump sum payment. Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The plan sponsor, through both its third party administrator and its trustee, furnished participant data as of 1/1/2021. Information on assets and contributions was supplied by the trustee. Information on plan provisions was provided by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. In consultation with Major League Baseball, the following assumptions were made:

- Estimated accrued benefits were used for certain terminated vested participants for whom final accrued benefits had not been completed.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).
Rates of increase in:	
■ Increases in statutory limits (CPI)	N/A
■ Assumed return for asset smoothing	The assumed return of 6.11% used for asset smoothing for the 2021 plan year is the third segment rate. Although we have not explicitly determined an expected return on assets under U.S. GAAP, based on an analysis of the plan sponsor's investment policy we believe the rate to be above the third segment rate for the 2021 plan year.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Based on a review of recent experience and plan sponsor expectations of the future, it is assumed that no umpires will terminate prior to the plan's early retirement age of 45.
Retirement	Retirement rates are based on a review of recent experience and plan sponsor expectations for the future, with periodic moniroting of observed gains and losses caused by retirement patterns different than assumed.
Benefit commencement date for deferred benefits:	
■ Preretirement death benefit	Beneficiaries are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the beneficiary elects to defer. If the beneficiary elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value.
■ Deferred vested benefit	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

SCHEDULE SB ATTACHMENTS

Changes in Assumptions and Methods

Changes in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The American Rescue Plan Act (ARPA) of 2021 was enacted in March, 2021. ARPA revises PPA's interest rate stabilization provisions. The plan sponsor elected to adopt ARPA's interest rate stabilization provisions effective with the 2021 plan year and that election is reflected in this report.

ARPA also revises PPA's interest rate stabilization provisions for IRC §436 (benefit restriction) purposes. The plan sponsor elected to adopt ARPA's interest rate stabilization provisions for §436 purposes effective with the 2021 plan year and that election is reflected in this report.

The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality improvement scale, as required by guidance issued by IRS under IRC §430.

Changes in methods since prior valuation

The American Rescue Plan Act (ARPA) of 2021 was enacted in March, 2021. ARPA replaces PPA's 7-year shortfall amortization installments (SAIs) with a "fresh start" 15-year amortization. (Note that waiver amortization bases, if any, are not affected). The plan sponsor elected to adopt ARPA's 15-year amortization provisions effective with the 2021 plan year and that election is reflected in this report.

Model Descriptions and Disclosures (in accordance with ASOP No. 56)

Quantify

Quantify is the Willis Towers Watson centrally developed, tested and maintained Global actuarial valuation system. It is used to perform valuations of clients' benefit plans.

Quantify provides the ability to process data, calculate benefits and value benefit liabilities, develop results using applicable standards, and generate client reports.

Quantify parameters provide significant flexibility to model populations and plan designs. Various demographic, economic and benefit related assumptions exist for users to model multiple demographic and economic situations.

Plan liabilities are calculated based on standard actuarial techniques, developing actuarially reasonable results using the population and parameters entered. The calculation and

presentation of liabilities in Quantify relies on the assumptions used and the reasonability of the assumptions selected.

Quantify incorporates standard liability methodologies that are intended to reasonably reflect a variety of economic or demographic conditions. The model itself does not evaluate any assumptions entered for reasonableness, consistency or probability of occurrence.

Quantify is designed specifically for these purposes, and we know of no material limitations that would prevent the system from being suitable for these intended purposes. The actuaries signing this report have relied on the actuaries who develop, test and maintain this system, and have also performed a limited review of results to ensure that system parameters have been set appropriately and plan provisions coded correctly.

Quantify FR

Quantify Financial Reporting (FR) is intended to calculate funding results, accounting results and produce the associated client reports under selected accounting standards. The calculations and reports are based on various user specified inputs including liability results and asset values.

Quantify FR develops valuation results for various accounting and funding purposes using standard actuarial techniques.

Published Demographic Tables

Certain demographic tables described above are standard published tables or are based on standard published tables from models developed by organizations with the requisite expertise.

