Honda Retirement Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Honda Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of March 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (collectively, the 2022 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended March 31, 2022, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).

- the information in the accompanying 2022 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Honda Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Honda Retirement Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Honda Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Honda Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Auditor's Report on the 2021 Financial Statements

We were engaged to audit the 2021 financial statements of Honda Retirement Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by a qualified institution. In our report dated January 9, 2023, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2021 financial statements, and (b) the form and content of the information included in the 2021 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Honda Retirement Plan

Notes to Financial Statements

NOTE 1 – THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General – The following description of Honda Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of plan provisions.

The Plan was established in 1962 and is a noncontributory defined benefit pension plan sponsored by American Honda Motor Company, Inc., and its subsidiaries (the Company). The Company is a member of American Honda Motor Co., Inc., and its subsidiaries' controlled group. The Plan provides benefits to eligible employees of the Company and other companies, affiliates, and subsidiaries which adopt the Plan with the consent of the Board of Directors of the Company.

The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code) and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective July 1, 2009, the following plans merged into the American Honda Retirement Plan, which was subsequently renamed the Honda Retirement Plan:

1. American Honda Retirement Plan (the AHM Plan)
2. Honda South Carolina Retirement Plan (the HSC Plan)
3. Honda of America Mfg., Inc. Pension Plan (the HAM Plan)
4. Honda Mfg. of Alabama, LLC Pension Plan (the HMA Plan)
5. Honda Transmission Mfg. of America, Inc. Pension Plan (the HTM Plan)

Master Trust – The investments of the Plan, including assets held in a 401(h) account, are a combination of the AHM, HSC, HAM, HMA, and HTM Plans. The American Honda Motor Co. Master Trust (the Master Trust) was established in October 2010 to hold substantially all of the Plan's assets, including the assets of the 401(h) account, with those of the Midwest Express Inc. Retirement Pension Plan (Midwest Express) and the Celina Aluminum Precision Technology, Inc. Defined Benefit Plan (Celina). Each participating retirement plan has an undivided interest in the Master Trust. The investments included in the statements of net assets available for benefits represent the Plan's share of the investment in the Master Trust.

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Net investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon the interest in the commingled funds of the Master Trust or the plan-specific identified funds held in the Master Trust.

Administration – The Company has appointed the Honda Retirement Plan Committee (the Committee) to oversee the Plan's investments and has delegated the responsibility for operation and administration of the Plan to a named administrator. The Company processes and maintains the records of participant data and has contracted with The Northern Trust Company (Northern Trust) to act as the custodian and trustee. The Company has also contracted with Mercer (U.S.) Inc. (Mercer) to act as the actuary of the Plan. For the years ended March 31, 2022 and 2021, substantially all expenses incurred for administering the Plan were paid by the Plan.

Basis of accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Funding policy – The Plan's funding policy is for the Company to contribute an amount that will meet or exceed the annual ERISA minimum funding requirement. For the years ended March 31, 2022 and 2021, the Company made contributions of \$100,000,000 each year. The Company's contributions for 2022 and 2021 exceeded the minimum funding requirements of ERISA.

Death and disability benefits – If an active vested employee dies prior to commencement of benefits, a death benefit is payable to the employee's beneficiary. The benefit is a monthly survivor pension equal to 50% of the benefit that would have been paid if the vested deceased employee had retired on the date of death and elected to receive a 50% joint and survivor annuity. A participant who becomes disabled and terminates employment may receive a lump sum payment of the accrued benefit in lieu of receiving any other benefits under the Plan.

Payment of benefits – Benefit payments to participants are recorded upon distribution.

Vesting – The Plan provides that benefits vest to participants based on the earlier of the completion of 5 years of credited service or reaching age 65 while in service with the Company.

Pension benefits – Effective January 1, 2014, all new hires hired after September 4, 2013, are no longer allowed into the Plan. For service after January 1, 2014, the benefit accrual rate will decrease from 2.5% to 1.0%. Early retirement, social security supplement change, and the lump sum option have been changed to offer unlimited lump sums to all participants. The Company also allows participants in the Plan to either take the service rate decrease or stop accruing and allows participants to have the option of receiving an additional distribution based on number of years of service.

Following are the pension benefits relating to the five affiliated plans:

1. AHM Plan

Effective January 1, 2014

Employees with 5 or more years of service are entitled to annual pension benefits beginning at the normal retirement age, 65, based upon the sum of:

- A. 1.0% of compensation earned on or after January 1, 2014, provided that the participant did not elect, or was deemed to have elected by default, to discontinue accruals under the Plan on and after January 1, 2014, with the understanding that such person will be eligible to receive "Company Service Based Contributions" through and as described in the Honda 401(k) Savings Plan.

Honda Retirement Plan

Notes to Financial Statements

- B. 2.5% of compensation earned after June 30, 2009, and prior to January 1, 2014, except as follows: the benefit will be 2.0% of compensation during the same period from Honda Aero, Inc., or Honda Aircraft Company, Inc., unless the participant was accruing benefits under the AHM Plan or its predecessor at the 2.5% of compensation rate at the time of transfer, in which case benefits shall continue to accrue at 2.5% of compensation rate.
- C. The annual benefit in the normal retirement benefit form commencing at the normal retirement date accrued under the AHM Plan's predecessor through June 30, 2009.

The AHM Plan permits early retirement, with reduced benefits, to participants who are at least 55 years old and have completed 10 years of service.

Employees electing early retirement are entitled to accrued pension benefits earned to the actual early retirement date with a reduction for each month prior to age 62 as follows:

Employees who terminated employment prior to January 1, 2014:

<u>Years of Vesting Service at Early Retirement Date</u>	<u>Reduction if Under Age 62 at Early Retirement Date</u>
At least 10, but less than 20	1/3% per month
At least 20, but less than 25	1/4% per month
25 or more	1/6% per month

Employees who terminate employment on or after January 1, 2014:

<u>Years of Vesting Service at Early Retirement Date</u>	<u>Reduction at Early Retirement Date</u>
At least 10	1/6% per month from age 62
Less than 10	1/2% per month from normal retirement date

In addition to the early retirement benefit, participants will receive a supplemental benefit of either \$300 or \$600 each month depending on retirement prior to January 1, 2014, with at least 30 years of service at the actual early retirement date, or retiring on or after January 1, 2014, with at least 20 years of service, respectively. This supplemental benefit will continue from the date of early retirement until the earlier of: (a) the month in which the participant reaches age 62 or (b) the month in which the participant dies.

