Crossover Multiple Employer 401(k) Plan

Notes to Financial Statements
December 31, 2020

1. Description of Plan

The following description of Crossover Multiple Employer 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

In February of 2022, the Plan transferred its assets into the Enterprise Select Pooled Employer Plan ("PEP"). As a result, the Plan ceased to exist as of this date.

General

The Plan is a defined contribution plan covering all eligible employees of Crossover Market LLC (the "Employer") except those employees who: (1) are union employees and; (2) are nonresident aliens. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

On March 27, 2020, the President signed into law the U.S. Coronavirus Aid, Relief and Economic Security Act (the "CARES Act"). The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to Plan participants under the CARES Act and has implemented the following provisions:

- Eligible coronavirus distributions up to \$100,000.

Eligibility

To be eligible for participant contributions, an employee must attain 18 years of age. Upon becoming eligible, a participant may enter the Plan immediately.

Contributions

Each year, participants may contribute a portion of their eligible compensation on a pre-tax or after-tax (Roth) basis, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Eligible employees will automatically be enrolled in the Plan at a 1% elective deferral rate, unless they affirmatively elect otherwise within the reasonable period established by the plan administrator. There is an annual limit as to the amount that can be deducted from compensation that is determined by the Internal Revenue Code ("IRC"). Participants may also contribute amounts representing distributions from other qualified retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Employer's contributions and (b) Plan earnings (losses). Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All investments are participant directed.

1. Description of Plan (*continued*)

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum amount of \$1,000 and maximum amount equal to the lesser of \$50,000 or 50% of your vested account balance. The loans bear interest at a rate equal to Moody's Corporate Bond Yield Average-Monthly Corporate percentage. The loans plus interest are repaid through payroll deduction in equal payments over the term of the loan. A participant may have no more than one outstanding loan from the Plan at any time.

Payment of Benefits

Upon termination of service due to death, disability, retirement or other reason, a participant is entitled to receive a distribution in the amount equal to the value of the participant's vested interest in his or her account.

EASE Account

The Plan and Voya entered into a revenue sharing arrangement whereby a portion of the revenue earned from certain funds is passed through to the Plan. In order for the Plan to receive credits as a result of this revenue sharing arrangement, the Plan created the Revenue Credit Account under the Plan. The Revenue Credit Account is an account within the Plan and is used to record the redistribution of Plan-generated fund revenue that exceeds the costs associated with Plan administration. The Revenue Credit Account balance was \$4,357 and \$5,174 at December 31, 2020 and 2019. During 2020, expenses of \$3,343 were paid from the Revenue Credit Account.

2. Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), which requires management to make estimates and assumptions that affect assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (*continued*)

Fair Value Measurements

The Plan follows U.S GAAP guidance on *Fair Value Measurements* which defines fair value and establishes a fair value hierarchy organized into three levels based upon the input assumptions used in pricing assets. Level 1 inputs have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable and are used to the extent that observable inputs do not exist.

Investment Valuation and Income Recognition

All investments of the Plan are stated at fair value except for the Voya Fixed Account, which is stated at contract value. The Voya Fixed Account is valued at contract value, which represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Investments in separate accounts are reported at the value reported to the Plan by the insurance company, which represents, the approximate fair value of the underlying investments comprising the accounts. The money market fund is valued at the daily closing price as reported by the fund. The fund held by the Plan is an open-end fund that is registered with the Securities and Exchange Commission. This fund is required to publish its daily net asset value and to transact at that price. This fund is deemed to be actively traded.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation in value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from the financial statements. Investment related expenses are included in net appreciation in value of investments.

Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is November 14, 2022.

3. Information Certified (Unaudited)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya Retirement Insurance and Annuity Company ("Voya"), the custodian, has certified to the completeness and accuracy of certain investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019, the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2020, and the supplemental Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2020.

4. Investments (*continued*)

Investment Contract with Insurance Company

The Voya Fixed Account (the "Account") is a fully benefit-responsive investment contract with Voya. The Account guarantees principal and a guaranteed minimum interest rate for the life of the contract, as well as featuring two declared interest rates: a current rate, determined at least monthly, and a guaranteed minimum floor rate declared for a defined period – currently one calendar year. The guaranteed minimum floor rate may change after the defined period, but it will never be lower than the guaranteed minimum interest rate that applies for the life of the contract. The current rate, the guaranteed minimum floor rate and the guaranteed minimum interest rate are expressed as annual effective yields. Taking the effect of compounding into account, the interest credited to a participant's account daily yields the then current credited rate. Voya's determination of credited interest rates reflects a number of factors, which may include mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets. Under this option, Voya assumes the risk of investment gain or loss by guaranteeing the principal amount allocated to this option and promises a minimum interest rate during the accumulation period and also throughout the annuity payout period. Voya may impose limitations on the ability to transfer funds out of this investment option. Withdrawals from the Account for reasons other than the payment of benefits to participants may be subject to a market value adjustment and a surrender charge.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The Account is presented on the face of the statements of net assets available for benefits at contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The Account is an obligation of Voya's general account, which supports all of Voya's insurance and annuity commitments. The credit risk of Voya was evaluated by nationally recognized statistical rating agencies as follows: Moody's Investors Service (A2 as of May 2019), Standard and Poor's (A+ as of May 2019), and Fitch Ratings (A as of May 2019).

