Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Tory Burch, LLC 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2021 and 2020, and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2021 and Schedule H, Line 4a - Schedule of Assets (Held at End of Year) as of December 31, 2021 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment

information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- the certified investment information in the supplemental schedules agrees to, or are derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to the Financial Statements

1. Description of the Plan

The following brief description of the Tory Burch, LLC 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a complete description of the Plan’s provisions, copies of which may be obtained from the Plan’s sponsor.

General

The Plan is a defined contribution plan sponsored by Tory Burch, LLC (the “Company”) for all employees of the Company age 21 or over who have completed one year and 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The Plan uses Fidelity Management Trust Company (“Fidelity”) as the trustee.

Eligible employees’ entry date is on the first day of each month, following the 12-month qualifying period. The deferral elections and changes are effective each month. Additional matching employer contributions will be computed annually for each plan year.

Contributions

Each year, participants may contribute a portion of pretax annual compensation, as defined in the Plan document, as basic contributions. Contributions are subject to certain annual dollar limitations as imposed by the Internal Revenue Service (the “IRS”), which was \$19,500 in 2021. As permitted by the Plan, participants who have attained at least 50 years of age prior to the close of the Plan year are eligible to contribute up to an additional \$6,500 in 2021 as catch-up contributions. Participants also may contribute amounts representing distributions from other qualified benefit or contribution plans (“rollover contributions”). The Plan also provides for a Company safe harbor matching contribution to the Plan. The Company’s matching contribution is a maximum of 4% of contributing participants’ compensation. Additional discretionary profit sharing amounts may be contributed at the option of the Company’s Board of Directors. There were no additional discretionary amounts contributed to the Plan in 2021. The employer matching contribution was \$3,519,621 for the year ended December 31, 2021.

Participant Accounts

The Plan maintains individual accounts for each Plan participant. Each participant’s account is credited with the participant’s contribution, employer matching contributions and an allocation of the Plan’s earnings or losses and charged for benefits paid and certain administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account. Distributions from the deferral account are not permitted before age 59 ½ except in cases of death, disability, termination of employment or hardship.

Investment Options

Participants direct the investment of their contributions and employer matching contributions into various investment options offered by the Plan, which include investments in mutual funds and collective trust funds.

Vesting

Participants are 100% vested in all contributions (including Company safe harbor matching contributions) plus actual earnings thereon. Participants vest in additional discretionary Company

Tory Burch, LLC 401(k) Plan

Notes to the Financial Statements

contributions and related earnings at the rate of 0% for the first two years after joining the Plan and 20% for each year of service thereafter.

Notes Receivable From Participants

Participants may borrow from their accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, provided that the annual amortization payment with respect to the note does not exceed the participant's annual compensation as of the date of the note. Participant notes are secured by the vested balance in the participant's account and bear interest at prevailing rates as determined by the Plan administrator. The maximum term of a note is five years, unless the note proceeds are to be used to acquire the participant's principal residence. The maximum term of a note issued for the acquisition of a principal residence is 10 years. Principal and interest are paid ratably through bi-weekly payroll deductions. In the event that a participant's account balance becomes payable prior to full repayment of the note, the outstanding note balance is deducted from the participant's account prior to distribution and will be classified as a deemed distribution. In the event that a participant's note is determined to be in default under the provisions of the Plan document, as amended, the outstanding note balance will be treated as a deemed distribution to the participant. The interest rate on loans outstanding in 2021 and 2020 ranged from 4.25% to 6.50%.

Payment of Benefits

On termination of service due to death, disability, retirement, or termination of service for other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For reasons of hardship a participant may receive the value of the employee deferrals in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2021 and 2020, there were \$2,103,991 and \$2,768, respectively, in forfeited nonvested accounts. These accounts may be used to pay Plan expenses or reduce future employer contributions. During 2021, the Plan used \$10,599 in forfeitures to reduce employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of these financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements and supplemental schedules. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in a transaction between market participants at the measurement date (the exit price). See Notes 3 and 4 for the required disclosures with regard to Plan investments.

Tory Burch, LLC 401(k) Plan

Notes to the Financial Statements

The Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of investments, which consists of realized gains or losses on investments sold and unrealized gains or losses on investments held.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Notes Receivable From Participants

Notes receivable from participants are stated at their unpaid principal balance plus accrued unpaid interest. Fees charged by the trustee relating to notes receivable from participants' are paid from the participants' accounts and are included in administrative expenses and expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2021 and 2020.

Administrative Expenses

Trustee fees and other expenses incurred in the administration of the Plan are paid by the Company. Investment advisory fees are paid by the Plan. Expenses that are paid by the Company are excluded from these financial statements.

Other Income

Other income consists of plan servicing credits supporting the Plan and participant level activity. The revenue credits generally represent the return of excess revenue generated by the Plan, based upon the terms of the recordkeeper services agreement. Revenue credits are deposited to the Plan's Revenue Credit Account and may be used to pay reasonable and necessary Plan expenses and can be allocated to participants as plan-servicing credit. Other income was \$17,573 for the year ended December 31, 2021 and was recorded as a reduction to administrative expenses in the statement of net assets available for benefits.