SWIFT

(for multi-year projections only)

Swift is intended to develop projections of plan liability (pension and OPRB plans) and/or asset values based on various user specified inputs. These amounts are then used to develop contribution and cost results under selected accounting standards and funding regulations. The time horizon for the analysis is 10 full future years.

The parameters provide a great deal of flexibility to model populations and plan designs. The parameters provide a great deal of flexibility to model populations and plan designs. Various demographic and economic assumptions exist for users to model multiple demographic and economic scenarios. The Swift model for liabilities is a simplified alternative to using

SCHEDULE SB ATTACHMENTS

a full valuation system to develop projections of plan liabilities. The assumptions used to control the projected asset values are intended to be flexible enough to model a variety of scenarios reflecting the investment mix of the plan modeled.

Plan liabilities are initially projected based on standard actuarial techniques for a roll-forward based on the population/design parameters entered. The liabilities are then adjusted with inputs providing their sensitivity to various economic experience and valuation assumptions.

Assets are projected on a monthly basis reflecting the data, calculated cash flows, and input assumptions.

The model itself does not evaluate any assumptions entered for reasonableness, consistency or probability of occurrence.

Funding and accounting calculations assume that applicable rules will not change during the forecast horizon.

Certain details are not reflected in the model. For example, special events (curtailments, settlements, termination benefits) are not included in the standard accounting calculations. Additionally, the model does not support interim re-measurements of benefit cost. Actuaries make adjustments to the data, plan provisions and assumptions reflected in the calculation of the liabilities that are projected forward so that the results reflect conditions at the measurement date, and/or make similar adjustments to the results of the projection, including reflecting any changes in applicable accounting standards.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis:

- Applicable month: September, 2020
- Interest rate basis: 3-Segment Rates from Fourth Month Preceding Valuation Date

Interest rates:

	Reflecting Stabilization	Not Reflecting Stabilization
First segment rate	4.75%	2.22%
Second segment rate	5.36%	3.38%
Third segment rate	6.11%	3.92%
Effective interest rate	5.66%	3.63%

Annual rates of increase

- Compensation: N/A
- Statutory limits on compensation: N/A

Plan-related expenses: Expense load of $137,000 is equal to $125,000 for non-PBGC related administrative expenses plus estimated PBGC premiums for the current plan year.

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used and are used to determine the PBGC FTAP and the PBGC 4010 FS.

Demographic and Other Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees

It was assumed there will be no new or rehired employees.

Mortality

Separate rates for non-annuitants (based on RP-2014 "Employees" table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2019) and annuitants (based on RP-2014 "Healthy Annuitants" table without collar or amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with a static projection as specified in the regulations under §1.430(h)(3)-1 using Scale MP-2019).

Termination

None assumed

Disability

Retirement

Rates varying by age, average retirement age 59

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Percentage retiring during the year

Age	Rate
45 – 49	0%
50 – 54	2%
55	25%
56-61	8%
62	33%
63-64	8%
65	100%

Benefit commencement date:

- Preretirement death benefit: The later of the death of the active participant or the date the participant would have attained age 55
- Deferred vested benefit: Age 55
- Retirement benefit: Upon termination of employment

SCHEDULE SB ATTACHMENTS

Form of payment	100% of active single participants are assumed to elect a life annuity and 100% of active married participants are assumed to elect a 100% joint and survivor annuity
Percent married	80%
Spouse age	Females three years younger than males
At-risk assumptions	Not applicable for current plan year.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month.