Employees who terminate with 10 years of service prior to age 55 may elect to commence receiving retirement benefits as early as age 55. Such benefits will be reduced by 1/2% for each month prior to age 65.

For participants who do not elect otherwise, retirement income will be paid on the basis of a qualified joint and survivor annuity for married participants and a straight-line annuity for unmarried participants.

Honda Retirement Plan Notes to Financial Statements

Prior to January 1, 2014

Employees with 5 or more years of service are entitled to annual pension benefits beginning at the normal retirement age, 65, based upon the sum of:

A. The greater of:

- i. 1.5% of the first \$12,000 of earnings paid during 1983 plus 2% of earnings paid in 1983 in excess of \$12,000, multiplied by years of continuous service prior to January 1, 1984, or
- ii. The sum of:
 - a. 1.75% of the first \$6,600 of earnings for each year of AHM Plan participation after June 30, 1970, but prior to January 1, 1984, plus 2.5% of such earnings in excess of \$6,600, plus
 - b. 1.75% of the first \$6,600 of earnings prior to July 1, 1970, plus 2.36% of such earnings in excess of \$6,600, multiplied by whole years of continuous service completed prior to July 1, 1970, and after completing one year of continuous service.

B. 2.5% of the annual compensation for each year of service after December 31, 1983.

The AHM Plan permits early retirement, with reduced benefits, to participants who are at least 55 years old and have completed 10 years of service.

Employees electing early retirement prior to December 31, 1999, were entitled to accrue pension benefits earned to the actual early retirement date, with a reduction of 5/12% for each month prior to age 62. However, for those employees electing early retirement subsequent to December 31, 1999, except those employed by Honda Power Equipment Mfg., Inc. (with actual early retirement date), the reduction for each month prior to age 62 was changed and is based on the following:

<u>Years of Vesting Service at Early Retirement Date</u>	<u>Reduction if under age 62 at Early Retirement Date</u>
At least 10, but less than 20	1/3% per month
At least 20, but less than 25	1/4% per month
25 or more	1/6% per month

In addition to the early retirement benefit, participants with at least 30 years of service at the actual early retirement date will receive a supplemental benefit of \$300 each month from the date of early retirement until they reach age 62.

Employees who terminate with 10 years of service prior to age 55 may elect to commence receiving retirement benefits as early as age 55. Such benefits will be reduced by 1/2% for each month prior to age 65.

For participants who do not elect otherwise, retirement income will be paid on the basis of a qualified joint and survivor annuity for married participants and a straight-line annuity for unmarried participants.

2. HSC Plan

Effective January 1, 2014

Employees with 5 or more years of service are entitled to annual pension benefits beginning at the normal retirement age of 65, equal to 1.5% of compensation earned prior to January 1, 2014, plus 1.0% of compensation earned on or after January 1, 2014.

The HSC Plan permits early retirement, with reduced benefits, to participants who are at least 55 years old and have completed 10 years of service.

Employees electing early retirement are entitled to accrued pension benefits earned to the actual early retirement date with a reduction for each month prior to age 62 as follows:

Employees who terminated employment prior to January 1, 2014:

<u>Years of Vesting Service at Early Retirement Date</u>	<u>Reduction if under age 62 at Early Retirement Date</u>
At least 10, but less than 20	1/3% per month
At least 20, but less than 25	1/4% per month
25 or more	1/6% per month

Employees who terminate employment on or after to January 1, 2014:

<u>Years of Vesting Service at Early Retirement Date</u>	<u>Reduction at Early Retirement Date</u>
At least 10	1/6% per month from age 62
Less than 10	1/2% per month from normal retirement date

In addition to the early retirement benefit, participants will receive a supplemental benefit of either \$300 or \$600 each month depending on retirement prior to January 1, 2014, with at least 30 years of service at the actual early retirement date, or retiring on or after January 1, 2014, with at least 20 years of service, respectively. This supplemental benefit will continue from the date of early retirement until the earlier of: (a) the month in which the participant reaches age 62 or (b) the month in which the participant dies.

Employees who terminate with 10 years of service prior to age 55 may elect to commence receiving retirement benefits as early as age 55. Such benefits will be reduced by 1/2% for each month prior to age 65.

For participants who do not elect otherwise, retirement income will be paid on the basis of a qualified joint and survivor annuity for married participants and a straight-line annuity for unmarried participants.

Prior to January 1, 2014

Employees with 5 or more years of service were entitled to annual pension benefits beginning at the normal retirement age of 65, equal to 1.5% of annual compensation for each year of service.

Honda Retirement Plan Notes to Financial Statements

The HSC Plan permits early retirement, with reduced benefits, to participants who are at least 55 years old and have completed 10 years of service.

Employees electing early retirement are entitled to accrued pension benefits earned to the actual early retirement date with a reduction for each month prior to age 62 as follows:

<u>Years of Vesting Service at Early Retirement Date</u>	<u>Reduction if under age 62 at Early Retirement Date</u>
At least 10, but less than 20	1/3% per month
At least 20, but less than 25	1/4% per month
25 or more	1/6% per month

In addition to their early retirement benefit, participants with at least 30 years of service at the actual early retirement date will receive a supplemental benefit of \$300 for each month from the date of early retirement until they reach age 62.

Employees who terminate with 10 years of service prior to age 55 may elect to commence receiving retirement benefits as early as age 55. Such benefits will be reduced by 1/2% for each month prior to age 65.

For participants who do not elect otherwise, retirement income will be paid on the basis of a qualified joint and survivor annuity for married participants and a straight-line annuity for unmarried participants.

