INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
NAVA 401(k) Plan
Washington, DC

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of NAVA 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of NAVA 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2021, and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of NAVA 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about NAVA 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of NAVA 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about NAVA 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules of Asset Held for Investment Purposes at End of Year are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter

The accompanying statement of net assets available for benefits of NAVA 401(k) Plan as of December 31, 2020, and the related statement of changes in net assets available for benefits for the year then ended were not audited, reviewed, or compiled by us and, accordingly, we do not express an opinion or any other form of assurance on them.

NAVA 401(k) Plan

Notes to Financial Statements

Note 1. Description of the plan

The following description of the NAVA 401 (k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan qualified under sections 401 (a) and 401 (k) of the Internal Revenue Code (the Code), covering all employees of NAVA PBC. (the Company). All employees are eligible to participate in the Plan after completing three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and was most recently amended effective January 2011 for tax law changes.

Participant contributions

Participants may elect to contribute, on a tax-deferred basis, up to 100% of their annual compensation as defined by the Plan. Participant contributions may not exceed the maximum allowable contribution under the Internal Revenue Code (the Code), which totaled \$19,500 for the year ended December 31, 2021. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, subject to limitations imposed by the Code. Participants are permitted to make rollover contributions to the Plan.

Participant rollovers

Participants are allowed to transfer or rollover funds into the Plan from other qualified plans.

Eligibility

The plan is a defined contribution plan which generally covering all employees of the Company who have attained minimum age of 21 years old and completed three months of service.

Company contributions

The company provides 100% matching contribution up to 4% for all eligible employees. Additional amounts may be contributed as a profit sharing contribution at the discretion of the Company's Board of Directors. No discretionary profit sharing contributions were made by the Company for 2021. The Company's matching contributions totaled \$1,136,730 for the year ended December 31, 2021.

Participant accounts

Each participant's account is participant-directed and credited with participant and Company contributions, withdrawals and an allocation of Plan earnings and administrative expenses. Any earnings, losses, and administrative expenses are allocated to participant accounts based upon the balance in each account, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the portion of the participant's account.

NAVA 401(k) Plan

Notes to Financial Statements

Vesting

Participants are 100% vested in their contributions, employer match contributions, and earnings and losses thereon. Vesting in profit-sharing contribution is based on years of continuous service. A participant is 100% vested after five years of credited service or in the event of death or total and permanent disability.

Forfeitures

A Participant who receives a distribution of the value of the entire vested portion of his Account shall forfeit the nonvested portion of such Account as soon as administratively feasible after such distribution. Forfeitures will be used to restore forfeitures, reduce Company contributions or to pay Plan expenses.

Notes receivable from participants

Participants may borrow from their accounts up to the lesser of \$50,000 or 50% of their account balance. Notes must be at least \$1,000 and a participant can hold no more than one note at any given time. Notes are collateralized by the participant's account balance. Interest shall be charged at a rate to be fixed by the Plan Administrator. Interest and principal repayments are made ratably through payroll deductions. Notes become due immediately upon termination of the participant's employment.

Payment of benefits

Upon termination of service, death, disability, retirement, or attainment of age 59 1/2, a participant or their beneficiary, in the event of death, is entitled to distribution of their account balance. Distributions may be made either in a lump sum or, in the case of required minimum distributions, on an investment basis. Upon proof, to the satisfaction of the Plan administrator, of an immediate and heavy financial need, amounts contributed by the participant may be withdrawn for a hardship purpose. Distributions are subject to the applicable provisions of the Plan agreement. Certain income tax penalties may apply to withdrawals or distribution prior to age 59 1/2. As of December 31, 2021, there were no net assets of the Plan allocated to participants who had elected to withdraw from the Plan but had not received such distributions prior to year-end.

Plan expenses

All administrative expenses are paid with the assets of the Plan, unless paid by the Company, at its discretion. No administrative expenses were paid out for 2021 from the Plan during the year. Loan and distribution fees are paid by the Plan and its participants. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

NAVA 401(k) Plan

Notes to Financial Statements

Note 2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting. As described in ASC 962, *Plan Accounting – Defined Contribution Pension Plans*, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of the contingent assets and liabilities at the date of the financial statements and the reported amount of additions to net assets available for benefits and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the Custodian. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant Loans

Notes receivable from participants are measured at their unpaid principle balance plus any accrued but unpaid interest. Delinquent notes are treated as distributions based upon the terms of the Plan document.