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Major League Baseball and, based on that review, is not aware of any significant benefits required to be valued that were not. The plan pays small benefits (with a present value up to $1,000) in a single lump sum payment. In addition, individuals with retirement dates

SCHEDULE SB ATTACHMENTS

on or after January 1, 2020 may elect to receive their benefit in the form of a single lump sum payment. Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The plan sponsor, through both its third party administrator and its trustee, furnished participant data as of 1/1/2021. Information on assets and contributions was supplied by the trustee. Information on plan provisions was provided by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. In consultation with Major League Baseball, the following assumptions were made:

- Estimated accrued benefits were used for certain terminated vested participants for whom final accrued benefits had not been completed.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).
Rates of increase in:	
■ Increases in statutory limits (CPI)	N/A
■ Assumed return for asset smoothing	The assumed return of 6.11% used for asset smoothing for the 2021 plan year is the third segment rate. Although we have not explicitly determined an expected return on assets under U.S. GAAP, based on an analysis of the plan sponsor's investment policy we believe the rate to be above the third segment rate for the 2021 plan year.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Based on a review of recent experience and plan sponsor expectations of the future, it is assumed that no umpires will terminate prior to the plan's early retirement age of 45.
Retirement	Retirement rates are based on a review of recent experience and plan sponsor expectations for the future, with periodic moniroting of observed gains and losses caused by retirement patterns different than assumed.
Benefit commencement date for deferred benefits:	
■ Preretirement death benefit	Beneficiaries are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the beneficiary elects to defer. If the beneficiary elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value.
■ Deferred vested benefit	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

SCHEDULE SB ATTACHMENTS

Changes in Assumptions and Methods

Changes in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The American Rescue Plan Act (ARPA) of 2021 was enacted in March, 2021. ARPA revises PPA's interest rate stabilization provisions. The plan sponsor elected to adopt ARPA's interest rate stabilization provisions effective with the 2021 plan year and that election is reflected in this report.

ARPA also revises PPA's interest rate stabilization provisions for IRC §436 (benefit restriction) purposes. The plan sponsor elected to adopt ARPA's interest rate stabilization provisions for §436 purposes effective with the 2021 plan year and that election is reflected in this report.

The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality improvement scale, as required by guidance issued by IRS under IRC §430.

Changes in methods since prior valuation

The American Rescue Plan Act (ARPA) of 2021 was enacted in March, 2021. ARPA replaces PPA's 7-year shortfall amortization installments (SAIs) with a "fresh start" 15-year amortization. (Note that waiver amortization bases, if any, are not affected). The plan sponsor elected to adopt ARPA's 15-year amortization provisions effective with the 2021 plan year and that election is reflected in this report.

Model Descriptions and Disclosures (in accordance with ASOP No. 56)

Quantify

Quantify is the Willis Towers Watson centrally developed, tested and maintained Global actuarial valuation system. It is used to perform valuations of clients' benefit plans.

Quantify provides the ability to process data, calculate benefits and value benefit liabilities, develop results using applicable standards, and generate client reports.

Quantify parameters provide significant flexibility to model populations and plan designs. Various demographic, economic and benefit related assumptions exist for users to model multiple demographic and economic situations.

Plan liabilities are calculated based on standard actuarial techniques, developing actuarially reasonable results using the population and parameters entered. The calculation and

presentation of liabilities in Quantify relies on the assumptions used and the reasonability of the assumptions selected.

Quantify incorporates standard liability methodologies that are intended to reasonably reflect a variety of economic or demographic conditions. The model itself does not evaluate any assumptions entered for reasonableness, consistency or probability of occurrence.

Quantify is designed specifically for these purposes, and we know of no material limitations that would prevent the system from being suitable for these intended purposes. The actuaries signing this report have relied on the actuaries who develop, test and maintain this system, and have also performed a limited review of results to ensure that system parameters have been set appropriately and plan provisions coded correctly.

Quantify FR

Quantify Financial Reporting (FR) is intended to calculate funding results, accounting results and produce the associated client reports under selected accounting standards. The calculations and reports are based on various user specified inputs including liability results and asset values.

Quantify FR develops valuation results for various accounting and funding purposes using standard actuarial techniques.

Published Demographic Tables

Certain demographic tables described above are standard published tables or are based on standard published tables from models developed by organizations with the requisite expertise.

SWIFT

(for multi-year projections only)

Swift is intended to develop projections of plan liability (pension and OPRB plans) and/or asset values based on various user specified inputs. These amounts are then used to develop contribution and cost results under selected accounting standards and funding regulations. The time horizon for the analysis is 10 full future years.