3. HAM Plan

Effective January 1, 2014

Employees with 5 or more years of service are entitled to annual pension benefits beginning at the normal retirement age of 65, based upon the sum of:

- A. 1.0% of compensation earned on or after January 1, 2014, provided that the participant did not elect, or was deemed to have elected by default, to discontinue accruals under the Plan on and after January 1, 2014, with the understanding that such person will be eligible to receive "Company Service Based Contributions" through and as described in the Honda 401(k) Savings Plan.
- B. 2.0% of annual compensation earned on or after January 31, 2009, and prior to January 1, 2014.
- C. 2.5% of annual compensation for each year of service through December 31, 2008.

The HAM Plan permits early retirement, with reduced benefits, to participants who are at least 55 years old and have completed 10 years of service.

Honda Retirement Plan

Notes to Financial Statements

Employees electing early retirement are entitled to accrued pension benefits earned to the actual early retirement date with a reduction for each month prior to age 65 (or prior to age 62 if the participant has at least 20 years of service) as follows:

Employees who terminated employment prior to January 1, 2014:

Participants with accrued benefits earned before January 1, 2009:

<u>Years of Vesting Service at Early Retirement Date</u>	<u>Reduction at Early Retirement Date</u>
At least 10, but less than 20	1/3% per month
At least 20, but less than 25	1/4% per month
25 or more	1/6% per month

Participants with accrued benefits earned after December 31, 2008:

<u>Years of Vesting Service at Early Retirement Date</u>	<u>Reduction at Early Retirement Date</u>
At least 10, but less than 20	1/3% per month
At least 20, but less than 30	1/6% per month
30 or more	0% per month

Employees who terminate employment on or after January 1, 2014:

The greater of: (a) the participant's vested accrued benefit determined as of the early retirement date reduced for each month by which that date precedes reaching age 62 by 1/6% per month or (b) the participant's vested accrued benefit based on the early retirement reduction factors in effect prior to January 1, 2014, as described above.

In addition to the early retirement benefit, participants will receive a supplemental benefit of either \$300 or \$600 each month depending on retirement prior to January 1, 2014, with at least 30 years of service at the actual early retirement date, or retiring on or after January 1, 2014, with at least 20 years of service, respectively. This supplemental benefit will continue from the date of early retirement until the earlier of: (a) the month in which the participant reaches age 62 or (b) the month in which the participant dies.

Employees who terminate with 10 years of service prior to age 55 may elect to commence receiving retirement benefits as early as age 55. Accrued benefits earned before 2009 are reduced based on the same reduction as those eligible for early retirement. Accrued benefits earned after 2008 will be reduced by 1/2% for each month prior to age 65.

For participants who do not elect otherwise, retirement income will be paid on the basis of a qualified joint and survivor annuity for married participants and a straight-line annuity for unmarried participants.

Honda Retirement Plan Notes to Financial Statements

Prior to January 1, 2014

Employees with 5 or more years of service were entitled to annual pension benefits beginning at the normal retirement age of 65, based upon the sum of:

- A. 2.5% of annual compensation for each year of service through December 31, 2008.
- B. 2.0% of annual compensation for each year of service commencing January 1, 2009.

At least 10, but less than 20	1/3% per month
At least 20, but less than 25	1/4% per month
25 or more	1/6% per month

Participants with accrued benefits earned after December 31, 2008:

<u>Years of Vesting Service at Early Retirement Date</u>	<u>Reduction at Early Retirement Date</u>
At least 10, but less than 20	1/3% per month
At least 20, but less than 30	1/4% per month
30 or more	0% per month

In addition to the early retirement benefit, participants between age 55 and 62 with at least 30 years of service at the actual early retirement date will receive a supplemental benefit of \$300 each month that begins on or after the participant's early retirement date and until the earlier of: (a) the month in which the participant reaches age 62 or (b) the month in which the participant dies.

Employees who terminate with 10 years of service prior to age 55 may elect to commence receiving retirement benefits as early as age 55. Accrued benefits earned before 2009 are reduced based on the same reduction as those eligible for early retirement. Accrued benefits earned after 2008 will be reduced by 1/2% for each month prior to age 65.

For participants who do not elect otherwise, retirement income will be paid on the basis of a qualified joint and survivor annuity for married participants and a straight-line annuity for unmarried participants.

4. HMA Plan

Effective January 1, 2014

Employees with five or more years of service are entitled to annual pension benefits beginning at the normal retirement age of 65, equal to 2.5% of compensation prior to January 1, 2014, plus 1.0% of annual compensation earned on or after January 1, 2014, provided the employee did not elect, or was deemed to have elected by default, to discontinue accruals under the Plan effective on and after January 1, 2014, with the understanding the such person will be eligible to receive "Company Service Contributions" through and as described in the Honda 401(k) Retirement Services Plan.

The HMA Plan permits early retirement, with reduced benefits, to participants who are at least 55 years old and have completed ten years of service.

Employees electing early retirement are entitled to accrued pension benefits earned to the actual early retirement date with a reduction for each month prior to age 65 as follows:

Employees who terminated employment prior to January 1, 2014:

1/3% for each month by which benefit commencement precedes: (a) age 65 if the employee does not have at least 20 years of service or (b) age 62 if the employee has at least 20 years of service.

Employees who terminate employment after January 1, 2014:

The greater of: (a) the participant's vested accrued benefit determined as of the early retirement date reduced for each month by which that date precedes reaching age 62 by 1/6% per month or (b) the participant's vested accrued benefit based on the early retirement reduction in effect prior to January 1, 2014, as described above.

Employees who terminate with ten years of service prior to age 55 may elect to commence receiving retirement benefits as early as age 55. Such benefits will be reduced by 1/3% for each month prior to age 65 for benefits earned before 2014, and with respect to benefits earned after 2013, by 1/2% for each month by which the early retirement date precedes age 65.

For participants who do not elect otherwise, retirement income will be paid on the basis of a qualified joint and survivor annuity for married participants and a straight-line annuity for unmarried participants.