5. Plan Termination

The Employer has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

Crossover Multiple Employer 401(k) Plan

Notes to Financial Statements
December 31, 2020

6. Tax Status

The Plan's prototype plan document preparer has obtained an opinion letter dated March 31, 2014 from the Internal Revenue Service ("IRS") stating that the Plan is designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

7. Party-in-Interest Transactions

All investments of the Plan are managed by Voya. Voya is the custodian, as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions under ERISA.

Participants who are active employees may borrow from their accounts and such loans qualify as exempt party-in-interest transactions under ERISA. These loans are recorded as notes receivable from participants in the statements of net assets available for benefits.

8. Prohibited Transactions

During the 2018, 2019 and 2020 Plan years, the Employer failed to transmit to the Plan certain participants' contributions and loan repayments totaling \$289,279 within the period described by Department of Labor regulations. Delays in remitting these amounts to the Plan were due to an administrative oversight. The Employer is in the process of calculating and remitting lost earnings to the Plan.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The global and domestic economic uncertainty has resulted in significant volatility in financial markets. This volatility has affected, and may continue to affect, the value of the Plan's net assets available for benefits. The effects of economic and market conditions subsequent to December 31, 2020 are not reflected in these financial statements and future effects on the Plan's net assets available for benefits cannot be predicted.

3. Information Certified (Unaudited)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya Retirement Insurance and Annuity Company ("Voya"), the custodian, has certified to the completeness and accuracy of certain investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2020 and 2019, the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2020, and the supplemental Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2020.

4. Investments (*continued*)

Investment Contract with Insurance Company

The Voya Fixed Account (the "Account") is a fully benefit-responsive investment contract with Voya. The Account guarantees principal and a guaranteed minimum interest rate for the life of the contract, as well as featuring two declared interest rates: a current rate, determined at least monthly, and a guaranteed minimum floor rate declared for a defined period – currently one calendar year. The guaranteed minimum floor rate may change after the defined period, but it will never be lower than the guaranteed minimum interest rate that applies for the life of the contract. The current rate, the guaranteed minimum floor rate and the guaranteed minimum interest rate are expressed as annual effective yields. Taking the effect of compounding into account, the interest credited to a participant's account daily yields the then current credited rate. Voya's determination of credited interest rates reflects a number of factors, which may include mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets. Under this option, Voya assumes the risk of investment gain or loss by guaranteeing the principal amount allocated to this option and promises a minimum interest rate during the accumulation period and also throughout the annuity payout period. Voya may impose limitations on the ability to transfer funds out of this investment option. Withdrawals from the Account for reasons other than the payment of benefits to participants may be subject to a market value adjustment and a surrender charge.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The Account is presented on the face of the statements of net assets available for benefits at contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The Account is an obligation of Voya's general account, which supports all of Voya's insurance and annuity commitments. The credit risk of Voya was evaluated by nationally recognized statistical rating agencies as follows: Moody's Investors Service (A2 as of May 2019), Standard and Poor's (A+ as of May 2019), and Fitch Ratings (A as of May 2019).

5. Plan Termination

The Employer has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

6. Tax Status

The Plan's prototype plan document preparer has obtained an opinion letter dated March 31, 2014 from the Internal Revenue Service ("IRS") stating that the Plan is designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

7. Party-in-Interest Transactions

All investments of the Plan are managed by Voya. Voya is the custodian, as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions under ERISA.

Participants who are active employees may borrow from their accounts and such loans qualify as exempt party-in-interest transactions under ERISA. These loans are recorded as notes receivable from participants in the statements of net assets available for benefits.

8. Prohibited Transactions

During the 2018, 2019 and 2020 Plan years, the Employer failed to transmit to the Plan certain participants' contributions and loan repayments totaling \$289,279 within the period described by Department of Labor regulations. Delays in remitting these amounts to the Plan were due to an administrative oversight. The Employer is in the process of calculating and remitting lost earnings to the Plan.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The global and domestic economic uncertainty has resulted in significant volatility in financial markets. This volatility has affected, and may continue to affect, the value of the Plan's net assets available for benefits. The effects of economic and market conditions subsequent to December 31, 2020 are not reflected in these financial statements and future effects on the Plan's net assets available for benefits cannot be predicted.