The parameters provide a great deal of flexibility to model populations and plan designs. The parameters provide a great deal of flexibility to model populations and plan designs. Various demographic and economic assumptions exist for users to model multiple demographic and economic scenarios. The Swift model for liabilities is a simplified alternative to using

SCHEDULE SB ATTACHMENTS

a full valuation system to develop projections of plan liabilities. The assumptions used to control the projected asset values are intended to be flexible enough to model a variety of scenarios reflecting the investment mix of the plan modeled.

Plan liabilities are initially projected based on standard actuarial techniques for a roll-forward based on the population/design parameters entered. The liabilities are then adjusted with inputs providing their sensitivity to various economic experience and valuation assumptions.

Assets are projected on a monthly basis reflecting the data, calculated cash flows, and input assumptions.

The model itself does not evaluate any assumptions entered for reasonableness, consistency or probability of occurrence.

Funding and accounting calculations assume that applicable rules will not change during the forecast horizon.

Certain details are not reflected in the model. For example, special events (curtailments, settlements, termination benefits) are not included in the standard accounting calculations. Additionally, the model does not support interim re-measurements of benefit cost. Actuaries make adjustments to the data, plan provisions and assumptions reflected in the calculation of the liabilities that are projected forward so that the results reflect conditions at the measurement date, and/or make similar adjustments to the results of the projection, including reflecting any changes in applicable accounting standards.

Summary of Plan Provisions

Plan Provisions

Effective Date	Prior Plan: January 1, 1956. Current Plan: January 1, 1970. Amended and restated effective January 1, 2013. Most recent amendment effective January 1, 2020.
Covered Employees	Full-time Umpire in the service of the Employer who is covered by the collective bargaining agreement.
Participation	Participation starts on the May 1 coincident with or next following employment as an Umpire. Participation terminates when employment as an Umpire terminates. Participation was frozen effective January 1, 2015 and no new Umpires will be allowed to participate in the plan as of January 1, 2015.

Definitions

Continuous or credited service	Period during which an umpire is employed by the Employer, including certain employer-sponsored leaves of absence due to disability or military service (to the extent permitted under federal pension law). In general, an Umpire is credited with a full year of Continuous Service and Credited Service for each calendar year in which he is credited with at least one hour-of-service in at least three months during such year. Special rules apply to individuals who perform, or have in the past performed, “part-time service” (as that term is defined in the Plan) as an umpire for the Employer. In no event will credit for part-time service as an umpire be granted to any individual until he has been permanently appointed as a full-time Umpire for the Employer.
Normal retirement date (NRD)	January 1 coincident with or next following attainment of age 55.

* If a participant has less than 20 years of credited service, the participant's basic benefit shall equal the amount determined under the schedule above multiplied by a fraction (not to exceed one), the numerator of which is the participant's total years of credited service on this benefit commencement date and the denominator of which is 20.

** An appropriate actuarial equivalent adjustment shall be made for other benefit commencement dates and optional forms of benefit payments as set forth in the plan.

SCHEDULE SB ATTACHMENTS

Certain participants, as designated by the League, who have already left active service are entitled to the greater of the accrued benefit listed in the schedule above or their current benefit.

Social Security supplement Effective January 1, 2020, Umpires who are actively employed at age 55 and participate in the plan will be eligible for a $34,400 per year Social Security supplement, from the later of retirement age and age 58, through Social Security normal retirement age.

Enhanced pension benefit Umpires who elected to retire in one of two early retirement windows in 2010, the early retirement window in 2012, or in the early retirement window in 2016 received enhanced benefits. In addition to an increased basic benefit, an umpire also received a Social Security supplement commencing on the later of the umpires early retirement date or age 55, and ending on the umpire's Social Security normal retirement age.