Prior to January 1, 2014

Employees with five or more years of service were entitled to annual pension benefits beginning at the normal retirement age of 65, equal to 2.5% of annual compensation for each year of service.

The HMA Plan permits early retirement, with reduced benefits, to participants who are at least 55 years old and have completed ten years of service.

Employees electing early retirement are entitled to accrued pension benefits earned to the actual early retirement date with a reduction of 1/3% for each month prior to age 65 if the participant does not have at least 20 years of service or by age 62 if the participant has at least 20 years of service.

5. HTM Plan

Effective January 1, 2014

Employees with 5 or more years of service are entitled to annual pension benefits beginning at the normal retirement age of 65, based upon the sum of:

- A. 1.0% of compensation earned on or after January 1, 2014, provided that the participant did not elect, or was deemed to have elected by default, to discontinue accruals under the Plan on and after January 1, 2014, with the understanding that such person will be eligible to receive "Company Service Based Contributions" through and as described in the Honda 401(k) Retirement Plan.
- B. 2.0% of compensation earned on or after January 1, 2009, and prior to January 1, 2014.
- C. 2.5% of annual compensation for each year of service through December 31, 2008.

The HTM Plan permits early retirement, with reduced benefits, to participants who are at least 55 years old and have completed 10 years of service.

Employees electing early retirement are entitled to accrued pension benefits earned to the actual early retirement date with a reduction for each month prior to age 65 (or to the age 62 if the participant has at least 20 years of service) as follows:

Employees who terminated employment prior to January 1, 2014:

Participants with accrued benefits earned before January 1, 2009:

<u>Years of Vesting Service at Early Retirement Date</u>	<u>Reduction at Early Retirement Date</u>
At least 10, but less than 20	1/3% per month
At least 20, but less than 25	1/4% per month
25 or more	1/6% per month

Honda Retirement Plan

Notes to Financial Statements

Participants with accrued benefits earned after December 31, 2008:

<u>Years of Vesting Service at Early Retirement Date</u>	<u>Reduction at Early Retirement Date</u>
At least 10, but less than 20	1/3% per month
At least 20, but less than 30	1/6% per month
30 or more	0% per month

Employees who terminate employment after January 1, 2014:

The greater of: (a) the participant's vested accrued benefit determined as of early retirement date reduced for each month by which that date precedes reaching age 62 by 1/6% per month or (b) the participant's vested accrued benefit based on the early retirement reduction in effect prior to January 1, 2014, as described above.

In addition to the early retirement benefit, participants will receive a supplemental benefit of either \$300 or \$600 each month depending on retirement prior to January 1, 2014, with at least 30 years of service at the actual early retirement date, or retiring on or after January 1, 2014, with at least 20 years of service, respectively. This supplemental benefit will continue from the date of early retirement until the earlier of: (a) the month in which the participant reaches age 62 or (b) the month in which the participant dies.

Employees who terminate with 10 years of service prior to age 55 may elect to commence receiving retirement benefits as early as age 55. Accrued benefits earned before 2009 are reduced based on the same reduction as those eligible for early retirement. Benefits are reduced with actuarial equivalence for payments before age 55. For participants with less than 10 years of service, benefits are reduced with actuarial equivalence from age 65. Accrued benefits earned after 2008 will be reduced by 1/2% for each month prior to age 65.

For participants who do not elect otherwise, retirement income will be paid on the basis of a qualified joint and survivor annuity for married participants and a straight-line annuity for unmarried participants.

Prior to January 1, 2014

Employees with 5 or more years of service were entitled to annual pension benefits beginning at the normal retirement age of 65, based upon the sum of:

- A. 2.5% of annual compensation for each year of service through December 31, 2008.
- B. 2.0% of annual compensation for each year of service after January 1, 2009.
- C. For participants terminated or retired prior to July 1, 2002, each participant earned a monthly benefit equal to the sum of:
 - i. Prior to January 1, 1988, the greater of \$168 or 1.5% of base compensation for each year of service.
 - ii. After December 31, 1987, and prior to January 1, 1997, 1.5% of base compensation for each year of service.

- iii. After December 31, 1996, 2.0% of base compensation for each year of service. Effective January 1, 1999, the rate was increased to 2.5% of base compensation for each year of service after December 31, 1996.

The HTM Plan permits early retirement, with reduced benefits, to participants who are at least 55 years old and have completed 10 years of service.

Employees electing early retirement are entitled to accrued pension benefits earned to the actual early retirement date with a reduction for each month prior to age 65 (or to the age 62 if the participant has at least 20 years of service) as follows:

Participants with accrued benefits earned before January 1, 2009:

<u>Years of Vesting Service at Early Retirement Date</u>	<u>Reduction at Early Retirement Date</u>
At least 10, but less than 20	1/3% per month
At least 20, but less than 25	1/4% per month
25 or more	1/6% per month

Participants with accrued benefits earned after December 31, 2008:

<u>Years of Vesting Service at Early Retirement Date</u>	<u>Reduction at Early Retirement Date</u>
At least 10, but less than 20	1/3% per month
At least 20, but less than 30	1/6% per month
30 or more	0% per month

In addition to the early retirement benefit, participants between age 55 and 62 and with at least 30 years of service at the actual early retirement date will receive a supplemental benefit of \$300 each month that begins on or after the participant's early retirement date and until the earlier of: (a) the month in which the participant reaches age 62 or (b) the month in which the participant dies.

Employees who terminate with 10 years of service prior to age 55 may elect to commence receiving retirement benefits as early as age 55. Accrued benefits earned before 2009 are reduced based on the same reduction as those eligible for early retirement. Benefits are reduced with actuarial equivalence for payments before age 55. For participants with less than 10 years of service, benefits are reduced with actuarial equivalence from age 65. Accrued benefits earned after 2008 will be reduced by 1/2% for each month prior to age 65.

For participants who do not elect otherwise, retirement income will be paid on the basis of a qualified joint and survivor annuity for married participants and a straight-line annuity for unmarried participants.