Risks and uncertainties

The Plan provides for investments in assets that are exposed to risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities may occur that materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

NAVA 401(k) Plan

Notes to Financial Statements

Note 2. Summary of significant accounting policies – continued

Fair value measurements

ASC 820, Fair Value Measurements and Disclosures (ASC 820), defines fair value and establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The assets or liabilities fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Investments in registered investment companies (mutual funds) are valued at fair value based on the unit value of the fund. Unit values are determined by the institutions sponsoring such funds by dividing the fund's net assets at fair value by its units outstanding at the valuation dates.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of the different methodologies or assumptions to determine the fair value of certain instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used during December 31, 2021 and 2020.

NAVA 401(k) Plan

Note 2. Summary of significant accounting policies – continued

Fair value measurements – continued

The following table sets forth by level within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	2021	Unaudited 2020
Level 1 - Mutual Funds	\$ 11,305,313	\$ 6,866,147

Payment of benefits

Benefits are recorded when paid.

Note 3. Investments - Certified by the plan custodian

The Plan's investments are held by Matrix Trust Company, the Plan Custodian. A summary of the fair values of investments at December 31, 2021 and 2020 follow. Investments that represent 5% or more of the total Plan assets are separately identified. Fair value has been determined by quoted market prices, all investments are mutual funds.

Issuer	Description	2021	Unaudited 2020
VANGUARD	TOTAL STOCK MKT IDX ADM	\$ 5,199,008	\$ 3,187,830
VANGUARD	TOTAL INTL STOCK INDEX ADMIR	\$ 2,958,085	\$ 1,995,226
VANGUARD	REAL ESTATE INDEX ADMIRAL	\$ 987,017	\$ 539,618
VANGUARD	TOTAL BOND MARKET INDEX ADI	\$ 885,370	\$ 609,482

The custodian certified as complete and accurate all investments at fair value as of December 31, 2021 and 2020 and the investments transactions (individually and in summary) for the years then ended. The certification includes investment income, realized and unrealized gains and losses, and certain supplemental schedule information.

Note 4. Party-in-interest transactions

The Company provides certain accounting and administrative services to the Plan for which no fees are charged. The Plan allows participants to take out loans against their account balances. These transactions qualify as party-in-interest transactions, which are exempt from prohibited transaction rules.

Note 5. Plan termination

Although the Company has not expressed any intention to do so, it has the right to discontinue its contributions and to terminate the Plan at any time subject to the provision of ERISA. Upon termination of the Plan, the net assets of the Plan would be distributed to participants based upon individual interests in the Plan.

NAVA 401(k) Plan

Notes to Financial Statements

Note 6. Income tax status

The prototype plan, under which the Plan has adopted, has received a favorable opinion letter from the Internal Revenue Service dated March 31, 2014, stating that the Plan is qualified under Section 401(a) of the Code and therefore, the related trust is exempt from taxation. The Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

ASC 740, Income Taxes, prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return as well as guidance on de-recognition, classification, interest and penalties and financial statement reporting disclosures. For these benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. Given the Plan is tax exempt and has no unrelated business income, the provisions of ASC 740 do not have an impact on the Plan's financial statements.

The Plan is subject to routine audits by the IRS and Department of Labor; however, there are currently no audits for any periods in progress. The Plan administrator believes it is no longer subject to examinations for Plan years prior to 2019.

Note 7. Reconciliation of the financial statements to IRS Form 5500

The financial statements are prepared on the accrual method of accounting and the tax return is prepared on the cash method of accounting. The reconciliation is as follows:

Net assets available for benefits per financial report	<u>\$ 11,504,068</u>
Net assets available for benefits per tax return	11,351,060
Cash to accrual adjustment	<u>153,008</u>
	<u>11,504,068</u>
Variance	<u>\$ -</u>

Note 8. Subsequent events

Management has analyzed subsequent events through September 30, 2022, the date on which the financial statements were available to be issued. No events have occurred since December 31, 2021 that would have a material impact on the financial statements.