Umpires who elected to retire in the 2020 early retirement window received enhanced benefits. In addition to an increased basic pension benefit based on $185,000, an umpire also received a Social Security supplement commencing on the later of the umpire's early retirement date or age 55 and ending at age 66, in lieu of the permanent Social Security supplement feature of the plan introduced in 2020.

Preretirement spouse benefit A spouse's life annuity for 100% of the amount the umpire would have received had he retired on his date of death or earliest retirement date, if earlier. If the actuarial present value of the spouse's annuity is less than the lump sum death benefit amount, the excess will be paid as a lump sum.

Preretirement death benefit A single sum, equal to the product of (i) and (ii) below not to exceed $250,000 with a minimum of $50,000, minus (iii).

(i) the accrued monthly normal retirement benefit (vested benefit for terminated employees)

(ii) the factor below, dependent upon age at death:

Eligibility for Benefits

Normal retirement Retire on NRD.

Early retirement Attainment of age 45 and attainment of vested participant status.

Postponed retirement Retire after satisfying normal retirement conditions.

Disability retirement Date of total and permanent disability.

Deferred vested Terminate for reasons other than death, retirement or disability after completing four years of continuous service.

Preretirement spouse benefits Die while a member of the pension plan, married, and vested, or after vested termination date, but before benefit commencement.

Preretirement death benefits Die while a member of the pension plan, or after vested termination date, prior to retirement.

Benefits Paid Upon the Following Events

Normal retirement Pension benefit determined as of NRD.

Early retirement For participants who retire over age 50 with 20 or more years of continuous service, the pension benefit is reduced 5% for each year that retirement precedes age 55. For others, the pension benefit is actuarially reduced for early commencement.

Postponed retirement The greater of the pension benefit as of the date of retirement or the pension benefit based on credited service and benefit levels in effect at NRD, actuarially increased for postponed commencement.

SCHEDULE SB ATTACHMENTS

Disability benefit	For participants eligible for early retirement, the early retirement benefit is payable. For participants eligible for a vested benefit, the deferred vested benefit is payable.
Termination with deferred vested benefit	Pension benefit based on credited service and benefit levels in effect at termination, and payable at NRD.
Death with preretirement spouse benefits	Preretirement spouse benefit is payable.

Other Plan Provisions

Forms of payment

Monthly pension benefits are paid as described above, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the 100% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan.

Optional forms include a joint and survivor annuity (between 50% and 100%, as designated by the member), a certain and life annuity (for a certain period of up to 10 years, as designated by the member), a level income annuity, or (for married participants) a life annuity. The normal form of payment is converted to an annuity form using an interest rate of 5% and the Applicable Mortality Table (i.e., the IRS 417(e) Unisex Mortality Table). The level income annuity is determined by using the largest annuity factor calculated under the following bases:

- Average of yields on 30-year Treasury securities for the month of November of the Plan Year immediately preceding the Plan Year in which the payment is made, and the applicable IRS 417(e) Unisex Mortality Table
- Applicable 24-month average segment rates for the month of November of the Plan Year immediately preceding the Plan Year in which the payment is made and applicable Unisex Mortality Table, both as defined in IRS 417(e)

Effective January 1, 2020, the plan was expanded to include a lump sum form of payment in addition to the optional forms described above. The lump sum benefit is determined using the applicable 24-month average segment rates for the month of November of the Plan Year immediately preceding the Plan Year in which the payment is made and the applicable Unisex Mortality Table, both as defined in IRS 417(e).

Maximum on benefits

All benefits for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes

No future plan changes were recognized in determining minimum and maximum contributions.

SCHEDULE SB ATTACHMENTS

Major League Baseball implemented an early retirement window for eligible umpires in Q1 2020, and umpires who made an election in March 2020 and elected to retire in the early retirement window received enhanced benefits from the plan. In addition to an increased Basic Pension Benefit based on a full benefit of $185,000, an umpire also received a Social Security supplement commencing on the later of the umpire's early retirement date or age 55 and ending at age 66, in lieu of the permanent Social Security supplement feature of the plan that was introduced effective in 2020.

There have been no other changes in benefits valued since the prior year.