During the period April 22, 2020 through June 5, 2020, the Plan was amended to allow a Voluntary Retirement Opportunity (VRO) in which certain eligible active participants shall have four years of additional base compensation added to accrued pension eligible compensation, four years added to his or her age and be credited with an additional four years of vesting service.

Notes to Financial Statements

Investment valuation and income recognition – The Plan's investments are held in the Master Trust by Northern Trust and are reported at fair value. The Plan's trustee, Northern Trust, certifies the fair value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Income taxes – The Plan has been amended since receiving a favorable determination letter dated May 28, 2013. The Company believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Risks and uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Additionally, the Master Trust has investments in foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance, and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than similar types of securities of comparable U.S. companies.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

401(h) Account – The HAM and HTM Plans have established a separate account (the 401(h) Account) within the Master Trust to help fund certain defined medical benefits for eligible retired associates and their dependents (Medical Benefits) in accordance with Section 401(h) of the Code. Assets accumulated for Medical Benefits may not be used for any purpose other than payment of those defined medical retiree benefits. The Company's funding policy for Medical Benefits is discretionary as approved by the Company's management but is limited to the maximum deductible contribution. Medical Benefits are provided through the Honda Manufacturing Post-Retirement Medical Program (the Retiree Health and Welfare Plan). Any assets transferred to the 401(h) Account from the defined benefit pension plan in a qualified transfer of excess pension plan assets (and any income allocable thereto) that are not used during the plan year must be transferred out of the account to the pension plan. Accordingly, the net assets, contributions, investment income, and benefit obligation information related to Medical Benefits are reflected in the Retiree Health and Welfare Plan's financial statements. The 401(h) Account accounted for approximately 6% and 5% of the total assets in the Master Trust at March 31, 2022 and 2021, respectively.

Subsequent events – The Plan has evaluated subsequent events through January 9, 2023, which is the date the financial statements were available to be issued.

NOTE 2 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The tables below represent assets of the Master Trust. Plan assets are pooled for investment purposes only, and employer contributions and distributions are separately allocable and designated to a particular defined benefit plan. The Celina and Midwest Express benefit plans accounted for approximately 1.5% and 2% of the total assets in the Master Trust at March 31, 2022 and 2021, respectively.

Honda Retirement Plan

Notes to Financial Statements

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no significant changes in the methodologies used at March 31, 2022 and 2021.

- (a) *Short-term investments* – Level 2 assets are valued based on inputs other than unadjusted quoted prices in active markets of exchange that are observable for the asset, either directly or indirectly. Level 3 assets are valued based on unobservable inputs. Valuation techniques are provided by outside vendors such as Interactive Data or Standard & Poor's (S&P). Included in this amount is the cash collateral received as a result of securities lending activities detailed in Note 6.
- (b) *Equity securities: U.S. companies* – This category consists primarily of common stock. Level 1 assets represent unadjusted quoted prices in an active market or exchange.
- (c) *Equity securities: Foreign* – This category includes common stock and preferred stock. Level 1 assets are priced using the last trade, which are unadjusted and quoted in an active market or exchange.
- (d) *Pooled funds equity* – This category consists of units of commingled funds valued using the net asset value practical expedient (NAVPE) of the underlying funds minus liabilities, then divided by the number of the units outstanding. The NAVPE is accessible to the Plan and to all holders without limit.
- (e) *Government and agency bonds: U.S.* – The Level 2 assets are comprised of government, agency, and index linked bonds, and are valued using observable bid evaluation prices using observable market-based inputs.
- (f) *Government and agency bonds: Foreign* – This category includes bonds issued by foreign governments and agencies. Their purpose is the same as their U.S. counterpart. Assets are classified as Level 2 because corroborated, indicative quotes and observable market data are available.
- (g) *U.S. state and local bonds* – U.S. state and local bonds are issued by state, city, and other local governments, or their agencies to finance their operating or capital expenditures. A bid evaluation is used for Level 2. The sources used are the same as those under U.S. government and agencies.
- (h) *Corporate bonds* – This category includes both U.S. and foreign corporate bonds. The Level 2 assets are various debt investments in U.S. funds and U.S. and foreign companies, and are valued using observable bid evaluation prices using observable market-based inputs. Any Level 3 assets are composed of corporate bonds for which there are no observable inputs and, where extrapolated, proprietary models and indicative quotes are used.
- (i) *Pooled fund debt* – This category consists of units of commingled funds valued using the NAVPE of the underlying funds minus liabilities, then divided by the number of the units outstanding. The NAVPE is accessible to the Plan and to all holders without limit.
- (j) *Asset-backed securities* – These are bonds or notes backed by financial assets. Institutional observable inputs are used with an income valuation technique provided by outside vendors.
- (k) *Real estate* – Real estate plan assets are invested in a U.S. commingled fund and are valued at NAVPE using proprietary models from the investment managers that are used to arrive at estimated prices.

- (l) *Private equity funds* – Private equity funds are valued at NAVPE using proprietary models and uncorroborated data from the limited partnerships.
- (m) *Hedge funds* – Hedge funds generally hold liquid and readily priceable securities, such as public entities in long-short funds, exchange-traded derivatives in macro/commodity trading funds, and corporate bonds in credit-relative value funds. Hedge funds do not have readily available market quotations and are therefore valued using NAVPE per share provided by the investment advisor or third-party administrator.
- (n) *Derivatives* – This category includes equity contracts, interest rate forward and future contracts, interest rate option contracts, interest rate swap contracts, U.S. and foreign credit swap contracts, cash collateral, and other option contracts. Level 1 liabilities may be priced by the settlement price disseminated by future exchanges or the last trade price in an OTC market or exchange. Level 2 assets are priced using binding or corroborated, indicative quotes or evaluated prices using observable, market-based data. Level 3 liabilities are priced using uncorroborated indicative quotes provided by brokers, investment managers, or independent pricing providers.
- (o) *Interest-bearing cash* – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value and to transact at that price. The funds held by the Plan are deemed to be actively traded. The funds held by the Plan are open-end funds that are registered with the U.S. Securities and Exchange Commission.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 – RELATED-PARTY TRANSACTIONS

Certain Master Trust investments are managed by Northern Trust, the trustee, and Aetna, the Insurer. Any purchases and sales of these investments are open market transactions at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA. Fees for investment management services provided by the trustee were paid by the Company.