Concentration of Credit Risk

Financial instruments that potentially subject the Plan to concentrations of credit risk are part of the holdings in Plan's investments. Management believes that the custodian maintains the Plan's investments with high credit quality institutions and attempts to limit the credit exposure to any particular investment.

3. Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103--8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2021 and 2020.

- Investment income, net and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2021.

Tory Burch, LLC 401(k) Plan

Notes to the Financial Statements

· Investment information included in the schedule of assets (held at end of year) as of December 31, 2021, as shown on the ERISA-required supplemental schedule.

At the request of the Plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are disclosed as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following table set forth, by level within the fair value hierarchy, the Plan's assets at fair value:

Total Investments, at fair value	\$ 20,566,051	\$ -	\$ -	\$ 59,690,703

*Certain investments that are measured at fair value using the net asset value (NAV) per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used as of December 31, 2021 and 2020. There were no transfers between levels during the years ended December 31, 2021 and 2020.

Mutual Funds

These investments are open-end mutual funds that are registered with the Securities and Exchange Commission (SEC) and valued at unadjusted quoted market prices, which represent the net asset value (NAV) of shares owned by the Plan at year-end.

Common Collective Trust Funds

Common collective trust funds represent investments with various investment managers. The fair value of these investments is valued at net asset value (NAV), as reported by the sponsoring financial institution. The NAV is used as a practical expedient to estimate fair value. The NAV is determined by reference to the trusts' underlying assets, which are principally comprised of equity and fixed income securities. Units held are valued as reported by investment managers, which represent the ownership share of the net asset values of the underlying assets. Participants may generally redeem fund units on a daily basis, subject to limitations. The stable value fund is composed primarily of fully benefit-responsive investment contracts that are valued at the NAV of units of the bank collective trust. The NAV of the stable value fund is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner. The objective of the common collective trust funds is to achieve long-term capital appreciation in diversified portfolios.

Tory Burch, LLC 401(k) Plan

Notes to the Financial Statements

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent):

* Advance written notice is required for any redemption directed by a Plan Sponsor; redemptions of \$1,000,000 or more of a Plan's assets invested in the Fund require 5 business days advance notice for most Funds

5. Risks and Uncertainties

The Plan holds various investments that, in general, are exposed to various types of risk, such as interest rate, market volatility and credit risk. Further, due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of these investments, it is reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for the benefits and statement of changes in net assets available for benefits.

On January 30, 2020, the World Health Organization (WHO) announced a global health emergency because of a new strain of coronavirus (the COVID-19 outbreak) and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and contributed to significant volatility in financial markets. Since the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined at this time.

6. Related Party Transactions

Tory Burch, LLC 401(k) Plan

Notes to the Financial Statements

Certain Plan investments are managed by affiliates of the trustee. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transactions rules. Notes receivable from participants also qualify as exempt party-in-interest transactions.

7. Plan Termination

While the Company has not expressed any intention to terminate the Plan, it reserves the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their discretionary Company contributions.

8. Tax Status

Prior to October 4, 2021, the Plan had adopted Fidelity's Prototype Volume Submitter Profit Sharing Plan ("prototype plan") with Cash of Deferred Arrangement ("CODA"). Accordingly, the Plan is permitted to rely on the opinion letter dated March 31, 2014 from the IRS which stated that the prototype plan was designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). Effective October 4, 2021, the Plan adopted Fidelity's pre-approved profit sharing plan with CODA. Accordingly, the Plan is permitted to rely on the opinion letter dated June 30, 2020 from the IRS which stated the pre-approved profit-sharing plan with CODA was designed in accordance with the applicable sections of the IRC. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with all applicable sections of the IRC and, therefore, believes the Plan is qualified.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Late Remittances

Employee contributions and loan repayments for prior years totaling \$8,327,585 were not remitted to the Plan on a timely basis. These contributions are considered nonexempt prohibited transactions. The Company is aware of the occurrence and has taken appropriate steps to correct the situation, including remitting lost earnings to the Plan in 2021.

10. Other Employer Contributions

During the year ended December 31, 2020, the Company noted certain operational errors with respect to eligible compensation used to calculate participant deferrals and employer matching contributions, resulting in other employer contributions due to the Plan. The Company remitted the other employer contributions in 2021 and corrected these operational errors under the Voluntary Correction Program ("VCP"). The Plan administrator believes that the VCP submission will not affect the Plan's tax status.

11. Subsequent Events

The Plan's management has evaluated subsequent events through December 8, 2022, the date on which the financial statements were available to be issued. There were no other subsequent events requiring adjustment to the financial statements or disclosures, except as follows:

Tory Burch, LLC 401(k) Plan

Notes to the Financial Statements

Effective January 1, 2022, the Plan was amended and restated with respect to the eligibility service requirement and definition of compensation. The qualifying period is shortened to 3 months with no minimum hours of service, and the definition of compensation has additional exclusions.