In addition, Northern Trust facilitates securities lending activities with the Master Trust, which qualify as party-in-interest transactions under ERISA (Note 6).

NOTE 4 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits represent the estimated future periodic payments, including lump sum distributions, under the plan's provisions that are attributable to services rendered by employees through the valuation date. Accumulated Plan benefits include benefits expected to be paid to: a) retired or terminated employees or their beneficiaries, b) beneficiaries of employees who have died, and c) present employees or their beneficiaries. Benefits under the Plan are based on employees' annual compensation. The accumulated plan benefits for active employees are based on their plan compensation for all years of plan participation ending on the date at which the benefit information is presented (valuation date). The accumulated plan benefits are calculated based on benefit information as of April 1, 2022 and 2021 (the end of the respective plan year). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable, to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Honda Retirement Plan Notes to Financial Statements

Significant actuarial assumptions used in the valuations as of April 1 are as follows:

	<u>2022</u>	<u>2021</u>
Rate of return	6.1%	6.5%
Mortality table	Pri-2012/MP-2021	Pri-2012/MP-2019
Retirement age (current vested terminations):		
AHM/HSC Plans	Age 65	Age 65
HAM/HMA/HTM Plans	Age 60 if 10 years of service; otherwise age 65	Age 60 if 10 years of service; otherwise age 65

The retirement age assumptions applied to active participants are as follows:

<u>Age</u>	<u>Manufacturing</u>	<u>Non-Manufacturing</u>
55	20.00%	10.00%
56-61	15.00%	10.00%
62-64	25.00%	15.00%

Notes to Financial Statements

Changes in the approximate actuarially determined present value of accumulated plan benefits are as follows for the years ended March 31:

	2022	2021
Actuarial present value of accumulated plan benefits at beginning of year	\$ 3,347,048,000	\$ 4,025,427,000
Increase (decrease) during the year:		
Benefits accumulated, net	151,318,000	163,251,000
Interest due to decrease in discount period	200,522,000	196,156,000
Change in assumptions	107,934,000	93,660,000
Benefits paid	(483,876,000)	(1,683,380,000)
Change in plan provisions	-	551,934,000
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 3,322,946,000</u>	<u>\$ 3,347,048,000</u>

The increase in accumulated plan benefits resulting from changes in actuarial assumptions of approximately \$107,934,000 for 2022 occurred as a result of changes in the following:

- The discount rate decreased from 6.5% to 6.1% to reflect the long-term expected return on plan assets as of March 31, 2022.
- The lump sum conversion interest rate assumptions were updated based on implied future spot rates using the March 31, 2022 Mercer Yield Curve and mortality projection scale MP-2021.
- The mortality projection scale was updated to the Mercer Modified MMP-2021 projection scale.

The increase in accumulated plan benefits resulting from changes in actuarial assumptions of approximately \$93,660,000 for 2021 occurred as a result of changes in the following:

- The discount rate increased from 6.3% to 6.5% to reflect the long-term expected return on plan assets as of March 31, 2022.
- Assumptions for salary scale, retirement rates, withdrawal rates, form of payment, benefit commencement age for vested terminated participants, and spousal age difference were updated based on the most recent experience study dated February 2021.
- The lump sum conversion interest rate assumptions were updated to reflect bond yields as of March 31, 2022. The mortality improvement assumption was updated from MP-2019 to MP-2020.

The increase in accumulated plan benefits resulting from the change in plan provisions of approximately \$551,934,000 for 2021 occurred due to the enhanced benefits payable to participants who elected to participate in the VRO. The enhancements added an extra four years of age, service and pay when determining their retirement benefit, as well as waived the 20-year service eligibility requirement for the pre-62 pension supplement.

There were no changes in plan provisions for the year ended March 31, 2022.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 5 – INFORMATION CERTIFIED BY THE TRUSTEE

The administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Northern Trust, the trustee of the Plan, has certified that the following information included in the accompanying financial statements is complete and accurate:

- Plan interest in the American Honda Motor Co. Master Trust, as reflected in the statements of net assets available for benefits as of March 31, 2022 and 2021.
- Net investment income from interest in the American Honda Motor Co. Master Trust, as reflected in the statements of changes in net assets available for benefits for the years ended March 31, 2022 and 2021.
- Investment information disclosed in Note 6 to the financial statements.

NOTE 6 – INTEREST IN THE MASTER TRUST

Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon the interest in the commingled funds of the Master Trust or the Plan's specific identified funds held in the Master Trust. At March 31, 2022 and 2021, the Plan's interest in the net assets of the Master Trust was approximately 93%.

Honda Retirement Plan Notes to Financial Statements

The investment income of the Master Trust is as follows for the years ended March 31:

	2022	2021
Investment income:		
Net appreciation in fair value of investments	\$ 443,574,924	\$ 1,038,625,036
Interest	64,289,871	55,407,776
Dividends	27,895,425	24,424,878

Total investment income	<u>\$ 518,228,613</u>	<u>\$ 1,103,629,624</u>
Plan interest in investment income of the Master Trust	<u>\$ 482,212,226</u>	<u>\$ 1,025,122,758</u>

The Master Trust participated in the trustee's Securities Lending Program for its U.S. Securities held in custody at the trustee to provide incremental income for the years ended March 31, 2022 and 2021. These securities are loaned by the trustee to third-party broker-dealers in exchange for collateral (cash and noncash), in compliance with Department of Labor collateral requirements. For U.S. securities, the collateral is at least 102% of the fair value of the borrowed securities. The collateral received (both cash and noncash) is invested in the trustee's Core U.S.A. Collateral Section Fund.

The fair value of the securities loaned that were collateralized by cash was approximately \$166,798,000 and \$120,897,000 at March 31, 2022 and 2021, respectively. Cash collateral of approximately \$171,434,000 and \$123,423,000 was held at March 31, 2022 and 2021, respectively, with offsetting liabilities. The fair value of the securities loaned collateralized by noncash collateral was approximately \$14,749,000 and \$51,924,000 at March 31, 2022 and 2021, respectively. Noncash collateral of approximately \$15,356,000 and \$52,836,000 was held at March 31, 2022 and 2021, respectively, with offsetting liabilities.

The Master Trust and the trustee each receive a percentage of net income derived from securities lending activities based on the types of securities. Income earned during the years ended March 31, 2022 and 2021, was approximately \$336,000 and \$683,000, respectively, which is included in interest and dividends, net of bank fees of approximately \$84,000 and \$171,000 for the years ended March 31, 2022 and 2021, respectively.

NOTE 7 – PLAN TERMINATION OR MODIFICATION

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Benefits attributable to employee contributions, taking into account those paid out before termination.
- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.

Honda Retirement Plan

Notes to Financial Statements

- Other vested benefits insured by the Pension Benefit Guaranty Corporation (the PBGC) (a U.S. Government agency) up to the applicable limitations.
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan's sponsor and the level of benefits guaranteed by the PBGC.

NOTE 8 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at March 31:

	2022	2021
Net assets available for benefits per the financial statements	\$ 4,201,899,359	\$ 4,108,706,236
Net assets held in 401(h) account included as assets included in the Form 5500	259,963,249	231,550,300
Net assets available for benefits per the Form 5500	<u>\$ 4,461,862,608</u>	<u>\$ 4,340,256,536</u>

The net assets of the 401(h) account included in the Form 5500 are not available to pay pension benefits and can be used only to pay retiree health benefits.

The following is a reconciliation of the affected components of the changes in net assets available for benefits per the financial statements to the Form 5500 for the year ended March 31, 2022:

	Amounts per the Financial Statements	Differences relating to 401(h) account	Amounts per the Form 5500

• Lump Sum	70.00%

Rationale for significant economic assumptions

- **Interest discounts and 417(e) lump sums for funding:** Prescribed by the IRS.
- **Long-term rate of return on assets:** The expected rate of return on plan assets is based on the median simulated investment return using Capital Market Assumptions within 3 months of the measurement date developed by Mercer Investment LLC for the plan's target asset mix, net of an adjustment for investment expenses (dependent upon asset size and allocation) assumed to be paid from plan assets.
- **Salary increases:** Based on 2015 through 2019 plan year experience as reflected in the Honda Retirement Program Experience Study dated February 2021.
- **Inflation:** Based on the inflation assumption published by Mercer's Asset Class Return Assumptions document within 3 months of the measurement date.
- **Expenses:** Based on prior year's actual administrative expenses adjusted for known or expected changes in PBGC premiums or any other significant events.

Rationale for significant demographic assumptions

- **Mortality for funding:** Prescribed by the IRS.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- **Withdrawal:** Based on 2015 through 2019 plan year experience as reflected in the Honda Retirement Program Experience Study dated February 2021.
- **Disability incidence:** As Honda's population was not large enough for a credible experience study of disability incidence, this assumption is based on the Conference of Consulting Actuaries' 1985 Pension Disability Study Class 1 and Class 3 rates.
- **Retirement age:** Based on 2015 through 2019 plan year experience as reflected in the Honda Retirement Program Experience Study dated February 2021.
- **Benefit commencement age:** Based on 2015 through 2019 plan year experience as reflected in the Honda Retirement Program Experience Study dated February 2021.
- **Spouse age difference:** Based on 2015 through 2019 plan year experience as reflected in the Honda Retirement Program Experience Study dated February 2021.
- **Spouse marriage assumption:** The plan pays a death benefit under all circumstances. Therefore, as assumption of 100% was selected.
- **Form of payment:** Based on 2015 through 2019 plan year experience as reflected in the Honda Retirement Program Experience Study dated February 2021.

Actuarial methods for funding**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** All
The Honda Federal Credit Union (HCU) is a separate controlled group. However, these employees participate in the HRP. As a result, their liability is included in the HRP valuation results. Further the HRP is categorized as a Multiple-B multiple employer plan (i.e., it is funded as if all participants were employed by a single employer).
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does have insurance contracts which are included in the value of plan assets.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The resulting overall weighted average retirement age using these counts as weighting factors is approximately 60.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Effective date and plan year	Original plan: July 1, 1962 (AHM) Restated plan: January 1, 2018 Plan year: April 1 through March 31
Status of the plan	The plan has been closed to new entrants. However, employees employed prior to September 2013 and who elected to continue accruing benefits in the plan continue to participate in the plan. Employees employed prior to September 2013 and who elected to receive enhanced contributions in the Honda Savings Plan stopped accruing pension benefits on January 1, 2014.
Significant events that occurred during the year	Honda offered a Voluntary Retirement Opportunity (VRO) to associates with enhanced benefits (extra four years of age, service & pay and 20-year service eligibility waived for pre-62 pension supplement) during the April 1, 2020 through March 31, 2021 plan year. This was first reflected in the April 1, 2021 funding valuation. To the best of our knowledge, there were no other significant events during the year.
Definitions	
• Eligibility	One year of continuous service and not a member of a unit covered by a collective bargaining agreement unless such agreement explicitly provides for coverage under this plan. Participation is restricted to employees of employers who have adopted the plan. Ineligible employees include student associates or associates from an Affiliated Company working on a temporary basis.
• Employee contributions	None required or permitted.
• Vesting service	Measured in days while employed. Employee credited with one year of service for each 365 day period of employment.
• Pensionable earnings	Salary paid during a plan year for services rendered excluding gifts and awards, bonuses, expense allowances, commissions, severance pay, pay for unused sick, vacation (AHM and HSC only), or other paid time off, overtime pay, shift premiums (HAM, HMA and HTM only), attendance pay, temporary assignment allowances and tax-free Code Section 132(f) transportation benefits or cash in lieu of such benefits.
	Earnings prior to participation are disregarded for AHM and HSC.
Normal retirement	
• Eligibility	Attainment of age 65.
• Benefit	<p>The participant's benefit accrued as of June 30, 2009 plus for service after June 30, 2009 through December 31, 2013:</p> <ul style="list-style-type: none"> • AHM – 2.5% of earnings each year while a participant (2% of earnings each year for participants employed by Honda Aero, Inc. or Honda Aircraft Company, unless participant transfers to one of these two divisions, in which case it should remain at 2.5% of earnings). • HSC – 1.5% of earnings each year while an active plan participant • HAM/HTM – 2.0% of earnings from date of hire • HMA – 2.5% of earnings from date of hire. <p>plus for service after December 31, 2013:</p> <ul style="list-style-type: none"> • AHM, HSC, HAM, HTM, HMA – 1.0% of earnings each year while a participant.

Schedule SB, Part V — Summary of Plan Provisions**Early retirement**

- **Eligibility** Age 55 and 10 years of service.
- **Benefit** The accrued benefit earned to the actual Early Retirement Date, with a reduction as specified below:

For terminations after December 31, 2013:

Age and Years of Vesting Svc.	Reduction
Leave Honda after 55 and 10	0.1667% / mo. From 62

However, for HAM and HTM participants who terminate after December 31, 2013, the early retirement benefit can't be less their accrued benefit as of December 31, 2013 based early retirement factors in effect of December 31, 2013.

For terminations before January 1, 2014:

For AHM/HSC and for HAM/HTM benefits accrued before 2009, the reduction below is from age 62 for AHM/HSC and for HAM/HTM participants with 20 years of service. Otherwise, the reduction is from age 65.

Years of Vesting Service.	Reduction
At least 10 but less than 20	0.3333% per month
At least 20 but less than 25	0.2500% per month
25 or more	0.1667% per month

For HAM/HTM benefits accrued after 2008, the reduction below is from age 62 for participants with 20 years of service. Otherwise, the reduction is from age 65.

Years of Vesting Service.	Reduction
At least 10 but less than 20	0.3333% per month
At least 20 but less than 30	0.1667% per month
30 or more	0% per month

For HMA, the reduction is 0.3333% per month from age 62 for participants with 20 years of service. Otherwise, the reduction is 0.3333% per month from age 65.

- **Social Security Supplement**

Terminate before January 1, 2014:

 - For all early retirements with at least 30 years of vesting service, a \$300 supplemental benefit shall be paid for each month prior to age 62.

Terminate on or after January 1, 2014:

For all early retirements with at least 20 years of vesting service, a \$600 supplemental benefit shall be paid for each month prior to age 62.

Late retirement

- **Eligibility** Termination after Normal Retirement Date.

Schedule SB, Part V — Summary of Plan Provisions

• Automatic form for unmarried participants	Life Annuity
• Automatic form for married participants	Joint and 50% Survivor Annuity
• Optional forms	<ul style="list-style-type: none"> • Joint and Survivor Option -- provides a reduced amount of income during the employee's lifetime; 50%, 75% or 100% continues after employee's death to the spouse for the remainder of spouse's lifetime. • Certain and Life Option -- provides a reduced amount payable for life, with a guarantee of 60 or 120 monthly payments (or other period of months for HTM participants that will not violate the incidental death benefit rule under Code Section 401(a)(9)). • Social Security Adjustment Option -- provides an actuarially computed retirement income, which takes into account the employee's primary insurance amount under the Federal Social Security Act payable as of age 62, in effect on the date of his retirement. • Lump Sum Option -- provides a one-time payment of the present value of the participant's vested accrued benefit and, if applicable, their Social Security Supplemental. The lump sum includes the value of early retirement subsidies, if applicable.
• Optional form conversion factors	Amount of an optional form of benefit (other than a lump sum or Social Security Adjustment Option) which has a value equivalent to the benefit or benefits otherwise payable under the plan, computed on the basis of a 7.0% annual interest rate and the RP-2000 combined employee and healthy annuitant mortality table projected to 2015 (restated as a unisex table by applying 70/30 male/female weighting)
	For lump sum and Social Security Adjustment Option, PPA interest rates equal to the 3-tiered minimum present value segment rates for the fifth full month preceding the first day of the Plan Year during which the lump sum payment occurs or level income annuity payments commence, and mortality applicable to the plan year of payment.
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. The limit is indexed annually. For 2021, the limit is \$290,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2021, the limit is \$230,000.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated effective January 1, 2018 are included in this valuation:

- **Most recent plan amendments included:** Amendment #2 to the plan document as amended and restated effective January 1, 2018, dated December 10, 2020.
- **Plan amendments excluded:** None.

Schedule SB, Part V — Summary of Plan Provisions**• Late retirement increases:**

- *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. Current active participants over age 70½ are valued excluding the late retirement actuarial increase. Benefits include compensation and service through expected retirement date. Due to the minimal number of participants past normal retirement age that have not yet commenced benefits, exclusion of late retirement adjustments prior to actual retirement is not material.
- *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.

- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.

- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded****• IRC Section 436 benefit restrictions:**

- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

Maximum compensation amounts under IRS rules were updated from 2020 to 2021.

The Voluntary Retirement Opportunity (VRO) which enhanced benefits for those age 55 with 10 years of service or age 65 with 5 years of service as of June 1, 2020 is first reflected as of April 1, 2021. If elected, the VRO provided an additional 4 years of age, additional 4 years of service, additional 4 years of pay, and current 20 year service eligibility waived for the monthly pension supplement up to age 62.

Schedule SB, line 24 — Change in Actuarial Assumptions**Actuarial assumption changes since prior valuation**

- Assumptions for salary scale, retirement rates, withdrawal rates, form of payment, benefit commencement age for vested terminated participants, and spousal age difference were updated based on the most recent experience study dated February 2021.
- The expense component of normal cost decreased from \$11,790,000 to \$8,950,000 to reflect expectations for the current plan year. The expected change in the PBGC variable premium is the primary driver for the change in the expense assumption.
- The expected investment return increased from 6.50% in 2020 to 6.70% in 2021.
